2016

CTS
DESIGNED WITH ONE RELENTLESS FOCUS.
THE DRIVER.

Cadillac
From its remarkably powerful engines, to its driver-oriented cockpit, to a sleek aero-designed exterior, no detail has been overlooked. The result is a powerfully crafted sedan that embodies the driver.
PART I

THE FEELING
WIELD RELENTLESS POWER
CONTROL INGENUITY AT EVERY TURN
CHASE WHAT MATTERS.
THE 2016 CTS.
PART II
THE FEATURES
PERFORMANCE

Road-ready. Track-tested. In 2014, the CTS was tested on Germany’s famed Nürburgring. In 2016, the result is a heightened driver-focused and obsessively detailed sedan. Its powerful engines with better efficiency, responsive handling and impressive acceleration offer an exhilarating, smooth and tight drive.

**3.6L V6 OR 2.0L TURBO ENGINES**

8-SPEED AUTOMATIC TRANSMISSION

Power players. The available 3.6L V6 engine offers assured acceleration and 335 hp, along with Active Fuel Management for everyday efficiencies. The standard, potent 2.0L Turbo 4-cylinder engine delivers 268 hp and up to an EPA-estimated 31 highway mpg. Both are available with Auto Stop/Start technology.

Each engine is paired with a technically advanced 8-speed automatic transmission for quick shifting, immediate responsiveness and more efficiency.
PERFORMANCE

ALL-WHEEL DRIVE WITH ACTIVE TORQUE TECHNOLOGY
Sure footing in inclement weather. Available all-wheel drive maximizes stability and handling, delivering impeccable control in less-than-perfect driving conditions.

MAGNETIC RIDE CONTROL
Adjust to every inch of the road. Available Magnetic Ride Control reads and reacts to the road up to 1,000 times per second, maintaining precise body control and chassis composure for a smooth, seamless ride.

ACTIVE FUEL MANAGEMENT
Efficient power. With the 3.6L V6 engine, Active Fuel Management activates all cylinders whenever you demand power and imperceptibly deactivates 2 cylinders when you don’t.

MAGNESIUM PADDLE SHIftERS AND DRIVER-SELECTABLE MODES
Control total performance. Manually move through the gears of an 8-speed automatic transmission with paddle shifters that place control firmly in your hands. Plus, with your choice of driver-selectable modes (Tour, Sport, Snow/Ice, and with V-Sport models, Track), you can easily adjust the steering, suspension and transmission calibrations depending on your preference and road conditions.

BREMBO® PERFORMANCE BRAKES
Remarkable stopping power! The CTS features Brembo fixed-caliper, aluminum 4-piston front brakes that deliver responsive stopping and consistent pedal feel.

NEAR-PERFECT 50/50 WEIGHT BALANCE
A long, light and strong frame. This RWD car is among the lightest in its class; the streamlined architecture makes for enhanced handling, quiet and driving dynamics. By using aluminum in the front shock towers and front suspension, Cadillac engineers achieved near-perfect front-to-rear weight distribution. Likewise, the aluminum alloy door structures save weight compared with traditional steel.

ACTIVE FUEL MANAGEMENT
Efficient power. With the 3.6L V6 engine, Active Fuel Management activates all cylinders whenever you demand power and imperceptibly deactivates 2 cylinders when you don’t.
Even more adrenaline. The CTS V-Sport propels you with a Twin Turbo V6 engine and delivers 420 hp with 430 lb-ft of torque, bringing you from 0 to 60 in a staggering 4.4 seconds. And with standard Magnetic Ride Control, electronic Limited Slip Differential (eLSD), high-performance front Brembo® brakes and road-gripping Pirelli® summer-only run-flat tires, you’re firmly in control.

V-SPORT PREMIUM

Unleash the enhancements. The CTS V-Sport Premium Collection features 20-way performance front seats, Tri-Zone Climate Control, heated outboard rear seats, a new HD reconfigurable gauge cluster with three layouts, including a V-Sport performance layout, full-color Head-Up Display (HUD), an UltraView Sunroof, Driver Assist Package and strikingly unique V-Sport 18” Ultrabright wheels.

1. Do not use summer tires in winter conditions, as it would adversely affect vehicle safety, performance and durability. Use only GM-approved tires and wheel combinations. Unapproved combinations may change the vehicle’s performance characteristics. For important tire and wheel information, go to cadillacaccessories.com or see your dealer. Lower profile tires wear faster. Wheel and tire damage may occur on rough or damaged roads or from surfaces or from objects. This damage is not covered by the GM New Vehicle Limited Warranty.
V-SPORT

HEAD-UP DISPLAY
Performance at a glance. Available Head-Up Display (HUD) projects vehicle data, such as speed, audio, navigation and performance onto the windshield, so you can stay updated while keeping your eyes on the road. Standard on V-Sport Premium Collection.

ELECTRONIC LIMITED-SLIP DIFFERENTIAL
Grip the road. Its electronic Limited-Slip Differential (eLSD) automatically redirects power to the drive wheels with the best traction for better corner exit acceleration, while enhancing performance split between the rear wheels, making driving well-balanced mid-corner and maximizing corner exit acceleration in most road conditions.

V-SPORT GAUGE CLUSTER
Prioritize performance. Customize your cluster with the V-Sport Premium and place a greater emphasis on your tachometer or mph. Or choose from two other reconfigurable themes for a tailored driving experience.

V-SPORT

Prioritize performance. Customize your cluster with the V-Sport Premium and place a greater emphasis on your tachometer or mph. Or choose from two other reconfigurable themes for a tailored driving experience.
An interior that revolves around you. Tailor the CTS with your choice of interior environments. Select from available materials like cut-and-sewn interiors, full Semi-Aniline leather seating, exotic woods and carbon fiber, all skillfully fitted using expert craftsmanship.

20-WAY PERFORMANCE FRONT SEATS
Customizable comfort. Available full Semi-Aniline leather, 20-way performance front seats with power-adjustable seatback bolsters and manual thigh support provide total comfort for the driver and front passenger.
TRI-ZONE CLIMATE CONTROL

Custom comfort in every seat. Available Tri-Zone Climate Control allows the driver, front passenger, and rear passengers to independently control their temperature settings. Rear passengers can also warm up with outboard heated seats.

ADAPTIVE REMOTE START

Enjoy a head start. Adaptive Remote Start allows the engine to be started from up to 100 yards away. The system can also detect the outside temperature and activate the available heated and ventilated seats accordingly.

AMBIENT INTERIOR LIGHTING

Bring the finer things to light. Available ambient lighting subtly highlights the dash and door trim, showcasing the meticulous craftsmanship within.
CUSTOMIZABLE 12.3" LCD DISPLAY
Your information, displayed your way. With either the Balanced (A) or Enhanced (B) themes, customize the display on the available 12.3" LCD screen. Easily view vital information, as well as content like navigation and entertainment in a full-color, HD cluster.

REAR VISION CAMERA
See what lies behind. Rear Vision Camera automatically displays a live image of the area behind you on the Cadillac CUE® screen. Guiding lines on the image plot out your intended trajectory, helping you to see people and objects that might be in your path.

SURROUND VISION
A brand new perspective. Available Surround Vision provides a bird’s-eye view of the area immediately surrounding the vehicle when in low-speed Drive or Reverse. This view, projected on the Cadillac CUE screen, helps increase your awareness when parking or in reverse.
Technology uninterrupted. Customizable features make every ride feel tailor-made to your preferences. From the standard Phone Integration technology to Wireless Charging—the CTS is equipped with progressive technology that offers enhanced enjoyment and convenience.

CADILLAC CUE®

Real-time updates at your fingertips. Simply touch the Cadillac CUE® screen and access a suite of information and entertainment offerings such as Pandora® Radio, available enhanced 3-D GPS Navigation® and new for 2016, Phone Integration compatibility with Apple® CarPlay™. Plus later in the model year, Android™ Auto.

1. The system wirelessly charges one PMA- or Qi-compatible mobile device. To check for phone or other device compatibility, see my.cadillac.com.
2. Cadillac CUE functionality varies by model. Full functionality requires compatible Bluetooth® and smartphone. Some devices require additional connectivity. Data plan rates apply.
3. Data plan rates apply.
5. Vehicle user interfaces are products of Apple and Google and their terms and privacy statements apply. Requires compatible smartphone and data plan rates apply.
TECHNOLOGY

BOSE® TECHNOLOGY
Sumptous sound. The premium 11-speaker Bose sound system plays your favorite music with crystal clarity.
For a more immersive experience, a 13-speaker Bose Surround Sound system features Centerpoint® surround technology, delivering concert-like sound from nearly any stereo source.

PHONE INTEGRATION
Powerfully connected. With Phone Integration compatibility for Apple CarPlay® and later in the model year, Android Auto, you can access your contacts, music, information and more with just the touch of the Cadillac CUE® screen. Plus with voice-activated technology, every feature is easily accessible, so you can keep your attention on the road ahead.

WIRELESS CHARGING
Cut the cord. With Wireless Charging, you can power your compatible devices anytime the vehicle is running.

HEAD-UP DISPLAY
Stay focused and informed. The available Head-Up Display (HUD) with full-color interface conveniently projects speed, audio, and navigation information onto the windshield with a variety of reconfigurable layouts. This system allows the driver to keep full attention on the road for a safer drive.

ONSTAR WITH 4G LTE AND BUILT-IN WI-FI® HOTSPOT®
Never miss an update. Available OnStar with 4G LTE is equipped with a built-in Wi-Fi hotspot that can host up to seven mobile devices, both inside the CTS and up to 50 feet away.

EXTERIOR

Performance-inspired styling. A long, low, lean design philosophy manifests itself in the dramatic angles and sleek aerodynamics that keep the CTS firmly planted to the road. From the sculptural inlaid hood to the integrated rear spoiler, every detail adds up to a look that speaks to its capabilities.

CRYSTALLINE LED LIGHTS

Brilliant. Hundreds of crystalline LED lights accentuate the CTS exterior, providing smooth illumination. Available High-Intensity Discharge (HID) headlamps are equipped with Adaptive Forward Lighting to precisely illuminate your path. And the decklid spoiler doubles as an LED center brake lamp, alerting those behind you when you press the brake.
INLAID HOOD
Dynamic even while standing still. The crisp, curved lines and sculptural elements of the inlaid hood yield a reflective, liquid-like surface so the CTS appears to be in motion, even when it’s still.

ILLUMINATED DOOR HANDLES
Light up the night. Subtle lighting in the CTS door handles improves visibility while enhancing the long, chiseled lines of the exterior.

INTEGRATED REAR SPOILER
A sleek take on utility. The rear spoiler manages critical airflow for a firmly planted feel at higher speeds. At the same time, 48 bright LEDs illuminate when stopping as a signal to vehicles behind.
SAFETY

Drive with confidence. The CTS was painstakingly designed to help keep you and your passengers safe. Available proactive features such as Forward Collision Alert and Side Blind Zone Alert help to detect and alert the driver to avoid potentially dangerous driving scenarios.

SAFETY CAGE

The safety cage inside the CTS is constructed using ultra-high-strength steel and incorporates crumple zones to help absorb and manage crash energy. It’s equipped with 10 standard air bags, including knee air bags for the driver and front passenger and side-impact air bags for rear passengers to help you feel well guarded.

Safety features are no substitute for the driver’s responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the vehicle Owner’s Manual for more important safety information.

Always use safety belts and child restraints. Children are safer when properly restrained in a rear seat in the appropriate child restraint. See the Owner’s Manual for more information.
SIDE BLIND ZONE ALERT

Your extra set of eyes. Side Blind Zone Alert monitors your blind spots. If a vehicle is in your path when you’re changing lanes, a light on the side mirror illuminates to alert you, helping to avoid a collision.

RAINSENSE WIPERS

Better visibility in inclement weather. Rainsense Wipers automatically engage when rainfall is detected. They also adjust their speed according to the rain’s intensity so you can focus on the road, not the weather.

FORWARD COLLISION ALERT

Always looking ahead. Forward Collision Alert uses camera technology to monitor traffic ahead and provide an alert if a potential collision is imminent.

LANE KEEP ASSIST WITH LANE DEPARTURE WARNING

A safe direction. Lane Keep Assist gently turns the steering wheel if you approach a detected lane marking without using a turn signal. With Lane Departure Warning, you’re alerted if you drift into another lane without using your turn signal.

REAR CROSS TRAFFIC ALERT

Progressive protection. Advanced sensors in the rear bumper alert you to vehicles approaching from either side.
SAFETY

AUTOMATIC SAFETY BELT TIGHTENING
Protection you can feel. Available Automatic Safety Belt Tightening activates during emergency braking or sudden driver maneuvers. When conditions return to normal, they revert back again for your comfort.

ADAPTIVE CRUISE CONTROL
Keep your distance. With the available Adaptive Cruise Control, a strategically placed radar and additional camera sensors monitor the gap of the traffic ahead to maintain a safe distance from vehicles to provide you with enough time to stop.

FRONT AND REAR AUTOMATIC BRAKING
Braking when needed. Up to certain speeds, this available system senses potential front and rear collisions and automatically engages the brakes helping to reduce the severity of the crash or may even help you avoid one at very low speeds.

INTELLIBEAM HEADLAMPS
Smarter illumination. Available IntelliBeam headlamps automatically switch to high beams when you’re driving on dark roads. When sensors detect taillamps or oncoming headlamps, they’re automatically switched back to low beams.
The system wirelessly charges one PMA- or Qi-compatible mobile device. To check for phone or other device compatibility, see my.cadillac.com.

Includes "guidelines" indicating the distance between your vehicle and another vehicle. Activates heated/ventilated seats

Available with Chevrolet, Buick, GMC, and Cadillac vehicles. To find out more, go to cadillacaccessories.com or see your dealer.
We have created the most comprehensive suite of owner benefits offered by any prestige automotive brand in the world, providing everything our Cadillac owners need and everything they deserve.

**PREMIUM CARE MAINTENANCE**

The Cadillac Premium Care Maintenance program covers routine oil changes, tire rotations, certain air filter replacements and a thorough multi-point vehicle inspection for 4 years or 50,000 miles.\(^8\)

**WARRANTY PROTECTION**

All Cadillac vehicles come with a 6-year or 70,000-mile Powertrain Warranty. In addition, our 4-year or 50,000-mile-hormo-limited warranty covers repairs on your entire vehicle, including parts and labor to correct any concerns in materials or workmanship.

**ROADSIDE ASSISTANCE**

Cadillac offers more years of standard Roadside Assistance than any leading luxury automaker, with services for 6 years or 70,000 miles.\(^5\) You'll have access to select services, which include limited features of the OnStar RemoteLink app that lets you remotely start your car, pinpoint your vehicle on a map, or lock or unlock your doors—all from your mobile device. Your vehicle can run diagnostic checks on itself and remind you of servicing needs to email.

**CONTRIBUTED TRANSPORTATION**

This program provides alternative transportation and reimbursement of certain transportation expenses if your Cadillac requires warranty repairs for 6 years or 70,000 miles.\(^6\) That's more years of service standard than any leading luxury automaker.

**MY CADILLAC APP**

The ingenuity of the CTS doesn't stop with the vehicle. As a Cadillac owner, an advanced app is available for your new car. From virtually anywhere at any time, a few taps of your finger on your iPhone or Android\(^\text{®}\) smartphone let you access features such as parking reminders, Roadside Assistance and more. Plus, in conjunction with the OnStar RemoteLink mobile app, you'll have the ability to remotely start your vehicle (when factory-equipped with remote start) or lock or unlock your doors—all from your mobile device. Your vehicle can run diagnostic checks on itself and remind you of servicing needs to email.

**ONSTAR**

With the Basic Plan, you'll get a powerful connection to your vehicle and the world around you standard for five years at no additional cost. You'll have access to select services, which include limited features of the OnStar RemoteLink app that lets you remotely start your car, pinpoint your vehicle on a map, or lock or unlock your doors—all from your mobile device. Your vehicle can run diagnostic checks on itself and remind you of servicing needs to email.

**EMERGENCY SERVICES**

One push of the red emergency button gives you a priority connection to a specially trained OnStar Advisor who can direct emergency services to your exact location and offer critical assistance until help arrives. With OnStar, you're never alone.

**CRISIS ASSIST**

During severe weather or other crisis situations, OnStar can provide a quick, central point of contact when you need emergency assistance, navigation help or information.

**ROADSIDE ASSISTANCE**

If you're stranded, have a flat tire or need a tow truck, just ask an OnStar Advisor to get to your exact location to get you back on the road quickly.

**STOLEN VEHICLE ASSISTANCE**

If your vehicle is stolen, OnStar can use GPS to pinpoint and work with investigators to quickly help recover it. On many models, an Advisor can send a signal to slow the vehicle or prevent it from being restarted. And with the new Thief Alert Notification feature, if your car alarm sounds, you'll receive a notification by text, email, or phone call.

**MY CADILLAC APP**

In the unlikely event of a theft, your car can email your diagnostics report to the dealer when it's time, and the dealer will contact you to set up a service appointment.

**ONSTAR BASIC PLAN**

With the Basic Plan, you'll get a powerful connection to your vehicle and the world around you standard for five years at no additional cost. You'll have access to select services, which include limited features of the OnStar RemoteLink app that lets you remotely start your car, pinpoint your vehicle on a map, or lock or unlock your doors—all from your mobile device. Your vehicle can run diagnostic checks on itself and remind you of servicing needs to email.
Low-profile tires wear faster, and wheel and tire damage may occur on rough or damaged roads from surfaces or curbs, debris or obstacles. This damage is not covered by the GM New Vehicle Limited Warranty.

GM-approved tire and wheel combinations. Unapproved combinations may change the vehicle’s performance characteristics. For important tire and wheel information, go to your Cadillac dealer for complete details. Any variations in colors shown are due to production variations. Some photographs in this catalog show vehicles with optional equipment.

NEW-VEHICLE LIMITED WARRANTY

World-class coverage comes standard on every 2016 Cadillac. This warranty is for Cadillac vehicles registered in the U.S.A. See your Cadillac dealer for terms and conditions.

COVERED FOR 5 YEARS/70,000 MILES (WHICHEVER COMES FIRST)

Powertrain limited warranty with no deductible. Roadside Assistance Program® and Courtesy Transportation Program®

COVERED FOR 4 YEARS/50,000 MILES (WHICHEVER COMES FIRST)

Bumper-to-bumper coverage. Tires—defects in material and workmanship; repairs made to correct any vehicle defect; corrosion on body sheet metal panels.

RUST-THROUGH COVERAGE

Cadillac vehicles are designed and built to resist corrosion and rust-through corrosion. Any body sheet metal that corrosion through (in the form of an actual hole in the sheet metal) is covered for six years and unlimited mileage. Cosmetic or surface corrosion—resulting from stone chips or scratches in the paint, for example—is not included in the rust-through coverage. Application of additional rust-inhibiting materials is not required under the rust-through coverage and none is recommended. See your Cadillac dealer for terms of this limited warranty.

FLEET ORDERS

Some standard content may be deleted with fleet orders. See dealer for details.

ENGINE

Cadillac

Cadillac products are equipped with engines produced by GM Powertrain or suppliers to GM worldwide. The engines in Cadillac products may also be used in other GM makes or models.

ASSEMBLY

Cadillac vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Cadillac vehicles from different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

UPDATED SERVICE INFORMATION

Cadillac dealers receive useful service bulletins about Cadillac products. You may purchase them from Helm Incorporated by calling 1-800-782-4358 or by visiting www.helminc.com.

DIESEL ENGINE

Diesel engine is for Cadillac vehicles registered in the U.S.A. See your Cadillac dealer for terms.

WHEELS

17” ALUMINUM WHEELS WITH PAINTED FINISH

Standard on CTS

18” ALUMINUM WHEELS WITH POLISHED FINISH

Available on CTS Performance Collection

Available on CTS Performance Collection

18” ALUMINUM WHEELS WITH MIDNIGHT SILVER PREMIUM PAINTED FINISH

Standard on CTS V-Sport; includes performance summer-only run-flat tires

Included in V-Sport Package on CTS Luxury, Performance and Premium Collections

18” ALUMINUM WHEELS WITH ULTRABRIGHT FINISH & MIDNIGHT SILVER PAINTED POCKETS

Standard on CTS V-Sport Premium Collection; includes performance, summer-only run-flat tires

Low-profile tires wear faster, and wheel and tire damage may occur on rough or damaged roads from surfaces or curbs, debris or obstacles. This damage is not covered by the GM New Vehicle Limited Warranty.

ROADSIDE ASSISTANCE PROGRAM AND COURTESY TRANSPORTATION PROGRAM

Roadside Assistance Program and Courtesy Transportation Program are not part of the New-Vehicle Limited Warranty. A separate booklet, "Warranty and Owner Assistance Information" furnished with each new vehicle provides detailed warranty coverage information.
