Selections

CTS Premium Luxury in Stellar Black Metallic. Shown with available equipment.
The tailored CTS interior features striking materials, including real wood trim and supple yet strong available Semi-Aniline leather engineered for durability and delight. In every case, these options are curated to work together beautifully, so no matter which you choose, the cabin will be a stunning expression of your personal style.
Preferred seating
20-way performance front seats are available in Semi-Aniline leather and feature power-adjustable seatback bolsters and manual thigh support.

Very personal comfort
Available Tri-Zone Climate Control allows driver, front and rear passengers to adjust temperatures individually.

A head start, with a smart start
Integrated into your key fob, Adaptive Remote Start engages the engine from up to 100 yards away, and can also sense outside temperature to activate the appropriate cabin climate control.

Lighting so ingeniously hidden, it’s revealing
Ambient interior lighting employs LED spotlights and light pipes to subtly highlight cabin craftsmanship.
A forward-looking rear view
When in reverse, the Rear Vision Camera automatically displays a live image of the area behind you on the Cadillac CUE screen. Guidelines plot your intended trajectory, helping you see people and objects that might be in your path.

A higher look at what surrounds
Available Surround Vision provides a bird’s-eye view of the area immediately surrounding the vehicle when in low-speed Drive or Reverse. This view, projected on the Cadillac CUE screen, helps increase your awareness when parking or in Reverse.

Determine your data
An available, customizable 12.3” diagonal LCD Gauge Cluster allows you to choose how to display vehicle data, entertainment, communications and navigation information in full color.

A brilliant look back
With just a touch, the available Rear Camera Mirror streams HD video to the rearview mirror. This view (A) offers substantially more vision than an ordinary mirror. And a simple toggle instantly reverts it back to a traditional mirror (B).
EXTERIOR

OFFERED FEATURES:
CRYSTALLINE LED LIGHTS • INTELLIBEAM HEADLAMPS • INLAID HOOD • ILLUMINATING DOOR HANDLES • INTEGRATED REAR SPOILER • CARBON BLACK PACKAGE WITH DISTINCT EXTERIOR AND INTERIOR FEATURES

METAL RICH WITH MEANING

Cutting-edge aerodynamics, innovative lighting, advanced metal work. These, and the belief that a vehicle should move you even when standing still, are all hallmarks of CTS exterior design.
Illuminating innovation
The hundreds of crystalline LED lights that accentuate the exterior are also more energy efficient than traditional technologies. Available High-Intensity Discharge (HID) headlamps feature Adaptive Forward Lighting that automatically turns headlamps according to steering wheel inputs to provide improved road illuminations.

A grand entrance is all but guaranteed
The powerful lines, curves and planes of the inlaid hood are the metal-crafter’s work at its most sophisticated.

Innovation you can see
Available Intellibeam headlamps automatically turn high beams on or off, according to outside conditions. The system also disengages high beams when approaching headlamps or taillamps are within range.

A concealed advantage
Hidden behind the grille, the Active Aero Grille Shutters automatically close to maximize aerodynamics when additional cooling is not required.

A smart finish
The integrated rear spoiler features a 48-LED center brake lamp to help manage airflow and create downward force.

Improved visibility with impressive style
Available Illuminating Door Handles deliver both.
PERFORMANCE

OFFERED FEATURES:

- 3.6L V6 TWIN TURBO, 3.6L V6 OR 2.0L I4 TURBO ENGINES
- 8-SPEED AUTOMATIC TRANSMISSION
- MAGNESIUM PADDLE SHIFTERS AND DRIVER-SELECTABLE MODES
- MAGNETIC RIDE CONTROL
- ALL-WHEEL DRIVE WITH ACTIVE TORQUE TECHNOLOGY
- ACTIVE FUEL MANAGEMENT
- FRONT BREMBO® PERFORMANCE BRAKES
- WEIGHT BALANCE

PROVEN ON THE FAMED NÜRBURGRING TEST TRACK

Experience authoritative acceleration and dynamic handling each and every moment. From remarkably powerful and efficient engines, to precise handling and a finely tuned suspension, driving the 2017 CTS is to enjoy, to the fullest, the prerogatives of performance.
Fierce and efficient engine options
For maximum performance, the available 3.6L V6 Twin Turbo delivers a pulse racing 420 hp and 430 lb-ft of torque. The available 3.6L V6 is equipped with Active Fuel Management and delivers 335 hp. The standard 2.0L Turbo 4-cylinder delivers a potent 268 hp and a Cadillac-estimated 30 highway mpg. All engines are paired with an intelligent 8-speed automatic transmission for responsive shifting, and each features Auto Stop/Start technology for optimal efficiency.

Innovation firing on all cylinders
Active Fuel Management imperceptibly activates or deactivates 2 of the 6 cylinders, found within the 3.6L engine, according to your driving needs.

Precision balanced with 50/50 weight distribution
Advanced alloys and engineering create near-perfect 50/50 front-to-rear weight distribution for improved handling and cabin quiet. The Rear-Wheel Drive CTS is among the lightest in its class.
Race-proven
Carved from lightweight aluminum alloy, Brembo front brakes bring a host of advantages including greater stopping power and wear resistance.

Power controlled is power enjoyed
Magnesium Paddle Shifters allow you to move through the 8-speed automatic transmission manually. And driver-selectable modes (Tour, Sport, Snow/Ice and, with V-Sport models, Track) let you tune the steering, suspension and transmission depending on road conditions and your preference.

Reading the road 1000 times a second
Cadillac’s Magnetic Ride Control automatically adjusts the suspension to road quality and weather conditions. The system reads the road up to 1000 times a second, tuning the suspension for a highly responsive, smoother drive in otherwise shaky scenarios.

Sure footing
For additional control, available All-Wheel Drive with Active Torque Technology maximizes stability and handling, delivering impeccable control in less than perfect driving conditions.
IN JUST 4.4 SECONDS, THE CTS V-SPORT REVEALS ITSELF

That’s how long it takes the 420-hp, Twin Turbo V6 engine to propel this remarkable sedan from 0 to 60 mph. A variety of sophisticated handling and vehicle management features assure all this power remains firmly under your control.
Partner in performance
Paired with the 420-hp Twin Turbo-V6 engine, the 8-speed automatic transmission features Performance Algorithm Shifting. This advanced technology maximizes performance by seamlessly selecting the best gear for quicker shifts and a more satisfying drive.

Conquer curves
The electronic Limited-Slip Differential (eLSD) automatically redirects power to the drive wheels with the best traction, for better corner exit acceleration and making driving well balanced throughout a turn in most road conditions.

Style comes full circle
18” 10-spoke Ultrabright machined finish wheels with After Midnight painted pockets complement the V-Sport’s aggressive stance.

Project the information that matters
The available Head-Up Display (HUD) projects speed, audio, navigation and other information onto the front windshield, so you can keep your eyes safely on the road.

Performance: a customized view
Use the available customizable V-Sport Gauge Cluster to emphasize your tachometer, mph or other information in three reconfigurable themes.

Select the most satisfying ride
Four driving modes — Tour, Sport, Track and Snow/Ice — calibrate steering, suspension and transmission depending on your preference and road conditions.

The extraordinary made even more so
V-Sport Premium Luxury enhancements include 20-way performance front seats, Tri-Zone Climate Control, a reconfigurable gauge cluster, as well as a full-color Head-Up Display (HUD).

A VARIETY OF TECHNOLOGIES. A SINGLE FOCUS.

The CTS is equipped with a variety of advanced technologies that deliver one powerful promise—masterful services and convenience. From the satisfying feel of controls to seamless digital interfaces, all meet your needs with the greatest elegance and efficiency.
More than information at your fingertips

Cadillac CUE puts a suite of information and entertainment offerings, including climate, audio, settings control and available 3-D GPS Navigation, at your command. Plus, it offers the all-new Cadillac Collection, where you’ll be able to select and install a range of apps from music to audiobooks to weather style apps. (Data plan rates apply)

Your phone, even smarter

Cadillac CUE Phone Integration with Apple CarPlay™ compatibility allows you to access your contacts, Apple Music™ and other information from your iPhone® with a touch of the screen, shown below. You can also access Siri® features that are easily accessible to you or your front-seat passenger. Phone Integration also offers Android™ Auto compatibility.

Stay connected or engaged

OnStar 4G LTE and available built-in Wi-Fi hotspot¹ allows you to connect up to seven devices at the same time, up to 50 feet away. And just as convenient, compatible devices can be powered with the Wireless Charging feature.²

A special venue deserves audio to match

A premium 11-speaker Bose® sound system is standard equipment. And for a more immersive experience, an available 13-speaker Bose® Surround system features Centerpoint®² surround technology.

CTS Jet Black interior shown with Apple CarPlay and other available equipment.

Performance front and center

Available Head-Up Display (HUD) projects selected information onto the front windshield, so you can keep your eyes safely on the road.

1. Vehicle user interfaces are products of Apple and Google and their terms and privacy statements apply. Requires compatible smartphone and active OnStar service. Data plan rates apply.

2. Requires a compatible mobile device, active OnStar service and data plan. 4G LTE service available in select markets. Visit onstar.com for coverage map, details and system limitations. Data plans provided by AT&T. Phone Integration also offers Android™ Auto compatibility. To check for availability and other device compatibility, see my.cadillac.com.

OFFERED FEATURES: SAFETY CAGE • INTELLIGENT SAFETY SYSTEMS (INCLUDES SIDE BLIND ZONE ALERT WITH LANE CHANGE ALERT, FORWARD COLLISION ALERT & REAR CROSS TRAFFIC ALERT) • RAINSENSE WIPERS • LANE KEEP ASSIST WITH LANE DEPARTURE WARNING • ADAPTIVE CRUISE CONTROL • AUTOMATIC SAFETY BELT TIGHTENING • FRONT AND REAR AUTOMATIC BRAKING • SAFETY ALERT SEAT

A HEALTHY OBSESSION WITH SAFETY

A true focus on driver and passenger well-being is never done. In the CTS, this focus manifests itself in innovations and advances that deliver nothing less than confidence.
Maintain an intelligent space
Adaptive Cruise Control uses both radar and cameras to maintain a set distance between you and the vehicle ahead.

Truly forward thinking
Forward Collision Alert monitors traffic ahead, alerting you if a potential collision is imminent, while Following Distance Indicator shows the following time to the vehicle ahead (in seconds) in the Driver Information Center (DIC).

An intelligent wiper
Rainsense Wipers automatically engage when rain is detected, adjusting their speed to the rain’s intensity. Whenever wipers are activated, Auto-Dry brakes automatically positions the brake pads closer to the rotors to sweep away moisture and improve performance.

Strong enough to crumple
The ultra-high-strength-steel safety cage features strategically placed crumple zones that help absorb and manage crash energy. The safety cage is also equipped with 10 standard air bags, including knee air bags for the driver and front passenger, and side-impact air bags for front and rear passengers.

Firmly reassuring
During emergency braking or sudden maneuvers, Automatic Safety Belt Tightening activates. When conditions revert to normal, they ease automatically.

Grabs your attention. Subtly.
Cadillac’s patented Safety Alert Seat sends a discreet pulse to the left, right or both sides of the driver’s seat, indicating the direction of the threat — left, right or front.

Safety features are no substitute for the driver’s responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the vehicle Owner’s Manual for more important safety information.

Innovation that keeps watch to the front, rear and side

Travel the straight and smart
Using monitors to sense lane boundaries, Lane Keep Assist gently turns the steering wheel if the system anticipates the vehicle is leaving the lane unintentionally or without using your turn signal. Working in conjunction with the Safety Alert Seat, Lane Departure Warning sends a visual alert in the cluster and a warning pulse through the seat cushion.

All clear
Side Blind Zone Alert monitors your blind spots, so if a vehicle is in the adjacent lane, and you’ve activated your turn signal, an icon on the side mirror illuminates to alert you. Lane Change Alert surveys the area well beyond the side blind zone, and flashes the side mirror warning icon to alert you of a rapidly approaching vehicle.

Brighter backing out
When backing out of a parking space, Rear Cross Traffic Alert warns of oncoming traffic to either side of your vehicle.

Gain precious time
Up to certain speeds, Front and Rear Automatic Braking can sense imminent front and rear collisions and automatically engage the brakes, if you have not already done so, helping to reduce the severity of the collision. The system may even help avoid a collision at very low speeds.

With available OnStar® you can get immediate help, outsmart and avoid vehicle theft, reach destinations, stay connected, even manage your vehicle’s health. To learn more, visit cadillac.com/onstar

About this Catalog

We have tried to make this catalog comprehensive and factually accurate. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specific weights, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affidavits to vehicles are approximations based upon design and engineering drawings and prototype and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your Cadillac dealer for complete details. Any variations in colors shown are due to reproduction variation in the printing process. Cadillac reserves the right to lengthen or shorten the model year for any product at any time or start and end model years at different times. Note: Some photographs in this catalog show vehicles with optional equipment.

Assembly

Cadillac vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. The engines in Cadillac products may also be produced by GM or suppliers to GM in the U.S. and other countries. Windows is a registered trademark of Microsoft, Inc. Pandora is a registered trademark of Pandora Media, Inc. SiriusXM is a registered trademark of SiriusXM Satellite Radio Inc. BlackBerry is a registered trademark of BlackBerry Limited. Android is a trademark of Google, Inc. BlackBerry is a registered trademark of Blackberry. Brembo is a registered trademark of Brembo. Bose and AudioPilot are registered trademarks of Bose Corporation. Cadillac is a registered trademark of General Motors Corporation in the U.S. and other countries. Information can be obtained from the Cadillac Owner Center. With available OnStar®, you can stay connected, even manage your vehicle’s health. To learn more, visit cadillac.com/onstar

Updated Service Information

Cadillac dealers receive useful service bulletins about Cadillac products. You may purchase them from Helm Incorporated by calling 1-800-782-4356 or by visiting www.helminc.com.

New Vehicle Limited Warranty

World-class coverage comes standard on every 2017 Cadillac. This warranty is for Cadillac vehicles registered in the U.S. A see your Cadillac dealer for terms and conditions.

Coverage for 6 Years/70,000 Miles (Whichever Comes First)

Powertrain limited warranty with no deductible. Roadside Assistance Program® and Courtesy Transportation Program®

Coverage for 4 Years/50,000 Miles (Whichever Comes First)

Bumper-to-bumper coverage. Tire—defects in material and workmanship; repairs made to correct any vehicle defect; corrosion on body sheet metal panel.

Rust Through Coverage

Cadillac vehicles are designed and built to resist corrosion and rust-through corrosion. Any body sheet metal that rusts through (in the form of an actual hole) is covered for six years or unlimited mileage, cosmetic or surface corrosion—resulting from stone chips or scratches in the paint for example—is not included in the rust-through coverage. Application of additional rust-inhibiting materials is not required under the rust-through coverage and none is recommended. See your Cadillac dealer for terms of this limited warranty.

Fleet Orders

Some standard content may be deleted with fleet orders. See dealer for details.

Wheel Selection

Select CTS dimensions. All measurements in inches.

Select CTS Capacities. All fuel capacities in gallons. All dimensions and weights are approximate and subject to change without notice. Actual vehicle performance may vary from those shown due to factors such as road conditions, load, weather, and optional equipment.
