It was their first date, and they were both a little nervous. John was late because he got the directions wrong. Linda was even later because she kept running to the window when she should have been getting ready. In the car, the small talk was tentative. John laughed. “At 58,” he said, “you’d think I’d be better at this.”

“I don’t think it ever gets easy,” Linda said. But the dinner was great and the movie was good. John asked about Saturday. “Provided I can get the car,” he winked.
Crown Victoria

A smooth ride that's relaxing and rewarding. Expansive roominess and comfortable seating for six. Responsive V8 power and rear-wheel-drive performance. These are the full-size advantages for which Crown Victoria is famous. It stands, in a world of "designer" this and "exclusive" that, as an affordable alternative to pricier luxury automobiles. And now it includes standard anti-lock brakes. Crown Victoria is a true American tradition with style and technology for today's driving.
Crown Victoria LX

The LX Series adds appearance, comfort and convenience amenities to Crown Victoria's superior driving experience.

Seats are upholstered in luxury cloth, and there's a six-way power adjustment along with a lumbar support for the driver.

The standard Remote Keyless Entry system provides additional security, and the Light/Decor Group has illuminated visor mirrors. Outside, chrome cross-spoke locking wheel covers and dual bodyside paint stripes create a distinctive LX look.

Crown Victoria LX shown in Deep Wedgewood Blue Clearcoat Metallic with optional Comfort Group.

The Remote Keyless Entry system, standard with LX, is optional with the standard Crown Victoria. It lets you lock and unlock your car from a distance for extra peace of mind. Two transmitters with panic button feature are included.

An automatic dimming rearview mirror, which includes a Homelink is part of the optional LX Comfort Group.
Somewhere after forty, Peter hit his mid-life crisis. All he could think about was a little red sports car. Mary knew there was no reasoning with him. So when he pulled up the drive in a new Crown Vic, she was mystified. Peter explained that all those sports cars didn’t have enough room for his clubs. And besides, their legs were gonna need all the room and comfort they could get. “Why?” puzzled Mary. Peter just smiled. “I signed us up for tango lessons.”
safety & durability

Today, automotive design must satisfy many more demands than it did even just a few years ago. Styling is important, of course, but considerations like safety and durability continue to grow in importance as customers weigh their purchase decisions ever more carefully.

Like all Ford vehicles, Crown Victoria has been designed to protect its occupants and to provide years of dependable service to its owners.
safety

Crown Victoria is the only large car to receive the government’s Five Star front crash test rating.* That’s a testament to a full safety design which includes Second Generation Depowered airbags** and side door intrusion beams.

The available electronic traction control system, working with the standard ABS, detects slippage and automatically improves traction at all speeds. Crown Victoria’s confident handling is also, in itself, an important accident avoidance tool.
durability & performance

Since 1970, Ford Crown Victoria has faithfully logged billions of miles on America's highways. The heart of this veteran performer is its 4.6-liter single-overhead-cam V8 engine, an advanced powerplant that features an excellent balance of power and fuel efficiency.*

The suspension system, including an innovative Watt's linkage rear setup, combines a traditional large-car smooth ride with surprisingly agile handling characteristics.

*EPA mileage estimate unavailable at this time. See your Ford Dealer for latest information.

Smoothness of ride in a full-size car is expected. But what is likely to come as a surprise is the suspensiveness of Crown Victoria's handling. Add the available Performance and Handling Package (see pages 16-17) and get the ultimate in Crown Victoria power and prowess.

The optional electronic traction control system is linked to the standard anti-lock brakes and detects wheel slippage, increasing traction throughout the full range of vehicle speeds.

The 4.6-liter V8 is designed to go 160,000 miles between scheduled tune-ups under normal driving conditions with routine fluid and filter changes.

Crown Victoria features a fail-safe cooling system that allows the vehicle to be driven a short distance under reduced power despite the loss of coolant.

With its V8 power and strong body-on-frame construction, Crown Victoria can tow up to 2,000 pounds provided that the Gross Combined

The smooth V8 power is transmitted by way of an electronic 4-speed automatic overdrive.
While rumble seats, vinyl roofs and push-button transmissions are only memories, **true full-size comfort** never entirely went away. Thankfully, it’s alive and well in Crown Victoria, with its stretch-out **room for six** adults and a host of comfort and convenience features designed to make any trip more pleasurable. They include **power windows** and locks as well as items like speed control and a tilt steering wheel. And solar tinted glass helps the air conditioner keep things **cool and pleasant**.

- Speciﬁcations
  - DriveTrain: rear-wheel drive
  - Engine: 4.6-liter V8 with fail-safe cooling system
  - Induction system: sequential electronic fuel injection and EEC-V computer
  - Tune-up interval: 100,000 miles (under normal driving conditions with routine fluid and filter changes)
  - Transmission: electronic 4-speed automatic overdrive
  - Fuel capacity: 19 gallons
  - Horsepower, SAE net: 200 @ 4,250 rpm; 215 @ 4,500 with dual exhaust
  - Torque, SAE net: 275 @ 3,000 rpm; 285 @ 3,000 with dual exhaust
  - Dual exhaust: 215 hp
  - Battery: 72 amp maintenance-free
  - Alternator: 130-amp

Body construction: body-on-frame

Front suspension: short/long arm (SLA) with stabilizer bar

Rear suspension: Watts linkage design with stabilizer bar

Steering: power speed-sensitive, variable assist

Brakes: power 4-wheel disc anti-lock brake system (standard)

Tires: P225/60SR16 black sidewall (standard); white sidewall (optional)

S=Standard, O=Optional, G=Group Only, —=Not Available

A Response to the Need for a Cleaner Environment: All Ford's vehicles are manufactured with a concern for environmental impact. An environmentally responsible natural-gas powered Crown Victoria is also available. See your Ford Dealer for details.

Product Change and Options Availability: Following publication of the chart, certain changes in standard equipment, options, prices and line list may be made without notice. Vehicles are subject to availability. For more information, please contact your Ford Dealer for additional options and requirements.

Readicide Assistance: Every Ford vehicle includes the assurance of a 24-hour emergency roadside assistance program (base warranty) with the vehicle purchase. Details of the program and its operation are available at your dealership or your Ford Dealer for additional information. Ford Division reserves the right to change policy specifications at any time without notice. Ford's Customer Service and Technical Service Operations will be available at no charge to answer any questions about this program or the vehicle you have purchased.

Room For The Cure: As part of our ongoing commitment to breast cancer research and public awareness, Ford Division is proud to continue its support of the Susan B. Komen Foundation's Room For The Cure.

Privacy Policy: Ford Division's Privacy Policy is available at the website address posted in any Ford Division document. For important information about your privacy rights, please read the Privacy Policy.
