Combine legendary HEMI® power, fuel-saving MDS technology[1] and sport-car handling with four-door flexibility, and you end up with a driving experience that only Dodge Charger can deliver. This finely-tuned piece of modern muscle offers formidable engine choices mated to equally capable transmissions, bold styling, and tech-savvy features that make every ride even more enjoyable. For more info, hightail it to dodge.com/charger  

[1] EPA est. 16 city/25 hwy. mpg with MDS
This performance warrior is powered by the Hemi Orange-clad 425-horsepower 6.1-liter SRT® HEMI® V8 engine, and tamed by Brembo® Performance four piston brake calipers and unique Electronic Stability Control calibration, performance-tuned steering, and high-performance suspension. SRT8 sits on 20-inch SRT forged aluminum wheels fitted with P245/45R20 all-season performance tires. The front fascia features integrated brakes ducts for increased cooling and brake performance, while the hood sports a functional hood scoop.

6.1-Liter SRT HEMI V8: The high-performance 6.1-liter SRT HEMI V8 pumps out an awesome 425 horsepower and 420 lb-ft of torque. It was developed by increasing the bore of each cylinder, increasing compression ratio, redesigning the intake and exhaust systems for better airflow, and increasing engine speed.
POWERFUL PRESENCE / Just below the long, wide hood, Charger’s front end is dominated by the signature Dodge grille and aggressive, intimidating headlamps. Unique styling cues feature distinctive side glass and a sloping fastback roofline, with the beltline kicking up over the rear-wheel arches, creating a muscular shoulder over the wheel well. Charger R/T is grounded by 18-inch ultra-brite aluminum wheels that are pushed to the corners for a strong stance, reducing front and rear overhangs to enhance vehicle stability and ride quality. Dual bright exhaust tips on Charger R/T and SRT8® give this powerhouse a menacing look even from behind.
INTERIOR ACCENTS / Bright chrome and Satin Silver accents highlight Charger’s sophisticated cockpit. Deep-tunneled Viper-inspired gauges with available silver rings warm the cockpit at night with a blue/green glow. Available steering wheel-mounted controls let you keep your hands on the wheel as you access song selection, radio tuning, and volume. Fine-tune seating comfort with available eight-way power-adjustable driver and front-passenger seats as well as available heated seats. Durable padding adds comfort with upscale French seams to the armrests and center console. Available 60/40 split-folding rear seats accommodate larger loads. The rear seats welcome combined loads. You can lower the second row completely for long or bulky items.
ALL-WHEEL DRIVE WITH AUTOMATIC DISCONNECT / This exclusive feature on every Charger with all-wheel drive (AWD) supplies power to both axles, delivering excellent balance for improved control under difficult road conditions. The system seamlessly transitions between rear-wheel drive and AWD with no driver intervention. When AWD is not required, the system automatically disconnects the front axle and opens the transfer case from the drivetrain to reduce friction and rotational mass. The system provides optimal traction, performance, and an improvement in fuel economy.[1]

Only Chrysler Group LLC offers these two independent technologies together. [1]Based on EPA est. 16 city/23 hwy and a combined 19 mpg.
Charger Rallye shown with Custom Chrome Grille Insert and Lower Front Fascia Air Dam, Authentic Dodge Accessories by Mopar.
iPod® INTERFACE MODULE.

This FM-bound adapter allows you to play your music by using your iPod click wheel and to listen through the vehicle's speakers. Available as an Authentic Dodge Accessory by Mopar.
**uconnect Media Center.** 730N AM/FM/CD/DVD radio with 30GB hard drive, GPS Navigation 6.5-inch touch screen, MP3/WMA support, USB input, 4,250 song capacity, SIRIUS® Satellite Radio, SIRIUS Traffic™ and Voice Command. **iPod® Control.** Connect most iPod compatible devices to your car’s stereo using the in-car cable, then control them with your radio or steering wheel controls. Keeps the devices charged too. **UconnectWeb.** An in-car router connects any Wi-Fi-enabled device to the Internet at 3G broadband speeds, allowing multiple passengers to surf the Web, social networks, look up directions, check eMail or download music. Uconnect Web is an Authentic Dodge Accessory by Mopar. Subscription required, sold separately. **Voice Command.** Lets you select radio stations, satellite radio channels, and navigation destinations using voice commands. Works with all Uconnect Media Center radios. Included with Uconnect Phone. **Uconnect Phone.** Lets you talk on your Bluetooth® compatible phone virtually hands-free. Address Sync™ lets you call anyone in your address book by saying their name.

---

[1] In-dash DVD capability not available in all states. See your dealer for details. The Uconnect Web feature is not intended for use by the driver while the vehicle is in motion. When satellite radio and navigation features are equipped on your vehicle. Any voice-commanded system should be used only in safe driving conditions and all attention should be kept on the roadway ahead. Failure to do so may result in an accident causing serious injury or death.

[2] Phone must support Bluetooth Phone Book Access Profile (PBAP).
The 5.7-liter HEMI® with Variable Valve Timing (VVT) V8 Multi-Displacement System (MDS) brings fuel economy[1] to HEMI power. MDS allows the 5.7-liter HEMI VVT V8 engine with MDS — sporting best-in-class[2] 368 horsepower and 395 lb-ft of torque — to operate with the fuel efficiency of only four cylinders as needed, for improved fuel economy.[1] The HEMI engine is a marvel of modern engineering, thanks to its advanced electronics that allow the HEMI cylinder deactivation system to switch from eight cylinders to four. The engine idles on eight cylinders for maximum smoothness, uses all eight for acceleration and heavy loads, and seamlessly transitions to four cylinders based on torque requirements, even at interstate highway speeds.

The formidable 3.5-liter High Output V6 engine, with its refined dual-tuned intake manifold, brings 250 horsepower and 250 lb-ft of torque to the table. Platinum-tip spark plugs allow for 100,000-mile scheduled tune-up intervals.

Advanced multistage front air bags deploy in staged amounts, depending on impact severity, to help provide even better protection, while standard front and rear supplemental side-curtain air bags help protect front and rear outboard occupants.

Crush Zones. No one wants to test a vehicle’s impact resistance, but Charger is ready if it occurs. The front structure is composed of crush zones: the area in front of the engine; the engine, transmission, and driveshaft; and the area between the engine and the instrument panel. Together, if these zones crush, they are designed to absorb impact energy and direct it away from the passenger compartment.

Electronic Stability Control (ESC). In adverse conditions, the available Electronic Stability Control with Brake Assist works with an advanced all-speed traction control system to help the driver maintain vehicle directional stability, and it limits oversteering or understeering. Brake Assist detects conditions when maximum force is needed for optimum stopping power.

Anti-lock Brake System (ABS). Charger features 4-wheel disc brakes with an available anti-lock brake system. Besides affording premium stopping power, it enhances mobility and directional stability by allowing the driver to steer the vehicle while braking.

Five-Star. Dodge Charger has earned Five-Star crash test ratings for both front and side impacts. These ratings represent the highest possible vehicle safety honors from the National Highway Traffic Safety Administration (NHTSA). Star ratings are part of the U.S. Department of Transportation’s SaferCar.gov program (safercar.gov).

The Advanced Front Air Bags in this vehicle are certified to the new U.S. federal regulations for advanced air bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. Star ratings are part of the National Highway Traffic Safety Administration’s (NHTSA) New Car assessment program (www.safercar.gov).
Exterior Measurements (in.):

- Overall length: 200.1
- Overall width: 74.5
- Overall height: 58.2
- Wheelbase: 120.0

SRT8®

R/T

R/T with Road & Track Performance Package

Charger 3.5L

Includes the 3.5-liter V6 engine, 4-wheel disc ABS, ESC with all-speed traction control, heated exterior power mirrors, power windows and locks, speed control, Sentry Key® antitheft engine immobilizer, and Tire Pressure Monitoring System. Also gets illuminated front cup holders, Media Center 130 AM/FM/CD radio and SIRIUS® Satellite Radio.

Rallye

Includes 3.5-liter V6 engine, a touring suspension with rear stabilizer bar, fog lamps, heated exterior mirrors, and power adjustable pedals, 18-inch painted aluminum wheels, 60/40 split-folding rear seatback with center armrest, eight-way power-adjustable driver’s seat, SIRIUS® Satellite Radio and more. The Rallye also gets as standard equipment a rear spoiler.

Includes the 5.7-liter Variable Valve Timing (VVT) HEMI® V8 with NOS engine, 5-speed AutoStick® transmission, ABS, ESC with all-speed traction control, power driver and passenger heated leather-trimmed seats, leather-trimmed steering wheel with audio controls and shift knob, power adjustable pedals, vehicle information center, and 18-inch aluminum wheels and a rear spoiler.

R/T with Road & Track Performance Package

Includes the 5.7-liter Variable Valve Timing (VVT) HEMI® V8 with NOS engine, 5-speed AutoStick® transmission, ABS, ESC with all-speed traction control, power driver and passenger heated leather-trimmed seats, leather-trimmed steering wheel with audio controls and shift knob, power adjustable pedals, vehicle information center, and 18-inch aluminum wheels and a rear spoiler.
17-inch painted aluminum wheel (standard on SE and Charger 3.5 RWD)

18-inch ultra-brite painted aluminum wheel (standard on Rallye and R/T RWD)

18-inch painted-face aluminum wheel (standard on AWD)

20-inch chrome-clad aluminum wheel (standard on R/T with Road/Track Performance, available on Rallye and R/T)

20-inch polished aluminum wheel (optional on SRT8)

18-inch 5-spoke painted brite face, Black-pocket cast aluminum (Authentic Dodge Accessory)

18-inch chrome-clad aluminum wheel (standard on Rallye Popular Equipment Group and R/T Popular Equipment Group)

18-inch ultra-brite painted aluminum wheel (standard on Rallye Popular Equipment Group and R/T Popular Equipment Group)

20-inch SRT® forged, polished aluminum (standard on SRT8®)
