From camping to picking up supplies for the kitchen renovation to putting the boat in at the lake, your life is challenging. Good thing there’s Chevy Astro, the most capable midsize van.*

It has standard seating for eight, available All-Wheel-Drive, more available cargo space than any SUV and more towing capability than any minivan. And Astro is from the family of Chevy Trucks, the most dependable, longest-lasting trucks on the road.†

The Power And Strength Of Astro.

Vortec 4300 V6 Features:

• Sequential Fuel Injection (SFI) helps ensure exact fuel delivery, helping rear-wheel-drive Astro models achieve an estimated MPG of 15 city, 20 highway.*

• The Powertrain Control Module (PCM) helps to ensure that the engine and transmission are working in harmony.

• Vortec engines can travel up to 100,000 miles before the platinum-tipped spark plugs are scheduled for replacement.†

*Based on GM testing. Official EPA estimates not yet available.
†Maintenance needs vary with different uses and driving conditions. See the Owner’s Manual for more information.

Vortec power is a staple of Chevy Trucks, and Astro is no exception. The standard Vortec 4300 V6 has the largest displacement of any engine in its class, providing the torque you need, when you need it. And because Astro offers more towing capability than any minivan,* you can get more work done. In fact, Astro can tow up to 5,400 lbs. when properly equipped.* And for smooth shifting, all Astro models feature an electronically controlled four-speed automatic transmission. Proven Vortec power and Chevy Truck strength — an Astro one-two punch.

*When properly equipped. †Maximum trailer weight ratings are calculated assuming a base vehicle, except for any option(s) necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your truck can tow. See your Chevy Truck dealer for additional details.

Vortec 4300 V6 Engine

The standard Vortec 4300 V6 produces 190 horsepower at 4400 rpm and 250 lb.-ft. of torque at a low 2800 rpm. Just the power and torque needed to get your heavy loads moving.

Tow/Haul Mode

When activated, a standard Tow/Haul mode produces a more aggressive shift pattern for the automatic transmission, greatly enhancing Astro’s towing ability.
Astro Trailering Features:

- **Driving/Engine/Transmission** region – the engineering and mechanical design that make the Astro a powerful and reliable tow vehicle.
- **Towing/Brakes** region – the braking system that allows for safe towing and control.
- **Towing/Loading** region – the weight management system that helps prevent overloading.

### Towing Basics

Towing a trailer involves all major vehicle systems of your Astro. Trailering safely requires attention to detail and includes:

- **Trailer Hitch Types:**
  - **Weight-Carrying Hitch:** A ball and coupler with no means to distribute the hitch weight. It is used primarily for lightweight trailers.
  - **Weight-Distributing Hitch:** A hitch with spring bars to transfer some of the hitch weight forward onto the tow vehicle's front axle and rearward onto the trailer's axle(s). Heavier trailers, however, require a weight-distributing hitch, which uses spring bars to transfer some of the hitch weight.

- **Brakes:**
  - **Trailer Brakes:** Designed to produce friction force to stop the trailer. They must be able to take 3,000 psi of brake lining pressure. It's important to have the correct brake equipment.

- **Increasing Weight:**
  - **Gross Vehicle Weight Rating (GVWR):** The maximum weight of the trailer plus the weight of loaded cargo and passengers. The GVWR should not be exceeded.
  - **Gross Combined Weight Rating (GCWR):** The total weight of the vehicle and all passengers, cargo, and equipment. The GCWR should not be exceeded.

### Gross Vehicle Weight Ratings

<table>
<thead>
<tr>
<th>Model Availability</th>
<th>GCWR</th>
<th>Axle Ratio</th>
</tr>
</thead>
<tbody>
<tr>
<td>Vortec 4300 V6 Engine/Automatic Transmission</td>
<td>9,500</td>
<td>3.42</td>
</tr>
<tr>
<td>Vortec 4300 V6 Engine/Manual Transmission</td>
<td>9,500</td>
<td>4.10</td>
</tr>
</tbody>
</table>

### Trailer Brakes

- **Trailer Brakes:** Required with trailer weights over 2,000 lbs. The trailer's brake parts must be able to take 3,000 psi of lining pressure.
- **Safety Equipment:** It's important to have the correct brake equipment.

### Trailering Caution

- **Maximum Hitch Ball Weight:**
  - **Light-Duty Hitch Ball:** Up to 200 lbs.
  - **Heavy-Duty Hitch Ball:** Up to 3,500 lbs.

- **Trailer Tongue Weight:**
  - **Maximum:** 10 to 15 percent of the trailer tongue weight should be 10 to 15 percent of the maximum trailer weight or tongue weight.

### Specifications

- **Horsepower:** Indicates how much work the engine does at a certain engine speed. At mid- to high-engine rpm, it's what keeps you moving. If your trailer weighs more than 1,000 lbs. loaded, then it needs more than 0.02 cu. in. of fluid from your vehicle's master brake cylinder.

### For More Information

Visit chevy.com for more information on trailering and safety.
Astro LT. Always Ready For Adventure.

Comfort and room. Astro LT provides your family with both, thanks to a host of comfort and convenience features. Special Cloth seats provide room for up to eight and include reclining seatbacks for rear passengers. Leather seating surfaces are optional. And the sliding passenger-side door and rear Dutch doors make loading and unloading a breeze. You and your family will travel comfortably with Astro LT.

**Astro LT Select Features:**

- Special Cloth seating for eight.
- High-back reclining front seats with adjustable head restraints.
- Front and rear air conditioning.
- HomeLink transmitter.
- Six-way power driver seat.
- Leather-wrapped steering wheel.
- AM/FM stereo with cassette and CD players.
- Rear Dutch doors.
- Brushed-aluminum wheels.
- Available Special Leather seating surfaces.

**HomeLink Transmitter**

The HomeLink transmitter, integrated into the overhead console, lets you combine programming for up to three electronically controlled items, like the garage door opener, into one easy-to-use system.

**Center-Row Audio Controls**

Astro LT includes center-row audio controls and dual headphone jacks that let center-row passengers listen to a different audio source — at a different volume level — than the front-seat passengers (headphones are not included).

Astro LS. All Work. All Play.

There’s more information about Astro LS features at chevy.com/astrobrochure.
Rear Air/Heat

While air conditioning is standard on all Astro models, rear air conditioning and heat are also available, helping to make sure all passengers are comfortable during the trip, regardless of the outside temperature.

Astro LS. Surprising Capability. Surprising Value.

With an impressive list of standard equipment, Astro LS is a great value. And with more available cargo space than any SUV, seating for eight and available All-Wheel-Drive, comfort and capability don’t have to come at a premium in an Astro LS.

Astro LS Standard Features:

- Custom Cloth seating for eight.
- Power door locks, windows and mirrors.
- Cruise control and Tilt-Wheel steering column.
- AM/FM stereo with CD player.
- Remote Keyless Entry.
- Rear cargo net.
- Front and cargo-area auxiliary power outlets.
- Deep-tinted window glass.
- Luggage carrier.

Center Console Storage

The center console provides ample storage room for smaller items and is also home to a lighted glove box, a map net on the passenger side and two cup holders.

Power Outlets

Astro models come standard with three auxiliary power outlets: one located in the cargo area and two in the front console. They are perfect for powering up electronic accessories or camping equipment.

Astro LS interior in Medium Gray.
Available Conversion Package (YF7) Features:

- Uplevel grille with chrome accents.
- AM/FM stereo with CD player.
- Power windows, door locks and mirrors.
- Cruise control and Tilt-Wheel steering column.
- 105-amp alternator.
- Remote Keyless Entry.
- Leather-wrapped steering wheel.
- Rear heater capability.

Flip-Down Video Screen

Rear-seat passengers can watch their favorite video when Chevy Astro is upfitted with an overhead flip-down, flat-screen video monitor from an independent supplier.* Once the video is over, simply fold the screen up and out of the way.

For an approved list of Astro conversion upfitters, go to chevy.com/astrobrochure

NOTE: The vehicle shown has been altered or upfitted with equipment supplied to Chevrolet by an independent supplier. Chevrolet is not responsible for the safety or quality of design features, materials or workmanship of any alterations by such a supplier. See page 20 for further information about alterations and warranties.

Preparing for vacation can be stressful. Picking the right conversion van shouldn’t be. Chevy Astro is designed with a strong foundation — engineered from the start to be right for upfitting with luxury amenities from your favorite conversion company. And for enhanced capability, Astro vans upfitted for conversion can be equipped with available All-Wheel-Drive, a feature not offered on most minivans. Chevy Astro — the right choice for family vacation transportation.
Astro Versatility.

Whether you’re traveling to the amusement park with the family or running errands around town, you’ll appreciate the wide array of seating configurations and the most available cargo space of any midsize van. Just look at some of the ways Astro can meet your people- and cargo-carrying needs.

Astro Strength.

Crush Zones
Front and rear structures are designed to deform in a controlled manner to help absorb energy during a crash.

Four-Wheel Antilock Brake System (ABS)
Standard four-wheel ABS helps the driver maintain steering control by reducing wheel lockup while braking hard on most slippery surfaces.

Independent Front Suspension
A rugged and reliable independent front suspension features a coil spring design on rear-wheel-drive models and torsion bars on All-Wheel-Drive models.

Vortec Engine
The proven Vortec 4300 V6 engine has a flat torque curve, allowing Astro to effectively pass, pull and tow.

All-Wheel-Drive
As available All-Wheel-Drive system operates normally in rear-wheel drive until it senses rear-wheel slippage, then automatically transfers torque to the front axle for added traction when needed.

Stainless-Steel Exhaust System
Astro features a stainless-steel exhaust system with corrosion-resistant aluminized stainless steel rearward of the catalytic converter.

Variable-Rate Steel Multileaf Rear Springs
Specially designed rear springs engage as load weight increases, helping provide additional support and a solid ride to all passengers.

Towing Power
Rear-wheel-drive Astro models can tow up to 5,400 lbs.* and out-tow all front-wheel-drive minivans — some by a ton or more. Astro All-Wheel-Drive can tow up to 5,200 lbs.*

*Maximum trailer ratings are calculated assuming a base vehicle, except for any optional equipment to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your truck can tow. See your Chevy Truck dealer for additional details.

Astro LS in Cadet Blue Metallic with standard seating for eight and available rear Dutch doors.

Because safety and security are so important to your family, Astro features a comprehensive system to help you feel secure while you’re traveling. Standard driver and front-passenger air bags,* four-wheel ABS, side-door beams and available All-Wheel-Drive are just some of the many features in Astro designed to give you peace of mind. Chevy Astro. It’s the midsize van that’s serious about safety and security.

* A Note On Child Safety:
Always use safety belts and proper child restraints, even with air bags. Children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See the Owner’s Manual and child safety seat instructions for more safety information.
