THAT RAREFIED SLIVER BETWEEN THE GOOD AND THE TRULY GREAT. 

THERE'S NO MAP TO HELP YOU FIND THIS ELUSIVE PLACE. THE ONLY WAY TO GET THERE IS SIMPLY TO BELIEVE YOU CAN.

At Cadillac, we've set out to create our own uniquely American breed of extraordinary. It's why we've created our own daring school of design that bends steel way beyond its comfort zone. It's why we've pushed technology two generations ahead by pioneering a bold new way for drivers to intuitively access entertainment and information with the flick of a finger. And why, in everything from safety to performance, we're setting the standard.

BOLD. DARING. ORIGINAL. These are the kinds of luxury vehicles we build. It takes tenacity, a refusal to leave well-enough alone. That is the difference between good and great. That is the difference between just making luxury vehicles, and making Cadillacs.

THE SMALLEST SPACE KNOWN TO MAN.

IT IS PERHAPS
In a world of look-alike crossovers, the captivating SRX stands deliberately, daringly apart. Its remarkably efficient 308 HP 3.6L direct-injection V6 rewards you not only with instantaneous response; it’s also more powerful than the engine standard in the Lexus RX350. Plus, when you combine the available advanced All-Wheel Drive system with the Continuously Variable Realtime Damping suspension, the SRX quickly and confidently masters changing road conditions. Bold, refined and ingenious, the SRX is a crossover that steadfastly refuses to follow.
From its dramatic exterior design to the subtle elegance of its meticulously crafted, cut-and-sewn interior, the SRX is pure Cadillac. Perhaps even more remarkable is the intuitive technology it offers, like the innovative CUE—Cadillac User Experience. CUE connects you and your vehicle like never before, letting you tap, flick and swipe through its menu with ease using the vibrant touch screen. Equally as impressive are the available safety technologies like the radar-based perimeter warning that helps alert you to obstacles that may go unseen. Intelligent thinking extends to the flexible cargo area, where you’ll find plenty of usable space. To help keep items in place, there’s an available Cargo Management System that includes a U-Rail and an adjustable cargo fence. And outside, its strong lines and sharp creases are further enhanced with a bold yet refined grille, brilliant chrome side vents accented with subtle LED light pipes, and available 20” wheels.

1. Full functionality requires compatible Bluetooth® and smartphone. Some devices require 3G connectivity.
SRX EXTERIOR
From the jeweled facets of its brilliant headlamps to its chiseled, angular sheet metal, the SRX makes a powerful statement. Even when viewed from the rear, its striking design is enhanced by advanced LED taillamps. They react more quickly than traditional bulbs. And their light pipe technology forms a razor-thin blade that sparks instant Cadillac recognition. There’s also an integrated rear spoiler that manages airflow to help keep the window free from dirt and moisture. Even the brightly polished dual-exhaust outlets are beautifully integrated into the fascia to complete the bold look.
The SRX interior is as luxurious as it is accommodating. Step inside, and your eye is drawn immediately toward precise cut-and-sewn accents, the available features like supple leather seating surfaces and rich grains of exotic Sapele wood. It’s also apparent in the things you can’t see. Bose® Active Noise Cancellation detects—then ingeniously cancels—powertrain noise before it enters the cabin. Triple door seals, coupled with a laminated windshield and front-side window glass, also contribute to a noticeably quiet vehicle. The SRX also offers clever practicality. Fold down the rear seats to reveal more than 60 cu. ft. of maximum cargo space, complete with a storage compartment beneath the floor that lets you conceal items. There’s also thoughtful storage in the front and rear doors and in the backs of the front seats.

**IN THE BIG PICTURE,**
**IT’S THE SMALL DETAILS THAT MATTER MOST.**

---

**FRENCH-STITCHED SEATS**
Luxury extends to every detail. Glove-soft leather seating surfaces are available and stitched with French seams, adding a touch of sophistication and understated elegance.

**REAR SEAT ENTERTAINMENT SYSTEM**
With dual DVD players integrated into the back of the front seats, this available entertainment system lets rear passengers watch movies, attach a portable gaming console, and more. The system is Blu-ray® compatible and includes two sets of headphones and a remote control.
Advanced technology abounds inside the SRX, all aimed at improving the driver experience. With CUE, innovative technology and highly intelligent design come together to create an experience that’s as effortless as it is advanced. Simple and sleek, its stunning 8” diagonal LCD touch screen becomes active with a wave of your hand. CUE easily accesses every contact and song on up to 10 Bluetooth®-enabled smartphones, streams Pandora Radio® and lets you preset up to 60 favorites, including points of interest, addresses, phone numbers, and more.

THE CUTTING EDGE
OF TECHNOLOGY...

FINGERTIP CONTROLS
The steering wheel’s elegant, multifunctional design incorporates intuitive controls for CUE, audio and cruise control.

1. Full functionality requires compatible Bluetooth® and smartphone. Some devices require USB connectivity.
2. Go to gmtotalconnect.com to find out which phones are compatible with the vehicle.
3. Data plan rates apply.
With CUE, control, convenience and connectivity in your SRX are simple and intuitive. Spread your fingers to zoom in closer on a map. Swipe to breeze through your music. Use the steering wheel controls, or simply speak in a conversational tone and let Natural Voice Recognition help you effortlessly place a phone call or change your music.

Consider that CUE can even detect your hand as it approaches the touch screen, interacting with CUE couldn’t be easier. And when an icon is touched, the screen pulses to acknowledge the command, letting you keep your eyes safely on the road. Add the available 3-D navigation to access SiriusXM Travel Link weather maps.

A tap enables the center control panel to cleverly glide open to reveal a concealed storage area for your phone or other mobile device and includes an illuminated USB port. With CUE, the customization and content possibilities are not only endless, but also right at your fingertips.
SRX offers the latest innovations in driver awareness and assistance to help inform you of potential hazards you may not even see. Using radar technology and strategically placed cameras, the SRX is ever-vigilant with the available Driver Awareness Package. Among its advanced safety features are Forward Collision Alert, Lane Departure Warning, and Front and Rear Park Assist with the patented Safety Alert Seat. Taking safety a step further, there’s the available Driver Assistance Package\(^1\) that includes Automatic Front and Rear Braking, and Adaptive Cruise Control\(^2\) that uses radar to maintain a preset distance between you and the vehicle in front. This high-tech approach to safety is yet another example of Cadillac leading you confidently down the road ahead.

---

1. Requires available Driver Awareness Package. 2. Adaptive Cruise Control is no substitute for the driver’s personal responsibility to operate the vehicle in a safe manner. The driver needs to remain attentive to traffic and road conditions and provide the steering, braking or other inputs necessary to retain control of the vehicle. 3. Before making a lane change, always check the SBZA display and the side and inside mirrors, look over your shoulder for vehicles and hazards, and activate your turn signal.
It starts with a protective safety cage constructed with ultra-high-strength steel alloys for exceptional rigidity. Then, crumple zones are engineered and strategically positioned. From there, advanced technology is added, like the StabiliTrak Electronic Stability Control System and sophisticated antilock braking system (ABS) with Electronic Braking Force Distribution. There’s also the confidence that comes with rollover mitigation sensors, front safety belt pretensioners and load limiters, and six standard airbags including the protection of first- and second-row outboard head-curtain side-impact airbags. Finally, there’s OnStar® Automatic Crash Response standard for one year. In a crash, built-in sensors in your vehicle can automatically send an alert to an OnStar Advisor, who can contact you in your car.

1. Always use safety belts and child restraints. Children are safer when properly secured in a rear seat in the appropriate child restraint. See the Owner’s Manual for more information.
2. Visit onstar.com for details and system limitations. OnStar acts as a link to emergency service providers.
SRX has the ability to instill unwavering driving confidence, thanks to its precisely tuned suspension that strikes the perfect balance of refinement and composure. Complementing this advanced suspension is available advanced All-Wheel Drive. The AWD system and rear electronic Limited-Slip Differential (eLSD) work in tandem to provide enhanced control while cornering. There's also the agile responsiveness of available Continuously Variable Real-time Damping suspension. It seamlessly adjusts to road conditions, reading the road and adjusting damping forces every two milliseconds. Combined with AWD, the result is a refined ride, agile cornering and enhanced acceleration, whether it’s raining or 70 and sunny.

**PROACTIVE? REACTIVE? YES.**

**AUTO-DRY BRAKES**
Wet roads mean longer stopping distances. Auto-Dry brake technology—activated after rain is detected—helps sweep moisture away from the rotors, helping to improve braking performance.

1. Go to cadillac.com/autodry for limitations and details.
Effortless power, impeccably delivered—that’s the 308 HP, direct-injection V6 engine in the SRX. With a potent 308 HP, it offers more power than the standard engine in the Lexus RX350. Whether it’s a soaring mountain pass, the harried highway on-ramp or the instant allure of a winding curve, you’ll appreciate the 3.6 liters of superior motivation. And, because torque is what matters most in day-to-day driving, you’ll feel its exceptionally wide torque band every time you press the accelerator. Yet, despite its brawn, this sophisticated power plant is remarkably efficient\(^1\) and requires only regular fuel, making it as responsible as it is exhilarating.
TRI-ZONE CLIMATE CONTROL

Because everyone has their own personal idea of comfort, the SRX offers three distinct climate zones. The driver, front passenger, and rear passengers enjoy their own climate controls (rear automatic climate controls shown). The system also senses humidity in the air and automatically adjusts to preserve optimal air quality.

THE PREMIUM COLLECTION:

FINELY TAILORED LUXURY,
BY ANY MEASURE.

PREMIUM COLLECTION

The exceptional comfort of the SRX is elevated to an even higher level with the available Premium Collection. Front seats with leather seating surfaces are soft to the touch, as well as heated and ventilated for year-round comfort. We’ve also given considerable thought to your passengers and provided heated outboard rear seats along with the convenience of separate rear climate controls. This Collection also includes the advanced safety technology of Forward Collision Alert, Lane Departure Warning and the patented Safety Alert Seat. And new to this Collection is the brilliance of IntelliBeam headlamps. This technology turns the high beams on automatically and switches to low beams temporarily when oncoming headlamps are sensed, or when taillamps are detected in front of you. The Premium Collection SRX delivers an extraordinary blend of luxury and technology.

VENTILATED FRONT SEATS

Along with soothing heat, the front seats are also ventilated with refreshing air that gently circulates throughout the leather seating surfaces. It’s a welcome rejuvenation on hot days and during extended journeys.

FINELY TAILORED LUXURY,

PERFORMANCE COLLECTION

Choose the available Performance Collection to add a decidedly sporty edge to the SRX’s stunning looks. At its heart is performance-oriented ZF Servotronic® 2 speed-sensitive steering, calibrated for a crisp, responsive feel. When bringing the vehicle around tight curves and corners, this electric steering system responds almost telepathically to each turn of the wheel. Along with 20” wheels, a precisely tuned suspension system and a potent 308 HP direct-injection V6 engine, the SRX delivers a harmonious balance of ride quality and confident handling.

THE PERFORMANCE COLLECTION:

ADAPTIVE FORWARD LIGHTING
With adaptive Forward Lighting, sensors read your speed and steering angle, rotating the High-Intensity Discharge (HID) headlamps up to 20 degrees to improve illumination, especially around corners. Also aiding visibility are fog lamps and headlamp washers.

CUE WITH NAVIGATION
It’s your on-the-road control center. CUE with navigation features voice guidance, 3-D GPS with integrated weather maps, and more.

DYNAMIC 20” WHEELS
Make a striking vehicle stand out even more with your choice of three available 20” wheels. Each features a stunning design that accentuates the sophisticated style of the SRX (bright chrome finish wheel shown).

DESIGNED TO EXCEED
YOUR EXPECTATIONS AT EVERY TURN.

THE LUXURY COLLECTION:

FOR THOSE WHO
SETTLE FOR MORE.

THE ULTRAVIEW SUNROOF
The UltraView sunroof is a perfect example of the thoughtful design featured throughout the SRX. With its large glass area that spans both front and rear seats, it gives the vehicle an even more spacious feel. When the sun gets more intense, a convenient power sunshade blocks the light and helps keep things cool.

THE ART OF DETAIL
The striking cabin is complemented by impeccably detailed materials like Choco Sapele shown above or darker Raven Sapele wood (carefully placed throughout). These lustrous woods further enhance the inviting interior.

POWER LIFTGATE
In addition to convenient power operation, it also features programmable memory height that can be set for easy reach or to clear overhead obstacles (optional wheels shown).

The allure of the available Luxury Collection begins the moment you approach. Recognizing the key fob in your pocket or purse, the keyless access automatically unlocks the vehicle’s doors and liftgate for you. Adaptive Remote Start does more than just conveniently turn on your ignition from up to 200 feet away; it also activates interior climate controls so the cabin is at the perfect temperature. Once inside, you’re greeted with exceptional details like soft leather seating surfaces and Sapele wood trim. For someone else fortunate enough to share in the driving of the SRX, a memory function can recall settings for two drivers, including driver’s seat position and adjustable pedals. Technology like a Rear Vision Camera helps safely guide you when the vehicle is in reverse, while Rainsense windshield wipers automatically vary wiper speed depending on rainfall. To top it off, available new 18” chrome wheels lend added presence to an already impressive stance. With the SRX Luxury Collection, it’s readily apparent that technology definitely comes with a sophisticated side.
TINTCOAT
A premium 2-layer paint application with the addition of a tinted clearcoat, lending the finish an extra depth and brightness.

TRICOAT
A meticulous 3-layer process that results in a dramatic hue-shifting color.

4. Use only GM-approved tire and wheel combinations. For important tire and wheel information, go to gmaccessorieszone.com or see your dealer for details.
The standard six-year Directions and Connections® plan allows you to push one button to connect with a live Advisor to find the things and places you want. Get directions or a diagnostics check while you drive. Make calls, safely with both hands on the wheel and control your vehicle with the RemoteLink™ mobile app. And as always, get help immediately in a crisis or emergency. These are just a few examples of the level of personal service we think you deserve as a Cadillac owner.

For example, you can:
- Download voice-guided turn-by-turn directions to your Cadillac, and voice will call out every turn or send them to your navigation system. If equipped, you can also plan routes using MapQuest.com® and send directions right to your vehicle.
- Connect to your parking sensors on your Cadillac SRX, and you’ll receive an e-mail with the status of key operating systems or push your OnStar button for a real-time diagnostics check on demand.
- Download the OnStar® app on your iPhone or Android smartphone let you access features like parking reminders, Roadside Assistance, one-tap, push-to-talk capabilities, and more. Plus, in conjunction with the OnStar® RemoteLink™ app, you’ll have the ability to remotely start your vehicle (when factory equipped) from any place you have cell service, and lock and unlock your doors. In addition, you can access key diagnostic information, including fuel level and range, and remaining oil life.

With best-in-class diagnostics from OnStar®, maintaining your Cadillac can be as simple as checking your oil or your tire pressure. RemoteLink™ allows you to view your vehicle health at any time information and control your vehicle with the RemoteLink™ mobile app. And as always, get help immediately in a crisis or emergency. These are just a few examples of the level of personal service we think you deserve as a Cadillac owner.

The luxury of the SRX doesn’t stop with the vehicle. As a Cadillac owner, an advanced complimentary service plan is available for your new car. From virtually anywhere anytime, a few taps of your finger on your iPhone or Android smartphone let you access features like parking reminders, RemoteLink® access, voice commands, and more. In conjunction with the OnStar® RemoteLink™ app, you’ll have the ability to remotely start your vehicle (when factory equipped) from any place you have cell service, and lock and unlock your doors. In addition, you can access key diagnostic information, including fuel level and range, and remaining oil life.

If you’ve reported your Cadillac stolen, OnStar® can also enable a Remote Ignition Block®, granted it to your vehicle to slow it down. Advisors can also enable a Remote Ignition Block, making it impossible to restart a stolen vehicle once it has been turned off.

EMERGENCY BY ONSTAR
Your Mobile Link™ feature allows you to remotely start your vehicle (when factory equipped) from any place you have cell service, and lock and unlock your doors. In addition, you can access key diagnostic information, including fuel level and range, and remaining oil life.

Cadillac reserves the right to lengthen or shorten the model year for any product for any reason, or start and end model years at different times. Note: Some photographs in this catalog show vehicles with optional equipment.

**OnStar**

OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Call 1-888-4ONSTAR (466-7827) or visit onstar.com for OnStar’s Terms and Conditions, Privacy Policy and details and system limitations.

**Engines**

Cadillac products are equipped with engines produced by GM Powertrain or suppliers to GM worldwide. The engines in Cadillac products may also be used in other GM makes or models.

**Tire Sealant and Compressor Kit**

After using the inflator kit, it is recommended to take the tire to an authorized dealer for repair as soon as possible but no later than 100 miles of driving. The tire sealant cannot seal sidewall damage, punctures larger than 1/4 inch, or a tire that has unseated from the wheel. After using the inflator kit, it is recommended to take the tire to an authorized dealer for repair as soon as possible but no later than 100 miles of driving. The tire sealant cannot seal sidewall damage, punctures larger than 1/4 inch, or a tire that has unseated from the wheel. The sealant can only be used on one tire one time before its expiration date.

**Assembly**

Cadillac vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Cadillac vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

**Updated Service Information**

Cadillac dealers receive useful service bulletins about Cadillac products. You may purchase them from Helm Incorporated by calling 1-800-551-4123 or by visiting www.helminc.com.

**New-Vehicle Limited Warranty**

World-class coverage comes standard on every 2013 Cadillac. This warranty is for Cadillac vehicles registered in the U.S.A. See your Cadillac dealer for terms and conditions.

**Covered for 6 Years/70,000 Miles (Whichever Comes First)**

- Powertrain Limited Warranty with no deductible, Roadside Assistance Program, 1 Courtesy Transportation Program.

**Covered for 4 Years/50,000 Miles (Whichever Comes First)**

- Bumper-to-Bumper coverage; Tires – Defects in material and workmanship; Repairs made to correct any vehicle defect; Corrosion on body sheet metal panels.

**Rust Through Protection**

Cadillac vehicles are designed and built to resist corrosion and rust through to the point of sale. Unlike rust-through corrosion resulting from stone chip or extraneous moisture at the paint’s surface, rust-through corrosion is caused by the combined effects of moisture and salt over prolonged periods of time. Cadillac vehicles are designed and built to resist corrosion and rust through to the point of sale. Unlike rust-through corrosion resulting from stone chip or extraneous moisture at the paint’s surface, rust-through corrosion is caused by the combined effects of moisture and salt over prolonged periods of time. Any body sheet metal that rusts through (in the form of an actual hole in the sheet metal) is covered for six years unlimited mileage. Cosmetic or surface corrosion, resulting from stone chip or scratches in the paint, for example, is not included in the Rust Through coverage. Application of additional rust-inhibiting materials is not required under the Rust Through coverage.
