SILVERADO HD. FROM THE JOB SITE TO THE CAMPSITE, FROM THE FAMILY FARM TO THE FAMILY REUNION, YOU’LL FIND OUR LONG-LASTING, DEPENDABLE TRUCKS DOING IT ALL—EVERY DAY. WORK. PLAY. LIVE.
Brute strength solves a lot of problems. Reason enough to build the 2012 Silverado HD—OUR MOST POWERFUL HEAVY DUTY yet. By teaming an available DURAMAX® 6.6L TURBO-DIESEL V8 powerhouse with the legendary Allison® 6-speed transmission, Silverado HD delivers 397 HORSEPOWER, 765 LB.-FT. OF TORQUE and a MAXIMUM TOWING CAPACITY OF UP TO 23,000 LBS.¹ Factor in a high-strength, fully boxed steel frame that’s capable of hauling up to 7,215 lbs.² of payload and the phrase “THE STRONGEST SILVERADO HD EVER” takes on a much deeper meaning.

Want to configure your rig? Silverado HD gives you the choices you need to carry both cargo and crew. Choose from Regular Cab, Extended Cab or Crew Cab, all available in 2WD or 4x4 models to help you get the right people to the job.

The 2012 Silverado HD. This dependable, long-lasting workhorse of a truck comes with the best coverage of any full-size pickup—a 100,000-MILE/5-YEAR POWERTRAIN WARRANTY.³ Because we know it’s one thing to talk quality and quite another to back it up.

¹ Requires fifth-wheel trailer hitch and Regular Cab model. Maximum trailer weight ratings are calculated assuming a base vehicle, except for any option(s) necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your Chevy dealer for additional details.
² Requires Regular Cab model and gas engine. Maximum payload capacity includes weight of driver, passengers, optional equipment and cargo.
³ Whichever comes first. See dealer for limited warranty details.
765 LB.-FT. OF PERSUASION

Torque is the force that gets you—and whatever you need to move—rolling from a dead stop. It’s the power to get heavy things from one place to another. No wonder Silverado HD can be equipped to generate a massive 765 LB.-FT. OF TORQUE. This is how you bring trailers to heel or blast snow from an unplowed road. Plain and simple, this is how you get work done.

Yet all the power in the world means nothing until you bring it to the road. That’s why you’ll find an available ALLISON 6-SPEED automatic planted next to an available Duramax 6.6L Turbo-Diesel V8. This Allison transmission comes from a long line of industrial-strength gearboxes—making it right at home in a Silverado HD.

And that part about blasting snow? All 4x4 Silverado HD models can be factory-equipped to handle a snow plow. Just order the available Snow Plow Prep Package and plow on.
Muscle needs backbone. So you can be sure our engineers went for all they could get. And what Silverado HD got was a frame that’s **FIVE TIMES TORSIONALLY STRONGER** than the previous generation. In fact, this **FULLY BOXED, HIGH-STRENGTH STEEL FRAME** helped Silverado HD earn a best-in-class **MAXIMUM PAYLOAD RATING OF 7,215 LBS**. You won’t find a fully boxed frame on a Ford F-250 or F-350. But strength also comes from flexibility, and Silverado HD has a suspension that is specifically tuned to handle heavy loads and rough roads, while at the same time delivering a surprisingly smooth ride. We’ve maintained the torsion-bar front suspension from the previous generation but increased the **FRONT GROSS AXLE WEIGHT RATING UP TO 6,000 LBS**. More load. Less effort. Better day.

---

1 Requires Regular Cab model and gas engine. Maximum payload capacity includes weight of driver, passengers, optional equipment and cargo.

2 Requires available Snow Plow Prep Package.
IN A REAL-WORLD MATCHUP—THE SILVERADO HD FRAME PROVED TORSIONALLY STIFFER THAN FORD SUPER DUTY—SILVERADO WINS.

A spec chart tells a lot. Real-world tests tell more. That’s why Chevy hired AMCI Testing, a respected independent automotive testing firm, to evaluate Silverado HD and Ford Super Duty in head-to-head tests replicating real-world situations. AMCI Testing repeated each comparison at least 24 times before certifying the results. The frame stiffness comparison was only one telling example—the Silverado fully boxed frame held firm while Super Duty got twisted out of shape. Tests measured frame twist/torsional rigidity, indicated by tailgate operation and bed/cab misalignment; acceleration from 0 to 60 and 30-to-55 mph with a payload and/or uphill with a trailer, at altitude; suspension sag under load; 70-to-0 brake fade under stress; and exhaust brake performance. Nine comprehensive tests. NINE DECISIVE CHEVY VICTORIES. That’s the reality.

1 2011 models tested.
You don’t saw logs with a steak knife. You don’t cut hay with a garden tractor. And you don’t haul vintage muscle cars with just any truck. Silverado HD is at its best towing gooseneck and fifth-wheel trailers of varying sizes up to a best-in-class 23,000 lbs.1

The DIESEL EXHAUST BRAKE SYSTEM helps keep heavy loads in check by evaluating the load and grade, and if needed, uses a variable vane geometry turbo to create the necessary back pressure to slow your rig and help reduce brake use. Together with the available Duramax Turbo-Diesel engine and Allison transmission, diesel exhaust braking is simply a way for engine exhaust to help slow the heavy load you’re towing downhill.

The available INTEGRATED TRAILER BRAKE CONTROLLER, mounted on your dash, provides measured brake force to the electric-controlled trailer brakes for added confidence while towing heavy loads. AUTO GRADE BRAKING works with cruise control to maintain vehicle speed on long, steep descents.

While these trailering features help stop your heavily loaded truck, Silverado HD gets your rig rolling smoothly—even on hills. If your tires begin to slide in a direction that’s different from the one you’re steering, STABILITRAK® ELECTRONIC STABILITY CONTROL SYSTEM, standard on single rear wheel models, makes small, individual brake applications and engine torque adjustments to enhance control and help keep you on the path being steered.

TRAILER SWAY CONTROL (single rear wheel models only) senses when a trailer starts to sway and automatically applies the truck’s brakes, and reduces engine power, if necessary, to help get you back on track. TOW/HAUL mode, another confidence builder, keeps you in the right gear for the grade you’re on. And if you’re stopped on inclines greater than 5%, HILL START ASSIST (single rear wheel models only) will automatically engage, holding the truck stationary for about a second, allowing you to accelerate before the truck can roll backward.

1 Requires fifth-wheel trailer hitch and Regular Cab model. Maximum trailer weight ratings are calculated assuming a base vehicle, except for any option(s) necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your Chevy dealer for additional details.
### 2500HD AND 3500HD BALL-HITCH TRAILERING *(LBS.)*

Please read the Trailering Basics on the facing page before towing a trailer with any Chevy truck.

TRAILERING BASICS

NOTE: Towing a trailer involves all major vehicle systems of your Chevy truck. Easy and safe trailering requires a properly equipped vehicle, additional trailering equipment and an appropriate trailering system. It also requires loading both the vehicle and trailer properly, using safe driving techniques, meeting regional legal requirements, and following break-in and maintenance schedules. The vehicle owner is responsible for obtaining the proper equipment (hitch, ball, hitch of the proper size and capacity) required to safely tow both the trailer and the load. For more information, consult your Owner’s Manual or speak to a trailering expert at your Chevrolet dealership. These charts will assist in determining how to best equip your Chevy truck for trailering. To help you understand the charts, consider these trailering factors:

RGAWR AND GVWR: Addition of trailer hitch weight cannot cause vehicle weights to exceed Rear Gross Axle Weight Rating (RGAWR) or Gross Vehicle Weight Rating (GVWR). These ratings can be found on the certification label located on the driver door or door frame. • Fifth-wheel trailer hitch is available as a dealer-installed accessory on select models. See the Trailering Basics for more trailer information.

When the job switches off, Silverado HD switches on with the available **Z71 Off-Road Package**. Hard-baked ruts, soupy mud sloughs or hardscrabble rock-studded slopes—they’re all walks in the park with a Z71 outfit. A **Skid Plate Package**, including frame-mounted shields, helps protect the front underbody, oil pan, differential case and transfer case from unforgiving rocks and kicked-up debris. If a rear wheel slips, the **Automatic Locking Rear Differential** can redirect wasted torque from a spinning wheel to the one that keeps its grip, reserving power and maintaining forward drive. The new **Z71 Appearance Package** lends a rugged, adventure-seeking appearance. Features include body-color front bumper and grille surround, unique Z71 decals, foglamps, bright doorsill plates and 18” polished forged-aluminum wheels. After all, off-road is a state of mind. With Silverado HD, it’s also state of the art.
Silverado 3500HD Dually Crew Cab
interior shown in Light Cashmere-Color/Dark Cashmere-Color with available features.

LTZ INTERIOR AT A GLANCE
Heated, leather-appointed front bucket seats with 10-way power adjusters
Available power-adjustable pedals
Remote vehicle starter system
Choice of Ebony, Light Cashmere-Color or Light Titanium-Color interiors
Dual-zone automatic climate controls
Silverado was built for your independent streak, but it recognizes that everyone has a social side. That’s why Silverado keeps adding ways to keep you both protected and easily connected so you’ll not be far from what matters.

ONSTAR® DIRECTIONS & CONNECTIONS®
Silverado takes you a long way from anywhere, which makes the reach of OnStar’s advanced technology that much more valuable. In a collision, vehicle sensors automatically alert a trained OnStar Advisor, who can request that emergency help be sent to your exact location, even if you can’t respond. And when work calls you to unfamiliar terrain, Turn-by-Turn Navigation gives you voice-guided directions to help you find your way. It’s all standard on most models for six months.

ONSTAR REMOTELINK™ MOBILE APP
Working and playing outside can mean plenty of cold mornings. Download the OnStar REMOTELINK app to your smartphone and you can remotely start your engine, warm the cabin and get your rig ready to roll. Lock or unlock your doors, or turn on your horn and lights to find your truck in a crowd.

NAVTRAFFIC®
Need to make a delivery? Have to pick up equipment in a part of town notorious for gridlock? Use the available NavTraffic system to receive detailed traffic information when you need it most—while you’re on the road. Available on LTZ models.

CHEVROLET WI-FI BY AUTONET MOBILE®
Work doesn’t always end when you leave the office. Available Autonet Wi-Fi Mobile lets you order parts, apply for permits, or look up building code information from your Silverado. Or on your getaway time, check fishing regulations, weather conditions or social networks through the Internet. The link is accessible for multiple devices simultaneously in the truck and up to 150 feet away.

BLUETOOTH® AT YOUR COMMAND®
Make, answer and end calls without taking your hands off the wheel or your eyes from the road. Just tap the steering-wheel controls and you’re in touch. Bluetooth wireless technology for select phones is standard on LTZ models.

1 Visit onstar.com for coverage map, details and system limitations. Services vary by model and conditions. OnStar acts as a link to existing emergency service providers. 2 Requires Android or iPhone platform and active OnStar subscription, which is standard for six months on most models. 3 Requires available remote vehicle starter system. 4 Requires available navigation radio. Requires a subscription sold separately by SiriusXM. Available only in select markets. For more information, see siriusxm.com/navtraffic. 5 Monthly rate applies. Visit autonetmobile.com for details and coverage map. 6 Go to gm.com/bluetooth to find out which phones are compatible with the vehicle.
Whether you’re making deliveries in an unfamiliar town or scouting a new fishing hole, Silverado offers a new touch-screen navigation system that displays maps and information to help you find your way. Available on select models, this satellite-based system plays SIRIUSXM SATELLITE RADIO1 and provides NAVTRAFFIC2 updates. Or you can listen to music from your CDs or MP3 player. To further customize your driving tunes, plug your iPod®3 or even a music-loaded flash drive directly into an available USB port.4 A hard drive, with up to 30 GB available, enables PAUSE AND PLAY, which lets you pause a live radio broadcast and record up to 20 minutes of it for playback later. The radio’s color screen also integrates with the AVAILABLE REAR VISION CAMERA display to give you a much clearer vision of trailer hookups. Backing up or going forward, it’s all part of the way Silverado changes the way you see the world.

1 Requires a subscription sold separately by SiriusXM. Available only in the 48 contiguous United States and Washington, D.C. Visit siriusxm.com for more information. 2 Requires a subscription sold separately by SiriusXM after three months. Available only in select markets. For more information, see siriusxm.com/navtraffic. 3 iPod is a mobile digital device. iPod is a registered trademark of Apple Inc., registered in the U.S. and other countries. 4 Not compatible with all devices.
TOYS ARE JUST AS IMPORTANT AS TOOLS
Your truck is a part of you and the way you live your life. It shows up to work every morning and doesn’t complain. At the end of the week, it powers your escape and drags along every bit of gear you need to get the most out of your time off. With a **HIGH-STRENGTH STEEL FRAME** and **WIDE LEAF SPRINGS**, Silverado HD can handle up to **7,215 LBS.** of payload. And because family and friends are always part of your life, Silverado HD offers **REGULAR CAB, EXTENDED CAB** or **CREW CAB** models. When you need to load up in a hurry, Extended Cab models offer easy access, with rear doors that open wider than any other full-size pickup. Inside, both Extended Cab and Crew Cab **REAR BENCH SEATS FLIP UP** to offer additional interior cargo space. **DUAL GLOVE BOXES** are standard on HD Work Truck and LT models. You can also order a **SILVERADO 3500HD REGULAR CAB** and **CREW CAB CHASSIS CAB** (not shown) with a bare frame that’s designed to upfit. It offers Gross Vehicle Weight Ratings (GVWRs) up to 13,200 lbs., making a solid foundation for a dump body, service body, flat bed or Ambulance Prep Package. The available Allison transmission and Duramax Diesel offer **POWER TAKEOFF (PTO)** capability to operate auxiliary equipment like a dump body or hydraulic motors. At Chevy, we know that one hundred and ten percent is how you do things. It makes life fuller, on the job site and on the weekends. You want a truck that can match your efforts. Hauling high-powered toys or working as a high-tech rugged tool, Silverado HD has the structural integrity to take you through your work week and beyond.

1 Requires Regular Cab model and gas engine. Maximum payload capacity includes weight of driver, passengers, optional equipment and cargo.
2 When properly equipped, includes weight of vehicle, driver, passengers, cargo and optional equipment. 3 Additional equipment is required for PTO installation by an independent supplier. The provisions for PTO include an instrument panel switch, an electrical interface and an internal PTO gear in the transmission.
Because cargo comes in as many shapes and sizes as there are jobs, Silverado HD offers a **CARGO MANAGEMENT SYSTEM**. Whether it’s tools or a tailgate party, lumber or loose gravel, we help secure your load. This dealer-installed option, available from Chevy Accessories, uses **SLIDING HOOKS** embedded in C-channel tracks along both sides and the front of the box. Each anchor in this integrated, configurable system is rated up to 500 lbs.\(^1\) Install a **STATIONARY TOOLBOX**, an overhead rack system or a tonneau cover to keep your gear secure and out of sight—all accessories designed to make the way you work more efficient. And when ordered with your new vehicle, every Chevy Accessory is covered by the GM **3-year/36,000-mile NEW VEHICLE LIMITED WARRANTY**.\(^2\)

---

\(^1\) Cargo and load capacity limited by weight and distribution.  
\(^2\) Whichever comes first.  
See dealer for details.

IMPORTANT INFORMATION

100,000-MILE/5-YEAR TRANSFERABLE POWERTRAIN LIMITED WARRANTY. Every 2012 Chevy passenger car, light-duty truck, SUV and crossover comes with a 100,000-mile/5-year (whichever comes first) transferable Powertrain Limited Warranty. Plus, you get 100,000 miles/5 years (whichever comes first) of the 24/7 Roadside Assistance Program, the Courtesy Transportation Program, and much more. See dealer for details.

NEW VEHICLE LIMITED WARRANTY. GM vehicles registered in the U.S.A. are covered for 36,000 miles/3 years (whichever comes first). The complete vehicle is covered, including tires, towing to your nearest Chevrolet dealership and cosmetic corrosion resulting from defects. Repairs will be made to correct any vehicle defect, and most warranty repairs will be made at no charge. In addition, rust-through corrosion will be covered for 100,000 miles/6 years (whichever comes first). See dealer for details.

ENGINES. Chevrolet products are equipped with engines produced by GM Powertrain or other suppliers to GM worldwide. The engines in Chevrolet products may also be used in other GM makes and models.

ASSEMBLY. Chevrolet vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Chevrolet vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered and that, if there were changes, they are acceptable to you.

ONSTAR. OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Call 1-888-4ONSTAR (1-888-466-7827) or visit onstar.com for OnStar Terms and Conditions, Privacy Policy, details and system limitations.

A NOTE ON CHILD SAFETY. Always use safety belts and the correct restraint for your child’s age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger air bag. See the Owner’s Manual and child safety seat instructions for more safety information.

IMPORTANT WORDS ABOUT THIS CATALOG. We have tried to make this catalog comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this catalog and other printed materials provided at the dealership or affixed to vehicles are approximations based upon design and engineering drawings, prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your Chevrolet dealer for complete details. Chevrolet reserves the right to lengthen or shorten the model year for any product for any reason or to start and end model years at different times. Certain vehicle features may lose their usefulness over time due to obsolescence from technological changes. Unless otherwise noted, all claims based on GM Large Pickup segment and latest available competitive information. Excludes other GM vehicles.

TRAILERING AND OFF-ROAD DRIVING INFORMATION. Please go to chevy.com and carefully review an Owner’s Manual for important safety information about trailering or off-road driving in your vehicle.

FLEET ORDERS. Some standard content may be deleted on fleet orders. See dealer for details.

OWNER SERVICES. Chevrolet is committed to enhancing the ownership experience through a wide array of programs. For more information about 24-hour Roadside Assistance, Courtesy Transportation, Customer Assistance Center, Chevy Safety, marketing and incentives, visit chevy.com.

GMMOBILITY.COM (1-800-323-9935). GM Mobility™ offers financial assistance for eligible adaptive equipment to make automotive travel easier for persons with disabilities or special transportation needs. To learn more about special GM Mobility offers, visit gmmobility.com.

CHEVROLET OWNER CENTER (GMOWNERCENTER.COM/CHEVY). Register your vehicle with the Chevrolet Owner Center, and receive benefits such as online access to your vehicle Owner’s Manual, maintenance schedule reminders, service history tracking, warranty and service information, safety information, special offers and privileges, and news and events.

GM CARD MEMBERS SERVICES.COM. Did you know about the family of reward credit cards that can help you get a great deal on a new GM car, light-duty truck, SUV or crossover? With a GM reward card, you accrue earnings on every credit card purchase to use toward the purchase or lease of an eligible new GM vehicle. With three cards to choose from, you’re sure to find one that suits you best.
