STANDARD STEEL SAFETY CAGE
A high-strength steel safety cage with reinforcements in the floor and body sills, roof and pillars, plus steel side-door beams, surrounds the entire Malibu passenger compartment.

STANDARD ENERGY-ABSORBING DESIGN
In collisions, the front and rear structures are designed to help absorb energy in a controlled manner to help maintain the integrity of the Malibu passenger compartment.

STANDARD LATCH SYSTEM
For child restraint seats at the two outboard rear positions, the LATCH (Lower Anchorages and Top tether anchorages for CHILDren) system is designed to make it easier to securely install compatible child safety seats.

A NOTE ON CHILD SAFETY:
Always use safety belts and proper child restraints, even with air bags. Children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See the Owner’s Manual and child safety seat instructions for more safety information.

STANDARD FOUR-WHEEL ANTILOCK BRAKES
Four-wheel ABS is designed to help reduce wheel lockup and help you maintain steering control during hard braking.

ADVANCED AND COMPREHENSIVE: THE MALIBU SAFETY PACKAGE.
You’ll feel confident and secure in a Chevy Malibu, and what could be more important than that? Unlike many competitors, Malibu features a standard four-wheel antilock brake system (ABS). For added safety during daylight hours, headlamps come on automatically.
DAMPENING BAFFLES IN THE FLOOR, ROCKER PANELS, BODY AND PILLARS

The extensive use of acoustic materials in all these areas helps make Malibu a quiet, comfortable car to travel in.

STAINLESS-STEEL EXHAUST SYSTEM

Malibu body panels are made of two-sided galvanized steel for excellent protection against corrosion. The zinc coating helps prevent exterior surface rust due to minor chips and scratches, and helps prevent holes which could start from the inside.

GALVANIZED-STEEL BODY

The muffler and tailpipe are made of aluminized stainless steel — and the takeoff pipe, extension pipe and catalytic converter shell are made of stainless steel — providing excellent corrosion protection for the entire exhaust system.

INSULATED INTERIOR

Engine and road noise are reduced, thanks to a thick floorboard pad and generous use of dampening materials in the floor and rear-window area.

FRAME-UNDER-GLASS DOOR DESIGN

This design contributes to reduced wind noise at highway speeds. A specially designed radio antenna and sculpted mirrors add to a quiet ride.

NOISE-REDUCING STEERING GEAR

Isolated inner tie rods reduce the transfer of road noise and vibration into the passenger compartment.

SOLAR-RAY TINTED GLASS

The windshield and rear window are made of Solar-Ray tinted glass, which helps decrease the sun’s glare inside the car.

INTEGRAL RAIN GUTTER

A “roof ditch molding” is designed to help keep you dry when you enter or exit your Malibu on rainy days.

RECESSED WINDSHIELD WIPERS

The windshield wipers “park” well below the airstream, which helps reduce wind noise caused by air turbulence at highway speeds.

FRAME-UNDER-GLASS ENGINE MOUNTS

The Malibu engine floats on hydraulic mounts. This system actually tunes certain engine noises to levels inaudible to the human ear.

FRONT CHASSIS FRAME

The front chassis frame design helps deliver a pleasing, responsive driving experience while contributing to occupant safety. It is a robust, structurally rigid design.

LIQUID-FILLED ENGINE MOUNTS

The Malibu engine floats on hydraulic mounts. This system actually tunes certain engine noises to levels inaudible to the human ear.

NO TIMING ADJUSTMENTS — EVER

A direct ignition system eliminates the need for periodic engine timing adjustments.*

*Maintenance needs vary with different uses and driving conditions. See the Owner’s Manual for more information.

A QUALITY PAINT PROCESS

Body panels are made of two-sided galvanized steel and “heal” themselves when scratched. They get a phosphate coating and rust-fighting primer, topped by a glass-smooth primer surfacer. After the basecoat goes on, a clearcoat provides a durable shine.

WHEREVER AMERICA'S GOING, WE'LL BE THERE.

Chevrolet is there with the largest dealer network in the USA and a comprehensive owner protection plan that will look after you from the moment you take delivery of your new Chevy Malibu. The plan includes a New Vehicle Limited Warranty, 24-Hour roadside assistance and Courtesy Transportation. It's an owner protection plan you can believe in. Your Chevrolet dealer has all the details. Through the years and across the miles, wherever America's going...we'll be there.

GM'S NEW VEHICLE LIMITED WARRANTY
This warranty is for GM vehicles registered in the USA. See your Chevrolet dealer for terms and conditions. Covered for 3 years/36,000 miles (whichever comes first):
• The complete vehicle
• Tires
• Towing to your nearest Chevrolet dealership
• Cosmetic corrosion resulting from defects
• Repairs made to correct any vehicle defect
• No charge for most warranty repairs.

24-HOUR ROADSIDE ASSISTANCE
Call 1-800-CHEV-USA toll free anytime during the warranty period. Towing and basic technical advice come with the Basic Care Package. Courtesy Care provides additional features during the term of the New Vehicle Limited Warranty, including locksmith services, flat tire changing, fuel delivery, non-warranty towing and jump starts. Some services will incur costs. Chevrolet reserves the right to modify or discontinue Basic Care and Courtesy Care at any time.

CHEVROLET CUSTOMER ASSISTANCE CENTER
Call 1-800-222-1029 toll free to talk directly to specialists who can handle any product or service concern you may have.

FROM DAY ONE...
The vehicle is checklist-ready for you to drive away, and a full orientation awaits you on everything about your new Malibu.

COURTESY TRANSPORTATION
Ask your participating Chevrolet dealer for Courtesy Transportation if you drop your vehicle off for repairs under the New Vehicle Limited Warranty. Also see if you qualify for expense reimbursement and/or vehicle rental. Services vary at election of participating dealer.
