BEST-SELLING SMALL SUV

“BEST BUY” 4 YEARS IN A ROW*
— Consumer Guide®
*2002-2005 Escape models.

“THE ESCAPE IS A VERY CAPABLE SMALL SUV
THANKS TO ITS POWERFUL V6 ENGINE,
SPACIOUS CABIN AND CAR-LIKE HANDLING.”
— Edmunds.com

The New 05 ESCAPE
Escape With The Leader.

Everywhere from urban fast lane to rugged backcountry, Ford SUVs empower you with confident capability. Escape, Explorer Sport Trac, Explorer, Expedition and Excursion — each proudly proclaims its Ford heritage, yet each clearly makes its own statement. Already the best-selling SUV in its class,** Escape just keeps getting better. With its updated exterior and interior styling, smart new technology, and aggressive attitude, the new 2005 Ford Escape leads the pack.

**Based on CYTD small sport utility vehicle sales, April 2004.
Keep Your “Feet” Firmly Planted

Independent Rear Suspension (IRS) — When making a sudden on-road maneuver or driving over an obstacle off-road, IRS helps keep you grounded by allowing each wheel to react independently. It flexibly counteracts the motion and delivers enhanced agility and control.

Escape Confidently

Loose gravel. Fallen leaves. Uneven pavement. Loss of traction can occur unexpectedly. Escape’s new available Intelligent 4WD System will get you through with confidence. The ultimate in 4-wheel-drive convenience, it smartly maximizes traction at all times, reacting to changing road conditions in the blink of an eye by automatically delivering torque to the axle that has the best traction. Incredibly complex, yet incredibly freeing, Escape’s Intelligent 4WD System lets you keep your focus where it belongs — on the road.

Free Yourself To Enjoy The Ride

Intelligent 4WD System — It’s always on and always working. So no button, dial or lever is needed. This available system monitors traction 200 times per second — much faster than any person could and automatically adjusts torque distribution as necessary. So relax and have fun — let Escape’s Intelligent 4WD System do all the work for you.

Extra Fun When You Get There

3500-lb. Towing Capacity — With Escape’s Trailer Tow Package, you’ve got the power to bring your water toys (or other tow-behinds) along on your next vacation. Included in the XLT No Boundaries™ Package, and available on all XLT models and Limited.

Double Your Adventure Potential

No Boundaries™ Rack System — Load up to 100 lbs. of gear in its rooftop position. Or double your carrying capability when you unlock the top rack, pull it down, snap it in place and load up to 100 lbs. of gear — on each rack. Exclusive to the XLT No Boundaries Package. See your Ford Dealer for available accessories (JAC Vertical Bike Holder shown).
Maximize Your Power

Duratec 30-3.0L V6 Engine — Refined for 2005, this mighty 200-hp engine and its automatic transmission feature smoother shifting, an improved launch-performance feel and a smoother idle. Towing capability is 3500 lbs. when properly equipped. Standard on XLT Sport and Limited, and available on XLT.

Driven To Deliver More Fun.

Escape’s refined Duratec 30-3.0L V6 engine features a new processor that’s over 5 times faster than previous designs, greatly improving its overall performance. Escape’s new Duratec 23-2.3L I-4 engine, standard on XLS and XLT, is smartly designed to deliver a quieter, smoother, more powerful ride and higher towing capacity than ever before. Factor in Escape’s remarkably responsive power rack-and-pinion steering and 4-wheel independent suspension, and you’ll be having more fun than you can imagine.

Most Improved Player
NEW Duratec 23-2.3L I-4 Engine — This superior engine delivers a full 153 hp and 152 lb-ft of torque. And it features a 1500-lb. towing capacity when properly equipped. It’s also available with your choice of manual (on XLS) or automatic transmissions. Standard on Escape XLS and XLT.

It’s Time To Floor It
NEW Floor Shifter — Escape’s new centrally located shifter, included with the automatic transmission, is guaranteed to induce a sporty attitude in even the most reserved.

Stops You In Your Tracks
4-Wheel Anti-Lock Brake System (ABS) — This important feature is now standard on all Escape models. When ABS detects impending wheel lockup, it automatically manages brake-pressure levels to optimize braking power and steering control.
Introducing the cleanest, most fuel-efficient SUV.* The all-new Escape Hybrid meets strict Super Ultra Low Emission Vehicle (SULEV) and Advanced Technology Partial Zero Emission Vehicle (AT-PZEV) standards. The hybrid system really thrives in “stop-and-go” situations. It actually saves fuel when you’re stopped in traffic or driving at low speeds by running in pure electric mode. In fact, Escape Hybrid achieves over 35 mpg** in city driving. So one tank of gas could take you 400–500 miles. Ready, set, go!

*Based on Ford preliminary data. **FWD configuration. Ford preliminary estimates of EPA city cycle. Actual mileage may vary based on driving habits.

### Zips And Sips

2.3L Atkinson Cycle I-4 Engine — The 2.3L gasoline engine uses special Atkinson cycle combustion to improve efficiency. It combines with the electric motor to give Escape Hybrid a sporty 155 hp, acceleration and performance comparable to Escape’s conventional V6 engine; plus the fuel efficiency of an I-4.

### Power On Demand

Battery Pack — Sealed beneath the cargo-area floor, Escape Hybrid’s nickel-metal-hydride (Ni-MH) battery is rated at 330 volts. A regenerative braking system recharges the Ni-MH battery each time you brake, so you don’t ever need to plug it in.

### Plot Your Course

Hybrid Energy/Navigation/Audiophile System — This available system supplies a wealth of information and entertainment. For starters, it can show you the hybrid energy-flow graphic and display your current fuel economy. Thanks to global-positioning satellite technology, it can also display a complete map or guide you to your destination with turn-by-turn instructions. And for your amusement, there’s an awesome Audiophile Sound System including a 6-disc CD changer.

---

**Escape Hybrid Excels In The City.**

---

**Full Of Hybrid Ingenuity**

The first “full” Hybrid SUV — Escape Hybrid is driven by a 2.3L I-4 Atkinson cycle gasoline engine and an electric motor powered by a nickel-metal-hydride battery pack. Only full hybrids, like Escape Hybrid, can drive on the gas engine, on electric battery power alone, or on both at the same time. The system automatically chooses the best power method for any driving situation, giving you extra power when it’s needed and otherwise conserving fuel.

---

Escape Hybrid: Titanium Green Metallic

Available Appearance Package

See your local Ford Dealer or visit fordvehicles.com/escapehybrid for more information.
Get The Facts — Instantly
NEW Message Center — Escape Limited drivers can find out everything from average fuel economy to the fact that they’ve got a lamp out somewhere, just by glancing at this LCD display tucked into the bottom of the tachometer.

> Clearly In Command.
It’s important to feel in control on the road. In the new Ford Escape, you will. We restyled its interior just to make sure. White backgrounds and clear numbering make the warm-steel-framed tachometer and speedometer easy to read. Large buttons and dials make it easy to control everything from the standard air conditioning to the standard 4-speaker, 6-disc in-dash audio system on all XLT models and Limited. And, we added a sporty new floor shifter accented in warm steel for automatic transmission models. Now you’re ready to take control.

Time To Tone It Down
Auto-Dimming Rearview Mirror — Standard on Limited, this smart mirror automatically darkens when it senses the harsh light of another vehicle’s headlamps behind you, saving your eyes from that nasty glare without any effort on your part.

Big Or Small, It Holds ’Em All
Dual Cupholder with Removable Insert — Not only did we make the cupholders deeper for a more secure fit, we also added an insert that can be removed to fit larger cups for those really big thirsts.

Amazing Sound From Deep Within
MACH® 300 Audio System with 8" Subwoofer — This available 6-disc in-dash CD setup features 320 watts of peak power channeled through 7 strategically placed speakers, including an 8" subwoofer (tucked below the cargo-area trim) that provides deep, powerful bass tones. It’s also SIRIUS Satellite Radio* capable.

*Call SIRIUS toll-free at (888) 539-7474 for more information. See your Ford Dealer for installation and activation details.
**Escape At Its Finest.**

The stylish comfort of Escape’s redesigned interior makes every journey fun. When you’re headed out with family and friends, everyone'll have plenty of room to relax. Thanks to Escape’s wide stance, you get a full 100 cu. ft. of passenger space. Those up front can kick back in dual reclining seats and take advantage of the 41.6” of leg room, plus 40.4” of head room. Escape Limited drivers will love the new premium leather-trimmed seats with perforated inserts and the 6-way power-adjustable driver’s seat. Standard, of course.

**Just Say ‘Ahhhh’**

Heated Driver and Front-Passenger Seats — There’s nothing better than the radiating warmth of heated seats on a chilly morning commute. Included in the available Limited Luxury Comfort Package.

**Keep Things Tidy**

NEW Floor Console — Redesigned to deliver even more convenience. Escape’s handy floor console features CD storage space within the padded armrest, new cupholders with a removable insert, an essential power point, and another storage bin up front.

**Lighten Up**

Power Moonroof — Catch a breeze on sunny summer days or search for the Big Dipper on cool, cloudless nights — with the push of a button. Includes mini-overhead console with storage bin and map lights. Available on all XLT models and Limited.

**Supporting Your Adventures**

NEW Premium Cloth Seats — Advanced pressure-mapping technology was used to redesign Escape’s sporty, reclining front bucket seats, delivering more comfort and support. 6-way power driver’s seat shown in new Medium/Dark Pebble premium cloth, also available in Medium/Dark Flint premium cloth. Standard on Escape XLT and XLT Sport.
Escape’s capability enables you to make the most of life, and its adaptable interior helps you enjoy the journey.

Craving the adventure of a road trip? Or would you rather just run around town? With the rear seats folded down, a cavernous 62.5-cu.-ft. cargo area gives you room to gear up for a week-long vacation on the waterfront or a weekend of do-it-yourself projects. And even with the seats up, you still have 29.3 cu. ft. of space behind the 2nd row to fill with fun stuff. Either way, the new Ford Escapes got you covered.

**Freedom Meets Flexibility.**

Escape XLS... Norsea Blue Metallic
available aluminum wheels, side step bars and roof-rail crossbars

---

**Take A Load Off**

Dual-Access Rear Cargo Area — Raise the entire liftgate to load large items easily, or keep it closed to hold existing cargo in place while you stow small stuff quickly through the separate flip-up liftglass.

---

**Echoes With Possibility**

Cavernous Interior — With both sides of the 60/40 split-folding rear seats down, Escape gives you a full 62.5 cu. ft. of cargo space to fill with gear for your upcoming adventure, or bounty from your next shopping trip.

---

**Quick-Change Artist**

Standard 60/40 Split-Folding Rear Seats — Need to carry your latest find back home or over to a friend’s place? These seats make it fast and easy to reconfigure Escape’s spacious cargo area.

---

**Cut The Clutter**

NEW Cargo Convenience Group — Perfect for stowing the day’s shopping or a week’s worth of outdoor gear, this available group combines the retractable cargo-area cover with a new cargo-area storage bin. Of course, both feature heavy-duty construction for long-lasting durability.

---

Escape XLS... Norsea Blue Metallic
available aluminum wheels, side step bars and roof-rail crossbars
Escape The Unexpected.

We can’t always anticipate what’ll happen next in life. Fortunately, the new Escape offers you peace of mind. Every Escape starts with sturdy unibody construction, combining body and chassis components to form a single, rigid structure that’s lightweight, yet incredibly strong. And every door gets ultra-high-strength steel reinforcement for extra protection in side-impact collisions. For 2005, we’ve advanced Escape’s historic emphasis on safety with the standard Personal Safety System™ and available new Safety Package.

Reverse Sensing System — This helpful system audibly alerts you to objects behind the vehicle when backing up. The closer you get, the quicker it beeps. Included in the available Limited Luxury Comfort Package.

Help From Above

NEW Safety Package — This available package gives Escape 2 new front-seat side-impact airbags and 2 side-curtain airbags, in addition to the 2 front airbags in the standard Personal Safety System. That’s a grand total of 6 airbags providing added side-impact and rollover protection. A segment-exclusive rollover sensor in the Safety Canopy™ System directs deployment of the side-curtain airbags in the event of a rollover or certain side-impact collisions. These airbags deploy from the headliner on both sides of the vehicle and remain inflated longer to help further protect occupants.

Your Best Defense Is A Good Offense

Head Restraints and 3-Point Safety Belts — Escape has both features standard in all seating positions. Plus, the driver and front passenger get height-adjustable shoulder belts.

Let These Bear The Brunt

Crumple Zones — Strategically placed at the front and rear of every Escape, these areas help absorb the force of an impact and direct it away from you and your passengers.

Keeping Things Secure

Essential Security Features — Our SecuriLock® passive anti-theft system and remote keyless entry system with panic alarm are both standard on every Escape. Another great standard feature, our battery saver with headlights-off delay, “saves” your battery from running down by shutting off any lights (interior or exterior) accidentally left on after you’ve exited the vehicle. A perimeter alarm in the available Convenience Group helps deter would-be thieves.

Tailor-Made Protection

NEW Personal Safety System — Standard on every 2005 Escape, this innovative system enhances protection for the driver and front passenger. Utilizing a network of smart sensors, it customizes the deployment level of the dual-stage front airbags based on 4 criteria: whether a front passenger is present and his/her weight range; the position of the driver’s seat; whether the front safety belts are in use; and the overall severity of the crash. These details help the system deploy the front airbags in just the right manner, at just the right time. A clever little indicator light (shown at right) illuminates to let you know the front-passenger airbag has been automatically disabled if there’s something too small on the front-passenger seat. It’s just another reminder that we’re passionately committed to delivering outstanding vehicles that can truly improve your life.

Always wear your safety belt and secure children in the rear seat.
Specifications

MODEL HIGHLIGHTS

XLS
- Duratec 2.3 L 4-cylinder
- 5-speed manual transmission or available 4-speed automatic
- 15" styled-steel wheels
- Grey molded-in-color front and rear bumpers and bodyside moldings
- Black roof side rails • AM/FM stereo with single-CD player and clock • Cloth seats

XLT
- Duratec 3.0 L V6 engine
- 16" painted aluminum wheels
- Molded-in-color grey wheel-lip moldings
- No Boundaries Rack System
- Power moonroof with sunshade and mini-overhead console

Limited
- Monochromatic exterior appearance • Premium leather-trimmed seats • Overhead console with dual storage bins • Automatic headlamps • Auto-dimming rearview mirror • Message center • Illuminated visor mirrors
