When it came to redesigning the Audi A3 family, we established a class of vehicles with bold, distinguishable personalities that share the same commitment to meticulous craftsmanship and engineering. The Sedan, Cabriolet, S3 Sedan and Sportback e-tron® models sport a more dynamic look while offering a suite of standard premium features and available advanced technologies like the Audi virtual cockpit, Audi connect® and driver assistance features. Three traditional powertrains—including a new 2.0-liter TFSI® engine for front-wheel drive models—help deliver a thrilling drive. For those looking to drive the future, the plug-in hybrid electric A3 Sportback e-tron® offers efficiency and versatility without compromising on design. You could say that the A3 family is proof that Audi is constantly writing new rules on progressive automotive design.

An interpretation that matches its intent.

The artistic statement behind the redesigned exterior of the 2017 Audi A3 is clear from first glance. You get the same distinction you’ve come to expect from Audi with an array of sporty elements. The bold design is enhanced by striking features such as new available wheel designs, vibrant paint colors, and an S line® exterior appearance including aggressive front and rear bumpers and side sills. Illuminating the arresting look of the body is a new diamond-inspired Singleframe® grille, a dynamic undercut headlight design and redesigned LED light signatures. Strong design lines stretch across the length of the vehicle, both highlighting its stature and proving that this is the sporty vehicle for the next generation.
A front-row seat to luxury, even in the back seat.

With its wraparound dash, innovative three-dimensional inlays and horizontal design lines, the interior offers a sense of space that feels like a larger sedan. Audi hallmark craftsmanship and ingenuity are apparent from the minimalist look of the center console to the intuitive slim-line control buttons and aluminum accents that give the whole interior an elevated, uncluttered feel. With a surprising amount of leg room, supple leather seating surfaces and a standard panoramic sunroof for Sedan and e-tron® models, the interior of the Audi A3 showcases how we put you and your passengers at the center of our world.
For those who require infinite headroom.

Indulge in open-air thrills felt with the top down in your Audi A3 Cabriolet. With the wind gliding past you, discover a thrilling connection to the world around you—while enjoying the finer things on the inside, like standard six-way partial power front seats with an available heated front seating feature. With its design, precision and details like an aluminum-optic windshield frame and an acoustic folding roof that can be deployed at speeds up to 31 mph, the A3 Cabriolet is bringing polished style to the road ahead.
We understand that you can’t control everything you experience on the road. That’s why the Audi A3 airbag system was designed to work together with our safety belts and properly adjusted head restraints to provide a comprehensive safety measure. Electronic Stability Control (ESC) with a secondary collision brake assist feature works in sync with the Anti-lock Brake System (ABS) to help minimize loss of stability when the vehicle needs it. The A3 also offers lightweight construction technology that provides strength, resilience and crumple zones that help mitigate potential injuries. Together, these advanced systems have helped award the 2017 Audi A3 Sedan with some more hardware we are proud of—an NHTSA 5-Star Overall Safety rating.

1 Airbags are supplemental restraints only and will not deploy in all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age. 2 Government 5-Star Safety Ratings are part of the National Highway Traffic Safety Administration’s (NHTSA’s) New Car Assessment Program (www.SaferCar.gov).
Choose your power source.

As we see it, the thrill of driving lies where power meets confidence. With available quattro® all-wheel drive in the Audi A3, you can experience the intensity of its precision handling. Its overall power speaks to confident design with two available 2.0-liter TFSI® direct injection engines and the quick shifts of the S tronic® dual-clutch automatic transmission. And with performance-enhancing options such as available Audi drive select, paddle shifters and sport suspension, you could say we’ve provided the tools to help you prepare for an exciting performance that moves you.

Powerful performance drives us forward.

The bold look of the Audi S3 Sedan only hints at the powerful performance that’s housed under the hood. With 292 hp, traction provided by quattro® all-wheel drive, Audi progressive steering and available Audi magnetic ride suspension, this is a precision sports car that can get performance potential out of the engine without breaking a sweat! The S3 performance sedan expresses the kind of power that feels as good as the vehicle looks on the outside.

To be refined you’ve got to go bold.

The dramatic sport interior of the S3 is unmistakably Audi, from the pronounced seat side bolsters of the available S Sport seat, to the racing-inspired three-spoke flat-bottom multifunction sport steering wheel with shift paddles. Enjoy the sport-luxury feeling enhanced by available Fine Nappa leather with contrast diamond stitching. Nothing about the S3 Sedan is a soft gesture—rather, it’s a bold statement on just how incredible Audi craftsmanship should be.
Make an electrifying choice.

As we see it, just because you are looking for the efficiency and versatility of a hybrid vehicle doesn’t mean you should sacrifice on premium features or performance. The plug-in hybrid electric Audi A3 Sportback e-tron® can offer the cleaner, more efficient operation of an electric vehicle coupled with the long-distance cruising range and convenience of a gasoline drivetrain. Essentially, you can enjoy the best of both worlds in one beautifully designed vehicle.

Leading the charge.

Audi engineering doesn’t stop with the A3 Sportback e-tron®. It continues its innovative ways with the Audi e-tron charging system, which is included with the vehicle. This charger can replenish your battery in as little as 2 hours and 15 minutes using a 240-volt source. It can also be paired with an available wall-mounted cabinet for a truly elegant, home charging station. If you’re planning on longer road travel, you can take your charger with you and use it where there’s an available outlet. You can also take advantage of an available smartphone app that can check your vehicle’s charge level and precondition the interior—turning on the climate control to heat or cool the cabin—for the ultimate in convenience.

A mode to fit your mood.

With a wealth of driving modes to select from, you can choose how you want to get to your destination. Engage EV mode and you can have the nearly instantaneous torque of the 75 kW (102 hp) electric motor at your disposal, allowing you to navigate the streets. Taking a road trip? Hybrid mode can be ideal for long-distance driving. It automatically chooses the most efficient power source based on speed, performance demand and other factors. And when you want to feel this vehicle’s full performance potential, dial in Sport mode. It can call up the available power from both the combustion engine and the electric motor to deliver all-out performance.

On our radar, off your nerves.

Our comprehensive portfolio of available driver assistance technologies can help you to respond to unexpected situations on the road. Standard Audi pre sense® front helps prepare for an imminent front-end collision with visual and acoustic warnings and, when needed, partial emergency braking. In the event that your vehicle begins to leave a lane without signaling, available Audi active lane assist can give you a steering-wheel vibration warning and gently corrects your steering, helping you avoid a potential incident.

The updated Audi A3 packs more available intelligent features than it ever has before.

Smart, bold and beautiful. The available Audi virtual cockpit offers you a full picture of what you need to see, in your field of vision, with vibrant color on a 12.3-inch display. In the A3, the Audi virtual cockpit—a fully digital instrument cluster—offers two unique modes for viewing data: Classic and Infotainment. Classic mode offers the traditional look of a speedometer and tachometer, whereas Infotainment mode minimizes these gauges while providing space for a larger panoramic navigation or infotainment visual. And on S3 models, an additional Sport mode displays a large central tachometer along with performance stats. For a more hands-on approach, consider our available MMI® touch rotary controller with integrated touchpad and intuitive two-button function keys.
Take comfort in the familiarity of your compatible mobile device when you connect it via available Audi smartphone interface. When linked with your iPhone®, Apple CarPlay® allows you to control your iPhone® through Siri® and the car’s controls to access your favorite apps such as Apple Music®, Maps, Messages and more. If you have a compatible Android device, Google™ Android Auto will connect you with Google Play™ Music, Google Maps™, Google Search and more.1

Our vision of live sound.

From perfectly sculpted high notes to a crystal-clear mid-range to deep-diving lows, the standard Audi sound system is a veritable orchestra of engineering that is perfectly integrated within your A3. Through an available 705-watt, 14-speaker system in your Audi A3 Sedan or e-tron®—or an available 625-watt, 13-speaker system in your A3 Cabriolet—the sound system fills the cabin with faithfully rendered, thrilling sound. This shouldn’t be surprising, considering that Bang & Olufsen® and Audi sound engineers worked tirelessly to craft a perfect acoustic environment and the ideal delivery system for it, even adjusting volume and timbre to balance changing ambient noise levels. Whether you’re the type who wants to be soothed by sound or inspired by it, we promise that if you take a moment to listen, what you’ll hear is the embodiment of how good life can sound in your Audi.

1 See Owner’s Manual for further details and important warnings about the keyless ignition feature. Do not leave vehicle unattended with the engine running, particularly in enclosed spaces.
2 These tires may ride less comfortably, make more noise, and wear more quickly than other choices. To avoid tire, rim, or vehicle damage, it is important that inflation pressure is regularly checked and maintained at optimum levels. Tires are supplied and warranted by their manufacturer.
3 Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age.
4 The features discussed are not substitutes for attentive driving. See Owner’s Manual for further details, and important limitations.
5 Audi Navigation plus depends on signals from the worldwide Global Positioning Satellite network. The vehicle’s electrical system, and existing wireless and satellite technologies, must be available and operating properly for the system to function. The system is designed to provide you with suggested routes in locating addresses, destination and other points of interest. Changes in street names, construction zones, traffic flow, points of interest and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested navigation plus route. Periodically the mapping is updated and a new DVD will be required in order to maintain the latest navigation information available to you. These will be available for purchase from time to time at additional cost. Consult your dealer or call 1-800-FOR-AUDI for details.
6 Always pay careful attention to the road, and do not drive while distracted. Connect PRIME services are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. Trial or paid subscription required. Connect PRIME services require vehicle cellular connectivity and availability of vehicle GPS signal; certain services collect location information, see Terms of Service for information about how to disable. See Terms of Service, Privacy Policy, and other details at www.audiusa.com/audiocarconnectprivacy and www.audiusa.com/audiocarconnect-terms. Connect PRIME services should only be used when it is safe and appropriate.
7 Pre-paid session-based plans, available for domestic use only. Plans expire when full data allotment is used or time period ends, whichever comes first. Monthly plans auto-renew every 30 days and charges are billed to the credit card on file on the last day of the 30-day term, for the next 30-day time period, unless canceled. To cancel monthly plans at any time, visit myaudiusa.com or call 1-877-550-2834. Other plans do not auto-renew. Wi-Fi Connectivity for up to 8 Wi-Fi capable devices. General Wireless Service Terms: Subject to the Session Based/Wireless Data Services Agreement. Other restrictions and terms apply and may result in service termination and/or limitations. Coverage and service not available everywhere.

¹ Top track speed is electronically limited in the U.S. Always obey all speed and traffic laws. ² 2017 EPA estimates not available at time of publication. Your mileage may vary and depends on several factors, including your driving habits and vehicle condition. ³ Never drive until the tank is completely empty. The irregular supply of fuel that results from that can cause engine misfires. Uncombusted fuel will then enter the exhaust system. This can cause overheating and damage to the catalytic converter.
