THE BMW X5.

JOY BRINGS THE WHOLE CROWD ALONG.

BMW EfficientDynamics
Less emissions. More driving pleasure.
EVERY ROAD IS A CHANCE FOR DISCOVERY.

Driving conditions are never the same. From the weather to the road surface, they can change at a moment’s notice. But in the 2012 BMW X5, whatever situation you face behind the wheel – potholes, rain, gravel or anything else – you can rest assured that you will be able to conquer them all with confidence, style and the peace of mind that comes with having capabilities undreamed of in many other vehicles. Add BMW EfficientDynamics technology, and every drive offers efficient power along with legendary BMW agility and performance.

A MODERN DECATHLETE.

Award-winning performance, practicality, luxury, space and efficiency.

When BMW created the first X5 in 2000, it created an all-new category of vehicle: the world’s first Sports Activity Vehicle. The X5 offers a unique blend of utility and refinement, power and performance, dynamic styling and premium luxury, making every journey a joyous experience. In lands around town to winding mountain roads to cross-country treks, every moment in the X5 offers the ultimate in comfort and control. And for 2012, the BMW X5 reaches even more impressive territory. Under the hoods of the xDrive35i and xDrive50i are responsive, new powertrains. A host of redesigned features freshen its appearance, from the contoured hood and muscular front grille to fender wheel arches and body-color aprons. The X5 is available in an expanded variety of models, addressing each driver’s individual preferences for sport-oriented performance or pure comfort. And thanks to BMW EfficientDynamics, the X5’s power and performance come with greater fuel efficiency and reduced emissions; this is especially true in the X5 xDrive50i with BMW’s Advanced Diesel technology. The 2012 BMW X5. A presence impossible to ignore. A driving experience impossible to resist.
Every road offers an opportunity for discovery. And no vehicle excels at discovering these pleasurable moments quite like the BMW X5. Brimming with the latest technologies, armed with precision handling, powered by a thrilling, highly refined engine, the X5’s driving experience is inspiring, vigorous, and altogether breathtaking. It’s also supremely controllable, thanks to exceptional directional stability from a chassis and double wishbone front suspension built for performance as well as practicality. BMW EfficientDynamics technologies give it an impressive power-to-efficiency ratio. The result is a vehicle of unsurpassed capabilities that offers best-in-class performance and efficiency – especially the BMW Advanced Diesel-powered X5 xDrive35d. The BMW X5. Discovery awaits at every turn.

THERE ARE MANY ROADS. IN THE X5, EACH ONE LEADS TO JOY.
ITS LOOKS ARE NOT DECEIVING.
THEY ARE INSPIRING.

In some vehicles, looks can be misleading – powerdomes, air intakes and more added merely to give the appearance of high performance. Not the X5. Every curve, every feature is there for a reason – and styled to delight the eye. From its sleek lines to its sporty, athletic stance, this is a vehicle that demands attention. The X5’s aggressive air intakes direct more air to the high-performance engines for increased power, while centrally positioned foglights and Xenon Adaptive Headlights with LED Daytime Running Lights further distinguish the vehicle’s distinctive front section. A matte aluminum finish, and front and rear dark underside protective cladding allow the X5 to navigate unpaved roads as easily as tarmac. The front apron is painted entirely in the vehicle’s body color to bring it visually closer to the road. Eye-catching exterior colors, light alloy wheel designs and larger exhaust pipes complete the picture. Creating a vehicle that not only pleases the eye. But stirs the performance-loving soul.

For details on the availability of standard and optional features, please refer to the Equipment charts at the back of this brochure.
CHARISMA: IN THE X5, IT COMES NATURALLY.

Take a moment to savor the X5’s dynamic profile. The long wheelbase and short overhangs at the front and rear. The muscular hood and square-shape, flared wheel arches. The contoured flanks and L-shape rear taillights featuring glowing LED technology that emits horizontal light bars, a BMW signature design. Concave and convex surfaces create an interplay of light and shadow, while wedge-shape rocker panels suggest continual motion. But this sleekness isn’t just for aesthetics: the X5’s streamlined design also creates a low coefficient of drag for further efficiency. Confident, bold, yet still highly refined, this is a design of elegant composure and supreme function. From all angles, the X5 is a perfectly proportioned work of art.
The X5 has an instinctive feel for the road. Tarmac, gravel, dirt – the X5 handles them all with ease, thanks in part to a double joint spring strut front axle that delivers unsurpassed agility and superior wheel control. BMW’s Dynamic Stability Control (DSC) combined with xDrive intelligent all-wheel drive results in optimum traction. DSC includes many performance-enhancing features, such as Hill Descent Control, which holds the X5 to a slow set speed without having to touch the brakes down steep hills. During hard braking, Brake Fade Compensation keeps brake pedal action consistent, even when brakes heat up from repeated or heavy use, such as on long downhill grades; during wet conditions, Brake Drying brings brake pads into contact with rotors to dry them. An array of optional features take the X5 to outstanding heights of control, handling and stability. Active Steering, for example, makes parking, cornering and highway-speed steering easier by changing the amount of steering input needed, based on vehicle speed. Whatever terrain, surface or traffic you encounter, the X5’s confidence in hugging the road is matched by your confidence behind the wheel.

For details on the availability of standard and optional features, please refer to the Equipment charts at the back of this brochure.
COLORS WITH DEPTH

Red vehicles seem the fastest, while white cars are thought of as sparkling clean. Which colors best reflect the spirit of the times—and the X5? BMW color designers have all the answers.

Long ago, BMW color designers predicted that white would come back into style. In many cultures, white is considered a pure, healing shade, and this association perfectly suits the mood of the moment. BMW color designers also believe the current predilection for white is no flash in the pan, either. Unlike furniture, fashion and architecture, trends in the automotive sector tend to be longer lasting.

The public’s growing appreciation of the natural and the sustainable has also influenced BMW designers’ color selections for the X5. They believe this Sports Activity Vehicle® is best complemented by muted, natural colors. The metallic colors Platinum Gray, Sparkling Bronze and Deep Sea Blue are part of this approach. BMW designers also recommend a strong light-dark contrast between the exterior paint finish and the interior. Those who like to stay at the forefront of design trends will opt for a combination like Sparkling Bronze Metallic paint with Oyster Nevada Leather upholstery and Dark Bamboo Wood interior trim.

For details on the availability of standard and optional features, please refer to the Equipment charts at the back of this brochure.
HANDLES OCCUPANTS AS SUPERBLY AS IT HANDLES ROADS.

The X5 hugs the road with a firm, confident grasp. It hugs the driver just as intimately. For starters, an elevated seating position offers a commanding view of the road. But with the addition of sumptuous interior materials, the X5 truly becomes a sanctuary of unrivaled comfort and taste. Personalize your X5 with upholstery available in a wide range of colors, including Oyster or Cinnamon Brown Nevada Leather, as well as fine wood interior trims. Elegance is met with equally impressive functionality, like the intelligently positioned storage compartments and an instrument panel arranged for optimized ergonomics. Long trips are a breeze with an Active Ventilated Seat Package that offers 20-way Multi-contour seats with warming or cooling ventilation. For even more convenience, the innovative iDrive in-dash monitor offers a central viewing area where vehicle controls and navigational information can be monitored. This is command central and it’s yours – no matter where you’re headed.

For details on the availability of standard and optional features, please refer to the Equipment charts at the back of this brochure.
THE FEELING OF ENDLESS SPACE – FOR JOURNEYS YOU’LL NEVER WANT TO END.

The X5 is as masterful in providing relaxing moments as it is rewarding to drive. The interior’s generous dimensions and laurious appointments create a supremely comfortable ambiance. Put down the split-folding rear seats to create up to 75 cu. ft. of usable cargo space—or, when equipped with third-row seats for two, the driver can share the journey with up to six passengers. Four-zone automatic air conditioning, including individual adjustable climate zones front and rear, adds to the enjoyment. All on board will appreciate the sliding Panoramic glass moonroof, which opens the interior to fresh air and sunshine, and every breathtaking view of mountains or clouds. And if the scenery outside isn’t enough to keep those in the rear seats entertained, they can view films on a DVD drive with a fold-away 8-inch color screen.

For details on the availability of standard and optional features, please refer to the Equipment charts at the back of this brochure.
FITS LIKE A GLOVE.
Exclusive, sporty and perfect down to the last detail: the interior of the BMW X5 combines the style of an elegant luxury sedan with the athleticism of a Sports Activity Vehicle® while offering the highest levels of comfort.

Our sense of touch is the most intimate of our five senses. And the most precise. With more than 100 receptors in each of our fingertips, we can detect superficial irregularities just 0.0004-inch wide that are invisible to the naked eye. Touch triggers emotional responses; it can determine the difference between aversion and attraction. This is why at BMW we have an entire team of experts on hand to ensure that the interior design of every BMW is a sensory delight.

The controls of the BMW X5, rendered in Pearl Gloss chrome, look as magnificent as they are exquisite to the touch. The fine grain and coated surfaces of the high-quality, high-tech materials used in the interior are designed to caress your tactile sensors. And the specially selected leather is treated with such lavish care that its soft, supple texture is extraordinarily long-lasting. BMW designers take particular care to ensure that all seams are even and harmonize with the interior design. The driver’s and passengers’ other senses will be equally pampered. Enjoy heated front seats and the comfort of ventilated seats – means of circulating air through perforations in the leather.

Four-zone automatic air conditioning is available, creating a pleasant climate for all occupants. An elegant leather color, Oyster – a subtle off-white shade – conveys the sense of a generous, open area, like a contemporary living room. This feeling of freedom and space is enhanced by the exceptionally large Panoramic-glass moonroof. In short: the interior of the BMW X5 is a uniquely pleasurable experience for all the senses.

For details on the availability of standard and optional features, please refer to the Equipment charts at the back of this brochure.
WITH GREAT POWER COMES GREAT EFFICIENCY.

Performance: a word synonymous with the BMW name. Many factors contribute to and enhance a BMW’s performance. Optional Sport Activity and M Sport Packages are teeming with features that enhance the X5’s sporting looks and performance. But first and foremost are legendary BMW engines: models of power and torque, yet offering impeccable efficiency. The X5 offers three TwinPower Turbo engines to suit your exact driving preferences. Each benefits from BMW EfficientDynamics technology, which significantly reduces fuel consumption and emissions for class-leading, earth-friendly efficiency – and road-conquering agility.

For details on the availability of standard and optional features, please refer to the Equipment charts at the back of this brochure.
BMW Efficient Dynamics: Vehicles that require little and give a lot.

BMW was one of the first automotive manufacturers to pursue efficient driving technologies – one part of our award-winning sustainability strategy. Our commitment to EfficientDynamics means we are continuously developing innovative systems that bring us closer to our long-term goal of emissions-free mobility. However, we remain equally committed to driving pleasure, which is being pursued in different ways. First, there is the continuing optimization of conventional diesel- and gasoline-powered models. Second, BMW hybrid vehicles are already on the road. Third, the first 100% electrically powered BMW – the BMW ActiveE – is being distributed in a field trial to customers. And fourth, the fleet of BMW Hydrogen 7 vehicles impressively demonstrated the potential for combining hydrogen drive with a combustion engine. Since 1995 BMW has been able to reduce the CO₂ emissions of its entire fleet by approximately 30 percent. BMW has rolled out more than two million vehicles equipped with EfficientDynamics: 31 models already produce less than 225g of CO₂ per mile, and BMW intends to achieve a further 25 percent reduction by 2020. BMW EfficientDynamics represents the most comprehensive package of innovative technologies currently in production, for reducing fuel consumption and emissions while simultaneously creating The Ultimate Driving Machine.

Our continuing commitment to EfficientDynamics means we are continuously developing innovative systems that bring us closer to our long-term goal of emissions-free mobility. BMW EFFICIENT DYNAMICS INITIATIVE AT A GLANCE.

BMW Vision EfficientDynamics: Vision becomes reality. In 2014 BMW plans to debut the BMW Vision EfficientDynamics test model – a 2+2 sports car featuring groundbreaking plug-in hybrid technology that combines sports-car performance with compact-class consumption. Powered by the latest-generation, full-hybrid system, the vehicle – in concept form – generates a total of 261 hp through a 161-hp, three-cylinder turbo diesel engine with 214 lb-ft of torque, as well as a hybrid synchronous engine on the front axle and a fully hybrid drive system on the rear axle. With a range of up to 435 miles, its ratio of performance to fuel consumption is without equal, positioning BMW as the world’s leading manufacturer of exceptionally efficient, sporty vehicles. 

Not all BMW EfficientDynamics features are available on all models. Please see your authorized BMW SAV® center for details. 

THE BMW X5 SAV’S EFFICIENT DYNAMICS INITIATIVE AT A GLANCE.

High Precision direct fuel injection. In this latest-generation direct fuel injection system, the piezo injectors are positioned very close to the spark plugs. They inject fuel at high pressure, with extreme precision, for very efficient combustion.

Valvetronic. BMW’s Valvetronic valve control system improves engine response and refinement, while also helping to reduce fuel consumption. The system helps the engine “breathe” better by providing fully variable lift adjustment of the intake valves.

Brake Energy Regeneration. In vehicles with Brake Energy Regeneration, the alternator generates electricity only when the driver takes his or her foot off the accelerator. kinetic energy that was previously unharnessed is transformed into electrical energy, then fed into the battery. In this way, electricity is generated without consuming fuel.

BMW Advanced Diesel with BluePerformance Technology. Cleaner, quicker and far more efficient than previous generation diesel, BMW Advanced Diesel with BluePerformance Technology vehicles achieve up to 36 mpg, for a range of 580 miles per tank. They emit 20% less CO₂ than conventional vehicles, while posting powerful 0-60 mph numbers. It’s diesel reinvented.

Electric Power Steering. Unlike conventional, hydraulic steering systems, electric power steering draws power only during actual steering movements. When the steering wheel position is constant, the electric motor is inactive.

8-speed Automatic transmission. This transmission provides extremely fast shifting in both automatic and steptronic shift modes. By increasing the number of gears to eight, the transmission provides a more efficient shifting sequence and improved fuel economy.

"THE BMW X5 SAV’S EFFICIENT DYNAMICS INITIATIVE AT A GLANCE."

BMW Effi cientDynamics
Less emissions. More driving pleasure.

bmwusa.com/EfficientDynamics

In early 2010 BMW launched its first production models with hybrid drive: the BMW ActiveHybrid 7 and the BMW ActiveHybrid X6. Both models offer an unparalleled combination of increased fuel efficiency, reduced emissions and thrilling performance. The BMW ActiveE, with its innovative 100% electric drive system, will introduce a whole new form of dynamic performance, paving the way for the future of emissions-free mobility. Finally, a completely new vehicle concept targeted at meeting the need for sustainable mobility in fast-growing metropolitan areas will soon become reality: the BMW i3.

Different paths to the same destination: unmistakable BMW driving pleasure.

BMW Advanced Diesel with BluePerformance Technology.

BMW’s breed of diesel power is quiet and smooth-running. Environmentally friendly, too, thanks to its use of ultra-low sulfur diesel (ULSD) fuel and BMW’s BluePerformance Technology. Using Diesel Exhaust Fluid and a diesel particulate filter, it turns the nitric oxides in the exhaust gas into environmentally compatible nitrogen and water vapor. As a result, this engine meets the emissions standards in all 50 states.

LOW CONSUMPTION. HIGH PERFORMANCE.

BMW X5 xDrive35d.

This dynamic 265-hp, 3.0-liter inline six-cylinder Advanced Diesel engine takes full advantage of BMW’s TwinPower Turbocharging. Generating 425 lb-ft of torque at just 1750 rpm, it’s quick off the mark, accelerating from 0-60 mph in just 6.9 seconds.1 Thanks to BMW’s High Precision Fuel Injection technology, it delivers the performance of a V-8 with the efficiency of a 4-cylinder engine. The X5 xDrive35d is rated 19 mpg city/26 highway,2 with a range of 580 miles between fill-ups.

1 BMW AG test results. BMW urges you to obey all posted speed limits and always wear safety belts.
2 EPA-estimated figures are for comparison purposes only. Your actual mileage will vary, depending on speed, driving habits, trip length and driving conditions; actual mileage may be lower.

Model Year 2011 X5 xDrive35d content shown in brochure.
Model Year 2012 will be available October 2011.
Engines that power innovation. Year after year, numerous BMW engines have garnered accolades for their output, refinement and high-revving ability. All are designed to deliver on BMW’s EfficientDynamics philosophy: increased power with decreased fuel consumption and emissions. Choose between two gasoline-powered TwinPower Turbocharged engines, or opt for BMW’s Advanced Diesel with BluePerformance Technology. Whichever you select, you’ll enjoy the thrill of BMW performance while helping to protect the environment every day.

BMW X5 xDrive35i. This inline six-cylinder engine combines twin-scroll TwinPower Turbocharging, High Precision Fuel Injection, and – in a first for turbocharged engines – BMW’s Valvetronic variable intake technology that helps the engine “breathe” better. As a result, turbo lag is virtually eliminated, while this X5 posts one of the most fuel-efficient ratings in its class. Maximum output of 300 hp comes at the 5800-6250 rpm range; peak torque of 300 lb-ft kicks in almost immediately at 1300 rpm. It continues to push you back in your seat all the way to 5050 rpm. In just 6.4 seconds you’re easily passing 60 mph – and just as easily surpassing all expectations.

BMW X5 xDrive50i. Yielding 400 hp at 5200 rpm, BMW’s TwinPower Turbocharged V-8 smoothly accelerates from stop to 60 mph in a mere 5.4 seconds.1 You feel the boost from the massive 450 lb-ft of peak torque, sustained from 1750 all the way to 4500 rpm. This power is delivered via High Precision Fuel Injection, which delivers precise amounts of fuel into the combustion chamber at very high pressure, enhancing efficiency and unleashing even greater power.

Power to the pavement. Both gasoline-powered engines come with a smooth-shifting 8-speed STEPTRONIC automatic transmission as standard. Close ratios in the lower gears result in quick acceleration; the two additional “tall” gears contribute to relaxed, fuel-efficient cruising.

1 BMW AC testing results. BMW urges you to obey all posted speed limits and always wear safety belts.

EVERYTHING REVOLVES AROUND JOY. SEVERAL THOUSAND TIMES PER MINUTE.
The BMW X5 offers a host of innovative performance-enhancing technologies, as well as active and passive safety features that help you get the most pleasure out of every drive.

Active Steering.
The Active Steering system adjusts both steering ratio and steering force in relation to driving speed. At low to medium speeds, a small turn of the steering wheel translates into a big turn of the front wheels. You enjoy more agility in city driving, quicker turns on twisting roads, and easier parking maneuvers. At higher speeds, a larger turn of the steering wheel is needed to turn the front wheels, resulting in greater straight-line stability.

xDrive all-wheel drive.
BMW’s xDrive intelligent all-wheel-drive system takes all-road traction to new heights. On smooth, dry roads, the X5 has a rear-wheel-drive feel. But hit a wet uphill curve, for instance, or wet leaves, water or snow, and even before wheelspin can occur, the system immediately recognizes any need for a change in power distribution. It can send more torque to the front axle to achieve stability. And should one wheel on an axle spin faster than the other, the brakes automatically engage, as needed, to bring all wheels back in sync. With xDrive, you enjoy optimum traction at all times.

Hill Descent Control (HDC).
When driving down steep hills, Hill Descent Control automatically keeps the X5 to a low speed without having to “ride the brakes,” so you can concentrate on steering. At the same time, the brake lights are automatically activated to warn other drivers to slow down. HDC is especially useful when driving downhill on slippery surfaces, such as gravel, snow or grass.

Adaptive Drive.
This feature combines Active Roll Stabilization (ARS) and Dynamic Damping Control (DDC) — two active suspension control systems that combine sporty handling with enhanced ride comfort. When cornering, ARS generates a strong resistance to body roll, helping to keep the vehicle level. This adds to passenger comfort — and, for the driver, maximum stability and exciting agility. DDC instantly and continuously adjusts the shock absorbers from the softest to firmest settings during changes in vehicle speed, load, or road and driving conditions. The result is a sporty ride that is always solid and controlled – never harsh.

Dynamic Stability Control (DSC).
Working with xDrive, Dynamic Stability Control monitors vehicle speed, steering wheel angle, body rotation and more to determine where you want the X5 to go – and where it is actually headed. If it senses over- or understeer, DSC helps stabilize the X5 in just milliseconds by modulating engine power; it can also apply brakes individually to each wheel.

DSC enhanced brake features.
The value of Dynamic Stability Control is further enhanced with the integration of four braking features. Brake Stand-by pre-tenses the brake calipers when you suddenly remove your foot from the accelerator pedal. Brake Drying lightly dries the brakes when rain sensors detect moisture. Start-off Assistant helps prevent the X5 from rolling backward when stopped on a hill. And Brake Fade Compensation lets you use the same amount of brake pressure, even when brakes heat up from repeated or heavy use, such as on long downhill grades.

Dynamic Traction Control (DTC).
For sportier driving or in deep snow, Dynamic Traction Control allows increased wheel slip. Specially tailored to the X5, DTC is activated at the push of a button. It improves initial acceleration on loose snow or sand. When activated, DTC delays the intervention of DSC.

Occupant cell.
An extremely rigid steel “safety cage” surrounds the occupant compartment, with deformable crush tubes front and rear. In a severe crash, impact energy is routed around the passenger cabin and absorbed by the safety cage. In a severe side impact, a reinforcing bar hooks the door to the body, locking them together to make a more rigid passenger cell. When the pressure is released, the system is designed to snap back so that the doors can open.

For details on the availability of standard and optional features, please refer to the Equipment charts at the back of this brochure.

bmwusa.com/technology
BMW Assist gives you peace of mind knowing that a friendly response specialist is there to help you 24/7, at the touch of a button. The Safety Plan includes Automatic Collision Notification, Emergency Request (SOS), TeleService, Enhanced Roadside Assistance, Door Unlock, Stolen Vehicle Recovery, Customer Relations and MyInfo. The Convenience Plan adds personalized Directions, Traffic and Weather reports, BMW Online and Concierge services for restaurant and hotel recommendations, with the destination address and phone number sent to your BMW. Make up to four operator-assisted calls per year with Critical Calling if your mobile phone is not available or its battery is discharged.

Use the time you spend in your vehicle even more effectively with BMW’s Mobile Office feature. For example, when your vehicle is paired with a selected Bluetooth® interface, text messages and emails are transferred to your Drive Display screen — and our system even reads them aloud to you. Thanks to Bluetooth audio streaming, you can enjoy wireless playback of your music files; your personal audio library can even be accessed via the iDrive Controller.

What’s on today’s agenda? Bring up the Calendar and To-do List on your Display screen while on route, to help you stay on schedule. Need to call your 10 o’clock appointment? Use the iDrive Controller knob to click on the phone number in the Calendar — and it’s ringing. Meeting with several people? Conduct conference calls; the Display screen keeps you informed of the status of incoming calls. Who’s calling you? If you’ve uploaded photos to your on-board phonebook, you’ll see the caller’s picture. Even missed calls are listed on the Display screen. It’s never been easier to stay in touch while in transit.

Enhanced functions for the iPod® and USB adapter add to the ease and pleasure of using your iPod or iPhone®. Want to know which CD that song comes from? The album cover is shown on your Display screen. Don’t purchase additional cables — your iPod or iPhone’s original USB cable connects to your BMW’s USB port. Another rare feature; with BMW Assist and Bluetooth audio streaming, you can wirelessly play music through the BMW audio system from any Bluetooth compatible music player or mobile phone, from anywhere in your vehicle. In fact, the audio library appears on the Display screen, where you can use the Drive Controller knob to make your selection.

MyInfo allows you to send business locations and street addresses to your BMW from Google Maps™ Destinations and phone numbers can be accessed and exported to your Navigation system for immediate route guidance, while you can call the destination with your Bluetooth linked phone.

BMW Online allows online access to up-to-date fuel prices and gas station locations; the latest weather forecasts, advisories and warnings; Dow Jones, S&P 500 and NASDAQ indices; and the powerful reach of the Google Maps database — all delivered on the Control Display inside your vehicle. Access news headlines and have them read aloud via Text-to-speech technology. “Send to Mail” posts your current location and planned destination, and allows you to send the information to any smart phone or email account. Then it’s just a quick hyperlink to Google Maps for your friends and family to see where you are and where you’re going.

BMW Apps lets you access Social Networks, music Plugin and Video Playback through your iPhone, and see them on the Display screen.¹ Tune in to Web radio and search for stations from around the globe by name, location or genre. You can also store your favorite stations, find similar stations, display station information, and change the quality of the audio. Your favorite entries are stored on your iPhone, so you can take them with you from one vehicle to another.

When you select Plugins from the BMW Apps menu, the iPhone exports a typical iPod look and control to your BMW through the video connection.¹ You can then search for your favorite music by playlist, artist, album, song, genre or composer, just as you would on your iPhone. Please note: The BMW App must be installed on your iPhone for the PlugIn to connect.

Myrio allows you to send business locations and street addresses to your BMW from Google Maps™ Destinations and phone numbers can be accessed and exported to your Navigation system for immediate route guidance, while you can call the destination with your Bluetooth linked phone.

BMW Apps lets you access Social Networks, music Plugin and Video Playback through your iPhone, and see them on the Display screen.¹ Tune in to Web radio and search for stations from around the globe by name, location or genre. You can also store your favorite stations, find similar stations, display station information, and change the quality of the audio. Your favorite entries are stored on your iPhone, so you can take them with you from one vehicle to another.

Right up against the edge of the Arctic Circle – 65 degrees 46 minutes north, 18 degrees 31 minutes east – winter temperatures hover well below 0°F. Only late in the morning does the sun slowly rise into view, and it’s not long before it disappears again under the gray horizons.

A pretty desolate region. But suddenly, the dry powdery snow explodes into the frosty air as a BMW X5 sweeps around the bend. The speed is breathtaking on the icy-smooth surface; a road whose contours can only be guessed at beneath the enveloping white. These are the winter tests in Lapland, in northern Sweden – the frozen extremity of Europe – where each BMW is sent to prove that it can function perfectly, even under extreme conditions. You can watch as the vehicles are put through their paces on the frozen expanses of Lake Hornavan. The X5 hurtles over the mirror-like surface, brake lights glowing; it fishtails briefly and is still. Then it executes a series of circles, slowing gradually to come to a final stop at the farther edge of the ice.

For Heinz Krusche, this kind of drama is all in a day’s work. An engineer by training, for the last 30 years he has been commuting 1250 miles from BMW headquarters in Munich to the white deserts around Arjeplog, itself a small town of only 3277 souls. This secluded outpost, though, does boast a modern airfield nearby, where large airliners come and go daily, and where December sees an influx of test drivers from all over the world. Their colleagues, meanwhile, have trekked north in trucks loaded with sophisticated electronic equipment, as the supermarket parking lot gradually fills with a whole auto show’s-worth of high-end vehicles. Models that have not yet made their debut on the market are discreetly veiled in black tape.

As Krusche, the chief tester, observes, “Only places like this give us the scope to try out all possible driving situations under the same climatic conditions.” His team’s task is to test out and optimize every vehicle feature, from the mechanics of the sliding glass roof and the engine temperature management, right down to the tires themselves. Each test vehicle is equipped with the very latest in sensory technology; some are turned into veritable laboratories on wheels. Krusche and his expert crew are working on an advanced version of the xDrive, the intelligent four-wheel-drive system. They are focusing in particular on braking, starting up and accelerating in situations the engine temperature management, right down to the tires themselves. Each test vehicle is equipped with the very latest in sensory technology; some are turned into veritable laboratories on wheels. Krusche and his expert crew are working on an advanced version of the systems that regulate driving dynamics in conjunction with BMW xDrive, the intelligent four-wheel-drive system. They are focusing in particular on braking, starting up and accelerating in situations the average driver may never encounter. The engineers are aiming to find ways to ensure optimum stability and safety. The crucial factor here is the frictional coefficient, which on ice and snow is so low that tires lose their grip and the vehicle cannot be properly steered or stopped.

A HOST OF MANUFACTURERS DO THEIR TESTING IN ARJEPLOG. THE PARKING LOT AT THE SUPERMARKET IS OFTEN A SHOWCASE OF INNOVATIONS AND PROTOTYPES.

On a frozen lake the frictional coefficient is practically zero. In this icy terrain, there is plenty of opportunity to put the electronic driver assistance systems to the test. It seems almost impossible how severely and under control the BMW X5 cruises over the slick, polished surface. The vehicle’s electronic control centers are hooked up to laptops to download the latest software for the Dynamic Stability Control (DSC), which can stop a skid in its tracks. “We often rack up hundreds of miles out here,” says Krusche. All this driving, measuring and analysis is centered on meeting the needs of the customer. “The great numbers we can get on the test runs are important to us, but not that crucial in the end. The main thing is to improve the numbers in those areas that are going to make a difference to the customer’s everyday driving experience.” Krusche further explains, “We investigate everything, measure everything and aim to modify a lot that we find. The key objective is to bring out maximum performance while retaining the key characteristics of a BMW.”

These long hours behind the wheel are more than just a joyride. Perilous conditions can and do arise, and more than once Krusche or one of his team have found themselves stuck in a fairly severe blizzard. “That is another situation where you’re glad you’re in a BMW,” he says.
Timeless attraction.

The timeless allure of the BMW X5 is enhanced by an exterior painted Deep Sea Blue Metallic, which catches the sun and shade as they wash across its sculpted surfaces. The beautiful shade of this SAV® is set off by the sparkle of 20-inch Y Spoke (Style 214) light alloy wheels. Sand Beige Nevada Leather upholstery conveys the feeling of light and warmth, enhanced by the subtle contrast of Dark Bamboo Wood interior trim.

A feast for the eyes.

Open the door of the X5 to reveal expanses of delicious Cinnamon Brown Nevada Leather, set off by the elegant whorls of genuine Dark Burl Walnut Wood trim. This tasteful color scheme is wrapped in darkly glittering Black Sapphire Metallic paint, set off by the gleam of practical running boards and handsome 20-inch Y Spoke (Style 336) light alloy wheels. Prepare to whet your driving appetite.
**Exterior colors.**

- 300 Alpine White (Non-metallic)
- 354 Titanium Silver Metallic
- 406 Sparkling Bronze Metallic
- 456 Platinum Bronze Metallic
- 668 Jet Black (Non-metallic)
- A76 Deep Sea Blue Metallic
- A82 Vermilion Red Metallic
- 416 Carbon Black Metallic

---

**Upholstery colors and materials.**

- KCB4 Beige Leatherette
- KCSW Black Leatherette
- LUSW Black Nevada Leather
- LUB4 Sand Beige Nevada Leather

1 Standard in X5 xDrive35i.
2 Optional in X5 xDrive35i; standard in all other models.
3 Included in Active Ventilated Seat Package.
4 Optional. Includes Nappa Leather dashboard and center console. Not available in X5 xDrive35i.
5 Only available with M Sport Package.
6 Not available with X5 xDrive35d.
7 Standard and only available in X5 xDrive35i.

For details on the availability of standard and optional features, please refer to the Equipment charts at the back of this brochure.
Xenon Adaptive Headlights optimize road illumination when the X5 enters a curve or bend, helping to enhance visibility when driving at night. Sensors continuously monitor the angle of the steering wheel to determine the direction in which the X5 is heading. The outer headlight swells accordingly, up to 15 degrees left or right. Xenon low- and high-beam headlights illuminate the road ahead and to the side with brilliant clarity. An auto-leveling feature adjusts for varying passenger and cargo loads. The xenon low- and high-beam headlights also act as daytime running lights and parking lights. Automatic high beams help the driver at night by automatically switching between high and low beams, according to the oncoming traffic, vehicles driving ahead, and the quality of road lighting.

High-intensity, retractable headlight washers help keep lights clean of ice, mud, road salt and other coatings, for maximum road lighting and enhanced driving visibility.

Halogen free-form foglights are cleanly integrated into the front air dam, illuminating the road ahead in bad weather and poor visibility. They also include LED Cornering Lights. When the system senses you are making a turn, a reflector mechanism in the housing casts additional lighting up to 90 degrees in the direction of the turn.

Rain sensor measures the amount of rain. In “Intermittent” windshield wiper mode, it automatically adjusts the wiping interval as needed. It includes Automatic headlight control (not shown), which activates headlights by means of a sensor that responds to darkness. The rain sensor is also integrated into the braking system as part of the Brake Drying feature.

The system senses you are making a turn, a reflector mechanism in the housing casts additional lighting up to 90 degrees in the direction of the turn.

Aluminum roof rails are exclusive to X5 models equipped with the M Sport Package, adding a subtle gleam.

Aluminum running boards (*4) are designed to add to the X5’s overall visual appeal, while making it easier for passengers to enter and exit. Rubber inserts add a sporty touch.

Standard / Optional equipment.

X5 xDrive50i twin-kidney grille with Titanium slats and chrome surround distinguishes the X5 xDrive50i from other X5 models.

Twin-kidney grille on X5 xDrive35i models and the X5 xDrive30d features black slats and chrome surround.

Privacy glass in the rear and rear side windows enhances passenger privacy, while it reduces sun glare and interior heat.

Tinted black roof rails, clearly integrated with the X5’s design, provide the foundation for BMW’s (accessory) modular roof rail system, which allows the convenient and secure transporting of luggage, bicycles, surfboards, etc.

Heated, power-adjustable exterior mirrors feature a body-color upper section, black bottom. Automatic-dimming exterior mirrors cut headlight glare from any following vehicles, and include power-folding function.

Two-tone roof spoiler features an upper section finished in body color and a lower section in black. Containing the center brake light, it gives the X5 SAV® a particularly muscular look while enhancing aerodynamics.

Matte black roof rails, clearly integrated with the X5's design, provide the foundation for BMW's (accessory) modular roof rail system, which allows the convenient and secure transporting of luggage, bicycles, surfboards, etc.

Aluminum roof rails are exclusive to X5 models equipped with the M Sport Package, adding a subtle gleam.

Automatic tailgate opens and closes at a touch of a button. Opening height can be adjusted through the iDrive Control.

Tailgate opens in two sections. Lower the bottom section to create a platform that holds up to 550 lbs. The top section can be raised separately for quick removal of small items.

Dual tailpipes in the xDrive35i and xDrive30d models come with two single, round tailpipes. The exhaust system is made of high-quality stainless-steel; the tips are trimmed with a chrome frame.

For details on the availability of standard and optional features, please refer to the Equipment charts at the back of this brochure.
run-flat tires do not come equipped with a spare tire and wheel. Please note: Driving over rough or damaged road surfaces, as well as debris, curbs and other obstacles, can cause serious damage to wheels, tires and suspension parts. This is more likely to occur with low-profile tires, which provide less cushioning between the wheel and the road. Be careful to avoid road hazards and reduce your speed, especially if your vehicle is equipped with low-profile tires. Performance tires are not recommended for driving in ice and snow conditions.

Cruise Control is not a substitute for the driver’s own responsibility in adjusting speed and otherwise controlling the vehicle. After evaluating the road, traffic and visibility conditions, the driver must decide whether and how the system is used.

For details on the availability of standard and optional features, please refer to the Equipment charts at the back of this brochure.
Standard / Optional equipment.

HEAD-UP DISPLAY

Head-up Display projects important travel information, such as current speed and Check Control data, on the windshield directly in the driver’s line of vision. Directional arrows from the Navigation system (if so equipped) can also be displayed.

BMW Apps

BMW Apps, an optional feature of the BMW ConnectedDrive interface, allows an iPhone® iOS 4.x to play apps specially modified for BMW and BMW approved third-party apps. Imagine listening to Web radio while you drive – or accessing your Twitter® or Facebook® accounts on the Display monitor. Use the iPod® Out function with your smartphone to select music tracks, compile playlists and recharge the battery. (See your authorized BMW center for phone models compatible with this feature.)

Rear-View Camera

Rear-view Camera with Top View is activated automatically by shifting into reverse gear, or manually by pressing the parking-assist button. The color display shows a real camera image that may include “static” and “track” lines to help you judge how close you are to other vehicles and unseen objects when parking. The warning beeps come faster as the bumper approaches the object, pausing when backing up or parallel parking.

Lane Departure Warning feature identifies when the vehicle crosses over roadway lane markings or is changing lanes without signaling, and warns the driver by sending a mild vibration through the steering wheel. The system can be turned on and off via a button on the steering wheel.

iDrive Controller

iDrive Controller, conveniently located on the center console, is the central command element for the Drive system and can be rotated, pushed and tilted to operate various functions via the Control Display. Additionally, four frequently selected menus – CD, radio, Navigation system and telephone – can be called up using direct menu-control buttons.

Lane Departure Warning feature requires clearly definable lane markings and is not available with XNuR6PTR xDrive® NuR6PTR i.

Check for a list of BMW-tested mobile devices at your authorized BMW dealer or bmwusa.com/bluetooth. Not available with 5.0 (p.x) or 6.0 (p.x).

Lane Departure Warning feature is not a substitute for the driver’s own responsibility in maintaining safe control of the vehicle.

For details on the availability of standard and optional features, please refer to the Equipment charts at the back of this brochure.

Navigation system

Navigation system features a high-resolution, glare-free monitor, and uses GPS satellites in conjunction with data stored on an internal hard drive. Includes 3-D daytime and nighttime maps, zoom, travel planner and an Assistance/Window. The system provides Real Time Traffic Information on potential traffic problems and solutions. The hard drive offers 12 GB of space that can hold up to 2,000 of your favorite songs.

Clear-free Control Display screen, linked with the Drive and Navigation system, renders clear images and text. The surface of this Display is equipped with transreflective technology, ensuring legibility by automatically making adjustments to the brightness or background lighting in bright or low-light conditions.

iDrive Controller, conveniently located on the center console, is the central command element for the Drive system and can be rotated, pushed and tilted to operate various functions via the Control Display. Additionally, four frequently selected menus – CD, radio, Navigation system and telephone – can be called up using direct menu-control buttons.

Six programmable memory buttons offer convenient storage of your most frequently accessed Drive settings, such as favorite radio stations, Navigation system addresses, phone numbers (when equipped with a BMW-tested Bluetooth® enabled mobile device), and more.
Standard / Optional equipment.

2-zone automatic climate control allows driver and front passenger to select individual temperatures and choice of fan speeds, as well as choose automatic or manual airflow and recirculation. The automatic recirculation control activates whenever certain air pollutants are detected. The system also offers a mist-up sensor, solar sensor and residual heat use.

3-zone automatic air conditioning builds on the 2-zone system with air vents in the B-pillar and at the rear of the center console, to ensure virtually draftless ventilation for rear-seat passengers. Additionally, the temperature in both left and right rear cabin can be tailored via two control dials with displays.

Heated front seats are a welcome feature in cooler weather. With the touch of a button, driver and front passenger can individually select from three heat settings.1

Active seat ventilation ensures increased comfort while traveling in summer. Air is gently blown through the micro-perforations in the leather seats and backrests to keep front-seat passengers comfortably dry in warm weather. This provides a noticeably more comfortable ride.

Active driver’s seat helps decrease stiffness or fatigue on long trips. When activated, the driver’s seat surface is continuously and imperceptibly raised and lowered from side to side, keeping your spine in motion and exercising various support muscles.

Premium high-fidelity system is a 16-speaker, multi-channel system that outputs reproduction of the surround information contained in the stereo signal in a nine-channel format (seven mid- and high-range channels and two central bass channels) as well as 5.1 surround sound from a DVD source. Includes a 600-watt digital amplifier with nine channels. The system compensates for driving noise in smooth steps with speed-dependent equalizing. All speakers are fitted with very strong, yet compact neodymium drives.

BMW anti-theft AM/FM stereo/CD/MP3 player audio system with Radio Data System (RDS) includes High-fidelity sound system featuring 10 speakers with 2 subwoofers under the front seats, and a digital 7-channel amplifier with 205 watts of power. Auxiliary input port (not shown) lets you connect an external audio source, such as an iPod® or MP3 player.

iPod and USB adapter (not shown) lets you scroll through and select the music you want by using the vehicle’s radio controls, the multi-function steering wheel buttons, or Drive Controller. Music titles are displayed on the radio or Navigation screen.

Sirius Satellite Radio delivers over 130 channels of the most innovative satellite radio music, news, sports, talk, comedies and entertainment. All 69 music channels are commercial-free – and it’s delivered coast-to-coast in crystal-clear digital sound, 24 hours a day. Add "The Best of XM" to enjoy additional premium programs, like Oprah Radio,® XM Public Radio,® The Virus®, and top-notch sports action, plus 10 channels of XM Play-by-Play sports.

If your BMW is equipped with Drive, you can also select Sirius XM channels through your vehicle’s Drive system or Voice command, and enter them into the programmable memory buttons.

For details on the availability of standard and optional features, please refer to the Equipment charts at the back of this brochure.
Standard / Optional equipment.

20-way power Multi-contour front seats conform to your body to provide optimum support and exceptional comfort over long distances. In addition to horizontal, vertical and angled adjustments, Multi-contour seats include an articulated upper backrest, backrest width, Comfort headrest (two-way power, two-way manual “relax headrest”), and four-way power-adjustable lumbar support. Both driver’s and front passenger’s seats include memory function.

10-way power-front sports seats with driver’s-seat memory system make the X5 driving experience more enjoyable. Seat height, seat angle, backrest angle and lumbar support are electrically adjustable; two-way thigh support is manually adjustable. Contoured side bolsters cradle you comfortably over long distances, while holding you firmly in place during sporty driving maneuvers.

Power seat adjustment for driver and front passengers, with memory function for driver’s seat, steering column and power-folding exterior mirrors.

BMW Assist™ Convenience Plan adds personalized Directions, Traffic and Weather reports; BMW Drive, Bloomberg stock indices, gasoline stations and prices; a Concierge service that recommends restaurants and hotels, and can also send the addresses and phone numbers right to your BMW; Critical Calling and more.

Automatic-dimming interior and exterior mirrors sense the bright headlights of vehicles behind you, and automatically darken. Includes fold-in function for exterior mirrors.

Alarm system emits an acoustic signal and immediately switches on the hazard warning lights in the event of an attempted break-in or tampering.

Panoramic moonroof is designed with generous dimensions to offer a stunning view, day or night. Easy-to-use features include a power slide and lift control, a comfort opening/closing function, a speed-sensitive wind deflector, and a power sunshade to shield passengers from excessive glare and heat. Both glass panels tilt up electronically at the touch of a button; the front panel also features a sliding function.

For details on the availability of standard and optional features, please refer to the Equipment charts at the back of this brochure.

Anthracite headliner adds a more distinctive and sporty look to the X5 interior. The A, B, C and D pillars, as well as the sunshades and roof handles, are also finished in a refined black.
Standard / Optional equipment.

Rear seat backrests can be folded individually in a 40/60 split to optimize the number of passengers and amount of cargo.

Storage package (included in Premium Package) adds a storage box under the front center console; safety belt pretensioners for left and right rear seats (not included with optional third-row seating); in the cargo area, two lashing rails with four lashing points.

Third-row seating lets the X5 accommodate up to seven occupants. These two additional seats can also be folded down separately to maximize seating and storage possibilities. Includes self-leveling air suspension and third-row seat climate control. (Please note: Not available with optional space-saver spare. X5 xDrive50i requires optional Leather interior. With Nappa Leather interiors, optional third-row seats are upholstered in Nappa Leather; with Nevada Leather interiors, optional third-row seats are upholstered in Leatherette.)

12V power outlets are located in the front storage area, in the rear center console and in the cargo area.

Cup holders are integrated into the rear center armrest, when folded down.

Heated rear seats are a welcome feature for left and right rear-seat occupants in cooler weather. With the touch of a button, passengers can individually select their preferred level of warmth.

Rear side sunshades keep the sun’s heat and glare away from the rear cabin while maintaining your privacy. When not in use, these manually adjustable sunshades conveniently disappear into the side doors.

Comfort Access system offers an even greater degree of convenience: keyless access to your vehicle. Simply carrying the remote key in a pocket or purse allows you to unlock the doors by touching the door handle. You can also turn the engine on or off by pressing the Start/Stop button without the remote key. (Note: foot must be on brake to start.)

Central locking for the doors and fuel cap, including Coded Driveaway Protection and remote control with automatically recharging battery in the key.

For details on the availability of standard and optional features, please refer to the Equipment charts at the back of this brochure.
ADD HIGH-PERFORMANCE POLISH:

After heading for the horizon, leave behind a powerful impression with the M Sport Package. BMW designers have enhanced the X5’s dynamic appearance by widening the wheel arches and adding M exterior parts, painted in one of six exterior paints, including exclusive Carbon Black Metallic. On top, the M Sport Package adds exclusive Aluminum roof rails. Below, 19” V Spoke (Style 223M) light alloy wheels with performance tires accentuate the X5 xDrive35i’s athleticism. On the X5 xDrive35i Sport Activity, and optional on the X5 xDrive50i, 20” Double Spoke (Style 333M) light alloy wheels with performance tires (shown above) add a glimmering touch. Sport driving maneuvers are made easier by the self-leveling air suspension, the padded M sport steering wheel, with its reassuring grip is another welcome addition. The X5 with the M Sport Package begs for tight turns – then rewards you by holding you securely in the bolstered front sport seats. In addition, the interior is complemented by an Anthracite headliner, and the exterior is enhanced by sporty shadowline exterior trim.

THE M SPORT PACKAGE.

For details on the availability of standard and optional features, please refer to the Equipment charts in the following section of this brochure.

### Sport Activity Package
- X5 xDrive35i
- X5 xDrive35i Premium
- X5 xDrive35d
- X5 xDrive50i

- 35t Style (Style 333i) 19 x 10.0 light alloy wheels, and 225/50 run-flat all-season tires
- 35t Style (Style 333i) 19 x 10.0 light alloy wheels, and 225/50 run-flat all-season tires
- Sport suspension
- 15-way power-adjustable front sport seats with 2-way manual thigh support adjustment, plus additional power adjustment functions for shoulder and thigh support; backrest width and lumbar support (contour and position), plus 2-way manual lateral adjustment for comfort headrest
- 20-in Adaptive Drive (includes Active Roll Stabilization and Dynamic Damping Control)
- Auto Park Distance Control (front and rear)
- Technology Package

### M Sport Package
- Double Style (Style 333i) 19 x 10.0 light alloy wheels, and 225/50 run-flat all-season tires
- Sport suspension
- 17-way power front seats with 2-way manual thigh support adjustment, plus additional power adjustment functions for shoulder and thigh support; backrest width and lumbar support (contour and position), plus 2-way manual lateral adjustment for comfort headrest
- Aluminum roof rails
- Shadowline exterior trim
- M exterior parts in body color

### Technology Package
- Hard drive-based navigation system with voice commands
- Real Time Traffic Information and Dynamic Information Services
- Head-up Display (HUD) (X5 xDrive35d requires BMW Navigation system or Tech Package)
- Park Distance Control (front and rear)
- Automatic high beams
- Side-view Cameras
- Rear-view Camera

- STANDARD
- Optional
- Included in M Sport Package
- Included in Driving Assistance Package
- Included in Cold Weather Package
- Included in Rear Climate Package
- Included in Premium Package
- Included in Premium Sound Package

### Stand-alone optional equipment

- Brushed Aluminum trim
- Light-trimp Wood trim
- Dark-trimp Wood trim
- Comfort Access keyless entry
- Park Distance Control (front and rear)
- Remote-controlled sunroof
- Rear view entertainment
- Sirius Satellite Radio with one-year subscription (for additional information, unless sold as recommended BMW Bluetooth® system)

- Phone and USB adapter
- Smartphone Integration (requires iPod and USB adapter or Premium Package or BMW Assist®)
- BMW Apps with Smartphone Integration (requires BMW Navigation system)
- BMW Assist® with Bluetooth® wireless technology: Includes four years of Automatic Collision Notification, Emergency Request, Enhanced Roadside Assistance, Crew Connect, Stolen Vehicle Recovery, Customer Relations, Teleservice, Mobile Office features, My BMW lists 3.0 business locations and street addresses directly to your BMW and navigation system (for complete details, visit bmwassist.com)

- Run flat tires do not come equipped with a spare tire and wheel.
- Please note: Driving over rough or damaged road surfaces, as well as debris, cuts and other obstacles, can cause serious damage to tires, rim and suspension parts. This is more likely to occur with low-profile tires, which provide less cushioning parts.
- Run-flat tires do not come equipped with a spare tire and wheel.
- Please note: clearly driver’s own responsibility in adjusting speed and otherwise controlling the vehicle. After evaluating the road traffic and visibility conditions, the driver must decide whether and how to use the system is used.
- Lane Departure Warning is not a substitute for driver’s own responsibility in maintaining safe control of the vehicle.

GOING BEYOND ENGINEERING: THE HIGH-PERFORMANCE BMW OWNERSHIP EXPERIENCE.

BMW Ultimate Service® At BMW, we believe that a premium ownership experience should feature performance and luxury, as well as safety and convenience. Thanks to BMW's integrated onboard diagnostic system, you will always know exactly when the next service is due, and what work will be required.

Condition-Based Service (CBS) measures the condition of key parts that are subject to wear and tear. It also tracks fluid levels and monitors your BMW's time- and mileage-dependent service requirements. Using this data, the Info Display in the cockpit automatically alerts you in advance whenever any part of your vehicle will require servicing. You can also use the Drive Control Display to find out which components will be serviced, and when.

When combined with TeleService — the innovative telematics system included with the BMW Assist™ Safety Plan — the CBS-collected data is automatically transmitted to your authorized BMW center, which then contacts you to set up a service appointment. And because they use only Original BMW Parts, you can rely on expert fit and long-lasting BMW quality.

BMWMagazine.com

BMW Virtual Assistant is your personal concierge to take care of all your BMW business. Whether you're on-the-road or in the office, send a request to the BMW Virtual Assistant, and your local BMW center will contact you to set up your service appointment. And because they use only Original BMW Parts, you can rely on expert fit and long-lasting BMW quality.

BMW Financial Services. Arranging to buy or lease a BMW is easier than you may think. This is where you find the most exciting news and innovations in the Technology and Design Atelier, and take a tour of the plant to experience firsthand the state-of-the-art methods used to create a BMW. Then come the unique experience of driving your new BMW on the road it was designed for. To learn more, go to bmwusa.com/swing/foreverliving.

BMW Assist Safety Plan Continually monitors specific parts that are subject to wear and tear — including your BMW's tire and brake systems, suspension, steering, electronic stability control, and regular intervals, such as vehicle inspections. This data is automatically transmitted to your authorized BMW SAV center, which will then call you to schedule your next appointment. You have to keep track of when your vehicle requires routine maintenance. An added benefit: any needed maintenance service will already be on hand, so your BMW is serviced and returned to you as quickly as possible.

BMW Assist Services

BMW Assist provides you with coverage for the first four years or 50,000 miles, whichever comes first. Additionally, you have a 12-year, unlimited-mileage warranty protection against corrosion and rust perforation.

BMW Maintenance Program is one of the most comprehensive maintenance programs in its class. We cover all factory-recommended services for the first four years — with no mileage limit, at no cost. You'll enjoy peace of mind knowing that a friendly response specialist is there to help you, 24/7, at the touch of a button. The BMW Assist includes Automatic Collision Notification, Emergency Response, Enhanced Roadside Assistance, Door Unlock, Stolen Vehicle Recovery and Customer Relations. Included in the BMW Safety Plan Safety Services are also available for you to send business locations and addresses with their associated phone numbers from the Google Maps™ website directly to your BMW. The destination can be sent to your Navigation system for turn-by-turn directions. With the BMW Navigation system and certain mobile phones and Blackberry® smartphones linked to your BMW via Bluetooth® technology, BMW's Mobile Office features transmit messages and emails to your Drive Display screen and reads them to you.

A Calendar and To-Do List can also appear on your Display screen while on the road. Running late? Click on the phone number in the Calendar to call your appointment. For a list of trusted mobile phones, visit bmwusa.com/bluetooth.

For the ultimate in coverage, add the optional BMW Assistance Plan. You'll enjoy unlimited access to personalized Directions, Traffic, and Weather reports, as well as our Concierge feature, which can send a destination address and phone number, such as a restaurant or hotel, right to your BMW. You can make up to four operator-assisted calls per year with Critical Calling if your cell phone is not available, or if its battery is discharged. BMW Onlines allows online access to your service records, the latest weather forecasts, as well as BMW's stock indices and the powerful reach of the Google Maps database — delivered to the Drive Display right inside your vehicle.

BMW's unique TeleService, included in the BMW Assist Safety Plan, continually monitors specific parts that are subject to wear and tear — including your BMW's tire and brake systems, suspension, steering, electronic stability control, and regular intervals, such as vehicle inspections. This data is automatically transmitted to your authorized BMW SAV center, which will then call you to schedule your next appointment. You have to keep track of when your vehicle requires routine maintenance. An added benefit: any needed maintenance service will already be on hand, so your BMW is serviced and returned to you as quickly as possible.

For more details about the BMW Assist Convenience Plan, visit your authorized BMW SAV center or go to bmwusa.com/bluetooth.

THE MOST EXCITING PLACE IN AMERICA TO DRIVE THE BMW X5.

The BMW Performance Center in Spartanburg, SC, just beyond the foothills of the Carolina’s Blue Ridge Mountains lies the $12 million BMW Performance Center. This sprawling, modern complex houses the BMW M Sales Center, where you can purchase or lease your ideal M car, as well as the Zenium Museum, BMW Boutique, BMW Delivery Center, and a Corporate Conference Center. Nearby is BMW’s only manufacturing facility in the United States, where the X5 is built. It’s a unique place where BMW enthusiasts can spend days — or, in the surrounding area, an entire vacation.

BMW Performance Driving School. Whether you've driven for decades or just got your greater’s permit, we can help take your driving skills to the next level. Behind the wheel of one of BMW’s top-notch BMW Performance Driving School instructors, you’ll hone your driving skills on a diverse driving course — 1.7 miles of asphalt that can be configured in a multitude of ways, in one- and two-lane roads, 200-foot skid pads, where the X5 is at its best, and our state-of-the-art driving course, which is designed to make you explore the dynamic capabilities of a similar model. It’s exciting, it’s hands-on training — and it’s all complemented with BMW of your new vehicle.

To learn more about the BMW Performance Center, call 1-888-345-4269 or visit bmwusa.com/performancecenter.

BMW Performance Center Delivery. You’ll always remember the fun of taking delivery of your new BMW — with BMW Performance Center Delivery. After enjoying dinner and an overnight stay at a first-class hotel, we’ll take you and your companion to the Performance Center where a Product Specialist will give you an in-depth introduction to your new BMW. Then at the Performance Center Dedication Ceremony, where you will receive your keys to your new BMW, you and your companion will explore the Performance Center and understand how BMW has engineered your new car to suit your driving preferences. As you explore the dynamic capabilities of a similar model, it’s exciting, it’s hands-on training — and it’s all complemented with BMW of your new vehicle.

To learn more about the BMW Performance Center, call 1-888-345-4269 or visit bmwusa.com/performancecenter.
BMW and the environment.

BMW is a strong proponent of the environment and social responsibility. We launched BMW EfficientDynamics back in 2000 – the philosophy of providing greater power with increased efficiency and fewer emissions. This has resulted in significant benefits today – for our customers, the climate and the environment.

That year, ecological sustainability was also declared one of BMW’s core strategic principles; it is now firmly anchored in our entire production chain. It starts with the development of fuel-saving and alternative vehicle concepts, continues with environmentally friendly production processes, and ends with innovative recycling methods. This effort has been recognized worldwide; in 1999, BMW AG – the parent company of BMW of North America and BMW Manufacturing Co. in Spartanburg, SC – was the first automotive company to be represented on the Dow Jones Sustainability Group Index. It has remained on the Index ever since; moreover, for the last six years, BMW has been voted the world’s most sustainable automobile manufacturer. At BMW, we strive for and achieve high performance in all we do.
