We know how it is. The longer you gaze upon the Audi TT Coupe and Roadster the more likely you’ll end up wanting them both. That’s just par for the course. With their iconic design, they captivate an audience from first sight, but there’s more here to ponder than just irresistible good looks. Like the way your TT intimately connects you to the road or the way it makes your pulse race every time you carve your way up and down a mountain road? And when you consider the attention to detail and luxurious touches found throughout this vehicle, it all becomes even more enticing. Add to all of that a collection of available innovative technologies designed to keep you on top of your game, and you’ll quickly realize that what you want is more than met by what the TT delivers.

Not so much a double take as a double want.

1 Obey all speed and traffic laws.

01 – Perfect Proportions

Get lost in the set of proportions one third of its shape lying above the beltline and two thirds below. From the front and rear angles through to its magnificent silhouette.
Doesn’t ask for looks. Steals them.

Stir the senses. Go beyond ordinary and find soul. That’s what your Audi TT was born to do. And nothing is more electrifying than one look at the TT. Every line comes at you with purpose. The dramatic profile is unmistakable, and the Audi Singleframe® grille, air inlets and pronounced wheel arches work in concert to highlight the assertive design. And with distinctive LED daytime running light technology announcing your arrival, there will be no doubt about who is showing up.

.02 – Xenon Plus Headlights with LED Daytime Running Light Technology

Look sharp, with standard xenon plus headlights complemented by 24 LED clusters, one for each hour of Audi domination at the 24 Hours of Le Mans.

.03 – Audi Singleframe Grille

Perhaps its most dramatic element, the signature Audi Singleframe grille makes the TT instantly recognizable. Its lines perfectly meld with the front fascia and combine for a thrilling effect.
The first thing you’ll notice is an interior design that has few peerless predecessors. As you look around, a unique expression of our design sensibilities for the TT will be evident, but you’ll also see the unmistakable fit and finish that says nothing but “Audi.” A driver-oriented cockpit welcomes you as you enter. Luxurious leather/Alcantara® seating surfaces offer support in all the right places, brushed aluminum inlays give it a modern, clean feel, and a flat-bottom three-spoke multifunction sport steering wheel helps keep you in full command. This is luxury with more than enough character. 
A compelling story, down to the last stitch.

Just as arresting as the exterior styling, the TT interior is sophisticated, and offers more than a dollop of sports car panache and luxury. Available high-touch Madras Brown Baseball Optic leather seating surfaces offer superior support, and elevate the cabin’s distinctiveness. The thick, woven stitching adorning the seat bolsters is visually arresting and pays tribute to an iconic American game. But the details are not limited to just the seating surfaces. A beautifully wrapped center console and sport steering wheel also boast premium leather treatments, and contrast stitching in the sport steering wheel adds a racetrack-inspired accent.

As if the interior of the TT doesn’t already make a powerful enough statement, available Baseball Optic leather seating surfaces add a decidedly unique interior treatment that will command attention, even among those oblivious to the sport.

2013 Audi TT Roadster Prestige shown with available Madras Brown Baseball Optic Fine Nappa leather.
Remove obstacles to your happiness.

Sometimes you want to think in terms of SPF as much as RPM. Top down, with the sun flooding the cabin, you find the easy charms of the Audi TT Roadster with the touch of a button. Better yet, you don’t have to worry about the RPMs, either, because the sports car heritage of the TT Roadster delivers them too. Take on the open road with joyful abandon. Because in here, you can always act on your impulses. Rain or shine.

Adaptive Rear Spoiler

In order to improve vehicle downforce, the adaptive rear spoiler deploys automatically at 75 mph and retracts at 50 mph.

Retractable Acoustic Soft Top

Designed with special noise-dampening properties, the TT Roadster offers a top constructed of canvas, lightweight aluminum, and steel. It opens and closes with a simple push of a button and can be operated at speeds under 31 mph.

Obey all speed and traffic laws.
When driving during cold, rainy, snowy or icy weather conditions, ensure that your vehicle is equipped with appropriate all-season or winter-weather tires. Even with appropriate tires, you must always drive in a manner appropriate for the weather, visibility and road conditions.

It’s a bond between your car and the road.

It’s true that while the Audi quattro® all-wheel drive may have been engineered to help drive through inclement weather and in low-traction situations, the real magic of this advanced system is how it performs in the dry. Power is distributed to all four wheels working in concert to help grip every corner while giving you the optimal amount of power delivery where and when it’s needed. In other words, quattro® helps enhance performance by appropriately transferring power to the necessary wheels when accelerating and turning, so you have confidence-inspiring performance when the road isn’t at its best. Inclement weather aside, the really gripping story about quattro® is how it performs overall, forging a sure bond between you, your Audi TT and the road.

Audi Magnetic Ride

Take control of the handling characteristics with a push of a button. This optional system’s struts are filled with a special fluid that can change its viscosity instantly by introducing an electromagnetic charge, helping you get the right dampening forces for nearly every situation.

Center differential

In normal driving conditions, the center differential distributes more power to the front wheels, but in extreme circumstances it can transfer all of the torque to either of the two axles, helping to give you optimal traction.

Sport button program

Engage the optional Sport mode, and what you thought was the pinnacle of performance becomes even more impressive. The throttle becomes more responsive, the steering becomes more direct, the suspension becomes more firm, and the sound emanating from the exhaust outlets even meatier.
Just as in nature, the balance of power in your Audi TT is in constant flux. Good thing the engine and transmission find perfect harmony, adding up to an altogether exhilarating experience. The perfectly tuned TFSI® engine helps provide a flawless yin to the advanced Audi S tronic® dual-clutch transmission’s yang, achieving a remarkable level of performance, almost indefinitely.

0 – 60 mph: 5.3 seconds

211 hp / 258 lb-ft torque

TT Coupe Prestige shown in Iceni Silver.

Perfect equilibrium from zero to forever.

The concept behind one of the world’s most advanced transmissions is simple: provide near-constant power. This is accomplished by having two clutches, two input shafts and two independent gear clusters, giving you confidence that you’ll be in the gear you select the instant you select it. And that translates into big performance numbers.

Launch Control

Get off the line even quicker with the help of Audi launch control. Working in concert with the S tronic dual-clutch transmission, it optimizes launch rev speeds and tire slip page, so you can expect faster off-the-line acceleration.

2.0 TFSI Engine

Light, agile and powerful, the 2.0-liter TFSI engine delivers 211 hp and 258 lb-ft of torque at 4,900 rpm. Combining Audi valvelift system, variable valve timing, TFSI direct injection and turbocharging to prove performance doesn’t have to lack efficiency.

Turbocharger

Using the energy from the spent exhaust to drive a compressor wheel, the turbocharger compresses the intake air and forces it into the cylinder. The result: increased power, torque and efficiency.
The intuitive Audi Navigation plus is available to help ensure you’ll be able to quickly input your next destination. And with the Audi traffic information feature, you can bet you’ll get there without the gridlock.

Staying connected has never been more important. That’s why your TT features BLUETOOTH® mobile phone connectivity for simple, hands-free functionality. With a simple push of a button on the steering wheel you can make and receive calls.

Go ahead. Crisscross the country. We assure you, you’ll never run out of entertainment options, with over 130 channels of music, talk and news.

Now you’re in control. The available Audi music interface helps give you seamless iPod® integration. Your iPod® can be controlled through the audio system and steering controls, and with two available SD card slots for your MP3 music, your entertainment options just keep getting better.

In today’s world of constant connectivity, you expect to be able to maintain it anywhere. That’s why we integrated the available highly advanced Audi Navigation plus system. It not only helps find the best route to your destination, but also helps you skirt traffic and find a place to eat along the way. And when you need to make a call, you can count on the BLUETOOTH® mobile phone connectivity to make it happen with ease. Of course, you need to be entertained along the way, so we’ve included SiriusXM Satellite Radio to get you from coast to coast without skipping a beat.

Satisfying sound requires a premium delivery system. And no company is more synonymous with high-quality sound than BOSE®. Tailored to work with the interior space of the Audi TT, the available BOSE® sound system lets you experience music the way it was intended.  

1. See Infotainment/Technology section of the Featured Content page for important information regarding Audi Navigation plus and required SiriusXM subscriptions.
2. Requires compatible phone.
Your safety isn’t just another selling point.

It’s our highest priority. And to prove it, we went ahead and included some of the most advanced safety features available, starting with strategically placed crumple zones designed to absorb impact in the event of a collision. Then there are our sophisticated driver control systems that help you avoid trouble before it can start. And of course we provide a comprehensive airbag system to help protect you if the unthinkable becomes inevitable. All this, so you can enjoy your TT in total confidence.

20 – ASF® Aluminum Space Frame
Lightweight yet unyielding, revolutionary ASF technology offers an innovative approach to weight-savings—a benefit you will notice in the overall efficiency, enhanced performance and irreversible handling of the Audi TT. These unique characteristics also help to absorb the normal bumps of the road, delivering a smoother ride.

21 – Crumple Zones
Strategically placed in the front and rear, these crumple zones are designed to compress and deform during a collision and help absorb impact energy as it passes through the frame.

22 – ESC and ABS
Computerized technology that works in perfect sync with the Audi traction brake system (ESC), Electronic Stability Control (ESC) helps minimize any loss of stability, applying brake pressure to individual wheels and reducing throttle input to counter oversteer or understeer when the vehicle needs it.

23 – Six Standard Airbags
Helping protect you from impact at all angles are our standard airbags for driver and passenger, driver and front passenger knee, side-impact head and thorax airbags, and side-impact head and thorax airbag.

24 – Rollover Protection System
Built into the TT Roadster are heavily reinforced rollover protection devices, designed to help protect you and your passenger in the unlikely event of a rollover. In addition to helping provide another level of safety, they also add to the overall visual muscle of the Roadster.

1 Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and children’s restraint systems appropriate for their size and age. 2 22 city/31 highway mpg (2013 Audi TT 2.0 TFSI®, with Audi S tronic® dual-clutch transmission and Audi quattro® all-wheel drive). EPA estimates. Your mileage will vary. 3 This is a dramatization and does not depict what will happen in a collision. All bags will not inflate in real-world collisions, and, if multiple bags do deploy, they will be in various stages of inflating/deflating and will never all be inflated at the same time.
ENGINE: 2.0-liter turbocharged Audi TFSI four-cylinder engine developing 265 hp and 258 lb-ft of torque.

DRIVETRAIN: Audi quattro® all-wheel drive, six-speed Audi S tronic® dual-clutch transmission.

CHASSIS: TTS tuned sport suspension, Audi magnetic ride.

BRAKES: 13.4" ventilated front disc brakes with TTS logo, 12.2" ventilated rear disc brakes.

PERFORMANCE: Top track speed of 155 mph, 0–60 mph acceleration 4.9 seconds (Coupe) and 5.1 seconds (Roadster).

Like putting an exclamation point on every sentence.

You didn't get a TTS in order to parade around quietly. Make sure you're heard, with a potent 265-horsepower 2.0-liter Audi TFSI engine with S quad exhaust outlets, as well as seen, with the strong stance and dramatic curves that showcase a performance profile that backs down to no one. Add a bold S model Audi Singleframe® grille with aluminum-optic double-blade crossbars, and a rapid-fire Audi S tronic® dual-clutch transmission with launch control to define its musculature. The final exclamation point comes when you make the run from 0 to 60 mph in a blistering 4.9 seconds. Just to rub it in.

Audi Exclusive Bicolor Interior

There's more information on the Audi Sport model line in the all-new 2013 Audi Sport brochure. See your dealer or go to audiusa.com for details.

2. Tires are supplied and warranted by their manufacturer. High-performance tires are designed for optimum performance and handling in warm climates. They are not suitable for cold, snowy, or icy weather conditions. If you drive under those circumstances, you should equip your vehicle with all-season or winter tires, which offer better traction under those conditions. Please consult your Audi dealer for the recommended tire and tire pressure specifications for your car. For more information on tire care and maintenance, please refer to your Audi owner’s manual or contact your local Audi dealer.

Safety / Security

- Driver and front passenger dual-stage airbags, head/thorax side airbags, and knee airbags
- Front passenger occupant detection— for airbags
- Rollover protection system (Roadster)
- Safety belt reminder for driver and front passenger
- Lower Anchors and Tethers for Children (LATCH) in rear seats (Coupe)
- Power central locking system with safety unlock feature if airbags deploy
- Electronic Stability Control (ESC) with traction control (ASR)
- Anti-lock Brake System (ABS) with Electronic Brake-pressure Distribution (EBD) and brake assist
- Tire-pressure monitoring system
- Headrests
- Anti-theft alarm system with panic function

Exterior

- Audi Singleframe® grille
- Audi Singleframe® grille with gloss black surround (Coupe)
- Xenon plus headlights with LED daytime running light technology
- Automatic headlights
- Headlight washers
- Front fog lights
- Power-adjustable heated exterior side mirrors
- LED turn indicator light technology integrated into the exterior side mirrors
- Heated windshield washer nozzles
- Adaptive rear spoiler
- Fixed rear wing spoiler (Coupe)
- Dual exhaust outlets
- Audi S line® exterior appearance
- Audi S line® Competition package exterior appearance (gloss black front lower spoiler, exterior side-mirror housings, fixed rear spoiler; black diffuser and black exhaust finishers), Coupe only

Interior

- Automatic climate control
- Three-spoke flat-bottom multifunction sport steering wheel with shift paddles
- Tilt and telescopically adjustable steering column
- Detachable steering wheel (see Driver Assistance page for more details)
- Two front beverage holders
- Two power outlets
- Black cloth headliner
- 180° interior ambient lighting technology
- Auto-dimming rear view mirror with compass
- Dual front air vents with illuminated vanity mirrors
- Power windows with one-touch up/down operation and pinch protection
- Power operated wind deflector (Roadster)
- Acoustic folding roof—folds at speeds up to 31 mph (Roadster)

Seating

- Leather/Alcantara® seating surfaces (see Interior Colors page for more details)
- Black Fine Nappa leather seating surfaces and trim (see Interior Colors page for more details)
- Matte Black/Biscuit Optive Fine Nappa leather seating surfaces and trim (see Interior Colors page for more details)
- Leather/Alcantara® seating surfaces (see Interior Colors page for more details)
- Storage package (includes folding compartments under front passenger seat, storage net in front passenger’s floorwell and floor cubby)
- 2+2 seating arrangement (Coupe)
- Split folding rear seatback (Convertible)
- Rear seat pass-through with ski bag (Roadster)

* Standard | NV — Not applicable | SL Audi Navigation plus package | SL/SC Audi S line® package | SC Audi S line® Competition package

1. Airbags are supplemental restraints only and will not deploy under all crash circumstances. Always use safety belts and seat children only in the rear, using restraint systems appropriate for their size and age.
Dress code: aggressive attire only.

Not that the Audi TT Coupe isn’t already dressed to kill, but when you opt for the Audi S line® Competition package, you make a bold statement even bolder. The S line exterior features striking black optic elements, including a grille surround, side mirror housings, a fixed rear wing spoiler and a lower front spoiler splitter. Setting it apart even further are a black diffuser, black exhaust tips, and 19” 5-arm-rotor design wheels in matte black finish. Plenty to ensure you’ll never have to wait at the door again.

1 Audi Navigation plus depends on signals from the available Global Positioning Satellite network. The vehicle’s electrical system and existing wireless and satellite technologies must be available and operating properly for the system to function. The system is designed to provide you with suggested routes in locating addresses, destinations and other points of interest. Changes in street names, construction zones, traffic flow, points of interest and other road system changes are beyond the control of Audi of America, Inc. Complete detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested Audi Navigation plus route. Periodically mapping updates will be available for purchase at an additional cost. Consult your dealer or call 1-800-FOR-AUDI for details.

2 SiriusXM Satellite Radio subscriptions sold separately or as a package after trial expires. Subscriptions are governed by SiriusXM Customer Agreement (see www.siriusxm.com) and are continuous until you call SiriusXM to cancel. Sirius U.S. Satellite Service available only to those 18 and older in the 48 contiguous U.S.A., D.C and Puerto Rico (with coverage limitations).
Imagine a cherry on top of your sundae. Sweet, right? Now imagine a cherry that helps protect your TT in the garage. Or carries your bikes for a serious weekend on the trails. Or makes heads turn as you drive by. Audi Genuine Accessories are the little extras that make your Audi even sweeter. Designed by the same visionaries who designed your vehicle, all accessories feature a tailored fit and the expert craftsmanship you’d expect from Audi. They are also backed by the 4-year/50,000-mile Audi New Vehicle Limited Warranty, or the accessory’s 12-month/12,000-mile limited warranty, whichever extends longer from the accessory purchase date.

**Audi Genuine Alloy Wheels**

Audi experts have meticulously designed these wheels especially for each Audi model. They're engineered to the highest standards and endure rigorous testing to ensure compatibility with the vehicle's electrical systems, performance, and keep the vehicle looking like new—inside and out. All are covered by a 12-month/12,000-mile limited warranty, whichever extends longer from the accessory purchase date.

**Audi Genuine Electronic Accessories**

The illuminating technology that graces each Audi vehicle provides the inspiration for Audi Genuine Electronic Accessories. Similarly, all of these accessories are engineered, advanced, and inspiring. Our audio systems are capable of delivering high-fidelity sound in a variety of settings. Whether you prefer your music played through your car or through your home, Audi genuine electronics offer functional, practical items that help keep your Audi looking its best. Whether it's a system that helps keep your vehicle looking like new inside and out, or a system that helps keep the vehicle looking like new inside and out. All are engineered to meet Audi standards, so you can be assured of their quality and longevity.

**Audi Genuine Sport and Design Accessories**

Your Audi vehicle features a bold, aggressive stance with strong, daring curves. Enhance it by adding Audi Genuine Sport and Design Accessories. All are carefully scrutinized in the design and development process to match the vehicle's exterior and interior specifications. They're designed to complement the TT and include style and longevity in mind. Shown in white. Also available in black or silver.

**Audi Guard Comfort and Protection Accessories**

In tests what you love. Audi Guard Comfort and Protection Accessories after Furniture, produces those that help keep your vehicle looking like new inside and out. All are engineered to meet Audi standards, so you can be assured of their quality and longevity.

- Push-button, keyed locks open and close easily. Rubber-cushioned aluminum bars hold securely. Standard attachment holds up to four skis or two snowboards. Deluxe attachment holds up to six skis or four snowboards.
- This secure mount is an excellent bike transfer option. Lock included.
- A solution designed by Audi that makes every mile more enjoyable. Active part.

**Audi Genuine Sport and Design Accessories**

These sculptured accents provide the TT profile with a ground-effects appearance. Made from durable, high-quality materials. Custom fit for the TT. Painted for a perfect color match and added convenience. Consult your garage. Or carries your bikes for a serious weekend on the trails. Or makes heads turn as you drive by. Audi. These handsome covers are made of polished stainless steel with a composite center cap. Embazoned with the iconic Audi rings. They're engineered to stringent Audi standards, so you can be assured of their quality and durability.
