

 **CORVETTE**  
2009 COUPE | CONVERTIBLE | Z06 | ZR1

**PLAY BY YOUR RULES.** Some lead, some follow. | Corvette has followed its own formula as an American original since 1953. The Corvette coupe, convertible and Z06 have steadily grown in stature amid the world hierarchy of great automobiles. As Corvette godfather Zora Arkus-Duntov once said, "All Corvettes are performance cars — the difference is in degree." | Since the dawn of the sixth generation, we have seen the coupe, convertible and Z06

that was codeveloped with a Le Mans-winning racer — all with outstanding fuel economy<sup>1</sup> and no federal gas-guzzler tax. | Now, Corvette's bandwidth expands even further with the return of the Corvette ZR1.<sup>2</sup> A supercharged 638-hp LS9 V8 and a test-track top speed of over 200 mph — a stunning new performance benchmark for a GM production car. | Every 2009 Corvette is backed by the best coverage in America: a 100,000 mile/5-year<sup>3</sup> transferable Powertrain Limited Warranty plus Roadside Assistance and Courtesy Transportation.

| Chevrolet Corvette. An American Revolution.

<sup>1</sup> EPA fuel economy estimates of 16 MPG city, 26 highway (with manual transmission) for coupe and convertible; 15 MPG city, 24 highway for Z06. <sup>2</sup> Very limited availability beginning late summer 2008. <sup>3</sup> Whichever comes first. See dealer for details.

**2008 CAR AND DRIVER 10BEST:**

*"Continual development is the key to success for any automobile, and the latest Corvette makes an excellent poster car for that proposition. Back for its seventh-straight appearance on our 10Best roster, the Vette lists 22 significant updates for 2008, even though it received a major makeover three years ago." — Car and Driver, January 2008*

**BE NAUGHTY AND CIVILIZED.** Meet the 190-mph-plus on the race track equivalent of a fine leather glove – the available Custom Leather-Wrapped Interior Package (4LT, 3LZ and 3ZR trim levels) that provides rich leather two-tones on the instrument panel upper, door panel uppers,

console cover and sport seat surfaces. | Three color combinations available – Sienna/Ebony, Linen/Ebony and new Dark Titanium/Ebony – plus a solid Ebony version with contrasting gray stitching. | Savor richly textured appearances on the center console trim area

as well as brushed aluminum door releases and shift knob. | Leather-wrapped steering wheel with standard integrated audio controls and new, available Bluetooth® wireless technology capability<sup>2</sup> | Push-Button Start eliminates the need to handle a key. | Available Head-Up Display projects speed, engine rpm, g-force data and more onto the windshield in both street and track modes. | Abundant 22.4 cubic feet of cargo space in the coupe, Z06 and ZR1, plus 11.0 cubic feet in the enclosed convertible trunk<sup>3</sup>

*KELLEY BLUE BOOK'S KBB.COM*

*2008 BEST RESALE VALUE AWARDS.<sup>1</sup>*

*"Next to the high-dollar performance cars with which it is often compared, a brand-new Corvette qualifies as a bargain-basement value. Just as exhilarating, four years and 50,000 miles down the road, the Corvette's historically high resale values are bolstered today by the car's ever-increasing refinement."*

<sup>1</sup> 2008 Best Resale Value Awards (Top 10: Corvette: High Performance: Corvette Z06) from Kelley Blue Book's kbb.com. Vehicle's projected resale value is specific to the 2008 model year. For more information, go to Kelley Blue Book's kbb.com. Kelley Blue Book is a registered trademark of Kelley Blue Book Co., Inc. <sup>2</sup> Go to gm.com/bluetooth to find out which Bluetooth phones are compatible with the vehicle. <sup>3</sup> Cargo and load capacity limited by weight and distribution.

NAVIGATION SYSTEM

CUSTOM LEATHER-WRAPPED DOOR HANDLE

**WELL TAILORED. LET HER RIP.** Take on the road with precision.

| Available GPS navigation system<sup>1</sup> provides information on-screen, verbally or via available Head-Up Display. | Choose from three seven-speaker sound-system CD/MP3 options, depending on model, including Bose® Navigation Radio<sup>1</sup> or Bose with in-dash six-disc CD changer and auxiliary audio input jack. | Choose from several seating options, depending on model, including the Custom Leather-Wrapped Interior Package (see details on page 5) or available sport seats with adjustable lumbar support, side bolsters and perforated leather seating surfaces. | Or choose two-tone seats with crossed-flags head-restraint embroidery available on 2LT and 3LT models.

| Standard XM Radio<sup>2</sup> with three trial months, has the programming variety to find what turns you on. | Standard OnStar<sup>3</sup> with a one-year Safe & Sound Plan.

<sup>1</sup> Available on select models. Map coverage includes the 48 contiguous United States and most of Canada. <sup>2</sup> Available only in the 48 contiguous United States. Required \$12.95 monthly subscription sold separately after three trial months. For more information, visit gm.xmradio.com. <sup>3</sup> Call 1-888-4ONSTAR (1-888-466-7827), visit onstar.com and see page 24 for details and system limitations.

*DRIVER INFORMATION CENTER provides critical operating data...available GPS navigation communicates on-screen, verbally or via Head-Up Display...standard OnStar with a one-year Safe & Sound Plan and XM Radio with three trial months on all models...*

SIX-SPEED MANUAL

**TAKE A POWER TRIP.** With one of the most powerful convertibles on the landscape — 430 standard horsepower and 424 lb.-ft. of torque. | Available power top lets you drop the top in 18 seconds without leaving the driver seat. | Or choose the standard manual top that uses a single-handled double latch for easy operation. | Indexed side-window glass, five-bow fabric top and five-ply headliner reduce buffeting and insulate against wind/road noise. | Large glass rear window with an integrated defroster is standard. | Fully enclosed trunk accommodates luggage or two golf bags with the top down. | Choose from three available top colors — Black, Gray and Beige. | NEW for 2009 is a more affordable 1LT trim level.

**THE ECSTASY STARTS HERE.** The LS3 V8 powering the coupe

and convertible is the most powerful Corvette engine ever offered in a base model.

| Its 6.2 Liter displacement puts out Big Block levels of power at 430 hp and 424 lb.-ft. of torque — providing excellent fuel economy without a gas-guzzler tax!

| LS3 is based on the legendary GM small block V8. | Large bore and deep aerobic

capacity, thanks to a high-lift cam,

high-flow cylinder heads and high-flow

intake manifold. | Available dual-mode

exhaust system reduces restriction

and raises output to 436 hp and 428

lb.-ft. of torque while providing a more

aggressive exhaust note.

SIX-PISTON FRONT BRAKE CALIPER

LS7 PISTONS

Corvette Z06 in Velocity Yellow Tintcoat, an extra-cost color, with available 10-spoke spider chrome aluminum wheels.

## CHANGE THE GAME. CALL IN THE RINGER.

Corvette Z06 was codeveloped with the C6.R Corvette race car. | Result: a rolling litany of racing technology and exotic materials. | Aluminum-block LS7 V8 displaces 7.0 Liters or 427 cubic inches. | An 11.0:1 compression ratio. | An SAE-certified 470 lb.-ft. of torque at 4800 rpm and 505 hp at 6300 rpm. | Lightweight titanium intake valves and connecting rods. | A forged-steel crankshaft with six-bolt main bearings and a high-profile cam with the largest lift ever on a production GM small block V8. | Dry-sump oil system prevents oil starvation on high-g corners or under heavy braking. | Computer Numerical Controlled (CNC) machined heads and ports provide better air and fuel flow. | Built by hand at the GM Performance Build Center.

| Carbon-fiber fenders and wheelhousings are employed as well as carbon-fiber, balsa-sandwiched floorboards.

| Corvette Z06 achieves its excellent power-to-weight ratio in part because of its lightweight yet strong aluminum frame combined with a magnesium roof structure and engine cradle. | A low 3,180-lb. curb weight.

| Aluminum body structure weighs only 278 lbs. – 136 lbs. less than the Corvette coupe. | Structure includes full-length aluminum hydroformed rails to provide exceptional strength and dimensional accuracy. | Power-to-weight

ratio of 6.3 lbs. per horsepower exceeds such supercars as Ferrari F430 and Porsche 911 Turbo<sup>1</sup> Goodyear Eagle F1

Supercar tires are speed-rated to 205 mph. | Z06 has a top speed of 198 mph on the test track. | Six-piston front and four-piston rear brake calipers provide massive stopping force against 14-inch front and 13.4-inch rear ventilated, cross-drilled rotors. | Bimodal exhaust reduces noise output at idle and during moderate driving

while providing reduced back pressure for race car-like performance at higher rpm. | At speed, the sound emanating from the four-inch-diameter trumpet-shaped exhaust outlets is sensational.

*THE RECORD: FIVE-TIME GT1 CHAMPION AT LE MANS... winner of six consecutive American Le Mans Series Manufacturers' Championships...enabling five consecutive ALMS Drivers' Championships for Corvette racing drivers, including Ron Fellows, Johnny O'Connell, Olivier Beretta and Oliver Gavin...since 1999, 63 victories in 90 races (through the 2007 season), including first overall in the 2001 24 Hours of Daytona...powered by the GM small block V8 that enjoys legendary status in American motorsports...*

<sup>1</sup>Based on latest available competitive information.

**FAST ON ITS FEET.** The proof is right here. | Forged-aluminum Short/Long Arm (SLA) suspension geometry provides excellent agility. | New variable-ratio steering on all models is engineered to react more slowly on center for better on-center feel at speed. | Steering ratio increases during sharper turns for better maneuverability. | An available Z51 Performance Package for coupe and convertible achieves a lateral acceleration of .98g on the skid pad with Goodyear Eagle F1 Supercar tires, cross-drilled brake rotors, and extra cooling/performance gear ratios for the manual or automatic. | Magnetic Selective Ride Control — standard on ZR1 and available on coupes and convertibles without Z51 — adjusts damping by means of electromagnetic particles in the shock fluid. | Choose between two modes: Tour and Sport. | Engage yourself with a choice of two transmissions — a six-speed manual or available Six-Speed Paddle Shift, depending on model. | Choose the Six-Speed Paddle Shift for clutchless shifting with both hands on the wheel and total driver involvement with an automatic transmission. | Throttle automatically matches revs during downshifts for smoother transitions. | Short-throw six-speed manual offers triple- and double-cone synchronizers and a light-action clutch for effortless shifting.

2008 AUTOMOBILE Magazine All-Star:

*“It’s not like there’s a car waiting in the wings to usurp the Corvette’s title of Supreme Sports Car Bang for the Buck, but Chevy acts as if there is. And that’s why the Corvette is, once again, an unequivocal All-Star.”*

LS9 SUPERCHARGED ENGINE

EATON TVS® BLOWER

BREMBO® CARBON CERAMIC BRAKES

**ZR1** ROCK, PAPER, SCISSORS...MISSILE.

The new Corvette ZR1 represents another significant benchmark in the storied history of Corvette. | With 638 SAE hp, 604 lb.-ft. of torque and a power-to-weight ratio that would make a race car envious, the ZR1 is easily the fastest production Corvette of all time as well as the fastest GM production car in history. | Based on the Z06, the ZR1 extends the envelope with a 6.2 Liter LS9 V8 engine featuring a four-lobe Eaton® Twin Vortices Series™ supercharger with intercooler. | Extensive use of visible carbon fiber on the roof, roof bow, rocker extensions and front splitter. | Brembo brake system features carbon ceramic rotors that are almost 50 percent lighter than equivalent cast-iron units. | 19-inch front/20-inch rear aluminum wheels in a 20-spoke pattern. | Standard Michelin Pilot Sport PS2 tires are engineered to operate at speeds well in excess of 205 mph. | The bottom line: an incredible power-to-weight ratio of 5.2 lbs. per horsepower and a test-track top speed of 205 mph.

*THE MOTHER OF ALL 'VETTES:  
"Finally loosed from hiding, the supercharged Corvette ZR1 vaults the stairway to sports car heaven."  
— AUTOMOBILE Magazine*

1 Very limited availability beginning late summer 2008. Preproduction model shown. Actual production model may vary.

Genuine Corvette Accessories offers an available dealer-installed Ultimate Appearance Package with Wheels (left) that includes Front-Grille Screen, Side-Cove Screens, Rear Exhaust Plate Screen, Full-Width Rear Spoiler, Vehicle Cover and Fifteen-Spoke Polished Aluminum Wheels. Arctic White convertible on right features Underhood Liner, Seven-Spoke Forged Chrome Wheels and Convertible Windscreen.

 **CHEVY** Designed and engineered with quality. | The best coverage in America on every car, light-duty truck, SUV and crossover we build:

**IMPORTANT INFORMATION**

**THE BEST COVERAGE IN AMERICA.** Every 2009 Chevy passenger car, light-duty truck, SUV and crossover comes with a 100,000 mile/5-year (whichever comes first) transferable Powertrain Limited Warranty. Plus, you get 100,000 miles/5 years (whichever comes first) of 24/7 Roadside Assistance, Courtesy Transportation and much more. See dealer for details.

**NEW VEHICLE LIMITED WARRANTY.** GM vehicles registered in the U.S.A. are covered for 3 years/36,000 miles (whichever comes first). The complete vehicle is covered, including tires, towing to your nearest Chevrolet dealership and cosmetic corrosion resulting from defects. Repairs will be made to correct any vehicle defect, and most warranty repairs will be made at no charge. In addition, rust-through corrosion will be covered for 6 years/100,000 miles (whichever comes first). See dealer for details.

**AN IMPORTANT NOTE ABOUT ALTERATIONS AND WARRANTIES.** Installations or alterations to the original GM-equipped vehicle (or chassis) are not covered by the General Motors New Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely

responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design features, materials or workmanship of any alterations by such suppliers.

**ENGINES.** Chevrolet products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in Chevrolet products may also be used in other GM makes and models.

**ASSEMBLY.** Chevrolet vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Chevrolet vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered and that, if there were changes, they are acceptable to you.

**REVISIONS TO ESTIMATED FUEL ECONOMY.** Commencing with 2008 model year vehicles, EPA revised its methods for estimating vehicle

fuel economy. The new test methods will likely lower MPG estimates as compared to 2007 and previous model year vehicles. These new methods are intended to better represent current driving styles, varying road and weather conditions, and certain other external factors.

**ONSTAR.** OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Call 1-888-4ONSTAR (1-888-466-7827) or visit onstar.com for OnStar's Terms and Conditions, Privacy Policy, and details and system limitations. Additional information can be found in the OnStar Owner's Guide.

**A NOTE ABOUT CHILD SAFETY.** Always use safety belts and the correct child restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See the Owner's Manual and child safety seat instructions for more safety information.

a 100,000 mile/5-year<sup>1</sup> transferable Powertrain Limited Warranty and 100,000 miles/5 years<sup>1</sup> of Roadside Assistance and Courtesy Transportation.

**IMPORTANT WORDS ABOUT THIS CATALOG.** We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings, prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your Chevrolet dealer for complete details. Chevrolet reserves the right to lengthen or shorten the model year for any product for any reason or to start and end model years at different times. Unless otherwise noted, all claims based on 2008 GM High Performance Sport segment and latest available competitive information. Excludes other GM vehicles.

**WE'VE GOT YOUR BACK.**

At Chevrolet, giving you a completely satisfying ownership experience is our top priority. That's why if you ever need assistance, feel free to contact us at these web sites or phone numbers.

**CHEVY.COM.** Offers shopping tools such as Chevy vehicle information, Build and Price, Find a Vehicle, Request Info, Email Sign-up, Compare Vehicles, Financial Tools...and much more.

**CHEVY.COM/SAFETY.** Chevrolet is committed to keeping you and your family safe – from the start of your journey to your destination. That's why every Chevrolet is designed with a comprehensive list of safety and security features to help give you peace of mind.

**CORVETTE QUARTERLY.** Chevrolet's official Corvette magazine is free to new owners in the U.S. and Canada for three years after purchase. For a three-year subscription (\$33.95 in U.S.), call 1-586-558-3809 or visit cqmag.com. Michigan residents add 6% sales tax. Canadian subscriptions add \$5 per year; international subscriptions add \$22 per year. Please allow 10 to 12 weeks for first issue to arrive.

**GENUINE CORVETTE ACCESSORIES (CHEVROLET.COM/CORVETTE/ACCESSORIES).** Enhance the appearance or extend the functionality of your Corvette coupe, convertible and Z06. Genuine Corvette Accessories are covered by the New Vehicle Limited Warranty and designed for performance, durability and safety. Genuine Corvette Accessories permanently

installed at the time of new vehicle delivery are covered under the New Vehicle Limited Warranty. If installed after delivery, coverage (parts and labor) is for the balance of the New Vehicle Limited Warranty or a minimum of 12 months/12,000 miles (whichever comes first). See your Chevy dealer or visit [chevrolet.com/corvette/accessories](http://chevrolet.com/corvette/accessories).

**CORVETTE MUSEUM DELIVERY.** Corvette customers can take delivery of their new Corvette on the floor of the National Corvette Museum (NCM) in Bowling Green, Ky. The experience includes an NCM Delivery Team tour of the nearby Corvette Assembly Plant and a personal VIP tour of the NCM. Museum Delivery is available through any Chevrolet dealer for a cost of \$490.
