IT IS PERHAPS THE SMALLEST SPACE KNOWN TO MAN. THAT RAREFIED SLIVER BETWEEN THE GOOD AND THE TRULY GREAT. THERE’S NO MAP TO HELP YOU FIND THIS ELUSIVE PLACE. THE ONLY WAY TO GET THERE IS SIMPLY TO BELIEVE YOU CAN.

At Cadillac, we’ve set out to create our own uniquely American breed of extraordinary. It’s why we’ve created our own daring school of design that pushes steel way beyond its comfort zone. It’s why we’ve pushed technology two generations ahead by pioneering a bold new way for drivers to intuitively access entertainment and information with the flick of a finger. And why, in everything from safety to performance, we measured ourselves against the world’s best.

RED-BLOODED. DARING. ORIGINAL. These are the kinds of luxury vehicles we build. It takes tenacity, a refusal to leave well enough alone. That is the difference between good and great.

That is the difference between just making luxury vehicles, and making Cadillacs. The New Standard of the World.
STATE OF THE ART
MEETS HIGH ART.
THE FUTURE IS HERE.
AND IT’S EFFORTLESS.

We set out to build a car that would not only move you, but transport you well into the future. The result is the bold, all-new XTS. From CUE™—Cadillac User Experience, which seamlessly connects you to a world of information, communication and entertainment—to its exhilarating driving experience, it ushers in new standards with every ingenious detail. Powerful, yet efficient! Stunningly modern, yet meticulously crafted. Tautly proportioned, yet spacious. And with its revolutionary dual-mode Magnetic Ride Control and front Brembo® brakes, it provides the perfect balance between agility and composure. The intuitive, invigorating XTS has arrived. And it’s bringing the future forward.

1. Full functionality requires compatible Bluetooth® and smartphone. Some devices require USB connectivity.
2. EPA-estimated mpg 1 7 city / 28 highway, FWD. 1 7 city / 26 highway, AWD.
The XTS redefines the principles of what’s possible, beginning with the groundbreaking CUE. Employing first-of-its-kind technology, CUE brings the intuitive control of smartphones and tablets conveniently to the road. It’s so advanced, it even senses your hand as it approaches, displaying relevant information and providing tactile feedback from its brilliant touch screen. The inspired thinking also extends to available XTS safety technologies like its perimeter warning that helps alert you to obstacles and hazards in your path. Under the artfully sculpted hood, the impressive 3.6L direct-injection V6 delivers a refined 304 HP, while available torque-vectoring All-Wheel Drive and the rear electronic Limited-Slip Differential (eLSD) responsively put power where you need it, when you need it. And it’s all backed by Cadillac Shield, the most comprehensive suite of owner benefits offered by any luxury automotive brand in the world.
Where is it written that head-turning presence and formidable performance be restricted only to two-door coupes? The chiseled, angular skin of the XTS was designed not only to turn heads, but to slice through the wind, helping improve performance and mitigate noise. Its distinctive, sloping grille is integrated into the overall design so seamlessly, the final effect is both subtly detailed and yet convincingly stated. Of course, its assertive stance and striking vertical rear taillamps make a bold statement, but when you spot the massive front Brembo® brakes lurking behind the spoked alloys, it becomes clear this is a Cadillac to be reckoned with.
WHEN IT COMES TO THE DETAILS, WHERE DO YOU STOP?
YOU DON’T.

DIRECTIONAL HID HEADLAMPS
To help light the way at night, the brilliant High-Intensity Discharge (HID) headlamps are available with Adaptive Forward Lighting. Sensors react to the car’s speed and steering, directing the headlamps to cast light precisely into your path of travel.

DYNAMIC 20” WHEELS
Featuring a brilliant, polished finish and chrome inserts, these 20” Platinum Collection wheels are the ideal complement to the XTS.

BOLD, CONFIDENT GRILLE
The aerodynamic front is discerningly accented with chrome and balanced by a subtle piano-black finish, delivering a sleek and striking appearance.

ROOM WITH A VIEW
A third window was engineered behind each rear door. This feature not only provides an overall feeling of open space, but also gives rear seat passengers a clearer view.

EXTERIOR DETAILS
WHEN IT COMES TO THE DETAILS, WHERE DO YOU STOP?
YOU DON’T.
A PERFORMANCE THIS IMPRESSIVE

DESERVES LIGHTING TO MATCH.

With the XTS setting the perfect stage for an exhilarating performance, it’s fitting the lighting was designed as if it were a contemporary theater. Every piece of illumination was choreographed with a specific task in mind, whether it is to draw your eye to the meticulous details or to add illumination to key areas. Taken individually, each light is impressive in its own right, like the signature Cadillac light pipe technology integrated into the headlamps and taillamps. They form a razor-thin blade that is clearly evident at night—making your vehicle visible and distinctive from any angle. When backing up, there’s a lower-mounted LED reverse lamp to improve your view. Even the available illuminated exterior door handles add a purposeful touch on a dark night.

ILLUMINATED DOOR HANDLES

Refined details are everywhere, right down to the available illuminated door handles. More than an accent, their soft glow makes them easier to locate. Once you are in the vehicle, they return to their non-illuminated state.

PUDDLE LAMPS

Subtle lamps located under the outside mirrors cast a light near the entrance of the car as part of the carefully choreographed lighting sequence, so your path is well lit.

ILLUMINATED SILL PLATES

In the XTS, every detail was considered. For example, upon opening either front door in the Platinum Collection, backlit sill plates are an inviting touch.

AMBIENT INTERIOR LIGHTING

Adding drama and illumination, this available feature includes subtle lighting under the wood trim on the dash and door panels. It also includes LED spotlights under the door pulls in front, in the foot wells and from the overhead console.
The XTS acknowledges your presence even before you take a seat. As you approach, lighting elements in the headlamps, door handles and side mirrors are choreographed to illuminate your way.
The first moments behind the wheel are, in many ways, the most inspiring. It is why we designed the XTS to feel more like a perfectly tailored garment. You wear it, feel it, think it. There’s the wraparound instrument panel that blends seamlessly into the upper doors, creating an uninterrupted sense of spaciousness. To that, add fine leather seating surfaces, exotic woods and brushed metal that work in concert to further accentuate the cabin. Even the spacious backseat with best-in-class rear legroom is slightly elevated so every passenger is afforded a seat with a view. It may feel as if every interior detail was designed to meet your personal specifications. Perhaps that’s because it was.
The meticulous attention to detail continues into the striking cabin. Intuitive controls are complemented with impeccably detailed materials like lustrous exotic wood that trims the steering wheel and is carefully laid throughout the center console. Laminated front side glass and triple door seals work in tandem to help deflect noise before it enters the cabin. And to optimize seat comfort, pressure-mapping technology was used extensively to design the contoured front seats. Proof that in the XTS, technology definitely comes with a sophisticated side.

**THE Lining OF A SUIT.**
**THE MOVEMENT OF A WATCH.**
TRUE LUXURY CAN OFTEN BE FOUND ON THE INSIDE.

The closer you look, the better it gets. Leather surfaces, contrasting stitching, beautifully grained woods and brushed metal all come to life in the XTS.
Your choice seats to a remarkable musical event are ready. Deep, powerful low. A wide, spacious soundstage. All the emotion and dynamics of a live performance now rendered in a remarkable surround sound experience. And it’s all brought to you by the 14-speaker Bose Studio Surround sound system in the Premium and Platinum Collections. Customized for the unique acoustic environment of the XTS, it uses two Personal surround speakers on the top of each front seat to provide an immersive and individual sound experience. Of course, no matter where you are sitting, you’ll enjoy rich, detailed sound that seems to extend well beyond the space. With its proprietary speakers, powerful amplifier and AudioPilot® noise compensation technology, this system puts you in the middle of the music.
Introducing CUE, which blends innovative technology with highly intelligent design to create an experience that's as effortless as it is advanced. It easily accesses every contact and song on up to ten Bluetooth®-enabled smartphones. The available 3-D GPS navigation system has map-integrated Doppler weather reports. CUE also streams Pandora Radio® and lets you preset up to 60 favorites, including points of interest, addresses, phone numbers and more. With CUE, the customization and content possibilities are not only endless, but right at your fingertips.
CUE is as intuitive as it is advanced. Spread your fingers to zoom in closer on a map. Swipe to breeze through your music. Simply speak and let the Natural Voice Recognition help you effortlessly place a phone call or change your music.

Considering that it can even detect your hand as it approaches the vibrant 8-inch LCD touch screen, interacting with CUE couldn’t be easier. And when an icon is touched, the screen pulses to acknowledge the command, letting you keep your eyes safely on the road. On select models, you can even configure the gauge cluster to find the layout of information that perfectly suits you. With CUE, the future has arrived, and it’s better than you could have possibly imagined.

**ONE PART DRIVER INTERFACE, ONE PART ENTERTAINMENT SYSTEM; CUE REIMAGINES THE CONNECTION BETWEEN CAR AND DRIVER.**

---

1. Requires active SiriusXM subscription. 2. Data plan rates apply. 3. Go to gm.com/bluetooth to find out which phones are compatible with the vehicle. 4. Map coverage available in the United States, U.S. Virgin Islands, Puerto Rico and Canada.
SAFETY

VISION,
IN EVERY SENSE OF THE WORD.

The best safety features are those that help you avoid a collision in the first place. That's why the XTS offers the latest innovations in driver awareness and assistance to help inform you of potential hazards you may not even see. Using radar technology and strategically placed cameras, the XTS is ever-vigilant with its available Forward Collision Alert, Lane Departure Warning, Side Blind Zone Alert, Rear Cross-Traffic Alert, and Front and Rear Park Assist. Even the available Adaptive Cruise Control uses radar to maintain a preset distance between you and other vehicles. And the available Automatic Front and Rear Braking detects large objects you may not see to help prevent certain low-speed collisions by applying the brakes for you. As an alternative to warning chimes, the XTS offers a Safety Alert Seat that subtly pulses, giving you instant, tactile feedback to alert you of select dangers on the road. Safety is no longer limited to five senses.

1. Before making a lane change, always check the SBZA display, check the side and inside mirrors, look over your shoulder for traffic and hazards, and apply your turn signal. If you do not see a vehicle in your SBZA display, check your mirrors and the road before changing lanes. 2. Adaptive Cruise Control is no substitute for the driver’s personal responsibility to operate the vehicle in a safe manner. The driver needs to remain attentive to traffic and road conditions and provide the steering, braking or other inputs necessary to retain control of the vehicle. 3. Late availability.
With select models featuring eight ultrasonic motion detectors, six Doppler radar sensors and a high-definition Smart Camera taking twelve pictures every second, the XTS doesn’t just watch the road. It analyzes it. Cross-references it. Writes a dissertation. And then leaves you with the condensed version. All through subtle pulses in your driver’s seat.

Why pulses? Because on the road there are many visual and auditory signals vying for your attention. So we invented a warning you can feel—the Safety Alert Seat, available exclusively in the XTS. By sending an immediate pulse through the seat cushion, either right or left, or simultaneously, this patented technology quickly and intuitively warns you of the direction of a potential hazard, increasing your confidence as you continue on your way.

From where you sit, it is just another example of how innovative XTS safety technology leads you confidently down the road ahead.
IT’S AS DEFENSIVE
AS IT IS DYNAMIC.

SAFETY

IT’S AS DEFENSIVE
AS IT IS DYNAMIC.

It’s as defensive as it is dynamic. It starts with a protective safety cage constructed with high-strength steel alloys for exceptional rigidity and strategically placed crumple zones. Then we add preventive safety features like the StabiliTrak Electronic Stability Control System and a sophisticated antilock braking system (ABS) with Electronic Braking Force Distribution that helps balance stopping power between the front and rear brakes. There’s also the confidence that comes with ten standard airbags1 and a one-year subscription to OnStar2 Automatic Crash Response. In a crash, built-in sensors in your vehicle can automatically send an alert to an OnStar advisor who can contact you in your car.

1. Always use safety belts and the correct restraint for your child’s age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner’s Manual and child safety seat instructions for more safety information. 2. Visit onstar.com for details and system limitations. OnStar acts as a link to existing emergency service providers.

AUTO-DRY BRAKES

It makes perfect sense—dry brakes stop faster than wet brakes. That’s why we designed the XTS so that the available Rainsense wipers and Auto-Dry brakes work together. After the Rainsense wipers are activated, the brake pads are positioned closer to the rotor, sweeping away the moisture and helping to improve braking performance. Visit cadillac.com/autodry for further details.

CRASH-TEST TECHNOLOGY

Today’s “hyper-tech” dummies record and transmit crash data 10,000 times a second. More than 200 crash-test dummies of all shapes and sizes are wired with sensors that tell safety engineers how much and where force they endure during crash tests. This helps improve the safety of every Cadillac made.
Push the start button, and the V6 comes to life with a muscular rumble. But it’s what goes on under the artfully sculpted hood that is truly impressive. Designed to complement the exceptional handling of the XTS, the 304 HP 3.6L V6 engine is an advanced study in technology. Spray-guided direct fuel injection delivers fuel precisely to the center of the combustion chamber. Along with Variable Valve Timing, this maximizes the air/fuel ratio for optimal power and efficiency. The engine is coupled with an advanced Gen-II automatic transmission that delivers crisp, smooth shifts in step with the V6 engine’s impressive output. When you call for power, the XTS answers immediately.

**3.6L DIRECT-INJECTION V6 ENGINE**

Known for its smooth, seamless power delivery, this 3.6L direct-injection V6 engine is also remarkably fuel efficient.

**DRIVER SHIFT CONTROL**

The electronically controlled 6-speed automatic transmission incorporates steering-wheel-mounted paddle shifters that enable clutchless manual shifting. A quick tap in all that’s required for a smooth, crisp upshift or downshift.

IT’S A RARE ENGINE THAT APPEALS TO YOUR LEFT BRAIN AND RIGHT FOOT IN EQUAL MEASURES.
Any luxury sedan can hold its own on a long stretch of interstate. However, when the pavement twists, writhes and dips, the XTS quickly separates itself from everything else on the road. With its advanced suspension and precisely tuned steering, it delivers a perfectly connected and sophisticated ride. Torque-vectoring All-Wheel Drive is available and features advanced software that manages torque front-to-rear, while the rear electronic Limited Slip Differential (eLSD) controls torque side-to-side along the rear axle, putting power where you need it most for a surefooted grip on the pavement. The XTS also features revolutionary dual-mode Magnetic Ride Control that reacts in the blink of an eye to changing demands, while its advanced HiPer Strut technology helps the tires remain keyed to the surface. Combined with rear auto load-leveling suspension and speed-sensitive steering, the XTS handling is nothing short of a revelation.
Platinum Collection

We don’t play games when it comes to luxury. Unless, of course, it’s Leapfrog.

The XTS Platinum Collection takes all the innovation, design and especially the luxury of the XTS to an even higher level. Leather envelops the instrument panel and floor console, and even flows onto the door. Opus full-leather seats are not only exceptionally supple, but so meticulously detailed that even the inside edges of their cooling perforations reveal a subtle hint of contrasting color.

The Lineate wood is exclusive to Platinum, and so richly grained, it takes on an extra dimension. While overhead, a microfiber-sueded headliner surrounds an UltraView sunroof that opens to the heavens above.

The strong lines and refined mesh combine to make a statement that is found only on the Platinum Collection.

Progressive technology in the XTS affords an assured and comfortable journey with available Adaptive Cruise Control as well as Automatic Front and Rear Braking.

The XTS Platinum Collection is exclusive to the Platinum Collection. The strong lines and refined mesh combine to make a statement that is found only on the Platinum Collection.

1. Jet Black with Light Wheat accents interior only. 2. Adaptive Cruise Control is no substitute for the driver’s judgment and attention to the road and traffic conditions. The driver needs to remain in control of the vehicle. 3. Late availability.
It’s as close as you can get to a personalized fit. Tri-zone climate control means every inch of the car is perfectly heated or cooled. The reconfigurable gauge cluster allows you to find the layout of information that perfectly suits you. And the richly designed interior comes complete with a 14-speaker Bose Studio Surround sound system. Even a navigation system\(^1\) with map-integrated Doppler weather\(^2\) reports is just another example of how we’ve pushed refinement to a whole new level.

\(^{1}\) Map coverage available in the United States, U.S. Virgin Islands, Puerto Rico and Canada. \(^{2}\) Requires active SiriusXM subscription.
Step inside, and you’ll find premium wood accents highlighting the instrument panel, door and shifter. With a Memory Package for two drivers that recalls presets for the power driver seat, outside mirrors and the steering column, the XTS stands ready no matter who holds the key. Heated, ventilated front seats with cushion-length adjusters and heated outboard rear seats mean everybody in the cabin is comfortable, no matter how long the drive or the temperature outside. Of course, it’s all complemented by dramatic ambient lighting. Even the dual-exhaust outlets are beautifully integrated into the fascia to complete the modern and refined look. Proof that luxury and advanced design can coexist in perfect harmony.

**THE LUXURY COLLECTION:**

**How close did we come to the one in your imagination?**

**PREMIUM WOOD TRIM**
Eye-catching wood sets the tone for the interior of the XTS with its warm, rich color. The beautiful grain appears to change with the lighting, adding an extra touch of allure.

**INTEGRATED EXHAUST**
The dual-exhaust outlets are integrated into the rear fascia to ensure the impressive lines of the XTS remain unbroken.

**VENTILATED FRONT SEATS**
Air-cooled front seats with cushion-length adjusters are a welcome rejuvenation on hot days and during extended journeys.

**HEATED STEERING WHEEL**
The perfect antidote to a cold winter morning.

PREMIUM CARE MAINTENANCE

Premium Care Maintenance is a fully transferable maintenance program that covers select required maintenance services during the first 4 years or 50,000 miles.1

ROADSIDE ASSISTANCE

Among leading luxury car brands, Cadillac is the only one to offer standard 6-year/70,000-mile Roadside Assistance that provides lock-out service, a tow, fuel, Dealer Technician Roadside Service and more.

WARRANTY PROTECTION

The 6-year/70,000-mile Cadillac Powertrain Limited Warranty is 20,000 miles longer than Audi, BMW and Mercedes-Benz. The 4-year/50,000-mile Bumper-to-Bumper Limited Warranty covers repairs on your entire vehicle, including parts and labor, to correct problems in materials or workmanship.

NAVIGATION BY ONSTAR

Just push the OnStar button and an Advisor can download voice-guided turn-by-turn directions to your Cadillac, and a voice will call out every turn. You can also plan routes using Google Maps or MapQuest.com and then send them to your Cadillac.

CONNECTIONS BY ONSTAR

Available Hands-Free Calling capability from OnStar allows you to make and receive calls safely from your Cadillac. With the OnStar RemoteLink mobile app, you can access and control your Cadillac from anywhere you have cell phone service.

SECURITY BY ONSTAR

If you’ve reported your Cadillac stolen, OnStar can use GPS technology to help authorities quickly locate and recover it. On most Cadillac models, an Advisor can send a Stolen Vehicle Slowdown® or Remote Ignition Block signal to help authorities safely recover it.

DIAGNOSTICS BY ONSTAR

With one of the industry’s most comprehensive vehicle diagnostics and maintenance reporting from OnStar, maintaining your Cadillac can be as simple as checking your e-mail or your OnStar RemoteLink mobile app. Every month, you can receive an e-mail with the status of key operating systems.

EMERGENCY BY ONSTAR

In a crash, built-in sensors can automatically alert an OnStar Advisor who is immediately connected to your Cadillac to see if you need help sent to your exact location. Other OnStar emergency services include Injury Severity Predictor and First Assist. All Cadillac models come with 1 year of OnStar service.

The one-year Directions and Connections Plan connects you with a live OnStar Advisor who can program your requested route and have directions sent to your vehicle, or to the navigation system when equipped. It’s just one example of the level of personal service we think you deserve as a Cadillac owner.

When we set out to create the ultimate customer experience, our goal was not only to exceed every luxury vehicle automaker, but to create a new standard in the luxury experience. Every vehicle we sell is backed by Cadillac Shield, the most comprehensive suite of owner benefits offered by any luxury automotive brand in the world. From innovations like Remote Vehicle Diagnostics and advanced mobile apps to our Premium Care Maintenance program, Cadillac Shield gives luxury owners everything they need.
XTS FEATURES AND OPTIONS

INTERIOR FEATURES (continued)

- STANDARD
- LUXURY
- PREMIUM
- PLATINUM

CRUISE CONTROL

- Electronic, with set and resume speed
- Two presets for driver seat position, outside mirrors and power rake and telescoping wheel
- Includes two remote transmitters
- On instrument panel and door trim

NAVIGATION

- includes two remote transmitters
- Recognizes up to 10 Bluetooth®-enabled smartphones
- Activates heated/ventilated seats (if equipped), climate control system and rear defroster
- Includes two remote transmitters
- Two presets for driver seat position, outside mirrors and power rake and telescoping wheel
- On instrument panel and door trim

ONSTAR

- Standard one-year Directions & Connections Plan
- Includes two remote transmitters
- Includes two remote transmitters
- Recognizes up to 10 Bluetooth®-enabled smartphones
- On instrument panel and door trim

LOCATION

- Front: HiPer strut, direct-acting stabilizer bar; Rear: Independent linked H-arm with air springs

DRIVETRAIN

- 3.6L DIRECT-INJECTION V6 VVT ENGINE
- With 304 HP @ 6,800 rpm and 264 lb.-ft. of torque @ 5,200 rpm

CAPACITIES

- Cargo volume 18.0 cu. ft.
- Seating 5

HEADLINER

- With full-color Driver Information Center display
- Includes two remote transmitters
- Two presets for driver seat position, outside mirrors and power rake and telescoping wheel
- On instrument panel and door trim

SKY WINDOW

- Includes two remote transmitters
- Recognizes up to 10 Bluetooth®-enabled smartphones
- Activates heated/ventilated seats (if equipped), climate control system and rear defroster
- On instrument panel and door trim

CUP HOLDERS

- With moisture detection
- Rear: With lockable pass-thru, dual cup holders and storage
- Center front: Driver Sensing System, front passenger seat

HEADLAMPS

- LED taillamps, back-up lamp and center high-mounted stop lamp (CHMSL)

VOCABULARY

- ANTI-LOCK (ABS)
- AUTOMATIC TRANSAXLE
- CUE (CADILLAC USER EXPERIENCE)
- DRIVE CONTROL
- DRIVE Mode Selector
- ELECTRONIC PARKING BRAKE
- ENGINE BLOCK HEATER
- ENGINE START/STOP BUTTON

ALTERNATE TEXT: The image contains a page from a document discussing various features and options of the XTS model. It includes sections on interior and exterior features, dimensions, capacities, and drivetrain. Specific features such as lane departure warning, side blind zone alert, and rear cross-traffic alert are highlighted. The document also provides information on seating capacity, cargo volume, and engine specifications. The text is structured in tables and lists, with technical details and specifications clearly presented. The document appears to be a reference guide for potential buyers or existing owners looking for comprehensive information about the vehicle's features and capabilities.
