WHEN THE ROAD IS CALLING

AND SO ARE YOUR FRIENDS

Enclave understands you want to stay connected when you’re on the road. To keep your hands on the wheel and eyes on the road, Buick IntelliLink® lets you call up music, news, sports and other features — using only simple voice commands. IntelliLink easily stores your mobile phone contacts, and you can make hands-free calls. Bluetooth® connects your compatible smartphone to Enclave’s high-resolution touch-screen. There’s even a text-to-speech feature that takes the incoming texts to your phone and reads them back to you.

1 Full functionality requires compatible Bluetooth® and smartphone. Some devices require USB connectivity.
2 Go to gmtotalconnect.com to find out which phones are compatible with the vehicle.
WHEN YOU’RE THE MUSIC MAESTRO

Enclave helps you orchestrate your music, your way. Bluetooth pairs Enclave’s audio system with your compatible devices like smartphones or MP3 players. (There’s also a USB port to directly connect your devices.) With simple voice commands or steering-wheel-mounted controls, you can access available music apps on your smartphone such as Pandora® internet radio and SiriusXM Satellite Radio (3-month trial included). Best of all, you’ll hear your selections played through the available Bose® 10-speaker sound system. So you’ll hear every note, maestro.

1 Not compatible with all devices.
2 Data plan rates apply.
3 If you subscribe after your trial period, subscriptions are continuous until you call SiriusXM to cancel. See SiriusXM Customer Agreement for complete terms of service. Other fees and taxes will apply. All fees and programming subject to change.
Enclave’s available All-Wheel Drive (AWD) constantly monitors traction at all four wheels. If it detects slip, power is delivered to the wheel(s) with the best grip. In low-traction situations — like rain, sleet or snow — it can send up to 50 percent of engine torque to either front wheel and up to 85 percent to either rear wheel. And on dry roads, performance and handling benefits such as enhanced acceleration and torque reach all four wheels. Enclave’s power comes from a 3.6L V-6 with direct fuel injection, variable valve timing, 288 hp and 270 lb-ft of torque. It’s paired with an electronically controlled 6-speed automatic transmission that seamlessly shifts into the right gear for optimal performance and efficiency.
Enclave has its priorities in the right place: In the center-mounted information screen, where the standard Rearview Camera System helps you see what’s behind your Enclave, and available Rear Cross Traffic Alert helps make you aware of oncoming traffic when backing up. In the High-Intensity Discharge xenon headlamps, where an available articulating feature helps you see better around corners. And in the driver’s seat, where an industry-first side-mounted Front Center Air Bag adds another layer of protection in side impacts. Safety features are no substitute for the driver’s responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the vehicle Owner’s Manual for more important safety information.

*Always use safety belts and child restraints. Children are safer when properly secured in a rear seat in the appropriate child restraint. See the Owner’s Manual for more information.
DRIVER ALERT FEATURES

Enclave is available with Side Blind Zone Alert. When it detects a vehicle is in its side-mirror blind spot, it alerts drivers via a warning icon in the side mirror. The available Lane Departure Warning feature alerts drivers if they drift out of their lane unintentionally without the turn signal on. Also available: Forward Collision Alert, which warns drivers with a visual display if they are approaching a vehicle directly ahead too quickly.

WHEN THREE ROWS ARE FIRST CLASS

NEW DARK PLUM LEATHER-APPOINTED SEATING
Some days you’re spontaneous. Others, you have perfectly planned. Enclave offers the space and versatility to adapt to whatever’s next. The standard power liftgate makes it easy to load Enclave’s cargo area with everything you and your crew need for an extended adventure. And if it’s just the two of you getting away for the weekend, simply flip the third row down, lower the second row and you’ve created a cavernous 115.2 cubic feet of level storage capacity.

*Cargo and load capacity limited by weight and distribution.
The standard seven-passenger Enclave features three rows of premium seating. A pair of available leather-appointed captain’s chairs in the second row is easy to access, thanks to rear doors that open wide. The third row is easily accessible, too, by adults as well as children. Between the captain’s chairs, there’s a wide pass-through. And with the convenient Smart Slide feature, moving the second-row seats gently forward is simple, so passengers of all ages can maneuver easily into the third row.
Close the doors of Enclave behind you and enter a hushed sanctuary that helps keep the noisy world outside at bay. Buick engineered Enclave using QuietTuning, a technology that helps reduce, block and absorb noise and vibration in the cabin, so it’s the ideal environment for good conversation. Prefer to enjoy music, instead? The available Bose 10-speaker sound system was tuned to the acoustics of the Enclave interior. You’ll feel like you’re seated in a concert hall.
WHEN THE FEELING IS REFINED

Beyond Enclave's natural wood tones and brushed metal, you’ll find French seam stitching that highlights the available leather-appointed seats — infused with silk and perforated for breathing and sound deadening — in the first and second rows. And everyone can enjoy the lasting comfort of Enclave’s luxury seating, the result of 1,400 hours of real-world testing.
