2016 FIAT® 500X
CAPABILITY AS ICONIC AS ITS DESIGN.

500X is an all-new crossover that expands on FIAT® functionality, agility and capability, delivering it all in a larger yet decidedly Cinquecento package. Now the confidence of available All-Wheel Drive (AWD) comes to the FIAT 500 family, with an available 2.4L, 180 horsepower Tigershark® MultiAir®2 engine, 9-speed transmission and Euro-tuned suspension.
FIAT 500X
TREKKING AND STREET SERIES.
A ONE-TWO PUNCH.
It should come as no surprise that the FIAT® 500X was designed at Centro Stile in Turin, Italy. The enduring charm of the original 1957 FIAT® 500 design continues to influence FIAT design today. 500X shares the same brilliant mix of accessibility, simplicity and driver-centric amenities that have all the earmarks of a modern classic. It encourages personal style with a generous offering of five trim levels and twelve exterior colors. The 500X Street Series includes the Pop, Easy and Lounge models; the 500X Trekking/Trekking Plus models feature a more rugged look.
ITALIAN HERITAGE — Creativity and Craftsmanship

CINQUECENTO CROSSES OVER

Housed at the FIAT® Centro Storico in Turin, Italy, the original Dante Giacosa-designed wooden master model for the 1957 FIAT® 500 (shown above) serves as inspiration for today’s 500X designers. With design cues that capture the charm and charisma of that very first “Nuova” Cinquecento, the 2016 FIAT 500X boldly enters the Crossover segment with the FIAT spirit of innovation and functionality. Building on the signature “whiskers and logo” persona, designers and engineers added more space, utility and ground clearance. The interiors comfortably seat five while retaining classic elements like a smooth silhouette, 360-degree character lines, body-color instrument panels, circular three-button cluster and chrome door handles.
At the center of a major commitment to manufacturing reinvestment is the FIAT® 500X, crafted in the newly updated assembly plant in Melfi, Italy. Outfitted with the Small Wide platform (one of three principal FCA architectures) and adhering to World Class Manufacturing (WCM) standards, Melfi is one of the most advanced vehicle assembly plants in the world. The vehicle platforms designed for Melfi allow for compliance with regulatory standards outside Italy, making for export-ready cars—no need for further modification. The FIAT 500X exemplifies the company’s widening global reach—it will be available for sale in more than 100 countries worldwide.
Room with a View

Leveraging eye-catching, classic FIAT exterior cues in the larger and more capable 500X, designers wanted to make the most of the surrounding views, as well. They thoughtfully added an available dual-pane sunroof with a sliding panoramic panel. Its glass panels match seamlessly with the body sheet metal, creating a wide, spacious feeling. Light is easily managed with a manual sunshade.
FIAT 500X STREET SERIES.

TREKKING SERIES.
A first for the FIAT® 500 portfolio of offerings: an advanced All-Wheel-Drive (AWD) system. Available on most 500X models, AWD adds peace of mind on any drive.

With the FIAT® 500X Trekking Plus, you can take full advantage of new capabilities and offerings available. Athletic front and rear cladding and 18-inch wheels signal the kind of performance 180 horsepower and a cutting-edge, nine-speed automatic transmission can produce. This fully electronic transmission features on-the-fly shift-map changing, along with a unique set of four overdrive ratios that improve highway fuel efficiency and reduce overall noise, vibration and harshness levels. Plus, the FIAT Dynamic Selector puts three customized driving modes at your fingertips. All told, you’re in for a responsive, smooth and fuel-efficient drive.
SKILLS: LOADED TO THE NINES.

TREKKING PLUS SHOWN IN ARANCIO (ORANGE) AND ROSSO PASSIONE (DARK RED).

- SPEED
  AUTOMATIC TRANSMISSION
The FIAT® 500X offers two extraordinary engine options, starting with the 1.4-liter MultiAir® Turbo four-cylinder that comes standard on Pop models. Paired with a six-speed manual transmission, this powerplant generates 160 horsepower and 184 lb-ft of torque—giving Pop a snappy performance true to its name.

2.4-liter Tigershark® MultiAir® 2 engine

The latest offering with innovative MultiAir technology, the 2.4-liter Tigershark 1-4 engine with MultiAir2 utilizes electro-hydraulic Variable Valve Timing and variable valve lift technology, producing 180 horsepower and 175 lb-ft of torque. This extremely sophisticated technology has been widely praised as breakthrough for its segment. Pairing the Tigershark with a nine-speed transmission creates a dynamic duo that optimizes engine output, so you can look forward to fast, assertive launches and smooth, power-when-you-need-it delivery on the highway.
The disconnecting rear axle helps make the FIAT® 500X stand out as a very adaptable, fuel-efficient, AWD-capable crossover. With its ability to automatically switch from FWD to AWD and back, it provides a no-brainer boost to fuel efficiency, as well as automatic traction.

HIT THE SLOPES.
Capability. It’s a word that incorporates several desirables that we tend to look for in vehicles—power, agility and, yes, intelligence. FIAT® 500X, with its mix of output, efficiencies and technological prowess, manages to check all the boxes that go with the word. Advanced monitoring, in effect, allows the 500X to “use its head” when encountering changing terrains or conditions—backed up, of course, by some requisite brawn. The 500X offers advanced traction options, all with one goal in mind: a better drive.

F W D / A W D TRACTION+

Activated by selecting the Traction+ mode on the FIAT Dynamic Selector, this system uses Electronic Stability Control (ESC), braking system management and engine response optimization to enhance driving when conditions are such that a driving wheel isn’t tracking—such as rain-soaked or snowy roads. Basically, Traction+ gives the wheel with better grip more to go on: when there’s little or no grip on one wheel, the control unit brakes the spinning wheel, enabling the transfer of torque to the gripping wheels, allowing the vehicle to gain traction.

AWD SYSTEM

The available, technologically advanced FIAT 500X AWD system works through a variable wet clutch located in the rear drive module. This clutch knows and supplies the right amount of torque for whatever the weather, roads or driver throws at it, be it slippery conditions or an aggressive launch. The system requires no input from the driver—all actions (including AWD activation) are intelligently, seamlessly engaged based on conditions and drive style. And while the system boasts leading traction management advances, it also works to improve dynamic handling.

AWD-EQUIPPED VEHICLES:

1. APPROACH ANGLE: 21.0°
2. BREAKOVER ANGLE: 18.4°
3. DEPARTURE ANGLE: 24.1°
4. GROUND CLEARANCE: 7.05"
ON WHEELS.
Variety is the spice of life, and knowing you’re ready for driving’s ever-changing conditions makes getting behind the wheel that much sweeter. The FIAT® Dynamic Selector helps you make the most of the road ahead with three customized modes for optimal performance. The basic Auto mode is designed for the everyday, routine stuff—it will smooth things out to help optimize fuel efficiency, emissions and comfort.

**Normal Mode**

For those who prefer a bit more control, the FIAT Dynamic Selector has your number. In Sport mode, the Electronic Stability Control and steering calibrations are tuned for a sportier feel and faster driving response. Additionally, the 500X Sport mode optimizes the transmission shift points for improved performance and acceleration feel in both FWD and AWD.

**Traction+ Mode**

Driving outside the lines? The Traction+ mode maximizes low-speed traction—the kind you need when things get a little slick or bumpy. It all works by providing additional wheel-slip through optimally tuned chassis controls and a more direct engine response. After all, true adventure is equal parts of getting in to and out of things.
The aim was to create an environment, not merely an interior. Our designers are acutely attuned to tactile, visual and aural responses—even the smallest detail can generate days of deliberation. The result is a domain that’s at once excitingly new, yet somehow assuredly familiar—thanks, in part, to design cues that point to its Cinquecento lineage.

AN INTERIOR UNLIKE ANY OTHER

The aim was to create an environment, not merely an interior. Our designers are acutely attuned to tactile, visual and aural responses—even the smallest detail can generate days of deliberation. The result is a domain that’s at once excitingly new, yet somehow assuredly familiar—thanks, in part, to design cues that point to its Cinquecento lineage.
GEOMETRY IN REAL LIFE

Every design discipline mixes form and function, but design longevity requires a certain X-factor—design that not only serves a purpose but creates some chemistry, as well. We see it in the lasting appeal of modern furniture design that utilizes simple, clean lines and geometric shapes. And, of course, we see it in Fiat® design. The designers started with a goal that many carmakers leave only to the engineers to create a car that moves people. Fiat 500X encourages personal style with a generous offering of seven different interior environments featuring distinctive color and material choices in cloth, premium cloth and premium leather seating surfaces.

FORM

FUNCTION
This ride was meant to be shared.

Designers included ample room for five, with an array of comfortable seating choices and materials, including available premium leather trim, standard on the Trekking Plus model. Engineers delivered superior torsional rigidity and Noise, Vibration and Harshness (NVH) applications that also contribute to the exceptionally quiet Fiat® 500X cabin. Available heated front seats with power driver 8-way and 4-way adjustable lumbar and heated steering wheel make every day a really good day. Uconnect® systems feature an available 5- or 6.5-inch touchscreen and available user-friendly navigation. The standard Media Hub lets you plug into USB and auxiliary ports ready for your devices.
Silence may be the goal of the quality interior design found in the FIAT® 500X. But when all that quiet becomes deafening, you can remedy that. Turn to the superior sounds generated by the available BeatsAudio™ Premium Sound System by Dr. Dre. Get studio-quality sound, just the way the artist intended. Features eight-channel performance with 506 watts of power, eight speakers and a 6.5-inch subwoofer specifically tuned for the 500X.

- 8-speaker beatsAudio™ premium sound system
- 506-watt amplifier
- 6.5-inch subwoofer
TRIP ASSURANCE INCLUDED.

SAFETY AND SECURITY

LOUNGE SHOWN IN BLUE VENICE / BLUES.
PARKSENSE® REAR PARK ASSIST SYSTEM®
This system utilizes ultrasonic sensors at low speeds in Reverse to detect stationary objects.

PARKVIEW® REAR BACK-UP CAMERA®
This camera provides a wide-angle view of the area immediately behind the vehicle, giving the driver greater peace of mind before moving backwards at low speeds. Contains dynamic grids to aid the driver. Image is displayed on a color touchscreen when the vehicle is in Reverse.

BLIND SPOT MONITORING® AND REAR CROSS-PATH DETECTION®
Blind Spot Monitoring (BSM®) uses dual Ultra-wideband radar sensors to aid the driver when changing lanes, and warns of oncoming vehicles in the blind spot via an illuminated sideview mirror icon. Rear Cross-Path Detection (RCP®) is activated any time the vehicle is in Reverse—it lets the driver know vehicles are crossing behind with illuminated icons on the sideview mirror, as well as an audible chime.

Lanesense® Lane Departure Warning-Plus®
LaneSense Lane Departure Warning-Plus (LDW-P®) taps on electronic power steering (EPS) to deliver a subtle input that reminds and assists the driver to stay the course.

Forward Collision Warning-Plus®
Forward Collision Warning-Plus (FCWP+) detects too-fast-approaching vehicles or obstacles, deploys brakes to alert the driver about impact risk, then assists with driver response to help mitigate a collision.

360°
AVAILABLE PROTECTION
Seven Standard Air Bags™
Your sense of security is fully met with the FIAT® 500X comprehensive air bag system. Full-length front and rear side-curtain™ driver inflatable knee bolster™ seat-mounted side™ for front occupants, and advanced multistage driver and front-passenger air bags™ all work together to help provide encompassing protection. Standard.

Electronic Stability Control (ESC™)
A vehicle-wide network of safety sensors provide instant aid should they detect you’re veering off your intended path. ESC™ coordinates Electronic Roll Mitigation (ERM), Hill Start Assist (HSA), antilock brake system (ABS), Brake Assist and All-Speed Traction Control, sending them into action when needed. Standard.

uConnect™ Voice Command™
Allows driver to control audio, take or make phone calls, and request detailed navigation information, as well as the ability to safely reply to or listen to a text message and more — while keeping both hands on the wheel. Works with Bluetooth® compatible smartphones (not compatible with iPhone®). Available.

Chassis Strength
The FIAT® 500X delivers exceptional peace of mind with a hero’s heart—a strong unibody structure is constructed with nearly 70 percent high-strength steel. Standard.

Electronic Roll Mitigation (ERM)
As an extension of ESC, ERM employs ESC sensors to anticipate potential risk situations. If things get rough, ERM takes immediate action to help you maintain stability and remain under control. Standard.

All-Speed Traction Control System (TCS)
Part of the standard ESC, TCS helps keep driving wheels from spinning during acceleration from a stop and at all speeds by applying individual brakes alone or in combination with engine torque limitation to prevent wheel-slip.

Antilock Brake System (ABS)
Senses and prevents wheel lockup, offering improved steering control under extreme braking and/or slippery conditions.
FRONT AND CENTER  Instantly access a whole range of useful information from an available 3.5-inch full-color Electronic Vehicle Information Center (EVIC) comprised of a Thin Film Transistor (TFT) display on your instrument cluster. From safety alerts to fuel usage to FIAT® Dynamic Selector data, the FIAT 500X reconfigurable display lets you customize what you see.

STAY CONNECTED  With Uconnect®, your FIAT® 500X becomes more than just a mode of transportation—it’s your portal to the world. Large available 5- or 6.5-inch screens and “hands-free” technologies deliver essential information and entertainment while keeping you focused on driving. The systems offer a wide range of services: radio, phone, messaging, navigation and more. Listen to and/or charge media players, iPod®, iPhones® and smartphones. The Uconnect 3.0 4-Line Full-LCD radio is the entry-level Uconnect radio that provides full support for digital music with USB and auxiliary connections. All systems also show music information and browsing functions.
This group of available Uconnect® features and services represents the next generation of in-vehicle connectivity.

**Voice Text Reply**<sup>®</sup>: Powerful voice text reply<sup>®</sup> on compatible Bluetooth<sup>®</sup> phones lets the driver hear a text read. Hands stay on the wheel, eyes stay on the road and the driver stays safely connected. Not compatible with iPhone<sup>®</sup>. Available.

**Integrated 3D Navigation**: Available on the 6.5” touchscreen, this full-feature navigation includes 3D city and landmark imaging, digital terrain maps, enhanced screen graphics and one-step voice destination entry.

**SiriusXM<sup>®</sup> Satellite Radio**<sup>®</sup>: You get every channel available on your satellite radio, including commercial-free music, sports, news, talk and entertainment. Plus, listen wherever you go on your portable devices with the SiriusXM app (one-year trial subscription included). Enrich your travel experience. Available.

**SiriusXM<sup>®</sup> Travel Link**<sup>®</sup>: Receive National Weather Service-issued emergency alerts for flooding, winter weather, tornadoes and more. Weather radar provides information on storm direction, speed and track for a range of severe weather conditions. Also, keep up to date with movie listings, fuel prices and favorite sports. Your first five years of SiriusXM Travel Link<sup>®</sup> are included. Available.

**SiriusXM<sup>®</sup> Traffic**<sup>®</sup>: You can avoid congestion before you reach it. Get detailed information on traffic speed, accidents, construction, road closures and more, and you will get to your destination faster and more easily than ever before. Your first five years of SiriusXM Traffic<sup>®</sup> service are included. Available.

---

Here’s what you can do:

**Remain focused on the road with your hands on the wheel, while you communicate, navigate and stay entertained.**

**Listen to music, talk shows and sports with SiriusXM<sup>®</sup> on your radio, you can save your favorite artists, songs and sports teams coverage.**

**Discover new places**

Find the best shopping, dancing, entertainment venues and restaurants.

**Navigate to every adventure**

**Get turn-by-turn directions so you don’t get lost on the way**

**See into the future**

See into the future with national weather and traffic reports, with a five-year trial subscription to SiriusXM<sup>®</sup> Travel Link<sup>®</sup> and SiriusXM Traffic<sup>®</sup>.

**Speak up and be heard**

Receive calls and reply to texts while driving safely with hands-free phone capability (not compatible with iPhone<sup>®</sup>).
WE GO ALL OUT FOR ALL IN. With great humility, FIAT® 500X harbors many hidden talents that will reveal themselves with each trip you take. In particular, the utility of its interior makes the seemingly impossible not only possible—but a heck of a lot more comfortable than you imagined. A large rear cargo area, available height-adjustable rear cargo floor, 60/40 second-row split seats and a fold-forward front-passenger seat accommodate the longer, wider and taller things you once said “forget it” to.

Plus, you can keep all your other stuff stashed and organized thanks to genius storage solutions like a dual glove box with a locking lower portion. A center-console storage area houses a USB port, as well.

PLAY ROOM.
**POP**

The 500X is all about accessibility. With its “go anywhere, anytime” spirit, the 500X Pop will not only reflect popular culture, it will help inspire it. Features a 1.4L MultiAir® Turbo engine with 6-speed manual transmission, air conditioning, cruise control, Uconnect® 3.0 radio with USB and AUX Media Hub, steering wheel-mounted controls, 40/40 rear folding seats and more.

**EASY**

Of all the 500X models, Easy exudes that “sit back, I’ve got this” persona—and no wonder, with the added power and capabilities of its 2.4-liter I-4 TigerShark® MultiAir® engine and 6-speed automatic transmission, the 500X Dynamic Select, Uconnect 5.0 hands-free radio with voice recognition, and premium wrapped steering wheel and shift knob. Also includes passive entry with Keyless Enter ‘n Go™ and remote start.

**LOUNGE**

The name suggests it, but 500X Lounge will soon become your go-to place to unwind from a long day. Why not, when in addition to Easy Features, it offers unique Lounge cloth seats, heated front seats with eight-way power driver seat with four-way power lumbar, Uconnect 6.5n with Navigation, eight speakers, ParkView® Rear Back-Up Camera™ and interior ambient lighting.

**TREKKING**

The brawny good looks of the 500X Trekking will give you the nudge you need to make good on those dreams of adventure. Features rugged-looking cloth seating, unique front and rear “nugget appearance” fascias, automatic headlamps, front cornering fog lamps and unique 17-inch wheels. So, no excuses—get out there! Also includes passive entry with Keyless Enter ‘n Go and remote start.

**TREKKING PLUS**

For adventuresome spirits who in no way subscribe to the “roughing it” lifestyle, Trekking Plus has you covered. It steps things up with leather-trimmed seats, dual-zone automatic temperature-controlled climate system, ParkView® Rear Back-Up Camera, Panoramic Sunroof, eight-way power driver seat with four-way power lumbar, heated steering wheel, Blind Spot Monitoring® and Rear Cross Path Detection®.
