VORTEC 4300 V6 SFI ENGINE
The tough Vortec 4300 V6 engine that powers Blazer generates 190 horsepower @ 4400 rpm and 250 lb.-ft. of torque @ 2800 rpm.

AUTOTRAC PUSH-BUTTON 4X4
When AUTO 4WD is selected on 4x4 models, the available Autotrac system automatically transfers power to all four wheels, based on road conditions. Or the driver may select full-time 2WD, 4WD High or 4WD Low, as needed. The system also has a provision for Neutral, a handy feature when the vehicle is being towed on all four wheels (see the Owner’s Manual for more information).

CORROSION-RESISTANT EXTERIOR PANELS
Exterior body panels are made of two-sided galvanized steel (except the roof, where it is not needed). This helps to virtually eliminate cosmetic corrosion on the outside surface (resulting from scratches and chips) and rust-through corrosion originating on the inside surface.

CRUSH ZONES
Front and rear structures are designed to help absorb energy by deforming in a controlled manner during a collision.

INDEPENDENT FRONT SUSPENSION
Blazer features a rugged and reliable independent front suspension to retain bar design on 4x4s and a coil-spring design in 2WDs. This suspension helps keep the front wheels virtually straight up and down at all times for a smooth ride and precise control.

STAINLESS-STEEL EXHAUST SYSTEM
Blazer’s entire exhaust system is made of stainless steel with corrosion-resistant aluminized stainless steel rear of the converter. The exhaust system is designed to provide long-lasting durability.

ADVANCED SUSPENSION COMPONENTS
Specially designed second-stage springs engage as load weight increases to provide additional support without sacrificing ride quality. Large urethane jounce bumpers in the rear of Blazer help reduce the “kick” effect of suspension-to-frame rolling contact and soften the jarring that often accompanies travel on rough roads.

FOUR-WHEEL ANTILOCK DISC BRAKES
Standard four-wheel antilock disc brakes help drivers maintain steering control by reducing wheel lockup while braking hard on most slippery surfaces.

SPECIFICALLY TAILORED TIRES
Steel-belted radial tires can handle dry, wet and snowy conditions, providing a smooth, quiet ride on both 2WD and 4x4 models.

A SECURE FEELING.

When you’re driving in harsh weather, you want to feel safe and secure. That’s why Blazer has features designed to enhance your confidence on the road. Here are just some of those standard and available features:

• Four-wheel antilock disc brakes.
• Daytime Running Lamps.
• Driver and right front-passenger air bags.*
• Side-door beams.
• Front and rear crush zones.
• Safety belt comfort guides.
• Available Autotrac transfer case on 4x4 models.
• Lockout protection (included with power door locks).
• Available Remote Keyless Entry and content theft alarm.

*A NOTE ON CHILD SAFETY: Always use safety belts and properly restrain children as needed. Children are safer when properly restrained in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See your Owner’s Manual and child safety seat instructions for more safety information.

PASSlock THEFT-DETERRENT

PASSlock automatically disables the fuel system if the proper key is not used. A content theft alarm on models with Remote Keyless Entry activates the headlamps and horn if someone attempts unauthorized entry.

AUTOTRAC 4X4 SYSTEM

When AUTO-4WD is engaged, Autotrac automatically transfers power between the front and rear wheels whenever rear-wheel slippage is detected. It’s available on all Blazer 4x4 models.

FOUR-WHEEL ANTILOCK DISC BRAKES

As a standard feature on all Blazer models, four-wheel antilock disc brakes help the driver maintain steering control during hard braking.

PASSlock automatically disables the fuel system if the proper key is not used. A content theft alarm on models with Remote Keyless Entry activates the headlamps and horn if someone attempts unauthorized entry.
