AVENGER

A Fresh New Sport Coupe
Dual Air Bags
Double-Wishbone Suspension
Corner-Hugging Ride
5-Speed Transaxle
Multivalve DOHC Engine
Ergonomic
Masterpiece
Presenting the all-new Dodge Avenger sport coupe. Superbly engineered, it's a street-smart design from the pavement up — with a shape that flows naturally from substance. What it's all about is balance.

Avenger combines an intelligent mixture of contemporary technology that makes it a unique pleasure to drive and own. This is a genuine 2+2, with a "plus" all its own — an emphasis on style, comfort, and roominess.

Be assured that Avenger amply fulfills the traditional requirement of a sport coupe, which is expediting two people (and the occasional two or three others) from Point A to anywhere. Silky finesse over the road is mandatory. As are supportive seating and seductive appointments. A sensual silhouette goes without saying.

And Dodge makes affordable the performance of this nicely blended Avenger.

Driving experiences like the Avenger (and Viper, Intrepid, Neon, and Ram Pickup, to mention others) are an important part of the exciting changes taking place at The New Dodge.

The biggest changes at your Dodge dealer, however, have nothing to do with cars ... and everything to do with you, the customer.

Your perceptions of the dealership will determine whether you become a one-time buyer or a loyal Dodge customer for life. That's why we created Customer One, an ongoing training initiative that has already reached more than 100,000 factory, field and dealership personnel throughout the country.

This attitude awakening encompasses an array of highly effective programs dedicated to continuous improvement and a daily sensitivity to every customer's feelings. We ask every Dodge salesperson to become "certified" through completion of intensive product and human needs training. Our Mopar Service and Parts technicians work toward their Master's level proficiency rating and the MasterTech Golden Tool award. And our Owner Communications Program surveys every Dodge buyer and maintains an ongoing dialogue with you as a Dodge Avenger owner. So Chrysler and its Dodge dealerships are working and training to bring you a positive experience each time we serve you.
A sensual silhouette goes without saying.
Before Avenger, sport coupes too often extract a severe comfort and convenience penalty with their tilt toward performance. Avenger’s emphasis is on the brighter side of sportiness, with a smooth mixture of style, luxury, readability, and usefulness. Here, the focus is on a Dodge design triumph of interior volume over exterior dimension.

Think of it as a 2+2 “plus.” Both Avenger models, ES and Hightline, share an abundant 104.2 cubic foot interior where everything is very ergonomic. Which means that we are obsessive about complementing the interface between people and machine.

Avenger carries two, plus two or three others, plus a lot of luggage (13.1 cubic feet) in a lockable trunk, with a folding rear seatback provision for awkwardly shaped items. Avenger ES includes a cargo net in the trunk to prevent baggage tumble and slide.

Seats that satisfy your shape. Standard on Avenger is a new series of front seats that easily adjust to conform to you. (The ES model also includes manually adjustable lumbar support.) These seats are two of the many reasons Avenger is such a delight to drive long distances.

Comfort is convenience. Thoughtful design means understanding the ways people adjust to their cars. A glance at Avenger’s control positioning suggests that this is one machine into which you settle naturally. Careful attention has been paid to access, shape, and activation. Switch surfaces have been rounded off, and they’re composed of a flexible material that “gives” on contact. These are controls that make Avenger more responsive to your control.
A sophisticated blend of ride and handling. It's found in fully independent front and rear suspensions, surprising in such an affordable sport coupe. The goal was to delete the harsh vibration and road surface-sensitive setups plaguing many less sophisticated 2+2s — while retaining a high level of responsiveness.

Avenger does it by locating all four wheels with a double-wishbone suspension featuring a high-mounted upper control arm, lower arm, and trailing arm that form a highly desirable, virtual kingpin axis. The result is generous wheel travel, European-style on-center steering, with consistent caster and camber providing "bite" in the turns. That means a flat-cornering attitude, superior traction, low noise, and minimal road vibration.

Always wear your seat belts.
The intelligence of a design can be measured by its standard equipment. The Avenger Highline model is capable of delivering the road to you in a hushed rush. Yet it's not only competent, it's complete. Highline passengers will appreciate the same ease of entry to the same spacious rear seating capacity as the ES model — the rear leg, hip, and shoulder room that is so uncommon to terrific-looking sport coupes. Drivers will appreciate the many packaging possibilities presented by the split-folding rear seatbacks, which make allowances for the type of sporting gear, like skis or scuba tanks, sport coupe drivers like to transport.

A short, sweet list of options can be installed on either Highline or ES, even though both models are nicely equipped to begin with, so be sure to ask your dealer for information about the following very special additions.

Optional Infinity stereo CD, shown at bottom right. This AM/FM compact disc player is a complete sound system with five-band equalizer, remote amplifier, and eight Infinity speakers strategically positioned throughout the interior for accurate concert hall reproduction. You are front row center, on the aisle.

Standard on ES, and available for Highline, an AM/FM cassette stereo radio (not shown) is electronically tuned with seek feature. The tape player has auto reverse, locking fast forward, and rewind. Twenty stations are programmable (10 AM and 10 FM).

Remote six-disc CD changer. Available as a dealer-installed option, this trunk-mounted compact disc changer (shown at center left) has a CD play/selector that's already built into the Infinity stereo system for good looks and ease of operation. Choose the music you prefer, and play it in the order you preselect.

Available power sunroof was designed to barely disturb the airflow over Avenger — even when open.

Available safe and easy access. Avenger’s optional, key ring-activated electronic remote keyless entry system and vehicle theft security alarm are examples of our desire to make available every possible security item for your peace of mind.

Stellar communications. Your local Dodge dealer can provide a variety of cellular communications options. Your Avenger is ready to be equipped with such a unit. Ask your salesperson for details.
WHAT ABOUT LEASING?

Leasing continues to grow in popularity — last year one out of every five new vehicles delivered was leased rather than purchased or traditionally financed. Leasing as an alternative to financing provides a number of benefits. There’s no down payment, just a security deposit and the first month’s lease payment at delivery. Lower monthly payments are realized because you only pay for the time you actually use your vehicle. Since you choose the terms, leasing can also let you drive a new car more often. And you could move up to a higher-priced vehicle with extra options as well.

Your Dodge dealer can show you what a lease tailored to your own specifications can do for you. Please ask about Chrysler’s own Gold Key Plans.

Dodge Avenger is covered by the Customer One Care+ plan, including:

- A 3-year or 36,000-mile (whichever comes first) Bumper-to-Bumper Limited Warranty which covers the complete vehicle against defects in factory-supplied materials and workmanship. (This 3/36 warranty excludes tires, wiper blades, clutch and brake linings, and normal maintenance items.)
- Roadside Assistance for 3 years or 36,000 miles providing 24-hour, 7-day-a-week Emergency Road Service, contacted by a 24-hour nationwide toll-free phone number. Roadside Assistance covers many items not included in the warranty, such as lockout, jump start, out of gas, flat tire repair and towing.
- A 7-year or 100,000-mile Outer-Panel Rust-Through Limited Warranty which covers the cost of all parts and labor needed to repair exterior sheet-metal panels perforated by corrosion.

The 3/36 Customer One Care plan stays with the vehicle, and transfers automatically to any subsequent owners at no charge during the warranty period.

*See your dealer for additional details and a copy of this limited warranty.

Tires and optional cellular phones are covered by their respective manufacturer’s warranties.

Roadside Assistance services provided by Cross Country Motor Club, Inc.

(In California, Cross Country Motor Club of California, Inc.)

CHRYSLER CREDIT offers a broad range of traditional automotive financing plans and flexible terms for qualified buyers. Many of these plans can be customized to fit your particular budget and lifestyle. Our College Graduate Plans, for example, are especially attractive to those just beginning their careers. Or to make your new vehicle even more affordable, you may want to consider Gold Key Lease and Gold Key Plus short term financing.

Mopar parts are engineered by Chrysler Corporation for use in your new Dodge Avenger. When replacement is necessary, be sure to specify Mopar parts. Used by professional automotive technicians worldwide.

MOPAR ACCESSORIES

Here is a partial list of popular Mopar accessories for Avenger. See your dealer for a complete list. • Car Cover • Adjustable Cargo Tray • Molded Cargo Tray • Six-Disc Compact Disc Changer • Door Edge Guards • Removable Roof Rack with Ski Carrier • Removable Roof Rack with Bike Carrier • Vinyl Hood Cover • Wheel Locks

BUY YOUR CAR PHONE WHERE YOU BUY YOUR CAR

For 1995, Chrysler will be offering a selection of dealer-installed/ supplied cellular phones in several models to enhance the available optional equipment list. OK® and Chrysler Cellular Systems warrant and service these products. Restrictions apply. Ask your dealer for details and a copy of these limited warranties.

AUTOMOBILITY PROGRAM (formerly P-CAP)

Cash reimbursement is available for qualified adaptive driving devices on the 1995 Dodge Avenger. Ask your dealer to provide you with more information or call the Automobility Headquarters at 1-800-255-9877.
