Some feelings in life are unequaled. They are the ones that make you feel alive. Those potent emotions stem from something unique. They possess layered qualities that are distinctive and discerning. Felt both inside and out. Engineered and designed for the bold. The passionate. The stylish. The ones who feel with a touch more attitude and a fistful of finesse. If you want to feel the pure fun of driving and stand out doing it, then this one is for you.

The 2019 ATS Coupe
SPORTY LOOKS
GREAT ON YOU

The 2019 Cadillac ATS Coupe is sporty with distinctive style. Accompanied by assertive horsepower, responsive handling and advanced technology, it’s an exhilarating drive wrapped in a sophisticated design.

Rooted in performance, the ATS Coupe family was not only a world-class racing circuit winner, it was an absolute predator. You’ll find this power echoed in the throttle. As soon as you press the pedal, a harmonic tone advances rapidly from the engine, signaling your departure. The exterior design is also reminiscent of racing; each wheel is pushed and positioned to the corners. Its wide yet athletic stance is planted with a stiff chassis and lightweight, balanced design. You might say the ATS put the “S” in Sport.
A more dynamic aerodynamic. The active aer grille shutters, underbody aer shield and integrated LED center brake lamp that doubles as a spoiler help the ATS Coupe elude the air for enhanced efficiency and control.

1000 times a second. Available Magnetic Ride Control reads the road up to 1000 times a second and automatically adjusts the suspension to the changing road surface. So you can handle a highly responsive vehicle, regardless of road conditions.
We have liftoff. The track-capable ATS-V harnesses a 3.6L 464-hp Twin Turbo V6 engine and unleashes 445 lb-ft of torque, letting you travel from 0 to 60 mph in a lightning-fast 3.8 seconds.

Lighting the way forward. Available High-Intensity Discharge (HID) headlamps feature available Adaptive Forward Lighting that swivels as the vehicle turns, helping illuminate curves so you can see what lies ahead. And signature Light Blade LED taillamps showcase a dramatically sculpted rear profile to help you stand out on the road.
Driving to look forward to. And to be remembered. As soon as you press down on the pedal, you’ll feel one of two powerful engine choices that are matched by impressive handling. The first engine is the standard 2.0L Turbo, a powerful 4-cylinder Turbo engine that lets you push performance. The second incredibly responsive power plant is an available 3.6L V6 engine that delivers 335 hp and boasts force.

Available Magnesium Paddle Shifters allow you to move effortlessly through the transmission’s eight gears without a manual clutch, giving you control without taking your hands off the wheel. A five-link independent rear suspension helps the vehicle stay firmly planted on the road, delivering increased control to the driver.

Starting power is matched with Brembo® front-brake stopping power. Carved from lightweight aluminum alloy, these brakes offer a host of advantages, including great stopping power and wear resistance.
EXTERIOR STYLING

Style. Like yours. The Coupe’s powerfully sculpted front and rear vertical lighting radiates performance, while the exterior profile is designed to slice through the air. The aerodynamic and sleek ATS Coupe side mirrors feature an integrated turn signal so they are both functional and stylish.

Along the side profile, you’ll also find a wide-track statement, as each wheel is pushed to the very farthest distance of the four corners. When you approach the ATS and unlock the doors, available Illuminating Door Handles are a distinctive style cue that invite you forward into the dark.

The 18” forged aluminum wheels deliver striking looks, as well as excellent strength and ride comfort. Accentuating and defining the rear stance, while begging to growl, are two polished and sculpted exhaust tips.

Lower-profile tires wear faster. Wheel and tire damage may occur on rough or damaged roads or from surfaces, curbs, debris or obstacles. This damage is not covered by the GM New-Vehicle Limited Warranty. For more important tire and wheel information, go to my.cadillac.com/learnabout/tires, or see your dealer.
Tech that makes your experience everything you want.

Simply connect your iPhone® with Apple CarPlay™ and access your contacts, Apple Music™ and other information from your iPhone® with a touch of the screen. You can also ask Siri,® so features are easily accessible to you or your front-seat passenger.

In the driver’s seat, you can project the information that matters most to you with the available Head-Up Display (HUD). Speed, audio, navigation and other information are projected onto the windshield, so you can keep your hands on the wheel and your eyes on the road.

The Cadillac user experience 4 puts a suite of information and entertainment offerings, including climate, audio, setting controls and available 3D GPS Navigation 5 at your command. Plus, it offers connected Apps 6 where you can select and install a range of apps from music to audiobooks to weather. (Data plan rates apply.)

Even your key fob is intelligent. Adaptive Remote Start uses the key fob to start your engine from up to 100 yards away and will automatically adjust the vehicle’s interior temperature depending on the outside temperature, even warming your available heated steering wheel when needed. Plus, with your myCadillac mobile app 2 and a paid subscription, you can lock, unlock and remote-start your vehicle and get select vehicle information from anywhere you have cellular reception.

---

1. Service varies with conditions and location. Requires active service and paid AT&T® data plan. Not available where prohibited by law. View the limitations and restrictions at onstar.com.

2. Available on select Apple® and Android™ devices. Service availability, features and functionality are subject to limitations and vary by vehicle, device and the plan you are enrolled in. Device data connection required. Visit onstar.com for more details.

3. Vehicle user interface is a product of Apple® and its terms and privacy statements apply. Requires compatible iPhone® and data plan rates apply. Apple CarPlay is a trademark of Apple, Inc. Siri, iPhone and iTunes are trademarks of Apple, Inc., registered in the U.S. and other countries. The CarPlay logo is a trademark of Apple, Inc.

4. Cadillac user experience functionality varies by model. Full functionality requires compatible Bluetooth® and smartphone. Some devices require USB connectivity.

6. Content not provided by General Motors or its affiliates. Not all services are available with all OnStar-equipped GM vehicles. Some apps require internet access or a compatible mobile device.
The ATS interior is stunning and streamlined. Surround yourself with a story of modern elegance and craftsmanship available in exotic woods, carbon fiber and supple Semi-Aniline leather.

When it comes to its sophisticated interior, you have many options. Select from a hand-finished instrument panel, door trim, armrest and seats, as well as a hand-sewn steering wheel.

Available performance front seats are crafted from premium materials and offer up to 18-way adjustments for extra support so you can drive in comfort. Available sport alloy pedals place the finishing touch.
Available Adaptive Cruise Control–Advanced employs both radar and camera sensors to maintain a set selected following gap between you and the detected vehicle ahead.

TRUELY FORWARD THINKING
Available Forward Collision Alert monitors traffic ahead, alerting you if a potential collision is imminent, while the available Following Distance Indicator shows the following time to the detected vehicle ahead (in seconds) in the Driver Information Center (DIC).

AN INTELLIGENT WIPER
Available Rainsense Wipers automatically engage when rain is detected, adjusting their speed to the rain's intensity. Whenever the wipers are activated, Auto-Dry brakes automatically position the brake pads closer to the rotors to sweep away moisture and improve performance.

STRONG ENOUGH TO CRUMPLE
The ultra-high-strength steel safety cage features strategically placed crumple zones that help absorb and manage crash energy. The safety cage is also equipped with eight standard airbags, including knee airbags for the driver and front passenger.

FIRMLY REASSURING
During emergency braking or sudden maneuvers, available Automatic Seat Belt Tightening activates. When conditions revert to normal, the seat belts ease automatically.

TRAVEL THE STRAIGHT AND SMART
Using a camera sensor to monitor lane boundaries, available Lane Keep Assist can gently turn the steering wheel if the system anticipates the vehicle is leaving the lane unintentionally or without using your turn signal. Working in conjunction with the available Safety Alert Seat, available Lane Departure Warning shows a visual alert in the cluster and sends a warning pulse through the seat cushion when your vehicle crosses the detected lane marking.

AN ATTENTION-GRABBER
Available Lane Change Alert surveys the area well beyond the side blind zone and illuminates the side-mirror warning icon to alert you if a vehicle is rapidly approaching. Available Side Blind Zone Alert monitors your blind zones, so if a moving vehicle is in the adjacent lane, it also illuminates the side-mirror icon. In both features, if you’ve activated your turn signal, the icon on the side mirror flashes to alert you.

GRABS YOUR ATTENTION. SUBTLY.
Cadillac’s available patented Safety Alert Seat sends a discreet pulse to the left, right or both sides of the driver’s seat, indicating the direction of the threat—left, right, front or rear.

BE ALERTED EVEN IN REVERSE
When backing out of a parking space, available Rear Cross Traffic Alert can warn you of oncoming traffic to either side of your vehicle and provides an audible warning; or a pulse to the Safety Alert Seat.

GAIN PRECIOUS TIME
Up to certain speeds, available Forward and Reverse Automatic Braking can sense imminent forward and reverse collisions and automatically engage the brakes, if you have not already done so, helping to reduce the severity of the collision. The system may even help avoid a collision at very low speeds.

Safety or driver-assistance features are no substitute for the driver’s responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Visibility, weather and road conditions may affect feature performance. Read the vehicle Owner’s Manual for important feature limitations and information.

A NOTE ON CHILD SAFETY: Always use seat belts and the correct child restraint for your child’s age and size. Even with airbags, children are safer when properly restrained in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal airbag. See your vehicle Owner’s Manual and child safety seat instructions for more safety information.

Select safety features shown.
The ATS-V is the lightest, most nimble V-Series. It’s...
The ATS-V 6-speed manual transmission is standard and equipped with an incredibly satisfying short-throw shifter and dual-disc clutch. Combined with features such as No-Lift Shift, Launch Control and Active Rev Matching, it is perfect for harnessing the V-Series’ power. There’s also an available 8-speed automatic transmission that features Performance Algorithm Shifting. Automatically activated by intense g-forces, this technology seamlessly selects the best gear for quicker shifts and faster lap times. For even more control, Magnesium Paddle Shifters let you tap through the gears for blazing acceleration and deceleration. Front and rear Brembo brakes are standard V-Series equipment. Front mono-block brake calipers are carved from a single block of lightweight aluminum alloy for a firm pedal feel and unmatched confidence. Front disc brakes feature a two-piece rotor design for exceptional heat resistance, performance and durability. In addition, a Ferritic Nitro-Carburizing process greatly reduces corrosion on the rotors, helping maintain stopping power and prolonging brake life.

The V-Series’ stunning stance also plays a crucial role in performance. Its aerodynamically designed front splitter and front hood vent steer air around and over the vehicle to reduce lift. The iconic mesh grille is engineered for maximum airflow to the engine. A dramatic rear spoiler creates downward force to help keep the V-Series’ tires planted firmly on the roadway.
INNOVATIVE PERFORMANCE

V-tuned tech. The V-Series is equipped with a carbon-fiber hood. The Carbon Fiber Package employs this lightweight yet incredibly strong material in the symmetrical design of a front splitter, hood vent and rear diffuser.

Manufactured in a high-security factory, V-Series Michelin® Pilot® Super Sport summer-only tires feature a unique tri-compound design. The outer shoulder is particularly resistant to the wear associated with aggressive cornering. The tread’s center ribs are optimized for steering and handling, and the inner shoulder is designed to slip through water, providing grip on the road. These tires also feature R-compound—the “R” stands for racing. Rarely seen on street-vehicle tires, this technology delivers an exhilarating amount of grip.

During aggressive cornering—or on curvaceous on/off ramps—the electronic Limited-Slip Differential (eLSD) automatically directs power to the rear wheel with the most traction for great control and fast exit speeds. With No-Lift Shift, you do not have to let off the gas when switching gears. This keeps the turbochargers spooling, so there’s a faster return to full power when you re-engage a gear. For a boost of adrenaline, there’s Launch Control. It monitors ambient conditions and engine parameters, then adjusts the engine and transmission control accordingly to work together for maximum, full-throttle acceleration off the line, resulting in more consistent 0-60 times.

1. Do not use summer-only tires in winter conditions, as tire performance affects vehicle safety. Consult your owner’s manual for recommended tire usage. Winter and all-season tires are recommended for snow conditions. See your dealer for details.

2. The design, content, modifications, equipment, appearance and specifications of the vehicle described are subject to change, and may differ from the vehicle(s) sold in your market.

For important tire and wheel information, go to my.cadillac.com/learnabout/tires, or see your dealer.
When you begin to take your ATS-V to the track, you’ll have advanced technology to help you review your run and become a better driver. The available Performance Data Recorder captures your track driving—recording video, audio and performance data in real time that can be viewed on the Cadillac user experience screen or saved on an SD card to watch later. The system’s four overlays—Sport, Track, Performance or Tour—help analyze your skills.

The ATS-V also offers competition-spec traction and stability controls. Performance Traction Management (PTM) integrates traction and engine control systems for improved and consistent cornering. Enter Track Mode and choose from five driver-selectable levels of control: Wet, Dry, Sport 1, Sport 2 or Race.
Perfect execution is the only acceptable standard. At first thought, you might not consider a track-capable performer to also have the finest amenities. But that’s what separates the ATS-V from the pack. You’ll find craftsmanship, comfort and an array of technologies applied with precise and exquisite vision every time you step inside.

The tailored interior of the ATS-V is refinement pushed tastefully further. Leather appointments and trim options offer timeless style, along with subtle racing aesthetics. For instance, V carbon-fiber veneers are engineered for beauty and designed with a mirror-matched pattern to accentuate an advanced cockpit.

When it comes to seating, the ATS-V takes a confident place on the podium. Supple, strong and striking, the Semi-Aniline leather seating surfaces and steering wheel available in the V-Series are created using a process that retains the natural beauty of the materials, while enhancing their strength and softness.

Synonymous with racing, available RECARO® front seats feature a handcrafted shape that cradles your body during cornering. Along with slip-resistant sueded microfiber panels and adjustable bolsters, the seat design helps take the work out of staying in place during aggressive maneuvers. Their function is matched by extraordinary comfort.

Available 18-way Sport Seats are leather-trimmed with sueded microfiber inserts.

Facing page, left: Carbon-fiber trim. Right: Magnesium Paddle Shifters. This page: Available RECARO seats in Jet Black with Saffron accents.

2019 ATS-V STANDARD FEATURES

DRIVETRAIN

Engine: 3.6L V6 Twin Turbo Direct Injection (DI) with 464 hp and 445 lb-ft of torque
Transmission: 8-speed automatic with Performance Algorithm Shifting and remote start
Brake Booster: Electronic Limited-Slip (eLSD)
Exhaust: 3.6L V6 Twin Turbo Direct Injection (DI) with performance exhaust system

3.6L V6 Twin Turbo Direct Injection (DI)
464 hp and 445 lb-ft of torque
8-speed automatic with Performance Algorithm Shifting and remote start
Electronic Limited-Slip (eLSD)

EXTERIOR

Headlamp: Projector-beam halogen composite headlamps with Twilight Sentinel
Turn Signal: Includes Daytime Running Lamps
Windshield: Frameless automatic-dimming rearview power, with express-up/-down
Doors: 80/20 split-folding rear seats
Rear Outboards: 4-way adjustable front and 2-way adjustable rear
Side Glass: With gloss-black and body-color signal indicators
Front Doors: 4.7” diagonal full-color touchscreen

Audio System: 8” diagonal full-color touchscreen with Natural Voice Recognition
Steering Wheel: Sueded microfiber rim and shift knob

SAFETY AND SECURITY

A Note on Child Safety: Always use seat belts and the correct child restraint for your child’s age and size, even with the LATCH System.

AVAILABLE FEATURES

Cold Box experience with Navigation™: 13-month trial of navigation services
Rainsense Wipers: Variable intensity wipers
Rear Cross Traffic Alert: Detects vehicles behind your vehicle when you are backing up
Forward Collision Alert: Alerts you to a potential collision with a vehicle in your path that is moving in the opposite direction
IntelliBeam headlamps: Automatic high beams that turn off when you turn on your low beams

Safety and Security Features: Vehicle inclination tilt sensor, additional shielded Theft-Deterrent Alarm System, OnStar plan, working electrical system, cell service, and GPS signal required. OnStar links to emergency services. Roadside services provided by OnStar. Additional messaging and data rates may apply. Intended to assist with vehicle recovery and does not prevent theft or protect against damage or loss. See onstar.com for details and limitations.

Allstate Roadside Services. Stolen Vehicle Assistance requires armed GM factory-installed theft-deterrent system, contact method on file and enrollment to receive alerts. Additional messaging and data rates may apply. Intended to assist with vehicle recovery and does not prevent theft or protect against damage or loss. See onstar.com for details and limitations.

OWNERSHIP BENEFITS
Our owners deserve it all. That's why 2019 vehicles are backed by a comprehensive suite of owner benefits. To learn more, visit cadillac.com/ownership/benefits.

A NOTE ON CHILD SAFETY
Always use a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal airbag. Even in vehicles without an active frontal airbag, use a rear-facing infant restraint in the next seat if any vehicle is equipped with an active frontal airbag, and observe all other seat belt and child seat instructions. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal airbag. See Owner’s Manual for important safety information.

TRAILERING AND OFF-ROAD DRIVING INFORMATION
When getting an off-road equipment package for your vehicle’s off-road capabilities, always have an experienced driver with you. Even with a vehicle equipped with the Passenger Sensing System, children are not safe; always properly restrain all passengers in your vehicle. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal airbag. See Owner’s Manual for important safety information.

NEW VEHICLE LIMITED WARRANTY
6-YEAR/70,000-MILE TRANSFERABLE PEARSON LIMITED WARRANTY (1) If your 2019 Cadillac equipped with an 8- or 9-speed automatic transmission does not receive Powertrain Warranty coverage under the 4-Year/50,000-Mile Roadside Assistance and OnStar Guardian Service Warranty, please refer to your Cadillac dealer for vehicle service information.

6-YEAR/70,000-MILE BUMPER-TO-BUMPER LIMITED WARRANTY (1) Cadillac will warrant each new vehicle from the date of Original Retail Delivery, for 6 years or 70,000 miles, whichever comes first, for the complete powertrain and for any reason that requires replacement or repair of parts or labor due to defects in materials and workmanship. For more information about specific Cadillac services, visit Cadillac.com/OnStar.

HYBRID WARRANTY
In addition to the Bumper-to-Bumper coverage, General Motors’ 24/7 Roadside Assistance and OnStar Guardian Service Warranty (whichever comes first) is available to the original owner for the Hybrid Battery System. See your Cadillac dealer for vehicle service information.

INFORMATION ABOUT TRAILERING OR OFF-ROAD DRIVING
Please go to cadillac.com and carefully review the vehicle Owner’s Manual for important safety information about trailering or off-road driving in your vehicle.

IMPORTANT NOTES ABOUT THIS CATALOG
Vehicle information is based on testing procedures and results. However, due to mechanical variations, vehicle configurations, and options, we cannot guarantee specific results. Some information in this catalog and other printed materials provided at the dealership or affixed to vehicles may have been updated since the time of printing. Please check with your Cadillac dealer for complete details. Cadillac reserves the right to lengthen or shorten the model year for any product. We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice in prices, colors, materials, equipment, specifications, features and availability of models, models, measurements, ratings, change part numbers, change or modify prices for the same or similar vehicles, or change corporate policies, or to discontinue the production of any model, regardless of availability. If changes, they are acceptable to you.

Certified products are evaluated with ratings provided by IIHS PowerPro or other suppliers to the manufacturer. The engine in Cadillac products may be used in other GM makes and models.

1. Lower-profile tires wear faster. Wheel and tire damage may occur on rough or damaged roads or from surfaces, curbs, debris or obstacles. This damage is not covered by the GM New-Vehicle Limited Warranty. For more important tire and wheel information, go to my.cadillac.com/learnabout/tires, or see your dealer.

2. Do not use summer-only tires in winter conditions, as it would adversely affect vehicle safety, performance and durability. Use only GM-approved tire and wheel combinations. Unapproved combinations may change the vehicle’s performance characteristics. For important tire and wheel information, go to my.cadillac.com/learnabout/tires, or see your dealer.

**ATS**
