So advanced, it makes the crossover choice for you.

With 4 models, 3 smart engines and 2 levels of in-vehicle connectivity, Ford Edge is one amazingly capable crossover. This year, an all-new 2.0L EcoBoost® engine¹ delivers 30 mpg hwy² efficiency. Its standard 3.5L Ti-VCT V6 engine produces 285 horsepower and 27 mpg hwy³ – V6 mileage no one else in the class can beat.⁴ And that’s only the beginning. Choose front-wheel drive or all-wheel drive¹. Make calls¹ without touching your phone. Switch between songs and playlists¹ with your MP3 player safely tucked away. Edge also offers systems to help you maintain your distance in traffic¹ change lanes¹ and back out of your parking space¹.¹ A crossover that does all this? The choice is clear. The 2012 Ford Edge.

¹Available feature. ²EPA-estimated. ³EPA-estimated, FWD. ⁴Class is Midsize Utilities vs. 2011/2012 competitors.

Limited. Dark Blue Pearl Metallic. Available equipment.

2012 EDGE ford.com
Takes you farther than ever with 30-mpg highway¹ efficiency.

Equipped with an all-new, state-of-the-art 2.0L EcoBoost® I-4 engine, the 2012 Edge takes you farther on one tank of gas than ever before: over 500 highway miles per tank. A unique 6-speed automatic transmission helps this turbocharged, direct-injection powerhouse deliver outstanding fuel economy while cruising, plus plenty of low-end torque for acceleration and passing. Spirited and smart – you can have it all with Edge and EcoBoost.

¹EPA-estimated 21 city/30 hwy/24 combined mpg. ²Available feature.
Hands control the wheel. Voice controls the rest.

No more searching for your phone. No device on your ear. Connect to your world with voice-activated Ford SYNC. Once paired, SYNC recognizes your phone and automatically transfers your contacts to support voice calling. It also plays music from your phone, MP3, USB or iPod. And thanks to Bluetooth streaming audio, smartphone users can listen to Pandora internet radio too. Just touch a button on the steering wheel and say things like “Call Melissa,” or “Play genre: Pop.” SYNC also offers 911 Assist and with an activated SYNC Services account you get business searches, turn-by-turn driving directions, custom traffic alerts and more. Personalize your experience at SyncMyRide.com.

 Available feature. Requires compatible mobile device. Driving while distracted can result in loss of vehicle control. Only use mobile phones and other devices, even with voice commands, when it is safe to do so. Traffic alerts and turn-by-turn directions available in select markets. Text message and data rates may apply.
Pulls it all together: MyFord Touch.

Simple spoken commands. Vibrant color-coded menus. Our voice-activated SYNC® with MyFord Touch® gives you ultimate control over your entertainment, phone, navigation and climate. Display your favorite photos. Create a Wi-Fi® hotspot for your passengers. You can even connect it to popular game consoles. MyFord Touch includes SYNC Services, an 8” LCD touch screen in the center of the action, a media hub, 2 LCD screens in the gauge cluster and familiar 5-way controls on each side of the steering wheel. It’s all about keeping your hands on the wheel and your eyes on the road.

Entertains you – and your friends.
MyFord Touch makes it easy to access your music and photos from a USB drive, an SD card, a portable hard drive or almost any device you plug into the media hub. Even connect a video cam to show off the footage you just shot of your star player’s big game.

Makes the most of your contacts.
Now you can “see” who’s calling when MyFord Touch displays your phone book contact photos. To check local movie times, today’s horoscopes, stock quotes and more, just call upon our exclusive SYNC Services, anytime day or night.

Navigates like a pro.
Upgrade to the Navigation System³ for interactive maps with 3D landmarks, plus an Eco-Route option on the turn-by-turn directions. A 6-month trial subscription to SiriusXM Satellite Radio, Traffic and Travel Link delivers over 130 channels of unique content, plus live infotainment services including local fuel prices, weather reports, sports scores and more.

Instantly adjusts your climate.
With one touch of the MyTemp button, the system recalls your preferred temperature setting. Heated seats, fan speed and other climate-related features are easily accessible from the same screen. Select climate controls are also located beneath the touch screen for quick access anytime.

Multitasks with Bluetooth.
No cords required. MyFord Touch is designed to be paired with your Bluetooth*-enabled mobile phone for hands-free calls and music. So you can listen to your MP3s and make/take calls without ever touching your phone.

¹Available feature. Requires compatible mobile device. Driving while distracted can result in loss of vehicle control. Only use SYNC/MyFord Touch/other devices, even with voice commands, when it is safe to do so. Some features may be locked out while the vehicle is in gear. Some features are only available when the vehicle is in Park. ³Available feature. *SiriusXM Satellite Radio, Traffic and Travel Link subscriptions sold separately or as a package after trial expires. SiriusXM Traffic and Travel Link service available in select markets. Subscriptions are governed by SiriusXM Customer Agreement; see www.siriusxm.com.
Maintains your chosen distance.

Space is a good thing. Especially on the highway. Adaptive cruise control and collision warning with brake support uses radar sensors to help maintain your choice of 4 preset gaps from the vehicle in front of you. It also uses those same front sensors to alert you to a potential collision. If one is detected, it flashes a warning across your windshield and sounds an alarm, providing extra time for you to apply the brakes. The system also pre-charges the brakes and increases brake-assist sensitivity to provide full responsiveness when you brake.

Available feature.
Stop craning your neck trying to see what’s in your blind spots. BLIS® (Blind Spot Information System) with cross-traffic alert¹ scans them for you. Just check your sideview mirrors² before changing lanes. An amber light means the system senses a vehicle in your way. It can also sense traffic approaching while you’re slowly backing out of a parking spot. If it detects a vehicle in your path, the system sounds a warning, alerts you in the message center, and flashes a light in your sideview mirror.

Limited. Red Candy Metallic Tinted Clearcoat. Available equipment.

¹Available feature. ²BLIS replaces standard integrated blind spot mirrors.
Spoils you with uncommon luxuries.

On Limited models, standard leather-trimmed, heated front seats feature 10-way power to help you and your front passenger find your optimum positions. Graceful lines effortlessly guide your eyes along the dash and down the flow-through center console, merging into a singularly inviting interface. For your ears: a 390-watt Sony® Audio System! Its unique Sony-designed finish panel features touch-sensitive switches and is completely flat except for the multifunction dial. This system includes HD Radio™ Technology to deliver your favorite AM and FM channels, plus local FM channels, in crystal-clear digital sound – all 100% subscription free. With HD Radio, use the “TAG” button on the touch screen to tag songs for purchase later at the iTunes® Store.
Soars with best-in-class V6 hp and bold 22s.

305 horsepower. 280 lb.-ft. of torque. Jaw-dropping 22” aluminum wheels. Edge Sport delivers it all, and 26 mpg hwy¹ Racing-style paddle shifters provide ultimate control of its 6-speed SelectShift Automatic™ transmission. A sport-tuned suspension helps it deliver the engaging steering and spirited handling you crave in the corners, while maintaining a comfortable overall ride. Outside, aggressive front and rear fascias combine with a bold black grille, oval-shaped chrome exhaust tips, unique headlamp treatments and more to give Edge Sport a look that backs it all up.

¹EPA-estimated, FWD.
2011 “Top Safety Pick” – only the best will do.

Travel with confidence knowing Edge has attained the highest possible rating from the Insurance Institute for Highway Safety (IIHS) in 2011. In fact, no other brand offers you more 2011 “Top Safety Pick” vehicles than Ford. Our engineers are constantly developing and advancing safety technologies to help give you peace of mind out there on the road.

Masters challenging moments.
Our standard AdvanceTrac® with RSC® (Roll Stability Control™) uses 2 gyroscopic sensors to help keep all 4 wheels firmly planted. It automatically enhances vehicle control in wet or slippery conditions.

Personalizes your protection.
The advanced Personal Safety System™ uses sensors to optimize deployment of the dual-stage front airbags in certain frontal collisions. Front-seat side airbags deploy in certain side-impact collisions. And our Safety Canopy® System increases protection with a rollover sensor and side-curtain airbags.

Clears up blind spots.
Each standard sideview mirror features an integrated convex blind spot mirror that helps alert you to vehicles and objects nearby so you can avoid them.

Promotes smart driving.
Our exclusive MyKey® allows you to program ignition keys with reminders to drive at appropriate speeds, keep the audio volume low and much more.

Sends an SOS for you.
Our SOS Post-Crash Alert System™ can automatically flash the hazard lights and sound the horn after an airbag has deployed or a safety belt pretensioner has activated in certain collisions. No subscription required.

Directly contacts 911.
Ford SYNC® with 911 Assist® uses your phone to call 911 in the event of airbag deployment or fuel pump shutoff. If needed, it can even give the operator an urgent message for you.

Limited. Dark Blue Pearl Metallic. Available equipment.

12011 model year. Vehicles built after February 2011. 2012 model year not yet tested. 2Remember that even advanced technology cannot overcome the laws of physics. It’s always possible to lose control of a vehicle due to inappropriate driver input for the conditions. 3SOS hardware may become damaged or the battery may lose power in a crash, which could prevent operation. Not all crashes will activate an airbag or safety belt pretensioner. 4Available feature. 5The vehicle’s electrical system (including the battery), the wireless service provider’s signal and a connected mobile phone must all be available and operating for 911 Assist to function properly. These systems may become damaged in a crash. The paired mobile phone must be connected to SYNC, and the 911 Assist feature enabled, in order for 911 to be dialed.
In addition to smart standards that make your life easier, a long list of optional features allows you to create a Ford Edge that addresses your specific needs. Always on the go? Then choose Intelligent Access with push-button start¹ to get you inside, and on the move, in a hurry. Or MyFord Touch®, which allows you to connect a Wi-Fi® card to its media hub so passengers can surf the Web on the road. Active on the social scene? Then pump up your audio with an amazing sound system. And add a rear view camera to see what’s behind you when slowly backing up. Whatever you choose, you’re creating the Edge you want, just the way you want it.

New Vehicle Limited Warranty. We want your Ford Edge ownership experience to be the best it can be. Under this warranty, your new vehicle comes with 3-year/36,000-mile bumper-to-bumper coverage, 5-year/60,000-mile Powertrain Warranty coverage, 5-year/50,000-mile safety restraint coverage, and 5-year/unlimited-mile corrosion (perforation) coverage – all with no deductible. Please ask your Ford Dealer for a copy of this limited warranty.

Roadside Assistance. Covers your vehicle for 5 years or 60,000 miles, so you have the security of knowing that help may be only a phone call away should you run out of fuel, lock yourself out of the vehicle or need towing. Your Ford Dealer can provide complete details on all of these advantages.

Ford Credit. Get the ride you want. Whether you plan to lease or finance, you’ll find the choices that are right for you at Ford Credit. Ask your Ford Dealer for details or check us out at fordcredit.com.

Ford Extended Service Plan. For a purchase or lease, the Ford Extended Service Plan (ESP) gives you “Peace-of-Mind” protection designed to cover key vehicle components and protect you from the cost of unexpected repairs. Ask your dealer for a Ford ESP, the only service contract backed exclusively by Ford and honored at all Ford Lincoln dealerships.

Insurance Services. Get Ford Motor Company quality in your auto insurance. Our program offers industry-leading benefits and competitive rates. Call 1-877-367-3847, or visit us at fordvip.com for a no-obligation quote. Insurance offered by American Road Services Company (in CA, American Road Insurance Agency), a licensed agency and subsidiary of Ford Motor Company. Genuine Ford Accessories will be warranted for whichever provides you the greatest benefit: 12 months or 12,000 miles (whichever occurs first), or the remainder of your Bumper-to-Bumper 3-year/36,000-mile New Vehicle Limited Warranty. Ford Licensed Accessories (FLA) are warranted by the accessory manufacturer’s warranty. FLA are fully designed and developed by the accessory manufacturer and have not been designed or tested to Ford Motor Company engineering requirements. Contact your Ford Dealer for details and/or a copy of all limited warranties.
