Underneath its striking looks, the 2016 SRX seamlessly combines a spacious, versatile cabin with a suite of high-tech innovations, cut-and-sewn details and strong safety features. It’s a crossover that leaves no room—or need—for compromise.
PART I

THE FEELING
CAPTIVATE AN AUDIENCE
ELEVATE THE EVERYDAY.
THE 2016 SRX.
Sharp lines take on sharp curves. The SRX is a bold expression of automotive style. With its chiseled exterior, jewel-like headlamps and athletic stance, it’s a crossover that cuts an impressive figure on any road.

SCULPTED, AERODYNAMIC EXTERIOR

Form meets function. Sharp, sculpted lines help improve aerodynamics. Available HID headlamps illuminate your path and make a striking first impression. And energy-efficient LED taillamps turn heads while showcasing a graceful exit.
HID HEADLAMPS
See more than what’s right in front of you. Available High-Intensity Discharge (HID) headlamps with Adaptive Forward Lighting guide you around corners at night, while Intellilight technology available with the Driver Awareness Package, automatically turns on and off high beams as needed.

ILLUMINATED FENDER VENTS
Details that delight, even after dark. Side fender vents are illuminated with LED lights, creating a subtle, signature glow.

20" WHEELS
Ride high, stand apart. On the Performance and Premium Collections, select 20" wheels in a range of finishes that are sure to stand out. Every wheel option on the SRX is equipped with H-rated all-season tires, giving you improved handling year-round.

LED TAILLAMPS
Elegant and efficient. The razor-thin blades of the LED tailamps are not only eye-catching, they use less energy than traditional bulbs.
Bold styling meets modern amenities. Details like hand-stitched leather and genuine wood trim are paired with a suite of cutting-edge technology and safety features, so you don’t have to sacrifice beauty for convenience.

STUNNING MATERIALS
Details that please the eye, and the touch. Available interior offerings like genuine Sapele wood trim and leather-appointed seating are inviting and feel exceptional.
HEATED AND VENTILATED FRONT SEATS

Seats that satisfy, whatever the weather. Available heated seats keep things cozy in cold climates. And when the weather is warm, available ventilated front-row seats keep you feeling refreshed.

CADILLAC CUE®

Real-time updates, right at your fingertips. Cadillac CUE connects you to a wealth of music, entertainment and communication systems, including available 3-D GPS Navigation® Doppler weather and XM NavTraffic®. Activated by proximity sensors, Cadillac CUE comes to life when your hand is near, pulsing to let you know it is responding to your command. Cadillac CUE features are also easily accessible with voice-activated technology and steering wheel controls, so you can keep your attention on the road ahead.

TRI-ZONE CLIMATE CONTROL

Comfort on your terms. Available Tri-Zone Climate Control regulates the interior temperature across three separate areas—driver, front passenger and rear—keeping everyone satisfied. Also included in this package are second-row onboard heated seats.

REAR SEAT DVD ENTERTAINMENT SYSTEM

Two times the entertainment. Flip open two available rear-facing, 8" diagonal screens on each seat and view Blu-ray™ DVDs. Backseat passengers can enjoy different content on each screen with the dual-play capability—watch a movie on one, play a video game on the other. Add in a remote control and two sets of wireless headphones, and your passengers are in for hours of enjoyment.

1. Cadillac CUE functionality varies by model. Full functionality requires compatible Bluetooth® and smartphone. Some devices require USB connectivity.
3. If you subscribe after your trial period, subscriptions are continuous until you call SiriusXM to cancel. SiriusXM Customer Agreement for complete terms and geographic limitations at www.siriusxm.com. Other fees and taxes will apply. All fees and programming subject to change.
QUIET INTERIOR
Hear only the sounds you want to hear. Triple-sealed doors, acoustic windshield and front-side glass help insulate the cabin from outside noise, so whether you prefer music or the sound of silence, only you determine the soundtrack to your drive.

MEMORY PACKAGE
The perfect fit, every time. The available Memory Package can record two driver presets, recalining the preferred positioning of the adjustable pedals, driver’s seat and outside mirror angles for each driver. Every time you step inside the SRX, you’ll have a seat that feels like your own.

ULTRAVIEW SUNROOF
As much sun—or shade—as you desire. The available UltraView Sunroof spans both seating rows for a striking display. And when the sun shines too brightly, a power sunshade blocks out light and keeps the cabin cool.
FUNCTIONALITY

A stylish use of space. The SRX easily seats five while leaving ample room for your belongings. Carefully considered design elements provide a place for the things you travel with most — there’s even a chilled glove box for keeping drinks cool. And with an available Power Liftgate and Cargo Management System, packing and unpacking are as close to effortless as they’ll ever be.

POWER LIFTGATE

Open the trunk with just a touch. A simple tap activates the available Power Liftgate so you can load and unload packages with ease. And memory settings help you avoid overhead obstacles by allowing you to program the maximum height of the liftgate.
60/40 SPLIT-REAR SEAT & CARGO MANAGEMENT SYSTEM
Seating that adapts to your style. The SRX fits up to five passengers, but when you need it, the rear seats fold down along a 60/40 split to create more space. Depending on the size of your cargo, you can fold the smaller side and have room for two rear passengers, or the larger side and keep room for one. Or, you can lay all three seats completely flat to create up to 61 total cubic feet of cargo room.

UNDERFLOOR STORAGE BIN
Hidden in plain sight. The storage bin beneath the rear cargo area conceals your valuables, as well as the available cargo fence when it’s not in use. And the underside of the bin’s cover is equipped with hooks, so you can hang shopping bags without damaging what’s inside (above, right).

AVAILABLE KEYLESS ACCESS
Easy in, easy out. Available Keyless Access allows you to lock and unlock the doors of the SRX without removing the key fob from your purse or pocket. The key fob can also activate the Power Liftgate. Pressing the liftgate button twice opens or closes it, while one press keeps it from moving, so you can load and unload packages swiftly and smoothly (above, right).

INTEGRATED ROOF RAILS
Elegance meets functionality. The integrated roof rails on the SRX maintain a graceful, athletic shape. When paired with available cross rails, they offer even more cargo-carrying flexibility (above, right).
SAFETY

Safety where—and when—you need it. With its high-strength steel cage and strategically placed air bags, the SRX is built to help keep you and your passengers safe without compromising its stylish design.

Plus, an available sophisticated network of radar sensors and cameras constantly monitor your movement and surroundings, alerting you to possible crash threats so you can take action to help avoid them.

FIVE-STAR OVERALL VEHICLE SCORE FOR SAFETY

Solid-steel reinforces peace of mind. The 2016 SRX has received a 5-Star Overall Vehicle Score for safety—the government’s highest possible rating. Its safety cage is built from ultra-high-strength steel, with crumple zones positioned to help absorb and manage crash energy. Six air bags, including front- and second-row outboard head-curtain side-impact air bags, come standard, helping to reduce the risk of injury for you and passengers in outboard seating positions in moderate to severe side impacts.

Safety features are no substitute for the driver’s responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times.

1. Always use safety belts and child restraints. Children are safer when properly secured in a rear seat in the appropriate child restraint. See the Owner’s Manual for more information.

2. Government 5-Star Safety Ratings are part of the National Highway Traffic Safety Administration’s (NHTSA’s) New Car Assessment Program (www.SaferCar.gov).
SAFETY ALERT SEAT
Security you can feel. The Safety Alert Seat, available as part of the Driver Awareness Package, works in conjunction with the available safety systems to send subtle pulses through the left or right sides of the driver’s seat. These alert you to potential road hazard risks as well as the direction from which they’re coming.

STABILITRAK ELECTRONIC STABILITY CONTROL SYSTEM
Maintain control. StabiliTrak allows you to sustain handling during sudden movements, particularly in slippery conditions, emergency lane changes and obstacle avoidance.

SIDE BLIND ZONE ALERT
Your extra set of eyes. Available Side Blind Zone Alert monitors your blind spots. If a vehicle is in your path when you’re changing lanes, a light on the side mirror illuminates to alert you, helping to avoid a collision.

ONSTAR
Empowering you to stay connected. No matter where you’re headed, OnStar\textsuperscript{a} can help keep you safe, connected and ready for the road ahead. Automatic Crash Response\textsuperscript{a} comes standard for one year so that if the unexpected happens, you aren’t on your own.

\textsuperscript{a} Before making a lane change, always check the Side Blind Zone Alert display, check the exterior and interior rearview mirrors, look over your shoulder for vehicle and hazards, and signal the lane change. As a national best for side-high school and young driver crashes, OnStar services can be used to prevent accidents. \textsuperscript{b} OnStar acts as your direct link to existing emergency service providers. Not all vehicles may transmit all crash data.
SAFETY

FRONT & REAR PARK ASSIST
Parking made simple. Available Front and Rear Park Assist systems sense stationary objects when you’re parking, warning you if you come too close.

When you’re in reverse, the available Rear Vision Camera automatically displays a live image of the area behind you on the Cadillac CUE screen. Guiding lines on the image plot out your intended trajectory, helping you to see people and objects that might be in your path.

FORWARD COLLISION ALERT
Always looking ahead. Forward Collision Alert, included in the available Driver Awareness Package, uses a concealed front-mounted camera to detect the vehicle in front of you. If you are approaching too quickly, the system alerts you so you can take action to help avoid a crash.

LANE DEPARTURE WARNING
Helping you stay on the straight and narrow. Lane Departure Warning, included in the available Driver Awareness Package, monitors the lines on the road. If you begin to drift into another lane without using your turn signal, the system, in conjunction with the Safety Alert Seat, sends a warning pulse through the seat cushion.

REAR CROSS TRAFFIC ALERT
A great look, even when you’re in reverse. Available Rear Cross Traffic Alert uses radar sensors and the Rear Vision Camera to warn of oncoming traffic on either side of your vehicle when backing out of a parking space.

FRONT & REAR PARK ASSIST WITH REAR VISION CAMERA
Parking made simple. Available Front and Rear Park Assist systems sense stationary objects when you’re parking, warning you if you come too close. When you’re in reverse, the available Rear Vision Camera automatically displays a live image of the area behind you on the Cadillac CUE screen. Guiding lines on the image plot out your intended trajectory, helping you to see people and objects that might be in your path.
PERFORMANCE

An exceptional driving experience. Inside the SRX, you’ll find a potent combination of V6 power and high-tech performance features. With its aerodynamic lines, available sport suspension and highly capable 3.6L V6 engine, the SRX was built to deliver a dynamically responsive and confident ride.

3.6L ENGINE

Confident performance. The V6 engine in the SRX has a reassuring 308 hp, so you can enjoy superior acceleration with a smooth delivery.
PERFORMANCE

AUTO-DRY BRAKES
A reassuring ride, even in the rain. When your windshield wipers are activated, this feature automatically sweeps moisture away from the brake rotors, helping you maintain optimal stopping performance.

REAL-TIME DAMPING SUSPENSION
A smooth, stable ride. Available Continuous real-time Damping Control scans the road, adjusting damping forces every two milliseconds, depending on road conditions. That means the SRX delivers a more refined ride with exceptional cornering, acceleration and control—no matter what type of road you’re on.

ALL-WHEEL DRIVE
Responsive handling in all conditions. When driving in challenging conditions like rain, snow or gravel, the available All-Wheel Drive with an electronic Limited Slip-Differential (eLSD) can anticipate potential loss of traction. The system automatically transfers engine torque to the affected wheels, helping you keep a firm grip on the road.
SAFETY AND SECURITY
Air Bag: Driver and front passenger front-impact; Passenger Sensing System driver and front passenger (seated in rear seat) side-impact for side protection; front-side-impact head-curtain side-impact Electronic Parking Brake

Engine Block Heater

PREMIUM
Engine Block Heater
We have created the most comprehensive suite of owner benefits offered by any prestige automotive brand in the world, providing everything our Cadillac owners need and everything they deserve.

**OWNER BENEFITS**

- **PREMIUM CARE MAINTENANCE**
  - The Cadillac Premium Care Maintenance program covers routine oil changes, tire rotations, certain air filter replacements and a thorough multi-point vehicle inspection for 4 years or 50,000 miles*
- **WARRANTY PROTECTION**
  - All Cadillac vehicles come with a 4-year or 70,000-mile* Powertrain Warranty. In addition, our 4-year or 50,000-mile bumper-to-bumper limited warranty covers repairs on your entire vehicle, including parts and labor, to correct any concerns in materials or workmanship.
- **ROADSIDE ASSISTANCE**
  - Cadillac offers more than 20 years of Roadside Assistance then any leading luxury automaker, with services available for 4 years or 50,000 miles.*
- **COURTESY TRANSPORTATION**
  - This program provides alternative transportation and reimbursement of certain transportation expenses if your Cadillac requires warranty repairs for 6 years or 70,000 miles*
- **ONSTAR®**
  - The ingenuity of the SRX doesn't stop with the vehicle. As a Cadillac owner, an advanced app is available for your new car. From virtually anywhere at any time, a few taps of your finger on your iPhone® or Android™ smartphone let you access features such as parking reminders, Roadside Assistance and more. Plus, in conjunction with the OnStar RemoteLink app, you’ll have the ability to remotely start your car, pinpoint your vehicle on a map on your smartphone and manage your vehicle’s Wi-Fi hotspot. Plus, send a destination to your in-vehicle navigation screen (if equipped) and lock or unlock your doors—all from your mobile device. Your vehicle can run diagnostic checks on itself and remind you of servicing needs to email.
- **EMERGENCY SERVICES**
  - One push of the red emergency button gives you a priority connection to a specially trained OnStar Advisor who can direct emergency services to your exact location and offer critical assistance until help arrives. With OnStar, you’re never alone.
- **CRISIS ASSIST**
  - During severe weather or other crisis situations, OnStar can provide a quick, central point of contact when you need emergency assistance, navigation help, or information.
- **ROADSIDE ASSISTANCE**
  - If you’re stranded, have a flat tire or need a tow truck, just ask an OnStar Advisor to get help to your exact location to get you back on the road quickly.
- **STOLEN VEHICLE ASSISTANCE**
  - If your vehicle is stolen, OnStar can use GPS to pinpoint and help recover it. On many models, an Advisor can send a signal to slow the vehicle or prevent it from being restarted. And with the new Theft Alarm Notification feature, if your car alarm sounds, you’ll receive a notification by text, email or phone call.
- **ONSTAR 4G LTE CONNECTION**
  - Now your vehicle can easily run a check on its key systems and send diagnostic information to a specially trained OnStar Advisor who can direct emergency services to your exact location and offer critical assistance until help arrives. With OnStar, you’re never alone.
- **ONSTAR ATYOURSERVICE**
  - A simple call to an OnStar Advisor can send a signal to unlock your doors or honk the horn and flash the lights—it’s technology hard at work to get you back on the road.
- **ADVANCED DIAGNOSTICS**
  - Feel confident and safe knowing you have a self-diagnosing vehicle. Now your vehicle can easily run a check on its key systems and send you a monthly diagnostics report. You’ll know more and worry less with Advanced Diagnostics.
- **DEALER MAINTENANCE NOTIFICATION**
  - Is it time to service your SRX? Are all the filters new? Is an oil change required? You’re always aware, because your car can tell your diagnostics report to the dealer when it’s time, and the dealer will contact you to set up a service appointment.
ABOUT THIS CATALOG

We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximate based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Only some information may have been updated since the time of printing, please check with your Cadillac dealer for complete details. Any variations in colors shown are due to reproduction variation in the printing process. Cadillac reserves the right to lengthen or shorten the model year for any product for any reason or start and end model years at different times. Notes: Some photographs in this catalog show vehicles with optional equipment.

UPDATED SERVICE INFORMATION

Cadillac dealers receive useful service bulletins about Cadillac products. You may purchase them from Helm Incorporated by calling 1-800-782-4356 or by visiting www.helminc.com.

NEW-VEHICLE LIMITED WARRANTY

World-class coverage comes standard on every 2016 Cadillac. This warranty is for Cadillac vehicles registered in the USA. See your Cadillac dealer for terms and conditions.

COVERED FOR 4 YEARS/50,000 MILES (WHICHEVER COMES FIRST)

Powertrain limited warranty with no deductible. Roadside Assistance Program and Courtesy Transportation Program

COVERED FOR 4 YEARS/50,000 MILES (WHICHEVER COMES FIRST)

Body damage incurred in an accident or by a natural or man-made event. Bumper-TO-bumper coverage; Tires—defects in material and workmanship; repairs made to correct any vehicle defect; corrosion on body sheet metal panels.

RUST-THROUGH COVERAGE

Cadillac vehicles are designed and built to resist corrosion and rust-through corrosion. Any body sheet metal that rusts through (in the form of an actual hole in the sheet metal) is covered for six years and unlimited mileage. Cosmetic or surface corrosion—resulting from stone chips or scratches in the paint, for example—is not included in the rust-through coverage. Application of additional rust-inhibiting materials is not required under the rust-through coverage and none is recommended. See your Cadillac dealer for terms of this limited warranty.

FLEET ORDERS

Some standard content may be deleted with fleet orders. See dealer for details.

ASSEMBLY

Cadillac vehicles and their components are assembled or produced by different operating units of General Motors. (its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Cadillac vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

TI RE SEALANT AND COMPRESSOR KIT

If your vehicle has a tire sealant and compressor kit. It uses a liquid tire sealant to temporarily seal up to a ⅛-inch puncture in the tread area of the tire. After using the inflation kit, it is recommended to take the tire to an authorized dealer for inspection and repair as soon as possible but at least within 100 miles of driving. The tire sealant cannot seal and inflate sidewall damage, punctures larger than ¼-inch or a tire that has unseated from the wheel. The sealant can only be used on one tire, one time before its expiration date.

WHEELS

18” ALUMINUM WITH PAINTED FINISH (RTY)
Standard on SRX and includes P235/55R18 H-rated, all-season tires
