THE PRESTIGE SEDAN HAS BEEN REINVENTED
Innovatively engineered and impecably crafted.

The CT6 is a new era of automotive design. Combining groundbreaking architecture, dynamic power, superior comfort and connectivity, it delivers a driving experience that’s in a class of its own.
PART I

THE FEELING

ONLY THOSE WHO DARE
DRIVE THE WORLD FORWARD
HEIGHTEN EACH SENSE
FIND FREEDOM IN THE UNEXPLORED
REDEFINE WHAT IT MEANS TO MOVE.
INTRODUCING THE FIRST-EVER CADILLAC CT6.
PART II
THE FEATURES
Beauty and substance. The CT6 boasts a strong, yet lightweight vehicle architecture. Equally as impressive, this advanced frame is wrapped in a bold design featuring a low stance, strong lines, signature vertical light systems and integrated rear spoiler. When combined, these elements create a breathtaking presence.

Impossible to ignore. Aluminum has been draped, glass has been molded, chrome accents have been shaped to hold the eye as firmly as the CT6 holds the road. In both instances, the end result is the same: a pleasure for the senses.
EXTERIOR

CONCIERGE LIGHTING
A well-lit welcome. As part of the available Luxury package, when you approach the CT6 after dark, a signal from the passive entry key fob activates lights in the head and taillamps, outside mirrors and door handle accents. The effect is a soft glow that improves visibility and security around the vehicle.

BODY DESIGN
Beautifully balanced. Its sculpted body achieves more than simply a striking look. By pushing wheel wells aggressively to the four corners of the vehicle, Cadillac engineers have created more interior space, as well as supremely balanced structure for greater control and driving pleasure.

INDIRECT FIRE LED LIGHTS
Illuminate the road ahead. The CT6 is a breathtaking evolution of Cadillac’s signature design aesthetic. The striking vertical light systems frame the hood beautifully, complementing the long, low stance. It utilizes a highly advanced light system, including Indirect Fire LED-powered multi-functional headlamps. In addition to providing superior illumination, this streamlined technology is critical to the sedan’s refined silhouette.

22
Effortless performance, exceptional agility. Built on entirely new, lightweight vehicle architecture, its advanced chassis marries a highly responsive powertrain and agile suspension. The CT6 is the science of engineering pushed to the highest levels.

ALL-NEW 3.0L V6 TWIN TURBO ENGINE WITH AWD. AVAILABLE 2.0L TURBO I-4 RWD ENGINE AND 3.6L V6 AWD ENGINE.

Power, at your command. The Twin Turbo engine delivers 404 hp and 400 lb-ft of torque for instant acceleration and response. It features an industry-first cylinder deactivation for outstanding efficiency. All three engines are as smart as they are powerful, boasting Auto Stop/Start technology and blissful performance.
PERFORMANCE

ALL-NEW PLATFORM WITH FUSION FRAME AND JOINING TECHNOLOGY
Innovation from the ground up. An entirely new, lightweight vehicle architecture is at the core of agile, handling performance. Its innovative fusion technologies combine 13 high-pressure aluminum castings and high-strength steel into a single, remarkably rigid frame for impressive acoustics and precise handling.

ACTIVE CHASSIS SYSTEM
Tame the road. The CT6 available Active Chassis System monitors each wheel independently, adjusting vertical suspension damping every millisecond to maintain a smooth ride. This system, along with responsive and efficient All-Wheel Drive, seamless 4-wheel steering and 3 driving modes delivers unmatched maneuverability and performance.

AVAILABLE ALL-WHEEL DRIVE
Expert handling. Available All-Wheel Drive delivers both a superior and efficient driving experience. A new two-gear, streamlined design eliminates intrusion into the passenger area while enhancing launch performance and cornering, especially in wet weather.
INTERIOR

Meticulous in detail. Unrivaled as a whole. Reward your senses whether you drive, or are driven. Understated, yet opulent, the interior design is a testament to the seductive power of craftsmanship and details. The CT6 is that rarest of things. A prestige sedan whose prestige comes from within.

BEST-IN-CLASS INTERIOR QUIET

Silently superior. A variety of innovations work together to refine the CT6 cabin. Chief among them is a revolutionary body structure—a single vehicle frame fused from the advanced melding of high-strength steel and aluminum.
An elevated environment. The CT6 cabin is crafted with the highest quality materials. Each of the seven cut-and-sewn available interior combinations have been carefully curated. Custom stained woods are matched with details like Galvano chrome accents for a rich, yet understated feel. From the moment you get in you know—and feel—that the CT6 is in a class by itself.

EXTENDED COMFORT SEATS
Consummate craft. The refined specialty seats are crafted from premium dual density foam. Unique seat contours support passengers, while generous rear leg room gives everyone ample space to relax for hours.

BOSE® PANARAY® SOUND SYSTEM
Stunning listening in every seat. The CT6 was designed with the available Bose Panaray sound system in mind, making the most of innovative technologies and 34 strategically positioned speakers. A first for not only Cadillac, but the industry, this inspired design delivers a listening experience as exceptional as the vehicle itself.
ARTICULATING REAR SEATS
First-class rear seats. Even in prestige sedans, it’s rare for so much attention to be lavished on rear seats and their occupants. Standard with Platinum, the result is unmatched adjustable seat travel, tilting cushions, massage, heating and cooling functions and robust armrest media controls.

PLATINUM

Comfort and style considered, then considered again. The Platinum Edition CT6 represents a certain obsession with passenger comfort. From controls that allow for the individual adjustment of seat angle to temperature and lumbar supports to massage features and heating or cooling elements, every seat is, indeed, the best.
**EXTENDED COMFORT SEATS**
The idea of a most prestigious seat. Captured. 20-way adjustable front seats, reclining rear seats, cooling and heating elements, plus fifteen unique massage settings are just some of the ways the Platinum Collection gives every passenger complete control of their seating. In addition, armrests equipped with USB® and HDMI ports that control screens in the front seatbacks let you watch your favorite content easily.

---

**QUADZONE CLIMATE SYSTEM WITH IONIZING AIR PURIFICATION**
Tailored temperature. The available Quadzone Climate System allows passengers to personalize their temperature and airflow by dividing the interior into four sections and using a secondary rear climate system. An available air ionization system keeps exterior dust and odors from entering the cabin.
TECHNOLOGY

Control, confidence, contentment. The CT6 boasts a variety of advanced technologies designed to protect and entertain. All are seamlessly integrated for safe and easy use. For example, Wireless Charging powers your compatible phone, while a robust Rear Seat Entertainment (RSE) system engages your passengers.

CADILLAC CUE® AND PHONE INTEGRATION

Real-time information at your fingertips. Cadillac CUE® provides a suite of information and entertainment offerings such as climate, audio and settings control, plus available 3-D GPS navigation.¹

Available Phone Integration compatibility with Apple CarPlay® (shown right) allows you to access your contacts, Apple Music® and other information from your iPhone® with a touch of the screen. You can also access Siri® so features are easily accessible to you or your front-seat passenger.

Android™ Auto will also be available soon.

¹ The system wirelessly charges one PMA- or Qi-compatible mobile device. To check for phone or other device compatibility, see my.cadillac.com.
² Cadillac CUE® functionality varies by model. Full functionality requires compatible Bluetooth® and smartphone. Some devices require USB connectivity. ³ Map coverage available in the United States, U.S. Virgin Islands, Puerto Rico and Canada. ⁴ Vehicle user interfaces are products of Apple and Google and their terms and privacy statements apply. Requires compatible smartphone and a data plan (rates apply).
TECHNOLOGY

WIRELESS SMARTPHONE CHARGING
Cut the cord. With conveniently located Wireless Charging® and phone charging case, you can power-up your compatible phone anytime the vehicle is running.

REAR SEAT INFOTAINMENT SYSTEM
Everyone entertained. The available Rear Seat Infotainment system features articulating 10” diagonal HD with Blu-ray™ playback and connectivity for brought-in devices. The screen tilts for easy viewing and will remember that position until set to a new one.

TOUCHPAD
Another means of control. In addition to a super-responsive touchscreen, the many entertainment, communications and connectivity features of the Cadillac CUE® system can also be accessed through a laptop-like touchpad, seamlessly integrated into the center console.

REAR CAMERA MIRROR
An enhanced view of the world. With just a touch, the driver can stream the view from a rear-mounted camera to the rearview mirror. This less-obstructed view offers significantly more vision than an ordinary mirror. And a simple touch instantly reverts it back to a traditional mirror.

1. Cadillac CUE functionality varies by model. Full functionality requires compatible Bluetooth® and smartphone. Some devices require USB connectivity.
2. The system wirelessly charges one PMA- or Qi-compatible mobile device. To check for phone or other device compatibility, see my.cadillac.com.
SAFETY

As safe as it is beautiful. The CT6 offers an array of radar, camera and ultrasonic sensors designed to detect potential hazards. These available features help you avoid collisions and other unsafe situations, so you can enjoy the pleasure of driving with more confidence.

ENHANCED NIGHT VISION

Fewer surprises in the dark. The CT6 comes with an available Night Vision system that uses thermal technology to show people and large animals ahead. This can enhance night driving safety by making you aware of potential hazards.
SAFETY

AVAILABLE SAFETY FEATURES

Safety features are no substitute for the driver’s responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the vehicle’s Owner’s Manual for more important safety information.

SAFETY

FRONT PEDESTRIAN BRAKING

An extra set of eyes. Front Pedestrian Braking is a new technology, available as part of the Driver Awareness and Convenience Package. The system uses a camera to scan the road ahead. If a pedestrian is detected, a series of indicators and alerts activates and, if necessary, the vehicle can auto-brake to help avoid collisions.

ADAPTIVE CRUISE CONTROL

Keep your distance. Adaptive Cruise Control employs CT6 front radar technology to maintain a selected distance from the vehicle ahead.

FORWARD COLLISION ALERT

Always looking. Forward Collision Alert employs front camera and radar technology to detect and alert the driver to impending danger.

SURROUND VISION

See, without having to look. When in Reverse or on demand in Drive, available Surround Vision provides a bird’s-eye view of the vehicle and the areas immediately around it. This view, projected on the Cadillac CUE screen, helps reduce blind spots, increase awareness and assists when manoeuvring in and out of tight spots.

LANE KEEP ASSIST WITH LANE DEPARTURE WARNING

A safe direction. Lane Keep Assist gently turns the steering wheel if you approach a detected lane marking without using a turn signal. With Lane Departure Warning, you’re alerted if you drift into another lane without using your turn signal.
SAFETY AND SECURITY
Air Bags: Driver and front-passenger forward; front- seat thorax and pelvic, rear thorax for outboard seating positions, side curtain and driver and front passenger knee airbags. Passenger Sensing System - One child seat is detected within wheel envelope. t//11/20.13
Electronic Stability Control System: Standard/Full Frontal and Side-Impact Airbags, Curtain Airbags (for driver and front passenger) for side impact protection. Air Bag Deployment: Side impact sensors are set to deploy to the side and inside rear mirrors, look over your shoulder for vehicles and hazards, and activate the turn signal.
OnStar®: Emergency assistance, roadside assistance and vehicle diagnostics. The plan includes access to emergency services, local towing and other services. Visit onstar.com for coverage map, details and system limitations.
Rear Vision Camera: Includes Rear Park Assist Braking and Automatic Rear BRAKING. The rear vision camera is not intended to replace the side and inside rear mirrors, look over your shoulder for vehicles and hazards, and activate the turn signal.

INTERIOR
Exterior Color Change: Cadillac User Experience® (and information and media control system) - Includes Navigation. Fully integrated navigation system with high-resolution display and smartphone integration capability with Apple CarPlay™ and Android Auto™. Multimedia Display: Includes 8-inch color touchscreen display (includes UltraView® Sunroof). Engine Start/Stop: The system stops the engine when the vehicle is brought to a complete stop (includes UltraView® Sunroof). Lighting: Ambient Interior Lighting on instrument panel and door. Mirrors: Outside heated/reversible with integrated haul assist. 3-way power lumbar and 4-way manual adjustable headrests. Lighting: Airbag Lighting for front doors, glove compartments, overhead compartments, front and rear doors handles, front and rear passenger footwell. Foot pads on rear seat handles and cargo area. Magnetic Pixel™ Shift-Descartes: On steering wheel (only available on 3.0TT). Memory System: Includes 3-driver memory (includes UltraView® Sunroof). Wheels: 20" multi-spoke aluminum alloy with Sterling Silver premium painted finish. AWD models. Wipers: Front power wiper system with variable speed.

We have created the most comprehensive suite of owner benefits offered by any prestige automotive brand in the world, providing everything our Cadillac owners need and everything they deserve.

**PREMIUM CARE MAINTENANCE**

The Cadillac Premium Care Maintenance program covers routine oil changes, tire rotations, certain air filter replacements and a thorough multi-point vehicle inspection for 4 years or 50,000 miles.

**WARRANTY PROTECTION**

All Cadillac vehicles come with a 6-year or 70,000-mile Powertrain Warranty. In addition, our 4-year or 50,000-mile bumper-to-bumper limited warranty covers repairs to your entire vehicle, including parts and labor to correct any concerns in material or workmanship.

**ROADSIDE ASSISTANCE**

Cadillac offers more years of standard Roadside Assistance than any leading luxury automaker, with services for 6 years or 70,000 miles. This program provides lockout, refueling, Dealer Technician Roadside services and more.

**COURTESY TRANSPORTATION**

This program provides alternative transportation and reimbursement of certain transportation expenses if your Cadillac requires warranty repairs for 6 years or 70,000 miles. That’s more years of service standard than any leading luxury automaker.

**MY CADILLAC APP**

The ingenuity of the CT6 doesn’t stop with the vehicle. As a Cadillac owner, an advanced app is available for your new car. From virtually anywhere at any time, a few taps of your finger on your iPhone or Android smartphone let you access features such as parking reminders, Roadside Assistance and more. Plus, in conjunction with the OnStar Remotelink app, you’ll have the ability to remotely start your vehicle (when factory-equipped with remote start) from any place you have cell service and lock and unlock your doors.

In addition, you can access key diagnostic information, including fuel tank level and range and remaining oil life.

**ONSTAR Standard for one year, the OnStar Guidance Plan11 (trial excludes Hands-Free Calling minutes) lets you connect to a specially trained OnStar Advisor just by pushing the blue OnStar button in your CT6.**

**AVAILABLE ONSTAR 4G LTE AND BUILT-IN WI-FI® HOTSPOT®**

Now your CT6 has an available built-in 4G LTE hotspot, for connecting up to seven tablets, laptops or other devices at 4G LTE speed, so the content you love is always headed where you are. Requires a data plan after the 3-month or 3 gigabyte data trial (whichever comes first).

**ONSTAR BASIC PLAN12**

With the Basic Plan, you’ll get a powerful connection to your vehicle and the world around you. Standard for 5 years or at least 50,000 miles. You’ll have access to select services, which include limited features of the OnStar Remotelink mobile app that lets you remotely start your car, program your vehicle on a map on your smartphone and manage your vehicle’s Wi-Fi hotspot. Plus, send a destination to your in-vehicle navigation screen (if equipped) and lock or unlock your doors—at from your mobile device. Your vehicle can run diagnostic checks on itself and remind you of servicing needs to email.

**AUTOMATIC CRASH RESPONSE**

In a crash, built-in sensors can automatically alert an OnStar Advisor who is immediately connected to your vehicle to see if you need help—even if you can’t ask for it.

**EMERGENCY SERVICES**

One push of the red emergency button gives you a priority connection to a specially trained OnStar Advisor who can direct emergency services to your exact location and offer critical assistance until help arrives. With OnStar, you’re never alone.

**CRISIS ASSIST**

During severe weather or other crisis situations, OnStar can provide a quick, central point of contact when you need emergency assistance, navigation help or information.

**ROADSIDE ASSISTANCE**

If you’re stranded, have a flat tire or need a tow truck, just ask an OnStar Advisor to get help to your exact location to get you back on the road quickly.

**STOLEN VEHICLE ASSISTANCE**

If your vehicle is stolen, OnStar can use GPS to pinpoint and work with authorities to quickly help recover it. On many models, an Advisor can send a signal to slow the vehicle or prevent it from being restarted. And with the new Theft Alarm Notification feature, if your car alarm sounds, you’ll receive a notification by text, email or phone call.

**DEALER MAINTENANCE NOTIFICATION**

Is it time for a tire rotation? An oil change? Or a new air filter? You’ll always know because your car can email your diagnostics report to the dealer when it’s time, and the dealer will contact you to set up a service appointment.
ABOUT THIS CATALOG

We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximate based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your Cadillac dealer for complete details. Any variations in colors shown are due to reproduction variation in the printing process. Cadillac reserves the right to lengthen or shorten the model year for any product for any reason, or start and end model years at different times. Note: Some photographs in this catalog show vehicles with optional equipment.

ENGINES

Cadillac products are equipped with engines produced by GM Powertrain or suppliers to GM worldwide. The engines in Cadillac products may also be used in other GM makes or models.

ASSEMBLY

Cadillac vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Cadillac vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

UPDATED SERVICE INFORMATION

Cadillac dealers receive useful service bulletins about Cadillac products. You may purchase them from Helm Incorporated by calling 1-800-782-4356 or by visiting www.helminc.com.

NEW-VEHICLE LIMITED WARRANTY

World-class coverage comes standard on every 2016 Cadillac. This warranty is for Cadillac vehicles registered in the U.S. See your Cadillac dealer for terms and conditions.

COVERED FOR 6 YEARS/70,000 MILES (WHICHEVER COMES FIRST)

Powertrain limited warranty with no deductible. Roadside Assistance Program and Courtesy Transportation Program.

COVERED FOR 4 YEARS/50,000 MILES (WHICHEVER COMES FIRST)

Bumper-to-bumper coverage. Tires—defects in material and workmanship, repairs made to correct any vehicle defect; corrosion on body sheet metal panels.

RUST-THROUGH COVERAGE

Cadillac vehicles are designed and built to resist corrosion and rust-through corrosion. Anybody sheet metal that rusts through (in the form of an actual hole in the sheet metal) is covered for six years and unlimited mileage. Cosmetic or surface corrosion—resulting from stone chips or scratches in the paint, for example—is not included in the rust-through coverage. Application of additional rust-inhibiting materials is not required under the rust-through coverage and none is recommended. See your Cadillac dealer for terms of this limited warranty.

FLEET ORDERS

Some standard content may be deleted with fleet orders. See dealer for details.
