Two years ago, we altered the truck landscape forever by making the Ford F-150 body from high-strength, military-grade aluminum alloys1 instead of steel. Last year, we led all pickups in the class2 in max. payload capacity3 and gas EPA-estimated highway fuel economy4. We also made it easier than ever to back up a trailer with our segment-first Pro Trailer Backup Assist5.

This year, the 100th anniversary of Ford trucks, it’s full speed ahead. An all-new, 2nd-generation 3.5L EcoBoost6 is teamed with an all-new 10-speed SelectShift® automatic transmission7 to deliver a best-in-class 470 lb.-ft. of torque, along with 375 horsepower. In the all-new 2017 F-150 RAPTOR, the best-performing, most capable, dune-running RAPTOR yet, a high-output version of the 3.5L EcoBoost powers this beast with a class-best 510 lb.-ft. of torque. You read that right. It’s also mated to the 10-speed automatic to help keep the engine in its sweet spot. And that’s not all. New SYNC® Connect8 helps you communicate with your truck like never before. And the eye-catching style of STX® returns.

Ford F-150. Part of the legendary F-Series lineup that has been America’s best-selling truck for nearly 4 decades. Look for us way out in front.
THE BEST GETS EVEN BETTER.

NEW FOR 2017
- All-new, 2nd generation 3.5L EcoBoost® engine¹ with Auto Start-Stop Technology
- All-new 10-speed SelectShift® automatic transmission² with tow/haul and Sport modes
- All-new F-150 RAPTOR
- SYNC® Connect³
- Value and style return with F-150 STX⁴
- BLIS® with trailer coverage and cross-traffic alert²

FIRST-IN-CLASS
- High-strength, military-grade, aluminum alloy body and cargo box
- 360-degree camera with Split view Display¹
- Remote tailgate release¹
- Inflatable rear seat outboard safety belts¹

BEST-IN-CLASS
- 470 lb.-ft. of torque¹ on F-150
- 510 lb.-ft. of torque² on F-150 RAPTOR
- Gas EPA-estimated highway fuel economy rating of 26 mpg³
- Max. payload capacity of 3,270 lbs.⁴
- Ford F-Series has been America's best-selling truck for 39 years

CLASS-EXCLUSIVE
- Pro Trailer Backup Assist™¹
- LED sideview mirror spotlights¹
- Active park assist¹
- Tailgate step¹
- Smart Trailer Tow Connector™¹
- Twin-panel moonroof²
- BoxLink™ with premium locking cleats¹
- Stowable loading ramps¹
- Adaptive cruise control & forward collision warning with brake support¹
Climb into any F-150 – from XL through the all-new bad-as-Baja 2017 RAPTOR – and ride on the strongest frame ever created for it. A fully boxed, modular foundation comprised of up to 78% high-strength steel. This sturdy metal infuses the 8 rugged crossmembers (5 are through-welded) and large cross-section frame rails. It forms a perfect platform for our revolutionary truck body and cargo box made from high-strength, military-grade, aluminum alloys. A formulation that doesn’t rust. And resists corrosion. In other words, it’s engineered to stand up to punishment.

We build F-150 this way because we know what you do to your trucks. At work, you punish them. Loading. Hauling. At play, you push them. Mudding. Pulling the heaviest of loads. So it’s good to know with more trucks on the road with 250,000 miles than any other brand, there’s nothing tougher than Ford F-Series. Plus, the 2016 F-150 Regular Cab has the lowest 5-Year Cost to Own in its class by Kelley Blue Book’s kbb.com. So from sunrise to sunset – and beyond – you can count on F-150 to tow, haul, work and play like no other.
TOPS IN SAFETY.

It's official. Ford F-150 is the ONLY pickup truck to earn these 2 honors: a 5-Star Overall Vehicle Score\(^1\) from the National Highway Traffic Safety Administration (NHTSA) and a 2016 IIHS Top Safety Pick for the 2017 Ford F-150 (SuperCrew\(^*\) and SuperCab) when equipped with optional forward collision warning. Proof positive that this is the safest F-150 ever.

In crash testing covering frontal, side and rollover crash worthiness, the 2017 Ford F-150 received the government's highest safety rating for every cab configuration.

To help reduce crush into the passenger compartment in certain front, side and rear impacts, a masterful mix of high-strength, military-grade, aluminum alloys works together with a unique frame structure. A patented 12-sided design in the high-strength-steel front-frame horn improves front-impact protection, compared to a traditional rectangular design, by helping to dissipate crash energy. Additional through-welded crossmembers bolster side-impact protection. An extruded rocker reinforcement helps reduce cab intrusion in certain front and side impacts, while roof strength is reinforced by a hydroformed roof rail supported by an extruded closed-section roof bow.

First-in-class inflatable rear safety belts\(^2\) for outboard passengers join 6 standard airbags to enhance driver and passenger protection. To reduce injury risk in certain collisions, the fully inflated safety belt distributes crash energy across 5 times more of an occupant’s body than a non-inflatable safety belt.

\(^{1}\text{Government 5-Star Safety Ratings are part of the U.S. Department of Transportation's New Car Assessment Program (www.safercar.gov).}\)
\(^{2}\text{Available feature. SuperCrew only.}\)
It’s true. The best never rest. Our latest proof point: an all-new, 2nd-generation 3.5L EcoBoost® engine¹ that delivers a class-best 470 lb.-ft. of torque (50 lb.-ft. more than its predecessor). Across the speed range, that torque is the same or better than the previous 3.5L EcoBoost. Equally noteworthy: this all-new engine is teamed with an all-new, Ford built, 10-speed SelectShift® automatic transmission¹ for exceptional driveability.

With improved acceleration, plus better low-end and peak performance, our most advanced EcoBoost engine yet is exactly what’s needed for hauling heavy loads and towing heavy trailers. To optimize fuel usage, standard Auto Start-Stop Technology can shut off the engine when the truck comes to a complete stop. Tuned for truck applications, it will not intervene in tow/haul mode, 4-wheel drive (4WD), or other circumstances that require the engine to drive essential components.

A new dual injection system features both direct injection and port fuel injection. Two injectors per cylinder – one mounted in the intake port where air enters and another positioned inside the cylinder – work together to improve power output and efficiency.

A dual-chain cam drive, with less complexity than the single serpentine chain it replaces, helps to reduce overall NVH of the 2nd-generation 3.5L EcoBoost engine.

An all-new roller-finger follower valvetrain features more durable intake and exhaust valves, and hydraulic valvelash adjusters that optimize engine durability over the life of the truck.

All-new twin turbochargers deliver more boost thanks to improved turbos and a lighter turbine wheel. New turbos work seamlessly with electric-activated wastegates, enhancing operating efficiency. And the lighter turbine wheel, made of high-temperature super alloy Mar-M-247 – developed by the aerospace industry – improves responsiveness.

A more robust lower-end structure – upgraded crankshaft, bearing system, and beefier connecting rod undercuts – helped engineers significantly increase the output of the 3.5L EcoBoost.

---

¹Available feature. ²EPA-estimated gas rating: 19 city/26 hwy/22 combined mpg, 2.7L EcoBoost, 4x2. Actual mileage will vary. ³When properly equipped.
Continuing its relentless pace of innovation, the 2017 Ford F-150 debuts an all-new 10-speed SelectShift® automatic transmission – the first production 10-speed RWD planetary transmission. Created with high-strength steel, along with aluminum alloys and composites to reduce weight, this all-new gearbox is paired with the all-new, 2nd-generation 3.5L EcoBoost® engine to deliver higher average power for acceleration – improving responsiveness and performance.

With a wide-ratio span and optimized gear spacing, including 3 overdrive gears, the 10-speed SelectShift automatic helps improve fuel efficiency at highway speeds and during city driving, while maintaining max. towing capability at 12,200 lbs. 10 speeds, along with an improved tow/haul mode, also enhance confidence while towing. An all-new electronic control system in the transmission features real-time adaptive shift-scheduling algorithms engineered to help ensure the right gear at the right time, including skip-shift and direct downshift capability.

There’s already a truckload of reasons why the 2017 Ford F-150 is like no other pickup. An all-new 3.5L EcoBoost engine teamed with an all-new 10-speed SelectShift automatic add 2 more. With more than 20 patents approved or pending, this innovative powertrain is right at home in The Future of Tough.
With 4 available engines, you can equip your 2017 F-150 with one that closely aligns with your wants and needs. All deliver capability and efficiency. Two EcoBoost® engines provide remarkably balanced performance, blending potent low-end torque with impressive efficiency. Ford EcoBoost engines now power over 1,000,000 F-150 trucks. The all-new, 2nd-generation 3.5L EcoBoost tows 12,200 lbs. The 2.7L earned the nickname “Pocket Hercules.” Both can handle whatever you throw at them.

By improving power-to-weight ratios from the previous generation, each F-150 engine can devote more power to your job. But that’s not all. Lightweighting helps improve fuel efficiency. As does twin independent variable camshaft timing (Ti-VCT). Plus, Active Grille Shutters that can close at cruising speed to reduce drag. A Sport mode on all automatic transmissions, along with available SelectShift® capability, make all that power easy to engage. On the V8-equipped F-150, a class-exclusive CNG/Propane Gaseous Engine Prep Package readies your truck to be upfit for compressed natural gas (CNG), propane autogas, or as a bi-fuel vehicle with the ability to seamlessly switch between CNG or propane and gasoline.

**3.5L Ti-VCT V6**
This highly capable standard engine is designed for impressive power and durability. Twin independent variable camshaft timing (Ti-VCT) provides torque across a wide rpm range, as well as exceptional efficiency.

- **1,910 lbs.** – Max. payload capacity
- **7,600 lbs.** – Max. towing capacity
- **282 @ 6,250 rpm** – HP
- **387 lb.-ft. @ 4,250 rpm** – Torque
- **18 city/24 hwy/20 combined mpg**

EPA-estimated fuel economy rating

**2.7L ECOBOOST**
Specially designed components such as a variable-displacement oil pump, and piston connecting rods that use an offset I-beam, provide the strength to manage peak engine power levels while reducing weight for better responsiveness.

- **2,210 lbs.** – Max. payload capacity
- **8,500 lbs.** – Max. towing capacity
- **325 @ 5,750 rpm** – HP
- **375 lb.-ft. @ 3,000 rpm** – Torque
- **19 city/26 hwy/22 combined mpg**

EPA-estimated fuel economy rating

**2ND-GEN. 3.5L ECOBOOST**
With a completely new internal architecture, the workhorse of the F-150 lineup delivers increased performance and improved driveability.

- **3,220 lbs.** – Max. payload capacity
- **12,200 lbs.** – Max. towing capacity
- **385 @ 5,750 rpm** – HP
- **375 lb.-ft. @ 3,850 rpm** – Torque
- **18 city/25 hwy/21 combined mpg**

EPA-estimated fuel economy rating

**5.0L Ti-VCT V8**
Mid-lock variable cam timing enhances fuel efficiency while maintaining this trusted V8’s power and hardy low-end torque. Cast exhaust manifolds and a unique engine oil cooler allow for heavy-duty use and durability.

- **3,270 lbs.** – Max. payload capacity
- **11,000 lbs.** – Max. towing capacity
- **385 @ 5,750 rpm** – HP
- **375 lb.-ft. @ 3,850 rpm** – Torque
- **15 city/22 hwy/18 combined mpg**

EPA-estimated fuel economy rating

**2ND-GEN. 3.5L ECOBOOST**
With a completely new internal architecture, the workhorse of the F-150 lineup delivers increased performance and improved driveability.

Visit afdc.energy.gov/afdc/laws for details.
On XL through PLATINUM F-150 4x4 models, the “FX4 Off-Road” decals on your pickup box let everyone know you’re ready for serious, off-road adventuring. The FX4 Off-Road Package equips your truck to get out there with an electronic-locking rear differential, underbody skid plates that help protect the front differential, transfer case and fuel tank, Hill Descent Control™ and off-road-tuned front shock absorbers. Monitor all the action from the driver’s seat on the off-road display in the 8” productivity screen.¹ Check your truck’s pitch, roll, steering angle and driveline status as you navigate the trail.

To better navigate tight spots on the trail, just utilize the 360-degree camera with Split-view Display.¹,² Four cameras give you a 360° bird’s-eye view around F-150, helping you maneuver down narrow off-road trails. To keep your view clear of dust and mud, the forward-facing camera includes a lens washer that’s activated whenever the windshield washers are used.
After reengineering almost every part, we’re proud to introduce our ultimate high-performance off-road pickup truck. The all-new 2017 F-150 RAPTOR. Use of advanced materials help it weigh in up to 500 lbs. lighter than its predecessor. Pair this weight savings with a High-Output 2nd-generation 3.5L EcoBoost® engine that produces up to 510 lb.-ft. of torque, and the power-to-weight ratio improves by 16%. It’s a difference you’re sure to feel on every trip. And that’s only the beginning of the modifications we’ve made to RAPTOR that look like a wish list from every off-roader’s dreams.

A new 4-wheel drive (4WD), torque-on-demand transfer case that makes RAPTOR even more of a beast off road. 44% larger FOX Racing Shox™ with 9-stage bypass damping. Nearly 2” more suspension travel front and rear, improving its already monstrous capability beyond the pavement. Exclusive, 2nd-generation BF Goodrich® KO2 tires with race-proven CoreGuard™ Technology built to take on the toughest off-road hazards with confidence. Bead-lock capable wheels, a RAPTOR exclusive, that give you exceptional off-road performance. An all-new Terrain Management System™ with 6 selectable drive modes that allow you to optimize RAPTOR to driving conditions. Three steering modes for customized steering feedback. Plus, an exclusive interior environment with 6 standard auxiliary switches in the overhead console from which to direct all the fun.

A Lean. Mean. And ready to scream.
With its high-strength-steel frame, torque-rich engines and advanced towing technologies, the 2017 Ford F-150 helps you keep your trailer where it belongs. In line. Equip F-150 with the 2nd-generation 3.5L EcoBoost® engine and Max. Trailer Tow Package, and you’ll have a max. towing capacity of 12,200 lbs. Towing confidence is enhanced by BLIS® with new trailer coverage1,3 and by the stabilization benefits of an integrated trailer brake controller4 and standard trailer sway control4.

To maintain a consistent speed on steep grades, lock out upper gears with the progressive range select feature on the 6-speed SelectShift® automatic1,5 and all-new 10-speed SelectShift automatic transmissions.4 Both also feature tow/haul mode, for use when the truck is heavily loaded or when towing – which should be often with F-150. Standard hill start assist prevents you from rolling back on a grade by momentarily maintaining brake pressure until the engine delivers enough torque to move F-150 up the hill. Trucks equipped with the trailer brake controller6 can automatically apply the trailer brake too.

**READY, SET, TOW**

**12,200 LBS.**

**MAX. TOWING**
Ford F-150 enhances your trailer-towing proficiency with smart technology. Easily line up truck and trailer with the black dashed line and curved white lines of dynamic hitch assist. Our 360-degree camera with Split-view Display works at low speeds in Forward and Reverse. Four cameras let you see all sides of F-150 on the 8" color screen in the center stack. A Smart Trailer Tow Connector provides instrument cluster alerts about trailer connection status, along with lighting and trailer battery alerts and warnings. If something needs attention, you’ll see it, front and center.

Leveraging this advanced camera technology with electric power-assisted steering (EPAS), Pro Trailer Backup Assist makes the challenge of backing up a trailer easier than ever. At a crowded job site, into a garage, at a wooded campsite with a crowd watching, or almost anywhere. To operate the system once programmed, rotate the control knob to indicate how much the system should turn the trailer. Pro Trailer Backup Assist then automatically steers the truck to turn the trailer the desired amount. The system may limit vehicle speed to enhance comfort and control over a variety of surfaces. The result: less time to back up a trailer with improved confidence, even for experts.
Ford F-150 delivers best-in-class payload. Twice. When equipped with the 5.0L V8 engine\(^1\) and Heavy-Duty Payload Package, F-150 leads all competitors with 3,270-lb. max. payload. Next up? A similarly equipped F-150 with the 2nd-generation 3.5L EcoBoost® engine\(^2\) at 3,220-lb. max. payload.\(^2\) Carry up to 2,210 lbs.\(^2\) with the 2.7L EcoBoost Payload Package.

Managing all that load is easy thanks to the best pickup box access in the class. To access the 77.4 cu. ft. of cargo volume,\(^3\) steps are available on all 3 sides\(^4\) and include deployable box side steps\(^4\) for all box lengths. Our class-exclusive tailgate step, fully integrated inside the tailgate, is virtually invisible when not in use. The grab handle is also stored inside the tailgate, which creates a flat surface for easier loading and a convenient work surface. When needed, the tailgate step drops down in one easy motion.

**CLASS-BEST 3,270 LBS. MAX. PAYLOAD**
Innovative features make accessing and managing your load incredibly easy in F-150. Our industry-first remote tailgate release with power remote locking opens the tailgate with your key fob. Lock, unlock and lower it, hands-free. When activated, the tailgate gradually lowers. LED cargo box lighting smartly illuminates the box with forward-facing LEDs. Turn them on, along with additional lamps centered above the rear window, with a switch in the bed or on the headlamp control in the cab. The LED illumination helps you quickly find tools or other items and is particularly helpful with a tonneau cover.

Class-exclusive stowable loading ramps help you ramp-up with ease. After attaching the ramps securely to the tailgate, you can load dirt bikes and ATVs simply and easily—without having to lift them into the bed. When done, stow the ramps with class-exclusive BoxLink™ with locking cleats. Interface plates inside the box allow you to attach S hooks, ETrack™ straps and so much more. Four removable and lockable premium cleats provide additional tie-down points to secure your cargo. You can also utilize the BoxLink interface plates when using the bed divider. With so much smart functionality inside this box, you choose what’s best for you.
F-150 delivers "on-road manners... far better than some cars we've driven," says fourwheeler.com. Its high-strength-steel frame provides torsional rigidity. High-strength, military-grade, aluminum alloys reduce weight. And a double-wishbone, independent front suspension and optimized tuning help smooth out rough spots.

A refined braking system adds stopping confidence. Electric power-assisted steering (EPAS) supplies precise road feel. Staggered outboard shocks enhance stability. The result? A driving dynamic that inspires trust – whether the cargo box is empty or when working.

For enhanced control going into turns, standard Curve Control\(^1\) can sense when you're taking a turn too fast. When it does, the system can slow the truck’s speed by as much as 10 mph in about a second to help you maintain control. Add to your peace of mind with the knowledge that AdvanceTrac® with RSC® (Roll Stability Control™)\(^2\) is standard on every F-150 as well. Providing enhanced stability in a wide range of driving conditions, the system selectively applies individual brakes and modifies engine power to help keep all 4 wheels firmly planted.
The 2017 Ford F-150 is here to help. Advanced driver-assist features¹ encourage your alertness. Sophisticated radar¹ calls attention to vehicles in your blind spots. And a strategically placed camera¹ monitors your position on the road. They’re constantly at your service as you tow your trailer, stay centered in your lane or attempt to change lanes, and keep a safe distance from the vehicle in front of you.

**BLIS® (Blind Spot Information System) with new trailer coverage**¹,⁴ notifies you with a light in either sideview mirror if its radar sensors detect a vehicle in the corresponding blind spot. Optimized for F-150, the range of BLIS can be extended to include a conventional trailer, once programmed into the system. And when not towing, cross-traffic alert – part of the system – notifies you of a vehicle approaching from either side as you slowly back F-150 out of a parking spot.

**Adaptive cruise control**¹ helps maintain your choice of speed and preset gap from the vehicle in front of you. It can also alert you to a potential collision. If one is detected, adaptive cruise control & forward collision warning with brake support¹,⁴ flashes a warning via a heads-up display on the windshield, sounds an alarm, and can pre-charge the brake system to provide full responsiveness when you do brake.

**Trailer sway control** helps you handle all that weight when towing. The system monitors the motions of the truck to detect trailer sway and selectively brakes as needed, helping you maintain control of the truck and the trailer.

**Our Lane-Keeping System**¹,⁴ can detect lane markings with a forward-facing camera and apply torque to the steering wheel if it senses F-150 drifting unintentionally out of its lane. If needed, it can also send gentle vibration pulses to the wheel to prompt you to steer back toward center. A Driver Alert System¹ also monitors your driving behavior – including the crossing of lane markings and other factors – and warns you in the message center if you could use a break from driving.

2017 F-150 | ford.com
LARIAT SuperCrew® 4x4 in Magnetic with LARIAT Chrome Package and available equipment. ¹Available feature. ²Remember that even advanced technology cannot overcome the laws of physics. It’s always possible to lose control of a vehicle due to inappropriate driver input for the conditions. ³BLIS replaces standard integrated blind spot mirrors. ⁴Driver-assist features are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. ⁵Lane-Keeping System does not control steering.
LETS YOUR WORDS WORK AS HARD AS YOU DO.

SYNC 3

In addition to all the voice-activated benefits of SYNC³⁴, placing and answering calls, and controlling music from your devices — you’ll love the easy-to-use interface of SYNC 3²³. An 8” color LCD screen displays phone, audio and navigation⁴ features. Enhanced voice recognition lets you give simple commands. A capacitive touchscreen includes a convenient swipe feature, as well as pinch-to-zoom functionality within navigation.²³ SYNC 3 also brings you the options of Apple CarPlay™³ and Android Auto.™³⁴

SYNC Connect

With a SYNC Connect⁵ equipped F-150, you can use FordPass® to locate your parked truck and remotely access convenient features such as start, lock and unlock, and vehicle status including fuel level and approximate mileage. You can also schedule specific times to remotely start your F-150 so it’s ready to hit the road (or trail) as soon as you are.

SYNC AppLink

Use your voice to control some of your favorite compatible mobile apps (like Pandora® and iHeartAuto), thanks to SYNC AppLink.²³⁴

Siri Seamless Integration

Bring the power of Siri® into F-150 with Siri Eyes Free, your paired iPhone® and a long press of the voice-recognition button on the steering wheel.

Automatic Updates Over Wi-Fi

Keep SYNC 3 current with the latest software as new updates become available. All you need is a Wi-Fi® connection.
2017 F-150 PLATINUM SuperCrew 4x4 leather-trimmed interior in Brunello with available equipment.

They’re rich in the 2017 Ford F-150 PLATINUM. Starting with 10-way power, heated and cooled, multicontour leather-trimmed driver and front-passenger seats in rich Luxury leather. A large flow-through front center console with leather-trimmed console lid includes a leather-wrapped floor shifter. An aluminum applique brightens the center stack and console, while ambient lighting brightens the footwells and other areas in one of 7 hues. Even the rear outboard seats are heated. New SYNC® Connect is standard. As is an Audio System from Sony® with 10 speakers and subwoofer. The list goes on and on. PLATINUM is just 1 of 7 distinct trim levels of the hard-working cabin of Ford F-150. There’s the work-tough XL, rugged XLT, well-appointed LARIAT, Southwestern luxury of KING RANCH®, urban refinement of PLATINUM, ultimate luxury of LIMITED, and ready-for-anything RAPTOR. One is certain to be just the right fit for you. Ergonomically optimized front seating enhances comfort. SuperCrew® and SuperCab models with the 40/20/40 seating configuration accommodate up to 6. Storage space abounds in the enormous center console and in storage pockets throughout the cabin. Enjoy a vast twin-panel moonroof on SuperCrew. Heated steering wheel. 8” productivity screen. And so much more.
ALL-AROUND PRODUCTIVITY.

Day or night, the advanced features of the 2017 Ford F-150 help to enhance work. And play.

Check individual pressure in each tire with the standard Individual Tire Pressure Monitoring System.

You’ll be notified through the 8" productivity screen in the instrument cluster if any tire’s pressure is low. A numerical value will even tell you how low. Power up tools and battery chargers with high-power 110-volt power outlets that provide up to 400 watts.

Light your work site well into the night with class-exclusive LED sideview mirror spotlights, which provide the needed light to set up camp after dark or finish a job after sunset. Accent the standard LED lighting inside F-150 with natural light from the expansive twin-panel moonroof.

In SuperCrew, rear-seat passengers can enjoy 43.6" of spacious leg room. To utilize the rear seats even more, fold one up to accommodate gear while a passenger uses the other.
STX APPEAL.

Style that works always maintains its appeal. That’s why we’re proud to reintroduce the F-150 STX Package for 2017. With all of the rugged capability you expect from a truck with the F-Series name, the stylish STX is back for another tour of duty in the legendary F-150 lineup. Its monochromatic exterior, Black billet-style grille, fog lamps, rear privacy glass, STX cargo box decals and 20” machined aluminum wheels with Flash Gray-painted pockets define the signature STX look.

Inside, an exclusive STX interior includes unique Black Sport cloth 40/console/40 front seating, plus a flow-through center console and steering column-mounted gear shifter. Enhanced capability comes from the 8” color LCD touchscreen of SYNC® 3. Its capacitive screen includes a convenient swipe feature. Think confident capability – with a touch of swagger. Just know that this tough truck will turn some heads.

1. Don’t drive while distracted. Use voice-operated systems when possible; don’t use handheld devices while driving.

Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones. Message and data rates may apply.
STANDARD
- Carbon Black front fascia, grille and bumpers

### Towing Notes:

- Maximum loaded trailer weights shown. Do not exceed trailer weight of 5,000 lbs. when towing with bumper only. The combined weight of the towing vehicle (including options, hitch, passengers and cargo) and the loaded trailer must not exceed the GCWR (Gross Combination Weight Rating). Trailer tongue load weight should be 10-15% of total loaded trailer weight. Make sure that the vehicle payload (reduced by option weight) will accommodate trailer tongue load weight and the weight of passengers and cargo added to the towing vehicle. The addition of trailer tongue load weight, and the weight of passengers and cargo, cannot cause vehicle weights to exceed the rear GAWR (Gross Axle Weight Rating) or GVWR (Gross Vehicle Weight Rating). These ratings can be found on the vehicle’s Safety Compliance Certification Label. See the RV and Trailer Towing Guide for requirements, restrictions and 5th-wheel towing.

**WB = Wheelbase** ¹Requires 2.7L EcoBoost Payload Package. ²Requires Heavy-Duty Payload Package and 18" wheels. ³Requires Heavy-Duty Payload Package and 17" wheels. ⁴Requires Max. Trailer Tow Package.
Colors are representative only. See your dealer for actual paint/trim options.

*Additional charge. *Metallic.
XLT SuperCrew® 4x4 in Ingot Silver accessorized with a chrome exhaust tip, heavy-duty splash guards with stainless steel inserts, step bars, stowable load ramps, spray-in bedliner, hard-folding tonneau cover, side window deflectors, fender flares, rear wheel-well liners, trailer tow mirrors and hood deflector.

- Wireless charging

New Vehicle Limited Warranty. We want your Ford F-150 ownership experience to be the best it can be. Under this warranty, your new vehicle comes with 3-year/36,000-mile bumper-to-bumper coverage, 5-year/60,000-mile Powertrain Warranty coverage, 5-year/60,000-mile safety restraint coverage, and 5-year/unlimited-mile corrosion (perforation) coverage on aluminum body panels – all with no deductible. Please ask your Ford Dealer for a copy of this limited warranty.

**Roadside Assistance.** Covers your vehicle for 5 years or 60,000 miles, so you have the security of knowing that help may be only a phone call away. If you run out of fuel, lock yourself out of the vehicle or need towing, your Ford Dealer can provide complete details on all of these advantages.

**Ford Credit.** Get the ride you want. Whether you plan to lease or finance, you’ll find the choices that are right for you at Ford Credit. Ask your Ford Dealer for details or check us out at ford.com if you already have a Ford account.

**Ford Protect Extended Service Plans.** Whether you purchase or lease your Ford vehicle, insist on genuine Ford Protect extended service plans. Ford Protect has a variety of plans to give you peace-of-mind protection whether you want vehicle component or maintenance coverage. Plus, they are fully backed by Ford and honored at all Ford dealerships in the U.S., Canada and Mexico. When you visit your dealer, insist on genuine Ford Protect extended service plans.

**Insurance Services.** Get Ford Motor Company quality in your auto insurance. Our program offers industry-leading benefits and competitive rates. Call 1-877-367-3847, or visit us at ford.com for a no-obligation quote. Insurance offered by American Road Services Company (in CA), American Road Insurance Agency, a licensed agency and subsidiary of Ford Motor Company.

**Ford Original Accessories.** They’re warranted for whichever provides you the greatest benefit: 24 months/unlimited mileage, or the remainder of your Bumper-to-Bumper 3-year/36,000-mile New Vehicle Limited Warranty. Ford Licensed Accessories (FLA) are warranted by the accessory manufacturer’s warranty. FLA are designed and developed by the accessory manufacturer and have not been designed or tested to Ford Motor Company engineering requirements. Contact your Ford Dealer for details and/or a copy of all limited warranties.
