

Sarah and Tina hit the road early in Sarah's ZX2 for the beach and some intense rollerblading. Rounding out the party was Tina's dog, Chumley, who loved nothing better than a good run down the boardwalk. So Sarah and Tina

Eventually, they had to rest their tired arms, so they pulled Chumley over at an outdoor cafe and ordered lunch. Two chicken salads and a double burger with extra cheese, no onions and no pickles, cooked very rare.

attached a leash to his collar and let him fly.

Escort ZX2

ZX2 Hot Series shown in Denim Blue Clearcoat Metallic.

Delivering 130 horsepower, the 16-valve Zetec engine makes ZX2 one **fun-to-drive** automobile. The ZX2 driving philosophy is to approach life from outside the box. It takes a **confident**, charismatic stand against all of life's routines, rigors and ruts.

ZX2 "Hot" can be equipped with a **Premium** Sound system, 15" aluminum wheels, plus Sport Group rear spoiler and fog lamps. Day in, night out, you'll be asking yourself: Am I allowed to have this much fun in a car?

or twinkling stars.

Escort Sedans

Escort LX shown in Tropic Green Clearcoat Metallic.

For features, **style** and fun, Escort Sedan is definitely more than you might expect in a car its size. Its **COOl** contemporary styling will have you driving more, just because you'll want to be seen in it. Escort SE offers **power** windows, locks and mirrors. You can also choose the optional Sport Group to further sharpen your image. Special sport wheels, seats and a tastefully styled rear spoiler **Spice** up its appearance. Escort manages to combine driving enjoyment with practicality and function.

a padded armrest and extra storage space for all kinds of articles.

Escort Wagons

Escort SE Wagon in Black Clearcoat.

Escort Wagon provides owners more **utility** than sedans can, offering more interior room to tote things and move cargo.

Escort is a perfect example of the **contemporary** wagon.

Besides sharing the performance, convenience and **comfort** of the sedan, it offers a full 63.4 cubic feet of cargo area with the rear seat backs folded down. Plus it's **versatile:** The standard 60/40 split/fold feature of the rear seat lets you fold both seat backs down to carry cargo; or just one when you have both passengers and cargo to deal with.

Every time 5' 1" Jill drives the Escort, she pulls the driver's seat up and leaves it. This drives Steve, her 6'2" husband, crazy. With all the use their Escort gets, no one knows who'll drive

it next. After putting the seat back for

the umpteenth time, Steve taped a note to the

steering wheel, "Honey, if you can remember to put

the front seat back, then I promise to remember

to put the toilet seat down." Jill knew it was an

offer she couldn't refuse.

safety

Safety cell construction provides occupant protection in a frontal, side or rear impact.

airbags for driver and passenger protection. Safety cell

construction and protective side door intrusion beams

provide extra structural integrity. Available anti-lock brakes

provide greater steering control while braking under most adverse

conditions, even on wet or slippery surfaces. Escort offers available

keyless all-door remote entry, along with a perimeter

anti-theft device, for extra convenience and security.

airbags are depowered to further enhance protection for the driver and passenger.

Childproof door locks can be engaged to prevent children from opening car doors from the interior.

performance

Rigid one-piece bodyside for smoother ride.

Escort's power rack-and-pinion steering creates ease of maneuverability, while the independent rear quadralink

suspension system provides excellent road-hugging

control during acceleration, cornering and braking.

ZX2 generates 130 hp with its 16-valve Zetec engine, with quick-

opening throttle. Escort Sedan and Wagon come with a 2.0L

engine, and split-port induction system, which maximizes fuel

economy below the 3,000-rpm mark.* And all three models

offer the convenience of 100,000 miles between tune-ups.**

Sedan/Wagon 110-hp, 2.0L engine maximizes fuel economy

Today, automotive design must satisfy many more demands than it did even just a few years ago.

Styling is important, of course, but considerations like safety and durability continue to grow in importance as customers weigh their purchase decisions ever more carefully. Like all Ford vehicles, Escort has been designed to protect its occupants and to provide years of dependable service to its owners.

Interior

and convenience. The Escort Sedan, ZX2 and Wagon all provide more than enough room to carry passengers comfortably. Features such as the standard split/fold rear seat **offer versatility** in transporting large cargo, while convenience features include available power locks and windows. Escort has a number of **option groups** to choose from, allowing you to personalize your car to fit your active lifestyle. The Escort is a smart choice for any lifestyle, combining practicality and function with **sleek styling**.

The standard 60/40 split/fold rear seat provides exceptional passenger/cargo versatility.

Power locks and windows included in the optional Power Group give you touch-of-a-button convenience.

Rear trunk lid release button, conveniently located on driver's side door panel, allows you to open your trunk with the push of a button.

Tilt steering wheel is adjustable for optimum driver comfort. Included in optional Comfort Group.

The optional Premium Sound system with trunk-mounted 6-CD cha your favorite music in high-end audio sound.

Working a full-time job isn't easy when you're

also a full-time wife and

mom. Getting Davey up and off to school

would be fine if April didn't have to get herself up and

off to work, too. Fortunately, with so much on her mind,

her Escort is the least of her worries. And she was

actually ahead of schedule when she pulled up to

the school and discovered no one there. She thought

she might be late until Davey finally spoke up,

"Mom, do I really have to go to school on Saturday?"
