As formidable on the track as it is convenient on the road. Making the refined raw. The practical, passionate. When you select the V-Series, you accept the challenge of a track-capable performer that is also a premier daily driver. Obtain performance, innovation and craftsmanship on another level.

The 2018 Cadillac V-Series.
Performance woven with state-of-the-art technologies
Design that is purposeful, yet provoking
Interior comfort and conveniences that place the perfect finish
FEATURES

INNOVATIVE PERFORMANCE
SAFETY
COMFORT AND CONVENIENCE
SELECTIONS
TRANSPORT YOURSELF

With technologically advanced driving, the V-Series will take you many places. Sedan or Coupe, each is intertwined with an array of technologies and high-performance features that do not just look ahead, but quickly overtake wherever you are headed.

OFFERED FEATURES: POWERFUL ENGINE CHOICES • 6-SPEED MANUAL (ATS ONLY) OR 8-SPEED AUTOMATIC • MULTIPLE HEAT EXCHANGERS • AERODYNAMIC EXTERIOR • LIGHTWEIGHT FRAME • CARBON FIBER PACKAGE • MAGNETIC RIDE CONTROL • ZF STEERING • "MICHELIN PILOT® SUPER SPORT TIRES • BREMBO® BRAKES • PERFORMANCE TRACTION MANAGEMENT • ELECTRONIC LIMITED-SLIP DIFFERENTIAL • PERFORMANCE DATA RECORDER • NO-LIFT SHIFT • LAUNCH CONTROL
Raw power at its most refined
Designed specifically for ATS-V, the 3.6L 464 hp Twin Turbo produces 445 lb-ft of torque, for acceleration best thought of in terms of lift-off. Combined with high-strength, lightweight titanium connecting rods, low-inertia titanium-aluminide turbine wheels and a patented low-volume, charge-air cooler, you travel from 0 to 60 mph in a lightning fast 3.8 seconds.

The CTS-V 6.2L supercharged V8 develops 640 hp and 630 lb-ft of torque, racing you from 0 to 60 in 3.7 seconds, with a racetrack top speed of 200 mph. A compact, efficient L17 liter, 4-lobe Eaton® supercharger, with specially engineered rotors, generates boost early in the rpm band for a faster response. And direct injection, Continuously Variable Valve Timing technology and Active Fuel Management make everyday driving as efficient as it is exhilarating.

6-gears, immeasurable control
The ATS-V TREMEC 6-speed manual transmission is standard and equipped with an incredibly satisfying short-throw shifter and dual-disc clutch. Combined with features like No-Lift Shift and Active Rev Matching, it is perfect for harnessing the V-Series power.

The right gear right now
The 8-speed automatic transmission (standard on CTS-V and available on ATS-V) features Performance Algorithm Shifting. Automatically activated by intense g-forces, this technology seamlessly selects the best gear for quicker shifts and faster lap times. For even more control, Magnesium Paddle Shifters let you tap through the gears for refined acceleration and deceleration.
Power keeps its cool
The V-Series extra-large water/oil cooler, large-capacity radiator, multiple heat exchangers and a rear differential oil cooler—along with the advantages they bring—will all be familiar to racing enthusiasts.

More than a stunning stance
The V-Series aerodynamic stance also plays a crucial role in performance. The front splitter and front hood vent steer air around or over the vehicle to reduce lift. The iconic mesh grille is engineered for maximum airflow to the engine. A dramatic rear spoiler creates downward force to keep V-Series tires planted firmly on the roadway.

A formidable frame
A stiffened, lightweight structure allows the V-Series to be track-capable from the factory. The V-Series boasts a multi-link MacPherson strut independent front suspension, focused on delivering a quicker response and lateral control. 5-link independent rear suspension achieves all-out track performance while maintaining everyday comfort.

Less weight, more strength
The V-Series is equipped with a carbon fiber hood—standard. An available Carbon Fiber Package employs this lightweight, yet incredibly strong material in the symmetrical design of a front splitter, hood vent, rear diffuser and, on the CTS-V only, the rear spoiler.
The road: a quick read
At a rate of 1000 times per second, Magnetic Ride Control reads the road to adjust the suspension to surface, wheel and weather conditions. At 60 mph, this V-tuned technology’s reaction time is so fast it reads every inch of pavement traveled for a more confident feel on the track, and less feeling of things like uneven pavement and potholes on the road.

Programmed to respond instantly
V-Series ZF electronic power-assist steering adjusts its timing for precise, quick and deeply satisfying steering feedback.

The rubber meets the road brilliantly
Manufactured in a high-security factory, V-Series Michelin® Pilot® Super Sport summer-only tires1 feature a unique tri-compound design. The outer shoulder is particularly resistant to the wear associated with aggressive cornering. The tread’s center ribs are optimized for steering and handling and the inner shoulder is designed to slice through water, providing grip on the road. These tires also feature R-compound—the R stands for racing. Rarely seen on street vehicle tires, this technology delivers unmatched grip.

1. Do not use summer-only tires in winter conditions, as it would adversely affect vehicle safety, performance and stability. Always use only GM-approved tire and wheel combinations. Unapproved combinations may change the vehicle’s performance characteristics. For important tire and wheel information, go to my.cadillac.com/learnabout/cadillactires/ or see your dealer.
Innovation, full stop

Front and rear Brembo brakes are standard V-Series equipment. Front mono-block brake calipers are carved from a single block of lightweight aluminum alloy—for firm pedal feel and unmatched confidence. Front brake discs feature a two-piece rotor design for superior heat resistance, performance and durability. In addition, a class-exclusive Ferritic Nitro-Carburizing process greatly reduces corrosion on the rotors, helping maintain stopping power and prolong brake life.

Turbochargers: serious spooling

With No-Lift Shift, you do not have to let off the gas when switching gears. This keeps the turbochargers spooling, so there’s a faster return to full power when you re-engage a gear.

Curves, conquered

During aggressive cornering—or on-curvaceous on/off ramps—the electronic Limited-Slip Differential (eLSD) automatically directs power to the rear wheel with the most traction for great control and fast exit speeds.
Review your run

The available Performance Data Recorder captures your track driving—recording video, audio and performance data in real time that can be viewed on the Cadillac user experience screen or saved on an SD card to watch later. The system’s four overlays—Sport, Track, Performance or Tour—help analyze your skills.

For an even more detailed analysis, the Performance Data Recorder can be used in conjunction with the Cosworth Toolbox. Used by professional racing teams, this software provides a turn-by-turn breakdown of your run to improve your driving skills. Visit cosworth.com/toolbox-cadillac to download the software.

The Performance Data Recorder also offers a video-only Valet Mode, so you know how the people parking your V-Series are treating it.

Cornering: consistent, commanding

The V-Series vehicles offer competition spec traction and stability controls. Performance Traction Management (PTM) integrates traction and engine control systems for improved and consistent cornering. Enter Track Mode and choose from five driver-selectable levels of control: Wet, Dry, Sport 1, Sport 2 or Race.

Green light or green flag—go

Launch Control monitors traction activity, and allows engine, transmission and suspension to work together for maximum, full-throttle acceleration off the line, resulting in better 0-60 times.

Cadillac Racing cars and teams can be found on some of the world’s toughest tracks, including two prominent racing series: The Pirelli World Challenge and the IMSA Prototype Championship. Raw power at its most refined, the performance found in the V-Series echoes the ATS-V.R models found on the racing circuit today.

Academy training. Adrenaline also included.

Arrive at the V-Performance Academy and unleash the full potential of race-inspired V-Series features during a two-night stay, with the purchase of an ATS-V or CTS-V. From acceleration, to drifting, to cornering, train with professional drivers and hone advanced driving techniques within the luxury of Spring Mountain accommodations. To confirm your reservation or discuss further details, speak with your local Cadillac Specialist.

The V-Performance Academy experience includes ground transportation to/from Las Vegas International Airport, two (2) nights lodging in the Spring Mountain luxury condominiums, admission to the Spring Mountain Driving School and its facilities, training, and lunch and dinner. Must be 21 years of age. Valid driver’s license required. Two (2) nights lodging at the Spring Mountain luxury condominiums. Breakfast and lunch on both training days. 2nd-night dinner at the Spring Mountain Clubhouse. General admission or track admission (car or motorcycle) for one designated Guest. On-site courtesy vehicles to be provided: Courtesy Vehicles shall not be used in the city of Las Vegas after 6pm, with exception of special events on Las Vegas strip or official event.
Surrounded by safety innovation

**SAFETY FEATURES**

**Truly forward thinking**

Forward Collision Alert monitors traffic ahead, alerting you if a potential collision is imminent, while the Following Distance Indicator shows the following time to the detected vehicle ahead (in seconds) in the Driver Information Center (DIC). Forward Collision Alert and Following Distance Indicator are standard on CTS-V and available on ATS-V.

**An intelligent wiper**

Rainsense Wipers automatically engage when rain is detected, adjusting their speed to the rain's intensity. Whenever wipers are activated, Auto-Dry brakes automatically position the brake pads closer to the rotors to help sweep away moisture and improve performance. Rainsense Wipers are standard on CTS-V and available on ATS-V.

**Strong enough to crumple**

The high-strength steel safety cage features strategically placed crumple zones that help absorb and manage crash energy. The safety cage is also equipped with 8 standard air bags.

**Firmly reassuring**

During emergency braking or sudden maneuvers, Automatic Safety Belt Tightening activates. When conditions revert to normal, they ease automatically. Automatic Safety Belt Tightening is standard on CTS-V and ATS-V.

**Grabs your attention. Subtly.**

Cadillac’s patented Safety Alert Seat sends a discreet pulse to the left, right or both sides of the driver’s seat, indicating the direction of the threat—left, right, front or rear. The Safety Alert Seat is standard on CTS-V and ATS-V.

Safety features are no substitute for the driver’s responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the vehicle Owner’s Manual for important feature limitations and information.

1. Always use safety belts and child restraints. Children are safer when properly secured in a rear seat in the appropriate child restraint. See the Owner’s Manual for more information.

**Travel the straight and smart**

Using a camera to sense lane boundaries, Lane Keep Assist with Lane Departure Warning gently turns the steering wheel if the system anticipates the vehicle is leaving the lane unintentionally or without using your turn signal. Working in conjunction with the Safety Alert Seat, Lane Departure Warning sends a visual alert in the cluster and a warning pulse through the seat cushion when your vehicle crosses the lane marking. Lane Keep Assist with Lane Departure Warning is standard on CTS-V and available on ATS-V.

**All clear**

Lane Change Alert with Side Blind Zone Alert surveys the area well beyond the side blind zone, and illuminates the side mirror warning icon to alert you of a rapidly approaching vehicle. Side Blind Zone Alert monitors your blind spots, so if a vehicle is in the adjacent lane, it also illuminates the side mirror icon. In both features, if you have activated your turn signal, the icon on the side mirror will flash to alert you. Lane Change Alert with Side Blind Zone Alert is standard on CTS-V and available as part of the Safety and Security Package in ATS-V.

**Brighter backing out**

When backing out of a parking space, available Rear Cross Traffic Alert warns of oncoming traffic to either side of your vehicle. Rear Cross Traffic Alert is standard on CTS-V and available on ATS-V.

Select safety features shown.
PRESTIGE. LAP AFTER LAP

It can be found in a perfectly balanced camshaft, and the rhythmic power it creates. Found, too, in an audio speaker that sits so perfectly in a leather panel it appears to float. You will find craftsmanship, comfort and an array of technologies applied with precise and exquisite vision every time you step inside the V-Series. Perfect execution being the only acceptable standard.

OFFERED FEATURES: RECARO® FRONT SEATS OR SPORT SEATS • BOSE® CENTERPOINT® SURROUND SOUND • CARBON FIBER TRIM • SEMI-ANILINE LEATHER • FRONT AND REAR PARK ASSIST • CURBVIEW CAMERA • REAR CAMERA MIRROR • ONSTAR® 4G LTE AND BUILT-IN WIFI® HOTSPOT • WIRELESS CHARGING • CADILLAC USER EXPERIENCE • PHONE INTEGRATION WITH APPLE CARPLAY® AND ANDROID® AUTO
Spirited support
Available RECARO® front seats feature a handcrafted shape that cradles your body during cornering. Along with slip-resistant sueded panels and adjustable bolsters, their design helps take the work out of staying in place during aggressive maneuvers. And Memory Pneumatic Lumbar Support helps counter the stresses associated with sitting, especially on longer drives.

Pleased to be seated
V-Series 18- or 20-way front Sport Seats come leather trimmed with sueded microfiber inserts. All V-Series vehicles have heated, power-adjustable seats and manual thigh support. (CTS-V performance seats are also ventilated.)

Sound worthy of the venue
Like our performance features, Bose premium sound systems are the professional’s choice and come standard on both models. Available in the ATS-V and standard in the CTS-V, both offer Bose Centerpoint surround technology and Active Noise Cancellation technology.

ATS-V Coupe in Jet Black with Saffron Accents. Shown with available equipment.
The power of style
The tailored interior of every V-Series vehicle is refinement pushed tastefully further. Leather and trim options offer timeless style, along with subtle racing aesthetics. In every instance, these options are designed to work together beautifully.

Supple, strong and striking
The Semi-Aniline leather seating surfaces and steering wheel available in the V-Series are created using a process that retains the natural beauty of the skins, while enhancing their strength and softness.

Veneers with depth
V-carbon fiber trim is engineered for beauty and designed with a mirror-matched pattern to accentuate an advanced cockpit.

COMFORT AND CONVENIENCE
Parking is a pleasure
V-Series vehicles offer Front and Rear Park Assist systems that help make pulling into and out of spaces easier.

In addition, CurbView Camera, standard in the CTS-V, helps protect the front splitter from damage from curbs and other low objects. The Automatic Parking System, also standard in the CTS-V, helps drivers park by automatically steering the vehicle into detected parallel or perpendicular parking spaces while the driver does the gear selection, acceleration and braking.

A brilliant look back
And when the desire of additional visibility conveniences arises, the Rear Camera Mirror, available in the CTS-V, streams HD video from a tailgate camera directly to the rearview mirror, offering a view (A) with 300% more field of vision than a traditional mirror (B).
High-performance connectivity
Available OnStar 4G LTE and built-in Wi-Fi hotspot allows you to connect up to seven devices at the same time, up to 50 feet away. So your passengers can check their email or watch their favorite entertainment.

Easy power
Wireless Charging lets you power-up compatible phone and other mobile devices anytime the vehicle is running.

As responsive as the vehicle
The Cadillac user experience puts a suite of information and entertainment offerings at your command, including climate, audio, and Collection, to easily browse, select and install apps. With the available Collection, you can download new select apps for your V-Series — similar to a smartphone app store. Customize your content with music, audiobooks, weather apps and more (data plan rates may apply).

Your phone, even smarter
Phone Integration with Apple CarPlay™ compatibility allows you to access your contacts, Apple Music™ and select information from your iPhone® with a touch of the screen, shown below. You can also access Siri®, so features are easily accessible to you or your front-seat passenger.

Phone Integration also provides Android™ Auto™ compatibility.

---

1. Requires a compatible mobile device, active OnStar service and data plan. 4G LTE service available in select markets. Visit onstar.com for coverage map, details and system limitations. Data plans provided by AT&T.

2. The system wirelessly charges one PMA or Qi-compatible mobile device. Some phones have built-in wireless charging technology, and others require a special adaptor/back cover. For a list of GM wireless charging devices, go to cadillac.com/wireless. If your device is not on this list, please consult your carrier.

3. Cadillac user experience functionality varies by model. Some devices require USB connectivity.

4. Vehicle user interfaces are products of Apple and Google and their terms and privacy statements apply. Requires compatible smartphone and data plan rates apply.

NEW VEHICLE LIMITED WARRANTY
War-time coverage comes standard on every 2018 Cadillac. This warranty is for Cadillac vehicles registered in the U.S. See your Cadillac dealer for terms and conditions.

COVERED FOR 6 YEARS/100,000 MILES (WHICHEVER COMES FIRST)

- Powertrain limited warranty with no deductible, Roadside Assistance Program and Courtesy Transportation Program.
- Covered for 4 years/100,000 miles (whichever comes first)

- Bumper-to-bumper coverage. Tires—defects in material and workmanship; repairs made to correct any vehicle defect; corrosion on body sheet metal panels.
- Rust-Through Coverage

- Cadillac vehicles are designed and built to resist corrosion and rust-through corrosion. Any perforating rust-infiltration that penetrates the outer layer of metal (the sheet metal) is covered for 6 years and unlimited mileage. Cosmetic or surface corrosion—resulting from stone chips or scratches in the paint, for example—is not included in the rust-through coverage. Application of additional rust-inhibiting materials is not required under the rust-through coverage and name is recommended. See your Cadillac dealer for terms of this limited warranty.

FLEET ORDERS

Some standard content may be deleted with fleet orders. See dealer for details.

RUST-THROUGH COVERAGE

- Cadillac vehicles are designed and built to resist corrosion and rust-through corrosion. Any perforating rust-infiltration that penetrates the outer layer of metal is covered for 6 years and unlimited mileage. Cosmetic or surface corrosion—resulting from stone chips or scratches in the paint—is not included in the rust-through coverage. Application of additional rust-inhibiting materials is not required under the rust-through coverage and is recommended. See your Cadillac dealer for terms of this limited warranty.

ASSEMBLY

- Cadillac vehicles and their components are assembled or produced by different operating units of General Motors or its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Cadillac vehicles in different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. The engines in Cadillac products may also be purchased from other GM makes or models. Since some information may have been updated since the time of printing, please check with your Cadillac dealer for complete details. Any variations in colors shown are due to reproduction variance in the printing process. Cadillac reserves the right to lengthen or shorten the model year for any reason, at any time and to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability.

About This Catalog

We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affiliated to vehicles are approximate based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your Cadillac dealer for complete details. Any variations in colors shown are due to reproduction variance in the printing process. Cadillac reserves the right to lengthen or shorten the model year for any reason, at any time and to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability.
