Ingenious technology. Inspiring performance. Precise craftsmanship. Together they are at your command to turn each and every drive into a masterful experience.

The 2018 CTS.
PASSIONS

Innovation
Performance
Craftsmanship
Advanced technologies with the power to transform a cabin into a cockpit
A collection of engines offers only one choice. Performance.
Every millimeter is a chiseled vision of modern craftsmanship
Attention to detail makes the interior truly transporting.
A VARIETY OF TECHNOLOGIES. A SINGLE FOCUS.

The CTS is equipped with advanced technologies that deliver you one powerful promise—masterful services and convenience. From the satisfying feel of controls to seamless digital interfaces, all meet your needs with the greatest elegance and efficiency.
More than information at your fingertips

The Cadillac user experience acts as a suite of information and entertainment offerings, including climate, audio, settings control and available 3-D GPS Navigation at your command.

Plus, it offers the all-new Cadillac Collection, where you will be able to select and install a range of apps from music to audiobooks to weather. (Data plan rates apply.)

Your phone, even smarter

Phone Integration with Apple CarPlay™ compatibility allows you to access your contacts, Apple Music™ and other information from your iPhone® with a touch of the screen, shown below. You can also access Siri® so features are easily accessible to you or your front-seat passenger. Phone Integration also offers Android™ Auto compatibility.

1. Vehicle user interfaces are products of Apple and Google, and their terms and privacy statements apply. Requires compatible smartphone and data plan rates apply. 2. Requires compatible mobile device, active OnStar service and data plan. 3. System wirelessly charges one PMA- or Qi-compatible mobile device. To check for phone or other device compatibility, see my.cadillac.com. For more information, see my.cadillac.com.

Stay connected or engaged

OnStar 4G LTE and available built-in Wi-Fi hotspot2 allows you to connect to seven devices at the same time, up to 50 feet away from your CTS. And just as convenient, compatible devices can be powered with the Wireless Charging feature.
Vehicles communicating with other vehicles
With V2V communications, you are alerted when other V2V-enabled vehicles that may be out of your sight are braking hard, disabled, in a crash, or experiencing a slippery road. It communicates the traffic situation with cautions ranging from gauge cluster message alerts, sounds or (if equipped) rumbles from the Safety Alert Seat. This can allow you more time to react to hazardous situations.

A premium 11-speaker Bose sound system is standard equipment. And for a more immersive experience, an available 13-speaker Bose Surround system features Centerpoint® 2 surround technology.

Performance front and center
Available Head-Up Display (HUD) projects selected information onto the front windshield, so you can keep your eyes on the road.

A head start is a smart start
Integrated into your key fob, Adaptive Remote Start engages the engine from up to 100 yards away. It can also sense outside temperature to activate the appropriate cabin climate control, as well as heat your steering wheel when needed. Plus, with your myCadillac app, you can lock and unlock, remote start and get select vehicle information from anywhere you have reception.
PERFORMANCE OFFERED FEATURES:

- 3.6L V6 TWIN TURBO, 3.6L V6 OR 2.0L I4 TURBO ENGINES AND 8-SPEED AUTOMATIC TRANSMISSION • MAGNESIUM PADDLE SHIFTERS AND DRIVER-SELECTABLE MODES • MAGNETIC RIDE CONTROL • ALL-WHEEL DRIVE WITH ACTIVE TORQUE TECHNOLOGY • ACTIVE FUEL MANAGEMENT • FRONT BREMBO PERFORMANCE BRAKES • WEIGHT BALANCE

PROVEN POWER AND ENDURANCE

Tested on the famed Nürburgring track, the CTS is validated to perform for you. Experience authoritative acceleration and dynamic handling each and every moment. From remarkably powerful and efficient engines, to precise handling and a finely tuned suspension, driving the 2018 CTS is to enjoy the prerogatives of performance.
Innovation firing on all cylinders
Active Fuel Management imperceptibly activates or deactivates 2 of the 6 cylinders, found within the 3.6L engine, according to your driving needs.

Race-proven
Carved from lightweight aluminum alloy, Brembo front brakes bring a host of advantages including greater stopping power and wear resistance.

Fierce and efficient engine options
For maximum performance, the available 3.6L V6 Twin Turbo delivers a pulse-racing 420 hp and 430 lb-ft of torque. The available 3.6L V6 delivers 335 hp. The standard 2.0L Turbo 4-cylinder delivers a potent 259 hp and a Cadillac-estimated 30 highway mpg. All engines are paired with an intelligent 8-speed automatic transmission for responsive shifting, and each features Auto Stop/Start technology for optimal efficiency.

Power controlled is power enjoyed
Magnesium Paddle Shifters allow you to move through the 8-speed automatic transmission manually. And driver-selectable modes (Tour, Sport, Snow/Ice and, with V-Sport models, Track) let you tune the steering, suspension and transmission depending on road conditions and your preference.

Reading the road 1000 times a second
Cadillac’s available Magnetic Ride Control automatically adjusts the suspension to road quality and weather conditions. The system reads the road up to 1000 times a second, tuning the suspension for a highly responsive, smoother drive in otherwise shaky scenarios.

Precision balanced with 50/50 weight distribution
Advanced alloys and engineering create near-perfect 50/50 front-to-rear weight distribution for improved handling and cabin quiet. The Rear-Wheel Drive CTS is among the lightest in its class.

Sure footing
For additional control, available All-Wheel Drive with Active Torque Technology maximizes stability and handling, delivering impeccable control in less than perfect driving conditions.

IN JUST 4.4 SECONDS, THE CTS V-SPORT REVEALS ITSELF

That's how long it takes the 420-hp, Twin Turbo V6 engine to propel this remarkable sedan from 0 to 60 mph. A variety of sophisticated handling and vehicle management features assure all this power remains firmly under your control.

OFFERED FEATURES: 8-SPEED AUTOMATIC TRANSMISSION • 18" WHEELS WITH SUMMER-ONLY PERFORMANCE TIRES • ELECTRONIC LIMITED-SLIP DIFFERENTIAL • HEAD-UP DISPLAY • V-SPORT GAUGE CLUSTER • PERFORMANCE DRIVER-SELECTABLE MODES • V-SPORT PREMIUM LUXURY
Partner in performance
Paired with the 420-hp, Twin Turbo V6 engine, the 8-speed automatic transmission features Performance Algorithm Shifting. This advanced technology maximizes performance by seamlessly selecting the best gear for quicker shifts and a more satisfying drive.

Style comes full circle
18” 10-spoke summer-only wheels with Ultrabright machined finish with After Midnight painted pockets complement the V-Sport’s aggressive stance.

Conquer curves
The electronic Limited-Slip Differential (eLSD) automatically redirects power to the drive wheels with the best traction, for better corner exit acceleration and making driving well balanced throughout a turn in most road conditions.

Project the information that matters
The available Head-Up Display (HUD) projects speed, audio, navigation and other information onto the front windshield, so you can keep your eyes on the road.

Performance: a customized view
Use the available customizable V-Sport Gauge Cluster to emphasize your tachometer, mph or other information in three reconfigurable themes.

Select the most satisfying ride
Four driving modes—Tour, Sport, Track and Snow/Ice—calibrate steering, suspension and transmission depending on your preference and road conditions.

The extraordinary made even more so
V-Sport Premium Luxury enhancements include 20-way performance front seats, Tri-Zone Climate Control, a reconfigurable gauge cluster, as well as a full-color Head-Up Display (HUD).

6. Do not use summertime tires in winter conditions, as it would adversely affect vehicle safety performance and vehicle handling. Each tire on your vehicle can be remounted on four seasonal tires for a total of five seasonal tires. The electronic Limited-Slip Differential is not designed for snow or ice conditions and may not provide the expected traction in such severe driving conditions. A full-season tire set may provide better traction and performance for snow or ice conditions. For more information, go to https://my.cadillac.com/cadillactires/ or see your dealer.

DO NOT USE SUMMER TIRES IN WINTER CONDITIONS. SUMMER TIRES ARE MADE FOR NON-WINTER CONDITIONS. USE ONLY GM-APPROVED TIRE AND WHEEL COMBINATIONS. UNAPPROVED COMBINATIONS MAY AFFECT PERFORMANCE, HANDLING, AND BRAKING TO THE EXTENT THAT THE VEHICLE MAY NOT MEET THE REQUIREMENTS OF THE LAW FOR USE ON ROADWAYS. DO NOT USE SUMMER TIRES IN WINTER CONDITIONS. SUMMER TIRES ARE MADE FOR NON-WINTER CONDITIONS. USE ONLY GM-APPROVED TIRE AND WHEEL COMBINATIONS. UNAPPROVED COMBINATIONS MAY AFFECT PERFORMANCE, HANDLING, AND BRAKING TO THE EXTENT THAT THE VEHICLE MAY NOT MEET THE REQUIREMENTS OF THE LAW FOR USE ON ROADWAYS.
The tailored CTS interior will delight you. Surround yourself with striking materials, such as real wood trim and supple, yet strong available Semi-Aniline leather. Every option is curated to work together beautifully, so no matter which you choose, the cabin will be a stunning expression of your personal style.
Preferred seating
20-way performance front seats are available in Semi-Aniline leather and offer you power-adjustable seatback bolsters and manual thigh support.

Very personal comfort
Available Tri-Zone Climate Control allows driver, front and rear passengers to adjust temperatures individually.

Lighting so ingeniously hidden, it’s revealing
Ambient Interior Lighting employs LED spotlights and light pipes to subtly highlight the craftsmanship within your cabin.
Determine your data
An available, customizable 12.3" diagonal LCD Gauge Cluster allows you to choose how to display vehicle data, entertainment, communications and navigation information in full color.

A forward-looking rear view
When in Reverse, the standard Rear Vision Camera automatically displays a live image of the area behind you on the Cadillac user experience screen. Guidelines plot your intended trajectory, helping you see objects that might be in your path.

A higher look at what surrounds
With available Surround Vision, you have a bird’s-eye view of the area immediately surrounding the vehicle when in low-speed Drive or Reverse. This view, projected on the Cadillac user experience screen, helps increase your awareness when parking or in Reverse.

A brilliant look back
With just a touch, the available Rear Camera Mirror streams HD video to the rearview mirror. This view (A) offers a wider, less obstructed view than an ordinary mirror. And a simple toggle instantly reverts it back to a traditional mirror (B).

(A) ENHANCED VIEW WITH STREAMING HD DIGITAL MIRROR
(B) TRADITIONAL VIEW WITH REARVIEW MIRROR
EXTERIOR

OFFERED FEATURES: CRystalline LED LIGHTS • INTELLibeam HEADLAMPS • INLAID HOOD • ILLuminating DOOR HANDLES • INTEGRATED REAR SPOILER • MORELLO RED SPECIAl EDITION

METAL RICH WITH MEANING

Cutting-edge aerodynamics, innovative lighting, advanced metal work. These, and the belief that a vehicle should move you even when standing still, are all hallmarks of CTS exterior design.
Illuminating innovation
The hundreds of crystalline LED lights that accentuate the exterior are also more energy efficient than traditional technologies. Available High-Intensity Discharge (HID) headlamps feature Adaptive Forward Lighting. That technology automatically turns the headlamps according to your steering wheel and provides you with improved road illumination.

A grand entrance is all but guaranteed
The powerful lines, curves and planes of the inlaid hood are the metalcrafter’s work at its most sophisticated.

Innovation you can see
Available Intellibeam headlamps automatically turn high beams on or off according to outside conditions. The system also disengages high beams when approaching headlamps or taillamps are within range.

A concealed advantage
Hidden behind the grille, the Active Aero Grille Shutters automatically close to maximize aerodynamics when additional cooling is not required.

A smart finish
The integrated rear spoiler features a 48-LED center brake lamp to help manage airflow and create downward force.

Improved visibility with impressive style
Available Illuminating Door Handles deliver both.
A HEALTHY OBSESSION WITH SAFETY

A true focus on driver and passenger well-being is never done. In the CTS, this focus manifests itself in innovations and advances that deliver nothing less than confidence.

OFFERED FEATURES: SAFETY CAGE • INTELLIGENT SAFETY SYSTEMS (INCLUDES LANE CHANGE ALERT WITH SIDE BLIND ZONE ALERT AND FORWARD COLLISION ALERT) • REAR CROSS TRAFFIC ALERT • RAINDSENSE WIPERS • LANE KEEP ASSIST WITH LANE DEPARTURE WARNING • ADAPTIVE CRUISE CONTROL • AUTOMATIC SAFETY BELT TIGHTENING • FORWARD AND REVERSE AUTOMATIC BRAKING • SAFETY ALERT SEAT
Surrounded by safety innovation

**Maintain an intelligent space**
Available Adaptive Cruise Control employs both radar and cameras to maintain a set selected distance between you and the detected vehicle ahead.

**Truly forward thinking**
Available Forward Collision Alert monitors traffic ahead, alerting you if a potential collision is imminent, while available Following Distance Indicator shows the following time to the detected vehicle ahead (in seconds) in the Driver Information Center (DIC).

**An intelligent wiper**
Available Rainsense Wipers automatically engage when rain is detected, adjusting their speed to the rain's intensity. Whenever wipers are activated, Auto-Dry brakes automatically position the brake pads closer to the rotors to sweep away moisture and improve performance.

**Strong enough to crumple**
The ultra-high-strength steel safety cage features strategically placed crumple zones that help absorb and manage crash energy. The safety cage is also equipped with 10 standard air bags, including area air bags for the driver and front passenger, and side-impact air bags for front and rear passengers.

**Travel the straight and smart**
Using a camera to sense lane boundaries, available Lane Keep Assist gently turns the steering wheel if the system anticipates the vehicle is leaving the lane unintentionally or without using your turn signal. Working in conjunction with the available Safety Alert Seat, Lane Departure Warning sends a visual alert in the cluster and a warning pulse through the seat cushion if your vehicle crosses the lane marking.

**Brighter backing out**
When backing out of a parking space, available Rear Cross Traffic Alert warns of oncoming traffic to either side of your vehicle and provides an audible warning or a pulse to the Safety Alert Seat.

**Firmly reassuring**
During emergency braking or sudden maneuvers, available Automatic Safety Belt Tightening activates. When conditions revert to normal, they ease automatically.

**Grabs your attention. Subtly.**
Cadillac’s available patented Safety Alert Seat sends a discreet pulse to the left, right or both sides of the driver’s seat, indicating the direction of the threat — left, right, front or rear.

**Gain precious time**
Up to certain speeds, available Forward and Reverse Automatic Braking can sense imminent forward and reverse collisions and automatically engage the brakes, helping you reduce crash impacts.

**All clear**
Available Lane Change Alert surveys the area well beyond the side blind zone, and illuminates the side mirror warning icon to alert you of a rapidly approaching vehicle. Available Side Blind Zone Alert monitors your blind spots, so if a vehicle is in the adjacent lane, it also illuminates the side mirror icon. In both features, if you’ve activated your turn signal, the icon on the side mirror will flash to alert you.

Safety features are no substitute for the driver’s responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the vehicle Owner’s Manual for more important safety information.
Driver Control Center

The center front console offers three themes: Enhanced, Balanced, and Stealth. These enhancements:

Enjoy Luxury Features +

Performance Brake Linings

Front Camera

Includes front, rear, parallel and perpendicular parking assistance

OnStar Guidance Plan

For 3 months after vehicle sale or 3/31/2024 (whichever occurs first)

OnStar 4G LTE Anti-Theft-Deterrent System

Easy to see, easy to control.

If you own one of these vehicles, you can enroll now at my.cadillac.com/learnAbout/cadillactires/ or see your dealer for more details and system limitations. OnStar acts as a link to existing emergency service providers.

3.6L Twin-Turbo V6 gas engine

With three-month trial

Available in 2018 CT6 models. For more information, go to my.cadillac.com/learn. Visit onstar.com for coverage map, details and system limitations. Some features require factory-installed remote start, power locks, Tire Pressure Monitoring System or active OnStar service.
With available OnStar you can get immediate assistance, outsmart and avoid vehicle theft, reach destinations, stay connected, even manage your vehicle’s health. To learn more, visit: cadillac.com/onstar

UPDATE SERVICE INFORMATION

Cadillac dealers receive useful service bulletins about Cadillac products. You may purchase them from Helm Incorporated by calling 1-800-782-4356 or by visiting www.helm.com

NEW VEHICLE LIMITED WARRANTY

World-class coverage comes standard on every Cadillac. This warranty is for Cadillac vehicles registered in the U.S. See your Cadillac dealer for terms and conditions.

COVERED FOR 6 YEARS/70,000 MILES (WHICHEVER COMES FIRST)

Powertrain limited warranty with no deductible. Roadside Assistance Program and Courtesy Transportation Program.

COVERED FOR 4 YEARS/50,000 MILES (WHICHEVER COMES FIRST)

Bumper-to-bumper coverage. Tires—defects in material and workmanship; repairs made to correct any vehicle defect, corrosion on body sheet metal panels.

RUST-THROUGH COVERAGE

Cadillac vehicles are designed and built to resist corrosion and rust-through coverage and none is recommended. See your Cadillac dealer for terms of coverage.

RUST-THROUGH COVERAGE—COVERED FOR 6 YEARS/70,000 MILES (WHICHEVER COMES FIRST)

Cadillac vehicles are designed and built to resist corrosion and rust-through coverage and none is recommended. See your Cadillac dealer for terms of coverage.

FLEET ORDERS

Some standard content may be deleted with fleet orders. See dealer for details.
