Beauty can manifest itself into many different forms. It can delight and satisfy the eye. Move and comfort the body. Shape space and versatility. Beauty is not simply in the eye of the beholder. It is also to be held. Handled. Transformed. With effortless style, grace and elegance, beauty like this is a joy that can be felt forever.

**THE 2019 XT5**
The 2019 XT5 intrinsically melds the look of high fashion with everyday needs. From a bold design aesthetic, to an ingenious cabin that is as spacious as it is versatile, to a striking stance, the Cadillac XT5 is ready to accommodate.

When you step inside the XT5, you will see terrific design cues that feature a wide dash to host cutting-edge technologies with timeless craftsmanship. Wood, leather appointments and other materials have been chosen and fitted with a care reminiscent of fine tailoring.
Elegance abounds. With a hand-stitched steering wheel and dashboard, along with cut-and-sewn seating surfaces, each of the available interior combinations has been carefully curated. Uniquely colored available leathers and custom stained exotic woods are paired for a rich yet understated feel. Wherever you are going, arrive in style.

Lamps so artful, they’re signed. The Cadillac front and rear light systems offer available advanced LED technology with brilliant illumination. The headlamps and taillamps are etched with the detail of the signature Cadillac Crest.
63 CUBIC FEET\(^1\) OF MAXIMUM POSSIBILITY

Rear seats with 40/20/40 folding flexibility slide and recline, revealing an ingenious available Cargo Management System that can be stowed away until it is needed. The result is beauty, comfort and utility.

\(^1\) Cargo and load capacity limited by weight and distribution.
More field of view to admire. Cadillac’s innovative available Rear Camera Mirror can stream video through the rearview mirror. This less-obstructed view offers the driver up to 300 percent more field of view than the conventional mirror, but can revert to the standard view with just a toggle.

You can clearly see the additional visibility and expanded view of what is directly behind the vehicle with the Rear Camera Mirror (A) compared with the traditional rearview mirror (B).
Nestled in each far corner are stunning available LED headlamps with available Front Cornering Lamps. They emit a crisp, white light, providing illumination superior to traditional lighting. Available Illuminating Door Handles create a beacon as you approach the vehicle, while available 20” wheels make a stylish statement.

From the rear, bold signature LED taillamps showcase the dramatically sculpted rear profile. Integrated roof rails visually reinforce strong lines, and when paired with available crossrails, they create an additional option to carry cargo.

**EFFORTLESS BEAUTY. FROM EVERY ANGLE.**

- **247 TOTAL AVAILABLE LEDS**
- **20” AVAILABLE 12-SPOKE FULLY POLISHED ALUMINUM WHEELS**
The feel of the XT5 interior is one of absolute elegance and amenity. It will immerse you in cutting-edge technologies and timeless craftsmanship. Available wood, leather appointments and other authentic materials have been chosen and fitted with care. And the advanced Cadillac user experience puts a suite of information and entertainment offerings at your command, including climate, audio and connected Apps: an easy way to browse, select and install apps.

Standard with Premium Luxury and Platinum, the available Tri-Zone Climate Control allows the driver, front passenger and rear passengers to adjust the temperature to their choosing. Plus, warm up with available heated rear outboard seats.

All is revealed with an available UltraView sunroof that serves you and your passengers stunning view spans from both the front and rear seats. The glass is tinted with UV sun-ray protection, while a power sunshade opens and closes with the push of a button.

6. Cadillac user experience for sore only on select models. Full-functionality requires active Bluetooth® and smartphone, and USB connectivity for some devices.
You’ll find innovations throughout the XT5 that keep you, your world and your vehicle fully integrated. Take for instance Adaptive Remote Start. Designed within your key fob, it engages the engine from up to 100 yards away and can sense the outside temperature to heat your steering wheel, if equipped, and activate the rear-window defogger when needed. Plus, with your myCadillac mobile app and a paid subscription, you can lock, unlock and remote-start your vehicle and get select vehicle information from anywhere you have reception.

The available Cadillac 4G LTE built-in Wi-Fi hotspot allows you to connect up to seven devices at the same time, from up to 50 feet away from your XT5. So your passengers can check email or watch their favorite entertainment. Also, when you plug in your iPhone, you will have access to Apple Music™, Siri® and other information as a part of Apple CarPlay™.

With Keyless Access, you can unlock the doors without removing the key fob from your pocket or handbag. It also works in reverse, automatically locking the doors when you exit the vehicle. Available Surround Vision provides a bird’s-eye view of the area immediately surrounding the vehicle when in low-speed Drive or Reverse. This view, projected onto the Cadillac user experience screen, helps increase your awareness when parking.

1. Available on select Apple® and Android™ devices. Service availability, fees, and capability varies by vehicle and feature. See your owner’s manual or visit onstar.com for more details.
2. Service availability, features and functionality are subject to limitations and vary by vehicle, device and the plan you are enrolled in. Device data connection required. Visit onstar.com for details.
3. Vehicle user interface is a product of Apple® and its terms and privacy statements apply. Requires compatible iPhone® and data plan rates apply. Apple CarPlay is a trademark of Apple, Inc. Siri, iPhone and iTunes are trademarks of Apple, Inc., registered in the U.S. and other countries.
4. Read the vehicle Owner’s Manual for important feature limitations and information.
PARKING PERFECTED Available Front and Rear Park Assist systems can sense stationary objects when you’re parking, warning you if you come too close. When in Reverse, the Rear Vision Camera automatically displays a live image of the area behind you on the Cadillac user experience screen. Guidelines plot your intended trajectory, helping you see people and objects that might be in your path.

HELP KEEP AN EYE ON PEDESTRIANS Front Pedestrian Braking, available as part of the Driver Awareness Package, uses a camera to scan the road ahead. If a pedestrian is detected, the system alerts the driver and, if necessary, applies the brakes to help avoid or reduce the severity of a potential collision.

AN INTELLIGENT WIPER Available Rain senses Wipers automatically engage when rain is detected, adjusting their speed to the rain’s intensity. Whenever the wipers are activated, available Auto Dry brakes automatically position the brake pads closer to the rotors to sweep away moisture and improve performance.

TRULY FORWARD THINKING Available Forward Collision Alert monitors traffic ahead, alerting you of a potential collision with a detected vehicle is imminent, while the available Following Distance Indicator shows the following time to the vehicle ahead (in seconds) in the Driver Information Center (DIC).

BE ALERTED EVEN IN REVERSE When backing out of a parking space, available Rear Cross Traffic Alert can warn you of oncoming cross traffic to either side of your vehicle.

TRAVEL THE STRAIGHT AND SMART Using monitors to sense lane boundaries, available Lane Keep Assist can gently turn the steering wheel if the system anticipates the vehicle is leaving the lane unintentionally or without using your turn signal. Working in conjunction with the available Safety Alert Seat, available Lane Departure Warning shows a visual alert in the cluster and sends a warning pulse through the seat cushion when your vehicle crosses the detected lane marking.

AN ATTENTION-GRABBER Available Lane Change Alert with Side Blind Zone Alert surveys the area well beyond the side blind zone and illuminates the side-mirror warning icon to alert you of a rapidly approaching vehicle. Available Side Blind Zone Alert monitors your blind zones, so if a moving vehicle is in the adjacent lane, it also illuminates the side mirror icon. In both cases, if you’ve activated your turn signal toward the detected vehicle, the icon on the side mirror will flash to alert you.

GAIN PRECIOUS TIME Up to certain speeds, available Forward and Reverse Automatic Braking can sense imminent forward and reverse collisions and automatically engage the brakes, if you have not already done so, helping to reduce the severity of the collision. The system may even help avoid a collision at very low speeds.

SET YOUR SPACE Available Adaptive Cruise Control–Advanced employs front radar technology to maintain a selected distance between you and the detected vehicle ahead.

GRABS YOUR ATTENTION, SUBTLY. Cadillac’s available patented Safety Alert Seat sends a discreet pulse, instead of an audible alert, to the left, right or both sides of the driver’s seat, indicating the direction of the threat – left, right, front or rear.

A HIGHER LOOK AT WHAT SURROUNDS Available Surround Vision provides a bird’s eye view of the area immediately surrounding the vehicle when in low-speed Drive or Reverse. This view, projected onto the Cadillac user experience screen, helps increase your awareness during low-speed maneuvering.

Safety or driver-assistance features are no substitute for the driver’s responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings, and road conditions at all times. Visibility, weather, and road conditions may affect feature performance. Read the vehicle Owner’s Manual for more important feature limitations and information.
You will immediately notice a feeling of confidence, responsiveness and awareness with available Real-Time Damping behind the wheel of the XT5. The transmission seamlessly employs eight gears to infinite advantage. The powerful engine activates or deactivates cylinders as performance and efficiency demand. And the available AWD system directs torque to the wheels that will use it best. The XT5 is an automobile that makes driving a singular delight.

The 3.6L V6 engine delivers 310 hp and 271 lb-ft of torque. Statistics tell only part of this advanced power plant’s exciting story. It is also equipped with intelligent technologies such as Active Fuel Management and Cadillac’s Auto Stop/Start feature. The former deactivates engine cylinders when less power is needed. The latter automatically stops and starts the engine when the vehicle is stopped in traffic. Both promote greater efficiency and all-around driver satisfaction.

Available All-Wheel Drive (AWD) delivers an engaging driving experience. The available twin-clutch AWD system enhances driver launch performance and cornering, especially in adverse weather conditions.
2019 CADILLAC XT5
Deep-tinted on rear and tailgate windows
Capless
Console lighting
5 USB charge and playback ports
Interior, in console and doors
The system wirelessly charges one PMA- or Qi-compatible mobile device. Some phones have built-in wireless charging

Important Notes About Alterations and Repairs
We have attempted to list the standard equipment among all 2019 Cadillac models. This list is not exhaustive. Cadillac is not responsible for the safety or quality of design, features, reliability or functionality of any equipment by such others.

OwNer BEnefits
Our owners deserve it all. That’s why 2019 vehicles are backed by a comprehensive suite of owner benefits. To learn more, visit cadillac.com/ownerbenefits.

EngIneS
Cadillac products are equipped with a gasoline brought by GM Powertrain or other suppliers to the applicable engine. The engine in a Cadillac product may be used in other GM models and other countries.

Assembly
The vehicle was assembled at a special body company, assembler, equipment installer or upfitter. Installations or alterations to the original equipment vehicle (or chassis) as distributed by GM are not covered. See your Cadillac dealer for details.

Notes on Child Safety
For additional information about trailering or off-road driving in your vehicle, See the Owner's Manual and the child safety seat instructions for more safety information.

A Note on Child Safety
Child restraints are designed for your child’s age, weight, and height. Always follow instructions of child restraint manufacturer.

Trailing and Off-Road Driving Information
Please go to cadillac.com and carefully review the vehicle training. Visit cadillac.com for more safety information.

New Vehicle Limited Warranty
6-YEAR/70,000-MILE TRANSFERABLE POWERTRAIN LIMITED WARRANTY. Cadillac will warrant certain Hybrid components for 8 years or 100,000 miles, whichever comes first. We will also provide power train warranty coverage for a vehicle that is leased. Warranty coverage is provided for the original in-service date of the vehicle, for the duration of the Powertrain Limited Warranty. Please see your Cadillac dealer for details.

4-YEAR/50,000-MILE BUMPER-TO-BUMPER LIMITED WARRANTY
NEW-VEHICLE LIMITED WARRANTY
For Hybrid owners requiring more comprehensive coverage than that provided under this Hybrid Warranty, a GM Protection Plan may be available. See your Cadillac dealer for more information.

HYBRID WARRANTY
In addition to the bumper-to-bumper coverage, Cadillac will warrant certain hybrid components for 8 years or 100,000 miles, whichever comes first. We will also provide power train warranty coverage for a vehicle that is leased. Warranty coverage is provided for the original in-service date of the vehicle, for the duration of the Powertrain Limited Warranty. Please see your Cadillac dealer for details.
