THE ALL-NEW 2011 CTS COUPE
High-Intensity Discharge (HID) headlamps with Adaptive Forward Lighting are available and move up to 15˚ with steering to light the way around corners at night.

Sport suspension with all-season tires, limited slip differential and StabiliTrak electronic stability control is standard.

Rearview backup camera is available and displays in an LCD screen in the rearview mirror or on the navigation screen, when equipped.

Sunroof option adds visibility with power tilt and sunshade.

Vertical LED taillamps with light-pipe technology and chevron-shaped stop lamp design are unmistakably Cadillac, and they’re clearly visible to drivers behind you.

1 Summer Tire Performance Package option adds 19" polished wheels, steering wheel-mounted paddle shift controls, Y-rated summer-only performance tires, performance cooling and enhancements to suspension and brakes. 2 Requires automatic transmission. 3 Summer tires tend to wear faster and are more susceptible to damage from road hazards or curb impact than standard profile tires. This type of damage is not covered by the GM New Vehicle Limited Warranty. You may want to get different tires if you expect to drive in winter conditions. See your dealer for proper tire selection.

The all-new CTS Coupe, the ultimate expression of Cadillac’s commitment to performance driving and dramatic design. Sculpted exterior lines that borrow from no one. A 304hp direct injection V6 for more power and reduced emissions compared to engines without this technology. 6-speed automatic or available 6-speed manual transmission. Wide-stance performance suspension that brings sports car verve. A meticulously crafted interior focused squarely on the driver. Available in either standard rear- or optional all-wheel drive. This is a luxury sport coupe like no other.
USB and auxiliary audio jacks are available to enable your iPod playlists to appear on the car’s radio display. Operate via easy on-screen access or steering wheel mounted controls.

Bose® 5.1 surround sound system, an available feature, offers 12 speakers with Centerpoint® signal processing and AudioPilot® noise compensation.

OnStar® enables you to send directions to your CTS Coupe and access them anytime. Destination Download, an available feature, helps you get directions by pushing the OnStar button and telling an Advisor where you want to go. OnStar sends the destination to your navigation system, if equipped.

Interior door releases are low-profile push-button devices.

The driver-centric cabin abounds in high-tech amenities. Available Bluetooth® phone connectivity, Bose® 5.1 surround sound with iPod® integration and hard drive for music storage, and glide-up touch screen navigation. Standard OnStar® one-year Directions & Connections Plan with available Destination Download, eNav and a 3-month trial of XM Radio®. Finishing details include push-button door release, and available ambient lighting and heated steering wheel.
The all-new CTS-V Coupe is a boldly styled driving enthusiast’s dream car. Huge power leaps from a 556hp Eaton-supercharged 6.2L V8. Performance handling is assured by a Nürburgring®-tuned suspension, independent at all four wheels, and an all-speed ZF Servotronic® power steering.

The Eaton-supercharged and intercooled 6.2-liter V8 generates 556hp and 551 lb-ft of torque, builds power quickly at low end, and sustains at high speeds.

Xenon HID headlamps with Adaptive Forward Lighting lead the way no matter where the road takes you.
Perforated and suede microfiber seat inserts help keep you planted during performance driving, while microfiber steering wheel and shift knob help with control.

Driver Information Center with g-meter measures the CTS-V Coupe’s lateral acceleration.

Obsidian black faceplates on the center stack, and available Midnight Sapele wood trim, add technical sophistication to the cockpit.

The CTS-V Coupe cockpit is as much about control as it is about driver engagement. There’s luxury and refinement enough to satisfy pleasure-seekers, but the real function of this cabin is guiding a very powerful machine. LED-traced gauges that flash as redline is approached, full dash instrumentation and a TREMEC® 6-speed manual shifter put the driver in control of this performance command center.
Passenger safety is a primary consideration throughout the engineering process. The CTS Coupe and CTS-V Coupe were carefully designed to provide a host of features to help you from getting into a collision in the first place.

Strong Unit Body
A strategically engineered structure that contains you. Front and inner crush zones help absorb impact loads, and a comprehensive use of high-strength steel helps channel energy away from the passenger compartment in the event of an impact.

Dual Stage Frontal Airbag System
The system automatically selects and deploys the frontal airbags based on speed and the crash severity to help determine the level of airbag deployment to reduce the risk of injury. For extra protection, the CTS and CTS-V Coupe feature the Side Impact Sensor Sensing System, which helps identify more accurately side-impact collisions.

OnStar® Automatic Crash Response
An onboard diagnostic system in your vehicle can automatically send an alert to OnStar. An OnStar Advisor is immediately contacted by your vehicle and your personal information to locate you and request that emergency help be sent right away. Even if you don’t respond, the Advisor can use GPS technology to locate you and request that emergency help be sent right away. Even if you don’t respond, the Advisor can use GPS technology to locate you and request that emergency help be sent right away.

Driver Information Center
By comparing driver steering input with information from the tires, the stability control system helps you maintain control by quickly applying ABS brakes to any wheel and adjusts the power to the driving wheels. The StabiliTrak System helps you maintain control by quickly applying ABS brakes to any wheel and adjusts the power to the driving wheels.

Tire Pressure Monitor
If you ever experience a tire drop in pressure, you will receive an alert via the vehicle’s Driver Information Center. By comparing driver steering input with information from the tires, the stability control system helps you maintain control by quickly applying ABS brakes to any wheel and adjusts the power to the driving wheels.

StabiliTrak
Driver Information Center.
By comparing driver steering input with information from the tires, the stability control system helps you maintain control by quickly applying ABS brakes to any wheel and adjusts the power to the driving wheels.

Six Airbags
Dual-stage frontal airbags and dual-stage side impact airbags for the driver and front passenger. Side impact airbags help maximize the benefit of seatbelts by enhancing the protection of occupants in the event of an off-axis impact.

OnStar® Equipment
As an original equipment OnStar® subscriber, you receive a 3-month trial of OnStar® service. In the unlikely event of an accident, an OnStar Advisor can help connect you with emergency assistance, roadside assistance, or a mobile phone. You also receive the opportunity to connect with other Cadillac owners.

Owner Privileges
Becoming a CTS or CTS-V Coupe owner provides you with additional privileges, like the use of the Cadillac Owner Center, your one-stop resource to manage your service records in one place online and have the opportunity to connect with other Cadillac owners. Owner Privileges also include 24-hour Roadside Assistance and Courtesy Transportation Programs are in effect for the first 50 months or 100,000 miles of ownership, whichever comes first. See your dealer for complete details, terms and conditions of these programs, and the GM limited warranty.

Cadillac offers the Best Luxury Coverage in the Industry with the 5-Year/100,000-Mile Transferable Powertrain Limited Warranty with no deductible plus Roadside Assistance and Courtesy Transportation. Whenever comes first — see your dealer for details.

Owner Privileges
In a crash, dual-stage frontal airbags and seat-mounted side airbags for the driver and front outboard passengers help reduce the risk of airbag-induced injury. All passenger-side seat-mounted side airbags are designed to be non-deploying for the protection of young children. A strategically engineered structure that contains you.

- Bluetooth® for Phone Interface

Exterior
- Summer Tire Performance Package

Interior
- 10-way power driver and front passenger seats
- Leather seating surfaces with 10-way power adjuster/recliner
- Split-folding rear seat with armrest, includes cupholders
- Rider Information Center

Powertrain
- 2.8-Turbocharged V-6
- 6-speed automatic transmission
- Performance-Tuned Dual-Mode Magnetic Ride Control Suspension

Safety
- Anti-lock braking system (ABS)
- Vehicle Stability Control (VSC)
- Traction Control System
- Brake Assist
- All-speed with brake and engine intervention
- Front airbags
- Side airbags
- Curtain side-impact airbags
- Anti-theft alarm system
- Keyless access system
- Bluetooth® for Phone Interface

CTS V Coupe Features and Options

Performance
- 3.6-liter V-6
- 6-speed automatic transmission
- Sport Performance Suspension System
- Sport Performance Transmission

Safety
- All-speed traction control with brake and engine intervention
- StabiliTrak, 4-channel, combined with traction control
- Electronic Brake Force Distribution (EBD)
- Traction Control System
- Vehicle Stability Control (VSC)

Performance
- Bose® Premium Surround Sound System
- XM Satellite Radio

Interior
- 12-passenger seating
- In-dash 8-inch touch screen
- 18-inch and 20-inch aluminum wheels
- Leather seating surfaces with sueded microfiber inserts, 10-way power adjuster/recliner
- Split-folding rear seat with armrest, includes cupholders

Powertrain
- 4.5-liter V-8
- 6-speed automatic transmission
- Performance-Tuned Dual-Mode Magnetic Ride Control Suspension

Safety
- All-speed traction control with brake and engine intervention

About this catalog
We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximate based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing (07/10), please check with your Cadillac dealer for complete details. Any variations in colors shown are due to reproduction variation in the printing process.

OnStar
OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Call 1-888-4ONSTAR (466-7827) or visit onstar.com for OnStar’s Terms and Conditions, Privacy Policy and details and system limitations.

Engines
Cadillac products are equipped with engines produced by GM Powertrain or suppliers to GM worldwide. The engines in Cadillac products may also be used in other GM makes or models.

Tire Sealant and Compressor Kit
There is no jack or spare tire in this vehicle. Your vehicle has a tire sealant and compressor kit that uses a liquid tire sealant to temporarily seal up to a ¼-inch puncture in the tread area of the tire. After using the inflator kit, it is recommended to take the tire to an authorized dealer for inspection and repair as soon as possible but at least within 100 miles of driving. The tire sealant cannot seal and inflate sidewall damage, punctures larger than ¼ inch, or a tire that has unseated from the wheel. The sealant can only be used on one tire one time before its expiration date.

Assembly
Cadillac vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Cadillac vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

Updated Service Information
Cadillac dealers receive useful service bulletins about Cadillac products. You may purchase them from Helm Incorporated by calling 1-800-551-4123 or by visiting www.helminc.com.

New Vehicle Limited Warranty
The Best Luxury Coverage in the Industry, standard on every 2011 Cadillac. This warranty is for Cadillac vehicles registered in the U.S.A. See your Cadillac dealer for terms and conditions.

Covered for 5 Years/100,000 Miles (Whichever Comes First):
- Powertrain Limited Warranty with no deductible
- Roadside Assistance Program
- Courtesy Transportation Program

Covered for 4 Years/50,000 Miles (Whichever Comes First):
- Bumper-to-Bumper coverage
- Tires – Defects in material and workmanship
- Repairs made to correct any vehicle defect
- Corrosion on body sheet metal panels

Rust Through Protection
Cadillac vehicles are designed and built to resist corrosion and rust-through corrosion. Any body sheet metal that rusts through (in the form of an actual hole in the sheet metal) is covered for six years, unlimited mileage. Cosmetic or surface corrosion, resulting from stone chips or scratches in the paint, for example, is not included in the Rust Through coverage. Application of additional rust-inhibiting materials is not required under the Rust Through coverage and none is recommended. See your Cadillac dealer for terms of this limited warranty.

Fleet Orders
Some standard content may be deleted with fleet orders. See dealer for details.
