

2004 COLORADO

2004 COLORADO

CHEVY TRUCKS

## COLORADO 2004

**It's Chevy's first mid-size pickup.  
And it's already in a class of its own.**

As the builder of the most dependable, longest-lasting trucks\* on the road, Chevy knows how to get the most out of its engineering expertise. And Chevy's put all that experience to very good use in building its first mid-size pickup. From the impressive price set in innovative form, it's clear that the all-new Colorado represents not only a new chapter in the history of Chevy Trucks, but also a new era in mid-size pickups. It's the first mid-size pickup that delivers rock-solid Chevy strength - and that's only the beginning of the stats achieved by (Colorado). It has the most powerful four-cylinder engine in its segment, with the 175 hp Vortec 2800 In-line five.\* The 250-hp Vortec 3500 V-8 and five cylinder engine is more powerful than any competitor's V8.\* And all Regular Cab, Extended Cab and Crew Cab models are available with either ZQ8 Sport, Z71 Off-Road or Z85 Standard suspensions. As well, both Z71 and Z85 suspensions are available in either 2WD or 4x4 models - giving you more choice than any other pickup in its class. So now, at last, you have a choice - with the introduction of the truck that will forever change your concept of mid-size pickup capability: the all-new 2004 Chevy Colorado.

\*Dependability based on longevity: 1981 July 2003 GM full-line truck market company registrations. Double cab GM vehicles. \*V8 powered vehicles based on GM medium pickup segment and 2003 model year competitive data. Excludes other GM divisions.

CHEVY TRUCKS

## COLORADO Crew Cab

**Lots of room for six passengers.  
And for everything else you bring with them.**

Such Chevy to build a mid-size pickup that not only stands up to us in road comfort, but also provides the kind of strength and capaciousness that Chevy is famous for. The kind of capaciousness you need to bring your thumbnail to life. Go on top of a roomy cab, you get a pickup box that's more than 1500 mm (59 in.) in length and provides 1699 L (59.7 cu. ft.) of cargo volume. The maximum towing capacity is equally impressive — up to 1814 kg (4000 lb.). And the maximum GVWR goes all the way up to 2494 kg (5500 lb.). The rear Colorado Crew Cab — we put it hot into it. So you can too.

\*With optional options.

### OPTIONS

- Colorado Crew Cab with Z71 Off-Road suspension, shown in Dark Green Metallic.
- Colorado Crew Cab with Z76 Sport suspension, shown in Black.

LEFT: Colorado Crew Cab with Z71 Off-Road suspension, shown in Sunset Orange Metallic.

## COLORADO **Extended Cab**

The versatility is also extended.

No matter how you measure a pickup's capabilities, Colorado Extended Cab is sure-to-measure up. In cargo form or the doorway or its payload,\* it's more than 1830 cu. in. of space that allows for a maximum payload of up to 2100 lb (1134 kg.), that is the kind of capacity you need to handle the demands of your work and play. But the numbers don't tell the whole story. Eight tie-down anchors help keep all that cargo secure. Inside, all models feature standard rear forward-facing jump seats that fold up to increase the cargo area. In Colorado Extended Cab, the chassis is tremendously rigid, but the interior is impressively flexible.

\*Based on GM mid-size pickup segment and 2003 model year consumer info. Excludes other GM divisions.

### BELOW:

- Colorado Extended Cab with ZQ8 Sport suspension, shown in Victory Red.
- Colorado Extended Cab with Z71 Off-Road suspension, shown in Sunset Orange Metallic.

**AT LEFT:** Colorado Extended Cab with Z66 Standard suspension, shown in Indigo Blue Metallic.

## COLORADO **Regular Cab**

Redefining the meaning of "Regular".

About the only thing regular about the Colorado Regular Cab with ZQ8 Sport suspension is the size of the cab. In addition, this is a street rod. And that's not just because of its take-no-prisoners styling—with its lowered stance, monochromatic color scheme and 17" x 8" aluminum wheels. It also has the performance engineering to back up the looks, with low-profile tires and specific monotube shocks, in addition to front and rear stabilizer bars. In other words, the attention-grabbing looks of this Regular Cab only point the way to an equally solid approach to driving. And there's nothing "regular" about that.

### SEE ALSO:

- Colorado Regular Cab with ZH5 Standard suspension, shown in Victory Red.
- Colorado Regular Cab with ZT1 Off-Road suspension, shown in Dark Chevy Red Metallic.

**AT LEFT:** Colorado Regular Cab with ZQ8 Sport suspension, shown in Yellow.

## COLORADO Interior

We'll give you a leg up on other mid-size pickups.

We thought there was space in the mid-size category for a bit more room and comfort inside the cab. Enter Colorado - where Chevy's engineering expertise led to the development of spacious cabins that tame the standard for the category. In fact, it doesn't matter whether you choose a Regular, Extended or Crew Cab configuration - each provides more front-seat legroom than Dodge Dakotas, Ford Rangers or Toyota Tacomas.\* Not that dimensions alone are the defining characteristic of these cabs. The seating is also independently supportive and comfortable, particularly if you opt for the front bucket seats\* which are standard in Crew Cab, and available on Colorado LS Regular and Extended Cab models. So move up to a larger cab, without moving up to a full-size pickup - with Chevy Colorado.

\*Based on GM mid-size pickup segment (as of 2009 model year competitive data. Excludes other GM vehicles.)

- Colorado LB Regular Cab, shown in Medium-Pearl (right).

AT LEFT: Colorado LB Crew Cab, shown with available leather-appointed seating in Medium-Pearl

## COLORADO Controls

Better informed. Better prepared.

The greater your control of information, the greater your control of your truck. That's the thinking behind Colorado's instrument panel. That's why you'll find a tachometer in this standard analog gauge cluster. It's just one more piece of information that helps you get the most out of your Colorado. The same can be said of the comprehensive Driver Information Center. It keeps you up to date on the status of numerous vehicle functions - it even tells you when it's time for an oil change. That enables you to be proactive instead of reactive in your approach to driving. Talk about thinking ahead.

### Below:

- You receive up-to-the-minute status reports on many vehicle functions via the standard Driver Information Center.<sup>1</sup> It alerts you to everything from a low fuel level and engine overheating to a turn signal left on inadvertently.  
<sup>1</sup>Monitors depend on vehicle configuration.
- The longer the ride, the more time you'll have to enjoy the convenience of the six-disc CD player (that's available on LS models).

AT LEFT: Colorado instrument panel, shown with available equipment.

# COLORADO Technology

Check out this resumé.

It's an all-new truck and it's the product of all-new engineering. But Colorado doesn't simply amalgamate the best of Chevy Truck design and manufacturing processes. We also provided plenty of room for our engineers to incorporate their creativity into the design. The results provide proof of their ingenuity. Just consider the larger of the two all-new Vortec engines, with such advanced engineering features as variable exhaust valve timing, four valves per cylinder, dual overhead camshafts, a coil-on-plug ignition system and electronic throttle control. Take that know-how one step further: How do you combine the best of four- and six-cylinder engines? By developing an innovative in-line five-cylinder engine. These are powerful examples of how far creative thinking can take you — with Chevy Colorado.

#### NEW BOX CHANNEL FRAME

Colorado's strength is largely the product of the all-new box channel frame. It is two and one-half times as rigid as the frame of its predecessor — the 2003 S-10. Cross beams further enhance the frame's stiffness and contribute to Colorado's stable handling.

#### Brake Sensors

Monitoring the condition of your brakes is easy. Colorado is equipped with standard audible wear sensors, and a brake fluid level sensor that alerts you if the level falls below the required minimum.

#### ENVIRONMENTAL MEASURES

Colorado isn't only easy on gas — there are many ways this truck is also easy on the environment. It is more than 85 percent recyclable. The lighting systems are also free of mercury and cadmium.

#### CORROSION PROTECTION

Colorado isn't only distinguished by its harsh climate. The use of road salticles a reality of life in our country. Fortunately, Colorado is engineered with extensive corrosion protection features, including an aluminum stainless steel exhaust system, in addition to the use of two-sided galvanized steel in all exterior body panels except the roof.

#### INSTA-TRAC™ 4x4

The shift-on-the-fly, two-speed part-time Insta-Trac transfer case is standard on all 4x4 models. It allows you to shift from 2WD to 4HD and back at the touch of a button, conveniently located on the instrument panel. It includes a neutral position to prevent flat towing.

#### TRACTION ASSIST

The advantages of traction assist are now available for the first time in a mid-size pickup.\* On Colorado 2WD models, Traction assist helps reduce wheel slippage on most slippery surfaces by modulating engine power to the locking differential, which is included.

\*Based on GM medium pickup segment and 2003 model year competitive data. Excludes other GM divisions.

## COLORADO Suspension

### Three times a charm.

The Z71 Off-Road suspension is offered on both 2WD and 4x4 models. The system features front torsion bars, gas-charged monotube shocks, stamped A-arms, a tubular front stabilizer bar, as well as firm-riding urethane jounce bumpers. Ground clearance is increased by about 25 mm (1 in.) compared to the Z85 Standard suspension.

The Z08 Sport suspension lowers the chassis by more than 50 mm (2 in.) compared to the Z85 Standard suspension. The system is only available on 2WD models. It features an independent front suspension with coil springs and stamped A-arms, as well as front and rear stabilizer bars, monotube shocks, special jounce bumpers and a live rear axle with two-stage leaf springs.

A Crew Cab with a Sport suspension? A 2WD pickup with the legendary Z71 Off-Road suspension? Yes, you can say with authority that Colorado is changing the rules for mid-size pickups. With three different suspension packages dedicated to different driving conditions and preferences. Each package has a ride height and suspension components tailored for that specific application, from the road-holding abilities of the lowered Z08 Sport suspension to the rugged durability of the raised Z71 Off-Road suspension. And all three suspension packages are available on all three models: Crew Cab, Extended Cab and Regular Cab. That adds up to more choice than ever before. Way more.

Z08 Sport suspension (2WD only)

Z85 Standard suspension (2WD and 4x4)

Z71 Off-Road suspension  
(2WD and 4x4)

## COLORADO ▶ Versatility

### A whole new angle on versatility.

Some of Colorado's innovations required advanced engineering degrees and powerful computers with the latest software. Others relied simply on common sense. Take the idea that you can lock Colorado's tailgate in not one, but two positions. The first is the standard vertical position. The second is what separates this tailgate from everything else in the category – a 52° angle. Its advantage? It can help support longer loads more securely. That's something to keep in mind the next time you go to the lumber yard – or the next time you're looking for a pickup.

#### INSET PHOTOS:

- a. Colorado's segment-exclusive two-position tailgate.\*
- b. Colorado has the deepest cargo bed in its segment,\* which contributes to its 1242 L (43.9 cu. ft.) of cargo box volume on Regular and Extended Cab models or 1039 L (36.7 cu. ft.) on Crew Cab. There's also two-tier loading and eight tie-downs in the cargo beds.
- c. Crew Cabs are as adept at handling cargo as they are at welcoming passengers. The 60/40 split-folding rear seat can be folded flat for increased cargo capacity, or it can be divided to accommodate both a passenger and cargo simultaneously.
- d. The Extended Cab is more than spacious – it's also thoughtfully designed, with two handy segment-exclusive\* storage compartments under the rear seats – the perfect place to keep small items out of sight and out of the way.

\*Based on GM medium pickup segment and 2003 model year competitive info.  
Excludes other GM divisions.

## COLORADO Performance

**Power runs in the family.**

### Features of Colorado's Vortec engines:

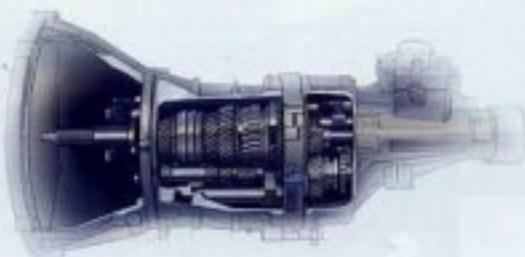

- Dual overhead camshafts control two intake and exhaust valves per cylinder, adding to the engines' exceptional power output.
- Long-life features extend service intervals, from the platinum-tipped spark plugs that are designed to last 166,000 km (100,000 mi.) before they need to be replaced, to the DEX-Cool engine coolant which has a change interval of 240,000 km (150,000 mi.).\*
- Lightweight pistons enhance the ability to generate greater power from a smaller displacement.
- A broad torque curve translates into excellent responsiveness at nearly any speed.
- Variable exhaust valve timing increases both power output and efficiency.
- The use of airplane-grade A356 aluminum in the engine block and head helps these engines achieve tremendous strength, while reducing weight.
- Performance is continuously monitored and optimized by the Powertrain Control Module (PCM).
- Electronic Throttle Control increases the accuracy of the acceleration response.
- Dual balance shafts counteract engine vibration, ensuring smooth and quiet operation.

\*Maintenance needs vary with different uses and driving conditions. Please refer to the Owner's Manual for more information.

**RIGHT:** An all-new truck – and an all-new transmission. The new five-speed manual incorporates triple-cone synchronizers, which contribute to the transmission's precise shifting and impressive durability. The five-speed manual gearbox is standard on all Regular and Extended Cab models, as well as Crew Cab models with Z85 Standard suspension.

Vortec is the name that's known for its combination of power, efficiency and durability. And now there are two additions to the family that are sure not only to reinforce, but strengthen that reputation. The all-new Vortec 2800 in-line four-cylinder and Vortec 3500 in-line five-cylinder engines are based on the acclaimed Vortec 4200 in-line six-cylinder engine that was named one of the world's ten best engines by Ward's AutoWorld in 2002 and 2003. The two new engines share 75 percent of their parts with the Vortec 4200. They also share a rigid in-line configuration that reduces noise and vibrations and ensures smooth performance across their operating range. The Vortec 2800 develops more horsepower and torque than any four-cylinder engine in its segment.\* And the Vortec 3500 outpowers all the V6s in the mid-size pickup segment – with only five cylinders. Both engines also deliver exceptional fuel efficiency. Two new Vortec engines – headed straight to the top of their class.

\*Based on GM mid-size pickup segment and 2003 model year competitive data. Excludes other GM divisions.

# Safety

## An intelligent approach to safety.

You can't look at safety as an issue in isolation from the rest of a vehicle's design. In Colorado, safety is an integral factor – it affected the design of hundreds of components and systems. Nothing demonstrates this integrated approach to safety better than Colorado's intelligent dual-stage air bag system.\* It integrates the air bags\* into the overall safety system. If an air bag is deployed, the courtesy lights are turned on, and if equipped with power door locks, they automatically unlock after a brief delay, in order to enable easier rescue. Colorado is also the first mid-size pickup to offer available head-curtain side-impact air bags designed to help protect all outboard seating position occupants.\* So you can see that Colorado is as complete in its approach to safety as it is in every other aspect of its engineering.

\*Remainder, always wear your safety belt, even with air bags.

**A NOTE ABOUT CHILD SAFETY:** Children generally are safer if they are secured in a rear seat using the appropriate child safety seats and restraints, which is why General Motors recommends that child safety seats be properly secured in a vehicle's rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See the Owner's Manual and child safety seat instructions for more safety information.

\*Based on GM medium pickup segment and 2003 model year competitive data. Excludes other GM divisions.

Colorado's fully integrated air bag\* system.

Available head-curtain side-impact air bags.

You can count on Chevy Trucks to see you through. With OnStar safety and security on board, you'll also have a helping hand wherever your journey takes you. A simple touch of the blue OnStar button inside your vehicle connects you with an OnStar Centre,\* where you'll find the friendly voice of one of our Advisors ready to assist you 24 hours a day, 365 days a year. We're there for you whenever you need us. In an emergency, OnStar Advisors can contact a nearby emergency service provider with your location and request help. And if your vehicle breaks down, we can direct Roadside Assistance to your location.

Experience the invaluable peace of mind that OnStar provides, and join the ranks of the members across Canada and the United States who OnStar helps every month, handling more than 225,000 routing calls, 25,000 remote door unlocks, 13,000 roadside assistance requests, 6,000 emergency calls and close to 800 air bag deployments.

OnStar also offers the convenience and safety of Personal Calling.\*\* If you've ever used a cellphone to make calls while driving, you know how challenging that can be. OnStar Personal Calling provides you and your family with a safer alternative that's totally integrated into your vehicle. With the touch of a button, you can make and receive hands-free, voice activated calls from inside your vehicle just in case your hand-held cellular phone is lost, forgotten, or has a low battery. You simply purchase the minutes you want, when you want them. Best of all, OnStar Personal Calling has no additional long distance or roaming charges.

OnStar is ready to serve you with three plans that offer a range of services to meet your individual needs. OnStar, plus one year of the Safe & Sound Plan, is available on Colorado LS models. Other OnStar service plans offer driving directions, and a wide array of information and convenience services. See your dealer for more details about all the plans available for your Chevy Colorado.

### OnStar. Always there. Always ready.

\*Subscription Agreement necessary. Service contract required. OnStar services require vehicle electrical system and analogue wireless service to be available and operating for features to function properly. OnStar uses existing emergency service providers as well as wireless and satellite technologies and is subject to their limitations.

\*\*Requires OnStar Personal Calling-enabled vehicle. Existing OnStar service contract and personal calling needed. OnStar voice recognition system may not recognize all voices. Available in most markets. Call 1-866-4-ONSTAR (1-866-466-7827), ask your dealer, or visit onstarcars.com for further details.

## Accessories

**Now put your own stamp on it.**

Chevy Colorado is the vehicle that's built specifically to support and reflect your way of life. Now you can make your Colorado even more a part of you. By choosing GM Accessories specially designed to complement Colorado – adding dimensions of styling and functionality. And GM Accessories are integrated into the process of designing your vehicle, providing unmatched fit, finish and functionality. They are also the only accessories backed by GM's 3-year/60,000 km TOTAL™ Warranty, when permanently installed by the dealer at the time you purchase or lease your new vehicle. And they can be included in your new-vehicle lease or financing through GMAC. So give your Colorado even more personality – by giving it more of your own.

**ABOVE:** Colorado Crew Cab, shown with the following dealer-installed accessories: Chrome tubular side steps, moulded hood protector, ventvisors and splash guards.

### ASSIST STEPS

- These moulded assist steps provide easier access to the cab.
- Protect your cargo with this stylish locking and folding hard tonneau cover.
- Splash guards look sharp and protect your Colorado's finish from gravel and small road debris.
- Turn your Colorado into a home away from home with this durable nylon sport tent.

## Capacities

|                         |             |             |             |
|-------------------------|-------------|-------------|-------------|
| GVM, max. kg (lb.)      | 2536 (5598) | 2484 (5300) | 2404 (5100) |
| Payload, max. kg (lb.)* | 786 (1733)  | 790 (1654)  | 679 (1496)  |
| Towing, max. kg (lb.)** | 1814 (3980) | 1814 (3980) | 1814 (4000) |
| Fuel L (Imp. gal.)      | 72 (15.8)   | 72 (15.8)   | 72 (15.8)   |

\*Add 25 mm (1.0 in.) in height to Z71 models. Subtract 50 mm (3.0 in.) in height for 2WD models.

\*Payload includes passengers\*, equipment and cargo. Payloads are approximate and will change with the addition or removal of optional or aftermarket equipment. Consult your dealer or equipment supplier for details.

\*\*Towing ratings are calculated using an automatic transmission, Series 5500 engine and assuming only the driver is in the tow vehicle. Towing weight (also called Towable Towing Capacity) is the weight of a trailer or contents plus any other weight added to the tow vehicle. Ratings shown are for ball hitch applications. For details, ask your sales consultant for a copy of the towing with Chevy Trucks brochure. Many trailer towing applications require additional optional equipment.

## Interior Trims

### FABRICS AND SEATS

All interior fabric colours are available with any solid exterior colour.

Medium Pewter Cloth, standard in Base Regular and Extended Cab models.

Deluxe Cloth, standard in LS models.  
Shown in Sport Pewter.

Medium Pewter
