The Best Suburban Yet.

Since 1935, it’s been the vehicle that’s made family trips enjoyable. Chevy Suburban. With features like four-wheel antilock disc brakes and available OnStar® and Autotrac 4x4 transfer case, it’s no wonder this is still the best Suburban yet. And combined with an available Vortec 8100 SFI engine – the most powerful gasoline engine in its class† – a spacious interior, smooth ride and impressive towing and hauling capabilities, Suburban is the full-size utility that meets the needs of American families. Chevy Suburban. From the family of Chevy Trucks – the most dependable, longest-lasting trucks on the road.**

*One-year OnStar Safety and Security service contract is standard on Suburban LT and Z71, Available on Suburban LS. Call 1-800-ONSTAR-7 for system limitations and details.

OPRYLAND HOTEL
Where Comfort Begins.

From the first time you slip behind the wheel of Suburban LT, you'll discover how truly comfortable and accommodating a sport utility vehicle can be. An ergonomic instrument panel places all major controls within easy reach. Heated front-row bucket seats with Custom Leather seating surfaces and electronic climate control help to make even long rides seem enjoyable. And available second-row bucket seats further enhance your family's and friends' comfort. Chevy Suburban LT. It's the start of a perfect journey.
OnStar is a standard feature on Suburban LT. Should your air bag ever deploy, OnStar Advisors will contact emergency assistance if needed and provide them with your exact location.

One-year OnStar Safety and Security service contract is standard on Suburban LT. Call 1-800-ONSTAR-7 for system limitations and details.

Suburban Seating
Along with standard front bucket seats, Suburban LT comes equipped with a standard second-row 60/40 split-folding bench seat and third-row bench seat. Second-row bucket seats are also available. And all first- and second-row seats include Custom Leather seating surfaces.

Electronic Climate Control
In Suburban LT models, standard electronic climate control lets you set your optimum temperature – then it's automatically maintained for your comfort.

Second-Row Audio Controls
With available second-row audio controls, rear-seat passengers can enjoy an entirely different music source than what is being listened to in the front. (Headphones not included.)

Nine-Speaker Audio System
A custom-designed nine-speaker audio system is standard in Suburban. The system has 126 watts, six-channel amplifier and rear subwoofer.

Sunroof
All Suburban models can be equipped with an available sunroof. With just a push of a button, the glass panel can be opened, closed or set to a vent position. A retractable interior shade is also included as part of the sunroof.
Get Away From It All. Take It All With You.

For your next family trip, take the ultimate escape vehicle. Chevy Suburban Z71. It lets you leave the world behind— or take a little more of it with you— thanks to these select standard features:

- 4x4 model only.
- Body-color grille, bumpers, door handles and mirrors.
- Skid plates.
- 17-inch wheels and tires.
- Tubular assist steps.
- Wheel flares with extensions.
- Rear locking differential.
- Z71 Off-Road suspension.
- Specially designed luggage rack with rear roller.
- Lower moldings.
- Rounded foglamps.
- High-capacity air cleaner.
- Z71 badging.

Luggage Rack
Suburban Z71 features a luggage rack which includes a roller at the back of its design. This feature helps you slide items like a large canoe into place with more ease.

The Power Of Suburban.

It takes a powerful engine to pull a large fishing boat up a launch ramp. That’s why you’ll find a Vortec engine inside every Chevy Suburban. An available Vortec 8100 V8 in three-quarter-ton models is the most powerful gasoline engine in its class* — even more powerful than V10 engines from Ford. That Suburban commitment to strength is also found in the Vortec 6000 V8 engine — standard in three-quarter-ton models — and the Vortec 5300 V8 SFI that’s standard in half-ton models. When there’s a job to be done, there’s nothing like the combination of Chevy Suburban and Vortec power.

*Based on 2001 model year GM Large Utility segment competitive information. Excludes other GM vehicles.

Vortec 8100 V8 Engine

The available Big Block engine in Suburban three-quarter-ton models generates an amazing 340 horsepower and 455 lb.-ft. of torque.

TRAILERING CAUTIONS

Before you tow or trailer, get more details at chevy.com/suburbantrailer.
Environmental Concerns
Suburban was designed with the environment in mind. Here are just some of the ways that Suburban is helping:

- Fuel will be recycled every year to make radiator side panels on all Suburban models.
- All welded plastic parts and some exterior surfaces are made from recyclable materials.
- The California Air Resources Board (CARB) has certified all 2002 Suburban models sold in the state as low-emitting models (California vehicles only).
- A GM Oil Life System determines appropriate oil-change intervals based on operating conditions, notifying customers when to change the oil, in order to eliminate unnecessary oil changes and corresponding waste.
- High-strength frame technologies provide more effective use of steel material, eliminating thousands of tons of steel scrap every year.
- The electrical system design of Suburban reduces spikes from the previous-generation model, resulting in more than a ton less of lead solder being used every year.
- Longer-life brake components could prevent hundreds of pounds of brake parts from reaching landfills.

Suspension Choices
You can equip your new Suburban with one of these suspensions:

- **Premium Ride**—helps maintain the rear suspension at an even level, with the front ways trailing. Standard on Suburban half-ton models.
- **271**—designed for driving on off-road terrain. Standard on Chevy Suburban 271.
- **Front Ride**—provides a feel of the road with its dual-laminate rear suspension. Standard on all three-quarter-ton models equipped with the Vortec 6000 V8 SFI engine.
- **Autotrac**—automatically controls the amount of shock damping to optimize your ride. On half-ton models, the system includes an adjustable rear-low-leveling. Available on LT and equipped with the Vortec 6000 V8 SFI engine on three-quarter-ton LS and LT.

Dent-Resistant Body Panels
Quarter panels are made of front fenders and doors, as well as rear side doors, and made of high-strength, dent-resistant steel. The panels are made to better withstand dents that can come from other vehicles’ dents in parking structures.

Accessory Drive Belt
The accessory drive belt is designed to operate for up to 175,000 miles.

Efficient Cooling
Exhaust and transmission coolers in Suburban are designed to be efficient and reliable. An alluminotipriuressure equalizer, extension of cylinder head with some of the primary engine coolant side pipe.

Battery-Rundown Protection
Battery-rundown protection automatically turns off your lights and infantry 30 minutes after the ignition has been turned off.

Paint Process
Environmentally safe low-halo paint finishes on its exterior. A high-gloss clearcoat paint process is used to help resist fading.

Modular Frame Technology
The frame of all Suburban models is made of three modular sections. These sections are manufactured separately, allowing them to meet their individual performance requirements.

Hydroforming Frame Rails
The frame rails in half-ton and three-quarter Suburban models—like the rear rails in half-ton models—are made of hydroforming steel. Hydroforming reduces stretching of the steel during the manufacturing process, which allows the steel to return more of its strength.

Dynamic Rear Proporportions (DRP)
As part of Suburban’s four-wheel antilock brake system, DRP continuously monitors the wheels on both sides of Suburban. DRP also monitors and controls the propertionality of the rear wheels on all of its products. Please visit Gm for more information.

Fuel Tank System
GM Suburban’s three-quarter-ton models include a dual fuel system: a 26-gallon primary tank and an 10.5-gallon secondary tank (both capacities approximate). When the primary tank’s fuel level drops below five gallons, a turbine pump automatically draws fuel from the secondary tank.

Gm tire Safety
GM developed an extensive tire testing program known as the Technical Performance Criteria (TPC), more than 25 years ago. TPC rubber compounds that the tire GM uses are matched to that type of vehicle and have undergone a series of tests at its Tire and Wheel Laboratory located at Gm’s Milford Proving Ground. GM also periodically meets with vehicle companies to verify the performance of tires used on all of its products. Please visit Gm for more information.

There are even more engineering features at chevy.com/suburbanbrochure.

Engineer Features

- The 3.4 liter V6 engine on three-quarter ton LT.
- The California Air Resources Board (CARB) has certified all 2002 Suburban models sold in the state as low-emitting models (California vehicles only).
- A GM Oil Life System determines appropriate oil-change intervals based on operating conditions, notifying customers when to change the oil, in order to eliminate unnecessary oil changes and corresponding waste.
- High-strength frame technologies provide more effective use of steel material, eliminating thousands of tons of steel scrap every year.
- The electrical system design of Suburban reduces spikes from the previous-generation model, resulting in more than a ton less of lead solder being used every year.
- Longer-life brake components could prevent hundreds of pounds of brake parts from reaching landfills.

inside and out, it’s all chevy truck.

Access to the 2002 Suburban Be a better shopper with carfax. Perform a free vin search and get free price estimates. Buy better with carfax.
Autotrac 4x4
When engaged, Autotrac automatically transfers power between the front and rear wheels whenever rear-wheel slippage is detected. It’s a standard feature on all Chevy Suburban 4x4 models.

Electronic Traction Assist
On Suburban two-wheel-drive models, available Electronic Traction Assist works with the locking differential to help provide enhanced vehicle traction on slippery surfaces and controlled acceleration.

Front-Seat Side-Impact Air Bags†
Driver and right front-passenger side-impact air bags are standard features. Front-seat side-impact air bags are designed to help reduce the risk of certain injuries to front-seat occupants in side impacts.

A NOTE ON CHILD SAFETY:
Always use safety belts and proper child restraint systems. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See your Owner’s Manual and child safety seat instructions for more safety information.
Through the years, one of the most enduring traits of Chevy Suburban has been its tremendous versatility. Some things only get better. When extra space is needed for a trip to the gardening store, Suburban has up to 138.4 cu. ft. of cargo volume.* When you need to move long items and still need passenger room, simply fold down one portion of the second-row 60/40 split-folding bench seat. Of course, that’s just the beginning of how Chevy Suburban keeps up with your ever-changing life.

*When the second- and third-row seats are removed.

Go Ahead, Make A Change.

Carg o Security Shade And Cargo Net
A retractable cargo security shade keeps possessions placed in the cargo area out of sight while you’re away from your Suburban. A handy cargo net helps keep items like groceries from moving when you are driving.

Sized Right
Chevy Suburban is designed to fit into most modern garages. And because Suburban half-ton models have a tight turning radius, they provide the maneuverability you need when you’re out and about.

Luggage Carrier
It's easy to adjust the luggage carrier on Suburban. Simply pull the handles, set the desired crossrail span and lock into place.

Rear-Door Choices
Suburban offers a choice of either rear cargo doors or available liftgate/liftglass. The liftgate is constructed of lightweight aluminum, so it’s easy to lift. The liftglass lets you open it up quickly to toss in small items.

VERSATILITY

Get more detail about the versatile features of Suburban at chevy.com/suburbanbrochure

For more information, visit chevy.com

Third-Row Convenience
For extra cargo capacity, the third-row bench seat can be folded down and flipped forward.

Third-Row Accessibility
Because the right-passenger side of the 60/40 split-folding bench seat is placed on a sliding entry track, the seat can be pushed forward. The result: easy access to the third-row seat.

Chevy Suburban LT Medium Gray interior with Neutral Custom Leather seating surfaces and accents.
Sure, Suburban is one well-equipped sport utility vehicle. But you can take its functionality to an even higher level with available GM Accessories. With a wide variety of dealer-installed features, GM Accessories let you personalize your Chevy Suburban to your own specifications. What’s more, all GM Accessories are covered by the General Motors 3-year/36,000-mile New Vehicle Limited Warranty.* GM Accessories. They’re the real deal.
