In a world of look-alike crossovers, the captivating SRX stands deliberately, daringly apart. With a potent direct-injected V6 engine, it’s as exhilarating as it is dramatic. Plus, when you combine the available advanced All-Wheel Drive system with a Continuously Variable Real-time Damping suspension, the SRX quickly and confidently masters changing road conditions. Bold, refined and ingenious, the SRX is a crossover that steadfastly refuses to follow.

IT DOESN’T SIT ON THE FENCE.

IT SEATS FIVE.

YET STANDS ALONE.
The 2013 SRX is thoughtfully refined and intelligently advanced. At the forefront of its groundbreaking new technology is CUE—Cadillac User Experience. CUE connects you and your vehicle like never before, letting you tap, flick and swipe through its menu with ease using the vibrant touch screen. Equally as impressive are the available safety technologies like the radar-based perimeter warning that helps alert you to obstacles that may go unseen. And outside, the SRX sports an updated look courtesy of a refined grille and brilliant chrome side vents accented with subtle LED light pipes, along with newly designed, available 20" wheels.

1. Full functionality requires compatible Bluetooth® and smartphone. Some devices require USB connectivity.
SRX EXTERIOR

SRX / Gray Flannel Metallic
THE SIMPLE RECIPE FOR
EXTRAORDINARY.
From the jeweled facets of its brilliant headlamps to its chiseled, angular sheet metal, the SRX makes a powerful statement. Even when viewed from the rear, its striking design is enhanced by advanced LED taillamps. They react more quickly than traditional bulbs and last up to ten times longer. And their light pipe technology forms a razor-thin blade that sparks instant Cadillac recognition. There’s also an integrated rear spoiler that manages airflow to help keep the window free from dirt and moisture. Even the brightly polished dual-exhaust outlets are beautifully integrated into the fascia to complete the bold look.

**INTELLIGENT HEADLAMPS**
Signature vertical light pipes frame available High-Intensity Discharge (HID) headlamps that include headlamp washers and Adaptive Forward Lighting. This feature employs sensors to determine the car’s speed and steering, and then swivels the headlamps to cast light precisely into your path of travel.
Adaptive Forward Lighting
This available feature uses sensors to read speed and steering angle to swivel high-intensity headlamps up to 15 degrees to light the intended direction of travel.

Front Grille
The newly designed front upper and lower grilles feature strong lines, sharp creases and a luxury finish to make a bold statement.
Roof Rails
Roof rails that, when fitted with the appropriate available racks or cargo boxes, can accommodate large items like snowboards or bicycles.

Fender Vents
The newly designed front fender vents incorporate LED light pipes, enhancing the already stunning exterior lighting.
SRX PREMIUM COLLECTION / Light Titanium with Ebony Accents
SRX INTERIOR
The SRX interior is as luxurious as it is accommodating. Step inside, and your eye is drawn immediately toward precise cut-and-sewn accents, the available supple leather seating surfaces and the rich grain of exotic Sapele wood. It’s also apparent in the things you can’t see. New Bose® Active Noise Cancellation detects—then ingeniously cancels—powertrain noise before it enters the cabin. Triple door seals, coupled with a laminated windshield and front-side window seals, also contribute to a noticeably quieter vehicle. The SRX also offers clever practicality. Fold down the rear seats to reveal more than 60 cu. ft. of maximum cargo space, complete with a storage compartment beneath the floor that lets you conceal items. There’s also thoughtful storage in the front and rear doors and in the backs of the front seats.
with a laminated windshield and front-side window glass, also contribute to a noticeably quieter vehicle. The SRX also offers clever practicality. Fold down the rear seats to reveal more than 60 cu. ft. of maximum cargo space, complete with a storage compartment beneath the floor that lets you conceal items. There’s also thoughtful storage in the front and rear doors and in the backs of the front seats.

IN THE BIG PICTURE, IT'S THE SMALL DETAILS THAT MATTER MOST.

**French-Stitched Seats**
Luxury extends to every detail. Glove-soft leather seating surfaces are available and stitched with French seams, adding a touch of sophistication and understated elegance.

**Rear Seat Entertainment System**
With dual DVD players integrated into the back of the front seats, this available entertainment system lets rear passengers watch movies, attach a portable gaming console, and more. The system is Blu-ray® compatible and includes two sets of headphones and a remote control.
Advanced technology abounds inside the SRX, all aimed at improving the driver experience. With CUE¹ innovative technology and highly intelligent design come together to create an experience that’s as effortless as it is advanced. Simple and sleek, its stunning 8" LCD touch screen becomes active with a wave of your hand. CUE easily accesses every contact and song on up to 10 Bluetooth²-enabled smartphones, streams Pandora Radio³ and lets you preset up to 60 favorites, including points of interest, addresses, phone numbers, and more.

**FINGERTIP CONTROLS**

The steering wheel’s elegant, multifunctional design incorporates intuitive controls for CUE, audio and cruise control.

---

1. Full functionality requires compatible Bluetooth® and smartphone. Some devices require USB connectivity.
2. Go to gm.com/bluetooth to find out which Bluetooth phones are compatible with the vehicle. 3. Data plan rates apply.
With CUE\(^1\) control, convenience and connectivity in your SRX are simple and intuitive. Spread your fingers to zoom in closer on a map\(^2\). Swipe to breeze through your music. Use the steering wheel controls, or simply speak in a conversational tone and let Natural Voice Recognition help you effortlessly place a phone call or change your music.
Considering that it can even detect your hand as it approaches the touch screen, interacting with CUE couldn’t be easier. And when an icon is touched, the screen pulses to acknowledge the command, letting you keep your eyes safely on the road. Add the available 3-D navigation to access SiriusXM Travel Link weather maps.

A tap enables the center control panel to cleverly glide open to reveal a concealed storage area for your phone or other mobile device and includes an illuminated USB port. With CUE, the customization and content possibilities are not only endless, but also right at your fingertips.

SRX offers the latest innovations in driver awareness and assistance to help inform you of potential hazards you may not even see. Using radar technology and strategically placed cameras, the SRX is ever-vigilant with the available Driver Awareness Package. Among its advanced safety features are Forward Collision Alert, Lane Departure Warning, and Front and Rear Park Assist with the patented Safety Alert Seat. Taking safety a step further, there’s the available Driver Assistance Package\(^1\) that includes automatic front and rear braking, and Adaptive Cruise Control\(^2\) that uses radar to maintain a preset distance between you and the vehicle in front. This high-tech approach to safety is yet another example of Cadillac leading you confidently down the road ahead.

---

\(^1\) Requires available Driver Awareness Package. \(^2\) Adaptive Cruise Control is no substitute for the driver’s personal responsibility to operate the vehicle in a safe manner. The driver needs to remain attentive to traffic and road conditions and provide the steering, braking or other inputs necessary to retain control of the vehicle.
LANE DEPARTURE WARNING

Offering the latest innovation in driver awareness, available Lane Departure Warning issues visual and audible warnings as well as subtle pulses through the seat cushion if the vehicle begins to drift out of its lane without the driver first activating the turn signal.

SAFETY ALERT SEAT

The available patented Safety Alert Seat intuitively sends subtle pulses through the seat cushion, left or right or simultaneously, alerting you to a variety of potential hazards on the road.
**SIDE BLIND ZONE ALERT**

Available Side Blind Zone Alert\(^1\) uses radar equipped sensors that sweep the sides of the SRX. If your turn signal is activated and a vehicle enters one of your blind spots, an alert warns you of its presence. It’s like having an extra set of eyes so you can more safely change lanes.

**EXPERIENCE SIDE BLIND ZONE ALERT**

---

\(^1\) Before making a lane change, always check the SBZA display and the side and inside mirrors, look over your shoulder for vehicles and hazards, and activate your turn signal.
1. Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner's Manual and child safety seat instructions for more safety information. 2. Visit onstar.com for details and system limitations. OnStar acts as a link to emergency service providers.
It starts with a protective safety cage constructed with ultra-high-strength steel alloys for exceptional rigidity. Then, crumple zones are engineered and strategically positioned. From there, advanced technology is added, like the StabiliTrak Electronic Stability Control System and sophisticated antilock braking system (ABS) with Electronic Braking Force Distribution. There’s also the confidence that comes with rollover mitigation sensors, front safety belt pretensioners and load limiters, and six standard airbags including the protection of first- and second-row outboard head-curtain side-impact airbags.¹ Finally, there’s OnStar² Automatic Crash Response. In a crash, built-in sensors in your vehicle can automatically send an alert to an OnStar Advisor, who can contact you in your car.
SRX has the ability to instill unwavering driving confidence, thanks to its precisely tuned suspension that strikes the perfect balance of refinement and composure. Complementing this advanced suspension is available advanced All-Wheel Drive. Torque transfer (front to rear and rear side to side) is proactive—taking your driving input and monitoring road conditions to intuitively put power where it's most effective—anticipating challenges before they arise. The AWD system and PROACTIVE? REACTIVE?

**AUTO-DRY BRAKES**

Wet roads mean longer stopping distances. Auto-Dry brake technology—activated after rain is detected—helps sweep moisture away from the rotors, helping to improve braking performance.

1. Go to cadillac.com/autodry for limitations and details.
SRX has the ability to instill unwavering driving confidence, thanks to its precisely tuned suspension that strikes the perfect balance of refinement and composure. Complementing this advanced suspension is available advanced All-Wheel Drive. Torque transfer (front to rear and rear side to side) is proactive—taking your driving input and monitoring road conditions to put power where it's most effective—anticipating challenges before they arise. The AWD system and rear electronic Limited-Slip Differential (eLSD) work in tandem to provide enhanced control while cornering. There’s also the agile responsiveness of available Continuously Variable Real-time Damping suspension. It seamlessly adjusts to road conditions, reading the road and adjusting damping forces every two milliseconds. Combined with AWD, the result is a refined ride, agile cornering and enhanced acceleration, whether it’s raining or 70 and sunny.
Effortless power, impeccably delivered—that’s the 308 HP, direct-injected V6 engine in the SRX. Whether it’s a soaring mountain pass, the harried highway on-ramp or the instant allure of a winding curve, you’ll appreciate the 3.6 liters of superior motivation. And, because torque is what matters most in day-to-day driving, you’ll feel its exceptionally wide torque band every time you press the accelerator. Yet, despite its brawn, this sophisticated power plant is remarkably efficient and requires only regular fuel, making it as responsible as it is exhilarating.
GIVE IT AN OPPORTUNITY TO
DEMONSTRATE ITS POWER, AND
IT DOESN’T HESITATE.
SRX PREMIUM COLLECTION / Light Titanium with Ebony Accents
VENTILATED FRONT SEATS
Along with soothing heat, the front seats are also ventilated with refreshing air that gently circulates throughout the leather seating surfaces. It's a welcome rejuvenation on hot days and during extended journeys.
**THE PREMIUM COLLECTION:**

**FINELY TAILORED LUXURY,**

*BY ANY MEASURE.*

---

**TRI-ZONE CLIMATE CONTROL**

Because everyone has their own personal idea of comfort, the SRX offers three distinct climate zones. The driver, front passenger, and rear passengers enjoy their own climate controls (rear automatic climate controls shown). The system also senses humidity in the air and automatically adjusts to provide optimal air quality.

---

**NEW 20" WHEELS**

The perfect complement to the dramatically styled SRX, three new 20" wheels are available. Each features a bold new design, including the polished finish wheel (shown).

---

The exceptional comfort of the SRX is elevated to an even higher level with the available Premium Collection. Front seats with leather seating surfaces are soft to the touch, as well as heated and ventilated for year-round comfort. We’ve also given considerable thought to your passengers and provided heated outboard seats along with the convenience of separate rear climate controls. This Collection also includes the advanced safety technology of Forward Collision Alert, Lane Departure Warning and the patented Safety Alert Seat. The SRX Premium Collection delivers a harmonious blend of luxury and technology.
ADAPTIVE FORWARD LIGHTING
With Adaptive Forward Lighting, sensors read your speed and steering angle, swiveling the High-Intensity Discharge (HID) headlamps up to 15 degrees to improve illumination, especially around corners. Also aiding visibility are fog lamps and headlamp washers.
THE PERFORMANCE COLLECTION:

DESIGNED TO EXCEED
YOUR EXPECTATIONS AT EVERY TURN.

CUE WITH NAVIGATION
It's your on-the-road control center. CUE with navigation\(^1\) features voice guidance, 3-D GPS with integrated weather\(^2\) maps, and more.

DYNAMIC 20" WHEELS
Make a standout vehicle stand out even more with your choice of three available 20" wheels. Each features a stunning new design that accentuates the sophisticated style of the SRX (bright chrome finish wheel shown).

Choose the available Performance Collection to add a decidedly sporty edge to the SRX's stunning looks. At its heart is performance-oriented ZF Servotronic® speed-sensitive steering, calibrated for a crisp, responsive feel. When bringing the vehicle around tight curves and corners, this electric steering system responds almost telepathically to each turn of the wheel. Along with 20" wheels, a precisely tuned suspension system and a potent 308 HP direct-injection V6 engine, the SRX Performance Collection delivers an extraordinary balance of ride quality and confident handling.

---
THE LUXURY COLLECTION:

ULTRAVIEW SUNROOF
The UltraView sunroof is a perfect example of the thoughtful design featured throughout the SRX. With its large glass area that spans both front and rear seats, it gives the vehicle an even more spacious feel. When the sun gets more intense, a convenient power sunshade blocks the light and keeps things cool.
THE LUXURY COLLECTION:

FOR THOSE WHO

SETTLE FOR MORE.

THE ART OF DETAIL
The striking cabin is complemented by impeccably detailed materials like Choco Sapele (shown above) or darker Raven Sapele wood trim carefully placed throughout. These lustrous woods further enhance the inviting interior.

POWER LIFTGATE
In addition to convenient power operation, it also features programmable memory height that can be set for easy reach or to clear overhead obstacles (optional wheels shown).

The allure of the available Luxury Collection begins the moment you approach. Recognizing the key fob in your pocket or purse, the keyless access automatically unlocks the vehicle’s doors and liftgate for you. Adaptive Remote Start does more than just conveniently turn on your ignition from up to 200 feet away; it also activates interior climate controls so the cabin is at the perfect temperature. Once inside, you’re greeted with soft leather seating surfaces and Sapele wood trim. For someone else fortunate enough to share in the driving of the SRX, a memory function can recall settings for two drivers. Technology like a rearview backup camera helps safely guide you when the vehicle is in reverse, while Rainsense windshield wipers automatically vary wiper speed depending on rainfall. With the SRX Luxury Collection, it’s readily apparent that technology definitely comes with a sophisticated side.

THE STANDARD OF THE WORLD AT YOUR FINGERTIPS

We set out to create our own uniquely American breed of extraordinary. Each built with tenacity, a refusal to leave well enough alone. From dramatic designs to world-class performance, we’re setting the standard. To stay current, we invite you to sign up for our monthly eNewsletter. You’ll receive invitations to exclusive events, the latest product news and information and launch updates.
ABOUT THIS DIGITAL CATALOG
We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing (09/12), please check with your Cadillac dealer for complete details. Any variations in colors shown are due to reproduction variation in the printing process. Cadillac reserves the right to lengthen or shorten the model year for any product for any reason, or start and end model years at different times. Note: Some photographs in this catalog show vehicles with optional equipment.

ONSTAR OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Call 1-888-4ONSTAR (466-7827) or visit onstar.com for OnStar’s Terms and Conditions, Privacy Policy and details and system limitations.

ENGINES Cadillac products are equipped with engines produced by GM Powertrain or suppliers to GM worldwide. The engines in Cadillac products may also be used in other GM makes or models.

TIRE SEALANT AND COMPRESSOR KIT After using the inflator kit, it is recommended to take the tire to an authorized dealer for inspection and repair as soon as possible but at least within 100 miles of driving. The tire sealant cannot seal and inflate sidewall damage, punctures larger than 1/4 inch, or a tire that has unseated from the wheel. The sealant can only be used on one tire one time before its expiration date.

ASSEMBLY Cadillac vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Cadillac vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.
UPDATED SERVICE INFORMATION
Cadillac dealers receive useful service bulletins about Cadillac products. You may purchase them from Helm Incorporated by calling 1-800-551-4123 or by visiting www.helminc.com.

NEW-VEHICLE LIMITED WARRANTY
World-class coverage comes standard on every 2013 Cadillac. This warranty is for Cadillac vehicles registered in the U.S.A. See your Cadillac dealer for terms and conditions.

COVERED FOR 6 YEARS/70,000 MILES (WHICHEVER COMES FIRST)
Powertrain Limited Warranty with no deductible, Roadside Assistance Program,1 Courtesy Transportation Program.1

COVERED FOR 4 YEARS/50,000 MILES (WHICHEVER COMES FIRST)
Bumper-to-Bumper coverage; Tires – Defects in material and workmanship; Repairs made to correct any vehicle defect; Corrosion on body sheet metal panels.

RUST THROUGH PROTECTION Cadillac vehicles are designed and built to resist corrosion and rust-through corrosion. Any body sheet metal that rusts through (in the form of an actual hole in the sheet metal) is covered for six years unlimited mileage.

Cosmetic or surface corrosion, resulting from stone chips or scratches in the paint, for example, is not included in the Rust Through coverage. Application of additional rust-inhibiting materials is not required under the Rust Through coverage and none is recommended. See your Cadillac dealer for terms of this limited warranty.

FLEET ORDERS Some standard content may be deleted with fleet orders. See dealer for details.

1. Roadside Assistance Program and Courtesy Transportation Program are not a part of the New Vehicle Limited Warranty. A separate booklet entitled “Warranty and Owner Assistance Information” furnished with each new vehicle provides detailed warranty coverage information.
