How do you drive the world forward?
Make luxury look simple?
Turbocharge a feeling?
Distill power, intelligence and style?
Create a sense of magnetism?
Execute every detail with precise purpose?
And do it all with ease?
Actually, you can label it this.

THE 2019 CT6

CT6 preproduction model shown throughout. Actual production model may vary.
When it comes to performance, design and innovation, the 2019 CT6 offers you the single most important factor: choice. The first-ever CT6-V model, available mid-2019, boasts the insanely powerful 4.2L Blackwing® Twin Turbo V8 engine so you can hear its subdued growl approaching from a distance. The Sport, Premium Luxury and Platinum models are available with Super Cruise™ — the world’s first true hands-free driver-assistance feature for use on limited-access freeways.

Powertrain and technology options are also met with unique exterior and interior selections. The exterior of the CT6 Sport model is inspired by performance. A distinct design motif matches the thrill of each drive with an aerodynamic mesh grille, sport wheels and summer-only tires. When only the finest amenities will do, choose the Platinum model with its Semi-Aniline leather, 15-setting massaging front seats.

No matter which CT6 model you select, you’ll find each full of innovative features, distinctive lighting and an experience unlike any other. It is the culmination of more than a century of engineering, craft and advances that manages to look forward at what is to come.

1. Mid-2019 availability.
2. Even while using the Super Cruise driver-assistance feature, always pay attention while driving and do not use a handheld device. Visit cadillacsupercruise.com for more information. The 2019 Cadillac CT6 Super Cruise Package includes 3 years of OnStar support functionality, after which an OnStar plan must be purchased. OnStar plan, working electrical system, built-in Wi-Fi Hotspot set to “on,” cell reception and GPS signal required. OnStar links to emergency services. Subject to OnStar terms at onstar.com/us/en/user_terms/.
3. Do not use summer-only tires in winter conditions, as it would adversely affect vehicle safety, performance and durability. Use only GM-approved tire and wheel combinations. Unapproved combinations may change the vehicle’s performance characteristics. For important tire and wheel information, go to my.cadillac.com/learn/tires, or see your dealer.
Cadillac’s all-new Twin Turbo V8, appropriately named Blackwing, is available on Premium Luxury and Platinum models. For truly breathtaking performance, a higher-output iteration of Blackwing comes standard in the CT6-V. Both engines are mated to an all-new 10-speed automatic transmission with AWD.

AN ENGINE SO POWERFUL, WE GAVE IT A NAME.
TECHNOLOGY TO TAKE YOUR HANDS AND BREATH AWAY

Meet Super Cruise, available on Premium Luxury and Sport and standard on Platinum models, the first hands-free driver-assistance feature for use on limited-access freeways. Using precision LiDAR mapping, a state-of-the-art driver-attention system and a network of cameras and radar sensors, Super Cruise allows you to take your hands off the steering wheel and puts joy into your drive. New owners receive a 3-year Super Cruise Package to support Super Cruise functionality. To continue Super Cruise functionality after the 3-year Super Cruise Package ends, the vehicle owner is required to purchase an OnStar plan.

1. Even while using the Super Cruise driver-assistance feature, always pay attention while driving and do not use a handheld device. Visit cadillacsupercruise.com for more information.

The 2019 Cadillac CT6 Super Cruise Package includes 3 years of OnStar to support functionality, after which an OnStar plan must be purchased. OnStar plan, working electrical system, built-in Wi-Fi® Hotspot set to “on,” cell reception and GPS signal required. OnStar links to emergency services. Subject to OnStar terms at onstar.com/us/en/user_terms/.
Thirty-four strategically placed Bose speakers. Exclusively designed for the CT6, the available Bose Panaray audio system makes the most of its innovative technologies. An immersive sound is formed from the union of vehicle and audio design. It relays a dynamic range and clarity, delivering an outstanding and uncompromised listening experience for all. This sound fills the cabin, while a new brushed stainless-steel custom pattern decorates select speakers throughout the cabin.
The CT6 is undeniably dedicated to performance with no less than four different engines and five levels of power. Choose from a provocative range starting with a responsive yet efficient 2.0L Turbo up to the all-new, hand-built 4.2L Blackwing Twin Turbo V8, available mid-2019, with two available outputs. Exclusive to Cadillac, this engineering feat boasts titanium-aluminum turbine wheels in the turbochargers and assured power. The delivery is breathtaking.

All four engines are paired with a 10-speed automatic transmission that makes shifting between gears quick and precise. It can interpret driving conditions and automatically adjust to the needs of the driver for a smooth response. Leading with the higher-output Blackwing V8 engine, that’s exactly what the performance of the CT6-V model will always allow you to do: lead. The CT6-V places strength and agility firmly in your hands. From acceleration to cornering to open straightaways, grip the road with summer-only tires designed to deliver crisp response while retaining isolation and comfort.

An available mechanical limited-slip rear differential helps increase traction and offers more performance during spirited driving, while suspension tuning specific to the CT6-V improves roll control, cornering capability and steering response. Wield that power with available high-performance, monoblock Brembo® front brakes for sure-footed stopping.

This is bold performance. This is CT6-V. This is not just a car. It’s a statement. It’s a walk on the edge. The CT6-V places strength and agility firmly in your hands. Leading with the Blackwing V8 engine, that’s exactly what the CT6-V model will always allow you to do: lead. The CT6-V places strength and agility firmly in your hands. From acceleration to cornering to open straightaways, grip the road with summer-only tires designed to deliver crisp response while retaining isolation and comfort.

An available mechanical limited-slip rear differential helps increase traction and offers more performance during spirited driving, while suspension tuning specific to the CT6-V improves roll control, cornering capability and steering response. Wield that power with available high-performance, monoblock Brembo® front brakes for sure-footed stopping.
No matter which engine you select, enjoy a smooth, responsive drive with Driver Selectable Modes. Choose from Tour, Sport, Snow/Ice and on CT6-V - Track. Each mode provides a unique driving experience, making commutes comfortable or turns tight.

Standard on all V6 and V8 models, All-Wheel Drive delivers enhanced control when you accelerate and turn, helping keep you in command — especially in wet road conditions. With the available Active Chassis Package, every wheel drives, steers and, with Magnetic Ride Control, adjusts vertical suspension damping within milliseconds, offering you complete maneuverability.

The lightweight CT6 architecture, featuring fusion-joining technology, is at the core of its agile handling and cabin quietness. With stats such as 220 lbs saved over traditional steel construction, 62 percent aluminum composition and 12 patents, the CT6 body has innovative bones.

1. Mid-2019 availability.
Decisive, sharp and magnetic. Design you’re driven to. From its bold-faced grille to its sleek, long and low proportions, the look is hard to resist and impossible to mistake. Aluminum body panels and signature lights; lines, curves and sweeping planes. Every element comes together seamlessly to create an understated yet riveting exterior.

For 2019, you can choose between two distinctive paths, each with its own personality: Luxury/Premium Luxury/Platinum and Sport/V-Series. Each offers differentiated exterior finishes.

Expressive and contemporary, the Luxury, Premium Luxury and Platinum exterior finishes are accentuated with a bright grille finish and available 20” Premium select wheels.

Inspired by performance, the Sport and V-Series’ exterior finishes flash a dark theme that is expressed over the mesh grille. The window surroundings are black, while the spoiler, rockers and side moldings are body-color. The available 20” V-Series wheels are Ultrabright with Midnight Silver painted pockets for an overall darker look.

An aggressive design makes the headlamps slice through the air and employs bi-LED high-low beam projectors. These lights help your visibility and are a key facet of the vehicle’s sweeping silhouette. The taillamps mirror the front design but present a rear exterior that is stylish and unmistakably Cadillac.

Approach the vehicle after dark with your Passive Entry key fob, and lights will activate in the headlamps, taillamps, outside mirrors and door handles with available Concierge Lighting.
Discover an interior teeming with modern comforts, curated aesthetics and savvy controls that result in the epitome of service. From its elegant materials and careful assembly to its many amenities and supreme comforts, the space evokes a new level of craftsmanship.

For your extended comfort, the seats inside the CT6 are crafted from premium materials and have unique contours that provide cushion and support. With generous rear leg room, passengers have ample space to relax for hours on end. You can also automatically control your interior climate when using Adaptive Remote Start. The available automatic heated front seats and steering wheel and ventilated front seats activate based on cabin temperatures to help make passengers comfortable.

The available Quad-Zone Climate System divides the interior into four sections, allowing passengers to tailor their individual temperature and airflow. An available Air ionizer helps reduce airborne contaminants in the cabin, such as dust, pollen and odors, for the comfort of all occupants. Together, these features create an inner sanctuary.

Standard on Platinum, 20-way adjustable front seats, both heated and ventilated, also offer 15 unique massage settings. In addition, the armrest is equipped with USB ports. The available Articulating Rear Seats feature reclining and tilting cushions with heat, ventilation and massage functions for outboard passengers.

1. Not compatible with all devices.
Our greatest invention yet. A rare breed, the CT6 is both athletic and intelligent with seamless technology that connects you to your world. The available Rear Seat Infotainment System features articulating 10” diagonal screens and connectivity for your personal devices, including using Wi-Fi to stream content from your phone, tablet or laptop via HDMI and USB ports. The screen also tilts for easy viewing and will remember that preferred position. Plus, if you happen to be relaxing while in Park, the front screen becomes available for entertainment, too.

The Rotary Infotainment Controller isn’t an ordinary control knob. With polished aluminum, a fluted texture and a brilliant crystalline center along with light rings, it helps you physically navigate the Cadillac user experience. It puts a suite of information and entertainment offerings at your command, including climate, audio and connected Apps, letting you easily browse, select and install apps. Customize your content with music, audiobooks, weather apps and more (data plan rates may apply). And with Phone Integration and Apple CarPlay™ compatibility you can access your contacts, Apple Music™ and other information from your iPhone®. Phone Integration also offers Android Auto™ compatibility.

---

1. Service varies with conditions and location. Requires active service plan and paid AT&T® data plan. Visit onstar.com for details and limitations.
2. Not compatible with all devices.
3. Functionality varies by model. Full functionality requires compatible Bluetooth® and smartphone, and USB connectivity for some devices.
4. Additional data plan rates may apply. Third-party trademarks are the property of their respective third-party owners and used under agreement. Requires plan and paid AT&T vehicle data plan or compatible device with 3G/4G LTE tethering data plan. See onstar.com for details and limitations.
5. Vehicle user interface is a product of Apple® and its terms and privacy statements apply. Requires compatible iPhone® and data plan rates apply. Apple CarPlay is a trademark of Apple, Inc. Siri, iPhone and iTunes are trademarks of Apple, Inc., registered in the U.S. and other countries.
6. Vehicle user interface is a product of Google™ and its terms and privacy statements apply. Requires the Android Auto app on Google Play and an Android™-compatible smartphone running Android 5.0 Lollipop or higher. Data plan rates apply. Android Auto is a trademark of Google LLC.
With the myCadillac mobile app² and a paid subscription, you can lock and unlock, remote-start and get select vehicle information from anywhere you have reception. Plus, next-generation, 5-watt wireless charging³ with a larger charge area for better phone compatibility allows you to power up your compatible smartphone anytime the vehicle is running.

In the unfortunate event that your vehicle is tampered with, available Surround Vision Recorder¹ technology could help capture the disturbance. When enabled, the system automatically records from select cameras if a door handle is pulled or when the alarm is activated.

Cadillac’s innovative available Rear Camera Mirror¹ may allow you to see a wider, less-obstructed field of vision than with a traditional rearview mirror. This next-generation display uses a new selector switch that allows you to zoom in or tilt the view to your preference.

1. Safety or driver-assistance features are no substitute for careful driving and should not be used in a misleading way. The driver should always be alert for traffic, surroundings and road conditions. In certain conditions, these technologies may not help you avoid collisions. Read the vehicle Owner’s Manual for important feature limitations and information.

2. Available on select Apple® and Android devices. Service availability, features and functionality are subject to limitations and vary by vehicle, device and the plan you are enrolled in. Device data connection required. Unlock feature requires automatic locks. Remote start requires GM factory-installed and enabled remote start system. Visit onstar.com for more details.

3. Service varies with conditions and location. Requires active service plan and paid AT&T data plan. Visit onstar.com for details and limitations.

4. The system wirelessly charges one PMA- or Qi-compatible mobile device. Some phones have built-in wireless charging technology and others require a special adapter/back cover. To check for phone compatibility, visit my.cadillac.com/learn or consult your carrier.
TECHNOLOGY: SAFETY

EXPERIENCE FEWER SURPRISES IN THE DARK
Available Night Vision can provide the driver with an infrared night-vision image of the area beyond the headlamps that can highlight and provide alerts to detected pedestrians or large animals. When activated, the icon on the side mirror flashes to alert you. If a moving vehicle is in the adjacent lane, it also illuminates the side-mirror icon. In both features, if you’ve activated your turn signal, the icon on the side mirror flashes to alert you.

BE ALERTED EVEN IN REVERSE
When backing out of a parking space, available Rear Cross Traffic Alert can warn you of detected cross traffic from either side of your vehicle with a visual alert or either an audible alert or a pulse to the available Safety Alert Seat.

SEE WHAT LIES BEHIND
The HD Rear Vision Camera automatically displays a live image of the area behind you on the Cadillac user experience screen. Guidelines on the image plot out your intended trajectory, helping you to see people and objects that might be in your path.

TRAVEL THE STRAIGHT AND SMART
Using a camera sensor to monitor lane boundaries, available Lane Keep Assist can gently turn the steering wheel if the system anticipates the vehicle is leaving the lane unintentionally or without using your turn signal. Working in conjunction with the available Safety Alert Seat, available Lane Departure Warning shows a visual alert in the cluster and sends a warning pulse through the seat cushion when your vehicle crosses the detected lane marking.

SET YOUR SPACE
Available Adaptive Cruise Control—Advanced employs radar technology to maintain a selected following gap between you and the detected vehicle ahead while you steer.

AN ATTENTION-GRABBER
Available Lane Change Alert surveys the area well beyond the side blind area and illuminates the side mirror warning icon to alert you of a rapidly approaching vehicle. Available Side Blind Zone Alert monitors your blind zones, so if a moving vehicle is in the adjacent lane, it also illuminates the side-mirror icon. In both features, if you’ve activated your turn signal, the icon on the side mirror flashes to alert you.

GAIN PRECIOUS TIME
Up to certain speeds, available Forward and Reverse Automatic Braking can sense potential forward and reverse collisions and automatically engage the brakes if you haven’t already done so, helping to reduce the crash impact.

A HIGHER LOOK AT WHAT SURROUNDS YOU
Available HD Surround Vision provides a bird’s-eye view of the area immediately surrounding the vehicle when in low-speed Drive or Reverse. This view projected onto the Cadillac user experience screen, helps increase your awareness during low-speed maneuvering.

Cadillac will warrant
components for 8 years or 100,000 miles, whichever comes first, from the original in-service date of the vehicle. In addition to the Bumper-to-Bumper coverage, General Motors will warrant certain Hybrid components for 8 years or 100,000 miles, whichever comes first, from the original in-service date of the vehicle. Cadillac comes with a 6-year/70,000-mile (whichever comes first) transferable Powertrain Limited Warranty. 24/7 Roadside Assistance and Courtesy Transportation are also offered for the duration of the Powertrain Limited Warranty. Please see your Cadillac dealer for details.

4-YEAR/50,000-MILE BUMPER-TO-BUMPER LIMITED WARRANTY
Cadillac comes with a 4-year/50,000-mile bumper-to-bumper limited warranty (including 4 years/50,000 miles for all included services and maintenance, and 1 year/12,000 miles of included services and maintenance, whichever comes first). For the original, or to see dealer for details). With no deductible, from the original in-service date of the vehicle, for warrantable repairs that are required as a result of defects due to materials and/or workmanship. See dealer for complete warranty details.

NEW-VEHICLE LIMITED WARRANTY
This Catalog contains important information about new vehicle warranties, including:

- **Exterior Dimensions**: Includes wheelbase, length, width, and height.
- **Capacity**: Includes cargo and passenger capacity.
- **Fuel Efficiency**: Includes city, highway, and combined fuel economy ratings.
- **Performance**: Includes acceleration, top speed, and tire size information.
- **Safety Features**: Includes airbag deployment information and emergency services availability.

**Owner Benefits**

Our owners deserve it all. That's why 2019 vehicles are backed by a comprehensive suite of owner benefits. To learn more, visit cadillac.com/ownership/benefits.

**An Important Note About Alterations and Warranties**

Alterations to the original equipment for any reason or to start and end model years at different times. Certain vehicle features may lose their usefulness over time due to obsolescence from technological changes. Unless otherwise stated, all claims based on GM Mid-Lux Car segment and latest available competitive data. Otherwise noted, all claims based on GM Mid-Lux Car segment and latest available competitive data. We sometimes find it necessary to produce Cadillac vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, please check with your dealer to make sure the equipment you ordered is available. If there were changes, they are acceptable to you.

**New-vehicle Limited Warranty**

- **4-Year/50,000-Mile Bumper-to-Bumper Limited Warranty**: Every 2019 Cadillac comes with a 4-year/50,000-mile bumper-to-bumper limited warranty (including 4 years/50,000 miles for all included services and maintenance, and 1 year/12,000 miles of included services and maintenance, whichever comes first). For the original, or to see dealer for details). With no deductible, from the original in-service date of the vehicle, for warrantable repairs that are required as a result of defects due to materials and/or workmanship. See dealer for complete warranty details.
