

TT TTS

Coupe | Roadster

**It drives exactly like it looks.**

More than a rolling sculpture, the TT is passion in motion. A true coupe, it has been imitated, but never duplicated. An impossible task considering the race-bred pedigree of the TT. Audi power coupled with quattro® all-wheel drive makes it, quite literally, performance art.

**It holds a corner  
as well as it does a stare.**

The TT is the sum of two icons. First, its styling. Accumulating numerous design awards, its fluid silhouette is unmistakable, suggesting looks are only the beginning of the TT experience.

Then there's what lies beneath its sumptuous skin. Track-proven power mated to the rally-winning benefits of quattro® all-wheel drive add more than enough brawn to its striking exterior.

**This is not driving,  
this is experiencing.**

Leather-wrapped wheel in hand and firmly cradled in the  
Fine Nappa Leather seats, your connection to an Audi on  
the road couldn't be any more real.

**Velocity with a vengeance.**

A TTS in motion is nothing short of a technological ballet. The Audi magnetic ride offering crisp handling, the standard S tronic® with its instantaneous gear shifts and the 258 lb-ft. of torque all combine to make the TTS a study in fluid motion.

TT. Premium [standard feature highlights]

1.

**Leather-wrapped, flat-bottom, multifunction sport steering wheel** | The three-spoke, leather-wrapped design has a sporty look and feel. The multifunction steering wheel provides easy access to infotainment functions.
2. [2.0 T only]

**17" five-arm aluminum alloy wheel with summer performance tires or all-season tires\*** | 17" five-arm cast alloy wheel with 225/50 summer performance tires. The lightweight alloy and performance tires help to improve driving dynamics.
3. [3.2 only]

**17" seven-Y-spoke aluminum alloy wheel with 245/45 summer performance or all-season tires\*** | The 17" seven-Y-spoke design is a sporty wheel equipped with summer performance or all-season tires, providing improved driving dynamics and superior handling and performance.
4.

**Power adjustable, heated exterior mirrors with integrated LED turn signals** | The exterior rearview mirrors are electronically adjustable, heated to prevent fogging and house integrated LED turn signals.
- +

**Audi hill hold assist** | Audi hill hold assist combines convenience and safety by helping to prevent the car from briefly rolling back when performing a hill start.
- +

**SIRIUS® Satellite Radio** | SIRIUS® Satellite Radio gives drivers access to more than 120 channels of digital satellite radio. Dozens of varieties of commercial-free music, as well as talk radio, sports, news and information are just a button away with this seamlessly integrated system.
- +

**Aux-in jack** | This electronic feature allows the driver to plug a compatible audio-playing device into the vehicle, resulting in an enhanced and convenient listening experience.
- +

**Retractable rear spoiler** | The retractable rear spoiler automatically extends at 75 mph and retracts at 50 mph. This sporty and aerodynamics-enhancing feature of the TT can also be operated manually, up to speeds of 75 mph.

\* Feature not shown.

\* See page 32 for important safety information regarding summer performance tires.

TT. Premium Plus

1.

**10-way power front driver seat and passenger seat** | The front seats allow the driver and passenger to electrically adjust the seat's fore/aft position, height, lumbar support, and angle of seat cushion and seat back. [Leather seating surfaces available only with S line Package.]
2.

**BI-XENON™ headlights** | BI-XENON™ headlights produce about twice as much light as comparable halogen headlights, and make night driving, particularly in poor weather, safer and less tiring for the driver's eyes.
3.

**Storage Package** | The Storage Package adds a number of convenient features to the TT interior, including compartments under driver's and front passenger's seats, a net in the front passenger's footwell, nets on the back of the driver's and front passenger's seats, and a load securing net in the luggage compartment.
4.

**HomeLink® universal garage door opener** | HomeLink® is integrated into the overhead controls and uses a simple three-button system that can be programmed to operate garage doors, gates and even lights in the home.

TT Premium Plus includes Premium features. Equipment may vary depending on upgraded features.

+ Feature not shown.

+ **Daytime running lights** | Daytime running lights provide safety and visibility and can be switched off manually if necessary.

+ **Auto-dimming interior mirror with compass** | The rearview mirror with automatic dimming recognizes glaringly bright beams behind the car and darkens the mirror automatically. An electronic control unit varies the darkening effect quickly and continuously according to actual ambient light conditions. Vehicle direction is digitally displayed in the corner of the mirror.

+ **Leather armrest and handbrake grip** | Luxurious interior details are comprised of additional leather-covered elements including the handbrake grip and armrest.

+ **Load-through facility with removable ski bag** | The TT Roadster features a load-through facility from the trunk into the interior cabin. Equipped with a ski bag, the feature grants approximately 6.2 feet of additional storage.

+ **Bluetooth®** | The Bluetooth® hands-free phone interface allows you to pair a Bluetooth-enabled mobile phone with your Audi and access your phone book within the driver information display in your instrument panel. For specific compatibility and operation instructions, refer to [audiusa.com/bluetooth](http://audiusa.com/bluetooth) or contact your local Audi dealer for the latest listing of compatible phones.

TT. Prestige

**1. BOSE® Premium Sound System with AudioPilot** | 12 speakers, including center speaker and subwoofer matched with an eight-channel DSP amplifier for a total output of 255 watts. A microphone measures noise level and adjusts radio volume accordingly, resulting in balanced sound despite background noise.

**+ Audi Navigation system plus with six-disc CD changer** | The DVD-based Audi Navigation system plus features a full-color 6.5 inch LCD screen and MMI®-inspired control logic for AM/FM radio functions, a six-CD changer in the glove box, and two SD® card slots for your MP3 music. Navigation information is given as audible route-guidance prompts and turn arrows via the color driver information system as well as a detailed color map on the main screen; five languages are available.

**+ Interior LED lighting** | The interior LED lighting features permanent vertical ambient illumination of select interior areas.

**+ Audi parking system** | Ultrasonic sensors measure the distance of the rear bumper to obstacles, while intermittent, audible tones indicate the distance to the driver. The Audi parking system makes driving more relaxed and parking easier.

TT Prestige includes Premium Plus features. Equipment may vary depending on upgraded features.

**+ Feature not shown.**

TT. Options [highlights]

**2. Baseball Optic Leather Seating Surfaces** | The superior quality of Fine Nappa Leather seating surfaces add to the elegant, dynamic and versatile driving experience. The unique, stylish stitching evokes the original heritage of the TT. [Black is available for Coupe. Madras Brown is available for Roadster.]

**3. S line Sport Package** | The S line Sport Package adds to the already impressive and sporty nature of the TT. Included in the package are black leather S line seats, 19" wheels, special S line bumpers and steering wheel and S line door sill inserts.

**4. Audi exclusive line** | The Audi exclusive line allows you to put your individual stamp on the interior of your TT. The package includes black Fine Nappa Leather seating surfaces with a selection of insert color options and bicolored leather with uniquely colored stitching.

**+ Enhanced Interior Package** | The enhanced Interior Package adds a touch of exclusivity to the already luxurious TT interior. Included in the package are Fine Nappa Leather seating surfaces as well as a leather cowl above instrument cluster, center console, door pull, door inserts, handbrake grip and armrest.

**+ Heated front seats** | The multilevel seat-heating system is designed to heat the entire surface of the seat; warming is initiated with a convenient switch.

**+ Audi magnetic ride** | Instead of conventional damper oil, the shocks are filled with a special fluid where viscosity can be controlled by an electromagnetic field. The TT continuously adjusts the fluid's electromagnetic properties to deliver the appropriate damping forces in every driving situation. The driver can manually select standard or sport mode in milliseconds with the touch of a button.

**+ 18" ten-spoke bicolor aluminum alloy wheel with 245/40 summer performance or all-season tires\*** | The 18" ten-spoke design is a refined choice matching the sporty sophistication of the Audi TT. The alloy helps to improve driving dynamics.

\* See page 32 for important safety information regarding summer performance tires.

TTS. Premium [standard feature highlights]

1.

**18" five-parallel-spoke S design wheel with summer performance tires\*** | The 18" five-parallel-spoke wheel is impressive in its stance and design. The wheel comes equipped with summer performance tires, which provide improved driving dynamics and superior handling and performance.
2.

**Driver information system** | The driver information system, with its new, high-resolution white display concentrates all important information where it can be clearly seen by the driver and includes a timer function that is able to record lap times on racetracks.
3.

**Enhanced S interior** | The S interior enhances the already sleek and sporty interior of the TTS. Included are unique TTS gear shift knob, door sills, sport seats, and leather arm rest.
4.

**Power adjustable, heated S exterior mirrors with integrated LED turn signals** | The exterior rearview mirrors are electronically adjustable, heated to prevent fogging and house integrated LED turn signals.
- +

**Audi hill hold assist** | Audi hill hold assist combines convenience and safety by helping to prevent the car from briefly rolling back when performing a hill start.
- +

**Performance exhaust with S exhaust pipes** | Two sets of twin tailpipes protruding from the left and right inject the vehicle's tail with a sporty character all its own, and an unmistakable hint of what's under the hood.
- +

**Retractable rear spoiler** | The retractable rear spoiler automatically extends at 75 mph and retracts at 50 mph. This sporty and aerodynamics-enhancing feature of the TTS can also be operated manually, up to speeds of 75 mph.
- +

Feature not shown.

5.

**BI-XENON™ headlights with LED daytime running lights** | BI-XENON™ headlights produce about twice as much light as comparable halogen headlights, and make night driving, particularly in poor weather, safer and less tiring for the driver's eyes. The LED daytime running lights provide additional safety and can be switched off manually.
- +

**Heated windshield washer nozzles** | The heated windshield washer nozzles give the TTS enhanced convenience.
- +

**TTS exterior elements** | The TTS exterior elements are elegant yet sporty and are accented by the muscular S front bumper and chrome optic single-frame grille, the S rocker panel, S rear bumper with platinum gray diffuser and the S exterior mirrors with LED turn signal indicators. These features emphasize the marriage of form and function of the TTS.
- +

**S Audi magnetic ride with 10mm lowered chassis** | Instead of conventional damper oil, the shocks are filled with a special fluid where viscosity can be controlled by an electromagnetic field. The TTS continuously adjusts the fluid's electromagnetic properties to deliver the appropriate damping forces in every driving situation. The driver can manually select standard or sport mode in milliseconds with the touch of a button.
- +

**SIRIUS® Satellite Radio** | SIRIUS® Satellite Radio gives drivers access to more than 120 channels of digital satellite radio. Dozens of varieties of music, as well as talk radio, sports, news and information are just a button away with this seamlessly integrated system.
- +

**Leather-wrapped, three-spoke, multifunction sport steering wheel with S tronic® paddle shifters** | The three-spoke, leather-wrapped design has a sporty look and feel. The multifunction steering wheel provides easy access to infotainment functions.

\* See page 32 for important safety information regarding summer performance tires.

## TTS. Premium Plus

### 1. [Roadster only]

**Power-folding top** | The power-folding, automatically retractable soft top is an element of added convenience to the TTS.

### +

**10-way power front driver seat and passenger seat** | The front seats allow the driver and passenger to electrically adjust the seats' fore/aft position, height, lumbar support, and angle of seat cushion and seat back.

### + [Stand-alone option also available on TTS Premium]

**Bluetooth®** | The Bluetooth® hands-free phone interface allows you to pair a Bluetooth-enabled mobile phone with your Audi and access your phone book within the driver information display in your instrument panel. Refer to [audiusa.com/bluetooth](http://audiusa.com/bluetooth) for compatibility and operation information.

### +

**Auto-dimming interior mirror with compass** | The rearview mirror with automatic dimming recognizes glaringly bright beams behind the car and darkens the mirror automatically. Vehicle direction is digitally displayed in the corner of the mirror.

### +

**Rain-sensing windshield wipers** | Located on the windshield behind the rearview mirror, the rain sensor activates the windshield wipers automatically when rain or other moisture appears on the windshield, and adapts the wiper interval to match the amount of rain.

### +

**Storage Package** | The Storage Package adds a number of convenient features to the TT interior, including compartments under driver's and front passenger's seats, a net in the front passenger's footwell, nets on the back of the driver's and front passenger's seats, load-securing net in the luggage compartment and load-through facility with ski bag [Roadster only].

### +

**Heated seats** | The multilevel seat heating system is designed to heat the entire surface of the seat; warming is initiated with a convenient switch.

TTS Premium Plus includes Premium features, and TTS Prestige includes Premium Plus features. Equipment may vary depending on upgraded features.

+ Feature not shown.

## TTS. Prestige

### 2. [Stand-alone option also available on TTS Premium Plus]

**Audi Navigation system plus with six-disc CD changer** | The DVD-based Audi Navigation system plus features a full-color 6.5 inch LCD screen and MMI®-inspired control logic for AM/FM radio functions, a six-CD changer in the glove box, and two SD® card slots for your MP3 music. Navigation information is given as audible route guidance prompts and turn arrows via the color driver information system as well as a detailed color map on the main screen; five languages are available.

### 3.

**BOSE® Premium Sound System with AudioPilot®** | 12 speakers including center speaker and subwoofer matched with an eight-channel DSP amplifier for a total output of 255 watts. A microphone measures noise level and adjusts radio volume accordingly, resulting in balanced sound despite background noise.

### +

**Interior LED lighting** | The interior LED lighting features permanent vertical ambient illumination of select interior areas.

### + [Stand-alone option also available on TTS Premium Plus]

**Audi parking system** | Ultrasonic sensors measure the distance of the rear bumper to obstacles, while intermittent, audible tones indicate the distance to the driver. The Audi parking system makes driving more relaxed and parking easier.

## TTS. Options [highlights]

### 4.

**19" five-parallel-spoke star design wheel with summer performance tires\*** | This wheel option gives the TTS an extremely sporty and progressive look and feel. With these tires, superior driving dynamics and enhanced handling are apparent.

### +

**Silk Nappa Leather Package** | The use of high quality Silk Nappa Leather in the interior of the TTS adds to the elegant, dynamic and sporty driving experience. The stylish contrasting seams add to the progressive interior style.

### +

**19" seven-twin-spoke design wheel with performance tires\*** | The 19" seven-twin-spoke star design wheel is equipped with summer performance tires. This means an extremely sporty ride with superior handling and performance.

\* See page 32 for important safety information regarding summer performance tires.

TT. Wheels

1. TT 2.0 T Premium, TT 2.0 T Premium Plus, TT 2.0 Prestige Wheel

**17" five-arm aluminum alloy wheel with 225/50 summer performance or all-season tires\*** | The 17" five-arm aluminum alloy wheel is equipped with summer performance or all-season tires, helping to ensure a ride that suits the needs of all drivers.
2. TT 3.2 Premium, TT 3.2 Premium Plus, TT 3.2 Prestige Wheel

**17" seven-Y-spoke aluminum alloy wheel with 245/45 summer performance or all-season tires\*** | The 17" seven-Y-spoke design is a sporty wheel equipped with summer performance or all-season tires, providing improved driving dynamics and superior handling and performance.
3. Optional Wheel

**18" seven-arm aluminum alloy wheel with 245/40 summer performance or all-season tires\*** | The 18" seven-arm aluminum alloy wheel delivers optimum performance and responsive handling.
4. Optional Wheel

**18" ten-spoke bicolor aluminum alloy wheel with 245/40 summer performance or all-season tires\*** | The 18" ten-spoke design is a refined choice matching the sporty sophistication of the Audi TT. The alloy helps to improve driving dynamics.
5. Optional Wheel

**19" seven-arm double-spoke aluminum alloy wheel with 255/35 summer performance tires\*** | This impressive wheel option is equipped with summer performance tires, appealing to those craving a more sporty and dynamic ride. [S line only]

\*Summer performance tires are designed for optimum performance and handling in warm climates. They are not suitable for cold, snowy or icy weather conditions. If you drive under those circumstances, you should equip your vehicle with all-season or winter tires, which offer better traction under those conditions. We suggest you use the recommended winter or all-season tires specified for your car or their equivalent. These summer performance tires also have a lower aspect ratio, that aids performance and handling; however, in order to avoid tire, rim or vehicle damage, it is important that the inflation pressure is regularly checked and maintained at recommended levels. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces, or upon encountering road debris or obstacles. Please also remember in making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than other choices. Finally, these tires may wear more quickly than other choices. For more information on all of these topics, please consult the owner's manual, your local dealer or call 1-800-FOR-AUDI.

TTS. Wheels

**1. TTS Premium Wheel**  
**18" five-parallel-spoke S design wheel with 245/40 summer performance tires\*** | The sporty and stylish 18" five-parallel-spoke S design wheel is standard on the TTS. The wheel comes equipped with summer performance tires which provide improved driving dynamics and superior handling and performance.

**2. TTS Optional Wheel**  
**19" five-parallel-spoke star design alloy wheel with 255/35 summer performance tires\*** | The 19" five-parallel-spoke star design wheel option is impressive in its stance and design. The wheel comes equipped with summer performance tires which provide improved driving dynamics and superior handling and performance.

**3. TTS Optional Wheel**  
**19" seven-twin-spoke design alloy wheel with 255/35 summer performance tires\*** | The 19" seven-twin-spoke wheel option gives the TTS an aggressive look. The wheel comes equipped with lightweight alloy and summer performance tires which help improve driving dynamics.

\*Summer performance tires are designed for optimum performance and handling in warm climates. They are not suitable for cold, snowy or icy weather conditions. If you drive under those circumstances, you should equip your vehicle with all-season or winter tires, which offer better traction under those conditions. We suggest you use the recommended winter or all-season tires specified for your car or their equivalent. These summer performance tires also have a lower aspect ratio, that aids performance and handling; however, in order to avoid tire, rim or vehicle damage, it is important that the inflation pressure is regularly checked and maintained at recommended levels. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces, or upon encountering road debris or obstacles. \* Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children in the rear, using restraint systems appropriate for their size and age.

\*\* Summer performance tires are designed for optimum performance and handling in warm climates. They are not suitable for cold, snowy or icy weather conditions. If you drive under those circumstances, you should equip your vehicle with all-season or winter tires, which offer better traction under those conditions. We suggest you use the recommended winter or all-season tires specified for your car, or their equivalent. These summer performance tires also have a lower aspect ratio that aids performance and handling; however, in order to avoid tire, rim or vehicle damage, it is important that the inflation pressure is regularly checked and maintained at recommended levels. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces, or upon encountering road debris or obstacles. Please also remember in making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than other choices. Finally, these tires may wear more quickly than other choices. For more information on all of these topics, please consult the owner's manual, your local dealer or call 1-800-FOR-AUDI.

† Your Audi vehicle is equipped with a phone preparation utilizing Bluetooth® interface to enable hands-free functionality (compatible mobile phones sold separately). You will need a Bluetooth®-enabled mobile phone in order to utilize this function. Not all Bluetooth® enabled mobile phone models are compatible with Audi's phone preparation. Visit audiusa.com/bluetooth, or contact your local Audi dealer for the latest listing of compatible phones. Audi recommends use of the Audi phone cradle (sold separately) with your mobile phone while operating this vehicle.

†† Audi Navigation system plus depends on signals from the worldwide Global Positioning Satellite network. The vehicle's electrical system, and existing wireless and satellite technologies, must be available and operating properly for the system to function. The system is designed to provide you with suggested routes in locating addresses, destinations and other points of interest. Changes in street names, construction zones, traffic flow, points of interest and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible; therefore, you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgement in determining whether or not to follow a suggested Audi Navigation plus route. Periodically the mapping is updated and a new DVD will be required in order to maintain the latest navigation information available to us. These will be available for purchase from time to time at additional cost. Consult your dealer or call 1-800-FOR-AUDI for details.

## TTS. Specifications

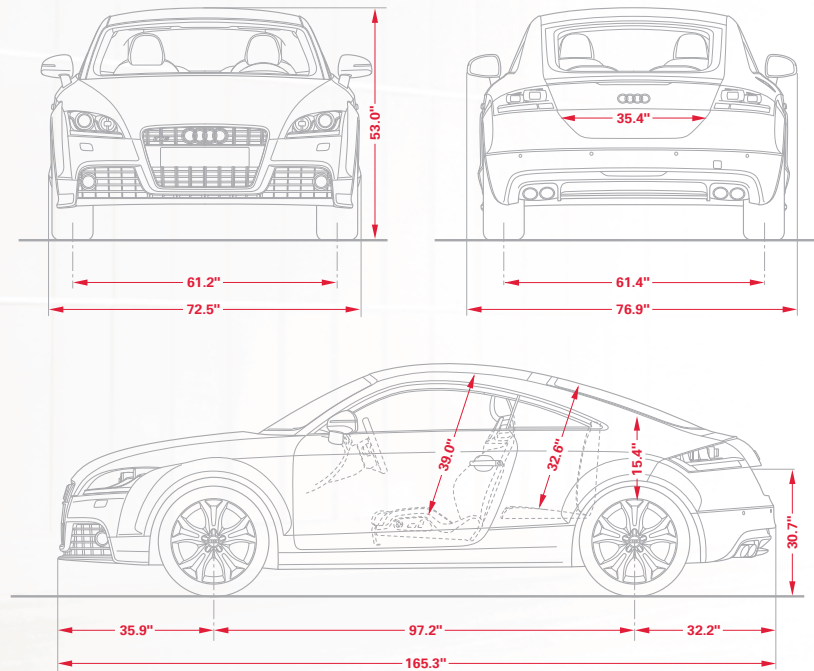

### TTS Coupe. Model Configuration

TTS 2.0 T TFSI® 265 hp with six-speed S tronic® transmission and quattro® AWD

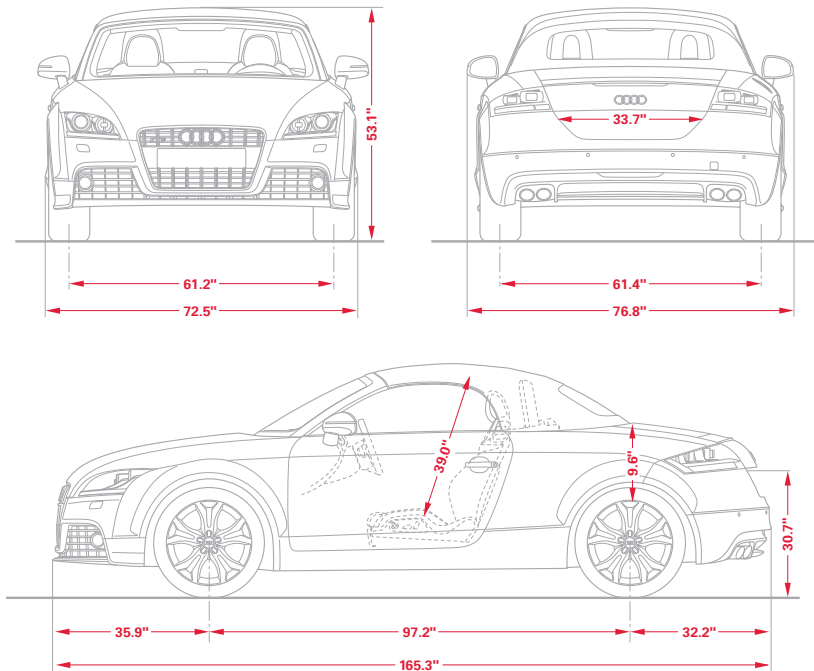

### TTS Roadster. Model Configuration

TTS 2.0 T TFSI® 265 hp with six-speed S tronic® transmission and quattro® AWD

### TTS. Coupe

### TTS. Roadster

### Power and Performance

#### TTS Coupe 2.0

- | 2.0 liter turbocharged, in-line, four-cylinder, spark-ignition engine with gasoline direct injection, turbocharger with intercooler, four valves per cylinder, double overhead camshafts [DOHC], continuous intake camshaft adjustment
- | Displacement: 2.0 liters [1984 cc]
- | Bore: 3.25 in.
- | Stroke: 3.65 in.
- | Horsepower: 265 @ 6000 rpm
- | Torque: 258 lb-ft. @ 2500-5000 rpm
- | 0-60 mph in seconds – Coupe: 4.9
- | Top track speed\*: 155 mph [governed]
- | Fuel economy estimates, city/highway\*\* – Coupe quattro®: 21/29 mpg

#### TTS Roadster 2.0

- | 2.0 liter, turbocharged, in-line, four-cylinder, spark-ignition engine with gasoline direct injection, turbocharger with intercooler, four valves per cylinder, double overhead camshafts [DOHC], continuous intake camshaft adjustment
- | Displacement: 2.0 liters [1984 cc]
- | Bore: 3.25 in.
- | Stroke: 3.65 in.
- | Horsepower: 265 @ 6000 rpm
- | Torque: 258 lb-ft. @ 2500-5000 rpm
- | 0-60 mph in seconds – Roadster: 5.1
- | Top track speed\*: 155 mph [governed]
- | Fuel economy estimates, city/highway\*\* – Roadster quattro®: 21/29 mpg

\*Top track speed electronically limited to 155 mph in the U.S. \*\*EPA estimate; your mileage may vary. See your local Audi dealer for details.

TTS. Specifications

\* Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children in the rear, using restraint systems appropriate for their size and age.

\*\* Summer performance tires are designed for optimum performance and handling in warm climates. They are not suitable for cold, snowy or icy weather conditions. If you drive under those circumstances, you should equip your vehicle with all-season or winter tires, which offer better traction under those conditions. We suggest you use the recommended winter or all-season tires specified for your car, or their equivalent. These summer performance tires also have a lower aspect ratio that aids performance and handling; however, in order to avoid tire, rim or vehicle damage, it is important that the inflation pressure is regularly checked and maintained at recommended levels. Serious wheel and tire damage may occur if the vehicle is operated on rough or damaged road surfaces, or upon encountering road debris or obstacles. Please also remember in making your selection that, while these tires deliver responsive handling, they may ride less comfortably and make more noise than other choices. Finally, these tires may wear more quickly than other choices. For more information on all of these topics, please consult the owner's manual, your local dealer or call 1-800-FOR-AUDI.

† Your Audi vehicle is equipped with a phone preparation utilizing Bluetooth® interface to enable hands-free functionality (compatible mobile phones sold separately). You will need a Bluetooth®-enabled mobile phone in order to utilize this function. Not all Bluetooth® enabled mobile phone models are compatible with Audi's phone preparation. Visit [audiusa.com/bluetooth](http://audiusa.com/bluetooth), or contact your local Audi dealer for the latest listing of compatible phones. Audi recommends use of the Audi phone cradle (sold separately) with your mobile phone while operating this vehicle.

†† Audi Navigation system plus depends on signals from the worldwide Global Positioning Satellite network. The vehicle's electrical system, and existing wireless and satellite technologies, must be available and operating properly for the system to function. The system is designed to provide you with suggested routes in locating addresses, destinations and other points of interest. Changes in street names, construction zones, traffic flow, points of interest and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible; therefore, you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgement in determining whether or not to follow a suggested Audi Navigation plus route. Periodically the mapping is updated and a new DVD will be required in order to maintain the latest navigation information available to us. These will be available for purchase from time to time at additional cost. Consult your dealer or call 1-800-FOR-AUDI for details.

TTS 2.0 T	Chassis/Technical
S	ASF® lightweight construction mixed of aluminum and steel
S	MacPherson front suspension with aluminum subframe
S	Four-link rear suspension with enhanced damping system
S	S Audi magnetic ride with 10mm lowered chassis
S	Servotronic® electromechanical steering with speed-dependent power assistance
S	Audi launch control
S	S tronic® direct shift gear box

TTS 2.0 T	Safety & Security
S	Full-size dual-threshold airbags for driver and front passenger*
S	Driver and front passenger seat-mounted chest-side airbags*
S	Driver and front passenger knee airbags*
S	Rigid body shell with special energy-absorbing zones
S	Side intrusion protection
S	Anti-theft vehicle alarm system
S	Safety belts, three-point inertia-reel for all occupants, with belt tensioners and force limiters at the front
S	Lower Anchors and Tethers for Children [LATCH] in rear [Coupe only]
S	Audi backguard system
S	Power central locking system with safety unlock feature if airbag deploys
S	Electronic Stabilization Program [ESP®] with brake assist
S	Anti-lock Brake System
S	Audi hill hold assist
S	Anti-slip regulation [ASR]
S	Dual-circuit brake system
S	Manual parking brake
S	Tire pressure monitoring system, tire mobility system
S	Disc brakes and black painted calipers

TTS 2.0 T	Features
S	Performance exhaust
S	S exhaust pipes, two left and two right
S	18" cast aluminum wheel, five-parallel-spoke S design with 9Jx18 245/40 summer performance tires**
S	Automatic retractable spoiler
S	S front bumper with chrome optic and S rear bumper
S	S rocker panel and platinum gray rear diffuser
S	S exterior mirrors with LED turn signal indicators
S	Automatic adjustable / Manual foldable and heated side mirrors
S	BI-XENON™ headlights with LED daytime running lights
S	Heated windshield washer nozzles
S	TTS and quattro® badging
S	Leather-wrapped, three-spoke multifunction sports steering wheel with S tronic® shift paddles
S	Front sport seats with Leather/Alcantara® surfaces, manually adjustable
S	S door sills, S gear knob
S	Driver information system: Auto-Check, digital lap timer, digital MPH
S	Electronic cruise control with coast, resume and acceleration features
S	Audi Concert AM/FM stereo with in-dash CD player including MP3 capability
S	SIRIUS® Satellite Radio
S	Nine-speaker, 140-watt sound system
S	Aux-in jack
PP	Premium Plus: Power seats with 10-way adjustable driver and passenger seats, four-way power lumbar support, Bluetooth® phone preparation†, Auto-dimming interior mirror with compass, rain and light sensor with "Coming Home," rain sensing windshield wipers, Storage Package, heated seats driver and passenger, load through facility [Roadster only], power folding top [Roadster only]
PR	Prestige: Interior LED Lighting Package, Audi parking system [rear], BOSE® Premium Sound System with AudioPilot® noise-compensation feature, Audi Navigation system plus††/color screen/six-CD changer

S	Standard	-	Not Available	PP	Premium Plus	PR	Prestige
---	----------	---	---------------	----	--------------	----	----------

The future is assured for those  
who relentlessly innovate.

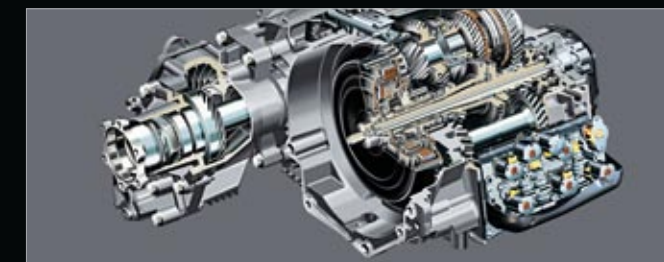

### TFSI® Direct Injection

This technology increases engine torque and adds power to the TT engine. The result is a faster, more powerful, yet more economical\* engine that reduces exhaust emissions. It's the same powerplant that's been named "Engine of the Year" in 2005, 2006 and 2007. It's a win-win-win for everyone.

### Audi Magnetic Ride

Offering two ride variables, "Normal" and "Sport," Audi magnetic ride automatically adapts to prevailing conditions by way of magnetically charged hydraulic fluid that reacts to prescribed electrical charges by instantaneously adjusting damping rates allowing the vehicle to shift from one variable to the other in 0.2 seconds.

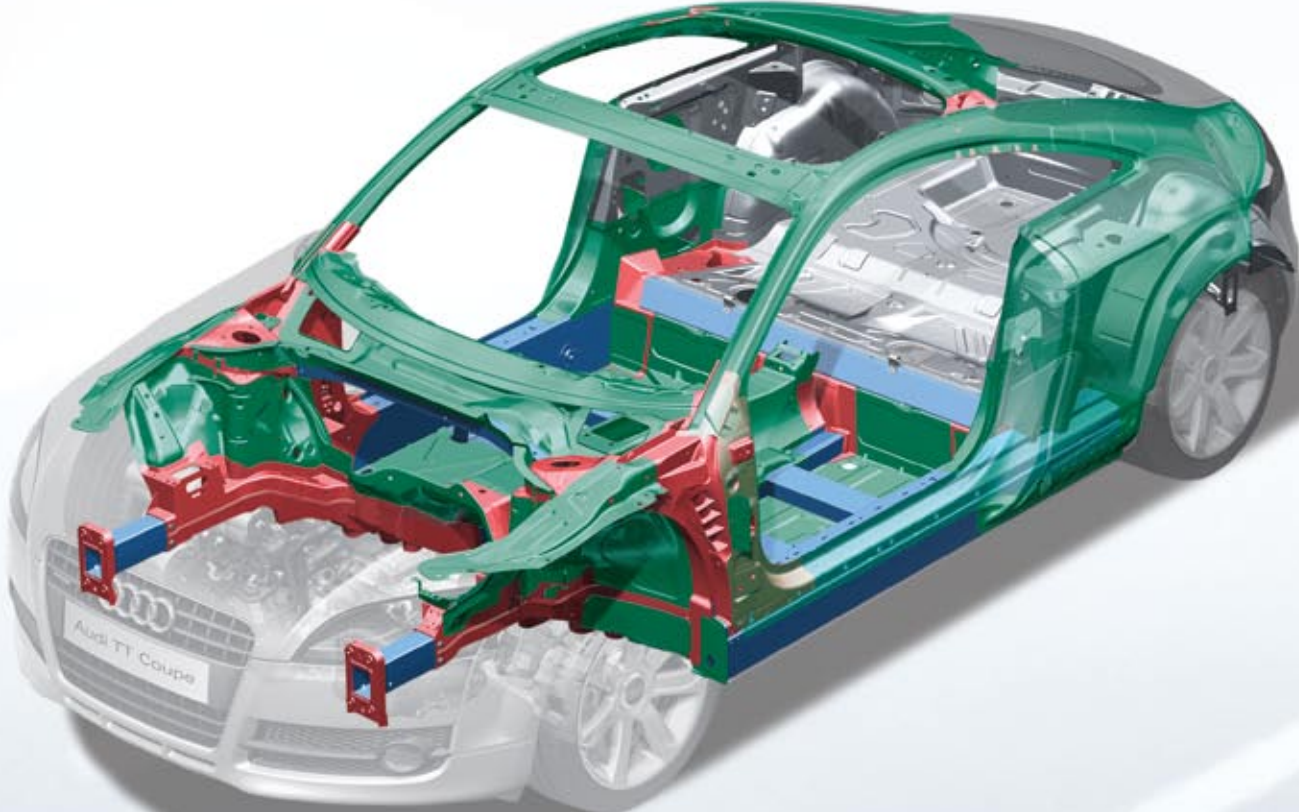

### S tronic® Transmission

The available S tronic® in the TT and TTS enables rapid-fire shifts by way of a double clutch system. Shifts can be engaged either through the shift lever on the console or by way of paddles located behind the steering wheel at 9 and 3 o'clock. Additionally, there are also two automatic driving mode options, "Normal" and "Sport," that allow the driver to further customize their drive.

\* Fuel economy estimates city/highway: 18/24 mpg [Coupe/Roadster six-speed S tronic®] EPA estimate; your mileage may vary.

**TT. Safety & Performance**

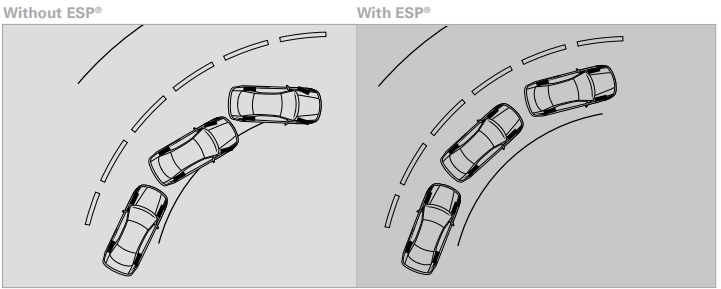

**Audi Space Frame**

The performance of the TT can be traced far beyond the drivetrain. Constructed from laser-welded, lightweight aluminum and steel, the space frame of the TT is integral to every aspect of its performance, resulting in a stiffer body, increased acceleration and enhanced safety.

**Airbags**

The Audi TT was designed with comprehensive protection for a variety of situations. Like every component of an Audi, a high level of specialty safety systems, such as two-stage airbags and seat-mounted head/thorax side airbags, establish an environment of security.\*

**ESP®**

ESP® allows your Audi to maximize control in adverse conditions, or where it may be at its handling limit. By employing a number of safety systems, including ABS [Anti-Lock Braking], EBD [Electronic Brake-pressure Distribution], EDL [Electronic Differential Lock] and ASR [Traction Control], in a fraction of a second, ESP® helps you avoid many dangerous driving scenarios.

**quattro®**

Developed and continually refined by Audi, quattro® offers a significantly enhanced level of all-wheel drive performance. In normal conditions, quattro® offers superior performance. And in the worst conditions, it becomes simply superlative.

\* Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children in the rear, using restraint systems appropriate for their size and age. This is a dramatization and in an accident airbags may not deploy, and if they do, not all will deploy in a given crash.
