Now you don't have to settle for less than you need.

The 1999 Cavalier is here, and thoughtful engineering is everywhere you look. You can drive up to 100,000 miles before your next tune-up. A new battery system shunts down below it runs down if you turn on your interior lights. Standard safety features include dual air bags, a four-wheel anti-lock brake system (ABS), and an innovative chassis design that absorbs energy in a new and better way.

Cavalier 999 is a list of beautiful new ideas from Chevrolet. And it's all you need.
With the 1999 Cavalier Sedan, Ford changed things the way it looks and the way it works. The look is sophisticated and distinctly upscale.

Cavalier Sedan is designed with a longer wheelbase, a wider stance, and a completely new body structure with exceptional rigidity.

The benefit to you in a Cavalier with more four-passenger room than ever before, a considerably fender on the road, and a wonderfully quiet ride.
A lot of thought went into the design of the Cavalier driving environment. It was enough to surround you with soft-flowing lines and contemporary style.

We wanted designing a Cavalier to feel natural.

A single, reversible key starts the car, and locks or unlocks all doors and the trunk. A little thing, perhaps, but one way of making life a little less complicated.

New low-loss interior finishes and tinted glass for all windows keep glare to a minimum. Analog instrumentation is easy to read, and safety is to reduce nighttime systems. Standard conveniences include cup holders, in-door storage pouches, and a center console with a covered storage compartment.
We designed the new Cavalier to be the roomiest car in its class. We did such a good job that the folks at the
EPA rated Cavalier up in a bigger class. Remarkably, this spacious Cavalier is slightly shorter in overall
dimension than last year’s model.

Standard features in this five-passenger sedan include a folding rear seat with trash pass-through feature, rear-seat heat ducts, and Scotchgard®
Protektant on seat fabrics. This thoughtful engineering for people who make trips to the lumber yard, people
who take along the kids, and people who spill things.

And it’s what Genuine Chevrolet is all about.

A cup holder for rear-seat passengers is a rare standard feature.
The best things in life are all free. But there are some pretty darn nice things out there for around $11,000.

If Cavalier Doesn’t Have it, Chances Are You Don’t Need it.

Cavalier will take good care of your and the ones you love. The 5-reqd front and rear bumpers exceed Federal requirements and help keep minor impacts from damaging other parts of the vehicle.

The carpeted trunk helps protect your valuables from snow and scratches. Outside rearview mirrors are designed to reflect themselves when bumped.

Now you don’t need to buy an expensive car to get all the things you need.

135/45 R15 tires specify a premium engine that delivers 153 hp at 4,500 rpm. Four-Wheel Drive allows for a higher level of performance and stability.

180/65R14 Spoke Tires are engineered to provide the best possible driving experience. A single sedan option allows easier access to the front of the car.

Four-Wheel Drive offers a level of performance and stability that is not found in any other car. This model has a free-standing drive axle with independent suspension on both fronts.

Dual Air Bags. Dual air bags in the front seat of the Cavalier help to protect the driver and passengers. They can also help reduce the likelihood of a head-on collision.

Safety Cage Construction. The four-point safety cage of the Cavalier helps to protect the occupants in the event of an accident. The frame is designed to absorb energy and distribute it to the body of the vehicle.

1.9L Chevy 1.9L Engine. The 1.9L Chevy engine is specifically designed to provide the best possible performance. It is also equipped with a 5-speed manual transmission that is easy to shift.

Gas Cap/Choke Cap/Brake. The gas cap/choke cap is designed to protect the engine from dirt and debris. The brake system is designed to provide smooth, consistent braking.

Safety Seat Belts. Safety seat belts are equipped with shoulder and lap belts for maximum protection. They are also designed to work with other safety features to reduce the risk of injury in a collision.

Child Security Locks. Child security locks are designed to prevent children from accidentally opening the doors. They are also designed to prevent the car from being started without a key.

The Unversal. Honda Lighting. Honda Lighting is designed to provide the best possible visibility and safety. The system is designed to work with the headlamps and taillamps to provide maximum illumination.

Vital to your future. Honda. Honda is committed to providing the best possible performance and safety. We are dedicated to providing the highest level of satisfaction to all of our customers.
The 100,000-Mile Promise Of Quality.

Cavalier has a super strong stainless-steel exhaust, and many more built-in durability features.

In a Cavalier, you can ride up to 100,000 miles before your first scheduled engine tune-up. Advanced platinum-tipped spark plugs and rear shock absorbers are scheduled for replacement until the 100,000-mile mark, and a long-life serpentine accessory drive belt is designed to never need tensioning. Under normal driving conditions, the automatic transmission fluid should never need replacing.

The Cavalier 2.2 L engine features a direct fire ignition system that eliminates the need for periodic timing adjustment. Mafsta Port Fuel Injection delivers an ultra-smooth idle and exceptional throttle response.

All Cavalier body panels except the roof are constructed of ultra-resistant two-stage galvanized steel. The rust-fighting technology is so advanced that the body of every Cavalier is warranted for rust-through protection for 6 years/100,000 miles, whichever comes first. See your Chevrolet dealer for more information on this limited warranty.
Dual air bags. Four-wheel ABS. A galvanized cage.

Child security seat locks. Ditto for door locks. We also think Cavalier has the most thoughtfully engineered safety packages of any car you can buy.

Our engineers are especially proud of the new, energy-absorbing front body structure. In a severe impact, the front-suspension system is designed to crush at a controlled rate, and the pavement and front suspension are designed to displace, enhancing energy absorption. This energy-absorbing system works in conjunction with a safety cage that surrounds the entire passenger compartment.

In the '95 Cavalier dual air bag system, even the air bag sensor contacts are gold-plated to enhance durability and improve electrical conductivity.

There is no subject more important than safety for the ones you love. Aren't you glad there's Cavalier!

Energy Absorber.

Cavalier features an innovative dished sill design that helps absorb energy in a frontal collision, but please remember: Air bags are not a substitute for seat belts. Even with air bags...
All car companies talk about warranties and customer satisfaction. But look closer, because not all customer care programs are created equal.

Genuine Customer Care.

As a Cavalier owner, you are covered by Genuine Customer Care, a comprehensive owner-protection plan that includes all of the following:

**Bumper to Bumper Warranty.**

The GM 3-year/60,000-mile (whichever comes first) limited warranty covers repairs for all 1995 Cavaliers, including labor and parts, to correct any defects in material or workmanship occurring during the warranty period. Warranty service includes air conditioning repair, towing, and on- and off-road repairs. There is also a transmission service coverage, which varies by geographical location. There is no deductible.

See your Chevrolet dealer for terms of the Bumper-to-Bumper Limited Warranty.

**24-Hour Roadside Assistance.**

For as long as you own your 1995 Cavalier, the security and convenience of round-the-clock Roadside Assistance is available via a toll-free hot-line (1-800-CHEV-USA). Your call will be answered by a Roadside Assistance phone advisor trained by Chevrolet. You will be placed in contact with a nearby service center, and assistance with towing and other helpful services will be arranged. Please ask your Chevrolet dealer for details.

**COURTESY TRANSPORTATION.**

Customers who purchase or lease a 1995 Cavalier will be able to take advantage of Courtesy Transportation at no additional charge when their vehicles are left at a participating dealership for repairs covered under the 3-year/60,000-mile Bumper to Bumper Warranty.

See your participating dealer for details.
