2008 E-Series SUPERHEROES

DYNAMIC STRENGTH, VERSATILITY and Built Ford Tough® determination give the new E-Series Cargo Vans, Cutaways and Wagons all the powers they need to help get your jobs done. From moving people and products, to delivering emergency medical care and more, no other line of full-size vans delivers so much flexibility and choice. With every E-Series boasting a GVWR of over 8500 lbs., it’s easier than ever to design vehicles that suit your needs. No wonder businesses, community organizations and families have made these hardworking heroes the best-selling vehicles in their class since 1979.

CONTROL

AdvanceTrac® with RSC® (Roll Stability Control™)²
Re-Engineered Suspension & Steering
NEW Traction Control¹

CONFIDENCE

ALL-NEW Brake Systems
AdvanceTrac with RSC®
NEW E-Guard Cargo Protection System™⁴
5-Year/60,000-Mile Powertrain Limited Warranty + Roadside Assistance³

CAPABILITY

The Only Standard Cargo Van V8 in the Class.
Up to 10,000 lbs. Cutaway Towing.⁵
The Only V10 Gas Option in the Class
Higher GVWRS & Segment-Leading GCWRS’
7- to 15-Passenger Seating

¹Class is Full-Size Vans. ²Remember that even advanced technology cannot overcome the laws of physics. It’s always possible to lose control of a vehicle due to inappropriate driver input for the conditions. AdvanceTrac with RSC is available on E-350 Wagons with the 5.4L Triton V8 only. ³Gas engine applications only. ⁴Available on Commercial Van with 60/40 split side cargo doors. ⁵See dealer for details.

¹When properly equipped. ²Comparison of properly equipped E-150 to 1500 Series Full-Size Vans.
Re-Engineered Suspension & Steering
A revised front suspension system includes redesigned front sway bars to help deliver solid handling. Front and rear shocks are rated to the load range of each model, and tuned to deliver a smooth ride. A new steering gear boost-curve enhances road feel and provides excellent steering feedback to the driver.

NEW Traction Control
This feature is now optional on gas engine applications that do not include Roll Stability Control. The system uses the Anti-lock Brake System and engine torque to monitor vehicle speed and wheel slip. If wheel slip is detected, engine torque is automatically optimized to help maintain traction.

2008 E-Series STRENGTH to Meet Every Challenge

AN IMPROVED CHASSIS DELIVERS MORE TOUGHNESS and more comfort in equal measure. Upgrades to the braking, suspension and steering systems offer improved ride and handling, braking performance and load-carrying capability. Now, E-Series maximum GVWR is a best-in-class 14,500 lbs.¹ and the front GAWR tops out at a class-leading 5000 lbs.¹ These enhancements also contribute to overall reliability and durability. In other words, the Vans, Cutaways, Wagons and Stripped Chassis that Americans rely on more than any others just got even better.

ALL-NEW Brake Systems
Larger front and rear rotors and calipers provide a greater swept area for more stopping power. These robust components and new pad materials lower operating temperature while supporting enhanced capability and durability. Standard on every 2008 E-Series.

¹Properly equipped.
**NEW E-Guard Cargo Protection System**

Features reinforced rear- and side-door locks. This segment-exclusive option is available on Commercial Vans with 60/40 split side cargo doors. To provide the highest level of security, the system is designed to be unlocked only with the vehicle key, even on models with remote keyless entry.

**NEW Securilock Passive Anti-Theft Ignition System**

Is designed to help prevent the engine from being started unless a coded key programmed to your vehicle is used. Optional on single rear wheel models only.

---

**2008 E-Series SECURITY Helps Keep the Bad Guys at Bay**

*WHEN YOUR LIVELIHOOD IS LOCKED UP* in your E-Series, you want to know it’s protected. That’s why new security systems are available for 2008. They include the E-Guard Cargo Protection System™, a class-exclusive, factory-installed double-locking system available for cargo van doors. An optional Securilock® ignition system is designed to immobilize the van without the right key. It’s all part of our never-ending battle to help keep your belongings right where they belong.

**NEW Steel-Reinforced Rear License Plate Housing**

This rugged enhancement also includes a steel lock cylinder flange. It boosts the tamper resistance of the rear door lock cylinder and locking mechanism. Standard on Vans and Wagons.
2008 E-Series VANS
Choices to Conquer New Frontiers

As always, E-Series Vans offer you lots of choices: 4 engine/transmission combinations, the TorqShift® 5-speed automatic with Tow/Haul Mode, gasoline or diesel power, sliding or swing-out side cargo doors, windows all-around or panel sides, no-charge racks and bins packages, and trade-specific upfitter packages. Available cargo space swallows up to 271 cu. ft. The challenges are out there, and E-Series is ready to boldly go where no van has gone before.

GVWRS & Payloads

Having too much capacity can be as costly as having too little, and that can mean the difference between profit and loss. So zero in on the capability that fits your business best. Ford offers you a wide range of GVWRs and payloads to help you get exactly what you need.

E-250 Super Duty® Cutaway
A compact design and efficient 4.6L Triton® V8 offer you another choice in the E-Series Cutaway lineup. With its midship fuel tank location, you benefit from enhanced rear load capacity and added capability of an E-250 configuration.

E-350 Super Duty Cutaways
E-350 is a supremely versatile heavy-duty cutaway, offering 3 powertrain choices. 158” and 176” wheelbase chassis are available with a class-leading 5000-lb. front GAWR, and a GVWR increase to 12,500 lbs.

E-450 Super Duty Cutaways
For 2008, E-450 offers a standard 5.4L Triton V8. You can spec giant payloads, and GCWRs up to 20,000 lbs! allow for outstanding towing capability. A new 5000-lb. front GAWR is standard with an optional 6.8L Triton V10 or 6.0L Power Stroke® V8 Turbo Diesel. An available 37-gal. fuel tank provides more usable rear GAWR.

2008 E-Series CUTAWAYS
Legions of Warriors at the Ready
THE BIGGEST SELECTION OF VAN-BASED CUTAWAYS can be adapted for nearly any duty — from demanding emergency service or a multitude of trades, to getting kids to school. Their serious capacities, rugged capabilities and Built Ford Tough® reputations have made E-Series the sales leader since 1979.

2008 E-Series WAGONS
A Hero’s Welcome

Make way for an abundance of room and comfort. E-Series Wagons have generous space for your crew and all their gear. Air conditioning is standard. Seating includes 7-, 8-, 11-, 12-, or 15-passenger choices, with a center-aisle ship-thru option too. All rear bench seats now have center-position, 3-point, seat-integrated safety belts. A new self-latching system for rear seats makes removal and installation easier than ever. Lots of comfort. Lots of choices. With E-Series Wagons, a grand reception is always part of the bargain.

Get the Show on the Road

An available Rear-Seat DVD Entertainment System\(^1\) features a 10.4” flip-down screen and can play DVD, VCD, SVCD, CD, CD-R/RW and MP3 formats. A game port, unified remote and 2 sets of wireless stereo headphones are included.

New XLT Premium Package

For 2008, E-150 7-passenger Regular Length Wagons are available with the XLT Premium Package. It features 1st- and 2nd-row leather-trimmed captain’s chairs, a standard 6-way power driver seat, remote keyless entry, a leather-wrapped steering wheel, overhead console, and privacy glass. Special exterior appointments include two-tone paint, forged-aluminum wheels and running boards.

2008 E-Series Wagons

Keep It Under Control

AdvanceTrac® with RSC® (Roll Stability Control™)\(^3\) can help in many real-world situations, such as when you’re driving on slippery surfaces like snowy, muddy, wet or gravel roads, making an emergency maneuver to avoid something in the road, or even just traveling on uneven surfaces such as in construction zones.

\(^1\)Modified Vehicle Engineering (MVE) qualified installed option. See your Ford Dealer for details. \(^2\)Passenger and cargo capacity limited by weight and weight distribution. \(^3\)Remember that even advanced technology cannot overcome the laws of physics. It’s always possible to lose control of a vehicle due to inappropriate driver input for the conditions. AdvanceTrac with RSC is standard on E-350 Wagons with the 5.4L Triton® V8.

**FORD’S MOST RUGGED TRANSMISSION**

Proven on Super Duty Chassis Cabs and Pickups, the available 5-speed automatic TorqShift® transmission is designed for the high torque outputs of powerful E-Series engines. It’s also improved for 2008 with an enhanced torque converter, as well as stronger low-end and overdrive gear sets. An innovative Tow/Haul Mode reduces gear hunting when towing and uses engine braking when descending steep grades.

---

**Comparisons based on 2007 competitive models, publicly available information and Ford certification data at time of release. Some features discussed may be optional. Vehicles shown may contain optional and aftermarket upfit equipment. Features shown may be offered only in combination with other options or subject to additional ordering requirements or limitations. Dimensions and capacity ratings shown may vary due to optional features and/or production variability. Following publication of the catalog, certain changes in standard equipment, options and the like, or product delays may have occurred which would not be included in these pages. Your Ford Dealer is the best source for up-to-date information. Ford Division reserves the right to change product specifications at any time without incurring obligations. Body Manufacturers are responsible for compliance certification of the completed vehicle. The Ford New Truck Limited Warranty and any government certification made by Ford shall cover only the vehicle as manufactured by Ford and shall not extend to any addition, modification or change of or to the vehicle by the Ford Authorized Pool Account.**
This proven workhorse pumps out 235 hp and generates an impressive 440 lb.-ft. of torque. Its Electronic Variable Response Turbo (EVRT®) helps deliver low-speed response, plus steep-grade and high-altitude performance. Cast-iron block and heads withstand the combustion pressures of peak diesel operation. The robust design also features a stiffened bedplate which enhances durability and reduces noise, vibration and harshness (NVH). The Power Stroke is backed by a 5-year/100,000-mile limited warranty.¹

6.8L TRITON® V10

When the going gets tough, the tough opt for an available 6.8L Triton V10 with best-in-class gas horsepower and torque. Its Electronic Throttle Control modulates torque at the drive wheels for smooth, seamless engine response.

4.6L/5.4L TRITON V8

Brawny Ford engines are at the heart of E-Series versatility and capability. E-Series is the only cargo van in its class to come with a standard V8: the 4.6L Triton. Every E-Series gas engine features a silent-design cam drive for smooth, quiet operation, plus a fail-safe cooling system and a 100,000-mile scheduled tune-up interval.² Step up to the 5.4L Triton V8 to get extra punch for many high-capacity applications. Its proven SOHC architecture pumps out 255 hp and 350 lb.-ft. of torque across a wide powerband.

## New Vehicle Limited Warranty

We want your Ford E-Series ownership experience to be the best it can be. So under this warranty, your new vehicle comes with 3-year/36,000-mile Bumper-to-Bumper Coverage, 5-year/60,000-mile Powertrain Warranty Coverage, 5-year/50,000-mile Safety Restraint Coverage, and 5-year/unlimited-mile Corrosion (Perforation) Coverage — all with no deductible. Please ask your Ford Dealer for a copy of this limited warranty.

For more assurance: The 5-year/60,000-mile Powertrain limited warranty is fully transferable, has no deductible, and provides you with an additional 2 years or 24,000 miles of coverage — on select components, including the engine and transmission — beyond the standard 3-year/36,000-mile Bumper-to-Bumper Coverage. Roadside Assistance is extended to 5 years or 60,000 miles, so you have the security of knowing that help may be only a phone call away should you run out of fuel, lock yourself out of the vehicle, or need towing. Your Ford Dealer can provide complete details on all of these advantages.

Get the ride you want. Whether you plan to lease or finance, you’ll find the choices that are right for you at Ford Credit. Ask your Ford Dealer for details or check us out at fordcredit.com.

Get Ford Motor Company quality in your auto insurance. Our program offers industry-leading benefits and competitive rates. Call 1-877-367-3847, or visit us at fordvip.com for a no-obligation quote. Insurance offered by American Road Services Company (in CA, American Road Insurance Agency), a licensed agency and subsidiary of Ford Motor Company.

For a purchase or lease, the Ford Extended Service Plan (ESP) gives you “Peace-of-Mind” protection designed to cover key vehicle components and protect you from the cost of unexpected repairs. Ask your dealer for an ESP; the only service contract backed exclusively by Ford and honored at all Ford Lincoln Mercury dealerships.
