1972 Chrysler Plymouth gives you more ways to go.
1972 Chrysler-Plymouth... Coming Through with the kind of car America wants.

Our Commitment.
Our commitment to you is to design, engineer and build a car with quality. To give you honest value at an honest price. That is our goal. It's a no-nonsense commitment that can make a lot of sense when you buy your next car.

We try to give our buyers a car that fits them where they want to be in all types of weather and in all kinds of traffic.

People expect value when they invest in a new car—and that's what we expect to deliver.

Built better to last longer.
Every 1972 Chrysler and Plymouth is built with improved quality control techniques. "Quality first" is the guide from start to finish. Our quality control standards extend to such things as our dip-and-spray rust protection process. Every one of our cars goes through this process. Then there's our liftized construction. Every car we produce has it. A welded body is intended to provide you with a strong, quiet ride. A further example of our engineering excellence is our famed Torsion-Quiet Ride. This total ride package gives our 1972 Chryslers and Furgys the comfort, handling and stability you want.

Other features and options.
Besides the new optional Electronic Ignition System and the 400 V-8, there is much more that is new for Chrysler-Plymouth. Here is a partial listing. A convenient, reusable, two-quart capacity litter bag is standard on all models. A Chrysler-built optional AM radio with a solid, stainless steel radio antenna. Increased availability of optional sun roofs. A wider rear track on Chryslers and Furgys.

The kind of car America wants.

Plymouth Cricket

Cricket

Plymouth comes through with the little car that can. You can, too. Have more fun... get good economy... and have features you look for in a mini-sized car. For example, Cricket has four doors, with childguard locks on the rear doors. Front and rear, there's enough head, leg, and knee room for four adults. And the trunk holds 14 cu. ft. of what-have-you. Cricket also comes through with power front disc brakes; a 4-cylinder engine; four-on-the-floor, fully-synchronized transmission; Flow-Through ventilation and front bucket seats. Options: new vinyl roof, air conditioning, radio and more.
Duster, Valiant, Scamp

Duster is the big buy in economy cars. Big in front- and rear-seat hip room. Big in that it'll hold five adults rather than four like some other small cars. And with a big standard engine. A 198 Six. With the Duster 340 cu. in. V-8, our new Electronic Ignition System is standard.

Our four-door Valiant has been a pacesetter in the economy field for over ten years now. And it still has the roomy interior, rugged construction, and proven economy.

Our Scamp 2-door hardtop is a masterpiece of Chrysler engineering and styling. It comes with a long list of standard equipment and it's our lowest-priced 2-door hardtop.

*Not available on Scamp in California.
Barracuda & 'Cuda

Plymouth Barracuda

Barracuda 2-Door Hardtop

'Cuda 2-Door Hardtop

Standard Barracuda all-vinyl bucket seats. Available in five colors.
**Sebring-Plus & Road Runner**

Presenting the most luxurious mid-size hardtop we make, Satellite Sebring-Plus. And that plus stands for things like a 318 cu. in. V-8 that runs on regular gas. Bias-belted tires. All-vinyl buckets. And Satellite offers the only 2-door hardtops designed especially to be just 2-door hardtops. For options, how about a canopy or full-vinyl roof? Other available models: Satellite Sebring, Satellite Coupe.

Road Runner is still a leader in the low-price, high-performance field. Standard equipment is the type all Road Runner fanciers appreciate: 400 cu. in. 4-bbl. V-8 engine. Fully-synchronized three-speed manual floor-mounted transmission. Heavy-duty suspension including front and rear sway bar. "Beep-Beep" horn. And a performance hood. Optional GTX engines are also available.
**Satellite**

Big luxury in a mid-size car is yours with the Satellite Custom. Four-door convenience is enhanced by bright wheel lip and windshield moldings. Optional decor includes protective vinyl body side and doorsill moldings. Our lowest-priced four-door Satellite sedan is designed from the ground up to be just a 4-door sedan. A 117 inch wheelbase aids in parking and maneuverability. Yet the interior is spacious enough for six adults to ride comfortably.
Fury Gran Coupe & Gran Sedan
The good life has never looked so good before. And what a beautiful choice you have! It could be the Gran Coupe 2-door hardtop. Or the 2-door formal hardtop. To add even more luxury, order an optional vinyl roof in your choice of five colors. The Gran Sedan is our all-new look in the popular 4-door hardtop style. And like its two-door brothers, it has a vinyl rear bumper appliqué that's scratch and dent resistant... and a vinyl side molding helps defend against accidental door dings. Both are color-keyed in five colors. Just a couple of the ways we've engineered our cars to last and look good longer.
Fury III, II, I

Fury III, our most popular Fury, comes in your choice of four body styles: four-door hardtop, four-door sedan, two-door hardtop and two-door formal hardtop. Every model contains a full measure of Chrysler engineering excellence. Fury II and I are the two most economical ways to go Fury in '72. All three models offer a long list of Chrysler-engineered features as standard equipment: Torsion-Quiet Ride, TorqueFlite automatic transmission, power steering, ventless side glass, keyless door locking, bias-belted tires, an anti-theft ignition system that locks the ignition and steering column when you remove the key, and much more. Options? Dozens of them. From sunroofs to stereos.
Plymouth Wagons

Satellite Regent

Fury Sport Suburban

Fury & Satellite

Big on looks. Big on loads. That’s the ’72 Fury wagons. For load space, you’ve got 104 cubic feet of room. For a solid, quiet ride, you’ve got Torsion Quiet Ride. All models feature a three-way tailgate with hardtop glass and a rear air deflector.

Satellite wagons are mid-size in everything but value. There’s 91 cubic feet of cargo space. Bias-belted tires. Electric windshield washers. Three-way tailgate. And your choice of either a 3-seat or 2-seat Plymouth wagon.

Choose from six models: Sport Suburban, Custom Suburban, Surburban, Satellite Regent, Satellite Custom and Satellite.
Plymouth Options

1. AM Radio. Has a new solid, stainless steel antenna.
2. Rallye Road Wheels. A sporty touch. Set of four.
3. Power Windows. Open and close all windows from the
   driver’s seat.
5. Racing Mirrors. Color-keyed in seven colors plus chrome. Not
   available on Fury.
6. Air Conditioning. Cleans, cools and dehumidifies.
7. Power Front Disc Brakes. For fade-resistant stops.
8. Sun Roof. Power operated to let the sunshine in.
9. Vinyl Roof & Luggage Rack. Two great options—new vinyl roofs for
   Fury and Town & Country wagons. Luggage Rack for all wagons.

1972 Chryslers
—Coming Through
with luxury that lasts

Luxury that lasts is a pretty bold promise. But it’s one
we feel we can through on because we spent a
lot of time designing and engineering the 1972
Chrysler to perform well for a long time. We also
gave your Chrysler new styling—a smooth, clean
shape. And added moldings that not only embellish
but help protect against nicks and scrapes.

We’ve always been proud of our reputation for
engineering. We work at it because there’s a lot
more to big car luxury than status. We believe a
luxury car should get you around in maximum
comfort and luxury. It should give you plenty of
room. Handling must be effortless and precise. And
it should carry a host of standard features. More
than ever, in 1972 Chrysler comes through with the
kind of car America wants.

About the new looks.
New Chrysler styling reflects a smooth look. And
there are new split grilles, inset in rugged loop-type
front bumpers. Taillights have been incorporated
with massive full-width rear bumpers. And body side
moldings that help protect against door dings are
standard.

The “nuts and bolts.”
We did a lot of things you don’t see to make these
72’s better. For example, our Torsion-Quiet Ride.
We changed the front suspension geometry for
more precise steering. There’s a husker new steer-
ning knuckle there, too. About the TorqueFlite auto-
matic transmission. It’s a leader in its field. But we
improved it to make it last longer. There’s a new
overrunning clutch for better gear meshing, quieter
shifting and reduction of transmission overload.
Then there’s our new Electronic Ignition System. It’s
standard on all Imperials and optional* on Chrysler
engines. This system can significantly reduce the
number of tune-ups required—no points or con-
denser—and increase spark plug life when low-lead
fuel is used. Another example of giving you more is
our new micro-cracked chrome plating process.
These are a few of the things we’ve done to make
Chrysler luxury last longer.

* Mandatory option in California.
Newport Custom and Newport Royal

Big is the word for Chrysler in '72. Newport Custom stretches over a 124 inch wheelbase and carries one of the roomiest interiors in its class. Trunk room to spare and a new wider stance—the rear wheels have been moved 1.4 inches wider. It’s one of the little things that add a lot to Chrysler’s low, wide appearance.

Newport Royal is our lowest-priced Chrysler, but it’s all Chrysler. It gives you all the things you’d want in a big car: 400 cubic inch V-8 engine, TorqueFlite automatic transmission, Torsion-Quiet Ride, power steering, power brakes and much more.

Newport Custom standard cloth-and-vinyl bench seat. Available in five colors. Also available in all-vinyl.
New Yorker Brougham and Town & Country

New for '72, New Yorker Brougham is the most luxurious Chrysler. It has a split grille, loop-type front bumper and a double full-length side molding with color-keyed vinyl insert. New Yorker Brougham is available as a 4-door sedan or a 4- or 2-door hardtop. Another available Chrysler model is the New Yorker in the same body styles. Town & Country is the complete wagon. New looks make it so with loop-type front bumper surrounding dual horizontal headlight; new simulated wood-grain appliqué on body sides and new rear wheel opening skirts. Standard features: new 3-way tailgate with hardtop glass, power Auto-Lock and a power tailgate window.

New Yorker Brougham Station Wagon

Town & Country standard all-vinyl bench seat with folding armrest. Available in four colors.

New Yorker Brougham 4-door standard cloth-and-vinyl split-bench seat. Available in five colors. Also available in all-vinyl.
Your choice of comfort and convenience options. Your dealer can give you the latest information. 1. Dual Auto-Temp II. is intended to provide automatic comfort throughout the seasons. 2. Road Wheels. Sport appeal. (Set of four.) 3. Auto-Speed Control. Set your cruising speed and maintain it automatically until you brake or disengage. 4. AM/FM Multi-track Stereo with Cassette Tape. Take along your favorite music or dictate on dealer-installed microphone. 5. Automatic Headlight Dimmer. Dims your lights for oncoming cars then returns them to high beam. (Imperial only.) 6. Rear Window Defogger. Helps improve visibility. 7. Tilt & Telescope Rim-Blow Steering Wheel. Suits your favorite driving position. Squeeze the rim to blow the horn. 8. Premier Wheel Covers. Set of four. 9. Power Seats. Available for driver seat only or both front seats with buckets and 3-in-1 seating.
1972 Chrysler-Plymouth...Coming Through with the kind of car America wants.
