## 2016 FIAT® 500X

CAPABILITY AS ICONIC AS ITS DESIGN.

500X is an all-new crossover that expands on FIAT® functionality, agility and capability, delivering it all in a larger yet decidedly Cinquecento package. Now the confidence of available All-Wheel Drive (AWD) comes to the FIAT 500 family, with an available 2.4L, 180 horsepower Tigershark® MultiAir®2 engine, 9-speed transmission and Euro-tuned suspension.

# I T A L I A N

It should come as no surprise that the FIAT® 500X was designed at Centro Stile in Turin, Italy. The enduring charm of the original 1950s' FIAT® 500 design continues to influence FIAT design today. 500X shares the same brilliant mix of accessibility, simplicity and driver-centric amenities that have all the earmarks of a new modern classic. It encourages personal style with a generous offering of five trim levels and twelve exterior colors. The 500X Street Series includes the Pop, Easy and Lounge models; the 500X Trekking/Trekking Plus models feature a more rugged look.

#### CINQUECENTO CROSSES OVER

Housed at the FIAT® Centro Storico in Turin, Italy, the original Dante Giacosa-designed wooden master model for the 1957 FIAT® 500 (shown above) serves as inspiration for today's 500X designers. With design cues that capture the charm and charisma of that very first "Nuova" Cinquecento, the 2016 FIAT 500X boldly enters the Crossover segment with the FIAT spirit of innovation and functionality. Building on the signature "whiskers and logo" persona, designers and engineers added more space, utility and ground clearance. The interiors comfortably seat five while retaining classic elements like a smooth silhouette, 360-degree character lines, body-color instrument panels, circular three-button cluster and chrome door handles.

**FIAT® GLOBAL ARCHITECTURE**

At the center of a major commitment to manufacturing reinvestment is the FIAT® 500X, crafted in the newly updated assembly plant in Melfi, Italy. Outfitted with the Small Wide platform (one of three principal FCA architectures) and adhering to World Class Manufacturing (WCM) standards, Melfi is one of the most advanced vehicle assembly plants in the world. The vehicle platforms designed for Melfi allow for compliance with regulatory standards outside Italy, making for export-ready cars—no need for further modification. The FIAT 500X exemplifies the company's widening global reach—it will be available for sale in more than 100 countries worldwide.

**ROOM WITH A VIEW**

Leveraging eye-catching, classic FIAT® exterior cues in the larger and more capable 500X, designers wanted to make the most of the surrounding views, as well. They thoughtfully added an available dual-pane sunroof with a sliding panoramic panel. Its glass panels match seamlessly with the body sheet metal, creating a wide, spacious feeling. Light is easily managed with a manual sunshade.

---

**THE FIRST**  
ALL-WHEEL-DRIVE  
SYSTEM IN  
FIAT® 500 HISTORY.

A first for the FIAT® 500 portfolio of offerings: an advanced All-Wheel-Drive (AWD) system. Available on most 500X models, AWD adds peace of mind on any drive.

With the FIAT® 500X Trekking Plus, you can take full advantage of new capabilities and offerings available. Athletic front and rear cladding and 18-inch wheels signal the kind of performance 180 horsepower and a cutting-edge, nine-speed automatic transmission can produce. This fully electronic transmission features on-the-fly shift-map changing, along with a unique set of four overdrive ratios that improve highway fuel efficiency and reduce overall noise, vibration and harshness levels. Plus, the FIAT Dynamic Selector puts three customized driving modes at your fingertips. All told, you're in for a responsive, smooth and fuel-efficient drive.

#### 1.4-LITER MULTIAIR® TURBO ENGINE

The FIAT® 500X offers two extraordinary engine options, starting with the 1.4-liter MultiAir Turbo four-cylinder that comes standard on Pop models. Paired with a six-speed manual transmission, this powerplant generates 160 horsepower and 184 lb-ft of torque—giving Pop a snappy performance true to its name.

+ THE FIAT® 500X NINE-SPEED TRANSMISSION TRULY SETS THIS CROSOVER APART

+ MORE THAN 20 INDIVIDUAL SHIFT MAPS FOR SPECIFIC CONDITIONS OPTIMIZE SHIFT QUALITY

+ FOUR OVERDRIVE RATIOS REDUCE FUEL CONSUMPTION, NOISE, VIBRATION AND HARSHNESS

+ A FULLY ELECTRONIC AUTOMATIC TRANSMISSION, IT OFFERS CUSTOMIZED DRIVING MODES VIA THE FIAT DYNAMIC SELECTOR

+ TEMPERATURE, SPEED AND ELECTRONIC STABILITY CONTROL (ESC)\* ACTIVATION ARE MONITORED FOR A MORE REFINED DRIVE

#### 2.4-LITER TIGERSHARK® MULTIAIR®2 ENGINE

The latest offering with innovative MultiAir technology, the 2.4-liter Tigershark I-4 engine with MultiAir2 utilizes electro-hydraulic Variable Valve Timing and variable valve lift technology, producing 180 horsepower and 175 lb-ft of torque. This extremely sophisticated technology has been widely praised as breakthrough for its segment. Pairing the Tigershark with a nine-speed transmission creates a dynamic duo that optimizes engine output, so you can look forward to fast, assertive launches and smooth, power-when-you-need-it delivery on the highway.

**HIT** THE SLOPES.

**DISCONNECTING REAR AXLE**

The disconnecting rear axle helps make the FIAT® 500X stand out as a very adaptable, fuel-efficient, AWD-capable crossover. With its ability to automatically switch from FWD to AWD and back, it provides a no-brainer boost to fuel efficiency, as well as automatic traction.

S T A T E - O F - T H E - A R T

C A P A B I L I T Y — F I A T® 5 0 0 X

Capability. It's a word that incorporates several desirables that we tend to look for in vehicles—power, agility and, yes, intelligence. FIAT® 500X, with its mix of output, efficiencies and technological prowess, manages to check all the boxes that go with the word. Advanced monitoring, in effect, allows the 500X to “use its head” when encountering changing terrains or conditions—backed up, of course, by some requisite brawn. The 500X offers advanced traction options, all with one goal in mind: a better drive.

FIAT® 500X is the first in the 500 family to offer the confidence of All-Wheel Drive (AWD), and this new generation drive system brings new functionality and improvements over conventional AWD systems. It features a disconnecting rear axle that helps to improve fuel efficiency by automatically selecting Front-Wheel Drive (FWD) or AWD when necessary. It completely removes power to the rear axle when FWD performance is adequate during regular conditions.

F W D

**FWD/AWD TRACTION+**

Activated by selecting the Traction+ mode on the FIAT Dynamic Selector, this system uses Electronic Stability Control (ESC), braking system management and engine response optimization to enhance driving when conditions are such that a driving wheel isn't tracking—such as rain-soaked or snowy roads. Basically, Traction+ gives the wheel with better grip more to go on: when there's little or no grip on one wheel, the control unit brakes the spinning wheel, enabling the transfer of torque to the gripping wheels, allowing the vehicle to gain traction.

A W D

**AWD SYSTEM**

The available, technologically advanced FIAT 500X AWD system works through a variable wet clutch located in the rear drive module. This clutch knows and supplies the right amount of torque for whatever the weather, roads or driver throws at it, be it slippery conditions or an aggressive launch. The system requires no input from the driver—all actions (including AWD activation) are intelligently, seamlessly engaged based on conditions and drive style. And while the system boasts leading traction management advances, it also works to improve dynamic handling.

**AWD-EQUIPPED VEHICLES:**

1 APPROACH ANGLE:	21.0°
2 BREAKOVER ANGLE:	18.6°
3 DEPARTURE ANGLE:	24.1°
4 GROUND CLEARANCE:	7.05"

**X** ON WHEELS.

FIAT® DYNAMIC SELECTOR

#### **NORMAL MODE**

Variety is the spice of life, and knowing you're ready for driving's ever-changing conditions makes getting behind the wheel that much sweeter. The FIAT® Dynamic Selector helps you make the most of the road ahead with three customized modes for optimal performance. The basic Auto mode is designed for the everyday, routine stuff—it will smooth things out to help optimize fuel efficiency, emissions and comfort.

#### **SPORT MODE**

For those who'd prefer a little more road-feel, a little more control, the FIAT Dynamic Selector has your number. In Sport mode, the Electronic Stability Control<sup>1</sup> and steering calibrations are tuned for a sportier feel and faster driving response. Additionally, the 500X Sport mode optimizes the transmission shift points for improved performance and acceleration feel in both FWD and AWD.

#### **TRACTION+ MODE**

Driving outside the lines? The Traction+ mode maximizes low-speed traction—the kind you need when things get a little slick or bumpy. It all works by providing additional wheel-slip through specially tuned chassis controls and a more direct engine response. After all, true adventure is equal parts of getting in to and out of things.

ALL AVAILABLE

## AN INTERIOR UNLIKE ANY OTHER

The aim was to create an environment, not merely an interior. Our designers are acutely attuned to tactile, visual and aural responses—even the smallest detail can generate days of deliberation. The result is a domain that's at once excitingly new, yet somehow assuredly familiar—thanks, in part, to design cues that point to its Cinquecento lineage.

**GEOMETRY IN REAL LIFE**

Every design discipline mixes form and function, but design longevity requires a certain X-factor—design that not only serves a purpose but creates some chemistry, as well. We see it in the lasting appeal of modern furniture design that utilizes simple, clean lines and geometric shapes. And, of course, we see it in FIAT® design. The designers started with a goal that many carmakers leave only to the engineers: to create a car that moves people. FIAT 500X encourages personal style with a generous offering of seven different interior environments featuring distinctive color and material choices in cloth, premium cloth and premium leather seating surfaces.

**F O R M**

**F U N C T I O N**

**THIS RIDE WAS MEANT TO BE SHARED.**

Designers included ample room for five, with an array of comfortable seating choices and materials, including available premium leather trim, standard on the Trekking Plus model. Engineers delivered superior torsional rigidity and Noise, Vibration and Harshness (NVH) applications that also contribute to the exceptionally quiet FIAT® 500X cabin. Available heated front seats with power driver 8-way and 4-way adjustable lumbar and heated steering wheel make every day a really good day. Uconnect® systems feature an available 5- or 6.5-inch touchscreen and available user-friendly navigation. The standard Media Hub lets you plug into USB and auxiliary ports ready for your devices.

Silence may be the goal of the quality interior design found in the FIAT® 500X. But when all that quiet becomes deafening, you can remedy that. Turn to the superior sounds generated by the available BeatsAudio™ Premium Sound System by Dr. Dre. Get studio-quality sound, just the way the artist intended. Features eight-channel performance with 506 watts of power, eight speakers and a 6.5-inch subwoofer specifically tuned for the 500X.

TRIP ASSURANCE INCLUDED.

SAFETY  
AND SECURITY

**PARKSENSE® REAR PARK ASSIST SYSTEM<sup>2</sup>**

This system utilizes ultrasonic sensors at low speeds in Reverse to detect stationary objects.

**PARKVIEW® REAR BACK-UP CAMERA<sup>2</sup>**

This camera provides a wide-angle view of the area immediately behind the vehicle, giving the driver greater peace of mind before moving backwards at low speeds. Contains dynamic grids to aid the driver. Image is displayed on a color touchscreen when the vehicle is in Reverse.

**BLIND SPOT MONITORING<sup>3</sup>  
AND REAR CROSS-PATH DETECTION<sup>2</sup>**

Blind Spot Monitoring (BSM)<sup>3</sup> uses dual ultra-wideband radar sensors to aid the driver when changing lanes, and warns of oncoming vehicles in the blind spot via an illuminated sideview mirror icon. Rear Cross-Path Detection (RCP)<sup>2</sup> is activated any time the vehicle is in Reverse—it lets the driver know vehicles are crossing behind with illuminated icons on the sideview mirror, as well as an audible chime.

**LANESENSE® LANE DEPARTURE  
WARNING-PLUS<sup>4</sup>**

LaneSense Lane Departure Warning-Plus (LDWP)<sup>4</sup> taps on electronic power steering (EPS) to deliver a torque input that reminds and assists the driver to stay the course.

**FORWARD COLLISION WARNING-PLUS<sup>5</sup>**

Forward Collision Warning-Plus (FCWP)<sup>5</sup> detects too-fast-approaching vehicles or obstacles, deploys brakes to alert the driver about impact risk, then assists with driver response to help mitigate a collision.

**360°**  
AVAILABLE PROTECTION

A L W A Y S

DEDICATION TO SAFETY AND SECURITY BEGINS AT ITS VERY CORE.

**SEVEN STANDARD AIR BAGS\***

Your sense of security is fully met with the FIAT® 500X comprehensive air bag<sup>6</sup> system. Full-length front and rear side-curtain<sup>6</sup>, driver inflatable knee bolster<sup>6</sup>, seat-mounted side<sup>6</sup> for front occupants, and advanced multistage driver and front-passenger air bags<sup>6</sup> all work together to help provide encompassing protection. Standard.

**ELECTRONIC STABILITY CONTROL (ESC)<sup>1</sup>**

A vehicle-wide network of safety sensors provide instant aid should they detect you're veering off your intended path. ESC<sup>1</sup> coordinates Electronic Roll Mitigation (ERM), Hill Start Assist (HSA), antilock brake system (ABS), Brake Assist and All-Speed Traction Control, sending them into action when needed. Standard.

**UCONNECT® VOICE COMMAND<sup>7</sup>**

Allows driver to control audio, take or make phone calls, and request detailed navigation information, as well as the ability to safely reply to or listen to a text message and more — while keeping both hands on the wheel. Works with Bluetooth® compatible smartphones (not compatible with iPhone®). Available.

**CHASSIS STRENGTH**

The FIAT® 500X delivers exceptional peace of mind with a hero's heart—a strong unbody structure is constructed with nearly 70 percent high-strength steel. Standard.

**ELECTRONIC ROLL MITIGATION (ERM)**

As an extension of ESC,<sup>1</sup> ERM employs ESC<sup>1</sup> sensors to anticipate potential risk situations. If things get rough, ERM takes immediate action to help you maintain stability and remain under control. Standard.

**ALL-SPEED TRACTION CONTROL SYSTEM (TCS)**

Part of the standard ESC,<sup>1</sup> TCS helps keep driving wheels from spinning during acceleration from a stop and at all speeds by applying individual brakes alone or in combination with engine torque limitation to prevent wheel-slip.

**ANTILOCK BRAKE SYSTEM (ABS)**

Senses and prevents wheel lockup, offering improved steering control under extreme braking and/or slippery conditions.

O N G U A R D

**STAY CONNECTED** With Uconnect®, your FIAT® 500X becomes more than just a mode of transportation—it's your portal to the world. Large available 5- or 6.5-inch screens and hands-free<sup>7</sup> technologies deliver essential information and entertainment while keeping you focused on driving. The systems offer a wide range of services: radio, phone, messaging, navigation and more. Listen to and/or charge media players, iPods®, iPhones® and smartphones. The Uconnect 3.0 4-Line Full-LCD radio is the entry-level Uconnect radio that provides full support for digital music with USB and auxiliary connections. All systems also show music information and browsing functions.

**FRONT AND CENTER** Instantly access a whole range of useful information from an available 3.5-inch full-color Electronic Vehicle Information Center (EVIC) comprised of a Thin Film Transistor (TFT) display on your instrument cluster. From safety alerts to fuel usage to FIAT® Dynamic Selector data, the FIAT 500X reconfigurable display lets you customize what you see.

**HERE'S WHAT YOU CAN DO:**

**REMAIN FOCUSED ON THE ROAD WITH YOUR HANDS ON THE WHEEL, WHILE YOU COMMUNICATE, NAVIGATE AND STAY ENTERTAINED.**

This group of available Uconnect® features and services represents the next generation of in-vehicle connectivity.

**VOICE TEXT REPLY\*** Powerful voice text reply® on compatible Bluetooth® phones lets the driver hear a text read. Hands stay on the wheel, eyes stay on the road and the driver stays safely connected. Not compatible with iPhone®. Available.

**INTEGRATED 3D NAVIGATION** Available on the 6.5N touchscreen, this full-feature navigation includes 3D city and landmark imaging, digital terrain maps, enhanced screen graphics and one-step voice destination entry.

**SIRIUSXM® SATELLITE RADIO\*** You get every channel available on your satellite radio, including commercial-free music, sports, news, talk and entertainment. Plus, listen wherever you go on your portable devices with the SiriusXM app (one-year trial subscription included). Enrich your travel experience. Available.

**SIRIUSXM TRAVEL LINK®** Receive National Weather Service-issued emergency alerts for flooding, winter weather, tornadoes and more. Weather radar provides information on storm direction, speed and track for a range of severe weather conditions. Also, keep up to date with movie listings, fuel prices and favorite sports. Your first five years of SiriusXM Travel Link® are included. Available.

**SIRIUSXM TRAFFIC\*** You can avoid congestion before you reach it. Get detailed information on traffic speed, accidents, construction, road closures and more, and you will get to your destination faster and more easily than ever before. Your first five years of SiriusXM Traffic® service are included. Available.

**LISTEN TO MUSIC, TALK SHOWS AND SPORTS**

WITH SIRIUSXM®  
ON YOUR RADIO, YOU CAN SAVE YOUR FAVORITE ARTISTS, SONGS AND SPORTS TEAMS COVERAGE

**DISCOVER NEW PLACES**

FIND THE BEST SHOPPING, DANCING, ENTERTAINMENT VENUES AND RESTAURANTS

**SPEAK UP AND BE HEARD**

**NAVIGATE TO EVERY ADVENTURE**

GET TURN-BY-TURN DIRECTIONS SO YOU DON'T GET LOST ON THE WAY (UNLESS YOU WANT TO)

**SEE INTO THE FUTURE**

HEAR WEATHER AND TRAFFIC REPORTS WITH A FIVE-YEAR TRIAL SUBSCRIPTION TO SIRIUSXM TRAVEL LINK® AND SIRIUSXM TRAFFIC\*

## PLAY ROOM.

**WE GO ALL OUT FOR ALL IN** With great humility, FIAT® 500X harbors many hidden talents that will reveal themselves with each trip you take. In particular, the utility of its interior makes the seemingly impossible not only possible—but a heck of a lot more comfortable than you imagined. A large rear cargo area, available height-adjustable rear cargo floor, 60/40 second-row split seats and a fold-forward front-passenger seat accommodate the longer, wider and taller things you once said “forget it” to.

Plus, you can keep all your other stuff stashed and organized thanks to genius storage solutions like a dual glove box with a locking lower portion. A center-console storage area houses a USB port, as well.

**FIAT® 500X TRIM LEVELS/WHEELS**

STREET SERIES

**POP**

This 500X is all about accessibility. With its “go anywhere, anytime” spirit, the 500X Pop will not only reflect popular culture, it will help inspire it. Features a 1.4L MultiAir® Turbo engine with 6-speed manual transmission, air conditioning, cruise control, Uconnect® 3.0 radio with USB and AUX Media Hub, steering wheel-mounted controls, 60/40 rear folding seats and more.

16" Silver Gray Painted Cover with Chrome Center Cap

**EASY**

Of all the 500X models, Easy exudes that “sit back, I’ve got this” persona—and no wonder, with the added power and capabilities of its 2.4-liter I-4 Tigershark® MultiAir®2 engine and 9-speed automatic transmission, the FIAT® Dynamic Selector, Uconnect 5.0 hands-free<sup>7</sup> radio with voice recognition, and premium wrapped steering wheel and shift knob. Also includes passive entry with Keyless Enter ‘n Go™ and remote start.

17" Matte Gray Painted Aluminum with Chrome Center Cap

OPTIONAL  
17" Machined Aluminum with Matte Black Painted Pockets and Gloss Black Center Cap

**LOUNGE**

The name suggests it, but 500X Lounge will soon become your go-to place to unwind from a long day. Why not, when, in addition to Easy features, it offers unique Lounge cloth seats, heated front seats with eight-way power driver seat with four-way power lumbar, Uconnect 6.5N with Navigation, eight speakers, ParkView® Rear Back-Up Camera<sup>2</sup> and interior ambient lighting.

17" Matte Gray Painted Aluminum with Chrome Center Cap

OPTIONAL  
18" Fine-grained Gray Painted Aluminum with Chrome Center Cap

TREKKING SERIES

**TREKKING**

The brawny good looks of the 500X Trekking will give you the nudge you need to make good on those dreams of adventure. Features rugged-looking cloth seating, unique front and rear “rugged appearance” fascias, automatic headlamps, front cornering fog lamps and unique 17-inch wheels. So, no excuses—get out there! Also includes passive entry with Keyless Enter ‘n Go and remote start.

17" Machined Aluminum with Matte Chrome Painted Pockets and Gloss Black Center

OPTIONAL  
18" Machined Aluminum with Matte Chrome Painted Shadow Effect and Gloss Black Center

**TREKKING PLUS**

For adventuresome spirits who in no way subscribe to the “roughing it” lifestyle, Trekking Plus has you covered. It steps things up with leather-trimmed seats, Dual-Zone automatic temperature-controlled climate system, ParkView Rear Back-Up Camera<sup>2</sup>, ParkSense® Rear Park Assist<sup>2</sup>, eight-way power driver seat with four-way power lumbar, heated steering wheel, Blind Spot Monitoring<sup>3</sup> and Rear Cross-Path Detection<sup>2</sup>.

Thank you for following.

 **4-YEAR/50,000-MILE LIMITED WARRANTY**

(1) No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. (2) Always look before proceeding, electronic drive aid is not a substitute for conscientious driving. Always be aware of your surroundings. (3) Always check visually for vehicles prior to changing lanes. (4) LDW is a driver convenience system, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use brakes to avoid collisions. (5) FCW system is solely an alert system for the front of the vehicle which does not take any actions to change vehicle dynamics to avoid a collision, not a substitute for active driver involvement. The driver must remain aware of traffic conditions and be prepared to use brakes to avoid collisions. (6) The Advanced Front Air Bags in this vehicle are certified to the new U.S. Federal regulations for Advanced Air Bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. (7) Requires a mobile phone equipped with the Bluetooth Hands-Free Profile. Visit [UconnectPhone.com](http://UconnectPhone.com) for system and device compatibility. (8) Voice Text Reply and Voice Texting features require a compatible mobile device enabled with Bluetooth Message Access Profile (MAP). iPhone and some other smartphones do not currently support Bluetooth MAP. Visit [UconnectPhone.com](http://UconnectPhone.com) for system and device compatibility. Ensure MAP is ON and incoming message notification is enabled. Vehicle must be registered for Uconnect Access and you must fulfill minimum subscription requirements. Also requires the use of a compatible smartphone that supports text messaging and Bluetooth. Check [UconnectPhone.com](http://UconnectPhone.com) for device compatibility. (9) SiriusXM audio and data services each require a subscription after the trial included with the new vehicle purchase, sold separately or as a package, by SiriusXM Radio Inc. If you decide to continue service after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel, you must call SiriusXM at 1-866-635-2349. See SiriusXM Customer Agreement for complete terms at [siriusxm.com](http://siriusxm.com). All fees and programming subject to change. (10) The SiriusXM Travel Link data displays and individual product availability vary by vehicle hardware. Not all vehicles or devices are capable of receiving all Travel Link services offered by SiriusXM; Weather Forecast, Current Conditions may not be available in all locations and features of individual systems will vary. Images shown are for representative purposes only and are not real products. For actual features and images of real products, consult the vehicle manufacturer. SiriusXM is not responsible for any errors or inaccuracies in the SiriusXM Travel Link services or their use. Our satellite service is available only to those at least 18 and older in the 48 contiguous U.S.A. and DC. Our Sirius satellite service is also available in PR (with coverage limitations). Our Internet radio service is available throughout our satellite service area and in AK and HI. (11) Be sure to follow all instructions in Owner's Manual. (12) Always sit properly with the head restraint properly adjusted. Never place anything in front of the head restraint.
