Design that connects
Classic contours are modernized with bi-function halogen projector headlamps and distinctive taillamps.

The power of a turbo engine is combined with the responsiveness of the Sport mode feature — both now standard on every FIAT 500.
That turbo spin
FIAT® 500 Lounge

That Saturday feeling 24/7
Go dark with a stylish collection of FIAT® 500 Urbana-specific accents: Black-trimmed headlamps, fog lamps, turn signals and taillamps • Side sills ground effects • 16-inch aluminum Black Noise wheels* • Black Sport cloth seats with Silver accent stitching • Black instrument-panel bezel • Hatchback and Cabrio Pop models • Pompei Silver, Granito Gray, Perla White Tri-Coat and Bianco White Ice paint options

*Late availability on Black Noise wheel finish.
Special Edition
FIAT® 500 1957 Retro Edition

The FIAT® 500 1957 Retro Edition offers features that have made FIAT 500 a cult favorite:
- Retro FIAT badging
- 16-inch aluminum Retro wheels with choice of painted finishes
- Bianco White Ice exterior mirrors and roof
- Retro Avorio interior accents
- Retro Marrone leather-faced seats with Avorio headrests
- Color-coordinated leather-wrapped steering wheel and shift boot
- Black soft top on Retro Edition Cabrio models
While the FIAT® 500 Cabrio makes the most of the great outdoors by providing spectacular vistas, it also focuses inward to include driver and passenger amenities, making any trip special. An innovative three-position power-folding retractable soft top opens on the fly — even at speeds up to 60 mph. Its preset positions offer a range of stopping points, from slightly open to fully dropped. This dual-layer cloth top is available in a choice of three colors, improving views from both inside and out.

SOFT TOP COLORS: BORDEAUX, BEIGE* NERO
FIAT® 500 is a vehicle that delivers a ride that matches the happy persona it projects: beyond its unique color palette and expressive grille, engineers have equipped the 500 with turbo power and advanced handling systems that combine to make riders say, “I hope we’re not there yet!”

Heading down the highway doesn’t have to mean going with the flow, thanks to FIAT 500. With a minimalist Italian-design philosophy that packs loads of personality per square inch, 500 has always encouraged drivers to take an alternative route.

Look for an aggressive lower front and rear fascia design, front fog lamps, Sport spoiler, performance brakes, sport-tuned suspension, rear back-up camera and more — on every model.

Torque Transfer Control (TTC) is a dynamic feature that keeps all that power in check by transferring it to the drive wheels for improved at-the-limit handling.

The FIAT® 500 framework melds to any road, shrugging off resistance as it harnesses the engine’s turbo power.
Now the entire FIAT® 500 lineup features, as standard, the innovative 1.4L 16V MultiAir® Turbo engine.

For FIAT 500 Pop, Lounge, Urbana and Retro editions, this eyebrow-raiser produces 135 horsepower, 150 lb-ft of torque and heart-stopping bursts of acceleration — all while delivering up to 28 city/33 highway mpg.\(^5\)
Designers captured today what’s long made FIAT® 500 so iconic — it’s a minimalist philosophy that has everything to do with freedom and mobility. It means looking forward to pleasing features and intelligent details, every trip.
Uconnect® is an advanced multimedia system that provides essential links to keep up with the changing-by-the-minute day — right from the seat of the FIAT® 500.

The Integrated Voice Command and Bluetooth® streaming audio allow drivers to take calls, control music, hear text messages and more — all with hands firmly on the wheel.

The standard Uconnect® 3 has a 5-inch touchscreen display, AM/FM radio and Integrated Voice Command with Bluetooth® for streaming audio.

The available SiriusXM® Radio offers music, talk, weather, sports and local traffic stations with a 1-year trial subscription.

The available BeatsAudio™ Premium Sound System features 7 speakers, including an 8-inch subwoofer and an 8-channel, 368-watt amplifier with BeatsAudio Digital Sound Processing.
Stress-free zones
SAFETY AND SECURITY

Electronic Stability Control (ESC)³
This feature assists the driver in maintaining control of the vehicle during extreme steering maneuvers. Standard. 3-mode ESC³ standard on Abarth® models.

ParkSense® Rear Park Assist System⁴
When the vehicle is in Reverse, this system uses sensors to provide audible and visual warnings to help detect nearby objects in the rear pathway. Assists with maneuvering in tight spaces at parking speeds. Available.

7 Standard Air Bags²
Front-seat-mounted side, front and rear side, driver knee and advanced multistage front air bags² all work together, providing protection.

Hill Start Assist
Maintains brake pressure when the driver lifts the foot off the brake during uphill stop/start moments, helping to prevent rollback and smoothing out starts. Standard.

High-strength Steel
The innovative safety-cage body structure is constructed with high-strength steel. It is designed to transfer energy absorbed during impacts to help reduce the chance of injury. Standard.

ParkView® Rear Back-Up Camera⁴
Activated when the vehicle is shifted into Reverse, this camera displays a wide-angle view of the area and obstacles behind your vehicle on your Uconnect® touchscreen — with grid lines to interpret distance while backing in to tight spaces. Standard.

Bi-function Halogen Projector Headlamps
Provide more controlled illumination for increased visibility. Standard.

Front-seat Reactive Head Restraints⁷
In the event of a rear collision, these restraints activate to help reduce injuries by minimizing the gap between the driver and front-passenger head restraint⁷ and the occupant’s head. Standard on FIAT® 500/500c/500e models.

Tire Pressure Monitoring System
Gives crucial, pinpointed information on the Electronic Vehicle Information Center (EVIC) at the moment any tire pressure falls below safe driving criteria. Standard.

Remote Keyless Entry
Affords easy access by remotely locking and unlocking doors and turning on interior lamps. For vehicles equipped with the optional security alarm⁸ this device also arms and disarms that system. Standard.

Audible Pedestrian Warning System
Uses distinctive sounds to alert passersby of the presence of this extremely quiet electric vehicle (FIAT 500e only).
FIAT® 500 Abarth® shown in Vesuvio Black Pearl with Red stripe and mirror caps.

¹ Available with SiriusXM® Radio Activation

² Stated for dual air bag system. Actual number of air bags depend on model year, trim level, equipment and options.

³ Electronic Stability Control is designed to help prevent unintentional slide of the vehicle. It is not a replacement for safe driving techniques. FIAT recommends drivers avoid excessive speed in questionable road conditions.

⁴ Not available on FIAT 500 Pop. Only available for vehicles with 5-speed manual transmission.
Born from the vision of Karl Abarth, the latest FIAT® 500 Abarth brings its own brand of outstanding performance. With the track-tested 1.4L 16V MultiAir® Turbo engine and standard 5-speed manual transmission, it kicks out 160 horsepower and 170 lb-ft of torque. The available heavy-duty 6-speed automatic transmission allows driver-interactive manual shift control, helping to produce 157 horsepower and 183 lb-ft of torque.

Sport Mode, standard on FIAT 500 models, takes performance to another level with more precise steering and sharpened shift points. Abarth also boasts 3-mode Electronic Stability Control (ESC) for advanced control.
The inner Abarth®

A performance-designed cockpit features high-back bucket seats with a racing harness pass-through and firm side bolsters. A three-spoke perforated leather-wrapped steering wheel with a race-style flattened bottom proves that FIAT® 500 Abarth is intended for track and street.

- ParkView® Rear Back-Up Camera
- Tire Pressure Monitoring System with individual tire read-outs
- Audible Pedestrian Warning System
- Security alarm
- Power sunroof — Available
The FIAT® 500e shakes up the electric vehicle market by infusing an integrated approach to electric propulsion into the beloved FIAT Italian-design tradition of fun, city-friendly cars. A Power Inverter Module (PIM) provides a quick accelerator pedal response every time.

Expect 121 MPGe city and 103 MPGe highway;19 with a combined driving range of 84 miles.10 It’s made possible by the innovative 24-kWh lithium-ion battery that utilizes a Battery-Electric Drive System. Charge time is less than 4 hours with the installation of an available Level 2 charger (240-volt).12 A regular home outlet of 120 volts charges 500e with the included Level 1 charger in less than 24 hours.

The 7-inch Thin Film Transistor (TFT) instrument panel and integrated Electronic Vehicle Information Center (EVIC) keep the driver briefed on estimated charging times, average speeds, energy consumption and more.

Green gusto

The charge indicator light near the instrument panel shows the vehicle’s state of charge.
