SAFETY STARTS WITH YOU. Safety features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the vehicle owner's manual for important feature limitations and information.
WE’VE GOT YOUR BACK. YOUR SIDES. YOUR FRONT.

TECH THAT PROTECTS. Some of the most impressive Impala features are the ones you can’t see, including available Forward Collision Alert, Lane Departure Warning, Side Blind Zone Alert with Lane Change Alert, and Rear Cross Traffic Alert.

FORWARD COLLISION ALERT. This available feature continually monitors how close your vehicle is to the vehicle in front of you. If the system determines that a front-end collision with a detected vehicle is imminent, it alerts the driver to a potential crash. It also warns the driver if their Impala is following a detected vehicle too closely.

LANE DEPARTURE WARNING. If you unintentionally change lanes without a turn signal, this available camera-based system sends an alert. The camera, mounted near the inside rearview mirror, reads traffic lane markings when identifiable and provides audible and visual alerts.

SIDE BLIND ZONE ALERT. With radar sensors on both sides of the vehicle, available Side Blind Zone Alert helps to “look” for other vehicles in your side mirror blind zones and indicates their presence with LED-lit symbols in the exterior mirrors.

REAR CROSS TRAFFIC ALERT. Using the same radar sensors as the Side Blind Zone Alert system, this available feature alerts you to crossing traffic behind your Impala when backing up. Audible warnings, as well as visual alerts on the rear vision camera screen, are triggered if approaching vehicles are detected.

LANE CHANGE ALERT. Working with Side Blind Zone Alert, available Lane Change Alert employs radar sensors in the rear quarter panels to help detect and warn the driver of fast-approaching vehicles in the adjacent lane from up to 82 feet away, not just in the side view mirror blind zones.

REAR VISION CAMERA. When traveling in reverse at low speeds, the available rear vision camera provides a real-time picture of the area immediately behind your Impala on the touch-screen display.

FULL-SPEED-RANGE ADAPTIVE CRUISE CONTROL. Using grille-mounted radar, this available feature maintains your selected cruise speed and following gap distance, automatically braking when necessary in stop-and-go traffic.

FRONT AUTOMATIC BRAKING. Using the same radar sensors as Adaptive Cruise Control, available Front Automatic Braking helps prevent or mitigate collisions at low speeds. The system alerts the driver if the lead vehicle slows unexpectedly.
OVERALL VEHICLE SCORE FOR SAFETY
— NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION

CORE STRENGTH. With high-strength steel forming a rigid structure around the passenger compartment and 10 standard air bags, Impala establishes a solid foundation for safety.

STABILITRAK® ELECTRONIC STABILITY CONTROL. This standard system automatically adapts to the environment to help you stay on course in challenging weather and road conditions.

ONSTAR® AUTOMATIC CRASH RESPONSE. In a crash, built-in sensors can alert a specially trained OnStar Advisor, who is connected into your Impala to see if you need help — even if you can’t ask for it. Advisors can use GPS technology to pinpoint your location and request emergency help. OnStar Guidance Plan is standard for the first three months.

HIGHWAY FUEL ECONOMY

305 HP
AVAILABLE 3.6L V6 ENGINE

RAZOR-SHARP REFLEXES. A stiff body structure and athletic stance allowed Impala engineers to precisely tune ride and handling. Premium electric rack-and-pinion steering provides crisp, responsive handling. The steering radius is enhanced by a variable-effort feature, which increases power assistance during low-speed maneuvers.

AVAILABLE 305-HP 3.6L V6 ENGINE.
Would you appreciate robust performance with an EPA-estimated 28 MPG on the highway? With this 305-hp 3.6L V6 matched to an electronically controlled 6-speed automatic transmission, Impala leaps from 0 to 60 mph in 6.8 seconds.

197-HP ECOTEC® 2.5L ENGINE. This 4-cylinder engine combines Direct Injection, Variable Valve Timing and stop/start technology to help save on gas. Stop/start technology can automatically shut off the engine when stopped and enables a smooth transition when the brake pedal is released. And with this engine, Impala offers an EPA-estimated 22 MPG city/30 highway.

ASSEMBLY Chevrolet vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Chevrolet vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered and that, if there were changes, they are acceptable to you.

A NOTE ON CHILD SAFETY Always use safety belts and the correct child restraint for your child’s age and size, even with air bags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See the Owner’s Manual and the child safety seat instructions for more safety information.
