A FAMOUS COLLABORATION —

Working with the legendary Italian styling house Zagato to combine traditional craftsmanship with high technology and absolute exclusivity, the Aston Martin V12 Zagato delivers a unique combination of race-proven handling and performance, rarity and fastidious attention to detail — both inside and out.

With its effortless beauty guaranteed to stir the senses, the V12 Zagato is destined to be one of the most highly sought models in Aston Martin’s rich history.

A fabulous celebration of the iconic DB4GT Zagato, which celebrates its 50th anniversary this year, it provides the perfect inspiration for the next 50 years.

Dr. Ulrich Bez
Chief Executive Officer
AN HISTORIC PARTNERSHIP —

Aston Martin and Zagato have collaborated for 50 years, my own Father Elio and Uncle Gianni worked with David Brown and his talented team to produce the iconic DB4 GT Zagato.

The fruits of our combined work have always been crafted in limited numbers because they should be something truly special and collectable.

The Aston Martin V12 Zagato embodies something of our combined design language, we pride ourselves on the balance of high technology and hand craftsmanship which make up the heart and soul of every V12 Zagato.

They are indeed the choice of the ‘individualist’, someone who appreciates understated style, beauty and substance, but is not afraid to be different.

Dr. Andrea Zagato
President, Zagato
WHERE IT ALL BEGAN —

The Aston Martin DB4GT Zagato was introduced in October 1960 at the London Motor Show. It was effectively a DB4GT, lightened and improved by the Zagato factory in Italy. Nowadays, due to the rarity and popularity of the DB4GT Zagato, these cars are worth a considerable amount of money, and at auctions they have reached well in excess of £4 million.
Using Aston Martin’s excellence in design, we have introduced a modern interpretation of the famous Aston Martin and Zagato collaboration to celebrate the iconic DB4GT’s 50th anniversary year.

The V12 Zagato is elegant but brutal which reflects the perfect balance between race performance and pure Aston Martin design. The original DB4GT Zagato was a true icon, powerful and graceful; the new design is a fusion of unique and original features and is a true representation of the spirit of the DB4GT Zagato. For us it is a forward thinking Zagato which pays its respect to the past.

Marek Reichman
Director of Design

LOOKING TO THE FUTURE
WITH A NOD TO OUR PAST —
At its world premiere, the Aston Martin V12 Zagato was thrilled to receive the Concorso d'Eleganza design award for concept cars and prototypes at Villa d’Este on the shores of Lake Como, Italy.
The initial phase of an intensive development programme has already borne fruit in motorsport success, with a thrilling demonstration that the new design fully carries forward the spirit and power of the legendary DB4 GT Zagato.

In front of some 200,000 spectators at the infamous Nürburgring Nordschleife, the Aston Martin V12 Zagato concept cars were just weeks after being unveiled. Both V12 Zagatos, powering on 500 litres of the original DB4 GT Zagato 24-carat gold-plated engine,Navigated the notoriously tough 24hr endurance race.

Given the ethos and commitment that has driven Aston Martin for almost 100 years, you won’t be surprised to hear that our CEO Dr Ulrich Bez and V12 Zagato Programme Manager Chris Porritt were key members of the driver teams behind the wheel of the two cars – which for the event were affectionately christened Zig and Zag.

BORN ON THE TRACK —
Clothed in lightweight hand-rolled aluminium and carbon fibre body panels, over 2000 hours of craftsmanship are involved in the construction of the V12 Zagato. This represents the extreme application of Aston Martin’s know-how and the technologies, materials and techniques that have been passed on creating the current generation of Aston Martin cars making the Aston Martin Zagato a contemporary Aston Martin like no other.

The use of the finest materials has always marked out Aston Martin from its rivals. Exquisitely shaped alloys and the finest soft British hide leathers are joined by high-tech materials like carbon-fibre composites and lightweight metal castings.

FROM CONCEPT TO PRODUCTION —
A GENUINE RARITY —

A unique blend of power, beauty, soul, refinement, and dynamic agility, the V12 Zagato is built on Aston Martin’s VH bonded aluminium chassis. Beneath the louvred bonnet lies the highly acclaimed 6.0-litre V12 engine, its 510 bhp (380 kW / 517 PS), and 570 nm (420 lb ft) of torque delivering spectacular power to stir the senses of the exclusive few.
A WORK OF ART —

A fluid, elegant sculpture, with every element shaped to perfection, from the fierce Z-shaped grille through to the pronounced crease of the rear wheel arch.
LIGHTNESS, STRENGTH AND SPEED —

The sculpted aluminium double-bubble roof and bulging haunches are Zagato trademarks while the rear wing, diffuser and splitter, detailed from the revolutionary, race-bred carbon fibre material, showcase the beautiful carbon fibre weave and hint at the V12 Zagato's huge performance.
Five exceptional paint colours have each been inspired by hues and shades from the original DB4 GT Zagato, fifty years ago.

**Carbon Black**
Carbon Black’s deep rich shade of black creates a compelling finish that evokes the transmission’s bare carbon shroud, in deference to the original DB4 GT Zagato.

**Alloro Green**
Developed exclusively for the V12 Zagato, Alloro Green is a modern take on the racing green livery used in some of the most famous DB4 GT Zagatos.

**Alba Blue**
The Alba Blue recalls the very last DB4 GT Zagato, sold to Mr. P. A. Jones of Stockport in 1962, finished in Caribbean Pearl.

**Scintilla Silver**
The V12 Zagato’s Scintilla Silver finish transforms the Zagato into a piece of dramatic, purposeful sculpture.

**Diavolo Red**
This rich racing red embodies the passion and fire at the heart of the V12 Zagato. Diavolo Red contrasts strongly with the black carbon fibre trim to create functional beauty.
TO LOOK IS TO FEEL —

Quality, style and traditional craftsmanship are an integral part of everything we do.

Right down to the perfect hand stitching of the leather, they define the personality of every car we build. Aston Martin’s unique approach to styling and meticulous attention to detail ensures you are more than just the owner of a legendary supercar; you are part of a prestigious and enriching lifestyle experience that is simply incomparable.
THE TRUE EXPERIENCE COMES FROM WITHIN —

Venture inside the Zagato’s cosseting interior and the unique hand-stitched quilting, the tactile feel of the seats, the smell of the semi-aniline leather, and the stirring sound of the V12 engine will all captivate your senses.

REVOLUTIONARY FORMS —

Each exquisitely shaped wheel is a symbol of the engineering precision and design perfectionism that has gone into every detail of this extraordinary piece of high-performance sculpture.
SPECIFICATION —

The V12 Zagato

ENGINE

— 5935 cc V12
— 48-valve, quad overhead camshaft
— All-alloy, front mid-mounted engine
— Electronic fuel injection
— Maximum power 380 kW (517 PS/510 bhp) at 6500 rpm
— Compression ratio 10.9:1
— Fully catalysed, stainless steel exhaust system with active bypass valves

TRANSMISSION

— Rear mid-mounted, six-speed manual
— Final-drive ratio 3.71:1
— Limited-slip differential
— Acceleration 0-100 km/h (0-62 mph)
— Max torque 570 Nm (420 lb ft) at 5750 rpm

DIMENSIONS

— Length 4385 mm (172.6”)
— Width 2022 mm (79.6”) including mirrors
— Height 1250 mm (49.2”)
— Boot capacity 300 litres (10.6 cu ft)
— Fuel capacity 80 litres (17.6 UK gal/21.1 US gal)
— Estimated Kerb weight 1680 kg (3704 lb)

BRAKES

— Front: Ventilated carbon ceramic discs, 398 mm diameter with six-piston monobloc calipers
— Rear: Ventilated carbon ceramic discs, 360 mm diameter with four-piston monobloc calipers

CO2 EMISSIONS

— Combined 16.4 (17.3)
— Extra-urban 11.7 (24.1)
— Urban 24.3 (11.6)
— Litres/100 km (mpg)

FUEL CONSUMPTION

— 388 g/km

IN-CAR ENTERTAINMENT

— 1000 W Bang & Olufsen BeoSound audio system with ICEpower® technology
— Organic Electroluminescent (OEL) displays
— Automatic temperature control
— Powerfold exterior heated mirrors
— Dual-stage driver/passenger front airbags
— Traction Control (TC)
— Emergency Brake Assist (EBA)
— Electronic Brakeforce Distribution (EBD)
— Anti-lock Braking System (ABS)
— Dynamic Stability Control (DSC) with compatible Adaptive动态系统

SEATS

— Lightweight seats with six way electrical adjustment
— Leather seats
— Zagato stitched logos and plaques
— 'Track' mode
— Airbags and three position memory boot release
— Immobiliser

INTERIOR OPTIONS

— 1000 W Bang & Olufsen BeoSound audio system
— Organic Electroluminescent (OEL) displays
— Automatic temperature control
— Powerfold exterior heated mirrors
— Dual-stage driver/passenger front airbags
— Traction Control (TC)
— Emergency Brake Assist (EBA)
— Electronic Brakeforce Distribution (EBD)
— Anti-lock Braking System (ABS)
— Dynamic Stability Control (DSC) with compatible Adaptive dynamic system

INTERIOR

— Ashtray and cigar lighter
— First-aid kit
— Garage door opener
— Second glass ECU
— Trip computer
— Rear vision camera
— Satellite navigation system
— Automatic temperature control
— heated rear screen
— Powerfold exterior heated mirrors
— Dual-stage driver/passenger front airbags
— Traction Control (TC)
— Emergency Brake Assist (EBA)
— Electronic Brakeforce Distribution (EBD)
— Anti-lock Braking System (ABS)
— Dynamic Stability Control (DSC) with compatible Adaptive dynamic system

IMPORTANT NOTICE

Pictures and Word mark
The cars illustrated in this brochure may include additional options not featured in this brochure or that are only available at extra cost.
The Bluetooth word mark and logos are owned by the Bluetooth SIG Inc and any use of such marks is under license.

Updates
Aston Martin Lagonda Limited is constantly seeking ways to improve the specification, design and production of its cars and alterations take place continually, including to the V12 Zagato.

Whilst every effort is made to produce up-to-date brochures about our products, this brochure should not be regarded as a guide to any currently available products, options, accessories or specifications, including or irrespective of the V12 Zagato. The brochure is merely an indication of the kinds of Aston Martin product and service which may be available from time to time.
The text and photographs in this brochure relate to specifications, options, accessories and/or services that are not available for sale in some countries or which have been superseded or are otherwise no longer available. Images shown may not be reflective of the final car.

No offer of sale
This brochure does not constitute any offer for the sale of any particular car, product, option, accessory and/or service or combination of the same, including the V12 Zagato.

Aston Martin draws your attention to the fact it does not intend to offer the V12 Zagato for sale in all global markets and does not warrant that the V12 Zagato is available for sale, and/or suitable for, all global markets.

Performance results
Performance results, fuel consumption figures and CO₂emission data quoted in this brochure are obtained under controlled test conditions in accordance with applicable regulations and may vary depending on the specification of the particular car, road and environmental conditions and driving style. These values may also impact on performance results, fuel consumption, CO₂emissions, road-legal status and handling.

Published figures should be used for comparison purposes only and verification should not be attempted on public roads. No guarantee is given (express or implied) of performance results, fuel consumption or CO₂emissions.

Aston Martin Lagonda Limited strongly urges that all speed laws be obeyed and that safety belts be worn at all times.

The weight of the car will influence the level of CO₂emitted and as a result, cars with higher levels of specification and factory-fit options may emit higher levels of CO₂emissions. Vehicle interior body is charged according to the weight of and CO₂emissions of the standard car, as published in this brochure.

All petrol engines are fitted with a catalytic converter.

Copyright and other intellectual property rights
This brochure and its contents are protected by various intellectual property rights, including without limitation, copyright, design rights and trademarks, that are owned or licensed by Aston Martin. You may not copy or reproduce this brochure or any of its contents for any commercial purpose without our prior written consent.

Distributors and dealers
Distributors and dealers are not agents of Aston Martin Lagonda Limited and have absolutely no authority to bind Aston Martin Lagonda Limited by any express or implied undertaking or representation. Sales by dealers or agents are subject to their terms and conditions of sale.

Company Details
Aston Martin Lagonda Limited (company number 01192355) has its registered office at Banbury Road, Gaydon, Warwickshire CV35 0DB, England. Telephone +44 (0)1926 644644. Facsimile +44 (0)1926 644333. VAT number 904 447 237.
