FROM OUR FAMILY TO YOURS—DOODGE SENDS ITS BEST

At Dodge, our automotive philosophy is remarkably simple: give buyers what they want. And give them more of it for less money. This book will help you select the new 1993 Dodge family car that is exactly right for you. And it will give you a good indication of how well we've done our engineering homework. You'll find that the new 1993 Dodge vehicles are an artful blend of quality, performance, comfort and above all, safety.

Dodge's dedication to safety started an industry trend, with a commitment to include a driver-side air bag built into every Dodge passenger car made in North America (except Viper RT/10). Yet, because we're ever mindful of value, we have also added new Customer-Preferred® option packages, which offer our most popular options at significant savings.

For 1993 and beyond, Dodge will continue its innovative leadership by utilizing the new Chrysler Technology Center (CTC). The CTC is a new home for a new way of making cars. Unique in all the world, the CTC houses and unites automotive designers, builders and testers into cohesive high-tech teams whose single purpose is to build great cars and trucks. The ultimate Dodge advantage: better quality products brought to you more quickly and at lower cost.

Dodge Spirit
The one to order if you want the most room, including six-passenger seating, and value in its four-door class. Newly styled, front and rear. Flexible fuel models available in limited quantity in California after January 1, 1993.

Page 6

Dodge Shadow
Available in two-door coupe, four-door sedan and convertible models. Driver-side air bag standard. Now available with V6 power. For added security, optional ABS.

Page 14

Dodge Dynasty
Traditional four-door luxury at a sensible price. Seats six in comfort with more rear seat leg room than any other car in its class. Choice of two powerful V6 engines.

Page 24

Dodge Colt
Totally new two and four-door Colt and Colt GT models offer sporty appearance inside and out. Efficient fuel economy with 1.5-liter 12-valve engine and new 1.8-liter 16-valve engine.

Page 32

Some of the equipment shown or described throughout this catalog is available at extra cost.

Savings on option packages and re-charge, as conditioning based on cost of package items if purchased separately.

About this catalog. Since the time of printing, some of the information you'll find in this catalog may have been updated. Ask your dealer for details.
We put the subject of safety first and foremost because we believe it should be a major consideration in any new car purchase. Sometimes Dodge safety features are obvious, such as air bags and three-point seat belts. Sometimes safety features are a lot more subtle—such as the quick and sure responsiveness of drive trains, brakes, suspensions and steering systems.

Among other things, you’ll find that the cars in this catalog offer the directional stability and exceptional traction of front-wheel drive that “pulls” you safely through snow-covered or slick surfaces.

Serious drivers know that driving “defensively” can help avoid accidents. To keep you in complete control, Dodge offers sure, dependable braking, including an optional four-wheel antilock brake system (ABS). ABS adjusts hydraulic pressure up to 15 times per second to the wheels that need braking the most. This allows the driver to maintain steering control and helps reduce skidding on slippery surfaces or during severe braking on dry pavement.

And rest assured that every aspect of every Dodge automotive component is tested, refined, and tested again to ensure its integrity. We test the crashworthiness of our interiors in an extensive range of impacts with computer simulation, called Finite Element Analysis, to attain optimum passenger safety.

We even test the entire vehicle in high fields of radio frequency energy to guarantee that key safety features, such as the air bag and ABS systems, are immune to surrounding electrical interference.

Dodge’s state-of-the-art suspension systems are also tested on a computer-operated road surface simulator to minimize noise, vibration, and harsh ride characteristics. We could go on and on detailing how extensive our testing of every car component is... but you get the idea. These are some of the most important safety advantages Dodge offers every serious driver. Advantages you’ll learn more about as you go through this catalog. And advantages you’ll experience for yourself when you test-drive the Dodge family car of your choice.

**Driver Safety**

Dodge puts a driver-side air bag on every volume production passenger car it builds in North America (except Viper RT/10). Gold-plated, corrosion-resistant impact sensors in the vehicle’s front end are used for greater conductivity and dependability. When used in conjunction with lap and shoulder restraints, air bags provide a highly effective system for preventing serious injury. Many letters of “thanks” attest to this fact. The stop-motion shots above show that the time elapses from the moment of impact to the triggering of the air bag inflation canister, and deflation of the bag—is less than one second.

Other noteworthy safety features include the added visibility of available power heated outside mirrors, rear window defogger and tinted glass on most models. If you want to learn more about Dodge automotive safety, visit your nearby Dodge dealer.

Dodge’s optional antilock braking system helps the driver maintain maximum deceleration control by electronically “pumping” the brakes to prevent wheel lockup.
"...enhancements to Spirit ES help spruce it up and lend it a sportier, youthful image."

— Motor Trend

If you are sold on Spirit's exceptional room and value, but want a few more comfort, convenience and appearance virtues, we suggest you check out the Spirit ES with its front bucket seats with driver-side lumbar support adjustments, folding center armrest and reclining front seatbacks. It provides all of Spirit's outstanding safety, handling and comfort characteristics, plus new front-to-rear styling, and full-wrap rear fascia with ground effects. Handsome Eurocast aluminum wheels are also standard.

Want more? Add the available performance of Dodge's 3.0-liter SOHC multipoint, fuel-injected V6 engine. * It delivers an impressive 141 horsepower at 5,000 rpm and 171 pound-feet of torque at 2,400 rpm.

**Flexible Fuel Engine!**

Again in 1993, Dodge leads the way in state-of-the-art engineering by offering a new flexible fuel engine, available only on the base Spirit. Flexible Fuel Vehicles operate on any fuel tank mixture of gasoline and up to 85-percent methanol, with no noticeable difference in performance, driveability or reliability. Methanol burns almost 60-percent cleaner than gasoline. Dodge offers these environment-friendly vehicles at no additional cost to you.

* Built by Mitsubishi Motors Corporation
* Available only in California after January 1, 1993

The Dodge Spirit ES shown above in Bright White Clear Coat has been repositioned from front to rear, inside and out, for your driving pleasure.

The 3.0-liter SOHC multipoint fuel-injected engine* is available on both Spirit and Spirit ES models.
"Spirit ES" persona is backed up by surprisingly capable performance in both our empirical tests and highway driving...its balanced chassis offers predictable transient response, precise tracking and a confidence-inspiring level of controllability."

— Motor Trend

Spirit offers serious drivers this kind of controllability thanks to the excellent traction properties of front-wheel drive, which is enhanced by power-assisted 16-to-1 fast ratio rack-and-pinion steering for a precision feel of the road.

And Spirit offers controlled stopping, too. Power-assisted front disc and self-adjusting rear drum brakes are standard on Spirit and Spirit ES. Both offer optional power-assisted four-wheel discs with an antilock brake system (ABS).

Spirit, Accommodating.

In addition to driving performance, we believe that a family car should also be comfortable and roomy, with built-in value, state-of-the-art engineering, and maximum safety.

And the freshly styled 1993 Spirit is all of that plus the safety of a driver-side air bag...still unavailable on some competitive cars. Other safety features include UniBelt three-point shoulder/diaper restraints for all window seat passengers and child-protection rear door locks on four-door models.

Comfort.

Spirit offers a new front 50/50 bench seat with fold-down armrest and optional split rear bench seating for increased cargo and trunk access. It also offers a wide variety of personal conveniences and options. Power windows and door locks. Air conditioning, electronic speed control and much more are available at big savings in our new Customer-Preferred option packages.

Spirit for 1993—at a price that is among the lowest of any six-passenger car in America.
If you're looking for a good reason to buy Shadow, we'll give you five: price, value, safety, durability and reliability.

It's no coincidence that Shadow has been on Motor Trend's "Best Buy" list three years in a row. Dodge aims to make it four in 1993.

Shadow starts with an affordable price and continues to save you money with a responsive but frugal standard 2.2-liter SOHC EFI engine and five-speed manual overdrive transaxle.

Among the 40 standard features, you'll also find a driver-side air bag, power-assisted front disc/rear drum brakes, power-assisted rack-and-pinion steering, and front-wheel drive with a precision handling suspension.

Other noteworthy standard features include all-season radial tires, trip odometer, remote left outside mirror, reclining bucket seats with adjustable headrests, fold-down rear seat and rear seat outboard passenger three-point belts.

This year Shadow adds a new standard stainless steel exhaust system as well as a premium sound insulation package. Carpeting, mini center console, child-protection rear door locks on four-door models, multifunction control lever—Shadow offers them all, standard.

Sun-lovers have the added choice of the fun-filled Shadow Convertible, or the exciting Shadow ES Convertible.
“This (Shadow) represents Dodge high performance at an entry level price tag.”
— Mike Randall

Dodge Shadow ES comes on strong for sport enthusiasts in 1993. You can select from either the two- or four-door liftback or the fun-loving Shadow Convertible. All are available with the high performance 3.0-liter SOHC multipoint fuel-injected V6 engine* which delivers an impressive 141 horsepower at 5,200 rpm and 171 pound-feet of torque at 2,400 rpm. When mated to a five-speed manual overdrive transmission, it allows for precise “heel-and-toe” shifting. An optional smooth-shifting four-speed automatic transaxle is also available with the V6. And you’ll also enjoy the performance of a beefed-up sport suspension, power-assisted brakes, and power-assisted rack-and-pinion steering which are standard on Shadow ES. A rear-deck spoiler is also standard on ES liftback models.

Both Shadow ES and Shadow Convertible offer a convenient manual vinyl top complete with “easy-out, easy-in” removable zipped vinyl windows. An antilock braking system (ABS) for maximum stopping control is available on all Shadow models.

Dodge Shadow. Affordable performance for those who seek value yet enjoy the sporty feel of enthusiastic driving.
"...you get one heck of a lot of car for the money."

When Dodge began designing Shadow, some thought it should be safe, economical and affordable. Others wanted it to be sporty, image-enhancing and fun to drive. We decided it should be all of the above. And so it is.

Safety, of course, has always been a primary consideration with Shadow. Shadow offers the security of a driver-side air bag, the traction and handling of front-wheel drive, and the sure stopping ability of power-assisted brakes — and new this year, the availability of an antilock brake system (ABS).

With more than 40 standard features, Shadow is the lowest-priced car in America with a driver-side air bag. Shadow's low base price allows you to personalize it with a choice of low-cost Customer-Preferred™ option packages, with some even offering air conditioning at no charge.

Shadow is available in both two- and four-door liftback models.

Inside, Shadow caters to the "driver" in you with:
• Reclining low-back front bucket seats
• Power-assisted rack-and-pinion steering
• With a tight turning circle for quick response and easy maneuvering
• Unbelt three-point restraints for maximum safety of all window seat passengers
• A quieter, more accurate electromechanical instrument cluster (shown below) that offers driver-friendly, easy-to-read analog gauges and backlit dials.

The biggest attraction is that the Dodge Shadow is the only car priced under $10,000 that offers an air bag. And it's the lowest-priced five-passenger car you can buy.

Dodge Shadow. A beautiful blend of value and fun.
## Shadow Features & Specifications

### SELECTED STANDARD AND OPTIONAL EQUIPMENT

**Shadow ES Convertible**
- Black convertible cloth top, fixed rear window, upper door quarter windows, and upper door quarter glass.
- Standard: Power windows, power locks, power steering, cruise control, and optional air conditioning.

If you're looking for contemporary styling, a roomy interior and rock-solid, dependable performance, you've come to the right place.

Big luxury car buyers don't have to be big spenders. Witness the new Dynasty. It offers you affordable luxury with traditional size and styling.

Dynasty's continued popularity is due in part to advantages such as a driver-side air bag, a choice of two powerful V6 engines, the safety of an available antilock braking system (ABS), and a selection of low-cost Customer-Preferred option packages, some of which offer air conditioning at no charge.

Inside, Dynasty provides an elegant environment with comfortable six-passenger seating. Convenience features include wide opening doors.

Dynasty LE's luxurious Suede interior with fold-down armrests is shown in Light Champagne.

Dynasty's instrument panel features an electromechanical instrument cluster and conveniently located climate controls. An illuminated message center is standard on the Dynasty LE, optional on Dynasty.
Most Dynasty LE owners could afford to pay a lot more for a luxury-sized six-passenger automobile...but why should they? Dynasty LE offers uncompromising ride, room, and state-of-the-art features. Thoughtful extras such as a Remote Keyless Entry System joins a security alarm to create the optional Security Package.

And the optional integral cassette player with AM/FM stereo, graphic equalizer and Infinity KE speaker system with power amplifier is also available. If you want to step up to a new level of luxury, ask for Dynasty or Dynasty LE with the special Brougham padded vinyl roof shown below. It's available with selected Customer-Preferred packages on both Dynasty models, color coordinated with Bright White, Clarett Red, Diamond Blue and Light Champagne. Or ask for Dynasty LE's front passenger's optional eight-way, power-adjustable seat featuring a driver's seat that "remembers" your preferred seating position and that of another driver...it even adjusts the outside mirrors.

Dynasty for 1993. It's like nobody else's luxury car...it's affordable.

Dynasty is shown right in Dark Charcoal Grey Metallic Clear Coat.
Dynasty LE Brougham shown below in Bright White Clear Coat.

The all-new Dodge Colt is a renaissance in small car design.

Colt's styling is fresh, distinctive and innovative. Its soft, rounded, aerodynamically efficient lines belie the ample interior space within. Colt's aerodynamic sleekness contributes to good fuel economy, and decreased wind noise for a quieter ride. A new independent rear suspension helps to provide a smooth ride and excellent handling and stability. Available in two- and four-door Colt and Colt GL models, Colt can accommodate up to five people and their luggage. Colt's smooth ride and deft handling are enhanced by independent front and rear suspension, power-assisted front disc brakes and available power-assisted rack-and-pinion steering.

Colt offers the security of automatic passive restraints for front seats, active three-point lap and shoulder belts for outboard rear seat passengers and a lap belt for the rear center passenger.

Colt's efficient 1.5-liter, 12-valve standard engine features multipoint fuel injection. The engine is matched to either a five-speed manual transaxle standard on Colt two- and four-door and Colt GL two-door models, or a three-speed automatic transmission optional on Colt GL two-door models.

Standard on the GL four-door model is a new 1.8-liter, 16-valve MPI engine teamed with a five-speed manual overdrive transmission or optional four-speed automatic transmission. The 1.8-liter engine is also available on Colt four-door models with either the manual or automatic transaxle.

The options shown on these pages are just a sample of the wide range you have to choose from. Substantial savings on some of these options can be realized with one of our special discount option packages. Consult the specifications pages or see your Dodge dealer for details.

B. 14" Cast Aluminum Wheels. Optional on Dynasty LE (set of 4).
F. 13" Aluminum Wheels available with the Sport Appearance Package on Colt GL.

Other Popular Options...

G. Chrysler Infinity Sound System. This AAM stereo FM/AM stereo system features electronic tuning with memory scan, up-and-down seek and scan, Dynamic Noise Reduction—a cassette tape player with auto reverse, true fast forward and rewind, automatic metal tape sensor, tape program music search, Dolby B Noise Reduction, joystick balance/fader speaker control and Chrysler Infinity vehicle-equalized coaxial four-speaker sound system and digital clock. Available on Shadow ES models and most Spirit models.

H. Chrysler Infinity II Sound System includes all the features of the Chrysler Infinity I Sound System, plus a five band graphic equalizer.

Dynasty LE offers all of the features of the Infinity II Sound System combined with a power amplifier and audio quality 10-speaker array in six locations to make up the optional Infinity RS Sound System.

I. The Mopar Compact Disc Changer is activated by a hand-held controller. This system provides the ultimate in listening enjoyment with superb antivibration performance, ease-change magazine and six-disc storage for over seven hours of uninterrupted music.

J. Portable Phone. Dodge's portable, hand-held phone is one of the smallest and lightest portable cellular phones available today. Dealer-installed. Available on all models.

Mobile Phone. Dodge also offers a state-of-the-art mobile phone with an easily accessed range of convenience features that are unrivaled in today's market. Dealer-installed. Available on Dynasty, Spirit and Shadow.

A Remote Keyless Entry System is optional on Dynasty (as part of Security Package, which also includes security alarm).

A tilt-up/ removable sunroof is optional on Shadow and Shadow ES.
Consider Leasing
Many of today’s new car prospects are wisely considering leasing as an alternative to buying.
Leasing a new Dodge vehicle usually involves a small security deposit and a first-month’s lease payment. Monthly payments are usually less than financing a new car purchase.
Ask your dealer for details.

Chrysler Corporation Warranties
Our Owner’s Choice Protection Plan™ is an industry exclusive. No other 1993 car offers you a choice of:
• A 12-month or 12,000-mile (12/12) Basic Limited Warranty* with a seven-year or 70,000-mile (7/70) Power Train Limited Warranty.
• Or a three-year or 36,000-mile Basic Bumper-to-Bumper Limited Warranty.*
* See these limited warranties and restrictions at your dealer.

Mopar Accessories
Here’s a partial list of some popular Mopar accessories available for Dodge. See your dealer for a complete list and availability:
• Molded Cargo Tray
• Molded Splash Guards
• Deck Luggage Racks
• CD Changer/Player
• Ski Carrier/Bike Carrier

Mopar Customer Care
There’s only one sure way to keep your Dodge car or truck performing at its best mile after mile. Just make sure it’s serviced regularly at your nearby Dodge dealer. That’s where you’ll find first-rate mechanics specially trained in the maintenance and repair of your new Dodge.
They’ve been provided with all the sophisticated equipment today’s cars and trucks demand. And they have immediate access to a complete stock of genuine Mopar replacement parts that can make the difference between trouble-free driving and the unacceptable alternative.

Panasonic services is the warrantor of the portable phone. See your dealer for a copy of the limited warranty. Restrictions apply.
For 1993, Dodge Family Cars offer a selection of dealer-installed/supplied cellular phones in several models. Ask your dealer for details.
