Audi A6 | S6

Audi
Truth in Engineering

Reflecting on what matters most to us.

In so many ways, it's really all connected. How an Audi vehicle is engineered and designed isn't simply a matter of physics or architecture, it's a systematic compilation of disparate disciplines and ideas, forged into something iconic, sophisticated and powerful. What you feel behind the wheel is, in so many ways, a product of the knowledge and imagination of human history. The principles of Newtonian laws, sure—but also the grace of choreography, time-honored artisanal craftsmanship and the connectivity of modern life. The end result of these inspirations is your Audi—a thing meaningful, intuitive and strong. We employ the sum of our skills and understanding to reflect something that goes deeper than our machines.

We've reached a driving truth.

A6 | S6

Luxury and performance collide in a sedan designed for those who prefer their art on four wheels.

It's been said that the truth sets you free, so why not be honest with your desire to drive a luxury performance sedan like no other? What you'll receive in return is our most sincere engineering effort, shaped to perfection in the form of the Audi A6. Clean, assertive lines mark the beginning of this authentic approach. From there, things get thrillingly candid with the seemingly relentless grip of available quattro® all-wheel drive and a range of engine options that solidify this vehicle's reputation as an enthusiast's car. And when every moment behind the wheel calls for exceptional performance, the Audi S6 unabashedly delivers, along with a heightened level of luxury and distinction. Clearly proof that our years of successful days at the track provide rewards beyond trophies. The stirring conclusion? A vehicle that commands attention from every onlooker, and inspires confidence with every drive.

The irrepressible actuality of light.

Light is a wave and an energy. It's also a feeling. And an inspiration. Light is a physical manifestation and a spiritual metaphor. For Audi designers, light represents the soul of automotive design. We use it to give lines context, add a shimmering allure, or give shapes a visual texture or depth. In the sun or on a city street, the vehicle becomes luminescent, a seductive, ever-shifting configuration of energy itself, expressed in the brilliance of each design line.

2016 Audi A6 TDI® Prestige shown in Glacier White metallic with available equipment.

Designed for those who
revel in double takes.

When this much emphasis has been placed on design, it's not surprising that it takes more than one look to process what you're seeing. You could say we doubled down, so to speak, when designing certain aspects of the Audi A6. Take, for example, a signature design feature we call the Tornado line. Bisecting the body profile, it runs strongly along the length of the vehicle to give it a bold, progressive contour that tells the world that this is the beginning of a narrative that is uniquely yours, and ensures that a first look will never be the last.

Notice how the design lines give a muscular yet refined look. Their interaction provides a changing scene as the angle of light changes throughout the day.

Full LED headlights

Welcome to the future of lighting. Full LED headlights are available on the A6, helping ensure a long life and, with a near perfect re-creation of daylight, a brilliantly lit road ahead.

LED taillights

Brilliant and unmistakable, thanks to a distinctive look that mimics the design of the LED daytime running lights, the LED taillights not only help provide longevity, but a high degree of visibility.

Even the details should feel substantial.

With so much weight put on the importance of detail, it's worth bringing some things to light, specifically, our signature LED lighting technology. Developed with purpose in mind, it nevertheless serves as an equally brilliant design feature. Just consider the form of the available full LED headlights. The design not only spreads light evenly across the road, but plays a central role in the vehicle's character. It sets a precedent that just keeps developing as you notice the distinctive LED taillights, and how their design mimics the design of the daytime running lights. Let's just say there's a considerable amount of brilliance here.

The elegantly arched rear roof line flows effortlessly into the design lines running along the side, framing the taillights. From there, you'll notice the new twin-integrated trapezoidal exhaust outlets.

Confidence is what you feel on the inside.

There's nothing like being in a position of power and poise. So take a moment to indulge in the wraparound curve of the Audi A6 dashboard. See how it integrates intuitively with the overall driver-centric layout. Discover a new level of distinctive design, from the available MMI® navigation plus, with its eight-inch display deploying out of and retracting into the dashboard, to the exquisitely crafted power front seats. Then sit back and admire the finely crafted decorative inlays displayed before you. Now imagine that you just shifted into Drive. This is what it's like to confidently rule the road.

Decorative interior inlays

Adding a touch of warmth and sophistication to an already regal interior are beautifully crafted decorative inlays. Available in numerous finishes, they help create an interior space that speaks to your artistic sensibilities.

Individual contour front seats

Providing luxury beyond the status quo, available 18-way individual contour front seats put you in nearly full control of your comfort. A massage function with five different programs helps soothe on long drives, while a memory feature helps ensure that, once you or your front passenger find the perfect setting, it'll stay that way.

A thoughtfully designed gear selector helps provide a more ergonomic experience, while Aluminum-optic elements, including the MMI function keys, offer elegance in true Audi form.

2016 Audi A6 3.0T Prestige shown with Flint Gray leather and available equipment.

Reshaping the contours of luxury...again.

We aren't ones to rest, even when we've achieved greatness. That's why we keep pushing our innovative design team to analyze the way you interact with interior appointments, and continually strive to add style to function. With a choice of luxurious materials, a three-spoke multifunction steering wheel and an available four-zone automatic climate control in the Audi A6, you can create a unique cabin environment that expresses your own personal style. This is true for the smallest details too, such as an available heated steering wheel, or heated front seats with available ventilation, which help keep you comfortable. All this is designed so that, when you get in, you'll feel the kind of confidence that only comes from knowing you are in a luxury performance sedan that is unafraid to lead.

Three-spoke steering wheel with shift paddles

Wrap your hands around your source of phenomenal control. The three-spoke multifunction steering wheel features shift paddles for quick, accurate shifts, a feature particularly useful when tackling turns on a twisty mountain road.

Four-zone automatic climate control

Take it as a clear indication that this interior is all about pleasing its passengers. With the available four-zone automatic climate control, almost every person in the vehicle has the ability to dial in their ideal temperature.

A showcase of our driving desire for superior engineering.

It should be apparent from our drivetrain options that we strive for engineering perfection. So no matter if you choose gasoline or diesel, you'll experience the kind of dynamic performance people have come to expect of Audi. And with advanced transmissions and the road-gripping capability of available quattro® all-wheel drive applying all that power to the ground, it will feel as good as its engineering suggests.

POWER
→
→

TFSI® engines

Whether you choose the available potent 333-hp supercharged V6 and its belt-driven supercharger that features a magnetic clutch for greater efficiency or the spirited 252-hp turbocharged four-cylinder, you can count on advanced features, like direct injection technology, and smart ones, like higher compression ratios, to help improve efficiency without hindering performance.^{1,2}

TDI® clean diesel engine

Taking advantage of the greater power density of diesel fuel over traditional gasoline, the available 240-hp 3.0-liter TDI® clean diesel V6 delivers incredible torque (428 lb-ft) and passing power, while boasting impressive fuel efficiency numbers.³ It also produces fewer emissions with a combination of Piezo direct injection, a high compression ratio, and innovative after-exhaust treatment that helps eliminate up to 95% of diesel NOx emissions.

APPLICATION
→
→

Eight-speed Tiptronic® automatic transmission

The available eight-speed Tiptronic® automatic transmission in the Audi A6 offers eight optimized, carefully chosen gear ratios. Selected automatically or via its console-mounted gear selector or steering wheel with shift paddles, precise shifts are delivered without sacrificing the smooth action of the Tiptronic® automatic. A high final drive ratio allows optimization of lower gears, yet the transmission's upper range emphasizes fuel economy—particularly at highway speeds.^{1,2}

Seven-speed S tronic® dual-clutch transmission

Able to change gears in a few hundredths of a second, 2.0T models with front-wheel drive have an S tronic dual-clutch transmission that delivers automatic convenience with manual sportiness, an ideal combination for an enhanced performance driving experience.

There is more information on the TDI® clean diesel model line in the TDI® clean diesel brochure. For details, see your dealer, go to audiusa.com or download the digital brochure from the Audi library app.

CONTROL
→
→

quattro® all-wheel drive

There is a reason available quattro® has been known as the all-wheel-drive standard since its inception—it has helped us to win races all over the world, and lots of them. But it's not just a performance-enhancing technology, it has also become a proven foul-weather friend.³ Under normal driving conditions, the center differential splits torque at a ratio of 40:60, front to rear (maximizing performance on dry roads), but, as conditions change and become more challenging, the ratio is optimized to help maximize grip. This translates to traction and a more confident driving experience.

MANAGEMENT
→
→

Audi drive select

At Audi, we believe you should be the ultimate master of your road-going domain. That's why we created the Audi drive select system. It gives you the ability to adjust the vehicle's steering, throttle response and transmission shift characteristics with the utmost of ease (Audi S6 models add suspension and sport differential as well as dynamic steering control if equipped). And with four modes to choose from, when almost any kind of road comes into question, Audi drive select will let you answer.

- **Comfort mode**
Perfect for those long highway stretches, this setting adds optimized steering and a closer shift pattern to help provide a more relaxed drive.
- **Dynamic mode**
Tighter steering and a more responsive throttle help give this setting an aggressive feel and focused performance.
- **Auto mode**
The best of both worlds, dialed to automatically adjust settings for a seamless combination of comfort and responsiveness based on your driving style and road conditions.
- **Individual mode**
Drive your way—this mode allows you to adjust the steering, throttle and transmission upshifts to your style.

INGENUITY
→
→

Start-stop efficiency system

As an intelligent vehicle system, this highly effective engine management program can help lower fuel consumption as well as CO₂ emissions by automatically shutting off your engine while you wait at a red light or, perhaps, during certain stop-and-go driving. Once you are ready to resume, or if other critical vehicle systems require it, the engine will restart nearly instantaneously.

1 See www.fueleconomy.gov for EPA estimates. Your mileage and emissions will vary and depend on several factors, including your driving habits and vehicle condition. 2 2016 EPA estimates and emissions data not available at time of publication. See www.fueleconomy.gov for updated information. Your mileage and emissions will vary and depend on several factors, including your driving habits and vehicle condition. 3 When driving during cold, rainy, snowy or icy weather conditions, ensure that your vehicle is equipped with appropriate all-season or winter tires. Even with appropriate tires, you must always drive in a manner appropriate for the weather, visibility and road conditions.

Embodying the essence of performance.

For Audi engineers, power delivery is a primal thing. Sure, we sweat over balance, we obsess over precise handling, we shave off ounces and even pounds where we can to produce an improved response, quick acceleration and dynamic cornering, but in our hearts, at Audi, we want performance that inspires confidence. We have a heritage of racing success—and that helps us make the case—but it's a truer testament of engineering to make it work on the street, the highway, the commute. To engineer those moments where the rest of the vehicle seems to disappear and you are well into the moment of exhilaration, the light turns green, you accelerate. Performance—sculpted, engineered, Audi performance—makes its own case for the greatness of your vehicle.¹

¹ Always obey all speed and traffic laws.

S6

Aluminum-optic blades integrated into the lower front bumper, Aluminum-optic side mirrors and Platinum Gray Singleframe® grille accents assert our intentions.

2016 Audi S6 Prestige shown in Daytona Gray pearl with available equipment.

Integrated rear decklid spoiler

Adding a perfect exclamation point to a stunning design, the rear decklid spoiler blends seamlessly into the edge of the decklid and helps provide meaningful downforce in spirited driving situations.²

S model quad exhaust system

Quad exhaust outlets and an available sport exhaust system look and sound the part, so when you pass somebody on the highway, they'll know exactly what kind of vehicle just left them in its rear view mirror.

1. 2016 EPA estimates and emissions data not available at time of publication. See www.fueleconomy.gov for updated information. Your mileage and emissions will vary and depend on several factors, including your driving habits and vehicle condition. 2. Always obey all speed and traffic laws.

Power is given to the bold.

The Audi S6 was not made for the faint of heart. But you could have guessed that with just a glimpse of its commanding profile. Or by the roar of its engine that produces an unrelenting stream of power, while helping to save fuel using cylinder on demand™ engine efficiency technology.¹ Of course, power is nothing without control. That's where the legendary quattro® all-wheel-drive system comes into play, not to mention the performance-enhancing available sport differential and available dynamic steering. The end result? The ultimate power play for the brave.²

S6

Luxury that shows inner strength.

This is the kind of show of force one expects from a vehicle of this caliber. Artfully meshing luxury and power, the S6 offers signature sport seats with integrated head restraints. But it's not all about the interior appointments. Your comfort and, even more noticeably, the vehicle's performance, is further enhanced by the innovative Audi adaptive air suspension. And in uncomfortable situations, you'll be glad you have the quick acceleration provided by the 4.0-liter TFSI® engine. Taken together, it's clear: this vehicle is as much about muscle as it is about finesse.

> 4.0-liter turbocharged TFSI® V8 engine

> 450 hp/406 lb-ft torque

> 0-60 mph in 4.4 seconds

> Top track speed of 155 mph¹

Audi adaptive air suspension

Offering the best of both dynamic handling and comfort, Audi adaptive air suspension also allows for speed-dependent lowering of the body, resulting in a lower center of gravity, which helps improve your directional stability. Speed or driver-selectable control logic adjusts the air suspension springs at all four wheels, adjusting the suspension in milliseconds.

Equally compelling on the inside, the Audi S6 features Valcona leather seats with expertly sewn and distinctive diamond stitching.

¹ Top track speed is electronically limited in the U.S. Always obey all speed and traffic laws.

2016 Audi S6 Prestige shown with available Arras Red Audi design selection and available equipment.

You might be missing something, but we won't.

With everything that's out there, we thought it was time to focus on what you really need to see — like that car in your blind spot, for example. Fortunately, there's a full suite of available Audi technologies that help take into account other vehicles as well as yours via intelligent driver assistance systems. These can help you focus on what's most important — the road.

- Radar sensors
- Ultrasonic sensors
- Cameras

LANE AWARENESS

Audi active lane assist

Operating at speeds above 38 mph, this available system helps detect when the vehicle begins to leave the lane without signaling. Then, through gentle, corrective steering efforts, it helps the vehicle remain in the lane and vibrates the steering wheel as an additional warning. This way, Audi active lane assist complements the driver's decision-making process and helps to further solidify the bond between driver and machine.¹

Audi side assist

The available Audi side assist uses radar sensors and two different optical warnings to help keep the driver informed about what is approaching from hard-to-see angles behind and to the side of the vehicle.¹

SITUATIONAL AWARENESS

Head-up display

With easy-to-view, accurate visual information right at eye level, this available feature displays important driving information and even pedestrian-detection warnings when equipped with the optional night vision assistant.

Top and corner view cameras

The four cameras of this available feature allow for an overhead view of your surroundings, helping to make parking so much easier. The technology shows you where your vehicle is in relation to obstacles nearby, helping give you the confidence to maneuver in practically any environment.

Night vision assistant

Using infrared technology to help detect what lies ahead, this available feature uses thermal-imaging technology to help you identify trouble. Pedestrians and large animals can be detected over 300 feet in front of the vehicle, while objects can be detected over 900 feet ahead—all shown on the 7" color driver information system.

SEMI-AUTOMATION

Audi pre sense® plus

The available Audi pre sense plus offers comprehensive driving assistance with sensors in the front, side and rear. After visual, physical and aural collision warnings, there are four distinct phases for automatic preparation for the unavoidable: an upsurge of brake pressure, safety belt pretensioning, partial braking, and sunroof and window preparation. In severe cases, Audi pre sense plus will engage full braking and deceleration.¹

Audi adaptive cruise control with stop & go

Using long-range radar and a camera, the available Audi adaptive cruise control with stop & go helps read the traffic conditions and adjusts the speed, helping to bring the vehicle to a full stop before accelerating when traffic flow resumes.

Senses working overtime.

There's only so much our nervous system can process at one time. Too much, and you'll feel the debilitating effects of sensory overload. We set out to combat this effect with driver assistance features designed to help lighten the sensory load. Whether it's available advanced technologies like night vision assistant, which uses infrared technology to help detect pedestrians and large animals, or Audi side assist,¹ which utilizes radar sensors to help inform you of vehicles approaching from the side and rear, you'll find that we've developed them to work together to help keep you aware of your surroundings. It's just another way we like to say "We're looking out for you."

¹ The features discussed are not substitutes for attentive driving. Always check surrounding traffic, and use turn signals. Please see your owner's manual for further details and important limitations.

When the right materials strike a perfect chord.

At the heart of every great performance is an equally powerful instrument. Lightweight yet strong, a violin embodies many of the qualities that make up our core engineering philosophy. Whether it's the way we bind different metals together to help form a more rigid connection or the way we shape our design for functionality and performance or even the way our crumple zones give in the right places to help dissipate energy, the similarities are present for a reason. You can't expect to perform at the highest level without a solid foundation.

Precision tuning

Efficient use of various materials

Structural balance

Optimal tension

Enduring craftsmanship

A design that helps diminish an impact is no accident.

While we don't like to make light of potential risks on the road, our engineers were tasked with doing just that. Considered a revolutionary technology, the A6 model's aluminum hybrid construction developed by Audi engineers is at the same time lightweight and resilient, offering an innovative approach to both weight savings and strength. And while you may not think about weight savings when it comes to strength, we think they go hand in hand. Complementing the advanced occupant safety cell is airbag technology designed to respond differently based on seat position, and specially constructed crumple zones that give way upon impact to help mitigate potential injury in a collision.¹ When you add all of this to the rigidity of laser seam-welded joints that enhance the strength of every Audi we make, it becomes pretty clear: helping diminish the impact of an unavoidable event doesn't happen by accident.

ABS and ESC

Computerized technology that works in sync with the Anti-lock Brake System (ABS), Electronic Stability Control (ESC) helps minimize loss of stability, applying brake pressure to individual wheels and reducing throttle input to help counter oversteer or understeer when the vehicle needs it.

Ten airbags

With eight standard airbags² and two available ones, the A6 offers additional protection in the event of a collision. Front-impact airbags for both driver and front passenger are designed to specifically target and help protect the head during collisions, for added protection.¹

¹ Airbags are supplemental restraints only and will not deploy in all crash circumstances. Always use safety belts and refer to your owner's manual for the proper use of the restraint systems when transporting children.

- sheet aluminum
- cast aluminum
- extruded aluminum
- hot-formed steel
- cold-formed steel

It turns out, science fiction has nothing on reality.

Remember what we used to think was going to happen in the future? Flying cars, moving sidewalks and folding suitcases? While flying cars may never happen, science fiction still seems quaint compared to what reality offers. At Audi, our engineers and technicians are putting innovations in vehicles right now that would have seemed unimaginable 25 years ago. From the evolution of LED lighting technology and the introduction of dynamic steering in some models to the sheer processing power of our vehicles that allows for the seemingly infinite capabilities of Audi connect® and our MMI® with Google Voice™ integration, we aren't in the business of imagining what the future will bring. We're committed to bringing it.

1 Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only.

myAudi

Are you the type that likes to know how to get to your destination before you get in the car? With myAudi, you can plan travel from your personal computer, send your desired destinations to your vehicle ahead of time and access your route from your vehicle at any time on the road!

Your central command for the information age.

Sure, the handheld power of smartphones is impressive, but then, they don't handle like your Audi. Luckily, with Audi connect®, you can get nearly all of the functionality of your phone, with the means to get you where you want to go.¹ Need to find a new, highly acclaimed restaurant? Pull over, and with the help of Google Voice Search™, Audi connect allows you to quickly search Google™ by simple voice commands. Looking for something to do in a new city? Get information about current events and directions to their locations. With a crisp display, a lightning-quick 4G LTE connection and easy access to steering wheel toggle controls, you have a smartcar, which can do even more than the computer in your pocket.

MOBILITY
→
→

With INRIX XD® Traffic, get fast and accurate traffic information (included in your active Audi connect subscription) overlaid onto 3D satellite imagery to help visualize a true aerial view of your city and highway route, and let the MMI® navigation plus system reconfigure your route to help avoid traffic.^{1,2,3}

With Google Earth™ integration, you'll enjoy 3D satellite imagery, including Google Street View™, displayed right on the MMI display!

With Google Street View™, your Audi can show you a driver's-eye view of your destination right before you arrive so it's easy to recognize!

Keeping your navigation map up to date is easier than ever with the online map updates feature!

Search for parking in your area of interest, check space availability and set your selection as a destination to help navigate directly to the garage entrance!⁴

TECHNOLOGY
→
→

It's simple. Tell your Audi what you are in the mood for, then let the cloud-processing power of Google™ speech recognition interpret your request and bring up a list of destinations in the area of your choice!

Staying connected in your Audi has never been easier, with in-vehicle high-speed 4G LTE connectivity. Access is provided for up to eight passenger devices through an onboard wireless hub!

The point-of-interest search with voice control means that you can get the most out of every journey!

With streaming audio, it's easier than ever to stream music from your phone or digital music player right to the vehicle's audio system!

With access to Facebook® and Twitter® you'll always know what's going on with your friends, family and the world!

INFORMATION
→
→

Get information about current events, exciting locations and places of interest at your travel destination, current location or other chosen location instantly!

Stay on top of the news by having headlines and stories delivered right to your MMI display!

With current local weather conditions and forecasts for your destination, you'll always be prepared for your trip!

Discover travel information for local landmarks in your area of interest, set them as your destinations and let your vehicle lead the way as you explore the world around you!

With up-to-the-minute flight information available on your MMI screen, you'll know if your flight is on time!

1. Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only. 2. INRIX XD® Traffic is available on all Model Year 16+ A6, A7, TT and Q7 vehicles and is included with an Audi connect® subscription. Other models (allroad, A3, A4, A5, A8, Q3 and Q5) include SiriusXM® Traffic for four years with the purchase of the vehicle. 3. MMI® navigation plus depends on signals from the worldwide Global Positioning Satellite network. The vehicle's electrical system and existing wireless and satellite technologies must be available and operating properly for the system to function. The system is designed to provide you with suggested routes in locating addresses, destinations and other points of interest. Changes in street names, construction zones, traffic flow, points of interest and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested MMI® navigation plus route. Mapping updates are available at no charge for the first five map updates and are subsequently available on a subscription basis. 4. Parking feature is not available everywhere and requires participation by parking provider.

Redefining the all-access pass.

Going backstage just got a lot more immersive, and intuitive. The available intelligent MMI® system offers a wealth of easily accessible information with a unique twist, or, technically, a touch. Considered a revolution in intelligent simplicity, MMI touch with handwriting recognition is a technology that helps give you the ability to give commands and retrieve media with just a few simple strokes on the pad. You'll quickly have access to information such as music files, contact information and destinations. The possibilities are even bigger when you input to Audi connect®, an innovative infotainment system infused with the power of Google™ technology.¹ With this kind of access, you could say there is no greater stage.

MMI touch

Developed by the Audi Human Machine Interface (HMI) team, available MMI touch illustrates why making something simple to use can be so complex. The HMI team designed a system so advanced, it can read almost anyone's handwriting—even if you choose to write with your non-dominant hand.

Audi media

The media function opens up a world of options with the available MMI navigation plus, allowing you to control the Audi music interface through two available USB ports, Secure Digital (SD) card slots, hard disk drive (HDD) audio jukebox or DVD, and BLUETOOTH® streaming audio from a compatible device.²

SiriusXM® Satellite Radio

Go ahead. Crisscross the country. We assure you, you'll never run out of entertainment options, with over 150 channels of music, talk, sports and news.²

MMI navigation plus

Count on the available advanced navigation system to help home in on your destination with stunning precision while putting a little more depth in your journey with help from Google Earth™.²

BLUETOOTH® wireless technology

Unlock your compatible mobile phone's potential through the MMI system. Simply pair them up and start enjoying near complete control at the touch of a button.²

Quad-core processing power

Designed to elevate your automotive experience, the NVIDIA® quad-core Tegra® 3 processor powers the MMI system for a lightning-fast response and seamless functionality.

¹ Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only. ² See pages 40-41 for important information regarding Audi connect®, MMI® navigation plus, required compatible device, and required SiriusXM® subscriptions.

Orchestrate a more thrilling drive.

Over 400 hours of sound tuning
Tested 54,000 times
at speeds up to 155 mph

When we set out to compose the most advanced sound system we've ever assembled, we didn't want you to just *hear* every note. We wanted you to *experience* them. From perfectly sculpted high notes to a crystal clear mid-range to deep-diving lows, the available Bang & Olufsen® Advanced Sound System delivers a stunning recreation of sound that you can feel as much as hear. Innovative sound engineering can also be found in the available BOSE® Surround Sound System, which effortlessly brings a performance to life. So whether you're in the mood to be soothed, engaged or inspired, you can expect an immersive experience that can only be matched by the exhilaration of driving your Audi.

Bang & Olufsen® Advanced Sound System

The passion of Bang & Olufsen® matches well with Audi. Just consider the remarkable available Bang & Olufsen® Advanced Sound System. A synthesis of design and performance, it has become the symbol of acoustic perfection. Bang & Olufsen® engineers help to craft meticulously rendered sound through 15 speakers (including two innovative retractable aluminum acoustic lenses) and an impressive 1,300 watts through the sealed speaker cabinets and BeoCore amplifiers.

BOSE® Surround Sound System

Hitting the right note on every drive, the available BOSE® Surround Sound System turns your Audi into a 14-speaker powerhouse with the help of innovative sound engineering and optimized speaker placement. Add to that AudioPilot® noise compensation, which helps maintain a consistent volume under varying speeds and road conditions, and you get an acoustic listening environment that rivals any live performance.

The look of distinction and power is ever present, whether the Audi A6 is parked in your driveway or passing on the highway.

1. SiriusXM® Satellite Radio and SiriusXM® Traffic subscriptions are sold separately or as a package after trial period and are continuous until you call SiriusXM® to cancel. See Customer Agreement for complete terms and more information at www.siriusxm.com. SiriusXM® Traffic service available in select markets. SiriusXM® U.S. Satellite Service available only to those in the 48 contiguous U.S.A., D.C. and Puerto Rico (with coverage limitations). 2. The features discussed are not substitutes for attentive driving. Always check surrounding traffic, and use turn signals. Please see your owner's manual for further details, and important limitations. 3. Airbags are supplemental restraints only and will not deploy in all crash circumstances. Always use safety belts and refer to your owner's manual for the proper use of the restraint systems when transporting children. 4. High-performance tires are designed for better performance and handling in warm climates. When driving in cold, snowy or icy weather, you should equip your vehicle with four all-season or winter tires, which offer better traction under those conditions. We suggest you use the Audi-recommended winter or all-season tires specified for your Audi. High-performance tires also have a lower aspect ratio that aids performance and handling. Driving over rough or damaged road surfaces, as well as debris, curbs and other obstacles, can cause serious damage to wheels, tires, vehicle body and suspension parts. Be careful to avoid road hazards and reduce your speed, especially if your vehicle is equipped with low-profile tires. Please also remember when making your selection that, while these tires deliver responsive handling,

they may ride less comfortably and make more noise than others. Finally, these tires may wear more quickly than other choices. It is important that the inflation pressure is regularly checked and maintained at recommended levels. 5. MMI® navigation plus depends on signals from the worldwide Global Positioning Satellite network. The vehicle's electrical system and existing wireless and satellite technologies must be available and operating properly for the system to function. The system is designed to provide you with suggested routes in locating addresses, destinations and other points of interest. Changes in street names, construction zones, traffic flow, points of interest and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested MMI® navigation plus route. Mapping updates are available at no charge for the first five map updates and are subsequently available on a subscription basis. 6. Always pay careful attention to the road, and do not drive while distracted. The features and technologies discussed above are optional, may require an additional subscription with separate terms and conditions, and should be used only when it is safe and appropriate. The Wi-Fi® hotspot feature is intended for passenger use only. 7. INRIX XD® Traffic is available on all Model Year 16+ A6, A7, TT and Q7 vehicles and is included with an Audi connect® subscription. Other models (allroad, A3, A4, A5, A8, Q3 and Q5) include SiriusXM® Traffic for four years with the purchase of the vehicle. 8. Some Audi models are equipped with a keyless ignition feature. The details as to how the system works can vary, and Audi owners should consult their owner's literature or an authorized Audi dealer if they have further questions about the operation of this feature. Please note that Audi warns against leaving the vehicle unattended with the engine running, particularly in enclosed spaces.

1. High-performance tires are designed for better performance and handling in warm climates. When driving in cold, snowy or icy weather, you should equip your vehicle with four all-season or winter tires, which offer better traction under those conditions. We suggest you use the Audi-recommended winter or all-season tires specified for your Audi. High-performance tires also have a lower aspect ratio that aids performance and handling. Driving over rough or damaged road surfaces, as well as debris, curbs and other obstacles, can cause serious damage to wheels, tires, vehicle body and suspension parts. Be careful to avoid road hazards and reduce your speed, especially if your vehicle is equipped with low-profile tires. Please also remember when making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than others. Finally, these tires may wear more quickly than other choices. It is important that the inflation pressure is regularly checked and maintained at recommended levels. 2. Airbags are supplemental restraints only and will not deploy in all crash circumstances. Always use safety belts and refer to your owner's manual for the proper use of the restraint systems when transporting children. 3. The features discussed are not substitutes for attentive driving. Always check surrounding traffic, and use turn signals. Please see your owner's manual for further details and important limitations. 4. 2016 EPA estimates not available at time of publication. See www.fueleconomy.gov for updated information. Your mileage will vary and depends on several factors, including your driving habits and vehicle condition. 5. Top track speed is electronically limited in the U.S. Always obey all speed and traffic laws.

A shade more extraordinary.

Audi exclusive is an exercise in self-expression. It's a commission of your own personal tastes. A premium option for an exceptionally premium vehicle, Audi exclusive gives you the chance to put an unmistakably personal stamp on your vehicle by offering an almost limitless spectrum of Audi exclusive paint colors, special Audi exclusive decorative inlays and Audi exclusive leather options. Choose the shades, materials and even the stitching that moves you the most and make your vehicle as extraordinary as you are.

Great lines make the performance more memorable.

With the available S line® Sport package, we give Audi Sport® style to an already stunning Audi vehicle. So with Audi A6 models, you can get the more aggressive lines—and double takes—that come with Audi Sport design. More striking lines define the exterior, while a lowered stance, provided by the sport suspension calibration and available 20" 5-arm star design wheels, adds to its visual appeal. The S line is a premium collection of design cues and features that make the overall performance of your vehicle that much more memorable.

2016 Audi A6 3.0T Prestige shown in Tornado Gray metallic with S line® Sport package and available equipment.

There’s always another story.

Our story doesn’t end with this brochure. In fact, we have many more stories to tell at Audi library. Simply download Audi library from the Apple® App StoreSM or Google PlayTM store, and you can read everything, from other model and accessory brochures to special-edition pieces to the award-winning *Audi Magazine*. Dive into a massive trove of Audi specs, interactive content, videos, stories and technologies, just by downloading them onto your tablet¹

To download the Audi library app onto your device, just follow these steps:

- › Go to the Apple® App StoreSM or Google PlayTM store
- › Search for “Audi library”
- › Download the app to your device¹

Audi Genuine Accessories

Add distinction, versatility and the ultimate in self-expression with Audi Genuine Accessories. Whether you load the cargo carrier with climbing gear or add a set of stylish new wheels, we offer accessories to help enhance every facet of your lifestyle. When purchased from an authorized dealer, all pieces are backed by your vehicle’s 4-year/50,000-mile limited warranty, or for 12 months/12,000 miles from the accessory purchase date, whichever is greater.¹ If you’re looking to personalize or help protect the vehicle you love, we have a solution designed by Audi that works for you.

Audi Genuine Sport and Design Accessories

For a bolder appearance or a finishing touch, we have a solution that helps make every mile more enjoyable—and more yours.

- > Stylish wheel designs
- > Rear spoilers
- > License plate frames

Audi Genuine Electronics Accessories

Our audio options help enhance your listening pleasure, while other accessory options help promote convenience.

- > iPhone® adapter cable
- > Emergency tool
- > Acoustic rear parking system

Audi TravelSpace Transport Accessories

Wherever you go, help make sure everything fits with a variety of intelligent and innovative solutions.

- > Base carrier bars
- > Bike and ski racks
- > Rooftop cargo carriers
- > In-vehicle cargo bags

Audi Guard Comfort and Protection Accessories

Help protect what you love. Use Audi Guard Comfort and Protection Accessories to help keep your Audi looking like new—inside and out.

- > Floor mats
- > Splash guards
- > Cargo mats

Visit parts.audiusa.com to view the full line of Audi Genuine Accessories.

¹ Audi Genuine Accessories purchased from an authorized Audi dealer are covered for the greater of: (1) the accessory limited warranty period (12 months or 12,000 miles, whichever occurs first) from the time of purchase; or (2) the remainder of the New Vehicle Limited Warranty period (48 months or 50,000 miles, whichever occurs first). See your authorized Audi dealer for details. ² All roof-rack system attachments require the base carrier bars. All attachments sold separately. Recreational equipment, sporting equipment and luggage not included.

ACCESSORIES
→
→

01 Fork-mount bike rack

Made of anodized aluminum, this rack features a quick-clamping device that can be secured with the included lock?

02 Compact cargo carrier

Extra gear won’t take up valuable trunk space with this aerodynamic carrier that offers a generous 10.5-cu-ft capacity. Size: 76" long, 26" wide, 15" high?

03 All-weather cargo mat

Custom fit for your A6 or S6, the raised outside edge of the cargo mat helps contain spills and protects cargo-area carpeting from stains. The textured material helps control load shifting.

04 20" 5-tri-spoke wheel and tire package

A sporty yet elegant design in Anthracite with machine-polished spokes.

05 Premium textile floor mats

These skid-resistant, precision-fit mats are made of long-life fabric to help protect your vehicle’s interior from the elements. Mats are black and available in a set of four.

06 A6 all-weather floor mats

07 S6 all-weather floor mats

Deep-ribbed, channeled design helps protect your vehicle’s floor from water, mud, sand and snow. Black mats are available in sets of two for front or rear. Front mats feature the A6 or S6 logo.

08 Load-protection film

This custom-fit transparent film helps protect the rear bumper from scratches while loading and unloading. The red outline depicts the coverage area.

09 Sun protection system

Help reduce light transmission and keep the temperature down in your A6 with our window shades. Available in a set of three.
