For 68 years, Chevy Suburban has set the standard for utility vehicles. So it’s no surprise that the best Suburban yet just keeps getting better. With available new features like a six-disc in-dash CD changer, Bose speaker system, XM Satellite Radio* (see page 9 for details) and DVD system, Suburban offers the most available entertainment options of any vehicle in its class.† Of course, your family’s security is important, so Suburban offers safety features that include dual-level air bags,** a Passenger Sensing System** and available StabiliTrak.†† And Suburban still has the features that helped it gain legendary status, including Vortec engines, a spacious interior and impressive towing and hauling capabilities.

Chevy Suburban. From the family of Chevy Trucks — the most dependable, longest-lasting trucks on the road.

*Activation fee and service subscription extra.
†Based on 2002 competitive information. Excludes other GM vehicles.
**Always use safety belts and proper child restraints, even with air bags. Even with the Passenger Sensing System, children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See the Owner’s Manual and child safety seat instructions for more safety information.
††LS and LT half-ton models only. Not available on Z71 or models with locking rear differential.

Chevy Suburban Z71 in Light Pewter Metallic.

THE LEGEND CONTINUES.
Chevy Suburban half-ton LT 4x4 in Sandalwood Metallic. Shown with available features.

Suburban LT

DURABILITY FOR THE LONG RUN.
One look inside Suburban LT will show you everything you need to know about accommodations in an extra-large utility. It starts with heated front-row bucket seats with Custom Leather seating surfaces. New tri-zone automatic climate control and available second-row bucket seats allow your passengers to enjoy the ride as much as you will. And an available Personal Security Package includes a one-year OnStar* Safe & Sound Package to enhance your peace of mind. When it comes to comfort, Suburban LT wrote the book.

Suburban LT Select Standard Features:

- First- and second-row Custom Leather seating surfaces.
- Front bucket seats with three heating options.
- Second-row 60/40 split-folding bench seat.
- New tri-zone automatic climate control with separate driver, front passenger and rear controls.
- New AM/FM stereo with six-disc in-dash CD changer.
- Nine Bose speakers including a subwoofer.

*Call 1-800-ONSTAR for system information and details.
REDESIGNED INSTRUMENT PANEL

The instrument panel in Suburban is designed to help you get an enhanced feeling of confidence when you’re behind the wheel. A new Driver Information Center provides an easy-to-read, one-line display of numerous driver alerts. All gauges and major controls are clearly revealed and logically placed to provide the information you need at a glance. Plus, there are available new redundant steering wheel controls for both audio and the Driver Information Center.

SECOND-ROW AUDIO CONTROLS

With second-row controls, rear-seat passengers can enjoy an entirely different music source than what is being listened to in the front. (Headphones not included.)

NEW BOSE SPEAKER SYSTEM

The custom-designed Bose system with nine speakers delivers rich, lifelike sound quality to every seating position and includes a high-powered, six-channel digital signal-processing amplifier.

NEW DVD SYSTEM

Chevy Suburban can be equipped with a new DVD system that allows rear-seat passengers to enjoy hours of movies or music. The DVD system includes a flip-down, seven-inch color monitor screen that is located in the headliner between the first and second row of seats for convenient rear-seat viewing, the capability to play audio or video, two wireless headphones, a remote control unit, and jacks and ports for camcorder playback and video games.

NEW XM SATELLITE RADIO

The available XM Satellite Radio features digital-quality sound with 100 channels of the best in music, news, sports, and talk—coast to coast. Choose from 15 different program categories ranging from rock to urban to country and everything in between, with many channels completely commercial-free. And you’ll receive the same AM/FM stations you always have. Visit gm.xmradio.com to learn more. XM is available only in the 48 contiguous states. Activation fee and service subscription extra.

NEW INSTRUMENT PANEL

The instrument panel in Suburban LT Interior in Tan/Neutral. Shown with available features.

FAMILY TRAVEL. SUBURBAN STYLE.
Chevy Suburban half-ton LS 4x4 in Dark Gray Metallic. Shown with available options.
Whether you plan on taking some of your closest friends across the state or hauling your riding equipment to the stables, Suburban LS has the room that lets you do what you need to do. And you'll get it done in comfort and style, thanks to these select standard features:

- Nine-passenger Custom Cloth seating.
- 40/20/40 front split-bench seat with manual driver and front-passenger recliners.
- New tri-zone manual climate control with separate driver, front passenger and rear controls.
- AM/FM stereo with CD and cassette players.
- Eight-speaker audio system.
- Solar-Ray deep-tinted glass.
- Foglamps.
- Remote Keyless Entry.
- Assist steps.
- Body-side moldings with chrome accents.
- Bright-machined aluminum wheels (half-ton models).
- Polished forged-aluminum wheels (three-quarter ton models).

Suburban LS

MORE ROOM TO ROAM.
OVERHEAD CONSOLE
In Suburban LS, the overhead console includes controls for map lights and rear seat air conditioning and heat.

NEW DRIVER INFORMATION CENTER
Integrated into the Suburban instrument panel, this feature monitors and reports on the status of numerous vehicle functions, including fuel level, oil pressure and outside conditions.

GROUND ILLUMINATING MIRRORS
As a standard feature on Suburban, electric mirrors include a light at the bottom of their surface. The light illuminates the ground around the front doors for convenient entry and exit.

SUNROOF
Most Chevy Suburban models can be equipped with an available sunroof. With just the push of a button, the glass panel can be opened, closed or set to a vent position. A retractable interior shade is also included as part of the sunroof.

EXTENDED FLOOR CONSOLE
When you order available front bucket seats, you also get an extended floor console. It features a storage area, a map pocket, two front cup holders and a coin holder — all within easy reach.

FRONT BUCKET SEATS
Suburban LS can be equipped with stylish available front bucket seats with either Custom Cloth or Custom Leather seating surfaces (shown).

SIT BACK. ENJOY THE DRIVE.
Head north on the highway. Take the last exit. Go down the first dirt path. Make a left on the road less traveled. That’s where the real fun begins and where Suburban Z71 4x4 is truly at home — thanks to these select features:

■ Z71 Off-Road suspension.
■ Rear locking differential.
■ High-capacity air cleaner.
■ Skid plates.
■ Body-color grille, hood, doors, handles and mirrors.
■ Specially designed bumper guard with rear roller.
■ 17-inch wheels and tires.
■ Tubular assist steps.
■ Wheel flares with extensions.
■ Rounded foglamps.
■ Dark Gray rocker moldings.
■ One-year OnStar Safe & Sound Package standard.*
■ New available brush guard.
■ Available heated front bucket seats.

*Call 1-800-ONSTAR-7 or visit onstar.com for system information and details.

Suburban Z71 is under the hood of success. NEW Z71 BRUSH GUARD An available new brush guard exclusive to Suburban Z71 covers the front grille and adds a distinctive and practical accent to your sport utility vehicle. Interim availability.

Z71 LUGGAGE RACK Suburban Z71 features a luggage rack that includes a roller at the back of its design. This feature helps you slide items like a large canoe into place with more ease.
REAR-DOOR CHOICES

Suburban is still the only vehicle in its class to offer a choice of either rear cargo doors or available liftgate/liftglass.* The liftgate is constructed of lightweight aluminum, so it’s easy to lift. The liftgate lets you open it up quickly to toss in small items.

*Cargo Security Shade and Cargo Net

An available Cargo Package includes a retractable security shade, cargo net, cargo mat and luggage rack crossrails. The shade keeps belongings in the cargo area out of sight, while the net helps keep items like groceries from moving when you are driving.

SPARE TIRE LOCATION

The spare tire in Chevy Suburban is mounted to the underside of the vehicle to provide extra cargo room.

NEW ELECTRONIC ADJUSTABLE PEDALS

This new feature is available in the Driver Convenience Package and enables drivers of various heights to adjust pedal height forward and rearward. The vehicle must be in Park to use this feature.

THIRD-ROW CONVENIENCE

For extra cargo capacity, the third-row bench seat can be folded down. Ripped forward and stowed.

THIRD-ROW ACCESSIBILITY

Because the right passenger side of the 60/40 split-folding bench seat is placed on a sliding entry track, the seat can be pushed forward. This results in easy access to the third-row seat.

Versatility

DEFINING ADAPTABILITY.

With a family, you need to be versatile if you want to keep up. That’s where Suburban comes in. With about 134 cu. ft. of cargo volume,* you can haul a lot of lumber or landscaping supplies. Or, when you need to pick up your teenagers and their friends after a concert, Suburban’s standard nine-passenger seating will make sure everyone has a great seat. Of course, for those in-between days, a second-row 60/40 split-folding bench seat is standard. Bottom line? There are no typical days. Good thing Suburban is ready to change when you are.

*When the second-row seat is folded forward and third-row seat is removed.
The Vortec engines that drive every Chevy Suburban have the power you need to take on snow, mud, gravel or city streets with confidence. An available Vortec 8100 V8 is in three-quarter-ton models. But every powerplant is built to last and designed to earn the V8 engine Ford. And at your option, the Vortec 6000 V8 engine standard in three-quarter-ton models and the Vortec 5300 V8 engine standard in half-ton models are more than capable of carrying on the Chevy Truck tradition of power. Vortec engines. The driving force behind Chevy Suburban.

*Based on 2002 model year competitive information. Excludes other GM vehicles.

**Vortec Power**

LIKE A FORCE OF NATURE.
Over the years, Suburban has earned a reputation for its towing capability. While Vortec engines deserve much of the credit, there’s a lot more to the story. Here are a few features that prove when it comes to towing, hauling and maneuverability, Suburban won’t rest on its laurels.

■ New QUADRASTEER® four-wheel steering system available on three-quarter-ton models with the Vortec 6000 V8 SFI engine.

■ Three-quarter-ton models with the standard Vortec 6000 V8 SFI engine have a GCWR† of up to 16,000 lbs.

■ Three-quarter-ton models with the available Vortec 8100 V8 SFI engine have a GCWR† of up to 19,000 lbs.

■ Half-ton models with the standard Vortec 5300 V8 SFI engine have a GCWR† of up to 14,000 lbs.

■ Standard Tow/Haul mode on all models (see page 26 for more details).

■ Available Autoride suspension on most models.

Gross Combination Weight Rating (GCWR) is the total allowable weight of the completely loaded vehicle and trailer.

Over the years, Suburban has earned a reputation for its towing capability. While Vortec engines deserve much of the credit, there’s a lot more to the story. Here are a few features that prove when it comes to towing, hauling and maneuverability, Suburban won’t rest on its laurels.

■ New QUADRASTEER® four-wheel steering system available on three-quarter-ton models with the Vortec 6000 V8 SFI engine.

■ Three-quarter-ton models with the standard Vortec 6000 V8 SFI engine have a GCWR† of up to 16,000 lbs.

■ Three-quarter-ton models with the available Vortec 8100 V8 SFI engine have a GCWR† of up to 19,000 lbs.

■ Half-ton models with the standard Vortec 5300 V8 SFI engine have a GCWR† of up to 14,000 lbs.

■ Standard Tow/Haul mode on all models (see page 26 for more details).

■ Available Autoride suspension on most models.

Gross Combination Weight Rating (GCWR) is the total allowable weight of the completely loaded vehicle and trailer.
Indicates the strength of the engine. Low-end torque reflects how much work the engine does at a certain engine speed. At low to mid engine rpm, it's what gets you to a certain speed and how well the engine accelerates from that speed.

The Gross Combination Weight Rating is the total allowable weight of the completely loaded vehicle and trailer. The gross weight of the vehicle is the weight of the vehicle and all occupants, luggage, cargo and supports. The gross weight of the trailer is the maximum combined weight of all components that make up the trailer. Both must add up to equal the Gross Vehicle Weight Rating (GVWR). These ratings can be found on the certification label at the top of the truck door. The chart on this page will assist in determining how to best tow both the trailer and the load that will be towed. Ask your Chevrolet dealer for advice about the proper towing equipment for your vehicle.

Maximum Trailering Package and Autoride Suspension Package.

The available Autoride suspension* automatically adjusts ride stiffness and shock damping to optimize the ride and stabilize the vehicle. (Available with all wheel drive only.)

New Power Camper Mirrors Available on three-quarter-ton models, these new heated mirrors feature a 60-square-inch surface and are designed to telescope in and out to a vehicle width of 106 inches, allowing for an enhanced rear view.

QUADRASTEER is only available on three-quarter-ton model and in conjunction with several other available features: Vortec 6000 V8 SFI engine; liftgate with lift and fold-down feature; V8 Vortec 5300 V8 SFI engine; Quadrajet four-barrel carburetor; V8 Vortec 8100 V8 SFI engine; Heavy-Duty Trailering Package and Autoride Suspension Package. 2500 models include Trailering Assist System. Not available with power sport or Snow Plow Prep Package. The QuadraSteer option will reduce the minimum trailer weight rating by 300 lbs.

With available QUADRASTEER by Delphi, Suburban has a best-in-class turning diameter of 36.5 feet.* It's like having an extra-large sport utility vehicle. See below left for details on the availability of QUADRASTEER.

*Based on 2002 competitive information. Excludes other GM vehicles.

TRAILERING FEATURES

Horsepower:

Indicates how much work the engine does at a certain engine speed. At mid to high engine rpm, it's what keeps you moving at highway speeds.

Higher rear axle ratios, however, sacrifice fuel economy when not trailering.

Heavy-Duty Trailering Package is the only allowable weight of the completely loaded vehicle and trailer. Appointment package with a weight-carrying hitch and the trailer at the maximum GCWR should be able to accelerate and make it to the highway without exceeding the Gross Combination Weight Rating (GCWR). The charts on this page will assist in determining how to best tow both the trailer and the load that will be towed. Ask your Chevrolet dealer for advice about the proper towing equipment for your vehicle.

Towing a trailer involves all major vehicle systems of your Chevy Truck, including engines, transmissions, cooling systems, suspension systems, air conditioning systems, and tire pressures. If you have to make any holes in the body of your vehicle to install a trailer hitch, have your dealer use the proper equipment.

Ball Hitch Trailering: There are two types of ball hitch. A weight-carrying hitch is designed to distribute the hitch weight forward onto the tow vehicle's front axle and rearward onto the trailer's axle(s). A weight-carrying hitch is used primarily for lightweight trailers. Heavier trailers, however, require a weight-distributing hitch, which may be too heavy to be towed with one of the same weight rating. For weight-carrying hitches, use a hitch ball with a weight rating at least 10% over the total hitch weight forward the tow vehicle front axle and equal to the trailer's weight rating.

HITCH AND ADJUSTMENTS: Adjust your ball hitch weight-carrying equipment to a weight rating equal to the total weight forward of the tow vehicle's front axle. Have your dealer adjust your weight-distributing hitch to a weight rating equal to the total weight forward of your tow vehicle's front axle and equal to the trailer's weight rating.

TRAILERING CAUTIONS

NOTE: Please read the following cautions before you tow your vehicle.

NOTE: Never use a tow hitch that is too new to tow safely. Inexperienced drivers may not be able to apply the correct force to the brake pedal. Never attempt to tow unless you understand the operational procedures of your tow vehicle.

NOTE: A properly equipped tow vehicle and trailer can safely pull a maximum trailer weight rating.

NOTE: If your trailer weighs more than 2,000 lbs. loaded, then it must have a trailer brake system, a port that sends fluid to the rear brakes. Don't use copper tubing, because it will freeze and crack during cold weather.

The vehicle owner is responsible for obtaining the hitch ball, a hitch of the proper length and diameter, and for connecting it properly to your vehicle and trailer. The towing vehicle is responsible for towing the total weight of the tow vehicle and trailer. You and your passengers could be seriously injured. Pull a trailer only after you have taken the following steps.

1. Have a qualified individual make the brake fluid tap at the master cylinder and flush it with DOT 3 brake fluid.
2. Pull a trailer only on a towed road. Don't use your vehicle's brakes to stop the trailer. Use the trailer brake application to start decelerations. This will greatly reduce the chance of brake fade and brake failure.
3. If you have a vehicle's brake system will use the trailer brake system, inspect your vehicle's brake system for any damage and repair it before driving with a trailer. Have your dealer check your vehicle's brake system.
4. If you have a vehicle's brake system will use the trailer brake system, inspect your vehicle's brake system for any damage and repair it before driving with a trailer. Have your dealer check your vehicle's brake system.
**SUSPENSION CHOICES**

- **Premium Ride** — helps maintain the rear suspension at an even level with the front when trailering. Standard on half-ton models, except Z71.
- **Z71** — designed for driving on off-road terrain. Standard on Chevy Suburban Z71 4x4.
- **Firm Ride** — provides a taut feel of the road with its multileaf rear spring suspension. Standard on three-quarter-ton models.
- **Autoride** — automatically controls the amount of shock damping to optimize your ride and includes air-assisted rear load-leveling. Available on LT and required on three-quarter-ton LS and LT models with the Vortec 8100 V8 SFI engine or QUADRASTEER.

**NEW STABILITRAK STABILITY ENHANCEMENT SYSTEM**

Available as standard on LT and LTZ models, StabiliTrak is a stability enhancement system that uses multiple sensors to continuously gather information about a vehicle's steering wheel angle, lateral acceleration and yaw. If it detects that the vehicle is not responding adequately to steering input, StabiliTrak applies a quick, precise force to the appropriate brake to help bring the vehicle back on track. Not available on Z71 and models equipped with the available locking rear differential. For more information on StabiliTrak, please visit chevy.com.

**TOW/Haul MODE**

Tow/Haul mode, when activated, enhances trailering by changing the automatic transmission shift schedule when you’re transporting heavy loads.

**HYDROFORMED FRAME RAILS**

The front frame rails in Suburban half-ton and three-quarter-ton models — and the rear rails in half-ton models — are made of hydroformed steel. Hydroforming optimizes stretching of the steel during the manufacturing process, which allows the steel to retain more of its strength.

**BETTER BRAKE PERFORMANCE**

The standard four-wheel ABS on all Suburban models has been improved. The brakes provide excellent overall feel and quiet operation. In addition, higher friction front brake linings help provide dependable braking force.

**GM TIRE SAFETY**

GM developed an extensive tire testing program known as Tire Performance Criteria (TPC) more than 25 years ago. TPC helps ensure that the tires GM uses are matched to that type of vehicle and have undergone a series of tests at its Tire and Wheel Laboratory (located at GM’s Milford Proving Ground). GM also routinely meets with tire companies to verify the performance of tires used on all its products. Please visit gm.com for more information.

**BATTERY-RUNDOWN PROTECTION**

Battery-rundown protection automatically turns off your dome, reading and glovebox lamps 20 minutes after the ignition has been turned off.
When it comes to family travel, it’s better to be on the safe side. That’s why Suburban was designed to give you peace of mind, and can be equipped with the following features. See chevy.com for more details.

- Driver and right-front passenger dual-level air bags.
- New Passenger Sensing System for the right front-passenger front air bag.*
- Available driver and right-front passenger side-impact air bags.*
- Four-wheel antilock disc brakes.
- Autotrac 4x4 system on four-wheel-drive models only.
- PASSlock II and Remote Keyless Entry.
- Available one-year OnStar Safe & Sound Package.†

* A NOTE ON CHILD SAFETY: Always use safety belts and proper child restraints, even with air bags. Even with the Passenger Sensing System, children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See the Owner’s Manual and child safety seat instructions for more safety information.

† Standard on Suburban Z71, included with the available Personal Security Package on LT and available on Suburban LS. Call 1-800-ONSTAR-7 or visit onstar.com for system information and details.

NEW POWER-FOLDING HEATED MIRRORS ★

New power-folding heated mirrors are standard on LT and Z71 models and feature power tilt glass, driver-side electrochromic glass, ground illumination lamps and built-in turn signals. These mirrors are especially convenient in tight parking situations, as they can be folded in easily with just the touch of a button.

NEW PASSenger SENSING SYSTEM ★

The right front passenger front air bag includes an passenger Sensing System. The system is designed to automatically switch the air bag on or off based on a passenger's weight. An indicator on the inside rearview mirror monitors system status.

NEW STABILITRAK ★

StabiliTrak, available on Suburban LS and LT half-ton models, is a stability enhancement system that monitors vehicle dynamics continuously at any speed, on any surface. If it detects the vehicle is not responding adequately to steering input, StabiliTrak applies a quick, precise force to the appropriate brake to help bring the vehicle back on track. Not available on Suburban Z71 and models equipped with available locking rear differential.
You might think that since Suburban is such a well-equipped Chevy Truck, there’s not much you could do to take its functionality up a notch. But that’s just what available GM Accessories are designed for. These dealer-installed features let you personalize Suburban and have the added advantage of being covered under the GM New Vehicle Limited Warranty. For more information, please call toll free 866-901-9001.

See your Chevrolet dealer for details of this limited warranty.

**GM Accessories**

**TAKE IT TO A HIGHER LEVEL.**

For more information, please call toll free 866-901-9001.

*See your Chevrolet dealer for details of this limited warranty.*

**HARD CARGO CARRIER**

This available lockable plastic carrier is the ideal place to store and protect your cargo. There are both short and long hard cargo carriers. A factory roof rack and available GM Accessories utility bars are required.

**CARGO ORGANIZER**

An available cargo organizer features an adjustable dual-divider system for securing items ranging from outdoor gear to groceries and sporting equipment.
Chevy Trucks are the most dependable, long-lasting trucks on the road — sold and serviced by the largest dealer network in the USA. When you buy a Chevy Truck, you also get a rock-solid, comprehensive owner protection plan that includes a New Vehicle Limited Warranty. 24-Hour Roadside Assistance and Courtesy Transportation. Your Chevrolet dealer has all the details.

Chevrolet Owners Center

**S** – Standard  **O** – Optional

1 Half-ton 4x4 only  2 Always use safety belts and proper child restraints, even with air bags. Even with the Passenger Sensing System, children are safer when properly secured in a rear seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active air bag. See the Owner’s Manual for more safety information.  3 Included when Personal Security Package is ordered.  4 Included when sunroof or Entertainment System is ordered.  5 One-year OnStar® Safe & Sound Package is standard on Suburban Z71® included in the available Personal Security Package on LT and available on LS. OnStar services require vehicle electrical system and wireless service to be available and operating for features to function properly. Call 1-888-ONSTAR-7 or visit onstar.com for system information and details.  6 Included when OnStar or Driver Convenience Package is ordered.  7 Included when Driver Convenience Package or Personal Security Package is ordered.  8 RDS functions only where stations broadcast RDS information.  9 Availability limited to the 48 contiguous United States.
