BIG FUN, PERFECTLY SIZED FOR YOUR LIFE.

The 2019 Sonic makes good times a part of every trip. For starters, Sonic is available in either Hatchback or Sedan, in a vibrant spectrum of colors.

Outside, the front fascia with signature LED daytime running lamps makes a strong first impression. The stylish taillamps complete the story. Inside, you’ll discover an info-packed gauge cluster, an available heated steering wheel (Sedan only) and convenient ways to connect your smart devices.

With a range of available active safety technologies and impressive efficiency, Sonic offers added confidence to help you keep going. Who knew so many big ideas could be packed into one small car?
THIS STYLISH HATCH SPEAKS VOLUMES.
Sonic Hatchback offers seating for up to five of your favorite people, plus 19 cubic feet of cargo space behind the rear seat. Sonic Sedan has 14.9 cubic feet of trunk storage — that’s more room than the 2019 Toyota Corolla Sedan offers.

GLOVE BOX WITH A ONE-TWO PUNCH.
Sonic features upper and lower glove box compartments, so you can keep twice the number of things — like two pairs of sunglasses, a flashlight and, of course, your gloves — all in a handy place.

AMP IT UP WITH RS.
Sonic with the available RS Package features a racing-inspired flat-bottom steering wheel that’s leather-wrapped with contrasting stitching, as well as deluxe carpeted front and rear floor mats and a Piano Black-accented instrument panel.

1 Cargo and load capacity limited by weight and distribution.
1. **INCREASE YOUR FLEXIBILITY.** With the split-folding rear seats folded down, Sonic Hatchback can provide up to 47.7 cubic feet of flexible cargo space.

2. **FREEDOM FROM THE START.** Keep your key in your pocket or bag. Available Keyless Open and Start provides a simple way to get going.

3. **EVERYTHING WITHIN REACH.** You’ll find all your information is at your fingertips on the Chevrolet Infotainment 3 System touch-screen. An available heated steering wheel provides a good, warm grip, perfect on those days when the temperature dips. An available power driver seat makes it easy to get comfortable.

---

1. Cargo and load capacity limited by weight and distribution. 2. Chevrolet Infotainment System functionality varies by model. Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices. 3. Sedan only.
INTERNET IN YOUR SONIC. Chevrolet offers available built-in 4G LTE Wi-Fi®¹ that provides a better in-vehicle experience than your smartphone. Our strong signal means you have a fast and reliable connection for up to seven devices.

CHEVROLET INFOTAINMENT 3 SYSTEM: This standard system features a 7-inch diagonal color touch-screen. With a compatible smartphone, the system allows you to answer calls and listen to text messages hands-free and access a broad range of functions. There’s also Bluetooth® wireless technology² standard on all models, as well as available OnStar®³ and SiriusXM® Radio⁴. Choose from over 150 channels of commercial-free music, live sports, news, talk and entertainment.

Apple CarPlay® COMPATIBILITY. With Apple CarPlay®, you can simply and smartly connect with some of your most used iPhone® features, including Maps, Music, Messages and Phone, right on your touch-screen display.

Android Auto® COMPATIBILITY. You can quickly and intuitively interact with select smartphone apps with support for Android Auto.⁶ This system takes some of your compatible Android™ phone’s features and lets you access them on the touch-screen. You can access your phone, text messages, music, navigation and more.
**POWER Comes STANDARD.** The ECOTEC® 1.4L turbocharged engine offers up to an EPA-estimated 38 MPG highway\(^1\) and delivers 138 horsepower and 148 lb.-ft. of torque. Sounds like fun, doesn’t it?

**SHIFTING GEARS.** When it comes to transmissions, we’ve made it simple. A 6-speed manual is standard and a 6-speed automatic is available on all models, so the choice is yours.

**RS PACKAGE.** The RS Package — standard on Hatchback and available on Sedan — features a sport body kit and RS-specific aluminum wheels along with Black Chevrolet bowtie emblems, custom rocker panels and foglamps. Interior highlights include a Piano Black-accented instrument panel and a flat-bottom steering wheel.

**PREMIER RS.** On Premier models, the RS Package includes 17-inch Black-painted aluminum wheels and a sport suspension. The interior is upgraded with heated Jet Black leatherette front seats featuring sueded microfiber inserts with RS lettering.

SAFETY STARTS WITH YOU. Safety or driver assistance features are no substitute for the driver’s responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Visibility, weather and road conditions may affect feature performance. Read the vehicle Owner’s Manual for more important feature limitations and information.
WE’RE SERIOUS ABOUT SAFETY.

Whether you’re on the road or in a parking lot, the available innovative active safety technologies in Sonic use strategically located cameras and sensors to help warn you of potential collisions.

**FORWARD COLLISION ALERT.** This available feature monitors how close your vehicle is to the vehicle in front of you. If the system determines that a front-end collision with a detected vehicle is imminent, it can alert the driver to a potential crash. It also can warn the driver if their Sonic is following a detected vehicle much too closely.

**LANE DEPARTURE WARNING.** If you unintentionally drift out of your lane without using a turn signal, this available camera-based system sends an alert. The system reads traffic lane markings when identifiable and provides audible and visual alerts.

**REAR VISION CAMERA.** When traveling in Reverse at low speeds, the rear vision camera provides a real-time view of the area immediately behind your Sonic on the touch-screen display.

**REAR PARK ASSIST.** This available feature helps you when backing up by sounding an audible alert and providing visual indication on the rear vision camera display when it detects certain stationary objects in close proximity behind the vehicle.

**STABILITRAK® ELECTRONIC STABILITY CONTROL.** In challenging weather and road conditions, this standard system helps you stay the course by detecting the difference between the path being steered and the direction the vehicle is actually going. It then uses the brakes and, if necessary, adjusts engine torque to help keep your Sonic on track. This innovative safety technology is especially helpful during emergency maneuvers and difficult driving conditions.

**ONSTAR AUTOMATIC CRASH RESPONSE:** In a crash, built-in sensors can automatically connect you to a specially trained, Emergency Medical Dispatch-certified Advisor, who can help you get the assistance you need—even if you can’t ask for it. Advisors can use GPS technology to pinpoint your location and request emergency help. OnStar Automatic Crash Response is included in the available OnStar Safety & Security Plan.

**IMPORTANT INFORMATION**

**CHEVROLET CONNECTED SERVICES AND ONSTAR** Effective May 1, 2018, available Chevrolet Connected Services have changed significantly. While many of the offered services are the same, available plans and pricing are different. Connected vehicle services require a paid connected vehicle services plan or trial and connected hardware, vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Visit onstar.com for coverage map, details and system limitations.

**CHEVROLET OWNER CENTER (MY.CHEVROLET.COM)** Everything you need to know. Anything you need to do. Your Chevrolet Owner Center makes it easy. Create your account today to get the most out of your new vehicle. Get special alerts and offers, schedule service, review your maintenance schedule, and view how-to videos specifically for your vehicle. All online, anytime. Visit the Owner Center today to register or take a tour.

**ENGINES** Chevrolet products are equipped with engines produced by GM Global Propulsion Systems or other suppliers to GM worldwide. The engines in Chevrolet products may also be used in other GM makes and models.

**ASSEMBLY** Chevrolet vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Chevrolet vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered and that, if there were changes, they are acceptable to you.

**A NOTE ON CHILD SAFETY** Always use seat belts and the correct child restraint for your child’s age and size, even with airbags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal airbag. See the Owner’s Manual and the child safety seat instructions for more safety information.
