THAT RAREFIED SLIVER BETWEEN THE GOOD AND THE TRULY GREAT. THERE’S NO MAP TO HELP YOU FIND THIS ELUSIVE PLACE. THE ONLY WAY TO GET THERE IS SIMPLY TO BELIEVE YOU CAN.

At Cadillac, we’ve set out to create our own uniquely American breed of extraordinary. It’s why we’ve created our own daring school of design that bends steel way beyond its comfort zone. It’s why we’ve pushed technology two generations ahead by pioneering a bold new way for drivers to intuitively access entertainment and information with the flick of a finger. And why, in everything from safety to performance, we’re setting the standard.

RED-BLOODED. DARING. ORIGINAL. These are the kinds of luxury vehicles we build. It takes tenacity, a refusal to leave well-enough alone. That is the difference between good and great. That is the difference between just making luxury vehicles, and making Cadillacs.

THE STANDARD OF THE WORLD

IT IS PERHAPS THE SMALLEST SPACE KNOWN TO MAN.
Quick. Nimble. Responsive. The all-new Cadillac ATS. Derivative of nothing, it was built from a clean slate with the world’s most respected sport sedans in its crosshairs, then tested and perfected under the extraordinary demands of Germany’s famed Nürburgring. Riding on an all-new architecture, the ATS is purposefully designed to deliver remarkable handling and control. Endowed with powerful direct-injection engines, a ZF premium steering system, available race-inspired Brembo® front brakes and the latest generation of revolutionary Magnetic Ride Control, the ATS is a driver-focused luxury sport sedan that delivers thrilling performance. But we didn’t stop there. The refined, handcrafted, cut-and-sewn interior is finished with premium materials and the latest technology like CUE®—Cadillac User Experience. It’s a brilliantly executed fusion of luxury and sport.
The most difficult roads are the ones that lead to greatness. While engineering and perfecting the all-new ATS, we went to the toughest, most demanding automotive track on the planet: Germany’s legendary Nürburgring. It’s the yardstick by which performance cars are measured. Over its 70-plus turns in 12.9 miles, it is hungry to consume the entire engine, use all of the brakes and chew through the tires. It stresses every component to its limit, sometimes beyond, and deservedly earns the nickname “Green Hell.” By enduring this grueling punishment, every aspect of the agile ATS was tuned and retuned to push the performance envelope as close to perfection as possible. We set out to challenge the status quo. What we accomplished is a world-class luxury sport sedan with tenacious handling and performance.

MASTER ITS CURVES,
AND YOU’VE GOT YOUR PRIORITIES STRAIGHT.
STRONG FOUNDATIONS
ARE MADE FROM MORE THAN JUST IRON AND GRANITE.
Similar to the world’s top athletes, the ATS is built on an incredibly strong yet lean architecture for quickness and agility. Lightest in its class, every component of the all-new chassis was evaluated down to the gram to reduce weight without sacrificing strength, durability or safety. The result is the perfect combination of ultra-high-strength steel, aluminum, magnesium and other advanced materials, which creates a luxury sport sedan that’s extremely robust while still athletic and composed. A near-perfect front-to-rear 50/50 weight balance, low center of gravity and distinct suspension geometry blend flawlessly with performance-tuned Rear-Wheel Drive or available all-weather-capable All-Wheel Drive. Engaging and responsive, the ATS luxury sport sedan delivers an exhilarating driving experience that is nothing short of electrifying.

It stands to reason that building a world-class luxury sport sedan requires world-class components. That is why we worked with highly acclaimed companies like ZF to construct and fine-tune the premium speed-sensitive electric steering system. We teamed with world-renowned Brembo® to develop the available 4-piston fixed-caliper front brake system, which provides remarkable and repeatable stopping power. And we worked hand in hand with Tremec® to design an available precision 6-speed manual transmission tailored specifically for the ATS. Then we went a step further and made class-exclusive Magnetic Ride Control available, which adjusts the suspension almost instantaneously to changing surfaces, camber and conditions, up to 1,000 times a second. It’s credentials like these, along with the available performance seats and limited-slip rear differential, that define the ATS as not only a luxury car, but also a bona fide driver’s car.
High tech means high output. At a potent 272 HP, the new 2.0L Turbo engine available in the ATS handily trumps the output of comparable competitor engines. Extremely responsive yet refined and efficient, it even uses ingenious Bose® Active Noise Cancellation to help improve fuel economy by eliminating frequencies produced as the engine operates at slower speeds. And delivering the ultimate in control, a new ATS-specific high-performance Tremec® 6-speed manual transmission is a perfect option for the 2.0L Turbo. Integrating high performance into its advanced formula, the ATS also offers a muscular 3.6L direct-injection V6 producing 321 HP or a very efficient 2.5L direct-injection 4-cylinder engine with 202 HP.

2.0L TURBO ENGINE

Delivering a powerful 272 HP punch with a best-in-class 136 HP per liter, the available 2.0L Turbo with twin-scroll technology is deftly smooth and incredibly responsive, while remaining remarkably fuel efficient. What’s more, the engine produces 260 lb.-ft. of torque available over a wide RPM range.

1. RWD models with automatic transmission: 22 city/33 highway MPG for 2.5L engine; 19 city/28 highway MPG for 3.6L engine. Based on GM estimates. Official EPA estimates not yet available.

RESPONSE AND RESPONSIBILITY

HAVE NEVER BEEN CLOSER.
Expressive and athletic, the ATS seamlessly fuses form with function. Taut, chiseled sheet metal allows the ATS to slice through the air with little resistance, affording a quiet cabin and remarkable fuel efficiency. It has advanced aerodynamic innovations like active aero grille shutters that close automatically when additional engine cooling is not needed, and inconspicuous underbody aero shields that direct air smoothly around and under the vehicle for maximum fuel efficiency. Sculpted side mirrors are precisely formed and positioned to help reduce wind noise. And, in the rear, the LED center brake lamp doubles as a spoiler to ingeniously channel air off the decklid for added downforce and a planted feel at high speed. The acoustically laminated windshield and front side door glass, along with strategically placed sound-deadening materials and sealers, all work in concert to deflect noise before it enters the cabin. When it came to the details, we just couldn’t leave well-enough alone.
Whether it is a historic theater or modern gallery, fine art is brought to life through dramatic lighting. Brilliant illumination brings an unmistakable presence to the ATS. Available bright-white LED front signature lamps make the ATS more visible to other drivers with a distinctive razor-like design that flows from the top of the beautifully sculpted fender down to the lower valance. During the day, these bright-white LEDs also act as Daytime Running Lamps, providing a distinctive and contemporary light signature. The available HID headlamps feature Adaptive Forward Lighting, which reacts to the car’s speed and steering, swiveling the headlamps to cast light precisely into your path of travel. Exterior door handles are available with subtle LED accent strips, adding a welcoming touch on a dark night. Even the exterior mirrors help light your path with available puddle lamps and elegant turn signal indicators to notify other drivers of your intention. And, for those following, signature LED taillamps and a brilliant center brake lamp spark instant Cadillac recognition.
INTERIOR DETAILS

The drive to create the finest luxury sport sedan doesn’t stop at exceptional dynamics. The ATS reveals its refined side in the precise, handcrafted cut-and-sewn interior. Available leather seating surfaces come in an array of rich colors complete with French stitching and are finely accented by distinct interior themes featuring exotic woods, aluminum or carbon fiber trim. Every interior detail is driver-focused and brilliantly executed. Complementing the athletic nature of the ATS, bolstered performance seats with cushion-length adjustment are available, helping to keep you firmly planted during spirited driving. On select collections equipped with the 6-speed automatic transmission, you’ll find magnesium-tungsten alloy paddle shifters, one tap is all that is required for a crisp upshift or downshift. Dramatically modern and exceptionally refined, nothing has been overlooked inside the ATS cabin.

THE ACCELERATOR, AFTER ALL, ISN’T YOUR ONLY POINT OF CONTACT.

EXOTIC WOOD TRIM

From luxurious dramatic Dark Olive Ash (shown here) to the beautiful Maple and Cherry Stained wooden, exotic ATS interior is standbared through highly sought-after woods featuring three, rose petal in other colors.

AUTHENTIC CARBON FIBER TRIM

MAGNESIUM PADDLE SHIFTERS
Employing first-of-its-kind technology, the available CUE—Cadillac User Experience—brings the innovative brilliance of your tablet to your entire driving experience. CUE blends revolutionary features with highly intelligent design to create an experience that’s as effortless as it is advanced. Its stunning 8” LCD touch screen senses your hand as it approaches. Spread your fingers to zoom in closer on a map. Swipe to breeze through your music. Use the steering wheel controls, or simply speak, and let the Natural Voice Recognition help you effortlessly place a phone call. When an icon is touched, the screen pulses to acknowledge the command, letting you keep your attention focused on the road ahead. CUE also lets you preset up to 60 favorites, including points of interest, addresses and phone numbers, and easily accesses every contact and song on up to ten Bluetooth®-enabled smartphones. It even streams Pandora Radio® Plus, the available 3-D GPS navigation system® has SiriusXM Travel Link® weather maps. With CUE, the customization and content possibilities are not only endless, but also right at your fingertips.

1. Full functionality requires compatible Bluetooth® and smartphone. Some devices require USB connectivity.
2. For a list of available phones, visit gm.com/bluetooth to find out which Bluetooth phones are compatible with this vehicle.
3. Data plan rates apply.
5. Requires active SiriusXM subscription.

THE INTUITIVE CONTROL OF A SMARTPHONE IN YOUR CAR? JUST A TAP AWAY.
1. Before making a lane change, always check the SBZA display and the side and inside mirrors, look over your shoulder for vehicles and hazards, and activate your turn signal.

2. Adaptive Cruise Control is no substitute for the driver’s personal responsibility to operate the vehicle in a safe manner. The driver needs to remain attentive to traffic and road conditions and provide the steering, braking or other inputs necessary to retain control of the vehicle.

AWARENESS THAT EXTENDS FAR BEYOND ORDINARY PERCEPTION.

The all-new ATS connects you to some of the most advanced safety innovations available on a compact luxury sport sedan. Using strategically placed cameras, short-, mid- and long-range radar technology, and numerous other sensors, the ATS is ever-vigilant. The available Driver Awareness Package includes the Safety Alert Seat that pulses, giving you instant, tactile feedback to alert you of select dangers on the road; Forward Collision Alert; Lane Departure Warning; and RainSense windshield wipers. Going a step further, the available Driver Assist Package adds Front and Rear Automatic Braking, which works in concert with other advanced safety systems to apply the brakes and help avoid certain low-speed collisions; Side Blind Zone Alert; Rear Cross-Traffic Alert; a full-color Head-Up Display that projects customizable key driving, entertainment and safety features at eye level; and Adaptive Cruise Control that maintains your selected speed and a preset distance between you and the vehicle in front. This new high-tech approach to safety is yet another example of Cadillac leading you confidently down the road ahead.

ADVANCED SAFETY TECHNOLOGY

Offering the newest technologies in driver awareness and assistance, the ATS uses an advanced safety system comprised of five short-range radars, one mid/long-range radar, two cameras and eight ultrasonic sensors.

SAFETY ALERT SEAT

The available Safety Alert Seat intuitively sends pulses through the seat cushion, left or right, or simultaneously, alerting you to a variety of potential hazards.
SAFETY & SECURITY

1. Always use safety belts and the correct restraint for your child’s age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner’s Manual and child safety seat instructions for more safety information.

2. Visit onstar.com for coverage map, details and system limitations. Services vary by model and conditions. OnStar acts as a link to existing emergency service providers.

A HIGHLY INNOVATIVE APPROACH TO PERSONAL PROTECTION.

It starts with a protective safety cage constructed with ultra-high-strength steel alloys and other highly advanced materials for exceptional rigidity and strategically placed crumple zones. Then we add preventive safety features like the StabiliTrak Electronic Stability Control and full-function traction control systems. A sophisticated antilock braking system (ABS) with Auto-Dry functionality and Electronic Braking Force Distribution helps balance stopping power between the front and rear brakes. There’s also the confidence that comes with eight standard airbags1 and OnStar2 with Automatic Crash Response. In most crashes, built-in sensors in your vehicle can automatically send an alert to an OnStar advisor, who is immediately connected to your car to help. Among its many anti-theft innovations is an available tilt sensor that sets off an alarm when the system senses a change in the vehicle angle, such as would occur when the vehicle is lifted for wheel theft or unauthorized towing. And, to further deter theft, there’s a protected remote alarm with its own isolated tamper-resistant power supply.
THE PREMIUM COLLECTION:

WHERE CUTTING-EDGE TECHNOLOGY MEETS THE LEADING EDGE OF PERFORMANCE.

The ATS Premium Collection pushes the modern style, agility and advanced technology of the ATS to the highest level. Slide into the premium, leather-laden cabin and enjoy the intuitive brilliance of CUE1 with 3-D GPS navigation2, Doppler radar weather3, Pandora Radio4 and Bluetooth® with streaming audio connectivity5. Hit the back roads and encounter the exhilarating driving experience of the ATS, enhanced on the Premium Collection through the revolutionary Magnetic Ride Control2, limited-slip rear differential6 and high-performance summer tires7 wrapped over beautiful 18” wheels. To help keep your eyes on the road, there is a full-color reconfigurable Head-Up Display that projects customizable key driving, entertainment and safety information at eye level. Wherever your journey takes you, the Bose® Surround® sound system will provide entertainment with its rich, full-range sound. It is the ultimate blend of luxury, technology and sport, both inside and out.

MAGNETIC RIDE CONTROL

Pioneered by Cadillac and borrowed by Ferrari, the revolutionary Magnetic Ride Control is a class-exclusive feature available on the ATS. It reads and reacts to the road ten times faster than the blink of an eye to keep you firmly in control.
Perfectly suited to its athletic essence, the Performance Collection was developed to bond driver with machine. Bolstered performance front seats with cushion-length adjustment inside the driver-focused interior are not only exceptionally comfortable, but ensure a firm, planted feel during intense cornering. Aluminum pedals add a racing-inspired touch, and the steering wheel features magnesium paddle shifters that require only a quick tap for a smooth, crisp gear change on automatic transmission-equipped models. High-Intensity Discharge (HID) headlamps with Adaptive Forward Lighting swivel to cast light in your direction of travel, while signature LED lighting elements call attention to its prominent, chiseled design. Drive with added confidence of innovative safety technologies like Forward Collision Alert and the Safety Alert Seat that helps notify you of potential hazards. Top it all off with CUE and a Bose® Cabin Surround® sound system, and the ATS Performance Collection is both exhilarating and refined.
LUXURY COLLECTION

THE LUXURY COLLECTION:

WANTS THAT QUICKLY BECOME NEEDS.

CADILLAC USER EXPERIENCE

CUE is as intuitive as it is advanced. Spread your fingers to zoom in closer on a map. Swipe to breeze through your music. Simply speak and let the Natural Voice Recognition help you effortlessly place a phone call or change your music.

The ATS is a remarkable fusion of refined details wrapped in a responsive package, further enhanced by the Luxury Collection. Inside, you’re greeted by a distinctive atmosphere filled with upscale features like eight-way power adjustable front seats plus two-way power lumbar, a memory package, supple leather seating surfaces with French-stitched seams, and the cutting-edge technology of CUE. The bold front-end design of the ATS is highlighted with a unique Midnight Chrome-accented grille that complements its confident stance. Parking is a breeze with the convenience of the rear-vision camera, in addition to Front and Rear Park Assist, which uses integrated sensors to alert you of obstacles in proximity. Discover the flexibility of a split-folding rear seat, the luxury of Passive Entry with adaptive vehicle remote start, and the clarity of SiriusXM Satellite Radio and HD radio to add the finishing touches on an exceptionally sophisticated package.

1. Full functionality requires compatible Bluetooth® and smartphone. Some devices require the USB command unit. 2. Standard for three months. 3. If you subscribe after your trial period, subscriptions are continuous until you call SiriusXM to cancel. For complete terms visit www.siriusxm.com. Other fees and taxes will apply. All fees and programming subject to change. For more information about NavTraffic, visit siriusxm.com/navtraffic. For more information about Travel Link, visit siriusxm.com/travellink. XM satellite service is available only to those in the 48 contiguous USA and DC. Sirius, XM and all related marks and logos are trademarks of Sirius XM Radio Inc.
EXTERIOR COLOR OPTIONS

**PAINT FINISHES**

**TINTCOAT**
A premium 2-layer paint application with the addition of a tinted clearcoat, lending the finish an extra depth and brightness.

**TRICOAT**
A meticulous 3-layer process that results in a dramatic hue-shifting color.

**CHROMAFLAIR®**
An advanced, light interference paint technology with prismatic metallic pigments to create intense, deeply lustrous color.

**Paint Finishes**

- **Glacier Blue Metallic**
- **Black Raven**
- **Black Diamond Tricoat®**
- **Thunder Gray Chromaflair®**
- **Opa*ent Blue Metallic**
- **Summer Gold Metallic**
- **Crystal Red Tintcoat®**
- **Silver Coast Metallic**
- **White Diamond Tricoat®**
- **Rapid Sand Metallic**
- **Opulent Blue Metallic**
- **Radiant Silver Metallic**

*Available at extra cost.
INDIVIDUALIZED INTERIOR THEMES.

Personalize your ATS with these distinct interior environments, featuring a rich color palette accented with authentic trim materials, including Dark Olive Ash, Sapele and Okapi Stripe designer woods, aluminum or carbon fiber.
1. Summer-only tires tend to wear faster and are more susceptible to damage from road hazards or curb impact than standard profile tires. This type of damage is not covered by the GM New Vehicle Limited Warranty. You may want to get different tires if you expect to drive in winter conditions. See your dealer for proper tire selection.

Size: 17" × 8" front and rear.
We set out to create the ultimate customer experience that exceeds every luxury vehicle brand. The result is Cadillac Shield, and it backs every vehicle we sell. Cadillac Shield is the most comprehensive suite of owner benefits offered by any luxury automotive brand in the world. From innovations like Remote Vehicle Diagnostics and advanced mobile apps to our Premium Care Maintenance program, Cadillac Shield gives luxury owners everything they need.

1. Whichever comes first. See dealer for limited warranty details. 2. Whichever comes first. See dealer for select scheduled maintenance details. 3. Program is offered in Canada® and select European models. Features vary by model, country and region. Features on this page may not be available on all Cadillacs. 4. Visit onstar.com for coverage map, details and system limitations. Services vary by model and conditions. 5. Requires active OnStar subscription.

**SECURITY BY ONSTAR**

If you’ve reported your Cadillac stolen, OnStar® can use GPS technology to help authorities quickly locate and recover it. On most Cadillac models, an advisor can send a Theft Vehicle Standard® or Remote Ignition Block signal to help authorities safely recover it.

**RADIOPRO assurance**

With best-in-class diagnostics from OnStar®, maintaining your Cadillac can be as simple as checking your email or your OnStar RemoteLink™ mobile app. Every month, you can receive an e-mail with the status of key operating systems, or push your OnStar button for a real-time diagnostic check on demand.

**NAVIGATION BY ONSTAR**

The standard one-year Directions and Connections® Plan allows you to push one button to connect with a live advisor to find the things and places you want. Get directions or a diagnostics check while you drive. Make calls safely with both hands on the wheel and control your vehicle with the RemoteLink® mobile app. And as always, get help immediately in a crash or an emergency. These are just a few examples of the level of personal service we think you deserve as a Cadillac owner.

**MY CADILLAC APP**

The versatility of the ATS doesn’t stop with the vehicle. As a Cadillac owner, an advanced complimentary app is available for your new car: from virtually anywhere at anytime, a few taps of your finger on your iPhone or Android smartphone let you access key features like parking reminders, Roadside Assistance, and more. Plus, in conjunction with the OnStar RemoteLink® app, you’ll have the ability to remotely start your vehicle (when factory-equipped) from any place you have cell service, and lock and unlock your doors. In addition, you can access key diagnostic information, including fuel tank level information, and remaining oil life.
ABOUT THIS CATALOG
We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other information in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximations based upon drawings. We are developing and manufacturing new products. Your vehicle may differ after delivery in finish and operating materials. Since some information may have been updated since the time of printing (07/12), please check with your Cadillac dealer for complete details. Any variations in color shown are due to reproduction variation in the printing process. Cadillac reserves the right to change or change the colors, style, model, or any product for any reason, or short and extend years of different sizes. Some photographs are used among vehicles with different information.

ENGINES
Cadillac products are equipped with engines produced by GM Powertrain or suppliers to GM worldwide. The engines in Cadillac products may also be used in other GM makes or models.

TIRE SEALANT AND COMPRESSOR KIT
After using the inflator kit, it is recommended to take the tire to a tire service center for inspection and repair as soon as possible but at least within 100 miles of driving. The tire cannot be repaired and must be replaced whenever, even without loss of air, (2) holes, (2) punctures larger than 1/4 inch, or a tire that has unseated from the wheel. The exhaust can only be used once on a tire once before its expiration date.

ONSTAR
OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Call 1-888-4ONSTAR (466-7827) or visit onstar.com for OnStar’s Terms and Conditions, Privacy Policy and details and system limitations.

UPDATED SERVICE INFORMATION
Cadillac dealers receive useful service bulletins about Cadillac products. You may purchase them from Helm Incorporated by calling 1-800-551-4123 or by visiting www.helminc.com.

NEW-VEHICLE LIMITED WARRANTY
World-class coverage comes standard on every 2013 Cadillac. This warranty is for Cadillac vehicles registered in the U.S.A. See your Cadillac dealer for terms and conditions.

COVERED FOR 6 YEARS/70,000 MILES (WHICHEVER COMES FIRST)
Powertrain Limited Warranty with no deductible, Roadside Assistance Program, 1 Courtesy Transportation Program.

COVERED FOR 4 YEARS/50,000 MILES (WHICHEVER COMES FIRST)
Bumper-to-Bumper coverage; Tires – Defects in material and workmanship; Repairs made to correct any vehicle defect; Corrosion on body sheet metal panels.

RUST THROUGH PROTECTION
Cadillac vehicles are designed and built to resist corrosion and rust through warranty. The body structure (excluding the powertrain) of any body panel that rusts through is covered for six years unlimited mileage. Rust-through corrosion is not included in the RUST THROUGH PROTECTION. Application of additional rust inhibiting materials is not required under the RUST THROUGH PROTECTION.

COVERED FOR 4 YEARS/50,000 MILES (WHICHEVER COMES FIRST)
Aerospace Ceramic Coating, Titanium/Ceramic Coating, Ceramic/Carbon Coating, Ceramic, Finishes and other coatings, Repairs, Alloys, Castings, Engine Block, Cylinder Heads, Cylinder Liners, Powertrains, and other products.

FLEET ORDERS
Some standard content may be deleted with fleet orders. See dealer for details.
