

A8

Audi A8 | A8 L | A8 L W12

An executive decision has been made.

The Audi A8 L executive-class sedan doesn't just make an assured statement of confidence—it expands on it in considerable detail. With a longer wheelbase that adds more rear space, the A8 L was conceived with the comfort of rear passengers in mind, providing them with the space to tailor their environment to their own requirements. Available rear-seat comforts include a relaxation seat that features massage functionality, power sunshades for the rear and side windows, as well as a full complement of technology and entertainment choices through dual 10" monitors for each rear seat. But the A8 L offers far more. With a 372-hp V8, it delivers a smooth ride and sporty driving characteristics. With Audi connect™ information delivery and Wi-Fi hotspot capabilities, it can turn the cabin into a mobile workstation for passengers.¹ With traditional Audi craftsmanship, it recasts executive prestige for those certain about what they want out of luxury.

It's easy to provoke a response. The trick is to evoke an emotion.

Designed to satisfy the driver that demands every detail be thoroughly examined, the Audi A8 is built to be the new benchmark for progressive design. Matching luxury with sportiness, commanding presence with sophistication, the A8 announces its arrival with Audi signatures like the Singleframe® grille with chrome struts and the iconic shape and illumination of adaptive xenon plus headlights. It says farewell with a sculpted coupe-like rear and stunning LED taillights, to give onlookers something to remember as it passes. It may be the emotion we evoke is envy.

Rewriting the elements of style.

Spacious design and dedicated craftsmanship are hallmarks of the Audi A8 interior. You feel the space with the wraparound curve of the door through the dash, which helps frame your driving environment. You feel the craftsmanship in the highest standards of materials and finishes. Once seated, you'll notice that first-class comfort envelops you—everything from an available four-zone automatic climate control system to the unique design of the gearshift lever which helps your hand rest while you control the Audi MMI®. It's the comprehensive attention to your needs—and the anticipation of them—which changes the definition of style, from form to something deeper.

.10 - Ventilated Seats

Breathe easier with available front and rear-seat ventilation that offers multiple speeds of cooling, helping provide total comfort throughout your drive.

A painstaking dedication to your comfort.

The quality of workmanship in the Audi A8 is evident from the craftsmanship in our technologies: difficult to implement but easy to enjoy. With standard, 18-way adjustable seats and available 22-way comfort front seats, we show our inordinate dedication to your comfort. This, for Audi engineers, is truly a labor of love. We spend as long as it takes to provide you with a more comfortable and enjoyable ride. To us, that's time well spent.

.11 - Full Leather Package

This available package adds an Alcantara® headliner and leather onto the center console, knee rests, door armrests, and airbag cap to enhance the feel of the interior aesthetic of the A8.

.13 - Ventilated Front Seats with Massage Function

Available front seat ventilation offers multiple speeds of cooling, while its massage function helps soothe the body during extended drives.

.12 - 22-way Comfort Seats

Adding to the plush interior of the Audi A8 is the available 22-way driver and front passenger comfort seats that offer lumbar support, ventilation and massage functions.

.14 - Panoramic Sunroof

The optional two-panel panoramic sunroof offers both the front and rear passengers an unobstructed view overhead while flooding the cabin with natural light. And when you decide you need to say goodbye to the sun, a power sunshade is there to make it an easy task.

Luxury, whatever your perspective.

No matter where you sit, the Audi A8 L with a choice of available rear seat packages looks like the poster child for luxury. Side to side, front to rear, the expansive interior of the A8 L includes the kind of thoughtful details, matchless materials and overall sophistication that define your experience when driving in it. Genuine wood inlays, evocative ambient lighting, handcrafted finish throughout—all to create an exclusive atmosphere for a singular sanctuary.

.16 - Power Rear Side Sunshades

Enjoy your right to privacy in the A8 L with power rear side sunshades that help keep out natural and social elements.

.15 - Executive Rear Seating

The available A8 L Executive Rear Seat Package adds a level of personalized comfort to the new benchmark in executive luxury. Power rear single seats with massage functions help provide sumptuous relaxation. While a fixed leather-covered rear center console and Rear Seat Entertainment with dual 10" screens provide comfort while creating a mobile business or pleasure center. This package also features a small refrigerator between rear seats as well as rear-seat ventilation.

.18- Dual 10" Screens

This available feature is mounted on the back of the front seats. It affords each rear passenger access to their own media controls, located on the center armrest.

.17 - Rear Seat Table

- - → Featured within the A8 L Executive Rear Seat Package, this elegant workstation is stationed next to rear-seat climate and entertainment controls, making it an excellent productivity hub.

Because we know you're the type who likes to stay in control.

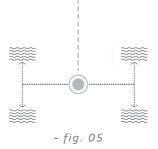

To fully appreciate power, there has to be some measure of control Control helps articulate the feel of it, helps to define its potential and helps you know how far you can take it. Power, as delivered in the A8, is expressed with a host of dynamic technologies, centering around Audi quattro® all-wheel drive. Audi quattro® helps deliver power and maximize performance in almost any conditions while helping you maintain control. When combined with other performance technologies, it's clear that the A8 doesn't want to hold you back, but rather stay on top of the power you possess.

.19 - Sports Differential

The available sports differential dynamically varies torque between its rear wheels to help enhance agility when cornering.

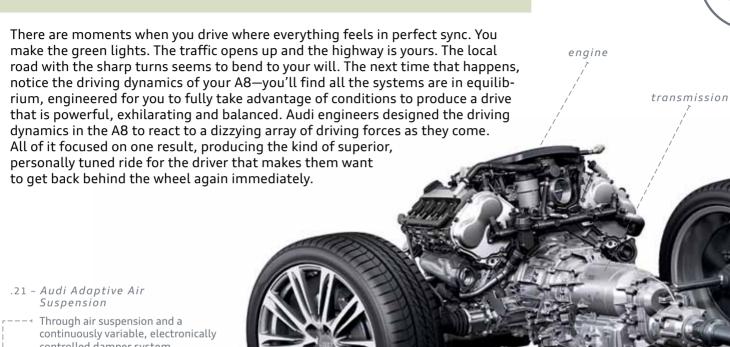

drive system utilizes a self-locking center differential to transfer power where it is needed most. Under normal driving conditions, AU percent of driving force is directed to the front wheels, and the remaining of percent is directed to the rear wheels, The result is a pear perfect driving balance. If conditions warrant a change, the self locking center differential is capable of sending a majority of engine power to the axle with the most traction.

The legendary intelligent all-wheel

.20 - Audi audttro

Harmony begins with balance.

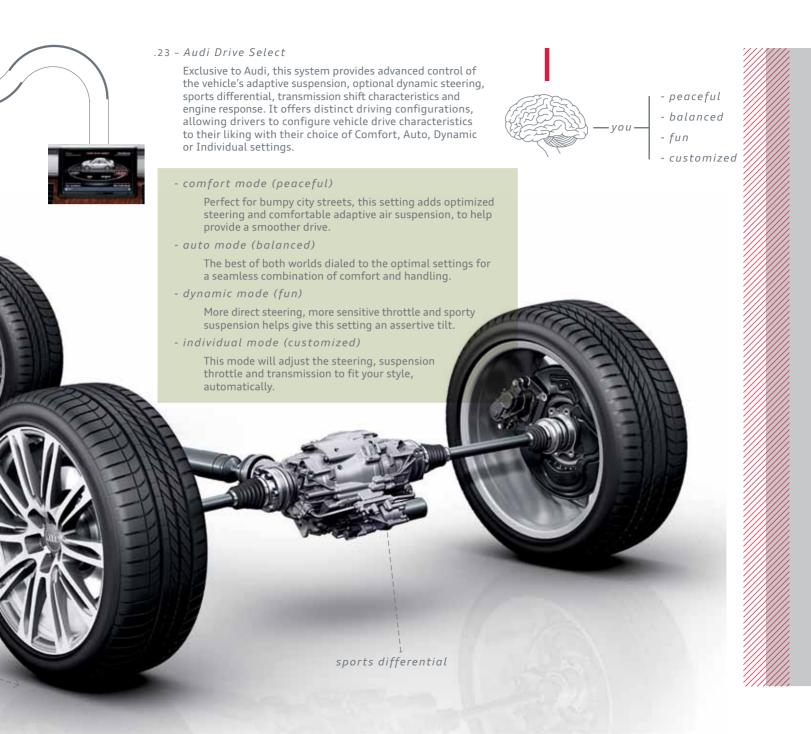

Through air suspension and a continuously variable, electronically controlled damper system, Audi adaptive air suspension automatically optimizes load distribution and senses driving conditions, to produce a balanced, comfortable and dynamic drive.

40%

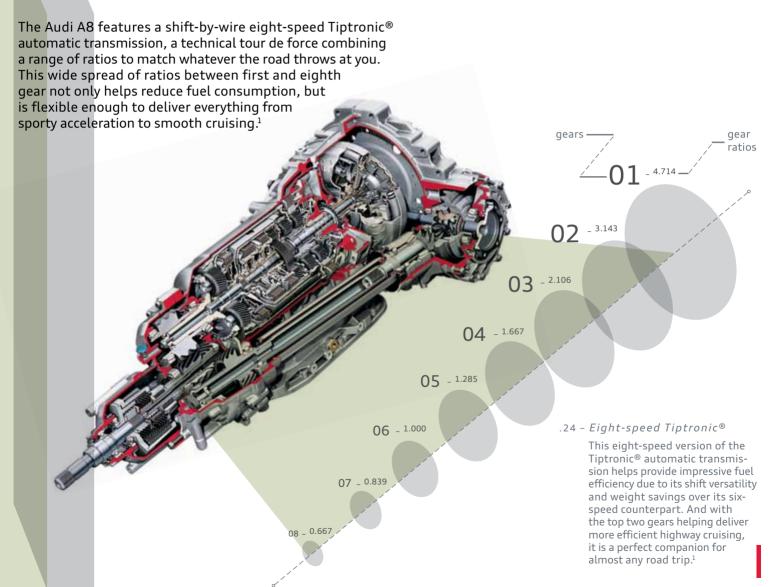

.22 - Asymmetric Torque Split

With an effective 40:60 rear-biased torque split, it's ideal for rear-wheel-type power delivery. But where traction is strongest, the bias can change for optimized handling and performance.

60

With this kind of response, you may not care how efficient you've become.

The beating heart of luxury.

It's an enviable choice—the refined luxury of the Audi A8 4.2L FSI® or the extraordinary power of the W12. Featured on the A8, the Audi 4.2L FSI V8 delivers 372 hp and does 0 to 60 mph at an impressive 5.7 seconds, while the legendary W12 brings 500 hp, 463 lb-ft of torque and a 0-to-60-mph time of 4.4 seconds to round out an impressive power profile.²

.26 - 6.3L Audi FSI W12

The pinnacle of engine design, this direct-injected gasoline engine gets its name from the W-shaped layout of its cylinders—four rows of three cylinders each, merged into two banks. Starting from its displacement of 6.3 liters, the surprisingly compact, lightweight W12 pumps out an immense 500 hp and a thrilling 463 lb-ft of torque. In addition to the impressive output, the W12 is also the only twelve-cylinder engine in a luxury vehicle that has a standard all-wheel drive system—others don't offer it at all.

W12

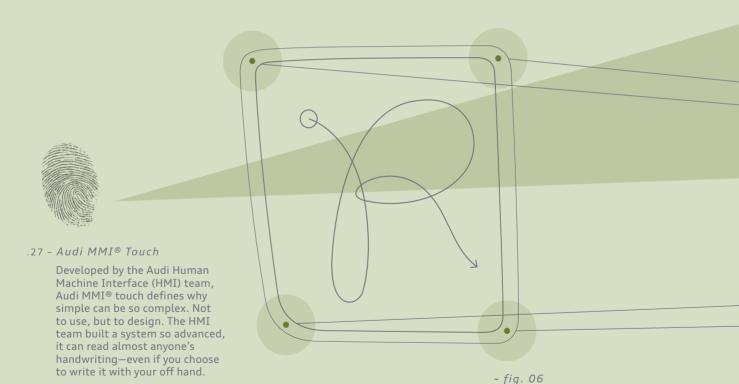

4.4 _ seconds

.25 - 4.2L Audi FSI V8 Engine

Owing much of its power response to Audi FSI direct injection, the system injects a precise amount of fuel into each cylinder. Combined with the Audi valvelift-system-complementing FSI, the result helps deliver maximum efficiency and responsive power at practically any rpm.²

Input as unique as your fingerprint.

What does your handwriting say about you? We aren't really sure. We just know it speaks to us. A revolution in intelligent simplicity, the Audi MMI® touch with handwriting recognition is a class-first technology that gives you the ability to give commands and retrieve media simply by recognizing a few strokes of your finger. Access information such as songs, phone numbers, and destinations through the Audi MMI® touch—or give input through the traditional Audi MMI® rotary dial or voice commands to Audi connectTM, the world's first media system with Google EarthTM imagery. The world isn't simply at your fingertips—your fingertips open up a new way to interact with the world.

- letter and number entries for destinations and contacts
- radio preset selection
- album-cover scrolling
- map scrolling
- sound distribution adjustment

77° 23' 41.1" W

No one connects you the way we do.

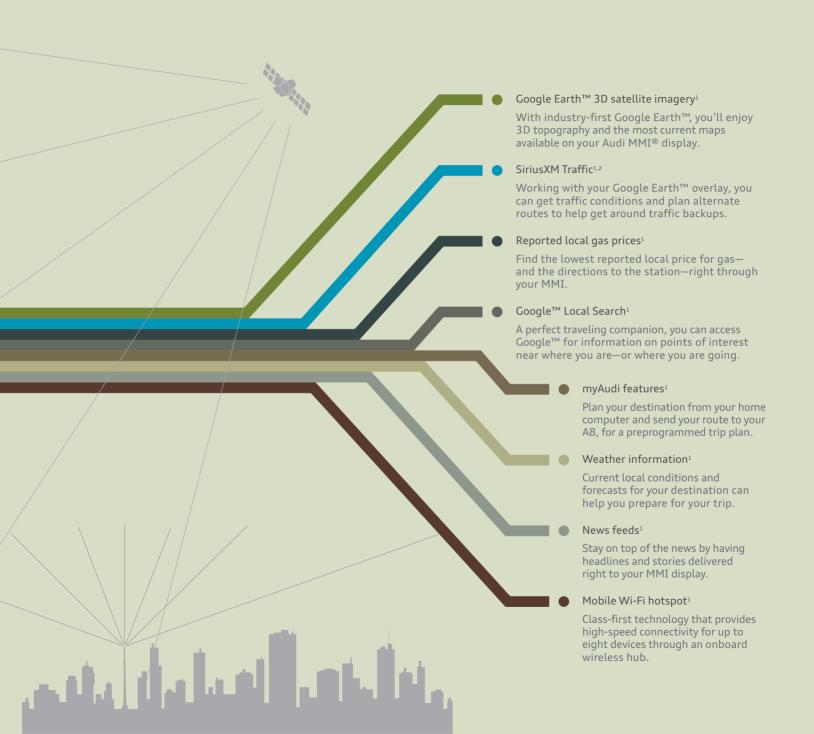

We set out to change how people interact in and out of their automobiles. A suite of classleading technologies has made the A8 a true champion for progress. Audi MMI® touch with handwriting-recognition technology, Audi connect™ with Google Earth™, and Wi-Fi connectivity¹ for up to eight passenger devices help ensure that no other luxury automotive company offers this level of connectivity in the U.S. You can also access the information and navigation entirely with your voice in just a few commands. And with that kind of access, Audi helps build on your interactive life while helping enhance your ownership experience.

33° 46' 3.1" N 118° 11' 26.5" W

2 See back cover for important information regarding required SiriusXM subscriptions.

¹ Requires a data subscription plan. Distracted driving can cause a loss of vehicle control. The features and technologies discussed above are offered for convenience, and should be used only when it is safe and appropriate. The Wi-Fi hotspot feature is intended for passenger use only. Always pay careful attention to the road, and do not drive while distracted.

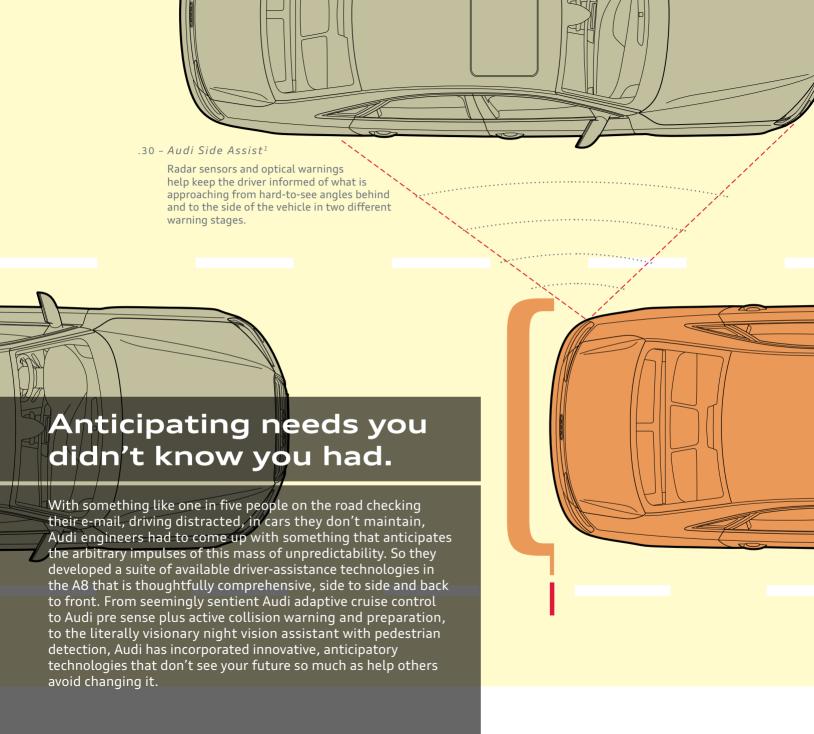

Striking a deep note for a shared passion.

For years, while other sound-system engineers were obsessed with what they thought you should be hearing, Audi sound engineers thought about how we impact what people are feeling when they are enjoying music. We found a partner who shared our passion—Bang & Olufsen®—who has helped us conceive a new way of experiencing sounds in your A8. We use speaker positioning, speaker design and precise sound calibration to work in concert with the ambient noise in your car. The results are crisper, more resonant—you might even say, more emotional. Because, if you are only listening, you're not really feeling it.

(Bang & Olufsen® acoustic lenses)

.31 - Night Vision Assistant¹

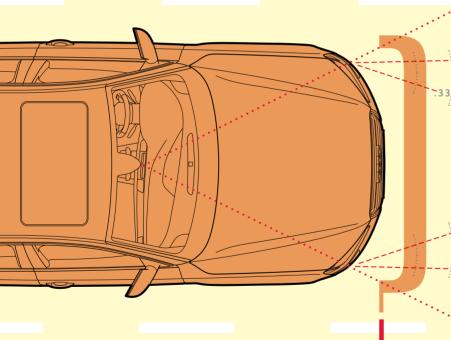

With an infrared camera detecting what lies ahead, the A8 uses thermal-imaging technology to help you avoid trouble. Pedestrians can be detected 300 feet in front of the vehicle, while objects can be detected up to 1,000 feet ahead—all shown on the 7" color driver information system.

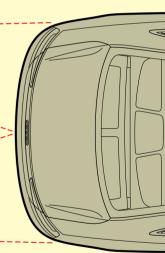

.32 - Audi Pre Sense Plus¹

Offers comprehensive driving assistance with sensors in the front, side, and rear. After visual, physical and aural collision warnings, there are four distinct phases for automatic preparation for the unavoidable: an upsurge of brake pressure, seatbelt pre-tensioning, partial braking, and sunroof and window preparation. In severe cases, Audi pre sense plus will engage full braking and deceleration.

33 - Audi Adaptive Cruise Control with Stop and Go¹

Not only retains a preset distance from vehicles ahead, but resumes acceleration when you're ready. Using long-range radar and a camera, Audi adaptive cruise control with Stop and Go helps read the traffic conditions and adjusts the speed, helping to bring the vehicle to a full stop before accelerating when traffic flow resumes.

.34 - Audi Lane Assist1

Unlike road-detection systems that override a driver's decision-making process, Audi lane assist helps warn of errant steering with a simple vibration on the steering wheel. By trusting the human element to make the correct on-road decision, the Audi A8 further solidifies its bond between driver and machine.

Shedding the excess of old luxury.

When you think of luxury, you probably don't think about weight savings. But by placing the right material where it is most needed, our team of engineers gets to the literal core of a better performing, more efficient, and patently unique luxury vehicle.

.36 - ASF® Aluminum Space Frame

Flexible yet unyielding, revolutionary ASF® technology offers an innovative approach to weight savings—a benefit you will notice in the overall efficiency, enhanced performance and remarkable handling of the Audi A8. These unique characteristics also help to absorb the normal bumps of the road, delivering a smoother ride.

.35 - Passive Safety

Referring to all dedicated measures that help protect the car's occupants against injury, the passive safety measures in the A8 include its safety belt system, ten airbags, the rigid occupant cell and crumple zones at the front and rear of the vehicle.

- 2 driver's head airbag
- ° driver's knee airbag
- % driver-side seat-mounted thorax side airbag
- ¬ driver-side Sidequard® head curtain airbag for both rows of seats
- thorax side airbag

- % front-passenger head airbag
- ? front-passenger knee airbag
- % front-passenger seatmounted thorax side airbag
- passenger-side Sidequard® head curtain airbag for both rows of seats
- % driver-side rear seat-mounted + passenger-side rear seatmounted thorax side airbag

.37 - Ten Airbags

The A8 is equipped with a full complement of ten airbags to offer additional protection in the event of a collision. Front-impact airbags for both driver and front passenger are designed to specifically target and protect the head during collisions, for added protection.1

1 Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age.

Accessories

With the A8, there's always more. Like an Audi Genuine Accessory. Choose one that helps protect your A8 in the garage. Or carries your bikes for a serious weekend on the trails. Or makes heads swivel as you drive by. These accessories are the little extras that make your Audi even more distinguished. Designed by the same visionaries

20" Cartesia Alloy Wheels
This classic wheel style combines a retro look with today's technology and quality.

Textile Floor Mats
This set of custom-fit, black floor mats keeps
your A8 looking showroom-new.

Cup Holder Ashtray
Removable and easy to clean, this ashtray is
perfect for holding ashes or spare change. Lid

Various Transport Solutions

The open road is calling—so bring all the right gear to enjoy the ride. The Audi line of storage accessories ideally protects your possessions with a variety of intelligent and innovative solutions. Choose from bike racks, ski racks and a variety of cargo carriers.

who designed your vehicle, all accessories feature a tailored fit and the expert craftsmanship you'd expect from Audi. They are also backed by the 4-year/50,000-mile Audi New Vehicle Limited Warranty or the accessory's 12-month/12,000-mile limited warranty, whichever extends longer from the accessory purchase date.¹

Indoor Storage Cover

Made from three-layer polypropylene fabric, this cover repels moisture and heat to provide added protection for the finish of your A8.

Base Carrier Bars

Attached to strong side brackets, these are the durable foundation of the Audi roof-rack system. (All roof-rack system attachments require the base carrier bars. All attachments sold separately.)

Aluminum Luggage Carrier

A quality roof-rack platform made from lightweight aluminum. Requires vehicle base carrier bars (sold separately).

Splash Protectors

Help protect your exterior finish with custom-fit front and rear splash protectors. Made of long-life, crack-resistant rubber. Available in sets of two for front or rear.

Comfort and Protection Solutions

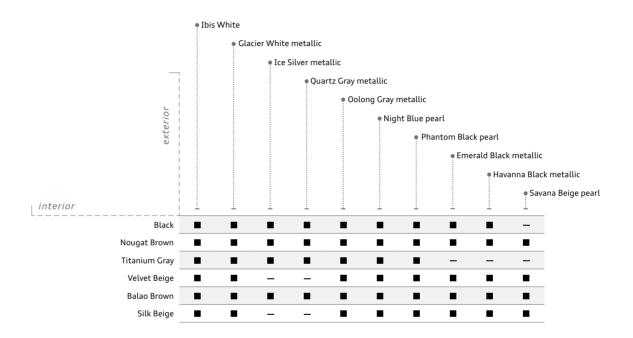

Audi Genuine Accessories offer a wealth of practical aids for more space, tidiness and safety on board with functional items to help keep your Audi in pristine condition. Use them all to help reduce wear and tear on your Audi and help keep it looking like new—inside and out.

Car Care

Use the only car care line designed with your Audi vehicle in mind. Audi Guard car care products provide gentle cleansing formulas and special tools to help give interior and exterior surfaces the finest in cleaning and protection.

A8 Sport Package

¹ Tires are supplied and warranted by their manufacturer. High-performance tires are designed for optimum performance and handling in warm climates. They are not suitable for cold, snowy, or icy weather conditions. If you drive under those circumstances, you should equip your vehicle with all-season or winter tires, which offer better traction under those conditions. We suggest you use the recommended winter or all-season tire specified for your car or its equivalent. These high-performance tires also have a lower aspect ratio that aids performance and handling; however, in order to avoid tire, rim or vehicle damage, it is important that the inflation pressure is regularly checked and maintained at optimum levels. Please also remember in making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than other choices. Finally, these tires may wear more quickly than other choices. 2 Always obey local speed and traffic laws.
