300C JOHN VARVATOS LIMITED EDITION
THE RUNWAY ROCK STAR

BACKSTAGE PASS. You’ll see it throughout this fashion designer’s exclusive automotive collaboration: studded and stitched accents and accessories, textured metals and a palette that’s pure rock-and-roll. You’ll see it in the dash clock, inherited from a Varvatos wristwatch, and in the zipper design of the custom 20-inch wheels. It’s the downtown black leather pulsar that’s right at home uptown. The 300C John Varvatos Limited Edition is infused with the kind of bare-knuckled design that sets the Varvatos label apart from seats embroidered with the icons of his logo to the hue of the wheels and badges of the 300 itself. It’s a manifestation of the downtown-black leather jacket that’s right at home uptown. It’s a car that stands ready to roll out a soundtrack that’s one of a kind.

FASHION STATEMENT. The custom Varvatos Limited Edition boasts a Phantom Black exterior with a unique fascia, pronounced chin spoiler, larger intakes and 20-inch Titanium-finished wheels. The interior unveils Black leather-wrapped doors, instrument panel, console lid and side panels, as well as a Black steering wheel with 360˚ accent ring. The Varvatos seats are custom-trimmed in Black Pewter Metallic leather with diesel-gray stitching to complement the Black and Charcoal hydrographic wood console and Titanium finishes throughout the cabin.

SOME STATEMENTS ARE MADE; OTHERS ARE BUILT. The 300C John Varvatos Luxury Edition takes the 300C and adds a custom fashion-minded package. Influenced by the Varvatos Limited features, this model incorporates Poltrona Frau Foligno leather on the door uppers, instrument panel, cluster brace and center console side panels. Premium perforated Nappa leather-trimmed interior is available in Black or Black/Dark Mocha with Satin Chrome finishes and Varvatos badging embossed on the front seats. Platinum Chrome adorns the 300C and Varvatos signature badges, as well as the mesh grille and surround, door handles, mirrors and front/rear fascia accents — all bringing distinctive luster to this edition’s exterior. 20-inch aluminum wheels with polished face and Tech Silver pockets top off this style machine with couture personality. The steering wheel-mounted paddle shifters, Sport mode touring suspension and optional 5.7L HEMI® V8 engine with Fuel Saver Technology anchor the power and performance.
The 300C John Varvatos Limited Edition is infused with the kind of bare-knuckled design that sets the Varvatos label apart: from seats embossed with the icons of his logo to the hue of the wheels and badges of the 300 itself, it’s a manifestation of his own blend. One part Detroit. A confident dose of New York. It’s a car that stands ready to roll out a soundtrack that’s one of a kind.

SOMETHING WELL-CRAFTED CAN STAND A TEST MUCH GREATER THAN TIME.
SOME OF THE GREATEST SOUNDTRACKS COME THROUGH LOUD AND CLEAR IN PERFECT SILENCE.
CHARACTER BUILDING. There’s a reason why the Chrysler 300 is one of the most accessorized vehicles in the industry. It’s not because the classic and recognizable shape, size and content lack character. It’s because they have just the right amount to make 300 the solid signature piece that its drivers can stake their claim in. Like that key design element in your home that says something about you in a grand way but you’re able to subtly or not so subtly enhance its looks and usability to suit your taste. To make it yours. This is what the 300 Collection is about. Our designers have taken style and performance notes from our greatest enthusiasts and put them to the gorgeous Chrysler 300 canvas to help portray and build the character within you.

WORLD-CLASS ARCHITECTURE AND DESIGN. Every 300 model’s exterior boasts a prominent square-shouldered fascia, raked-back windshield, low roof with angular body and integrated rear spoiler to enhance the aerodynamics. The laminated acoustic windshield and front door glass, body-silencing foam, fiber-acoustic wheel liners and two full-length acoustic underbody closers work to silence road noise, making each 300 a private haven of quiet comfort. The interiors provide exceptional comfort and style with standard leather seating surfaces, a leather-wrapped steering wheel, heated front seats and premium hydrographic wood trim for a classic interior finish.

THE BASE. The 300 lineup starter’s iconic style is equipped with advanced technology and powerful mechanics, beginning with a standard 3.6L Pentastar® V6 engine with 8-speed transmission. A four-wheel independent suspension and antilock brakes with all-speed traction control execute precision to 17-inch Tech Silver aluminum wheels. The power heated body-color exterior mirrors, bi-function halogen-projector headlamps and dual chrome exhaust tips complement its form. The 8.4-inch touch-screen radio with Voice Command, auto-dimming rearview mirror, Nappa leather-trimmed seats, heated front seats, 12-way power driver’s seat and leather-wrapped steering wheel and shift knob introduce a new level of base trim.

FROM QUIET STRENGTH THAT NEVER TIRES OF SILENCE TO RESILIENCE, WITH INSPIRATION COMES OUR POWER TO GO FORWARD.
from quiet strength to resilience, with inspiration comes our power to go forward.

300C is the state of elegance.

Brilliance in the form of leather. The detailed attention builds with ultrasoft leather offerings on the seating surfaces made of 100 percent Nappa perforated leather, standard heated rear seats and ventilated front seats. The combination of real wood interior accents and Satin Chrome finishes, class-exclusive1 auto dual illuminated heated and cooled* front cup holders, LED lighting throughout the cabin, a real wood and leather-wrapped heated steering wheel, as well as bright chrome exterior accents begin to define 300C as the most luxurious vehicle in its class.1

300C is the most technologically advanced vehicle in its class.1 The luxury-line marker includes everything on 300, plus Garmin® Navigation, SiriusXM Traffic,2 SiriusXM Travel Link,3 a rear power sunshade, a memory feature that stores settings for two, including driver’s seat position, power adjustable pedals, exterior mirrors, tilt/telescoping steering column and radio settings for transition ease and premium comfort. Six premium speakers with 276-watt amplifier, universal garage door opener, ParkView® Rear Backup Camera4 and a security alarm continue the high-end appointments. The available Blind Spot Monitoring5 and Rear Cross Path Detection,4 ParkSense® Front and Rear Park Assist,4 Adaptive Cruise Control6 and Forward Collision Warning7 take advanced technology in this model to the next level. Available in RWD and AWD, 300C also offers the 5.7L HEMI® V8 with Fuel Saver Technology.

Always comfortable. Always convenient. These features, considered truly luxurious and reserved for the highest trim level, are standard on 300C. They include a standard humidity sensor with Automatic Temperature Control (ATC) that enables an auto-defog capability, essentially eliminating the need for setting defog functions. The standard Remote Start system operates from as far as 300 feet, allowing the vehicle to start via fob activation and, when programmed, activates the climate control and the standard heated/ventilated front seats and heated steering wheel. Additional conveniences include remote proximity entry and Keyless Enter ‘N Go,TM as well as the interior switch for the capless fuel-filler door.

*A note about this brochure: All disclaimers and disclosures can be found in the back of this brochure.
THE LARGEST AVAILABLE PANORAMIC SUNROOF IN ITS CLASS. An optional panoramic dual-pane sunroof system covers more than 70 percent of the 300’s roof area. It includes power lift, and index-sliding and express-open features. An interior shade matches the headliner in both color and material. The system is actuated via switches in the overhead console.

REAR POWER SUNSHADE. Innovative luxury convenience features like the power rear backlight sunshade. This feature effectively diffuses light for rear-seat occupants, especially for those in child seats, and incorporates an anti-pinch technology that stops actuation when an object is detected in its path.
Burning brightly, the road of destiny awaits.
WITH A SINGLE LOOK, YOU’LL KNOW WHAT WE STAND FOR.
THE SHOWSTOPPER

For as cool as it is, the 300S sizzles. Nothing describes first impressions better than the simple but never subtle “hot” when it rolls up, even in the new Dark Ceramic Gray* exterior. The urban-legend style gets decked from the inside with sleek Nappa leather-trimmed seats. And with the only trim level that outputs 300 horsepower with its V6, you’ll consider whether the unique embroidered “S” seat logo and badging stand for “style,” “sport,” or “sexy.” Only you can decide, and it will usually depend on the night. According to its drivers, it’s all of that.

300S

The trim level’s standard dual-exhaust system brings 300 horsepower to its Pentastar® V6 engine with 8-speed transmission, or choose the HEMI® V8 engine with 6-speed power for a muscle-bound 363 horsepower. Distinctive features outside and in include the Beats Audio™ 10-speaker sound system, ParkView® Rear Back-Up Camera™ and universal garage door opener. A stand-alone exterior treatment adds a monochromatic edge with Black headlamp and fog lamp bezels, chrome surround grille with Black chrome horizontal bars, liquid chrome Chrysler wing badge with Black center and 20-inch aluminum wheels with polished face and Black pockets. The 300S is outfitted in uniquely branded performance leather-trimmed sport bucket seats and lacquered Piano Black and Matte Fiber hydro accents. The heated seats and interior trim add detailing specifics to 12-way power driver and passenger seats. Steering wheel mounted paddle shifters are available in rear-wheel- and all-wheel-drive V6 and V8 models with All-Season Performance tires.

*Late availability.
STAND OUT. For as cool as it is, the 300S sizzles. Nothing describes first impressions better than the simple but never subtle “hot” when it rolls up, even in the new Dark Ceramic Gray* exterior. The urban-legend style gets decked from the inside with sleek Nappa leather-trimmed seats. And with the only trim level that outputs 300 horsepower with its V6, you’ll consider whether the unique embroidered “S” seat logo and badging stand for “style,” “sport” or “sexy.” Only you can decide, and it will usually depend on the night. According to its drivers, it’s all of that.

The trim level’s standard dual-exhaust system brings 300 horsepower to its Pentastar® V6 engine with 8-speed transmission, or choose the HEMI® V8 engine with 5-speed power for a muscle-bound 363 horsepower. Distinctive features outside and in include the Beats Audio® 10-speaker sound system, ParkView® Rear Back-Up Camera4 and universal garage door opener. A stand-alone exterior treatment adds a monochromatic edge with Black headlamp and fog lamp bezels, chrome surround grille with Black chrome horizontal bars, liquid chrome Chrysler wing badge with Black center and 20-inch aluminum wheels with polished face and Black pockets. The 300S is outfitted in uniquely branded performance leather-trimmed sport bucket seats and lacquered Piano Black and Matte Fiber hydro accents. The heated seats and interior trim add detailing specifics to 12-way power driver and passenger seats. Steering wheel-mounted paddle shifters are available in rear-wheel- and all-wheel-drive V6 and V8 models with All-Season Performance tires.

IT IS A HORSE THAT RUNS
WITH UNBRIDLED AMBITION
AND WIDE-OPEN CONFIDENCE.
HERE'S TO THOSE WHO KNOW WHERE THEY'RE GOING BUT HAVEN'T FORGOTTEN WHERE THEY'RE FROM.
THE MOST ADVANCED AVAILABLE ALL-WHEEL-DRIVE SYSTEM IN ITS CLASS. The intelligent all-wheel-drive system automatically engages when wheel slip is detected to regain traction with changing road conditions or when the driver turns off the Electronic Stability Control (ESC) system, the steering-wheel paddle shifters are in use or the optional 5.7L HEMI® V8 5-speed transmission AutoStick is engaged.

300S shown in Dark Ceramic Gray* with optional Black roof.

*Late availability.
IF THERE’S A SINGLE TRUTH TO
CONFIDENCE,
IT SPRINGS FROM
THE INSIDE OUT.

300S shown in Radar Red Nappa leather-trimmed sport bucket seats with the Beats™ by Dr. Dre premium audio system.
STRAIGHT FROM THE BOOK ON STREET AND RACING TECHNOLOGY
The luxury and performance flagship is track-ready with a 6.4-liter SRT® HEMI® V8 engine with Fuel Saver Technology. It delivers an impressive 470 horsepower and 470 lb-ft of torque while the available Adaptive Damping Suspension (ADS) yields a responsive, bolstered ride and handling. Manually operated Auto, Sport and Track modes rapidly change the performance characteristics from normal input from the road and driver to aggressively tuned shifting and response. Exclusive SRT Performance Pages, displayed on the Uconnect® 8.4-inch touch screen, provide data like horsepower, torque and 0-60 and 1/4-mile times, along with expanded engine information.

A SHIFT IN PRECISION. The interior personality adds available real Carbon Fiber and Piano Black bezels with bolstered performance seats trimmed in Black cloth on 300 SRT Core and available in Black, Radar Red Nappa leather trim or Premium Laguna leather trim on 300 SRT Premium. Available premium leather trim fills in the low trees on Premium with supple and sturdy Nappa and Poltrona Frau Foligno leathers on the doors, armrests, center console, side panels, cluster brise and instrument panel. The SRT available leather heated steering wheel includes mounted paddle shifters for transmission commands, and the available 18-speaker 900-watt Harman Kardon® Audio Group makes 300 SRT the front-runner of this performance pack.

MADE TO FLAUNT. The exterior distinction rears its tough side with Black headlamp bezels and Gloss Black grille with Bright surround. Pavement power takes its turn with 20-inch five-spoke cast aluminum wheels with Black pockets on Core and seven-spoke forged aluminum wheels on Premium. An available Black Vapor Chrome Package steams up 300 SRT Premium’s character with unique 20-inch Black Vapor Chrome wheels and a Gloss Black grille with Black Chrome surround. Taking a chapter on burning rubber, air dams are incorporated into the lowered front fascia along with sport-performing side sill cladding and a rear fascia that sits a half-inch lower with divided spoiler. GOTHAM BLACK GRILLE.

Nothing makes a style statement as boldly or brightly as this Chrysler winged grille.

20-INCH GLOSS BLACK WHEELS.

These custom wheels are machined to match your 300’s exact specifications, and are designed to deliver a smooth and balanced ride. They also undergo thorough testing to prove their durability and long-lasting shine.

Brakes to avoid collisions. (8) No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance dynamics to avoid a collision, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use brakes to avoid collisions. (7) FCW system is solely an alert system for the front of the vehicle which does not take any actions to change vehicle behavior.

(6) Blind Spot Monitoring (BSM) system is a driver aid designed to detect vehicles in the blind spot and alert the driver when a turn signal has been activated. Not all vehicles or devices are capable of receiving all Travel Link services offered by SiriusXM; Weather Forecast, Current Conditions may not be available in all locations; and features of individual packages may vary by package selection. SiriusXM services require subscriptions, sold separately after the 12-month trial included with the new vehicle purchase. All fees and programming subject to change. SiriusXM is not responsible for any errors or inaccuracies in the SiriusXM Travel Link services or their use. Our satellite service is available only to those at least 18 and older in the 48 contiguous USA and D.C. Our Sirius satellite service is also available in P.R. (with coverage limitations). Our Internet radio service is available throughout our satellite service area and in AK and HI. (4) Always look before proceeding. An electronic in-vehicle router receives broadband Internet, allowing passengers to surf the Web, social-network, look up directions, check email, play online games or download music. Works with WiFi enabled devices, requires an available WiFi signal and WiFi enabled device. Use of this service may be limited by device, plan or terms and conditions. (5) SiriusXM Travel Link is a subscription service provided by SiriusXM. Visit siriusxm.com/creative for complete terms at siriusxm.com. All fees and programming subject to change. THE 8.4-INCH INTERACTIVE UCONNECT® SYSTEM. STANDARDS ON ALL MODELS. HAS THE LARGEST TOUCH SCREEN IN ITS CLASS.1

ENTERTAINMENT. Manage all your media with multiple ways to access audio, including Bluetooth® Streaming Audio, Pandora, voice-activated radio, satellite radio, SD card and USB, as well as compatible multimedia devices with SIRIUSXM® Satellite Radio (one year of service included).

AVONET: Uconnect Phone is the in-vehicle, voice-activated communication system that allows you to pair up to 10 Bluetooth®-compatible phones and then talk virtually hands-free. This system is also clever enough to synchronize with your phone contacts — up to 1,000 entries.

VOICE COMMAND. It simplifies driving by letting you keep your eyes on the road and your hands on the wheel. Use your voice to select AM/FM radio stations and SiriusXM Satellite Radio channels, and make calls.

WEB. Put the power of high-speed Internet in your vehicle with Mopar.300.com, making your vehicle a mobile hotspot. Passengers can use multiple devices at the same time. There’s no need for cell cards or software with this Audiophile Chrysler Accessory by Mopar. It’s all wireless. Subscription required. Sold separately.

NAVIGATION. Provides turn-by-turn voice guidance and visual display. It features the Garmin®-intuitive user interface, bringing the Garmin® handheld experience to a factory-in-dash radio. With SIRIUSXM Traffic300.com, you’ll get detailed information on traffic flow, construction and road closures.

SIRIUSXM TRAVEL LINK. Brings national weather forecasts, fuel prices for local gas stations, in-game and final sports scores, weekly movie theater listings, and local or distant viewing for the highways, including a SiriusXM® Travel Link package.

SIRIUSXM ALL ACCESS PACKAGE. All satellite radio-equipped vehicles come with a one-year trial to the Sirius All Access package, providing over 150 channels of the best programming for all the places life takes you. In your vehicle — you’ll get every channel available on your radio, including all the premium programming like Howard Stern, every NFL game, DirecTV, National Geographic Channel and more. On the go — with a SiriusXM Internet Radio subscription included with the All Access trial, you’ll get SiriusXM on your computer, smartphone, or tablet.

Visit www.siriusxm.com/getallaccess for details.

ELECTRONIC VEHICLE INFORMATION CENTER (EVIC). The driver-instrument panel display in the instrument cluster incorporates the technology of a Thin Film Transistor Liquid Crystal Display (TFT-LCD) for improved image, contrast and quality. The system allows you to select and read vehicle information, including speed, fuel level, and more, in clear contrast against the background.
Chrysler 300 Features

Air Bags**
Premium advanced multistage front air bags, supplemental front-thorax-side air bags, driver’s inflatorless knee- blocker air bag, and supplemental side-curtain air bags for front and rear outboard occupants are all standard.

Improved Crush Zones
Designed to divert and dissipate impact energy away from the passenger compartment, this improved structure helps minimize injuries in the event of an accident.

Reactive Head Restraints**
This latest technology helps provide first-rate protection. The front driver and passenger reactive head restraints automatically move forward and upward in the event of a rear-end collision. They decrease the space between the head restraint and the occupant’s head, which helps provide protection.

Adaptive Forward Lighting (AFL)**
This available system automatically adjusts headlamp direction for improved nighttime driving visibility. It computes your vehicle speed and steering wheel angle to determine headlamp projection from straight ahead to 8° inward or 18° outward. For better visibility on sloping paths, the AFL system incorporates an automatic leveling feature which aligns the headlamps to your vehicle-to-road pitch. Bi-Xenon High Intensity Discharge (HID) headlamps appear as a bright white beam, providing approximately three times the light output of traditional headlamps, resulting in clearer forward vision.

ParkView® Rear Back-Up Camera**
When reversing at low speeds, ParkView provides a wide-angle view of the area immediately behind the vehicle on the Uconnect® 8.4-inch touch screen. It also displays grid lines when maneuvering into parking spaces. Available.

ParkSense® Front-And-Rear Park Assist**
When in Reverse or driving forward at low speeds, sensors detect the presence of objects up to approximately 5.9 feet in front of the vehicle and 6.5 feet from the rear, and provide both audible and visual warnings in the Electronic Vehicle Information Center (EVIC). Available.

Blind Spot Monitoring (BSM)**
This available system uses radar sensors to aid the driver when changing lanes or being passed by unseen vehicles. The system notifies the driver of a vehicle in the blind spot via illuminated icons on the sideview mirror and selectable audible warning. Available.

Rear Cross-Path Detection (RCP)**
The Blind Spot Monitoring system also includes RCP which monitors for vehicle/objects in perpendicular relationships to the vehicle when maneuvering backward in parking lots. Available.

Adaptive Cruise Control (ACC)** And Forward Collision Warning (FCW)**
This available system uses a radar sensor mounted at the front of the 300 to detect objects in its path. If the sensor ahead is clear, the cruise control speed you set will maintain. When slower traffic is detected, ACC automatically adjusts your speed to allow a safe distance between you and the vehicle in front of you. FCW provides an audible warning if the driver is approaching an object too fast. Helping the driver determine what action must be taken to prevent a collision.
