High-intensity discharge (HID) headlamps are available to automatically adjust from high- to low-beam and back, to enhance visibility.

Performance Handling Package, including 18" chrome wheels, performance tires, and Brembo® brakes, is available.

ZF Servotronic® steering, an available feature, delivers precise high-speed cornering, while high-performance sound suppression minimizes engine noise and vibration.

Prominent LED vertical taillamp design is a Cadillac signature, and clearly visible to following drivers.

It’s there in the dramatic lines. It’s evident in every detail. The Cadillac STS stands firmly on the line that blurs performance and sophistication. With a standard 302hp 3.6L direct injection V6 for power, available ZF Servotronic® steering that allows precise high-speed cornering, high-performance suppression that minimizes engine noise and available 18" chrome wheels and Brembo® brakes, it’s the perfect union of performance and sophistication.
Adaptive Remote Start activates the engine, climate control, seat heater and optional navigation systems for the ultimate convenience.

**Bose® 5.1 Studio Surround® sound system** is an available feature. It offers Centerpoint® signal processing and AudioPilot® noise compensation technology.

8-way power-adjustable front seats and articulating head restraints with whiplash protection.

Driver Awareness Package includes Side Blind Zone Alert, Lane Departure Warning and 4-color Head-Up Display issuing visual and/or audible alerts when necessary.

Inside the STS, awaits a world all your own. Keyless access, power tilt and telescoping steering wheel, and available driver memory settings greet you properly from the start. Standard OnStar® offers Directions & Connections Plan, eNav and a 3-month trial of XM Radio®.

Heated and ventilated front seats, polished Sapele wood trim, Bluetooth® phone connectivity, navigation and a Bose® 5.1 Studio Surround® sound system are all available to further orchestrate your personal reception.

Ultrasonic Rear Park Assist issues audible alerts to help you see what’s out of sight behind you.

1 Before making a lane change, always check the SBZA display, check the side and rear mirrors, look over your shoulder for vehicles and hazards, and activate the turn signal.

2 Visit onstar.com for coverage map, details and system limitations.

3 Requires a subscription sold separately by XM after trial period. Available only in the 48 contiguous United States and District of Columbia. Visit gm.xmradio.com for details.

4 Go to gm.com/bluetooth to find out which Bluetooth phones are compatible with this vehicle.

5 Map coverage available in the contiguous United States, Hawaii and portions of Canada.

**The STS Interior**

The STS Platinum features Tuscan full-leather seats, Olive Ash wood trim with Saddle stain, Alcantara® luxury ultra-microfiber upper trim, a luxurious leather-wrapped interior, premium floor mats, 18" chrome wheels, and Platinum-specific door sill plates.
The DTS is an open invitation to a world of luxurious performance, with an available 4.6L Northstar V8 that delivers 292hp, so you can rest assured that you'll be arriving at your favorite destinations soon enough. The available Magnetic Ride Control suspension system uses advanced sensors that read the road up to 1,000 times a second, then automatically applies the necessary dampening forces to improve handling and ride quality.

Vertical LED taillamp design is a Cadillac signature, and is clearly visible to following drivers.

Adaptive Cruise Control, an available feature, uses radar to help you maintain your specified following distance automatically and effortlessly.

High-Intensity Discharge (HID) headlamps light the way and available IntelliBeam automatically adjusts from high- to low-beam and back, to enhance visibility.

Adaptive Cruise Control is no substitute for the driver’s personal responsibility to operate the vehicle in a safe manner. The driver needs to remain alert to traffic and road conditions and should be ready to apply the brakes at any time to stop the vehicle. A system cannot control driver error or overcome the laws of physics. It is the driver’s responsibility to remain alert, exercise proper and effective control and braking, and obey all traffic and road conditions. Do not use Adaptive Cruise Control in conditions of poor visibility or when it becomes impractical to maintain a safe following distance, such as in heavy traffic or slippery road conditions.
Driver Awareness Package

option with Side Blind Zone Alert and Lane Departure Warning issues visual and/or audible alerts when necessary.

Adaptive Remote Start
activates the engine, climate control, defroster and optional heated or cooled front seats for utmost convenience.

The DTS Platinum features a leather-wrapped console and instrument panel, tubular full leather seats, Alcantara® luxury ultra-microfiber upper trim, genuine Light Ash wood trim with decorative inlays, premium floor mats, 18" chrome tech wheels, unique chrome grille and door handles, and illuminated door sill plates.

Memory settings, an available feature, automatically adjust the driver's seat, power tilt and telescoping steering wheel (when equipped), outside mirrors, and audio and climate settings for two drivers.

Before making a lane change, always check the SBZA display, check the side and rear mirrors, look over your shoulder for vehicles and hazards, and activate the turn signal.

Craftsmanship speaks for itself. The DTS interior features available premium TEHAMA full-leather seats, heated and cooled front seats, leather-wrapped multifunction power tilt and telescoping steering wheel, and Burled Walnut wood trim. Included are standard OnStar® one-year Directions & Connections Plan and a 3-month trial of XM Radio® Bluetooth® phone connectivity, Bose® Centerpoint® surround sound system, and navigation® with voice recognition and eNav are available.

XM NavTraffic® is an optional, satellite-delivered traffic information service that displays real-time traffic data when equipped with available navigation system.
Passenger safety is a primary consideration throughout the engineering process. The STS and ATS were carefully designed to provide a host of features to help you from getting into a collision in the first place.

Safety Information

By comparing driver steering input with vehicle response, the Electronic Stability Control System helps you maintain control by quickly applying ABS brakes to any wheel that begins to slip, and helps direct energy away from the passenger compartment in the event of an impact.

Six Airbags

- Dual-stage frontal airbags and seat-mounted side airbags for the driver and outboard front passengers
- Head curtain, side-impact airbags mounted in the roof rail help protect both outboard front and outboard rear passengers in the event of a side impact.

OnStar® Automatic Crash Response

A sensor in each tire constantly monitors air pressure. If there is a drop in pressure, you will receive an alert via the Driver Information Center. By driving a Cadillac, you’re part of a select group that enjoys special privileges, like the new Cadillac Owner Center where you can automatically send an alert to OnStar. An OnStar Advisor is immediately connected to your vehicle to see if you’re okay. Even if you don’t respond, the Advisor can use GPS technology to locate you and request that emergency help be sent right away.

Automatic Crash Response

OnStar® immediately connected to your vehicle to see if you’re okay. Even if you don’t respond, the Advisor can use GPS technology to locate you and request that emergency help be sent right away.

About this catalog
We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximate based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing (08/10), please check with your Cadillac dealer for complete details. Any variations in colors shown are due to reproduction variation in the printing process.

Cadillac reserves the right to lengthen or shorten the model year for any product for any reason, or start and end model years at different times.

Note: Some photographs in this catalog show vehicles with optional equipment.

OnStar
OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Call 1-888-4ONSTAR (466-7827) or visit onstar.com for OnStar's Terms and Conditions, Privacy Policy and details and system limitations.

Engines
Cadillac products are equipped with engines produced by GM Powertrain or suppliers to GM worldwide. The engines in Cadillac products may also be used in other GM makes or models.

Tire Sealant and Compressor Kit
Unless you option into a spare tire, there is no jack or spare tire in this vehicle. If you do not option into the spare tire, your vehicle has a tire sealant and compressor kit that uses a liquid tire sealant to temporarily seal up to a ¼-inch puncture in the tread area of the tire. After using the inflator kit, it is recommended to take the tire to an authorized dealer for inspection and repair as soon as possible but at least within 100 miles of driving. The tire sealant cannot seal and inflate sidewall damage, punctures larger than ¼ inch, or a tire that has unseated from the wheel. The sealant can only be used on one tire one time before its expiration date.

Assembly
Cadillac vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Cadillac vehicles with different or differently sourced components than originally scheduled. Since some options may be unavai}

Updated Service Information
Cadillac dealers receive useful service bulletins about Cadillac products. You may purchase them from Helm Incorporated by calling 1-800-551-4123 or by visiting www.helminc.com.

New Vehicle Limited Warranty
The Best Luxury Coverage in the Industry, standard on every 2011 Cadillac. This warranty is for Cadillac vehicles registered in the U.S.A. See your Cadillac dealer for terms and conditions.

Covered for 5 Years/100,000 Miles (Whichever Comes First):
- Powertrain Limited Warranty with no deductible
- Roadside Assistance Program
- Courtesy Transportation Program

Covered for 4 Years/50,000 Miles (Whichever Comes First):
- Bumper-to-Bumper coverage
- Tires – Defects in material and workmanship
- Repairs made to correct any vehicle defect
- Corrosion on body sheet metal panels

Rust Through Protection
Cadillac vehicles are designed and built to resist corrosion and rust-through corrosion. Any body sheet metal that rusts through (in the form of an actual hole in the sheet metal) is covered for six years unlimited mileage. Cosmetic or surface corrosion, resulting from stone chips or scratches in the paint, for example, is not included in the Rust Through coverage. Application of additional rust-inhibiting materials is not required under the Rust Through coverage and none is recommended. See your Cadillac dealer for terms of this limited warranty.

Fleet Orders
Some standard content may be deleted with fleet orders. See dealer for details.

1 Roadside Assistance Program and Courtesy Transportation Program are not a part of the New Vehicle Limited Warranty. A separate booklet entitled "Warranty and Owner Assistance Information" furnished with each new vehicle provides detailed warranty coverage information.
