It’s Audi because

More than just cars, more than just performance. Audi is about the nature of perception, determining how people will respond to and interact with innovative design. It’s about applied physics, how things glide through the air and overcome inertia through the application of power, acceleration and exhilaration. It’s about artistry, and the way materials elicit a tactile response and provoke an emotional response. It’s chemistry and how it bonds with you. It’s poetry written in metal, engineering and design. Audi is the product of learning and application of knowledge. At its best, it is a dynamic example of what humans can create when they are vested in creating something better and bolder. So Audi is not just about cars. But then again, of course, it’s also about cars.
Excessive luxury is not our goal. But we feel that luxury doesn’t mean “more,” it means “proper.” Proper design, proper fit, proper precision—what Audi thinks of as design purity. Our engineers and designers know that a baroque clock won’t tell time any better than a streamlined one, and all the distractions that surround it actually detract from the purpose of the clock itself. Unless, of course, the purpose is just to be noticed, instead of used to its greatest potential. We think the real purpose of design is simplicity, elegantly rendered. We think you’ll see and feel that concept throughout our Audi models. In the clean design lines of the exterior, the streamlined dash, and Audi MMI® interface. In our intuitive available Audi connect® the seamless fit and finish of our materials and the unmistakable look of our Audi Singleframe® grille. They all work in concert for a pure aesthetic of timeless taste and precision.

1 Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed herein are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only. If features and components listed and costs are unavailable or not available.

2 Features and technologies listed will not be available on all models.
It’s Audi because our reputation hinges on the quality of things you don’t see.

It’s said that when one door closes, another one opens. It sounds as if whoever said it spent some time at an Audi research and development facility. After all, while you’ll open and close the door on your Audi thousands of times without thinking about it, we’ve obsessed about it, in detail. Not just about the reliability of it opening and closing, obviously, but on the proper weight that will make it more pleasing to close. What it should sound like when it is shut. How the locks should click when they are engaged. The optimal acoustic placement for the speaker port. There are the hinges too, of course. And the door itself, which is designed to take the brunt of side-collision impacts, along with several dozen other considerations that we take into account when designing our doors (to say nothing of the countless other components, processors, sensors, features and the inner workings most people will never see). Our doors are more than a symbol of welcoming you into your vehicle, they are products of Audi engineering, and our reputation hinges on them as much as our hinges help support the door.
You’ll find truth in your corner. Torque vectoring is a handling feature so advanced that it seems to respond to your impulses even before you turn the steering wheel. An evolution of cross-axle lock, this system works within the Audi quattro® all-wheel drive system while utilizing Electronic Stability Control (ESC) and the Anti-lock Braking System (ABS) to help sense reduced load or wheel-slip on the inside cornering tire, helping to make turns smoother and more responsive.

As you can see, we’ve always felt that the best ideas are the ones that stick. And nowhere is that more true than with Audi quattro® all-wheel drive. Since 1980, we’ve been stuck on articulating an expanding vision of what progressive all-wheel drive technology can deliver. We didn’t simply look at it as something to use in poor conditions, but rather as a performance technology that’s built to handle roads from the Alps to the autobahn—and points beyond. You’ve seen quattro® capabilities in the way we dominated the World Rally Championship for years, in the grip you have in inclement weather, and in the variable near-wheel-biased power you enjoy in good conditions. For more than 30 years and with five million quattro® systems installed in Audi vehicles, we have continued to refine the technology, developing a rear sport differential to help maximize performance, and torque vectoring to assist with cornering traction while helping to improve handling. We boldly stuck to what worked while the world was trying to catch up, and we built on our vision by adding to a gripping heritage of Audi Sport® performance.

It’s Audi because conditions don’t have to dictate how you stick it to the road.
It’s perfectly fine for us to admit that other engines have more cylinders, have more horsepower and have larger displacements. It’s just that we’ve made our engines lighter and more efficient than others, to optimize what we call power density. Because anyone who has driven an Audi knows unmistakable power when they feel it. It means strength that pulses with torque at the moment of acceleration, provides a true, quick response as you change lanes, and turns the most routine cloverleaf into a joyful application of performance handling. Sure, we love hitting the throttle and feeling the thrust of acceleration, but we also want our drivers to experience the balance and precision of Audi engineering. From the A3 to our track-bred line of Audi performance cars, we are in the business of engineering emotion using more compact engines that concentrate power, while using less weight to your advantage, helping improve handling to the point where others just feel heavy.

**TDI**
A turbocharged, fuel-saving variant, our TDI clean diesel engine delivers uncompromising Audi performance with bold efficiency. Yes, it gets better mileage per gallon than comparable gasoline engines, but it also produces more low-end torque, which is best expressed in the elasticity you have when passing in the 30- to 60-mph range.

**FSI**
The Audi’s FSI direct injection fuel management and delivery system directly injects fuel into the combustion chambers at precisely managed times and depths. What that means for drivers is that a fully homogenized intake charge helps increase power while also reducing fuel consumption and emissions, making efficiency more powerful.

**TFSI**
At Audi, TFSI represents a combination of two of the brand’s core areas of expertise—direct injection and forced induction. By adding forced induction (turbocharging or supercharging) to Audi’s FSI direct injection, the pressurized intake charge is cooled by directly injected fuel, thus achieving efficiency and performance combined with higher compression ratios—previously only attainable by naturally aspirated engines.

Ants can carry up to 50 times their body weight. That got us thinking about lightweight structures, smart engineering and true performance.
It’s Audi because spicy chicken is your destiny.

If you are craving an Audi, we know your tastes run a little bold. But what happens when you crave spicy chicken, or a nice vindaloo, or some pepper salsa? Well, in your Audi, you can just say the word, and we’ll help find the heat. With available Audi connect®, we’ve developed a way to seek out your destiny, even if that’s just finding the closest gas station, or the best hotel. Audi connect integrates Google™ technologies, like Google Earth™ with 3D satellite imagery, with Audi MMI® Navigation plus. It also provides Wi-Fi® connectivity for up to eight passenger devices to help you stay informed. Check local fuel prices, weather information and, yes, the closest Szechuan restaurant using Google™ Local Search capabilities. Think of where that might take you.1,3

If you are craving an Audi, we know your tastes run a little bold. But what happens when you crave spicy chicken, or a nice vindaloo, or some pepper salsa? 1 Always pay careful attention to the road, and do not drive while distracted. The features and technologies described above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only. 2 Audi MMI® Navigation plus depends on signals from the worldwide Global Positioning Satellite network. The vehicle’s electrical system and existing wireless and satellite technologies must be available and operating properly for the system to function. The system is designed to provide suggested routes in locating addresses, destinations and other points of interest. Changes in street names, construction zones, traffic flow, points of interest and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested Audi MMI® Navigation plus route. Periodically mapping updates will be available for purchase at an additional cost. Consult your dealer or call 1-800-FOR-AUDI for details. 3 Optional features. Features and technologies listed will not be available on all models.
It seems strange to say that, while we build strong, complex and high-performing machines, we’re naturalists at heart. Then again, it might not be that unusual, seeing how nature itself builds strong, complex and high-performing machines as well. When we developed the thinking behind our Audi ultra® lightweight technology initiative, we knew that nature would serve as an inspiration to greater structural efficiency. Take the structure of the elephant skull pictured here. It has to be lightweight, yet capable of carrying a heavy load. It’s porous, but its structure is such that it enhances its stability and strength. We do the same, for example, with aluminum. Positioned one way, aluminum materials can be flexible. Positioned another, they are strong and rigid, and give better support. We also looked to bamboo, which is strong at the conjoined areas (nodes), and flexible along its stem. Our designs allow for both rigidity and flexibility where each is most needed, and for efficiency overall.1 As we continue to develop strategies to improve the performance aspects and efficiency of our vehicles, we don’t shy away from the world around us. We boldly engage it even closer still.

It’s Audi because the elegant structure of nature becomes a blueprint of efficiency.

1 Features and technologies listed will not be available on all models. 2 See www.fueleconomy.gov for EPA estimates. Your mileage will vary.
It’s Audi because you I.D. our eye queue.

Even if you knew nothing about Audi, you’d still know if you were staring at one because we are unafraid to stare back. In fact, that exchange might just be love at first sight. That’s how much our iconic LED lighting technology stands out from the pack. So we had the bright idea to make our LED daytime running lights look even more intense. Now featuring a solid, sleek diode design that ingeniously reimagines our signature style, Audi I.D. lighting technology is once again unmistakably ours. It is an efficient, beautiful way to help you see and be seen during dawn and dusk. Look deeply into our eyes, and just I.D. the truth of our attraction.

1 Features listed are available on all models.
Get away from it all, every day, around 6 p.m., when you leave work and enter into a customized world that’s completely dedicated to your comfort and entertainment. This place, of course, is the cabin of your Audi. Optimized luxury, designed by committed craftsmen who have you in mind when they choose the leather seating surfaces, create the adjustable seats or provide the refinement of ergonomic design and a more intuitive MMI. There are small touches that help simplify the overall design, like a stylish contoured electromechanical parking brake at the foot of the center stack and an available Bang & Olufsen® retracting acoustic lens, perfectly positioned for richly detailed sound quality. And there are large statements, like a steering wheel with easily accessed controls to help you feel comfortably at ease. It is your Audi interior, where you leave the world behind, even when the world might seem in front of you on the way home.

It’s Audi because optimized design makes your commute shine a little brighter.

1. Steering wheel
   The Audi steering wheel is both an ergonomic command center and an elegant structure of performance. Easily accessed controls on the wheel give you control over your MMI® and Audi connect®, which is designed to give you effortless access to useful information on the driver information display.

2. Audi connect and MMI
   Simple voice or finger motions can help you access information, music and Bluetooth® enabled features.

3. Electromechanical parking brake
   Properly positioned in the center console, the parking brake control is another small, but telling, design cue for Audi. The parking brake control serves to enhance the overall ergonomic intent of the vehicle, while delivering easy access and simple functionality.

4. Bang & Olufsen® Advanced Sound System
   With retractable acoustic lenses and speakers positioned around the Audi specifically to optimize sound quality, Bang & Olufsen® engineers have worked tirelessly with Audi sound designers to create an immersive audio experience.
With innovative pigments and dyes, the Thermocool technology Audi uses in select leather seating surfaces just might prevent that startling moment on hot sunny days. You know the one, when you sit down and feel, immediately, an intense, searing feeling on your leg. Now you can keep your cool. This supple leather doesn’t heat up as much in direct sunlight as traditional leather does. In fact, the difference between untreated leather and the temperature on your seat treated with Thermocool can be as much as 86°F. A perfect solution for your Audi A5 Cabriolet, TT Roadster or R8 Spyder, Thermocool technology is Audi to its core. Because it keeps its cool, you can keep yours.

It’s Audi because it’s as if we have SPF for seats.
Stepping away from convention.

You’re about to transition from a macro view of Audi as a brand to the specifics of a Coupe and Cabriolet built to shift paradigms. Climb into the Audi A5, and you’ll never want to drive anything else. Its iconic design is a powerful expression of strength, our way of standing out above the fray. The A5 makes a statement as bold as it is exciting to drive.

The story of our collection of obsessions.

Precision. Design. Vision. These are the kind of attributes that we deliver as a company, the kind of passions that go way past getting you from point A to point B. That’s because Audi knows that how you get to your destination is just as important as where you’re going. And so it is with us as a luxury brand. Our obsessions are our commitments, a collection of inspirations that make up our core truth: That from a foundation of brilliant engineering, we craft more than great vehicles—we tell great stories.
We dared, while the others watched.

Nothing captures the imagination like an automobile that turns heads. That’s why every double-take the Audi A5 gets is a testament to the adventurous spirit and bold sensibilities of both Audi designers and drivers alike. And that’s why there is such a strong response to the sophisticated lines that sweep across the A5, as well as to the seductive punch of its acceleration. Everything we build into the A5, even the way we hide the B-pillar, is meant to give it a sense of movement. Something you might notice even when it is standing still. Heads turn, because we pay attention to every detail, from the precision handling to the striking headlights with available LED daytime running light technology, which seem to stare back at the attention of onlookers. Available in Coupe and Cabriolet, there is an A5 crafted to provoke emotion, and maybe even a little envy, in every person who looks as you drive by.
Sometimes standing on the edge gives you the greatest view.

It may be, as has been suggested, that the Audi A5 is a polarizing vehicle. Then again, magnets are like that. Of course, we know what draws people in. The unmistakable look, to start, but the power too. Available LED daytime running light technology introduces inviting illumination, and the tapered Audi SingleFrame® grille adds a bold sense of daring and an iconic look to the front fascia. But one senses the possibility of more, such as the power distributed by the impressive 2.0-liter turbocharged Audi TFSI® engine and optimized by the available Audi quattro® all-wheel drive. The irony isn’t lost on us that, as we sharpened the design lines, as we made the body more streamlined, and as we pushed the envelope of style as far as we could while further embracing the spirit of our Audi Sport® heritage—in short, as we stood farther out on the edge—we’ve seen more people gravitating toward the uncompromising A5.
Craftsmanship

We’ve ensured that every stitch represents the detail that we put into every aspect of an Audi. Sleek, fluid and substantively composed interiors that solidify the connection between you and your vehicle.

The finest materials pepper the interior of every Audi A5. There may be more cost-effective ways to design a vehicle’s interior, but ours are intended to stimulate more than just your sight. You’ll see, feel and smell the distinctive elements inside the A5. Whether it’s the finely stitched leather-wrapped multifunction sport steering wheel in your hands, or the scent of our finely crafted leathers that greets you when you climb into the cockpit, you’ll find exactly what you’ve come to expect from Audi: Sleek, fluid and substantively composed interiors that solidify the connection between you and your vehicle.

A driver-centric school of thought.

Panoramic sunroof

Another enhancement to your drive is the standard panoramic sunroof with tilt functionality of the A5 Coupe. An unobstructed view of the sky gives the feeling of infinite headroom. If you don’t want to fully engage with the environment, the retractable shade feature is there too. So let the sun drench the interior of your A5 as you enjoy a carefree driving experience.

Split folding rear seatbacks

With 12.2 cubic feet of cargo space in the A5 Coupe and 10.2 cubic feet of cargo space in the A5 Cabriolet with the seatbacks in the up position, the A5 is a capable carrier. The A5 Cabriolet has split folding 60/40 rear seatbacks, and the Coupe features a pass-through in the split folding 60/40 rear seatbacks. You can enjoy all the benefits of a sports car and still have room for your oversized toys.
Compromise and cost-savings need not apply.

Thanks to our multifunction sport steering wheel with available shift paddles, every control you need is right at your fingertips, intuitively placed to ensure ease of operation while you navigate any commute. Our driver-centric cockpit is more than just a design imperative; it is our way to help ensure that you’re navigating the vehicle’s technology with the same precision that our vehicles perform on the road for you.
Top-up feature.
The top of the A5 Cabriolet invites you to take advantage of clear skies for as long as the sun is out. If clouds do move in, it takes as little as 17 seconds for the driver to fully deploy the roof even at speeds up to 31 mph. When the top is up, it also provides a great acoustic environment designed with both sound-deadening and heat-resistant properties.

The outside is in.
It’s style that includes stars, but has nothing to do with Hollywood. It’s outside, but not obsessed with waterproof hiking boots. It’s the world seen and felt with the top down in your Audi A5 Cabriolet. Day or night, with wind gliding past you, discover a thrilling connection to your environment—while still being plugged into signature automobile technology. You can even stretch your top-down driving season with an available head-level heating system that helps ensure your comfort even when the temperature doesn’t match your mood. The A5 Cabriolet takes design, precision and a retractable roof to turn the outside into something that’s very much in.
There’s a certain audacity to going topless, but you’re already getting stares. We’ve got you covered, even with the top down. The available perforated Milano leather seating surfaces with ventilated and heated comfort front seats help ensure a tranquil commute no matter what the weather brings. From heat-reflecting pigments in the leather to an aerodynamic windblocker that helps the air flow by when you open up the drive, we’ve thought of everything to help ensure your comfort. Don’t worry about being bashful. We’re not. You can easily bring the top back up and retain a little privacy if you need it, but we don’t think you will.

**Ventilated and heated front seats**
Some added comforts for the top-down drive along the coast are the available heated and ventilated comfort front seats. You can get a little extra touch of warmth from the available head-level heating system vents that blow warm air directly onto your neck and shoulders.

**Thermocool feature**
The leather surfaces of our Audi A5 Cabriolet are designed with Thermocool special reflecting pigments that, even in direct sunlight, reduce surface temperatures up to 86 degrees, compared with untreated leathers. It’s just another way we prove our commitment to your comfort. We’ve given the phrase “sitting pretty” a whole new meaning.
Conventional wisdom may suggest that an all-wheel drive system is there purely to provide confidence in inclement weather, but the available Audi quattro® all-wheel drive is much more than just a foul-weather friend. It’s performance engineering that takes on a dry, twisty mountain road as beautifully as it tracks through powder. In other words, quattro® helps enhance performance by appropriately transferring power to the necessary wheels when accelerating and turning, so you have confidence-inspiring performance for almost any road condition. Inclement weather aside, the really gripping story about quattro® is how it performs overall, forging a bond between you and the road that really connects.

1 When driving during cold, rainy, snowy or icy weather conditions, ensure that your vehicle is equipped with appropriate all-season or winter tires. Even with appropriate tires, you must always drive in a manner appropriate for the weather, visibility and road conditions. 2 Obey all speed and traffic laws.

The case for unbreakable bonds.

All-weather capability

There is a reason quattro® is considered such a friend in foul weather. Under normal driving conditions, the center differential splits torque at a ratio of 40:60 front to rear, but as conditions change and become more challenging, the ratio is optimized to help maximize grip. And with the ability to transfer the majority of available torque mechanically to the wheels with the most grip, the operation is exceptionally smooth, even under extreme conditions.

All-out performance

You don’t win races by playing nice. That’s why quattro® features one of the most fierce performance features—torque vectoring. By taking into account your steering input and desired level of acceleration, it can independently brake the inside wheels through a corner and transfer torque to the outside wheels, helping to promote neutral handling.

All-around confidence

Just like life, the road can throw you a curve. So throw one right back with the superior grip and control of quattro®. It helps provide the performance and confidence you would expect from Audi, no matter if you’re commuting in the city or crisscrossing the country. This is advanced engineering you can live with.
We don’t anticipate your response so much as provide it.

At Audi, we believe you should be the ultimate master of your road-going domain. That’s why we created the available Audi drive select system. It gives you the ability to adjust the vehicle’s steering, throttle response and transmission shift characteristics with the utmost of ease. And with four modes to choose from, no matter what kind of road comes into question, Audi drive select will let you answer.

1. **Comfort mode**
   Perfect for less-than-perfect roads, this setting adds optimized steering and a closer shift pattern to help provide a more relaxed drive.

2. **Dynamic mode**
   Tighter steering and a more responsive throttle give this setting an aggressive feel and focused performance.

3. **Auto mode**
   The best of both worlds, dialed to automatically adjust settings for a seamless combination of comfort and responsiveness based on your driving style and road conditions.

4. **Individual mode**
   Take the turn your way—this mode allows you to adjust the steering, throttle and transmission upshifts to your style.

- **Transmission**
  From very responsive, quick gear changes to more gradual acceleration, the transmission is at the heart of Audi drive select.

- **Throttle mapping**
  Depending on the mode of Audi drive select you choose, the throttle can be precisely responsive or a little less so.

- **Steering**
  When you turn the steering wheel, you expect the vehicle to react accordingly. Audi drive select helps give you more input on how that will feel.
Six-speed manual transmission

For drivers who crave engaging and dynamic response, the Audi A5 offers an available six-speed manual transmission that delivers power with vintage Audi finesse. Its short throw and precise ratios add a contemporary element for confident performance on the road.

Eight-speed Tiptronic® automatic transmission

As the perfect compromise between a dedicated manual and an automatic gearbox, the eight-speed Tiptronic® automatic transmission available in the Audi A5 offers improved efficiency, carefully chosen gear ratios. Selected automatically or via its console-mounted shifter or steering wheel with available shift paddles, precise shifts are delivered without sacrificing the smooth action of the Tiptronic® automatic. A high final drive ratio allows optimization of lower gears, yet the transmission’s upper range emphasizes fuel economy—particularly at highway speeds.

Induction-technology turbocharger

Compressing the airflow to the engine allows more air into the cylinders and, ultimately, more power from each combustion cycle, significantly improving the engine’s power-to-displacement ratio.

2.0 TFSI® four-cylinder

This 2.0-liter turbocharged DOHC engine produces 220 horsepower and 258 lb-ft of torque, and combines the valvelift system, Audi FSI® direct injection and turbocharging for great power and overall efficiency.

Performance

The adage “good things come in small packages” has never been more true.

EPA estimates not available at time of printing. See www.fueleconomy.gov for updated information. Your mileage will vary.

Driving to the tune you choose.

The Audi A5 offers transmission choices that precisely transmit the power produced by the 2.0-liter TFSI engine. With wide gear ratios for smooth shifting and improved efficiency, it doesn’t matter which transmission you choose. Available steering wheel-mounted shift paddles for automatic transmissions let you shift up or down with minimal effort, while the six-speed manual transmission gives you the control that performance drivers crave. A shift has been made, and the choice is yours: choose what propels your A5.

Eight-speed Tiptronic® automatic transmission

As the perfect compromise between a dedicated manual and an automatic gearbox, the eight-speed Tiptronic® automatic transmission available in the Audi A5 offers improved efficiency, carefully chosen gear ratios. Selected automatically or via its console-mounted shifter or steering wheel with available shift paddles, precise shifts are delivered without sacrificing the smooth action of the Tiptronic® automatic. A high final drive ratio allows optimization of lower gears, yet the transmission’s upper range emphasizes fuel economy—particularly at highway speeds.

Induction-technology turbocharger

Compressing the airflow to the engine allows more air into the cylinders and, ultimately, more power from each combustion cycle, significantly improving the engine’s power-to-displacement ratio.

2.0 TFSI® four-cylinder

This 2.0-liter turbocharged DOHC engine produces 220 horsepower and 258 lb-ft of torque, and combines the valvelift system, Audi FSI® direct injection and turbocharging for great power and overall efficiency.

Performance

The adage “good things come in small packages” has never been more true.

EPA estimates not available at time of printing. See www.fueleconomy.gov for updated information. Your mileage will vary.

Driving to the tune you choose.

The Audi A5 offers transmission choices that precisely transmit the power produced by the 2.0-liter TFSI engine. With wide gear ratios for smooth shifting and improved efficiency, it doesn’t matter which transmission you choose. Available steering wheel-mounted shift paddles for automatic transmissions let you shift up or down with minimal effort, while the six-speed manual transmission gives you the control that performance drivers crave. A shift has been made, and the choice is yours: choose what propels your A5.

Six-speed manual transmission

For drivers who crave engaging and dynamic response, the Audi A5 offers an available six-speed manual transmission that delivers power with vintage Audi finesse. Its short throw and precise ratios add a contemporary element for confident performance on the road.

Audi adaptive cruise control

Everyone has their own comfort zone. The available Audi adaptive cruise control helps maintain a driver-selected distance from the vehicle in front by using a special long-range radar sensor. The system constantly measures the space between your vehicle and the vehicle ahead and helps maintain it by automatically adjusting your speed. Once the road ahead is clear, the vehicle effortlessly resumes the previously preset speed, helping to make your drive that much more relaxing.

We shed light on your blind spots.

With a suite of available driver assist options, we strive to constantly up the ante on driver convenience. Available Audi side assist helps inform you of other vehicles in the lanes next to you, while available Audi adaptive cruise control helps monitor the distance between you and the vehicle ahead, and adjusts your speed appropriately to keep you moving smoothly. There are also the simple things, like parking system plus, which adds a rear view camera and rear acoustic parking sensors to help ease you into that spot. It’s another testament to the effort that Audi puts into helping ensure that you’re not the only one keeping an eye on the road.

Available Audi side assist helps inform you of other vehicles in the lanes next to you, while available Audi adaptive cruise control helps monitor the distance between you and the vehicle ahead, and adjusts your speed appropriately to keep you moving smoothly. Once the road ahead is clear, the vehicle effortlessly resumes the previously preset speed, helping to make your drive that much more relaxing.

Audi side assist

We’re solving problems before you even know you have them.

It’s another testament to the effort that Audi puts into helping ensure that you’re not the only one keeping an eye on the road.

Audi side assist

The available Audi side assist uses radar sensors and two different optical warnings to help keep the driver informed about what is approaching from hard-to-see angles behind and to the side of the vehicle.
We don’t see safety as an option, or a luxury.

We decided that, regardless of size, strong should be a more flexible concept. High-strength steel helps add a measure of security while enhancing overall handling and performance. Sophisticated airbag technology is designed to deploy airbags based on seat position1 while specially constructed crumple zones give way upon impact to help mitigate potential injury in a collision. All of this, combined with the rigidity of laser seam-welded joints that enhance the strength of every Audi we make, helps diminish the impact of an unavoidable event.

Airbags
Sensors mounted in the front seats monitor your seating position to help ensure that the adaptive front airbags will deploy in the event of a collision. Driver and passenger front seat-mounted thorax side airbags help keep your upper body protected, while knee-level airbags help keep tabs down below. The A5 Coupe even has two rows of Sideguard® head curtain airbags for an added level of protection.1

Pop-up roll bars
In the unlikely event that your A5 Cabriolet rolls over, sensors deploy two roll bars from hidden compartments in the rear, and reinforced A-pillars up front and side airbags also help protect passengers. It’s another way we keep innovative design as high a priority as your safety.

1 Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age.
Car consciousness.

We believe intelligence is key to a higher form of luxury. You can see this philosophy fully represented in the available Audi MMI® system. Simply put, it’s an intuitive system that intimately connects you to almost every facet of the vehicle. It’s the nerve center of your vehicle, allowing you to control virtually every interior function of your Audi with a simplified source control button system. From the Audi MMI Navigation plus, to the sound system, to media, MMI helps you access information with a few easy clicks. And even without it, you can pair your compatible phone with the vehicle for added convenience. With this kind of brainpower onboard, you can leave the little stuff to us, and just concentrate on how good it feels to drive.

SiriusXM® Satellite Radio
Go ahead. Cross the country. We assure you, you’ll never run out of entertainment options, with over 130 channels of music, talk, sports and news.1

Audi MMI Navigation plus
Count on the available advanced navigation system to home in on your destination with stunning precision while putting a little more depth in your journey with help from Google Earth™.1

BLUETOOTH® wireless technology
Unlock your mobile phone’s potential through the MMI system. Simply pair them up and start enjoying near complete control at the touch of a button.3

Audi media
The media function opens up a world of options when equipped with the Audi MMI Navigation plus, allowing you to control the Audi music interface, Secure Digital (SD) card slots, hard disk drive (HDD) audio jukebox or DVD, and BLUETOOTH® streaming audio.1,2,3

MMI System
We’ve brought the backseat driver front and center.

1 See Infotainment/Technology section of the Featured Content page for important information regarding Audi MMI® Navigation plus and required SiriusXM® subscriptions. 2 Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. For MMI® feature availability and information, please see your authorized Audi dealer. 3 Requires compatible phone.
If nothing else, you know your car is listening to you.

Don’t reach, relax. While touchscreens are seemingly everywhere, they don’t need to be in your vehicle. With available Audi connect®, you may never have to reach out again.1 Thanks to Google Voice™ Local Search, Audi connect allows you to search Google™ by simple voice commands. The crisp display is nestled further up, closer to the windshield, so your eyes don’t have to focus and refocus between the screen and the road ahead of you. For those times when you are feeling tactile, we’ve placed toggle buttons near the gear shifter, where your hand naturally rests while you drive. So while other automobile manufacturers still want you to reach out, we’ve found a few ways for you to make information a lot more accessible while your hands are on the wheel.

You can find a few ways for you to make information a lot more accessible while your hands are on the wheel. From your vehicle later.

### Featured Functions

#### MyAudi Features
- Point Of Interest
- Mobile Wi-Fi hotspot
- Google Earth 3D satellite imagery

- Travel Info
- Google™ Street-View
- Weather information
- SiriusXM Traffic
- News feeds
- City Events

#### Corporate Icons as seen on German brochures

### MyAudi Features

Plan travel from your personal computer. Send your desired destinations to your vehicle ahead of time and access your route from your vehicle later.

### Mobile Wi-Fi Hotspot

For up to eight passenger devices through an onboard wireless hub.

### Weather Information

Get local weather conditions and forecasts for your destination can help you prepare for your trip.

### City Events

Get information about current events, exciting locations and places of interest at your travel destination, current location or other chosen location instantly.

### Travel Info

Discover local landmarks in your area of interest, set them as your destinations, and let your vehicle lead the way as you explore the world around you.

### Maps Street View

Enjoy 3D satellite imagery, including Google Earth™ integration, you’ll enjoy 3D satellite imagery, including Google Maps Street View, displayed right on the Audi MMI® display.

### Google™ Voice™ Local Search

Simply tell your Audi what you are in the mood for, then let the cloud processing power of Google™ speech recognition interpret your request and bring up a list of destinations in the area of your choice.

### Traffic Information

Get traffic information overlaid onto 3D satellite imagery to visualize a true aerial view of your route, and let the Audi MMI Navigation plus system re-plan your route to avoid traffic.

### Google Earth™ with 3D satellite imagery

With Google Earth™ integration, you’ll enjoy 3D satellite imagery, including Google Maps Street View, displayed right on the Audi MMI® display.

### Audi Connect

Stay on top of the news by having headlines and stories delivered right to your Audi MMI® display.

### Voice Control

The point-of-interest search with voice control means that the digital world is with you every journey.

### Software Updates

Audi connect is available for MY14 audi icon design language

Bang & Olufsen® Sound System

Dedicated to the idea of “honest music reproduction,” Bang & Olufsen® is a sound engineer’s dream. Through an available 505-watt system perfectly integrated within your Audi, Bang & Olufsen® is set on transcending the limits of audio technology. By automatically adjusting volume and timbre balance to changing ambient noise levels, and offering richly tuned acoustics, you’ll make your cabin acoustics sound perfect for your music, make the drivestram sing. Or, if not sing, then put it in harmony with every other element of the driving experience. From the sound of a shuttling door, to the click of a turning knob, to the full integration of an available Bang & Olufsen® Sound System, there’s an orchestra of engineering that fills your cabin with faithfully rendered, thrilling sound. Whatever it is you are looking for, Audi sculpt sounds in a way that matches your mood, even when you need soothing while in traffic.

Optimized sound flows through strategically placed speakers around the cabin. Hear it, and you’ll instantly become engrossed in the tiniest detail and warmth of the sound.

Bang & Olufsen® Sound System

Dedicated to the idea of “honest music reproduction,” Bang & Olufsen® is a sound engineer’s dream. Through an available 505-watt system perfectly integrated within your Audi, Bang & Olufsen® is set on transcending the limits of audio technology. By automatically adjusting volume and timbre balance to changing ambient noise levels, and offering richly tuned acoustics, you’ll hear the truth about how good life can sound in your Audi.

When even a German lullaby is an ode to sound engineering.

It would be an interesting challenge, a note-perfect Brahms’ Lullaby delivered through the tuned speakers of an Audi concert radio system versus the exhilaration of the passing lane. Either way, performance wins. But it goes way beyond the gentle tones of a German composer. Audi sound engineers don’t simply make the cabin acoustics sound perfect for your music, they make the drivestram sing. Or, if not sing, then put it in harmony with every other element of the driving experience. From the sound of a shuttling door, to the click of a turning knob, to the full integration of an available Bang & Olufsen® Sound System, there’s an orchestra of engineering that fills your cabin with faithfully rendered, thrilling sound. Whatever it is you are looking for, Audi sculpt sounds in a way that matches your mood, even when you need soothing while in traffic.

Audi is Latin for “listen,” so you know we take sound very seriously.
Far beyond accoutrements.
Make after-market an afterthought.

While the Audi A5 may be everything the devotee of the authentic coupe requires, sometimes even a purist yearns for a little bit more. A supercharged 3.0-liter TFSI® V6 engine sits comfortably under the hood of the Audi S5, producing 333 horsepower and an exhilarating 325 lb-ft of torque, to propel the S5 Coupe to 60 mph in just 4.9 seconds. Experience the heart and soul of Audi performance cars through the sport-tuned suspension that is ready for the street or the track. While most automotive manufacturers want you to upgrade your engine with after-market tricks, we developed a line of vehicles that require only your enthusiasm.

**ENGINE** // 3.0-liter supercharged TFSI® V6 engine developing 333 hp and 325 lb-ft of torque

**DRIVETRAIN** // Audi quattro® all-wheel drive, available sport differential, six-speed manual transmission or an available seven-speed Audi S-tronic® dual-clutch transmission

**CHASSIS** // S5 tuned sport suspension, Audi drive select and available dynamic steering

**BRAKES** // 13.6” ventilated front disc brakes with S5 logo, 13.0” ventilated rear disc brakes

**PERFORMANCE** // Top track speed of 155 mph, acceleration from 0 to 60 mph in 4.9 seconds (Coupe) and 5.3 seconds (Cabriolet)

Decorative Inlays

Aluminum Trigon Inlay
Dark Brown Walnut Wood Inlay
Flex Grain Ash Natural Brown Wood Inlay
Layered Oak Wood Inlay
Piano Black Inlay
Brushed Aluminum Inlay

1. Decorative inlay options will vary based on model and interior color combination. See your dealer for details.

2. Tires are supplied and warranted by their manufacturer. High-performance tires are designed for optimum performance and handling in warm climates. They are not suitable for cold, snowy or icy conditions. If you drive under those circumstances, you should equip your vehicle with all-season or winter tires, which offer better traction under those conditions. Please also remember in making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more road vibration than others.

1. All prices are subject to change without notice and are not binding under any sales contract commitments. Always use safety belts and seat children only in the rear, using appropriate restraints appropriate for their size and age.
The new method behind cool.

We’ve never felt the need to “compete,” but we don’t shy away from a challenge either. While we’ve designed vehicles for the racetrack, we know that sometimes you want the racetrack feel without the need for a pit crew to manage your daily commute.

This is part of why we developed the available Audi S line® Competition package. Titanium-finished 19” wheels accent the already aggressive appearance delivered by gloss Black mirror housings, the Audi Singleframe® grille, side sills and rear diffuser. Inside, you’ll find Piano Black decorative inlays on the doors and center console. We also provided leather/Alcantara® seating surfaces, so you’ll feel strapped in and ready for the green flag or the green light. So take hold of the Audi exclusive shift knob (manual transmission), and get ready to receive the attention of passers-by and fellow commuters alike.

1. MMI® Navigation plus depends on signals from the worldwide Global Positioning Satellite network. This vehicle’s electrical system and existing precision and satellite technologies may be subject to change or repair protocols for the system to function. The80% 12% 20% 50% 80% of the time, you’ll get directions to the nearest address (even when you don’t know the address name). Our system can search for addresses, points of interest, and other locations using any of several search methods, including city names, construction zones, traffic flow, points of interest and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, and mapping may not be available in all areas. Differences between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested Audi® MMI® Navigation plus route. For mapping updates please see your Audi dealer or call 1-800-FOR-AUDI for details. 2. See the Audi connect® page for important information about Audi connect® . 3. SiriusXM® Satellite radio and Traffic subscriptions sold separately or as a package after trial expires. SiriusXM® Traffic service may not be available in all areas. Subscriptions are governed by SiriusXM® Customer Agreement (see www.siriusxm.com) and are continuous until you call SiriusXM® to cancel. SiriusXM U.S. Satellite Service available only to those 18 and older in the 48 contiguous U.S.A., Alaska and Hawaii (with coverage limitations). 4. Requires compatible phone. 5. Some Audi models are equipped with a keyless ignition feature. The details as to how the system works can vary, and Audi owners should consult their owner’s literature or an authorized Audi dealer if they have further questions about the operation of this feature. Please note that Audi warns against leaving the vehicle unattended with the engine running, particularly in enclosed spaces. 6. Delayed availability.
Add a new point of view, a dash of distinction and the ultimate in self-expression with Audi Genuine Accessories. Whether you load the cargo carrier with climbing gear or add a set of sporty new wheels, we’ve got the accessories that will help enhance every facet of your lifestyle. Designed for seamless compatibility with your Audi,

all pieces are backed by your vehicle’s 4-year/50,000-mile limited warranty or the accessory’s 12-month/12,000-mile limited warranty, whichever extends longer from the accessory purchase date.1 If you’re looking to personalize or protect, Audi offers an intelligent solution.

## Accessories

### Compact cargo carrier

A trim, aerodynamic design that offers a generous 16.95-cu.ft. capacity. Size: 81” long, 30” wide, 15” high.

### 5-arm hollow-spoke wheels

A deep-dish, channel design. The hollow-spoke feature results in a lightweight wheel and an awe-inspiring performance. Available in Silver or Anthracite.

### AS all-weather floor mats

Deep-ribbed, channel design helps protect the floor and carpet from water, mud, sand and snow. Black mats feature the Audi logo and are available in sets of two for front or rear.

### 10” l-arm hidden-spike wheels

Experience the high-performance beauty of this eye-catching design. The floormat features a unique spike pattern that keeps floor mats in place. Available in Silver or Anthracite.

### S5 all-weather floor mats

Deep-ribbed, channel design helps protect the floor and carpet from water, mud, sand and snow. Black mats feature the S5 logo and are available in sets of two for front or rear.

### Rear wing (A5 Coupe only)

A sleek, aerodynamic appointment augments the already sporty design of the A5 coupe.

### AS all-weather floor mats

Deep-ribbed, channel design helps protect the floor and carpet from water, mud, sand and snow. Black mats feature the AS logo and are available in sets of two for front or rear.

### Valve stem caps

Emblazoned with the iconic Audi rings, these handsome caps complement the unique design of the wheels on your Audi. The slim, integrated design makes them easy to install and remove.

### Audi Guard Comfort and Protection Accessories

Help protect what you love. Audi Guard Comfort and Protection Accessories offer innovative, practical features that help keep your Audi in pristine condition. Choose from such useful items as trunk slats that help keep clean and quiet, or an accessory storage cover that helps shield the vehicle. Use them all to help maintain the vehicle and keep the vehicle looking like new inside and out. All are engineered to stringent Audi standards, so you can be assured of their quality and durability.

### Audi Guard Car Care Products

Audi vehicles deserve the very best, and this is it: the only car care line specifically designed for Audi. Audi Guard Car Care Products provide gentle cleaning formulas and special tools to help give all interior and exterior surfaces the finish it deserves. Our shampoos and waxes undergo testing for cleaning performance, change in luster and material compatibility. For details, visit your Audi dealer.

### Audi S5 Alu-optic trim package

For the Audi S5 Cabriolet and Coupe, the package includes two red or carbon fiber “Supercharged” fender badges, plus Aluminum-optic trim that matches the side mirrors and mount between the wheel wells.

### Dealer for details. 2 All roof-rack system attachments require the base carrier bars. All attachments sold separately. 3 Recreational equipment and sporting equipment not included. 4 A5 all-weather floor mats and deep-ribbed floor mats are available in sets of two for front or rear.

### Other accessories not shown

- Deep-ribbed, channel design helps protect the floor and carpet from water, mud, sand and snow. Black mats feature the S5 logo and are available in sets of two for front or rear.
- Valve stem caps
- Deep-ribbed, channel design helps protect the floor and carpet from water, mud, sand and snow. Black mats feature the AS logo and are available in sets of two for front or rear.
- Push-button, keyed locks open and close easily. rubber-cushioned styling enhances the look of the vehicle. Perfectly match the vehicle’s exterior and interior design.
- A trim, aerodynamic design that offers a generous 16.95-cu.ft. capacity. Size: 81” long, 30” wide, 15” high.
- An impressive, clean, drop-center, deep-dish design makes this 19” hollow-spoke wheel available in Silver or Anthracite.
- A sleek, aerodynamic appointment augments the already sporty design of the A5 coupe.
- A smart, aerodynamic design that offers a generous 16.95-cu.ft. capacity. Size: 81” long, 30” wide, 15” high. 
- A sleek, aerodynamic design that offers a generous 16.95-cu.ft. capacity. Size: 81” long, 30” wide, 15” high.
