THE NEXT STEP IN YOUR JOURNEY

A vehicle designed to help you master what’s ahead. From its confident, streamlined stance to an ingenious cabin as spacious as it is versatile, the first-ever Cadillac XT5 is an entirely new kind of crossover. Created by a company that is never done, for people who are much the same.
PART I
THE FEELING
APPRECIATE STRIKING LOOKS
BE CONFIDENT IN THE JOURNEY AHEAD
READY FOR WHAT LIES AT HAND
EMBRACE YOUR RESTLESS AMBITION.
The 2017 XT5.
PART II
THE FEATURES
Symbols of substance. The grille and crest are prominently featured as potent symbols. Power and elegance, both are key elements of the front end of a vehicle at the forefront of style, substance and innovation.

Sleek in scale, large in ambitions. The XT5 is a dynamic expression of a bold design aesthetic. Graceful planes of steel meet powerful curves and lines to create a sleek crossover like none before.
BODY DESIGN
Beautifully balanced. Its sculpted body achieves more than simply a striking look by pushing wheel wells aggressively to the four corners of the vehicle. Cadillac engineers have created generous space, as well as supremely balanced structure for remarkable control and driving.

WHEELS
High style. Crafted with an innovative full-forming process that saves weight while increasing strength, available 20" wheels allow the XT5 to stand apart on the road.

ILLUMINATED DOOR HANDLES
Highlighting design. Lighting within its door handles improves visibility while enhancing the vehicle’s long lines.

SIGNATURE LIGHTING
Visionary illumination. The front and rear light systems dramatically frame its sweeping curves and powerful edges. They also employ some of the automotive industry’s most advanced LED technology to offer superior illumination.
Modern prestige — the broad view. A wide dash melds cutting-edge technologies with timeless craftsmanship. Wood, leather and other materials have been chosen and fitted with a care reminiscent of fine tailoring. The result is beauty, comfort and utility.

A crafted cabin. Each of the hand-stitched, cut-and-sewn available interior combinations has been carefully curated. Uniquely colored leathers and custom stained woods are paired for a rich, yet understated feel. Wherever you’re going, arrive there tastefully.
ENHANCED CABIN CONFIGURATION
Elegant ergonomics. The XT5 cabin is the result of decades of research and understanding how drivers drive and want to interact with controls, functions and features. The shape, placement and feel of every dial, switch and interface have been designed to maximize convenience, comfort and utility.

AVAILABLE REAR CAMERA MIRROR
Backward looking, forward thinking. With just a touch, you can stream the view from a rear-mounted camera to the rearview mirror. This view (A) offers substantially more vision than an ordinary mirror. And a simple touch instantly reverts it back to a traditional mirror (B).

CADILLAC CUE
A gesture toward the future. Cadillac’s signature CUE™ system allows you to access communications, navigation and connectivity functions with smartphone-like ease faster than ever before. For improved safety and satisfaction, the brilliant 8” front screen responds to touch, voice commands and even gestures.

PHONE INTEGRATION
Your phone, even smarter. Available Phone Integration compatibility with Apple® CarPlay™ allows you to access your contacts, Apple Music™ and other information from your iPhone® with a touch of the screen. You can also access Siri® so features are easily accessible to you or your front-seat passenger. Android™ Auto¹ is also available.

¹. Cadillac CUE functionality varies by model. Full functionality requires compatible Bluetooth® and smartphone. Some devices require USB connectivity. 2. Phone user interfaces are products of Apple and Google and their terms and privacy statements apply. Requires compatible smartphone and data plan rates apply.
ONSTAR 4G LTE AND BUILT-IN WI-FI® HOTSPOT®
Stay connected. An available OnStar 4G LTE and built-in Wi-Fi hotspot can support up to seven mobile devices at 4G LTE speeds up to 10 feet away from your XT5.

ENHANCED STEERING WHEEL
Comfort comes full circle. Wrapped in leather, the standard wheel has power tilt and telescoping while the available integrated heating elements warm in cold weather.

RECONFIGURABLE GAUGE CLUSTER
Individualized information. Customize the available 8” diagonal LCD gauge display to one of two themes that combine vehicle data with navigation, entertainment and stunning 3-D vehicle images.

AVAILABLE ULTRAVIEW SUNROOF
Share the wonder. This stunning view spans both the front and rear seats and is equipped with a power sunshade should the sun be too intense.

1. Requires a compatible mobile device, active OnStar service and data plan. 4G LTE service available in select markets. Visit onstar.com for coverage map, details and system limitations.
A further enhancement. From innovative technologies that can read every inch of the road, to comforts that enrich every moment of a drive, to potent details like polished chrome exhaust tips. Platinum is, quite simply, the best made even better.

SURROUND VISION CAMERA
A brand new perspective. Available Surround Vision provides a bird’s-eye view of the area immediately surrounding the vehicle when in low-speed Drive or Reverse. This view, projected on the Cadillac CUE® screen, helps increase your awareness when parking or in reverse.
HEATED SEATS
Sit comfortably. Available heated and cooled front-row seats keep you feeling content while the second row of heated rear seats can warm you and your passengers on cooler days. They are also available in Semi-Aniline leather for added pleasure.

HANDS-FREE LIFTGATE
Hands full, hands free. The standard liftgate has an available hands-free feature that allows you to open and close the liftgate with a kicking motion under the left of the rear bumper when the Keyless Access fob is with you. And a memory height function allows you to program how high the gate will open, avoiding damage to the vehicle.

ILLUMINATED SILL PLATES
A step up. This attractive display also serves the function of additional lighting as people enter or exit the vehicle.

HEAD-UP DISPLAY
Information—front, center, safer. A driver’s attention is best focused on the road. That’s why the XT5 Head-Up Display (HUD) projects selected information, such as mph, speed limit and rpm, onto the front windshield, allowing drivers to access that information without having to look away from the road.

TRI-ZONE CLIMATE CONTROL
Your environment, your way. Available Tri-Zone Climate Control allows the driver, front passenger and rear passengers to adjust the temperature to their choosing. Plus, warm up with heated rear seats.
PRESTIGIOUS UTILITY

Audaciously adaptable. From rear seats with 40/20/40 flexibility to an ingenious cargo management system that can be concealed until it’s needed, this vehicle is designed to accommodate your needs and express a distinctive sense of style.

PASSTHROUGH CENTER CONSOLE

Simply superior design. A center console features a convenient, discreet shared storage compartment. Purposeful yet stylish, it will surprise you with all it can do. And all you can do with it.
ADJUSTABLE CARGO MANAGEMENT SYSTEM

Smart space. The XT5’s generously spaced cabin features a variety of helpful options, such as the available, adjustable cargo fence that secures luggage and other items. An underfloor storage bin, equipped with hidden hooks for bags, provides additional space and security.

SECOND-ROW VERSATILITY

Open to possibilities. All three rear seats can be folded, individually, for 40/20/40 flexibility. When all are down, they add up to 63 cu-ft of space.

KEYLESS ACCESS

Opening made easier. With Keyless Access, you can unlock the doors without removing the key fob from your pocket or handbag. It also works in reverse, automatically locking the doors when you exit the vehicle.

ADAPTIVE REMOTE START

A head start. Adaptive Remote Start allows the engine to be started from up to 100 yards away. The system can also detect the ambient temperature and activate the available heated and ventilated seats accordingly.

INTEGRATED ROOF RAILS

The accent is on utility. Integrated roof rails visually reinforce strong lines and, when paired with available cross rails, create another option for cargo.

AUTOMATIC PARK ASSIST

An effortless arrival. Whether it’s a front, rear, parallel or perpendicular parking space, the available Automatic Park Assist guides you to an appropriately sized spot and then helps steer into the space while you control the brakes and speed.

3. Cargo and load capacity limited by weight and distribution.
Confidence, your constant companion. Technologies are available to keep watch to the front, rear and side, automatically manage brakes, and even monitor the weather. These are just a few examples of this remarkable vehicle's many available innovative safety features.

AVAILABLE SIDE BLIND ZONE ALERT

Supporting sight. If a vehicle is in an adjacent lane, an icon in the side mirror illuminates to alert you. If you’ve activated the turn signal to change lanes, the icon flashes to help you avoid a collision.
SAFETY

AVAILABLE SAFETY FEATURES
Safety features are no substitute for the driver’s responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the vehicle’s Owner’s Manual for more important safety information.

LANE KEEP ASSIST WITH LANE DEPARTURE WARNING
A nudge to safety. Using monitors to sense lane boundaries, Lane Keep Assist gently turns the steering wheel if the system anticipates the vehicle is leaving the lane unintentionally or without using your turn signal. Additionally, Lane Departure Warning, in conjunction with the Safety Alert Seat, will send a warning pulse through the seat cushion.

FRONT AND REAR PARK ASSIST WITH REAR VISION CAMERA
Parking, perfected. Available Front and Rear Park Assist systems sense stationary objects when you’re parking, warning you if you come too close. When in reverse, the available Rear Vision Camera automatically displays a live image of the area behind you on the Cadillac CUE screen. Guidelines plot your intended trajectory, helping you see people and objects that might be in your path.

ADAPTIVE CRUISE CONTROL
Keep your distance, intelligently. Adaptive Cruise Control uses cameras and radar to sense and maintain a safe following distance between you and the vehicle ahead.

INTELLIBEAM
High beams, higher thinking. To improve safety, the XT5 is equipped with intelligent headlamps that automatically turn high beams on or off, according to outside conditions. The system also disengages high beams when approaching headlights or taillights are within range.

SAFETY ALERT SEAT
Discreet, invaluable. When there’s the possibility of a collision, this patented Cadillac innovation sends a discreet pulse to the driver’s seat, indicating the direction of the threat—left, right or both.

FORWARD COLLISION ALERT
Always looking ahead. This intelligent safety system employs front camera and/or radar technology to detect and alert the driver to impending danger.

REAR CROSS TRAFFIC ALERT
Innovation, in reverse. When backing out of a parking spot, Available Rear Cross Traffic Alert uses the Rear Vision Camera to warn of oncoming traffic to either side of your vehicle.
STABILITRAK ELECTRONIC STABILITY CONTROL SYSTEM
A more sure footing. During low traction conditions like snow, rain or gravel, StabiliTrak automatically applies brake pressure and reduces engine torque, helping keep you on track and in control.

RAINSENSE WIPERS
An intelligent wiper. These available XT5 wipers automatically engage when rain is detected. They also adjust their speed to the rain’s intensity.

FRONT PEDESTRIAN BRAKING
An extra set of eyes. Available Front Pedestrian Braking is a new technology, available as part of the Driver Awareness Package. The system uses a camera to scan the road ahead for pedestrians. If one is detected, a series of indicators and alerts activates and, if necessary, the vehicle can auto-brake to avoid collisions.

ONSTAR
Securely connected. No matter where you’re headed, OnStar helps keep you safe and ready for the journey. For instance, Automatic Crash Response 1 comes standard for the first year. So, if the unexpected happens, you’re not on your own.

1. Visit onstar.com for vehicle availability, details and system limitations. OnStar acts as a link to existing emergency service providers. Not all vehicles may transmit all crash data.
A wise use of power. The engine activates or deactivates cylinders as performance and efficiency demand. The transmission seamlessly employs eight gears to infinite advantage. And its available AWD system directs torque to the wheels that will use it best. The XT5 is an automobile that makes driving a singular delight.
HANDLING + PERFORMANCE + EFFICIENCY

ACTIVE FUEL MANAGEMENT
Fueling efficiency! To use fuel most intelligently, Active Fuel Management automatically and imperceptibly deactivates two of its engine’s 6 cylinders when their power isn’t needed. When it is, all 6 cylinders are activated instantly and seamlessly.

8-SPEED TRANSMISSION
High-tech, high gear. An advanced 8-speed transmission has quick steps between gears for better performance and efficiency. It also takes advantage of Cadillac Performance Algorithm Shifting to seamlessly select the best gear for quicker shifts and greater responsiveness.

ELECTRONIC PRECISION SHIFT
A new standard of control. With the XT5, Electronic Precision Shift makes its Cadillac debut. This push-button technology lets you move from Park to Drive more quickly, while reducing noise and vibration.

AUTO-DRY BRAKES
Innovation that never stops. When the windshield wipers are activated, this feature automatically positions brake pads closer to the rotor to sweep away moisture and improve brake performance.

3.6L V6 ENGINE
Smart power. 310 hp. 271 lb-ft of torque. Statistics tell only part of this advanced power plant’s exciting story. It’s also equipped with intelligent technologies like Active Fuel Management and Cadillac’s Auto Stop/Start feature. The former deactivates engine cylinders when less power is needed, the latter automatically stops and starts the engine when the vehicle is stopped in traffic. Both promote greater efficiency, decreased emissions and all-around driver satisfaction.

REAL-TIME DAMPING SUSPENSION
Read the road. Every two milliseconds, available Real-Time Damping adjusts the front struts and rear shock absorbers to road and driving conditions for a more precise ride.

1-EPA-estimated mpg (19 city/27 hwy [FWD]), 18 city/26 hwy [AWD]) w/3.6L V6 engine.
SAFETY AND SECURITY
Air Bag: Driver and front passenger front-inflator driver side; Passenger Sensing System driver and front passenger (see page 53 for more details).
OnStar® GLTI: With vehicles that have a personal telematics unit and the OnStar® System on the vehicle. The OnStar® System includes a subscription for vehicle diagnostic and roadside assistance services. An active OnStar® subscription is required. (see page 53 for more details).
Side Blind Zone Alert: On vehicles with the Side Blind Zone Alert system installed: a rear seat in the appropriate child restraint. See the Owner’s Manual for more information.
Driver Awareness Package: Includes Safety Alert Seat, Forward Collision Alert, Following Distance Indicator, Lane Departure Warning, Rear Cross Traffic Alert, Rear Camera Mirror, Rear Vision Camera, Light pipes in console, and driver personalization features (see page 53 for more details).

Luxurious Features

Avery Black(TM) cloth interior with integrated leather-appointed trim. Includes semi-aniline full leather with chevron perforated inserts and leather-appointed trim. (see page 53 for more details).

Premium Luxury Features

Available with the All-Wheel Drive model. Includes adaptive cruise control, lane keep assist with lane change alert, lane keep assist with lane change oncoming vehicle warning, and lane keep assist with lane change oncoming vehicle warning.
Price includes a $500 dealer worksheet.

In addition to these features, the 2017 XT5 features:

- Safety features such as side blind zone alert and lane departure warning.
- Advanced safety features like the Driver Awareness Package.
- Luxurious features including semi-aniline full leather with chevron perforated inserts and leather-appointed trim.
- A variety of technology features such as the OnStar® GLTI system and Apple CarPlay™ integration.

Overall, the 2017 XT5 offers a combination of safety, luxury, and technology features that cater to the needs of modern drivers.
We have created the most comprehensive suite of owner benefits offered by any prestige automotive brand in the world, providing everything our Cadillac owners need and everything they deserve.

### OWNER BENEFITS

We offer a comprehensive suite of owner benefits, including OnStar services, that provide peace of mind and access to the latest technology.

### PREMIUM CARE MAINTENANCE

The Cadillac Premium Care Maintenance program covers routine oil changes, tire rotations, certain air filter replacements and a thorough multi-point vehicle inspection for 4 years or 50,000 miles. This 24/7 program provides a cost-friendly way to keep your XT5 in top condition.

### WARRANTY PROTECTION

All Cadillac vehicles come with a 6-year or 70,000-mile Powertrain Warranty. In addition, our 4-year or 50,000-mile corrosion limited warranty covers your initial auto repair needs on your entire vehicle, including parts and labor to correct any concerns in materials or workmanship.

### ROADSIDE ASSISTANCE

Cadillac offers more than 25 years of Roadside Assistance to extend the luxury ownership experience, so you can rely on eco-friendly assistance and services for 6 years or 70,000 miles (whichever comes first). You'll have access to a variety of services, including limited features of the OnStar® RemoteLink mobile app that lets you remotely start your car, program your vehicle on a map on your smartphone and manage your vehicle’s Wi-Fi hotspot. Plus, a travel advisor can connect you to a specially trained OnStar Advisor for critical assistance until help arrives.

### COURTESY TRANSPORTATION

This program provides alternative transportation and reimbursement of certain transportation expenses if your Cadillac requires warranty repairs for 6 years or 70,000 miles (whichever comes first), to help ensure your comfort and convenience.

### MY CADILLAC APP®

The ingenuity of the XT5 doesn’t stop with the vehicle. As a Cadillac owner, an advanced app is available for your new car. From virtually anywhere at any time, a few taps of your finger on your iPhone® or Android™ smartphone let you access features such as parking reminders, Roadside Assistance and more. In conjunction with the OnStar® RemoteLink mobile app, you’ll have the ability to remotely start your vehicle (when factory-equipped with remote start) from anywhere you have cell service and lock and unlock your doors in addition, you can access key diagnostic information, including fuel tank level and range and remaining oil life.

### ONSTAR

Standard for one year, the OnStar Guidance Plan (trial excludes Hands-Free Calling minutes) lets you connect to a specially trained OnStar Advisor just by pushing the blue OnStar button in your XT5.

#### AVAILABLE ONSTAR 4G LTE AND BUILT-IN Wi-Fi® HOTSPOT®

Now your XT5 has an access built-in Wi-Fi® hotspot, for connecting up to seven tablets, laptops or other devices at 4G LTE speed, so you can continue to connect to your in-vehicle Wi-Fi hotspot for 4 years or 50,000 miles. Requires a compatible mobile device, active OnStar service and data plan. 4G LTE speed available in select markets. Visit onstar.com for coverage map, details and system limitations.

#### ONSTAR BASIC PLAN®

With the Basic Plan, you'll get a powerful connection to your vehicle and the world around you standard for five years at no additional cost. You’ll have access to select services, which include limited features of the OnStar® RemoteLink mobile app that lets you remotely start your car, program your vehicle on a map on your smartphone and manage your vehicle’s Wi-Fi hotspot. Plus, send a destination to your in-vehicle navigation screen (if equipped) and lock or unlock your doors—all from your mobile device. You can run diagnostic checks on itself and remind you of servicing needs to take.

#### AUTOMATIC CRASH RESPONSE

In a crash, built-in sensors can automatically alert an OnStar Advisor who is immediately connected to your vehicle to see if you need help—even if you can’t ask for it.

#### EMERGENCY SERVICES

One push of the red emergency button gives you a priority connection to a specially trained OnStar Advisor who can direct emergency services to your exact location and offer critical assistance until help arrives. With OnStar, you’re never alone.

#### CRISIS ASSIST

During severe weather or other crisis situations, OnStar can provide a quick, central point of contact when you need emergency assistance, navigation help or information.

#### ROADSIDE ASSISTANCE

If you’re stranded, have a flat tire or need a tow truck, just ask an OnStar Advisor to get to your exact location to get you back on the road quickly.

#### STOLEN VEHICLE ASSISTANCE

If your vehicle is stolen, OnStar® can use GPS to pinpoint and work with authorities to quickly help recover it. On many models, an Advisor can send a signal to slow the vehicle or prevent it from being restarted. And with the new Theft Alarm Notification feature, if your car alarm sounds, you’ll receive a notification by text, email or phone call.

### TURN-BY-TURN NAVIGATION™

Getting directions is as easy as pushing a button and telling an Advisor where you want to go. Destinations are quickly downloaded to your car, and a voice call guides you every turn. All Advisors can also help with a database of over 24 million points of interest. To plan in advance, you can send destinations to your vehicle through an Advisor or the OnStar® RemoteLink mobile app.

### REMOTE SERVICES™

You can remotely start your vehicle. Locate your vehicle on a map, lock or unlock your doors, honk your horn and flash your lights. You can also send destinations to your vehicle through your smartphone.

### ONSTAR® ATYOURSERVICE®

A simple call to an OnStar Advisor can send a signal to unlock your doors, honk the horn and flash the lights or remote start your vehicle. It’s technology hard at work to get you home safely.

### HANDS-FREE CALLING™

Your vehicle has built-in hands-Free Calling to help you safely connected when your cell phone isn’t available. Choose from minute bundles or a minutes-per-month plan.

### ATYOURSERVICE®

OnStar AtYourService is a new way to discover value in the places you go. You get valuable offers for better ways to eat, shop, work and play, through a simple push of the blue OnStar button.

### ADVANCED DIAGNOSTICS®

Feel confident and safe knowing you have a self-diagnosing device. Now your vehicle can easily run a check on its key systems and send you a monthly diagnostics report. You’ll know more and worry less with Advanced Diagnostics.

### DEALER MAINTENANCE NOTIFICATION

It is time for a service? Are all changes? Or is a new filter? You’ll always know because your car can email your diagnostics report to the dealer when it’s time, and the dealer will contact you to set up a service appointment.
NEW-VEHICLE LIMITED WARRANTY

World-class coverage comes standard on every 2017 Cadillac. This warranty is for Cadillac vehicles registered in the U.S.A. See your Cadillac dealer for terms and conditions.

COVERED FOR 6 YEARS/70,000 MILES (WHICHEVER COMES FIRST)

Powertrain limited warranty with no deductible. Roadside Assistance Program and Courtesy Transportation Program.

COVERED FOR 4 YEARS/50,000 MILES (WHICHEVER COMES FIRST)

Bumper-to-bumper coverage. Tires—defects in material and workmanship; repairs made to correct any vehicle defect; corrosion on body sheet metal panels.

RUST-THROUGH COVERAGE

Cadillac vehicles are designed and built to resist corrosion and rust-through corrosion. Any body sheet metal that rusts through (in the form of an actual hole in the sheet metal) is covered for six years and unlimited mileage. Cosmetic or surface corrosion—resulting from stone chip or scratches in the paint, for example—is not included in the rust-through coverage. Application of additional rust-inhibiting materials is not required under this rust-through coverage and none is recommended. See your Cadillac dealer for terms of this limited warranty.

FLEET ORDERS

Some standard content may be deleted with fleet orders. See dealer for details.

ABOUT THIS CATALOG

We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximations based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your Cadillac dealer for complete details. Any variations in colors shown are due to reproduction variations in the printing process. Cadillac reserves the right to lengthen or shorten the model year for any product for any reason, or start and end model years at different times. Note: Some photographs in this catalog show vehicles with optional equipment.

ENGINES

Cadillac products are equipped with engines produced by GM Powertrain or suppliers to GM worldwide. The engines in Cadillac products may also be used in other GM makes or models.

ASSEMBLY

Cadillac vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Cadillac vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

UPDATED SERVICE INFORMATION

Cadillac dealers receive useful service bulletins about Cadillac products. You may purchase them from Helm Incorporated by calling 1-800-782-4356 or by visiting www.helminc.com.
